H. H. RISLEY,

Secretary to the Government of India.

GOVERNMENT OF INDIA.

DEPARTMENT OF REVENUE AND AGRICULTURE.

Rainfall Summary for the seven days ending at 8 hrs., on Thursday, the 5th July 1906, based on the India Daily Weather Reports of the period.

The noteworthy feature of the weather during the week was a depression which formed over the United Provinces on the 30th and then drifted slowly westward to south Rajputana, where it disappeared at the close of the week. Under its influence, monsoon rains extended into the Punjab and Rajputana about the middle of the week and reappeared in Gujarat on the 5th. The Bay current was rather weak, but the Bombay monsoon possessed considerable vigour in the central portions of the country.

In Burma rainfall was light on the coast throughout the week and in the interior it was fairly general on the 29th and 30th June, but from the 1st only isolated falls have been reported. Skies were moderately overcast and temperature which was below normal in upper Burma and in excess in lower Burma at the beginning of the week was everywhere in slight excess at the close.

In northeast India and Orissa there was light to moderate rain from the 29th to the 3rd; but on the 4th only isolated falls occurred and on the next day rather widespread rain in Assam and Orissa. Skies were heavily overcast during the first half of the week and only moderately clouded over during the latter half. Temperature did not differ very much from the normal throughout the period.

In the United Provinces, the extreme east of the Punjab, the east of Central India and the Central Provinces well distributed rainfall occurred on the 29th and 30th June, and for the next four days the rainfall was chiefly associated with the depression, being light and scanty to the north and moderately heavy to the south of it. On Monday the depression began to affect Rajputana, and rain fell over the greater part of it during the next two days. From the 2nd to the 5th almost all of the stations in the Punjab reported some rain and in Gujarat good rain occurred on the last day of the week. Skies were heavily overcast during the greater part of the week in the United Provinces, Central India, the Central Provinces, Rajputana and Gujarat, but in the Punjab and the Frontier Province they were clear or lightly clouded over. Temperature was in very large defect in the west of the United Provinces and adjacent districts of the Punjab at the beginning of the period, but at the close it was in excess. In the other areas just mentioned temperature was normal or in defect.

In the Peninsula, excluding the Central Provinces, rainfall was confined chiefly to the west coast with rain for several days on parts of the Circars coast and a few isolated falls in the interior. Skies were on the average moderately overcast throughout the week, and the weather was slightly warmer than usual.

The rainfall of the period from the 4th May to the 5th July is now below the average only in the northern districts of north-east India, Chota Nagpur, Orissa, the west coast, the south of Madras and Baluchistan: in all other parts of the country it is either equal to or in excess of the normal. The excess occurs chiefly in the central divisions of India.

The following list summarises the chief rainfall amounts of the week, as reported at 8 hrs. each day:

June 29th. Sibsagar 2·44″, Nowgong 2·42″, Mainpuri 1·97″, Agra 1·67″, Meerut 3·12″, Roorkee 5·86″ and Simla 4·81″.

" 30th. Bhamo 2·51″, Gauhati 4·14″, Patna 2·32″, Gaya 3·58″, Bahraich 2·80″, Delhi 2·85″ and Ambala 1·77″.

July 1st. Sutna 3·12″ and Pendra 2·83″.

" 2nd. Burdwan 3·57″, Sambalpur 2·13″, Jubbulpore 4·10″ and Saugor 10·00″.

" 3rd. Chaibassa 2·86″, Benares 1·88″, Neemuch 1·80″, Kotah 6·97″, Sialkot 3·37″ and Dera Ismail Khan 1·60″.

" 4th. Ajmer 1·95″ and Jodhpur 1·79″.

" 5th. Mandalay 1·75″, Veraval 4·30″ and Rajkot 2·48″.

J. PATTERSON,
for Meteorological Reporter to the Government of India
and Director General of Indian Observatories.

J. WILSON,
Secretary to the Government of India.

SIMLA;
The 5th July, 1906.

GOVERNMENT OF INDIA.

DEPARTMENT OF REVENUE AND AGRICULTURE.

Season and Crop Prospects for the week ending Saturday, 30th June 1906.

Burma.—The rainfall of the week was general; it was very heavy in Arakan; heavy in Katha, Shwebo, and the Northern Shan States; and moderate elsewhere. Ploughing for wet-weather paddy is progressing and sowing has also commenced in Kyaukpyu, Prome, and Maubin. Reaping of dry-weather paddy is completed in Minbu. Sowing of hill side paddy is completed in Myitkyina and the Southern Shan States. Transplanting of early wet-weather paddy has commenced in Northern Shan States and reaping in Mandalay. Agricultural operations for wet-weather paddy have commenced in irrigated tracts of Mandalay. Reaping of sessamum has commenced in Kyaukse. Cultivation of sessamum, maize, *jowar*, ground-nut, and cotton continues in several districts. The standing crops are in good condition. The price of paddy has risen considerably in Upper Chindwin; changes are slight at two centres; elsewhere it is stationary.

Eastern-Bengal and Assam.—The weather is seasonable. Abundant rain has fallen in almost every part of the Province and improved the condition. More rain is wanted in Bogra, Bakarganj, and parts of Dacca for tansplanting rice and in Kamrup for tea. Prospects of tea are good in Nowgong and Lakhimpur and fair elsewhere. Harvesting of early rice and jute is in progress in places. Cultivation of late transplanted rice continues. Prospects of crops are generally good in most of the Eastern Bengal districts and Nowgong and fair in other districts, but insects are causing some damage to standing rice crops in Bakarganj and in parts of Mymensingh, Dacca, Tippera, and Sylhet. Fodder is scanty in parts of Bogra. Prices of common rice:—Manipur 13; Kohima $10\frac{1}{2}$; Comilla $9\frac{7}{8}$; Noakhali, Dhubri, Tezpur, Nowgong, and Sibsagar 9; Pabna and Chittagong $8\frac{3}{4}$; Dacca $8\frac{1}{2}$; Dinajpur $8\frac{3}{8}$; Dibrugarh $8\frac{1}{4}$; Jalpaiguri, Rangpur, Malda, Rampur Boalia, Mymensingh, Rangamati, Sylhet, Silchar, and Gauhati 8; Faridpur 7 to 8; Bogra $7\frac{7}{8}$; Barisal $7\frac{1}{2}$; Tura 7; Shillong 6; and Aijal 5 seers per rupee. Prices have slightly risen in five; slightly fallen in seven; and remain stationary in the remaining districts. Scarcity continues in Noakhali and Bakarganj. 63 men, 161 women, and 531 children received gratuitous relief and 1,228 men, 7 women, and 281 children attended test works in Bakarganj during the week ending Saturday; 46 men and 12 children were employed on three test works in Noakhali. The condition of the people is improving in Faridpur.

Bengal.—There was fairly general rain all over the Province during the week, the fall being heavy in the Patna Division and also in Darjeeling and Midnapore but generally light in the rest of the Province. More rain is however needed for transplantation of winter rice which has just commenced in places. Jute and sugarcane are doing well. Some damage to jute and summer paddy by insect pests is reported from the 24-Parganas. District Board works have been opened in Nadia to see if labour would be attracted. Appearance of locusts is reported from Patna, Gaya, Darbhanga, and Manbhum. Fodder and water are sufficient. The price of common rice has risen in four and fallen in six districts, but continues high in most districts.

United Provinces.—There was heavy and well distributed rain throughout the Provinces during the week. The sugarcane crop is flourishing and ploughing and sowings for the autumn crops are being pushed forward vigorously. Fodder is still scarce in parts of the Agra and Allahabad Divisions but the rain is bringing up a plentiful supply of grass. Cholera is disappearing from the districts where it was prevalent. Prices of food-grains have risen in six districts and are falling in four.

The weekly report on the famine and scarcity is as follows:—There was general rain sufficient for agricultural purposes throughout the affected areas. The numbers on relief works have fallen by 40 per cent. Ploughing and sowing are in progress. The standing crops are in good condition. Fodder is still scarce. Distribution of takavi for purchase of seed and plough bullocks continues and free grants for the same purpose will now be made from the funds provided by the Indian Peoples' Famine Trust. Prices of food-grains are stationary except in Banda where they are rising and in Etawah where they have fallen slightly. The numbers on relief are:—Allahabad Division—workers 53,000, on gratuitous relief 58,000; Agra Division—workers 3,000, on gratuitous relief 9,000; total 123,000.

Punjab.—There was good rain during the week in the Delhi Division; slight in Multan; and moderate in other divisions. The prices of food-grains are unsettled; wheat is rising in Ferozepore, Amritsar, Sialkot, Shahpur, and Lyallpur, and falling in Hissar and Rawalpindi. Cutting of tobacco continues in Sialkot and sowing of autumn crops is going on; since the rainfall further autumn sowings have commenced in most districts. More rain is wanted. The condition of the standing extra spring and autumn crops is good; and the yield of extra spring crops is good in Delhi. Cotton has been somewhat damaged by grasshoppers and insects in Ferozepore, Amritsar, Sialkot, Lyallpur, and Multan; sugarcane in Sialkot; and indigo in Multan. Extra spring crops in Mianwali have been destroyed by the heaviest flood of the year in the Indus. Cattle are in good condition except in Gurgaon. Fodder is still scarce in Gurgaon and Ferozepore but the aspect of things will improve now. There are no complaints regarding the water-supply.

The weekly report on the famine and scarcity is as follows :—Rohtak : on works 5,595, on gratuitous relief 6,700, total 12,295. People are generally resorting to the works. There is no wandering or emaciation apparent. The physical condition of the labourers is good and relief measures are sufficient. The public health is generally good.

North-West Frontier Province.—There was good rain all over the Province which has benefitted the extra spring crops. More rain is however needed everywhere. There was a slight fall of hail at Swabi but no damage was done to the crops. The condition of the standing crops on irrigated and unirrigated areas is average. Canal water is sufficient but there is no irrigation from hill torrents in Dera Ismail Khan. Floods have occurred in the Indus Valley, Kurram, and Gambila. The condition of cattle is generally good except in the Bannu district. Stocks of food-grains are sufficient. Fodder is procurable but not in abundance. Prices are fluctuating. Prices :—wheat 14 $\frac{1}{16}$ to 18 $\frac{3}{4}$; gram 16 to 19; *bajra* 13 to 17½; and maize 15 $\frac{5}{16}$ to 20 seers per rupee.

Jammu.—There was good rain during the week. Prices are falling. Prices :—wheat 14 to 25 and maize 16 to 35 seers per rupee. The condition of the standing crops is fair. Fodder is sufficient.

Kashmir.—The weather was generally bright with some rain during the week. Prices are almost stationary. Rice sowings are finished.

Rajputana.—There was good rain during the week in Alwar, the Eastern States and parts of Jaipur, Kotah, and Sirohi, and partial or slight rain elsewhere. More rain is needed in Ajmer-Merwara, Kishengarh, and parts of Jaipur. Ploughing and sowing are in progress generally. The condition of cattle is still poor in affected tracts and in Kotah, but pasturage and water-supply should now improve. Prices have fallen in the hill tracts and Partabgarh; and have risen in Marwar and Kishengarh.

The weekly report on the famine and scarcity is as follows :—Ajmer—on works 9,828, on gratuitous relief 4,161, total 13,989; Merwara—on works 19,666, on gratuitous relief 7,536, total 27,202; grand total 41,191. Native States :—Marwar—on works 2,100, on gratuitous relief 1,563, total 2,663; Mewar—on works 1,996, on gratuitous relief 261, total 2,257; Shahpura—on works 37, on gratuitous relief 84, total 121; Tonk—on works 2,577, on gratuitous relief 979, total 3,556; Jaipur—on works 17,559, on gratuitous relief 674, total 18,233; Kishengarh—on works 3,564, on gratuitous relief 2,987, total 6,551; Alwar—on works 1,755, on gratuitous relief 2,141, total 3,896; Eastern States—on works 9,258, on gratuitous relief 4,470, total 13,728; total in Native States 52,005. Decrease due to commencement of sowings. Grand total 93,196. Prices vary between 12 seers in Karauli and about 15 seers per rupee in Alwar. Sporadic cases of cholera are still reported in Dholpur, Bharatpur and Ajmer-Merwara.

Central India.—Rain was insufficient in Bhopawar and in parts of Gwalior and sufficient elsewhere. Ploughing and sowing are in progress. Agricultural stock is in bad condition in parts of Gwalior, Indore, and Bundelkhand and fair to good elsewhere. Fodder is insufficient in parts of Gwalior and Indore; scarce in Bundelkhand; and indifferent to good elsewhere. Prices are high in Gwalior, Indore, and Baghelkhand; have fallen in Malwa; and are steady elsewhere.

The weekly report on the famine and scarcity is as follows :—The general position is unaltered. Good rain has fallen over the affected area in Gwalior and autumn sowings have begun. Prices in Gwalior vary from 10 to 11 seers per rupee. The numbers on relief are :—on works, Gwalior 45,000, on gratuitous relief 13,000, total 58,000. In Bundelkhand States and Jagirs :—on works 20,000, on gratuitous relief 5,600, total 25,600; grand total 83,600.

Central Provinces.—Light to moderately heavy rain has fallen in all districts during the week; the heaviest falls were in Saugor 14¼, Damoh 8¾, Jubbulpore 6¾, and Bilaspur

5 inches ; the rainfall in the remaining districts ranged from 4½ in Balaghat to 1¼ inches in Nimar. Autumn sowings are in rapid progress everywhere but operations were retarded to some extent by continuous rain in Narsinghpur, Chhindwara, Chanda, Bhandara, and Balaghat. Early sown crops are germinating well almost everywhere. In Chhattisgarh the area sown with rice is said to have increased since last year. Heavy rain and lack of labour is retarding sowing and causing more *til* than usual to be sown in Balaghat where seedling nurseries have been flooded and spoilt. Few immigrants now remain in Saugor and work is plentiful. The condition of the people in Bilaspur continues to be satisfactory. Fodder is scarce in parts of Chhindwara and Chanda and is still dear in Wardha and Akola. Water is now sufficient everywhere. Cattle are dying in parts of Nagpur from gorging fresh green fodder. A slight rise in the price of wheat still continues in the northern districts ; the price of *juar* has risen by 1⅜ seers per rupee in Betul and fallen by 1¼ seers in Nagpur ; rice is cheaper by 1¼ seers in Chhindwara ; the prices of food-grains are still equal to or above the warning rates in nearly all districts, and have reached the scarcity level in Wardha, Chanda, Balaghat, Drug and Bilaspur.

Baroda.—For week ending 23rd June 1906. The numbers on relief are :—on works 2,539, on gratuitous relief 148, total 2,687.

Bombay.—There was general and beneficial rainfall during the week in Panch Mahals, Broach, Surat, Thana, Kolaba, Ratnagiri, Nasik, Kathiawar, Rewa Kantha, Sawantwadi, and Baroda; moderate in Ahmedabad, Kaira, Kanara, Khandesh, Poona, Satara, Kolhapur, Cutch, and Mahi Kantha; and slight in Karachi, Hyderabad, Thar and Parkar, Ahmednagar, Sholapur, Karnatak, and Palanpur. The rain was insufficient in parts of the Karnatak, Poona, Satara, and Nasik. Sowing is generally in progress except in parts of Nasik and Poona where it is retarded owing to deficiency of rain. Seedlings are thriving and transplantation continues in Sind, Surat, and the Konkan. The standing crops have been slightly damaged by locusts in parts of Karachi and Thar and Parkar. The supply of drinking water is still insufficient in Belgaum, Dharwar, and Kathiawar; water is increasing in irrigation canals, tanks, and wells. The deficiency of agricultural stock is being made good from takavi advances. Fodder continues scarce and cattle are not yet improved in condition. The price of local fodder is two to three times above the normal. Trade is active and the stock of food-grains in markets is ample. The quantity of grain purchaseable per rupee in the Deccan is 28 to 57 per cent; in the Karnatak 35 to 49 per cent; in Gujarat and the Konkan 20 to 40 per cent ; and in Sind 10 to 25 per cent less than the normal. The numbers on test works on the last day of the week ending 23rd June were :—Dharwar 184, Phaltan 129, Miraj Junior 181, Kathiawar 1,033, total 1,527. The distress is not acute Agricultural labourers are in fair to good condition ; the people on relief works are generally in good condition and relief measures are adequate. The numbers on relief are decreasing. Returning emigrants get sufficient employment in fields and on other works in their villages. There is no aimless wandering or emaciation reported. The public health is generally good. Cholera is still prevalent in parts of the Deccan, and the Karnatak. The numbers on relief are :—British districts :—Deccan—on works 20,394, on gratuitous relief 38,333, total 58,727 ; Karnatak—on works 14,072, on gratuitous relief 15,482, total 29,554. Native States :—on works 5,543, on gratuitous relief 3,108, total 8,651.

Hyderabad.—Rainfall—1 inch 15 cents. Autumn sowings are general. Early rice has been sown in three taluks. Lands are still being prepared for sowings. Fodder scarcity continues in fifteen taluks. The attendance on road works amounted to 1,193 persons and in poor-houses to 722 persons. Prices have fallen in twenty taluks from a half to four seers per rupee and risen from a half to one seer in seven taluks. Prices:—wheat 8½ ; coarse rice 7¼ ; and *juar* 15 seers per rupee.

Mysore.—There was slight rain during the week in Hassan, Kadur and Shimoga and parts of Bangalore, Kolar, Tumkur, and Mysore. Markets are fairly well supplied but prices are high in Kolar, Hassan, and Shimoga. Sowing and ploughing are in progress. More rain is much needed throughout the Province. Prospects depend on early rainfall. Cattle are unhealthy in parts of Tumkur, Mysore, and Kadur. Water is available except in parts of Shimoga and Hassan. Fodder is insufficient in parts of Tumkur, Mysore, Hassan, Shimoga and Chitaldrug.

Coorg.—Rainfall—1 inch 92 cents. Sowing of rice has commenced. Prices of food-grains are stationary. Water and fodder are sufficient.

Madras.—The rainfall of the week was heavy in the Vizagapatam Agency, Godavari, Kistna, and South Canara ; good in Ganjam, Vizagapatam littoral and Malabar; fair in Guntur and Nilgiris ; and light or no rain elsewhere. The irrigation supplies are insufficient except in Vizagapatam, Godavari, Kistna, Guntur, Cuddapah, Nellore, and Nilgiris. Ploughing, sowing, manuring, weeding, and transplanting are in progress in parts. The standing crops are generally fair but some in parts of Salem and Coimbatore are withering or have withered. Harvests continue in parts with outturn bad to normal and bumper.

Pasture is insufficient except in Ganjam, Vizagapatam, North Arcot, West Coast districts and Nilgiris. Fodder is scanty in parts of Godavari, Bellary, Salem, and Tanjore. The condition of cattle is generally good. The price of rice is stationary in thirteen districts; has fallen in one; and has slightly risen in nine. The prices of millets have fluctuated as follows:—*Ragi* is stationary in eight districts; has fallen in two; and has slightly risen in eleven. *Cholam* is stationary in three districts; has fallen in four; and has slightly risen in seven. *Cumbu* is stationary in eight districts; and has slightly risen in seven.

The number of persons in receipt of relief during the preceding and present weeks in each Province or State is shown in the following table:

Secretary to the Government of India.

No. 5258-37.

GOVERNMENT OF INDIA.

DEPARTMENT OF COMMERCE AND INDUSTRY.

(MERCHANT SHIPPING.)

Simla, the 5th July, 1906.

RESOLUTION.

The following Order in Council, dated the 11th May 1906, superseding the Orders in Council published with the Resolution of the Government of India, Finance and Commerce Department, No. 340-S.R., dated the 19th January 1904, regarding the recognition of the tonnage of Italian ships, is published for general information.

W. L. HARVEY,

Secretary to the Government of India.

ORDER IN COUNCIL.

AT the Court at *Buckingham Palace,* the 11th day of May, 1906.

PRESENT:

THE KING'S MOST EXCELLENT MAJESTY IN COUNCIL.

WHEREAS by Section 84, sub-section 1, of the Merchant Shipping Act, 1894, it is enacted that whenever it appears to His Majesty the King in Council that the tonnage regulations of the said Act have been adopted by any foreign country, and are in force there, His Majesty in Council may order that the ships of that country shall, without being re-measured in His Majesty's dominions, be deemed to be of the tonnage denoted in their certificates of registry or other national papers in the same manner, to the same extent, and for the same purposes as the tonnage denoted in the certificate of registry of a British ship is deemed to be the tonnage of that ship.

And whereas it appears to His Majesty that the tonnage regulations of the said Act have been adopted by the Government of His Majesty the King of Italy, and are now in force in that country, having come into operation on the 10th February, 1906 :

HIS MAJESTY is pleased, by and with the advice of His Privy Council, to order that the merchant ships of the said Kingdom of Italy, the measurement of which shall, after the 10th February, 1906, have been ascertained and denoted in the certificates of registry or other national papers of such ships, shall be deemed to be of the tonnage denoted in such certificates of registry or other national papers, in the same manner, to the same extent, and for the same purposes as the tonnage denoted in the certificate of registry of a British ship is deemed to be the tonnage of that ship :

And His Majesty is further pleased to direct that the Orders of Her late Majesty in Council, dated respectively the 30th day of September, 1873, the 14th day of February, 1883, and the 23rd day of November, 1893, be, and the same are hereby revoked.

A. W. FitzRoy.

The Gazette of India.

PUBLISHED BY AUTHORITY.

CALCUTTA, SATURDAY, JULY 7, 1906.

Separate paging is given to this Part in order that it may be filed as a separate compilation.

PART II.

Notifications by High Court, Comptroller General, etc.

GAZETTE OF INDIA.

NOTICE.

The 21st March 1906.

From the 7th April next till further notice, Parts I, IV, V, and VI of the *Gazette of India* and the Weather and Crop Report will be published at Simla. After the 31st March all Notifications and other matter intended for publication in those Parts should be addressed to the Officiating Publisher at Simla.

Attention is invited to the following Circular Memorandum of the Government of India, Home Department, of August 1901:—

"It has been brought to the notice of this Department that matter for the *Gazette of India* is sometimes sent to the Press late on Friday evenings for publication in the next day's Gazette, and that this involves considerable inconvenience to the Press and expense to Government. In the Circular Memorandum of this Department, No. 777—79, dated 9th February 1870, the Government of India directed that all notifications or other matter intended for insertion in the *Gazette of India* should be delivered at the Press not later than 2 P.M. on Friday, and that any papers sent thereafter must be certified to be extremely urgent in order to ensure their appearance in the next day's Gazette. The undersigned is directed to request that these orders may be more strictly observed in future, and that Departments will refrain from sending to the Press as extremely urgent any papers which can without harm or inconvenience be held over for the next Gazette."

J. P. HEWETT,
Secretary to the Government of India.

Rates of subscription.	Per annum.

J. J. MEIKLE,
Publisher, Gazette of India.

GOVERNMENT OF INDIA.

DEPARTMENT OF COMMERCE AND INDUSTRY.

INVENTIONS and DESIGNS.

Calcutta, the 5th July 1906.

NOTIFICATIONS.

No. 2626 P.—APPLICATIONS in respect of the undermentioned inventions have been filed, under the provisions of the Inventions and Designs Act of 1888, in the office of the Secretary appointed under that Act during the week ending 30th June 1906:—

No. 320 of 1906.—Paran Chundra Chatterjee, employed in B. N. Railway, of No. 10 Guru Prosad Choudhery's lane, Calcutta. *An improved fly shuttle loom to be called the "Sree Krishna" loom.*

No. 321 of 1906.—James Henry Rossenrode, proprietor of Rossenrode and Company, civil and military saddlers and bootmakers, the Mall, Rawalpindi and Murree. *An improved simplex gaiter.*

No. 322 of 1906.—Valdemar Poulsen, engineer, of 22 Steen Blichersvej, Frederiksberg, in the kingdom of Denmark. *Improved methods of signalling in wireless telegraphy.*

No. 323 of 1906.—Bryant and May, Limited, manufacturers of Fairfield Works, Bow, London, England. *Improvements in machines for filling boxes with matches, or the like.*

No. 324 of 1906.—Hugh Reid, Chief Managing Director of the North British Locomotive Company, Limited, Hydepark Works, Springburn, in the county of Glasgow, Scotland, and David MacNab Ramsay, engineer, of 2 Sunnyside Avenue, Uddingston, in the county of Lanark, Scotland. *Improvements in locomotives.*

No. 325 of 1906.—O. Kjellstrom, engineer, of Sveavagen 104, Stockholm, Sweden. *Improvements in or relating to the manufacture of concrete and like pipes.*

No. 326 of 1906.—Arthur Arnauld Rose, engineer, of Victoria road, Jubbulpore, Central Provinces, British India. *Improvements in keys for railway chairs.*

No. 327 of 1906.—Archibald A. Crawford, engineer, of 9 Meadows street, Bombay *Improvements in electric supply plant for railway carriages.*

No. 328 of 1906.—Sait Mutumull and Sait Naraindas, contractors and manufacturers, of Brick Lime and Surkhi of Sukkur, Sind. *Improvements in the construction of reservoirs for obtaining and storing water for drinking or other purposes.*

No. 329 of 1906.—William Adron Ragsdale, gentleman, of New Orleans, county of Orleans, state of Louisiana, United States of America. *Cotton seed delinting machine.*

No. 2627 P.—SPECIFICATIONS of the undermentioned inventions have been filed, under the provisions of the Inventions and Designs Act of 1888, in the office of the Secretary appointed under that Act, and copies have been sent to the Governments of Madras, Bombay, and Burma, and the Director of the Department of Land Records and Agriculture, United Provinces of Agra and Oudh. These and other specifications are open to public inspection, from 11 A.M. to 3 P.M., at the Secretary's office, 2 Bankshall street, Calcutta, on payment of a fee of one rupee, and a certified copy of any one of them will be supplied on payment of the fixed expenses of copying:—

No. 486 of 1905.—Hahnemann Adolphus Cutmore, engineer, of 115 Queen Victoria street, London, and The Telaupad Syndicate, Limited, of 10 Coleman street, London. *Improvements in or relating to telephone or like transmitters.* (Specification filed 8 June 1906.)

No. 240 of 1906.—John I. Solomon, electrical engineer, of No. 51 West 81st street, New York city, New York, United States of America. *Improvement in process and apparatus for accomplishing the examination of matter or objects in quantities.* (Specification filed 22 June 1906.)

No. 2628 P.—THE fees prescribed in the fourth schedule to the Inventions and Designs Act of 1888 have been paid for the continuance of exclusive privilege in respect of the undermentioned inventions for the periods shown against each :—

No. 373 of 1895.—Alexander Muirhead. *Improvements relating to transmission of signals through submarine telegraph cables.* (From 3 July 1906 to 3 July 1907.)

No. 87 of 1899.—Peter Donaldson. *Improved water flush.* (From 12 August 1906 to 12 August 1907.)

No. 209 of 1899.—The Westinghouse Brake Company, Limited. *Improvements in buffer and drawbar apparatus.* (From 15 December 1906 to 15 December 1907.)

No. 312 of 1899.—George Westinghouse. *Improvements in electro-pneumatic controlling apparatus.* (From 15 December 1906 to 15 December 1907.)

No. 229 of 1901.—Arthur Koppel. *An arrangement for retaining in position the trough-shaped body of a tipping wagon.* (From 2 August 1906 to 2 August 1907.)

No. 87 of 1902.—Benjamin Garver Lamme. *Improvements in dynamo electric generators.* (From 2 July 1906 to 2 July 1907.)

No. 2629 P.—WHEREAS the inventors of the undermentioned inventions have respectively failed to pay, within the time limited in that behalf by the fourth schedule to the Inventions and Designs Act of 1888, the fees hereinafter respectively mentioned, it is hereby notified that under the provisions of section 8, sub-section (2), of the said Act the exclusive privilege of making, selling, and using the said inventions in British India, and of authorising others so to do, has ceased :—

No. 268 of 1901.—Jahar Lal Dhar. *Magnetic lock and key.* (Specification filed 25 March 1902.)

No. 342 of 1901.—John Stewart Stewart-Wallace and William Blackwell Cowell. *Improvements relating to the treatment of mineral or vegetable oils or the distillates or residuals thereof.* (Specification filed 29 October 1901.)

No. 473 of 1901.—Claude Kennedy Mills. *Improvements in processes for the production of camphor, pinyl oxalate, and pinyl formate* (Specification filed 26 March 1902.)

Fee in respect of the continuance of an exclusive privilege—

4 (*a*) After the filing of the specification and before the expiration of the fourth year from the date of the filing thereof—

The sum of R50 for each of the above inventions.

NOTICES.

All communications relating to applications for leave to file specifications and for registration of designs under the Inventions and Designs Act, 1888 (V of 1888), or in continuation of such applications, should be addressed to the Patents Secretary, 2, Bankshall Street, Calcutta.

The Office of the Secretary under the Inventions and Designs Act, 1888, will in future be open for the transaction of business from 11 A.M. to 3 P.M. on all days, except Sundays and gazetted holidays.

The Government of India are advised that, as trade marks are not "designs" within the meaning of the Act, they cannot be registered under Part II.

The fees payable under the fourth and sixth schedules are now collected in cash and applicants are warned that they must be responsible for any delay in cashing cheques.

Cheques and money orders will only be accepted if made payable *at Calcutta* to the Secretary under the Inventions and Designs Act.

Copies of the weekly notifications, and of the quarterly lists, of applications and specifications filed in the Secretary's Office are now on sale to the public at one anna and eight annas a copy, respectively. A consolidated index for the year 1905, entitled "Inventions and Designs in 1905," is also on sale, price one rupee. It contains a chronological list, subject-matter and name indexes of exclusive privileges for inventions, which have been obtained or applied for in that year, together with lists of designs applications.

Attention is requested to the rules made by the Government on the 10th October 1895 in regard to the prepalation of applications, specifications and drawings.

All applications made under the Inventions and Designs Act, V of 1888, will from this date (December 19th, 1896) lie in the visitors' room of the Patents Office for ten days from the date of the *Gazette of India* in which their filing may have been notified: or, if the 10th day is a holiday, till the evening of the office day next following.

At the time of delivering or sending an application for leave to file a specification, the applicant shall cause a duplicate copy of the application to be delivered or sent therewith to the Secretary.

The Inventions and Designs Act (V of 1888), with the notifications and rules issued under its provisions and the notices of the office of Inventions and Designs, to which is added an explanatory memorandum for the guidance of persons applying for protection of Inventions and Designs. Royal 8vo. volumes, paper cover, 13 annas or *1s. 1d.* Postage extra. To be had of the Superintendent, Government Printing, 8, Hastings Street, Calcutta, or of the Superintendent, Patents Branch, Department of Commerce and Industry, 2, Bankshall Street, Calcutta.

H. G. GRAVES,
Secretary under the Inventions and Designs Act, V of 1888.

D. C. PHILLOTT, Lieut.-Col.,
Secretary, Board of Examiners.

CIVIL ENGINEERING COLLEGE, SIBPUR.

Agricultural Department.

HIGHER AGRICULTURAL CLASS.

(Session 1906-1907.)

Rules for Admission.

For admission to the Higher Agricultural Class, an applicant must have one of the following qualifications :—

(i) He must have passed the F. E. Examination of the Calcutta University, and be under 23 years of age, but no student will be allowed to join the Agricultural Class after the expiration of five years from admission into the Engineering College.

(ii) He must have passed the B. A. Examination of the Calcutta University by the B. Course or possess other sufficient educational qualifications ; be under

23 years of age, and, in addition, have received a nomination from the Bengal Government.

(iii) He must have had a general education qualifying him to follow the instruction in the Higher Agricultural Class, and must also receive a nomination from Government for admission as a special student. To be eligible for a nomination under this rule, a candidate must either have landed property of his own or be recommended by some influential landholder who desires to train him to take part in the management of his estate, or he must otherwise satisfy Government that he intends to make practical use of his agricultural training. Students entering under this rule will be termed Special Agricultural students. They will not be subject to any maximum limit of age, but will not be entitled to the privileges conferred on passed students under rules 12 and 13, even though they should obtain fully-signed diplomas in due course after passing the necessary examinations.

Every candidate for admission to this Department must apply in writing to the Principal not later than the 14th July. The form of application for a nomination, which must be addressed to the Principal, is given in Appendix B. In the event of the form not being properly filled up and accompanied by the necessary certificates, no notice will be taken of the application.

The number to be nominated each year will depend on the accommodation available.

Every applicant, not already a student of the College, must undergo a medical examination by the College Surgeon before admission to this Department. If this officer's report is unsatisfactory, the applicant will not be admitted.

The session begins on the first Monday in November. All students are required to join the College on that day. Any student prevented by sickness from attending on the opening day must produce a certificate to that effect from a Civil or Assistant Surgeon, failing which he will be liable to a fine not exceeding R10. No student will be admitted or re-admitted to the College after the month of November, except by special orders of the Director of Public Instruction. This permission will only be given under exceptional circumstances.

Course of Instruction.

The course of instruction in the Higher Agricultural Class will extend over two academic years.

Scholarships.

Senior scholarships awarded in the Engineer Department are tenable in the Agricultural Department.

One scholarship of R30 a month, tenable for one year, will be awarded on the result of the examination held at the end of the first academic year.

Appointments.

Two appointments annually are assigned to students holding a fully-signed diploma, one in the Provincial Executive Service and one in the Subordinate Executive Service. The right of selection for these appointments will rest with Government, and the students who gained the highest marks at the examination for diplomas will not necessarily be selected.

Entrance and Tuition Fees.

Each student in the Higher Agricultural Department will be required to pay an *admission fee* of R10.

F. E.'s who elect to join the Agricultural Department immediately after passing the F. E. Examination are exempted from the payment of this fee, as their names are already borne on the College books.

For the present no tuition fees will be charged to students in the Agricultural Department, except in the case of those joining as special students under rule 3 (iii). The tuition fees for these students will be R8 a month.

Further particulars may be obtained free on application to the Principal.

B. HEATON,
Principal, Civil Engineering College, Sibpur.

SIBPUR;

No. 2743.—Under the provisions of section 30 (3) of the Punjab Military Transport Animals Act I of 1903, which has been extended to the districts of the North-West Frontier Province by his Notification No. 472-G., dated 8th March 1904, the Chief Commissioner is hereby pleased to authorize all Deputy Commissioners of districts in the North-West Frontier Province to sanction, within their respective jurisdictions, the institution of prosecutions under the said Act.

The 28th June 1906.

No. 2773.—Whereas the Municipal Committee of Peshawar has applied to the Local Administration under the provisions of section 40 of Act XX of 1891 (the Punjab Municipal Act); and whereas it appears to the Agent to the Governor-General and Chief Commissioner, North-West Frontier Province, that land is required by the said Municipal

Committee for a public purpose, namely, for the construction of stables for the Peshawar Hostel and for a road or pathway round the outside of the hostel wall, it is hereby declared that the undermentioned land is required for the said purpose.

Specification of land.

District.	Tahsil.	Mauza.	Area in acres.	Directions.	Boundaries.	Places where the plan may be inspected.
			Pole.			
Peshawar .	Peshawar .	Peshawar .	20·2	North .	Road.	Office of the Deputy Commissioner, Peshawar.
				East .	Land of L. Sarbdial and M. Abdul Latif.	
				West .	Hostel .	
				South .	Canal and land of L. Sarbdial.	

This declaration is made under the provisions of section 6, Act I of 1894, and under section 7 of the said Act, the Deputy-Commissioner of Peshawar is hereby directed to take order for the acquisition of the said land.

The 2nd July 1906.

No. 2794.—In continuation of Punjab Government Notification No. 1457, dated 8th October 1889, it is hereby notified that the following bye-laws framed by the Municipal Committee of Kohat under section 92 of the Punjab Municipal Act, XX of 1891, have been confirmed by the Chief Commissioner, North-West Frontier Province, under section 146 (1) of the said Act, and will come into force within the Kohat Municipality six weeks from the date of publication of this Notification.

(1) Every person giving notice under sub-section (1) of section 92 of the Municipal Act, XX of 1891, shall along with his notice forward—

(*a*) a site plan of the land on which he proposes to erect or re-erect the building,

(*b*) particulars as to places where building materials are to be kept during the construction of the building.

C. RAWLINSON, Major,

Revenue and Financial Secretary to Chief Commissioner,
North-West Frontier Province.

EASTERN BENGAL STATE RAILWAY.

NOTIFICATION.

Calcutta, the 3rd July 1906.

No. 6.—In continuation of this office Notification No. 4, dated 18th April 1906, Mr. W. Beechey, Executive Engineer, 1st grade, has been granted by His Majesty's Secretary of State for India two months' leave on Medical Certificate in extension of the combined leave already granted to him.

H. P. BURT,

Manager.

SURVEY OF INDIA.

NOTIFICATION.

Calcutta, the 6th July 1906.

No. 4—*R*2-187.—Babu Abinash Chandra Bose, Extra Assistant Superintendent, 6th grade, is granted privilege leave for one month, under Article 260 of the Civil Service Regulations, with effect from the forenoon of the 13th June 1906 or any subsequent date.

T. F. B. RENNY-TAILYOUR, Bt. Lieut.-Colonel, R.E.,

for Deputy Surveyor General.

ORDERS BY THE HON'BLE THE VICE-CHANCELLOR AND SYNDICATE OF THE CALCUTTA UNIVERSITY.

1. In modification of the list of successful candidates at the recent F. A. Examination already published, it is hereby declared that—

(*a*) Roll Bur. 25, Binayendraprasad Bagchi of the Burdwan Raj College has passed in the First Division and not in the Second as previously announced. His position, in order of merit, is at the bottom of the First Division list.

(*b*) Roll Cal. 571, Haripada Ghosh, St. Xavier's College, has passed in the Second Division and not in the Third as previously announced.

(*c*) The position, in order of merit, of Prabodhchandra Ghosh of the General Assembly's Institution in the lists of successful candidates in the First Division is 39th instead of 44th as previously announced.

(*d*) Cal. 737, Makhanlal Bandyopadhyay of the Bangabasi College is declared to have passed the F. A. Examination in the Third Division.

2. Psalms 42—89 are prescribed as the Poetry text in Hebrew for the F. A. Examination in 1908 and not Psalms 42—79 as previously notified.

C. LITTLE,
Registrar,
Calcutta University.

FINANCE DEPARTMENT.

NOTIFICATION.

ACCOUNTS AND FINANCE.

PUBLIC DEBT.

No. 3676-A.

Simla, the 14th July, 1906.

THREE-AND-A-HALF PER CENT. LOAN.

His Excellency the Right Honourable the Governor General in Council has resolved to borrow four hundred and fifty lakhs of rupees for the public service in the following manner :

2. Promissory Notes will be issued for the said amount in the Form annexed to this Notification, being the form of the notes of the *Three-and-a-half Per Cent. Loan of 1900-01,* of which loan the notes to be now issued will form a part. All the conditions which apply to notes of the *Three-and a-half Per Cent. Loan of 1900-01,* will apply to the notes to be now issued. The interest on the notes of that loan is payable half-yearly on the 30th day of June and the 31st day of December ; and the notes are not liable to discharge before the 31st day of December 1920.

Tenders.

3. Tenders for the whole or any part of the said amount of Rs. 4,50,00,000 will be received by the Comptroller General from this date to noon, standard time,* of Tuesday, the 31st July next. Tenders must be for sums of 100 Rupees or multiples of that sum.

4. Each tender must be addressed, in the form annexed to this Notification, to the Comptroller General, Calcutta, and enclosed in a closed cover, superscribed "*Tender for the Three-and-a-half Per Cent. Loan.*" If the tenderer is not resident in India, he must name an agent resident in India to whom an allotment-certificate may be issued, if any part of the loan is allotted to such tenderer.

NOTE (1).—Tenders made in accordance with these instructions will also be received by the Accountants General at Madras, Bombay, Allahabad, and Lahore, on account of the Comptroller General, Calcutta, on the 30th July and up to noon, standard time * on the 31st July, provided that—

(*a*) they are delivered personally or by clerk or messenger at the Accountant General's Office (where a receipt will be given for them) ;

(*b*) they are made on printed forms, to be obtained at the same office or at the local Presidency Bank ;

(*c*) each tender is for not less than Rs. 10,000 ;

(*d*) the deposit is either a promissory note or a Treasury Receipt from the local Office of the Presidency Bank, or a cheque on a local Bank in favour of the Accountant General ;

(*e*) the amount of the tender is made payable at the place of tender (Madras, Bombay, Allahabad, or Lahore, as the case may be) or in Calcutta ;

and the Accountant General will return deposits on non-accepted tenders and will issue allotment-certificates so far as the tenders are payable in Madras, Bombay, Allahabad, or Lahore.

* Noon, standard time, corresponds to 12-24 P.M., Calcutta time.

5. The rate at which each tender is made must be specified in rupees or rupees and annas; a tender in which no rate is thus specified, but a subscription is offered in some other terms—as, for example, at the recorded minimum, or at some specified percentage in addition to the recorded minimum, or at the average of the accepted tenders—will be rejected as null and void.

6. The rate at which a tender is made must not contain a fraction of an anna; if a rate containing a fraction of an anna is inserted in any tender, such fraction will be struck out and the tender treated as if the rate did not contain such fraction of an anna.

Deposits.

7. Each tender must be accompanied by a deposit of not less than one-hundredth or, if the tender be for less than Five Lakhs of Rupees, then for not less than one-fiftieth part of the tender. The deposit must be in one of the following forms: (*a*) a receipt for the amount from the Head Office of the Bank of Bengal, or Madras, or Bombay, or one of their Branches, or from an officer in charge of some Public Treasury, or (*b*) a cheque drawn in favour of the Comptroller General on a Bank in Calcutta, Madras, Bombay, Allahabad, or Lahore, or (*c*) Government Promissory Notes[1] standing in the name of, or endorsed to, the tenderer or the person making the deposit.

[1] *It is particularly requested that such Promissory Notes may NOT be endorsed to the Comptroller General.*

8. (*a*) Deposits not being promissory notes, will, in the case of accepted tenders, be credited proportionately in part payment of the allotment-certificates issued in respect of the tender, and will bear interest for the purpose of clause 16 below from the date of the opening of tenders. When a tender is not accepted in full, the deposits, when they are not in the form of promissory notes, will be credited as far as possible proportionately in part payment of the allotment-certificates issued in respect of it. If any allotment-certificate is not fully taken up, the deposit credited in respect of it will be forfeited.

(*b*) Promissory notes deposited in respect of any accepted tender will be held until all the allotment-certificates issued in respect of the tender are paid up, and will, if the allotment-certificates are not fully taken up, be appropriated by the Government and cancelled.

Opening of tenders.

9. The minimum rate at which tenders will be accepted will be recorded under the signature of the Comptroller General, and, before the tenders are opened, placed upon the table in a sealed envelope, but will not be declared unless some tender is rejected only because it is below the recorded minimum.

10. Tenders will be opened publicly by the Comptroller General at the Treasury Buildings, Calcutta, at noon, standard time,* on Tuesday, the 31st July next, and those received under the terms of note (1) to clause 4 will be similarly opened by the Accountants General at Madras, Bombay, Allahabad, and Lahore at noon, standard time, on the same day; but the contents of the tenders will not be disclosed otherwise than as provided in clause 12.

11. Tenders at rates not below the minimum rate will be accepted in the order of the rates tendered, beginning with the highest rate. The amount allotted at the lowest rate at which tenders are accepted will be divided amongst those who have tendered at this rate in proportion, as nearly as may be found convenient, to the amounts of their tenders; provided that no allotment will be issued if the amount distributable on any tender is less than Rs. 100: preference will however be given to small tenders, not exceeding Rs. 2,000, at the lowest accepted rate, such tenders receiving allotments in full as far as possible.

Allotment-Certificates.

12. To each tenderer (or to his agent) whose tender is accepted in whole or in part such number of allotment-certificates as may be necessary to make up the aggregate amount allotted to him will be issued by the Comptroller General[2] as soon as possible

[2] For tenders received by the Accountant General at Madras, Bombay, Allahabad, or Lahore, and payable at those places the Accountant General will issue the allotment-certificates.

* Noon, standard time, corresponds to 12·24 P.M., Calcutta time.

after the 31st July and an alphabetical list of the names of those to whom such allotment-certificates are issued will be posted for general information at the Head Offices of the Banks of Bengal, Madras, and Bombay, and at the Branch Offices of the Bank of Bengal at Allahabad and Lahore.

13. If the allotment made on any tender is less than Rs. 3,000, then the whole of the allotment-certificates [after credit of the deposit under clause 8 (*a*)] will be made payable upon the 5th September.

Otherwise the whole amount of each allotment will be divided into three instalments as follows :

Instalment I.—As near as convenient to 35 per cent. but not exceeding 35 per cent. payable upon the 15th August:

Instalment II.—As near as convenient to 35 per cent. but not exceeding 35 per cent. payable upon the 5th September:

Instalment III.—The balance payable upon the 8th October:

and allotment-certificates will be issued for each instalment separately.

But the whole or any part of any accepted tender may be paid at any time after receipt of the allotment-certificates.

The words " as near as convenient " refer to the necessity for making each instalment an exact multiple of Rs. 100.

14. Any allotment-certificates will, on application to the Comptroller General, be exchanged for an equivalent amount of allotment-certificates of smaller denominations; provided that if any payment (beyond the deposit) is recorded upon the cancelled certificate, it can be taken against, and recorded upon, only one of the certificates issued in exchange.

15. Payment of any allotment-certificate may be made to the account of the Government in the Head Office of the Bank of Bengal or Madras or Bombay, or in any Branch of these Banks, or into any Public Treasury or Treasuries in India which may be named in the tender in respect of which it was issued. Receipts for such payments will be given by the Banks of Bengal, Madras, and Bombay, or their Branches, or by the officers in charge of the Government Treasuries at which payment is made by enfacement upon the relative certificate.

Issue of Promissory Notes.

16. (*a*) When any allotment-certificate is fully paid up, the holder will, on presenting it duly receipted at the place where it was paid, obtain from the Public Debt Office, Calcutta, promissory notes of such values as he may desire (each note being in even hundreds and not less than Rs. 100) bearing interest from 31st December 1906, and he will also receive interest at 3½ per cent. per annum from the dates on which he may have made payment till the 30th December 1906.

(*b*) Or he may, at his option, by paying interest at the said rate from 30th June 1906 to the dates on which he may have made payment, obtain promissory notes as above, bearing interest from 30th June 1906.

FORM OF PROMISSORY NOTE (see Clause 2).

Fort William, the .

Promissory Note *Government Rupees* *at 3½ per cent.*

No. *of 1900-01.*

The Governor General of India in Council does hereby acknowledge to have received from

the sum of Government Rupees One Hundred only as a loan to the Secretary of State in Council for India, and does hereby promise, for and on behalf of the said Secretary of State in Council to repay the said loan, by paying the said sum of Government Rupees one hundred only to the said , his Executors, or Administrators, or his or their Order, on demand, at the General Treasury, at Fort William, after the expiration of Three

Months' Notice of Payment, to be given by the Governor General of India in Council, in the *Government Gazette*, and to pay the interest accruing on the said sum of Government Rupees One Hundred only from the at the rate of three-and-a-half per cent. per annum, by half-yearly payments, at the General Treasury, at Fort William, to the said , his Executors, or Administrators, or his or their Order, until the expiration of three months after such notice of payment as aforesaid, when the amount of interest due will be payable with the principal, and (such notice being considered as equivalent to a tender of payment at the period appointed for the discharge of this note) all further interest shall cease.

The Governor General in Council hereby further engages that Notice of Payment as aforesaid shall not be given before the Thirtieth day of September 1920, and that this Note shall not be discharged before the Thirty-first day of December 1920.

FORM OF TENDER (see Clause 4).

I, *A. B.*, hereby tender for Rupees (X) of *The Three-and-a-half Per Cent. Loan* advertised in the Notification published in the *Gazette of India, Extraordinary,* dated the 14th July 1906, and agree to pay for the same, subject to the conditions notified, at the rate of Rupees (Y) annas (Z) for every hundred rupees allotted to me.

I enclose a *deposit receipt** for Rupees (XX), and engage, if my offer be accepted, to pay to the account of the Government at the *Bank of†* *or at the†* *Branch of the Bank of†* *; or into the Public Treasury at†* *; as the case may be—*

* Or cheque or Government Promissory Note.

† Here enter the name of Bank, Branch Bank or Treasury.

The first instalment, as near as convenient to 35 per cent., but not exceeding 35 per cent., on or before the 15th August 1906.

The second instalment, as near as convenient to 35 per cent., but not exceeding 35 per cent., on or before the 5th September 1906.

The balance on or before the 8th October 1906.

Or, if the amount allotted to me be less than Rs. 3,000, then the whole amount on or before the 5th September 1906.

Any allotment made to me may be communicated to *C.D.* at ‡ .

‡ Here insert *C. D.'s* address which must be in India. This paragraph should only be inserted if *A. B.* does not reside in India, or, if residing in India, he wishes the allotment communicated to an agent, or desires to pay the instalments elsewhere than at the place where the tender is submitted, and wishes the allotment-certificates to be given to an agent at that place.

NOTE.—(*1*) *A separate tender must be made at each rate tendered. The rate tendered should be the whole amount per centum, not the premium or discount: thus "One hundred and two" or "One hundred" or "Ninety-nine," not "Two per cent. premium" or "Par" or "One per cent. discount."*

By order of the Governor General in Council,

O. T. BARROW,

Secretary to the Government of India.

NOTIFICATION BY THE COMPTROLLER GENERAL.

The Comptroller General requests the attention of tenderers to the following arrangements:

Filling up tenders.

(1) They are requested to use only the printed forms of tender, which will be available at his Office and at the Currency Office on application to the Darwan on duty, at all the Provincial Account Offices, and at the Banks of Bengal, Madras, and Bombay, and will also be supplied to the Principal Treasuries.

(2) If the deposit is in the form of Promissory Notes or of Currency Notes, their number should be quoted in detail in the tender.

Presentation of tenders.

(3) For all tenders presented to him in his office upon the last fixed day, or the two days preceding it, he will give the bearer a receipt bearing a number and initialled by himself or an assistant specially deputed for the purpose. The Accountants General at Madras, Bombay, Allahabad, and

Lahore will do likewise in respect of tenders presented to them under note (1) to clause 4 of the Government Notification.

Return of Deposit in case of Non-acceptance.

(4) The reverse of this receipt is a form in which, in the event of the tender not being accepted, the tenderer may give to the Comptroller General or Accountant General a receipt for the deposit accompanying it. This form should, on the third day after the opening of the tenders, be filled up, signed with the same signature as the tender, and be presented at the Office of the Comptroller General or Accountant General. The deposit will then be returned to the bearer in exchange for the receipt.

(5) Deposits upon tenders presented personally, as described in No. (3) above, will be returned only in this way, and will not be sent by post or otherwise. Deposits upon other unsuccessful tenders will be returned by post or by the hands of a clerk.

Accepted Tenders.

(6) The Comptroller General and the Accountant General at Madras, Bombay, Allahabad, or Lahore (in the case of tenders received by such Accountant General and payable in Madras, Bombay, Allahabad, or Lahore), will issue allotment-certificates to successful tenderers. These certificates will be for the following amounts:—Rs. 100, Rs. 300, Rs. 500, Rs. 1,000, Rs. 2,000, Rs. 5,000, Rs. 10,000, Rs. 20,000, Rs. 50,000, Rs. 1,00,000, making up the full value accepted; and the deposit on the tender will be divided among them; they will be substantially of the following form :

This is to certify that, in accordance with the terms of Notification No. 3676-A., dated the 14th July 1906 (Gazette of India, Extraordinary, *dated the 14th July 1906*), *the above-named tenderer has engaged to take up Rs. 2,000 of the 3½ Per Cent. Loan of 1900-01 at the rate above mentioned on or before ; and that on the said payment being completed, he is entitled on endorsing and delivering up this certificate to receive a promissory note or notes of the Government of India for Rs. 2,000 bearing interest from .*

CALCUTTA;
The 14th July, 1906.

II.—Subject to the conditions—

(*a*) that a professor of any language cannot obtain a reward in that language,

(*b*) that no officer will be permitted to receive rewards for passing by a given standard in more than two vernacular and two classical languages,

any officer of the Indian Educational Service may present himself for examination in any language recognized by Rule 1 in respect of the province in which he is serving.

III.—No officer will ordinarily be permitted to present himself for examination more than twice in any one language, but on the special recommendation of the examiners a candidate may be allowed to attend a third examination.

Officers who are natives of India shall not be eligible for rewards for passing the examination in the vernacular of the district in which they were born or educated. The local Government will determine in each case what languages come within this definition.

IV.—No officer will be permitted to present himself for the high proficiency or honour examinations in any language after the expiration of seven and twelve years respectively counted from the date of his first appointment to the Indian Educational Service. No exception to this rule will be made on account of leave or any other cause.

V.—Examinations will be held on the first Monday in the months of January, April, July and October of each year by the Board of Examiners at Calcutta and by the Civil and Military Examination Committee at Bombay, and half-yearly in the months of January and July of each year by the Board of Examiners at Madras. Examinations both in Burmese and in Pali will be conducted in Rangoon. Officers desirous of attending examinations should apply to the local Government through the Director of Public Instruction at least three months before the date of the examination. The Director will certify as to their eligibility under rule IV.

VI.—The subjects for the high proficiency and honour examinations and the text-books will be those prescribed in the rules for the examinations of junior civil servants. The regulations and lists of text-books prescribed for the examination may be obtained upon application to the Director of Public Instruction.

VII.—Successful candidates for the degree of honour will be arranged in two divisions according to the number of marks obtained. For the first division, 80 per cent. of the marks must be obtained in all subjects, and not less than 60 per cent. in any one paper; for the second division, 60 per cent. must be obtained in all subjects, and not less than 45 per cent. in each paper. The reward and diploma will be granted only to those passing in the first division, and their names only be published in the *Gazette of India* / *Madras Gazette* / *Bombay Gazette*. Those passing in the second division will be deemed to have passed for the purposes of leave and travelling allowance rules, but they will not be allowed the benefit of those rules on a second occasion, should they elect to compete again for the reward of a degree of honour.

No. 403.—The following additions should be made to the rules for the encouragement of the study of oriental languages among the junior members of the Indian Civil Service published with the Home Department notification no. 708, dated the 27th October 1905.

In the second paragraph of the preamble insert " Assamese, " before " Persian " in the first sentence and substitute the following for the second sentence: " In respect of Assamese, Persian and Arabic they will come into effect from the 1st April 1907, and the 1st April and 1st July 1906, respectively."

In rule I within the bracket against the words " high proficiency " insert " Assamese† ......1,000 " between " Bengali " and " Uriya " and add the following footnote :

" †As an alternative to Bengali : rewards cannot be earned in both languages."

In rule II insert " Assamese," after " Bengali."

In rule X between " Bengali " and " Uriya " insert the following :

" Assamese . { Ramayana—by Sankara Deb (207 pages, up to the end of the Aranya Kanda).
Assam Buranji—by Srijut Kasinath Tamuli Phukan—1844 edition (the whole).
Assam Buranji—by Srijut Padmanath Barua—1902—(the whole)."

In the detailed list of authorized or recommended text-books appended to the rules insert the following after " Bengali " :

" Assamese .	Ramayana—by Sankara Deb. Assam Buranji—by Srijut Padmanath Barua.	Srijut Sibnath Bhattacharya, Dibrugarh, or Lila Agency, Tezpur.
	Assam Buranji—by Srijut Kasinath Tamuli Phukan.	Board of Examiners, Calcutta."

No. 418.—In the rules for the encouragement of the study of oriental languages among the junior members of the Indian Civil Service published with the Home Department notification no. 708, dated the 27th October 1905, the Government of India are pleased to make the following additions with reference to the examinations in Arabic :

In rule IX (B) insert the following after clause (*a*) :

" NOTE.—This translation should be marked with the vowel points."

Insert the following after clause (*c*) in rule X and after clauses (*d*) in rule X and rule XI :—

" NOTE.—The translations into Arabic should be marked with the vowel points."

" *(Extract from the Punjab Government Gazette, dated the 12th July, 1906.)*

NOTIFICATION.

Simla, the 4th July, 1906.

No. 808-*S.*—In exercise of the powers conferred by Sections 5 and 5A of the Scheduled Districts Act, 1874 (XIV of 1874), His Honour the Lieutenant-Governor of the Punjab, with the previous sanction of the Governor General in Council, is pleased to extend the North-West Border Military Police Act, 1904 (IV of 1904), to the Scheduled district of Dera Ghazi Khan :

Provided that the references to the North-West Frontier Province in the Preamble and in Section 1 (2) and 3 of the said Act shall be read as relating to the Dera Ghazi Khan district.

By order,

E. D. MACLAGAN,

Offg. Chief Secretary to the Government, Punjab.

No. 1573-*G.*

The 13th July, 1906.

RESOLUTION—By the Government of India, Foreign Department.

The Governor-General in Council has for some time had under consideration various proposals for the reorganisation of the Political Department of the Government of India, which has been rendered necessary by the inclusion in the Department of the North-West Frontier Province Service; by the increase in late years of the sphere of duties assigned to it; by the increasing difficulty which has been experienced in attracting to the lower grades members of the Indian Civil Service of suitable standing and attainments, and by the necessity of taking steps to diminish the slowness of promotion which has affected the prospects of some of the military officers of the Department.

The Governor-General in Council now desires to announce that the scheme of reorganisation, which was recommended by Lord Curzon's Government, has been accepted by

His Majesty's Secretary of State for India, who has sanctioned its introduction with effect from the 1st February 1906.

2. The principle of the reorganisation is to establish a separate cadre for members of the Indian Civil Service (including military members of the Punjab Commission transferred to the North-West Frontier Province), so arranged as to secure to members of that service such a rate of promotion as will bring their prospects in the Political Department approximately up to the level of what they might reasonably count upon in their own Province in the ordinary line of appointments.

For other members of the Department, the object is to provide prospects which, though less lucrative than those of the members of the Indian Civil Service, shall be somewhat more favourable than those to which they could previously look forward.

3. The reorganised Department will, with effect from the 1st February, 1906, comprise two separate cadres, one for members of the Indian Civil Service (including military officers of the Punjab Commission serving in the North-West Frontier Province who may elect for service in the Department), and the other for military officers and other members of the Department, not being members of the Indian Civil Service or of the Punjab Commission.

The two cadres will be classed as "civil" and "general", respectively, and their respective strength will be as shown in the following table

		Civil.	General.	Total.
Cadre posts ...	Superior	26	46	109
	Inferior .. .	8*	29	
Reserve for deputation		1	3	4
Do leave		10	20	30
Do training		1	6	7
Total strength of Political Department		46	104	150
Members of the Indian Civil Service of below 5 years' service to be provided for in the various Provinces.		7†	...	7

* Including one officer in the 3rd or 4th year's service in the North-West Frontier Province corresponding to the one in training.

† The seven officers, who will be provided for in the grades of Assistant Collectors, will be made up of three in training, three in the third and fourth year's service, and one for a leave reserve

The appointments classed as "superior" will be the following

RESIDENTS.

First class (Rs 4,000 per mensem).

1. Resident at Hyderabad.
2. Resident in Mysore.
3. Agent to the Governor-General in Central India
4. Agent to the Governor-General in Rajputana.
5. Agent to the Governor-General in Baluchistan.
6. Agent to the Governor-General in the North-West Frontier Province.

Second class (Rs. 2,750 per mensem).

1. Resident in Kashmir.
2. Judicial Commissioner, North-West Frontier Province.
3. Resident in the Persian Gulf.

Third class (Rs. 2,500 per mensem).

1. Resident at Baroda.
2. Revenue Commissioner, North-West Frontier Province.
3. Resident in Turkish Arabia.
4. Revenue and Judicial Commissioner in Baluchistan.
5. Resident in Nepal.

POLITICAL AGENTS.

Baluchistan	7	Secretary or First Assistant, Political Agents in Quetta, Sibi, Kalat, Zhob, Loralai, and Chageh.
Central India	8	Secretary or First Assistant and the Agencies of Gwalior, Indore, Baghelkhand, Bhopal, Bhopawar, Bundelkhand, and Malwa.
Hyderabad	1	Secretary or First Assistant.
Kashmir	1	Political Agent in Gilgit.
Mysore	1	Secretary or First Assistant.
Persian Gulf and Persia	7	Consul-General at Meshed; Consuls at Seistan and Kerman; Secretary or First Assistant to the Political Resident at Bushire; and Agencies at Maskat, Koweit, and Bahrein.
Rajputana	12	Secretary or First Assistant; Commissioner and Assistant Commissioner, Ajmer; Agencies in the Western Rajputana States, Jaipur, Mewar, Eastern Rajputana States, Bikaner, Haraoti with Tonk, Alwar, Kotah with Jhalawar, and Banswara with Partabgarh and Dungarpur.
North-West Frontier Province	17	Secretary and Assistant Secretary; Divisional and Sessions Judges, Peshawar and Derajat; Deputy Commissioners, Peshawar, Hazara, Dera Ismail Khan, Kohat, and Bannu; Political Agents, Khyber, Kurram, Tochi, Wana, and Dir, Swat, and Chitral; Assistant Political Agent, Chitral; District Judge, Peshawar; and the Assistant Commissioner, Mardan.
Miscellaneous	1	Assistant Secretary in the Foreign Department.
Total ...	69	superior posts.

Provision has however been made for 72 officers in the higher grades in order to prevent the undue retardation of promotion in the general cadre. Of this number three superior posts have not yet been allocated to definite appointments.

4. The grading of the service and the distribution of the appointments in the different grades between the civil and general cadres of the Department are shown in the following table :

Appointment with pay.	Civil.	General.	Total.
Resident, 1st class, Rs. 4,000	2	4	6
„ 2nd „ „ 2,750	1	2	3
„ 3rd „ „ 2,500	3	2	5
Political Agent, 1st class, Rs. 2,250	4	4	8
„ „ 2nd „ „ 1,800	7	8	15
„ „ 3rd „ „ 1,500	6	9	15
„ „ 4th „ „ 1,200	3	17	20
Total superior ...	26	46	72
Assistant Political Agent, 1st class, Rs. 900	8(*a*)	9(*c*)	17
„ „ „ 2nd „ „ 700	10(*a*)	15(*c*)	25
„ „ „ 3rd „ „ 500	2(*b*)	28(*d*)	30
Probationers, Rs. 450	...	6	6
Total inferior and reserve ...	20	58	78
GRAND TOTAL ...	46	104	150

5. The pay of the 14 highest appointments, which are classed as Residencies, will be localised, as under the present system, and promotion to these appointments will be by selection, not only from either cadre, but, if necessary, from outside the Department.

The pay of the remaining appointments will be delocalised, with the exception of two judicial appointments * which it has been decided to retain as localised appointments in the North-West Frontier Province in the grades of Political Agent, 1st and 2nd class. It is hoped that the constitution of the Judicial Commissionership as a Residency, 2nd class, and the localisation of the two other judicial appointments mentioned will afford an inducement to officers to enter the judicial line and ensure a continuity of trained officers in these very important posts.

* Divisional and Sessions Judge, Peshawar.
Ditto ditto Derajat.

6. Promotion, both substantive and officiating, in the grades below that of Resident, 3rd class, will, except in the case of the judicial appointments above referred to, be ordinarily by seniority in the cadre in which the vacancy occurs, subject to the provisos that—(*a*) an officer appointed permanently or temporarily to a superior post will draw the salary of a superior post, *i.e.*, not less than that of a Political Agent, 4th class, substantive or officiating; (*b*) in the case of temporary officiating promotions from the grades of Assistants to those of Political Agents, the rule will be that, when an officer of one cadre is for reasons of administrative convenience appointed to officiate for an officer in the other

(*a*) Inferior posts 7
Reserve for temporary appointment ... 1
Reserve for leave 10
— 18

(*b*) Under 5 years' service in the North-West Frontier Province :
Inferior post 1
In training 1
— 2

(*c*) Inferior posts.

(*d*) Inferior posts 5
Reserve for temporary appointments 3
Reserve for leave 20

cadre in a superior post, he shall draw the acting allowance admissible under rule, but that all other acting grade promotions consequent on such appointment, shall be given in the cadre of the officer who creates the officiating vacancy.

7. It is intended to publish a quarterly Gradation List of the Department in future, such as is published by Local Governments.

8. Two statements,* marked A and B, are attached to this Resolution showing how the scheme of reorganisation, as introduced with effect from the 1st February, will affect individual officers.

There are a few individual cases in which there will be an immediate loss of salary, and to prevent this, a personal allowance of such amount, as will bring his emoluments up to the figure which he was drawing on the 1st February, 1906, will be granted to each individual whose salary is reduced by the reorganisation; such personal allowances will be reduced and constantly extinguished under the operation of Article 61 of the Civil Service Regulations.

9. The officers of the Punjab Commission, both military and civil, now on the cadre of the North-West Frontier Province† will be brought on to the civil cadre of the reconstituted Department with effect from the 1st February 1906. The officers who were transferred to the Province when it was created in 1901 will, however, as far as possible be permitted to exercise their option before the 1st October 1906 either of remaining in the Political Department or of reverting to the Punjab Commission.

† Marked with † in list A annexed.

10. In view of the revised grading now introduced, it is intended to revise the present scale of local allowances other than sumptuary allowances, with effect from the same date; but the question is reserved for separate consideration. Each case will be dealt with upon its merits, but the general principles to be followed will be that such allowances will ordinarily be confined to frontier and trans-frontier appointments, and will be rarely granted within India, and then only as special remuneration for special work done. The list of local allowances given in statements A and B appended to this Resolution must be read with the above reservation.

11. No refund of pay or allowances drawn by officers in the interval between the 1st of February, 1906, and the date of these orders will be required on the ground of the retrospective sanction accorded to the Reorganisation Scheme.

* Subject to further revision by the audit officers concerned.

DEPARTMENT OF COMMERCE AND INDUSTRY.

NOTIFICATIONS.

EMIGRATION.

Simla, the 11th July, 1906.

No. 5386-58.—The following draft of a Notification which it is proposed to issue in exercise of the powers conferred by section 80 of the Indian Emigration Act, 1883 (XXI of

1883), is published, as required by section 81 of the said Act, for the information of persons likely to be affected thereby, and notice is hereby given that the draft will be taken into consideration by the Governor General in Council on or after the 14th October 1906.

2. Any objection or suggestion which may be received from any person with respect to the draft before the date fixed aforesaid will be considered by the Governor General in Council.

Draft Notification.

In exercise of the powers conferred by section 80 of the Indian Emigration Act, 1883 (XXI of 1883), the Governor General in Council is pleased to direct that the following amendment be made in rule 133 of the rules published with the Notification of the Government of India in the Department of Revenue and Agriculture, No. 94-E., dated the 18th March 1886, as subsequently amended, namely :

For the words—

"The single women furthest aft ; the married persons next ; and the single men forward."

Substitute—

"The married persons shall be so located as to separate the single men from the single women and the crew shall be located beyond the single men."

No. 5391-54.—The following draft of a Notification which it is proposed to issue in exercise of the powers conferred by section 80 of the Indian Emigration Act, 1883 (XXI of 1883), is published, as required by section 81 of the said Act, for the information of persons likely to be affected thereby, and notice is hereby given that the draft will be taken into consideration by the Governor General in Council on or after the 14th August 1906.

2. Any objection or suggestion which may be received from any person with respect to the draft before the date fixed aforesaid will be considered by the Governor General in Council.

Draft Notification.

In exercise of the powers conferred by section 80 of the Indian Emigration Act, 1883 (XXI of 1883), the Governor General in Council is pleased to direct that in Rule 152, relating to the issue of medical stores and comforts, of the Rules published with the Notification of the Government of India in the Department of Revenue and Agriculture, No. 94-E., dated the 18th March 1886, as subsequently amended, the following amendment shall be made, namely :

For the words "patient or patients for whom the issue is required, and the quantity in each case" *substitute* the words "quantity required."

A. W. L. BAYLY, *Major-General,*
Secretary to the Government of India.

DEPARTMENT OF MILITARY SUPPLY.

Simla, the 13th July 1906.

ORGANIZATION.

MEDICAL DEPARTMENT.

Alteration of the rules for the allotment of officers of the Indian Medical Service to Commands.

No. 74.—With the approval of the Secretary of State for India, the Governor General in Council is pleased to notify the following changes in the organization of the Indian Medical Service.

2. Prior to the date of the second examination in 1896 officers were appointed to one or other of the three presidential cadres, namely, Bengal, Madras or Bombay. Under the present system which was sanctioned in G. G. O. No. 260, dated the 6th March 1896, officers are allotted to a military area and while borne on one general list and liable in cases of emergency to serve anywhere, are ordinarily employed in the area to which they happen to be posted according to the choice exercised by them at the time of their passing into the service as determined by their position on the list with reference to the combined results of the preliminary and final examinations. This system of territorial allotment results in administrative difficulty and entails unnecessary expense when postings to regiments, transfers from military to civil employment, grant of leave and provision of substitutes have to be arranged for, and more recently the inconvenience has been accentuated owing to the liability of regiments to be moved in relief to any part of the country.

3. The three presidential and the general lists of officers of the Indian Medical Service will therefore be amalgamated, and while it will no longer be possible to allow officers already in the service to retain the lien on the military areas of their choice that they have hitherto possessed, they will retain the right to employment in a civil capacity, should they be candidates for such employment, within the civil areas for which they are at present eligible. They will also remain eligible for promotion to the administrative appointments, military and civil, carrying the rank of Surgeon-General or Colonel, at present open to them in the lists on which their names have hitherto been respectively borne, and the distribution of the sanctioned number of selected Lieutenant-Colonels under paragraph 7 of the Royal Warrant of the 28th November 1903 among the officers on those lists will be maintained.

Bengal	21
Madras	11
Bombay	9

4. Officers admitted to the service with effect from the date of the second examination in 1906 will be borne on the amalgamated list and will be liable for military employment in any part of India. For the purpose of civil employment, however, they will be allowed, subject to the requirements of the service and according to their positions on the list as determined by the combined results of the preliminary and final examinations in London, a choice of the following civil areas :—

1. Madras—*To include Madras and Burma.*
2. Bombay—*To include Bombay and Aden.*
3. Upper Provinces—*To include the United Provinces of Agra and Oudh, the Punjab and the Central Provinces.*
4. Lower Provinces—*To include Bengal and Eastern Bengal and Assam.*

5. So far as civil employment is concerned, officers will ordinarily be employed in the areas to which they have been allotted as explained in paragraph 4 above but will in emergency be liable for service in any part of India. They will on first arrival in India be posted as far as may be possible to the military Commands or Divisions within the civil areas of their choice, to enable them to become acquainted from the first with the language and people of the part of India in which they will in many cases serve ultimately in civil capacities.

6. After arrival in India officers desirous of entering civil employment should as heretofore apply through the prescribed channel to the Director General, Indian Medical Service, to have their names registered for such employment within the areas to which they have been allotted.

APPOINTMENTS.

ARMY REMOUNT DEPARTMENT.

No. 75.—The following appointment is made, with effect from the 20th March 1906 :—

Lieutenant N. D'E. Roberts, Army Veterinary Corps.

No. 76.—The following temporary appointment is made, with effect from the 21st June, 1906 :—

H. H. RISLEY,
Secretary to the Government of India.

GOVERNMENT OF INDIA.

DEPARTMENT OF REVENUE AND AGRICULTURE.

Rainfall Summary for the seven days ending at 8 hrs., on Thursday, the 12th July 1906, based on the India Daily Weather Reports of the period.

The monsoon has been fairly active in the central and north-central portions of the country throughout the week, but in the Peninsula the Bombay current has displayed less than its usual vigour. Pressure became abnormally high at the head of the Bay and over Burma on the 9th, and it was normal or in defect in the south of the Peninsula, and these conditions continued until the 12th : the Bay current was in consequence deflected from Burma into northeast India where some heavy falls of rain occurred.

In Burma precipitation has been very light on the coast throughout the week, while in the interior the rainfall was very sparsely distributed and light. Skies have been moderately overcast and temperature approximately normal.

In northeast India rainfall was for the first two days chiefly confined to Eastern Bengal and Assam, but it thereupon increased rapidly and was nearly general on the 8th and 9th. Pressure gradients then became very steep in northeast India and until the close of the week caused heavy rainfall in the northern districts with isolated falls in the southern. Temperature did not differ very much from the normal during the whole period and skies were heavily overcast in the northern parts, while only moderately clouded over in the southern.

In the United Provinces, Central India, the Central Provinces and southeast Rajputana a few falls occurred on the 6th, but during the remainder of the week rainfall was fairly general and all stations reported more or less rain, the total fall being heavy in the Cawnpore, Indore and Jaipur subdivisions. In Gujarat rain fell locally from the 6th to the 9th, and isolated falls occurred from the 11th to the 12th, while Hyderabad (Sind) reported a fall of an inch and a half on the 6th. In the Punjab the monsoon has been weak and it gave only light rain in the eastern districts, while in the northern rain occurred on several days owing to local disturbances. Skies have been clear or lightly clouded over in the Punjab and upper Sind, but in the United Provinces, Central India, the Central Provinces and southeast Rajputana they have been heavily overcast. Temperature was in slight excess in the Punjab, in slight defect in the United Provinces and normal elsewhere.

Rainfall in the Peninsula has remained light, but fairly general on the west coast, while in the interior only a few scattered falls have occurred daily. Skies have been more or less heavily overcast in the west coast districts and lightly to moderately clouded over in the remainder of the Peninsula. Temperature was in general normal or in excess throughout the week.

The only parts of the country where the rainfall for the period from the 4th May to the 12th July is in defect are the divisions of the North-West Dry Area, Baluchistan, Gujarat and the west coast and the subdivisions of Burdwan, Lahore, Cuttack, Ranchi and Madura. Rainfall is in largest excess in the subdivisions of Jaipur and Indore.

The following list summarises the chief rainfall amounts of the week, as reported at 8 hrs. each day:

July 6th. Jubbulpore 2·28" and Hyderabad (Sind) 1·60".

" 7th. Bahraich 2·14".

" 8th. Chittagong 3·34", Kotah 2·22" and Jaipur 1·80".

" 9th. Bogra 2·64", Sambalpur 2·12" and Sambhar 2·70".

" 10th. Cherra Poonjee 15·39", Jalpaiguri 3·65", Patna 2·22", Mainpuri 2·17", Akola 2·28" and Calicut 5·10".

" 11th. Cherra Poonjee 18·11", Dhubri 6·25", Dinajpur 2·73", Lucknow 4·90", Indore 4·37", Udaipur 2·34" and Cuddapah 1·48".

" 12th. Maymyo 1·87", Cherra Poonjee 18·84", Purnea 1·81", Neemuch 1·75" and Sambhar 2·06".

J. PATTERSON,

for Meteorological Reporter to the Government of India
and Director General of Indian Observatories.

J. WILSON,

Secretary to the Government of India.

SIMLA;
The 12th July, 1906.

GOVERNMENT OF INDIA.

DEPARTMENT OF REVENUE AND AGRICULTURE.

Season and Crop Prospects for the week ending Saturday, 7th July 1906.

Burma.—The rainfall of the week was mostly light in the dry zone tract, with none in Magwe, Lower Chindwin, and Myingyan ; the fall was generally heavy along the coast, and elsewhere moderate. Ploughing for wet-weather paddy continues ; sowing has commenced in Amherst and transplanting in Bassein, Thaton, Bhamo, Shwebo, and Lower Chindwin. Sowing of hill side paddy is completed in the Northern Shan States, and reaping of early wet-weather paddy has commenced in the Southern Shan States. Sowing of sesamum and maize is completed in Magwe and of cotton in Lower Chindwin. Reaping of sesamum is progressing in Kyaukse. Some damage has been done to the maize and sesamum crops by floods along the Mon Chaung in Minbu. The condition of the standing crops is satisfactory. The price of paddy has risen slightly at four centres, otherwise it is unchanged.

Eastern-Bengal and Assam.—The weather is seasonable. Light to moderate rain was received in every district, but more is wanted in Dinajpur, Mymensingh, Dacca, Bakarganj, Goalpara, and Kamrup. Prospects of tea are generally good. Harvesting of early rice and jute is in progress. Cultivation of late transplanted rice continues. The prospects of crops are generally good in most of the Eastern-Bengal districts, the Surma Valley, and Nowgong, and fair in other districts ; but damage to the standing rice crops still continues in Bakarganj, Mymensingh, Tippera, and Sylhet. Prices of common rice :—Manipur 14 ; Kohima 10¼ ; Comilla 9$\frac{7}{16}$; Barisal, Noakhali, Rangamati, Gauhati, Tezpur, Nowgong, and Sibsagar 9 ; Pabna, Dacca, and Chittagong 8¾ ; Dinajpur and Mymensingh 8½ ; Dibrugarh 8¼ ; Jalpaiguri, Rangpur, Malda, Rampur Boalia, Sylhet, Silchar, and Dhubri 8 ; Faridpur 7 to 8 ; Bogra 7⅞ ; Tura 7 ; Shillong 6¼ ; and Aijal 5 seers per rupee. Prices have slightly risen in one ; fallen in seven ; and remain stationary in the remaining districts.

Scarcity continues in Noakhali and Bakarganj ; 1,400 men, 796 women, and 1,421 children received gratuitous relief and 2,698 men, 216 women, and 635 children attended test works in Bakarganj ; 57 men and 8 children were employed on test works in Noakhali. The condition of the cultivating classes in Faridpur is improving owing to a good harvest of early rice generally. Individual cases of distress are reported from various villages in Dinajpur.

Bengal.—Rain was fairly general all over the Province, the fall being for the most part light except at Darjeeling, Sambalpur, and Palamau where it was heavy. More rain is needed especially in the Burdwan and Presidency Divisions for transplantation of winter paddy. Jute and sugarcane are reported to be doing well. Locusts appeared in Champaran and Monghyr causing only some slight damage in the latter district : some damage to jute and paddy by insect-pests is also reported from the 24-Parganas. Fodder and water are sufficient. The price of common rice has risen in eight and fallen in two districts : it continues high in most districts.

United Provinces.—There was good rain in all districts during the week. Sowings for the autumn harvest continue ; seed is germinating well and weeding has commenced in a few districts. The standing crops have been slightly damaged by locusts in Farrukhabad but are doing well elsewhere. Fodder is less scarce and the condition of the cattle generally is improving. Prices of food grains are generally stationary. Markets are well supplied and the demand for labour full.

The weekly report on the famine and scarcity is as follows :—Rain continues in all districts and the numbers on relief show a further decrease of forty thousand. Sowings for the autumn harvest are in progress and germination is good. Fodder is less scarce and the condition of cattle is improving. *Takkavi* is still being distributed for seed and bullocks. Prices of food grains have risen slightly in Hamirpur, Banda, and Jhansi ; barley is now selling at between 12½ and 15 seers per rupee and *juar* at between 11¼ and 12¾ seers. The numbers on relief are :—Allahabad Division—workers 26,000, on gratuitous relief 46,000 ; Agra Division—workers 2,000, on gratuitous relief 9,000 ; total 83,000.

Punjab.—All districts except Multan received rain during the week. The prices of food grains are generally unchanged ; the price of wheat is rising in Hissar, Delhi, and Rawalpindi and falling in Amritsar, Sialkot, and Shahpur. Tobacco cutting is going on in

Amirtsar, Sialkot, and Shahpur. Weeding of cotton and sugarcane continues in Sialkot. Sowings of autumn crops are in progress throughout the Province but more rain is urgently wanted. The condition and prospects of the standing extra spring and autumn crops are good. Crops on river banks in Delhi and in Mianwali have been washed away by heavy floods in the Jumna and Indus, respectively. Locusts appeared in Hissar and Ambala and damaged cotton in Ambala slightly: cotton and melon in Amritsar, and indigo in Multan have been injured by insects. Cattle are in good condition except in Gurgaon. Fodder is sufficient in all districts except in Gurgaon and parts of Mianwali. There are no complaints regarding the water-supply.

The weekly report on the famine and scarcity is as follows:—Rohtak—on works 3,911; on gratuitous relief 5,908; total 9,819. The fall in the numbers on relief is due to good rain and distribution of *takkavi* advances. There is no wandering or emaciation apparent. The physical condition of the labourers is good and relief measures are sufficient. The public health is generally good.

North-West Frontier Province.—Good rain averaging ·11 cents to 3·15 inches fell all over the Province and has benefitted the standing crops, but more rain is wanted in the Bannu district. There was a slight fall of hail at Mardan. Autumn crops are being sown. The condition of the standing crops on irrigated and unirrigated areas is average; the out-turn of spring and extra spring crops is fair. Locusts appeared in the north of Dera Ismail Khan, slightly damaging the cotton crops. Canal water is sufficient except in the Khawarra portion of the Nowshera tahsil; the Kilapani supply is normal and there is some irrigation from rain and hill torrents in Dera Ismail Khan; floods have occurred in Kurram and Gambila. The condition of cattle is generally good except in Bannu and Dera Ismail Khan. The stock of food grains is sufficient and fodder is procurable. Prices are fluctuating. Prices:—wheat 15 to 19; maize 15 to 20½; gram 16 to 19; and *bajra* 13 to 14¼ seers per rupee.

Jammu.—There was good rain during the week. Prices are stationary. Prices:—wheat 14 to 25 and maize 16 to 35 seers per rupee. The condition of the standing crops is fair. Fodder is sufficient. Autumn sowings are in progress.

Kashmir.—The weather is generally bright. Prices are almost stationary.

Rajputana.—The rainfall of the week in cents was as follows:—Ajmer 716, Merwara 420, Jodhpur 201, Jaisalmer 46, Sirohi 48, Udaipur 381, Hill tracts of Mewar 120, Partabgarh 92, Shahpura 1405, Tonk 420, Bundi 1685, Kotah 1172, Jhalrapatan 710, Jaipur 130, Kishangarh 220, Alwar 286, Karauli 170, Bharatpur 100, Dholpur 209. The rain was general in the above tracts but partial and slight in parts of Marwar, Jaisalmer, and Sirohi, but even here was generally sufficient for sowings. The condition of cattle is still poor in affected tracts, but pasturage and the water-supply have improved. Prices have risen in Kishangarh; slightly in Hill tracts; have fallen slightly in Marwar, Mewar, and Jhalawar; and are practically steady elsewhere. The numbers on famine relief are:—Ajmer-Merwara—35,873; Native States—40,191; total 76,064 or a decrease of 17,132. The position generally has greatly improved.

The weekly report on the famine and scarcity is as follows:—Ajmer—on works 8040, on gratuitous relief 3,173, total 11,213; Merwara—on works 17,761, on gratuitous relief 6,899, total 24,660; grand total 35,873. Native States:—Marwar—on works 1,974, on gratuitous relief 1,542, total 3,516; Mewar—on works 1,845, on gratuitous relief 334, total 2,179; Shahpura—on works 37, on gratuitous relief 84, total 121; Tonk—on works 1,557, on gratuitous relief 803, total 2,360; Jaipur—on works 14,139, on gratuitous relief 608, total 14,747; Kishangarh—on works 1,972, on gratuitous relief 2,782, total 4,754; Alwar—on works 1,302, on gratuitous relief 1,650, total 2,952; Eastern States—on works 6,258, on gratuitous relief 3,304, total 9,562; total Native States 40,191; grand total 76,064. Decrease owing to excellent rain. Prices vary between 11¾ seers per rupee in Karauli and 15¼ seers in Alwar. *Takkavi* is being distributed on an adequate scale in Karauli and a liberal grant has been received from the Famine Trust. A few cases of cholera are reported from Ajmer-Merwara, Dholpur, and Bharatpur.

Central India.—The rain of the week was insufficient in parts of Gwalior and sufficient elsewhere. Ploughing and sowing are in progress. Agricultural stock are in bad condition in parts of Gwalior, Indore, and Bundelkhand and fair to good elsewhere. Fodder is insufficient in parts of Gwalior and Indore; is scarce in Bundelkhand; and fair to good elsewhere. Prices are high in Gwalior, and Baghelkhand; are tending to fall in Indore; and are steady elsewhere.

The weekly report on the famine and scarcity is as follows:—The general position is unaltered. Prices of food grains in Gwalior vary from 10 to 12 seers per rupee; in Bundelkhand 13 seers per rupee. The numbers on relief are:—Gwalior on works 25,500, on gratuitous relief 10,000, total 35,500; in Bundelkhand States and Jagirs—on works 9,000, on gratuitous relief 3,000, total 12,000; grand total 47,500.

Central Provinces.—Good rain has fallen throughout the Provinces except in Nimar and Betul where the falls were light. Sowings are in full swing but are retarded in Jubbulpore and Seoni by heavy and continuous rain. A break would be welcome in these two districts and in Damoh. and Balaghat. Germination is good everywhere but in a few places in Bilaspur rice seedlings are being washed away by heavy rain and re-sowing has been necessary. Weeding has commenced in parts of Narsinghpur, Akola, and Amraoti and transplantation of rice in Drug and *biasi* (thinning) in Raipur. The condition of the labouring classes in Bilaspur calls for no remark; the demand for labour everywhere is good. Locusts are reported from two villages of Mandla but no damage has been done. Fodder is still insufficient in parts of Chhindwara and very dear in Wardha and Nagpur but the price is slowly falling. Prices have risen slightly in the northern districts; the price of *juar* has fallen by a seer and 1¾ seers per rupee in Narsinghpur and Betul, respectively, and risen by 1¾ seers in Akola: elsewhere prices are fairly steady. The prices of food grains are generally equal to or above the warning rates, but are up to the scarcity level in Wardha, Chanda, Balaghat, and Bilaspur: prices are still generally higher than those ruling at this time last year.

Baroda.—For week ending 30th June. The numbers on relief are:—on works 1,874, on gratuitous relief 148, total 2,022.

Bombay.—There was good rain during the week in parts of the Konkan, Nasik, Kathiawar, Kolhapur and Sawantwadi; moderate in parts of Karachi, Gujarat, Khandesh, Satara, Belgaum, Rewa Kantha, and Mahi Kantha; and slight in parts of Hyderabad, Thar and Parkar, Ahmednagar, Poona, Sholapur, Bijapur, Dharwar, Baroda, Cutch, and Palanpur. More rain is needed in parts of the Deccan, Karnatak, Konkan, Kolhapur, and Sawantwadi. Inundation in Sind is satisfactory. Sowing is generally in progress but is retarded in parts of the Deccan and Karnatak for want of rain. Seedlings are thriving and transplantation continues in parts of Sind, Gujarat and the Konkan, but is retarded in parts of Surat, Thana, Poora, and Sawantwadi. The supply of drinking water has improved except in parts of Belgaum and Dharwar. Irrigation channels, tanks, and wells are filling up. The deficiency of agricultural stock is being made good from *takkavi* advances. The fodder supply is not improved yet and cattle continue to deteriorate. The price of local fodder is two to three times above the normal. Food stocks with merchants are being kept up by active imports. The quantity of grain purchasable per rupee is in the Deccan 28 to 57 per cent; in the Karnatak 40 to 45 per cent; in Gujarat and the Konkan 20 to 30 per cent; and in Sind 10 to 25 per cent less than the normal. The numbers on test works on the last day of the week ending 30th ultimo were:—Dharwar 10, Phaltan 114, Miraj Junior 128, Kathiawar 1,029, total 1,281. Test works in Dharwar have been closed. The distress is not acute. The condition of agricultural labourers is fair to good; relief workers are generally in good condition and relief measures are adequate. The numbers on relief are decreasing. Returning emigrants get sufficient field and other employment locally. The poor house in Bijapur has been closed. There is no aimless wandering or emaciation reported. The public health is generally good. Cholera is still prevalent in parts of the Deccan and the Karnatak. The numbers on relief are:—British districts—Deccan—on works 18,601, on gratuitous relief 35,281, total 53,882; Karnatak—on works 14,206, on gratuitous relief 15,175, total 29,381; Native States—on works 4,890, on gratuitous relief 2,292, total 7,182.

Hyderabad.—Rainfall—1 inch 60 cents. Autumn sowings continue except in seven taluks where sowings are suspended owing to want of rain. Early rice is being sown in six taluks. Fodder scarcity continues in parts. The attendance on road works amounted to 1,435 persons and in poor-houses to 650 persons. Prices have fallen in seven taluks from a half to two seers per rupee and risen in ten from a half to two seers. Prices:—wheat 8¼; coarse rice 7; and *juar* 14¾ seers per rupee.

Mysore.—There was fair rain in Kadur and Shimoga and slight rain elsewhere. Markets are fairly well supplied but prices are high in Kadur and Shimoga. More rain is needed throughout the Province and prospects depend on early rainfall. Cattle are unhealthy in parts of Tumkur and Kadur. The water-supply is insufficient. Fodder is insufficient in parts of Tumkur, Mysore, Hassan, Shimoga, and Chitaldroog.

Coorg.—Rainfall—4 inches 46 cents. Sowing of rice continues. Prices of food grains are stationary. Water and fodder are sufficient.

Madras.—The rainfall was heavy in South Canara and Malabar; good in Godavari, Vizagapatam Agency, Kistna, and the Nilgiris; none in Anantapur, Coimbatore and Tinnevelly; and light to fair rain elsewhere. Irrigation supplies are insufficient except in Vizagapatam, Godavari, Kistna, Guntur, Cuddapah, Nellore, Malabar, and the Nilgiris. Ploughing, sowing, manuring, weeding, and transplanting are in progress in parts. The

standing crops are generally fair, but some in parts of Salem and Coimbatore are withering and some in parts of Tanjore and Madura require more rain. Harvests continue in parts with outturn bad to normal and bumper. Pasture is insufficient except in Ganjam, Vizagapatam, Guntur, North Arcot, Malabar, South Canara, and the Nilgiris. Fodder is scanty in parts of Godavari, Bellary, and Tanjore. The condition of cattle is generally good. The price of rice is stationary in eight districts; has fallen in five; and has slightly risen in ten. The prices of millets have fluctuated as follows:—*Ragi* is stationary in three districts; has fallen in five; and has slightly risen in thirteen. *Cholam* is stationary in nine districts; has fallen in one; and has slightly risen in four. *Cumbu* is stationary in six districts; has fallen in one; and has slightly risen in eight.

The number of persons in receipt of relief during the preceding and present weeks in each Province or State is shown in the following table:

Name of Province or State.	Preceding week. (Revised figures.)			Present week.			Increase or decrease.

Simla, the 12th July, 1906.

Printed and published for the GOVERNMENT OF INDIA *at the* GOVERNMENT CENTRAL PRINTING OFFICE, *Simla.*

The Gazette of India.

PUBLISHED BY AUTHORITY.

CALCUTTA, SATURDAY, JULY 14, 1906.

☞ Separate paging is given to this Part in order that it may be filed as a separate compilation.

PART II.

Notifications by High Court, Comptroller General, etc.

GAZETTE OF INDIA.

NOTICE.

The 21st March 1906.

From the 7th April next till further notice, Parts I, IV, V, and VI of the *Gazette of India* and the Weather and Crop Report will be published at Simla. After the 31st March all Notifications and other matter intended for publication in those Parts should be addressed to the Officiating Publisher at Simla.

Attention is invited to the following Circular Memorandum of the Government of India, Home Department, of August 1901:—

"It has been brought to the notice of this Department that matter for the *Gazette of India* is sometimes sent to the Press late on Friday evenings for publication in the next day's Gazette, and that this involves considerable inconvenience to the Press and expense to Government. In the Circular Memorandum of this Department, No. 777—79, dated 9th February 1870, the Government of India directed that all notifications or other matter intended for insertion in the *Gazette of India* should be delivered at the Press not later than 2 P.M. on Friday, and that any papers sent thereafter must be certified to be extremely urgent in order to ensure their appearance in the next day's Gazette. The undersigned is directed to request that these orders may be more strictly observed in future, and that Departments will refrain from sending to the Press as extremely urgent any papers which can without harm or inconvenience be held over for the next Gazette."

J. P. HEWETT,
Secretary to the Government of India.

No. 99 of 1900.—John William MacGillway and Herbert Amos Hobson. *The production of a concentrated hopped wort.* (From 15 August 1906 to 15 August 1907.)

No. 447 of 1900.—James Major and Thomas James Wood. *Improvements in apparatus for dyeing, bleaching or otherwise treating cops of spun yarn.* (From 8 July 1906 to 8 July 1907.)

No. 374 of 1901.—Carantum Padmanaba Iyer. *A waterlift called "The Carnatic Pump."* (From 7 July 1906 to 7 July 1907.)

No. 455 of 1901.—Sorabji Muncherji Rutnagur. *An improved apparatus for preventing waste of water.* (From 5 July 1906 to 5 July 1907.)

No. 466 of 1901.—Albert Walter Sullivan and William Renshaw. *Improvements in railway passenger coaches.* (From 11 September 1906 to 11 September 1907.)

No. 302 of 1902.—Albert Walter Sullivan and William Renshaw. *Improvements in pneumatically actuated car doors.* (From 25 November 1906 to 25 November 1907.)

No. 395 of 1902.—Michael Joseph Owens. *Improvement in machine for and method of gathering and shaping glass.* (From 26 November 1906 to 26 November 1907.)

No. 2720 P.—WHEREAS the inventors of the undermentioned inventions have respectively failed to pay, within the time limited in that behalf by the fourth schedule to the Inventions and Designs Act of 1888, the fees hereinafter respectively mentioned, it is hereby notified that under the provisions of section 8, sub-section (2), of the said Act the exclusive privilege of making, selling, and using the said inventions in British India, and of authorizing others so to do, has ceased:—

No. 316 of 1901.—Andre Goldschmidt. *A continuous and automatic electro-hydraulic brake.* (Specification filed 4 April 1902.)

No. 354 of 1901.—Joseph Fletcher. *Apparatus for carbonating liquids and filling bottles under pressure.* (Specification filed 2 April 1902.)

No. 378 of 1901.—Nigel Fairholt Paton. *Improvements in apparatus for emptying petroleum from closed drum or cans.* (Specification filed 1 April 1902.)

No. 462 of 1901.—Alfred Brake. *Apparatus for drawing off liquids.* (Specification filed 4 April 1902.)

No. 13 of 1902.—Winfield Scott Keyes. *Methods for protecting dykes.* (Specification filed 4 April 1902.)

No. 14 of 1902.—Thomas Howard Gill. *A detachable combined seat and foot-board for motor cars and other road vehicles.* (Specification filed 1 April 1902.)

No. 69 of 1902.—Odilon Baltzar Hannibal Hanneborg. *An improved excavator.* (Specification filed 5 April 1902.)

Fee in respect of the continuance of an exclusive privilege—

4 (*a*) After the filing of the specification and before the expiration of the fourth year from the date of the filing thereof—

The sum of R50 for each of the above inventions.

NOTICES.

All communications relating to applications for leave to file specifications and for registration of designs under the Inventions and Designs Act, 1888 (V of 1888), or in continuation of such applications, should be addressed to the Patents Secretary, 2, Bankshall Street, Calcutta.

The Office of the Secretary under the Inventions and Designs Act, 1888, will in future be open for the transaction of business from 11 A.M. to 3 P.M. on all days, except Sundays and gazetted holidays.

The Government of India are advised that, as trade marks are not "designs" within the meaning of the Act, they cannot be registered under Part II.

The fees payable under the fourth and sixth schedules are now collected in cash and applicants are warned that they must be responsible for any delay in cashing cheques.

Cheques and money orders will only be accepted if made payable *at Calcutta* to the Secretary under the Inventions and Designs Act.

Copies of the weekly notifications, and of the quarterly lists, of applications and specifications filed in the Secretary's Office are now on sale to the public at one anna and eight annas a copy, respectively. A consolidated index for the year 1905, entitled "Inventions and Designs in 1905," is also on sale, price one rupee. It contains a chronological list, subject-matter and name indexes of exclusive privileges for inventions, which have been obtained or applied for in that year, together with lists of designs applications.

Attention is requested to the rules made by the Government on the 10th October 1895 in regard to the preparation of applications, specifications and drawings.

All applications made under the Inventions and Designs Act, V of 1888, will from this date (December 19th, 1896) lie in the visitors' room of the Patents Office for ten days from the date of the *Gazette of India* in which their filing may have been notified: or, if the 10th day is a holiday, till the evening of the office day next following.

At the time of delivering or sending an application for leave to file a specification, the applicant shall cause a duplicate copy of the application to be delivered or sent therewith to the Secretary.

The Inventions and Designs Act (V of 1888), with the notifications and rules issued under its provisions and the notices of the office of Inventions and Designs, to which is added an explanatory memorandum for the guidance of persons applying for protection of Inventions and Designs. Royal 8vo. volumes, paper cover, 13 annas or 1*s*. 1*d*. Postage extra. To be had of the Superintendent, Government Printing, 8, Hastings Street, Calcutta, or of the Superintendent, Patents Branch, Department of Commerce and Industry, 2, Bankshall Street, Calcutta.

H. G. GRAVES,
Secretary under the Inventions and Designs Act, V of 1888

Arabic, Bengali, Hindi, Persian, Sanskrit, Urdu.

D. C. PHILLOTT, Lieut.-Col.,
Secretary, Board of Examiners.

CIVIL ENGINEERING COLLEGE, SIBPUR.

Agricultural Department.

HIGHER AGRICULTURAL CLASS.

(Session 1906-1907.)

Rules for Admission.

For admission to the Higher Agricultural Class, an applicant must have one of the following qualifications :—

(i) He must have passed the F. E. Examination of the Calcutta University, and be under 23 years of age, but no student will be allowed to join the Agricultural Class after the expiration of five years from admission into the Engineering College.

(ii) He must have passed the B. A. Examination of the Calcutta University by the B. Course or possess other sufficient educational qualifications ; be under

23 years of age, and, in addition, have received a nomination from the Bengal Government.

(iii) He must have had a general education qualifying him to follow the instruction in the Higher Agricultural Class, and must also receive a nomination from Government for admission as a special student. To be eligible for a nomination under this rule, a candidate must either have landed property of his own or be recommended by some influential landholder who desires to train him to take part in the management of his estate, or he must otherwise satisfy Government that he intends to make practical use of his agricultural training. Students entering under this rule will be termed Special Agricultural students. They will not be subject to any maximum limit of age, but will not be entitled to the privileges conferred on passed students under rules 12 and 13, even though they should obtain fully-signed diplomas in due course after passing the necessary examinations.

Every candidate for admission to this Department must apply in writing to the Principal not later than the 14th July. The form of application for a nomination, which must be addressed to the Principal, is given in Appendix B. In the event of the form not being properly filled up and accompanied by the necessary certificates, no notice will be taken of the application.

The number to be nominated each year will depend on the accommodation available.

Every applicant, not already a student of the College, must undergo a medical examination by the College Surgeon before admission to this Department. If this officer's report is unsatisfactory, the applicant will not be admitted.

The session begins on the first Monday in November. All students are required to join the College on that day. Any student prevented by sickness from attending on the opening day must produce a certificate to that effect from a Civil or Assistant Surgeon, failing which he will be liable to a fine not exceeding R10. No student will be admitted or re-admitted to the College after the month of November, except by special orders of the Director of Public Instruction. This permission will only be given under exceptional circumstances.

Course of Instruction.

The course of instruction in the Higher Agricultural Class will extend over two academic years.

Scholarships.

Senior scholarships awarded in the Engineer Department are tenable in the Agricultural Department.

One scholarship of R30 a month, tenable for one year, will be awarded on the result of the examination held at the end of the first academic year.

Appointments.

Two appointments annually are assigned to students holding a fully-signed diploma, one in the Provincial Executive Service and one in the Subordinate Executive Service. The right of selection for these appointments will rest with Government, and the students who gained the highest marks at the examination for diplomas will not necessarily be selected.

Entrance and Tuition Fees.

Each student in the Higher Agricultural Department will be required to pay an *admission fee* of R10.

F. E.'s who elect to join the Agricultural Department immediately after passing the F. E. Examination are exempted from the payment of this fee, as their names are already borne on the College books.

For the present no tuition fees will be charged to students in the Agricultural Department, except in the case of those joining as special students under rule 3 (iii). The tuition fees for these students will be R8 a month.

Further particulars may be obtained free on application to the Principal.

B. HEATON,
Principal, Civil Engineering College, Sibpur.

Secretary to the Chief Commissioner,
N.-W. Frontier Province.

OFFICE OF REVENUE AND FINANCIAL SECRETARY TO CHIEF COMMISSIONER, NORTH-WEST FRONTIER PROVINCE.

NOTIFICATIONS.

Peshawar, the 3rd July 1906.

No. 2803.—In accordance with the provisions of section 27 (3) of Act X of 1904 (The Co-operative Credit Societies Act), it is hereby notified that the Hon'ble the Chief Commissioner proposes to make the following rules under section 27 (1) and (2) (*a*), (*b*), (*k*) and (*m*) of the said enactment for the working of the Co-operative Credit Societies in the North-West Frontier Province. The rules proposed will be taken into consideration on or after the 15th August next.

RULES.

(1) Every application for the registration of a society under section 6, sub-section 1, of the Act shall contain the particulars specified in, and be in the form of, Schedule A below.

(2) With every such application two copies of any bye-laws proposed for the society shall be submitted.

(3) As soon as possible after the receipt of such application, the Registrar shall intimate to the applicants that he has registered the society or communicate his reasons for refusing to do so.

(4) When the Registrar refuses to register a society, an appeal shall lie to the Chief Commissioner, who may direct the Registrar to register the society.

(5) When the Registrar has registered any society under section 6 he shall send to the Secretary or other officer appointed to perform the duties of a Secretary of the society a certificate of registration in Form B below.

(6) Any society may at a general meeting make bye-laws on any matter connected with the business of the society, but shall have no power to cancel, alter or add to its original bye-laws except by the vote of not less than $\frac{2}{3}$rds of the members present at the meeting and with the sanction of the Registrar.

(7) For the purposes of section 22 of the Act copies of entries in the books of any society may be certified by any officer of the society.

A

Form of application for registration of a Co-operative Credit Society.

1. Name of proposed society.	1. ______
2. Whether urban or rural.	2. ______

				Village or town.	Tahsil.	District.

B

Certificate of Registration.

Certified that the application, dated made by (names and particulars) to be registered under section 6 of the Co-operative Credit Societies Act, 1904 (X of 1904), as the Co-operative Credit Society has been accepted, and that the said society has been registered accordingly as No. of 19 , subject to the conditions stated in the said application and to the provisions of the said Act and the rules made thereunder.

Registrar, Co-operative Credit Societies.

Dated

The 5th July 1906.

No. 2826.—Whereas by a written instrument duly executed and dated the 23rd day of December 1905, Haji Muhammad Khan, son of Nawab Ata Muhammad Khan, resident of Dera Ismail Khan in the Dera Ismail Khan District, has signified on behalf of himself and his family acceptance of the rule of primogeniture in respect of the succession to the assignment of land revenue enjoyed by him, and more particularly set out in the said written instrument and in the second schedule appertaining thereto, the Chief Commissioner of the North-West Frontier Province is pleased to declare that the said rule of descent, as set out in the first schedule appertaining to the said written instrument prevails in the family of the said Haji Muhammad Khan in respect of succession to the said assignment of land revenue.

This declaration is made in exercise of the powers conferred by section 30 of the North-West Frontier Regulation, 1901.

No. 2827.—In exercise of the powers conferred on him by section 31 of the North-West Frontier Regulation of 1901, the Chief Commissioner of the North-West Frontier Province hereby directs that the rule of descent declared by Notification No. 2826, dated 5th July 1906, to prevail in the family of Haji Muhammad Khan, son of Nawab Ata Muhammad Khan, resident of Dera Ismail Khan in the Dera Ismail Khan District, shall be subject to the conditions (*a*) and (*b*) specified in the said section and the provisos thereof.

No. 2828.—Whereas by a written instrument duly executed and dated the 19th day of September 1905, Ghulam Kadir Khan, son of Hiatullah Khan, resident of Dera Ismail Khan in the Dera Ismail Khan District, has signified on behalf of himself and his family acceptance of the rule of primogeniture in respect of the succession to the assignment of land revenue enjoyed by him, and more particularly set out in the said written instrument and in the second schedule appertaining thereto, the Chief Commissioner of the North-West Frontier Province, is pleased to declare that the said rule of descent, as set out in the first schedule appertaining to the said written instrument prevails in the family of the said Ghulam Kadir Khan in respect of succession to the said assigment of land revenue.

This declaration is made in exercise of the powers conferred by section 30 of the North-West Frontier Regulation, 1901.

No. 2829.—In exercise of the powers conferred on him by section 31 of the North-West Frontier Regulation of 1901, the Chief Commissioner of the North-West Frontier Province hereby directs that the rule of descent declared by Notification No. 2828, dated 5th July 1906, to prevail in the family of Ghulam Kadir Khan, son of Hiatullah Khan, resident of Dera Ismail Khan in the Dera Ismail Khan District, shall be subject to the conditions (*a*) and (*b*) specified in the said section and the provisos thereof.

C. RAWLINSON, Major,

Revenue and Financial Secretary to the
Chief Commissioner, North-West Frontier Province.

C. LITTLE,
Registrar, Calcutta University.

SENATE HOUSE;
The 10th July 1906.

THE HON'BLE THE RESIDENT IN MYSORE.

NOTIFICATIONS.

Bangalore, the 5th July 1906.

No. 47.—Under section 10 of the Code of Criminal Procedure, 1898 (Act V of 1898), as applied to the Civil and Military Station of Bangalore, the Resident in Mysore is pleased to appoint Mr H. F. Wilkieson while acting as Collector of the Civil and Military Station of Bangalore to be a Magistrate of the First Class and District Magistrate of the said Civil and Military Station.

The 9th July 1906.

No. 48.—With the approval of the Government of India, the Resident in Mysore sanctions the grant to Mr H. F Wilkieson, District Superintendent of Police, Civil and Military Station of Bangalore, of privilege leave for three months and furlough without medical certificate for twelve months in continuation thereof, under Articles 233, 260 and 380 (*b*) of the Civil Service Regulations, with effect from the 7th August 1906.

The 10th July 1906.

No. 51.—Whereas by the Notification of the Government of India in the Foreign Department No. 2252-I., dated the 7th August 1883, the Indian Christian Marriage Act, 1872, was with certain modifications declared to apply to the Civil and Military Station of Bangalore, so far as regards marriages between persons, one of whom is a Native Christian subject of Mysore, and neither of whom is a Christian British subject.

In exercise of powers conferred by sections 6 and 9 respectively of the Act, the Hon'ble the Resident in Mysore is pleased—

(*a*) to grant a license to the Reverend Samuel Lamech of the Wesleyan Mission to solemnise marriages within the territories included in the Civil and Military Station of Bangalore; and

(*b*) to grant a license to the said Reverend Samuel Lamech to grant certificates of marriage within the territories included in the Civil and Military Station of Bangalore between Native Christians, one of whom is a Native Christian subject of Mysore, and neither of whom is a Christian subject of His Majesty.

No. 52.—In exercise of the powers conferred by sections 6 and 9 respectively of the Indian Christian Marriage Act, 1872 (XV of 1872, as modified by Act II of 1891), and which have been delegated to him by the Governor General in Council under section 86 of the Act by Foreign Department Notification No. 3747 I.B., dated the 1st October 1897, the Hon'ble the Resident in Mysore is pleased—

(*a*) to grant a license to the Reverend Samuel Lamech of the Wesleyan Mission to solemnise marriages within the territories of Mysore including the Civil and Military Station of Bangalore; and

(*b*) to grant a license to the said Reverend Samuel Lamech authorizing him to grant certificates of marriage between Native Christians within the said territories.

The powers hereby conferred are to be exercised only so far as regards Christian subjects of His Majesty.

* Agents for sale of the Legislative Department publications.

NOTICE.—Books and Acts required for private use only can be purchased. Applications should be accompanied by a remittance, unless it is wished that the books should be sent by value-payable post, in which case, besides the ordinary postage, an additional charge is made for registration and commission.

Books and Acts required for the public service should be obtained through Local Governments to whom the applicant is subordinate.

Application for Government publications which are no longer in print should be made to the Agent of the particular Government under whose orders they were originally issued.

The amounts within parentheses are for packing and postage.

ESTABLISHMENTS.

No. 949.

Simla, the 15th August, 1906.

A TEMPORARY vacancy having occurred in the office of Lieutenant-Governor of Bengal consequent on the appointment of the Honourable MR. LANCELOT HARE, C.S.I., C.I.E., who is at present officiating as Lieutenant-Governor of Bengal, to be Lieutenant-Governor of Eastern Bengal and Assam, the Governor General of India is pleased under the authority vested in him by the 29th section of the Act 21 and 22 Vict., Cap. 106, and subject to the approbation of His Majesty, to appoint the Honourable MR. FRANCIS ALEXANDER SLACKE, officiating Member of the Board of Revenue, Lower Provinces, to officiate as Lieutenant-Governor of Bengal during the absence of the Honourable SIR ANDREW HENDERSON LEITH FRASER, K.C.S.I., on leave.

The Honourable MR. SLACKE has this day assumed charge of the office of Lieutenant-Governor of Bengal.

FINANCE DEPARTMENT.

NOTIFICATION.

ACCOUNTS AND FINANCE.
PUBLIC DEBT.

No. 3676-A.

Calcutta, the 14th July 1906.

THREE-AND-A-HALF PER CENT. LOAN.

His Excellency the Right Honourable the Governor General in Council has resolved to borrow four hundred and fifty lakhs of rupees for the public service in the following manner:

2. Promissory Notes will be issued for the said amount in the Form annexed to this Notification, being the form of the notes of *the Three-and-a-half Per Cent. Loan of 1900-01,* of which loan the notes to be now issued will form a part. All the conditions which apply to notes of *the Three-and-a-half Per Cent. Loan of 1900-01,* will apply to the notes to be now issued. The interest on the notes of that loan is payable half-yearly on the 30th day of June and the 31st day of December; and the notes are not liable to discharge before the 31st day of December 1920.

Tenders.

3. Tenders for the whole or any part of the said amount of Rs. 4,50,00,000 will be received by the Comptroller General from this date to noon, standard time,* of Tuesday, the 31st July next. Tenders must be for sums of 100 Rupees or multiples of that sum.

4. Each tender must be addressed, in the form annexed to this Notification, to the Comptroller General, Calcutta, and enclosed in a closed cover, superscribed "*Tender for the Three-and-a-half Per Cent. Loan.*" If the tenderer is not

* Noon, standard time, corresponds to 12-24 P.M., Calcutta time.

resident in India, he must name an agent resident in India to whom an allotment-certificate may be issued, if any part of the loan is allotted to such tenderer.

NOTE (1).—Tenders made in accordance with these instructions will also be received by the Accountants General at Madras, Bombay, Allahabad, and Lahore, on account of the Comptroller General, Calcutta, on the 30th July, and up to noon, standard time,* on the 31st July; provided that—

(a) they are delivered personally or by clerk or messenger at the Accountant General's Office (where a receipt will be given for them);

(b) they are made on printed forms, to be obtained at the same office or at the local Presidency Bank;

(c) each tender is for not less than Rs. 10,000;

(d) the deposit is either a promissory note or a Treasury Receipt from the local Office of the Presidency Bank, or a cheque on a local Bank in favour of the Accountant General;

(e) the amount of the tender is made payable at the place of tender (Madras, Bombay, Allahabad or Lahore, as the case may be) or in Calcutta;

and the Accountant General will return deposits on non-accepted tenders and will issue allotment-certificates so far as the tenders are payable in Madras, Bombay, Allahabad, or Lahore.

5. The rate at which each tender is made must be specified in rupees or rupees and annas: a tender in which no rate is thus specified, but a subscription is offered in some other terms—as, for example, at the recorded minimum, or at some specified percentage in addition to the recorded minimum, or at the average of the accepted tenders—will be rejected as null and void.

6. The rate at which a tender is made must not contain a fraction of an anna: if a rate containing a fraction of an anna is inserted in any tender, such fraction will be struck out and the tender treated as if the rate did not contain such fraction of an anna.

Deposits.

7. Each tender must be accompanied by a deposit of not less than one-hundredth or, if the tender be for less than Five Lakhs of Rupees, then for not less than one-fiftieth part of the tender. The deposit must be in one of the following forms: (*a*) a receipt for the amount from the Head Office of the Bank of Bengal, or Madras, or Bombay, or one of their Branches, or from an officer in charge of some Public Treasury, or (*b*) a cheque drawn in favour of the Comptroller General on a Bank in Calcutta, Madras, Bombay, Allahabad, or Lahore, or (*c*) Government Promissory Notes[1] standing in the name of, or endorsed to, the tenderer or the person making the deposit.

[1] *It is particularly requested that such Promissory Notes may NOT be endorsed to the Comptroller General.*

8. (*a*) Deposits, not being promissory notes, will, in the case of accepted tenders, be credited proportionately in part payment of the allotment-certificates issued in respect of the tender, and will bear interest for the purpose of clause 16 below from the date of the opening of tenders. When a tender is not accepted in full, the deposits, when they are not in the form of promissory notes, will be credited as far as possible proportionately in part payment of the allotment-certificates issued in respect of it. If any allotment-certificate is not fully taken up, the deposit credited in respect of it will be forfeited.

(*b*) Promissory notes deposited in respect of any accepted tender will be held until all the allotment-certificates issued in respect of the tender are paid up, and will, if the allotment-certificates are not fully taken up, be appropriated by the Government and cancelled.

Opening of Tenders.

9. The minimum rate at which tenders will be accepted will be recorded under the signature of the Comptroller General, and, before the tenders are opened, placed upon the table in a sealed envelope, but will not be declared unless some tender is rejected only because it is below the recorded minimum.

10. Tenders will be opened publicly by the Comptroller General at the Treasury Buildings, Calcutta, at noon, standard time,* on Tuesday, the 31st July next, and those received under the terms of note (1) to clause 4 will be similarly opened by the Accountants General at Madras, Bombay, Allahabad, and

* Noon, standard time, corresponds to 12·24 P.M., Calcutta time.

Lahore at noon, standard time, on the same day; but the contents of the tenders will not be disclosed otherwise than as provided in clause 12.

11. Tenders at rates not below the minimum rate will be accepted in the order of the rates tendered, beginning with the highest rate. The amount allotted at the lowest rate at which tenders are accepted will be divided amongst those who have tendered at this rate in proportion, as nearly as may be found convenient, to the amounts of their tenders; provided that no allotment will be issued if the amount distributable on any tender is less than Rs. 100: preference will however be given to small tenders, not exceeding Rs. 2,000, at the lowest accepted rate, such tenders receiving allotments in full as far as possible.

Allotment-Certificates.

12. To each tenderer (or to his agent) whose tender is accepted in whole or in part, such number of allotment-certificates as may be necessary to make up the aggregate amount allotted to him will be issued by the Comptroller General[1] as soon as possible after the 31st July and an alphabetical list of the names of those to whom such allotment-certificates are issued will be posted for general information at the Head Offices of the Banks of Bengal, Madras, and Bombay, and at the Branch Offices of the Bank of Bengal at Allahabad and Lahore.

[1] For tenders received by the Accountant General at Madras, Bombay, Allahabad, or Lahore, and payable at those places, the Accountant General will issue the allotment-certificates.

13. If the allotment made on any tender is less than Rs. 3,000, then the whole of the allotment-certificates [after credit of the deposit under clause 8 (*a*)] will be made payable upon the 5th September.

Otherwise the whole amount of each allotment will be divided into three instalments as follows:—

Instalment I.—As near as convenient to 35 per cent., but not exceeding 35 per cent., payable upon the 15th August:

Instalment II.—As near as convenient to 35 per cent., but not exceeding 35 per cent., payable upon the 5th September:

Instalment III.—The balance payable upon the 8th October:

and allotment-certificates will be issued for each instalment separately.

But the whole or any part of any accepted tender may be paid at any time after receipt of the allotment-certificates.

The words "as near as convenient" refer to the necessity for making each instalment an exact multiple of Rs. 100.

14. Any allotment-certificates will, on application to the Comptroller General, be exchanged for an equivalent amount of allotment-certificates of smaller denominations; provided that if any payment (beyond the deposit) is recorded upon the cancelled certificate, it can be taken against, and recorded upon, only one of the certificates issued in exchange.

15. Payment of any allotment-certificate may be made to the account of the Government in the Head Office of the Bank of Bengal, or Madras, or Bombay, or in any Branch of these Banks, or into any Public Treasury or Treasuries in India which may be named in the tender in respect of which it was issued. Receipts for such payments will be given by the Banks of Bengal, Madras, and Bombay, or their Branches, or by the officers in charge of the Government Treasuries at which payment is made, by enfacement upon the relative certificate.

Issue of Promissory Notes.

16. (*a*) When any allotment-certificate is fully paid up, the holder will, on presenting it duly receipted at the place where it was paid, obtain from the Public Debt Office, Calcutta, promissory notes of such values as he may desire (each note being in even hundreds and not less than Rs. 100) bearing interest from 31st December 1906, and he will also receive interest at 3½ per cent. per annum from the dates on which he may have made payment till the 30th December 1906.

(b) Or he may, at his option, by paying interest at the said rate from 30th June 1906 to the dates on which he may have made payment, obtain promissory notes as above, bearing interest from 30th June 1906.

FORM OF PROMISSORY NOTE (see Clause 2).

Fort William, the .

Promissory Note No. *Government Rupees* *at 3½ per cent. of 1900-01.*

The Governor General of India in Council does hereby acknowledge to have received from
the sum of Government Rupees One Hundred only as a loan to the Secretary of State in Council for India, and does hereby promise, for and on behalf of the said Secretary of State in Council, to repay the said loan by paying the said sum of Government Rupees One Hundred only to the said ,
his Executors, or Administrators, or his or their Order, on demand, at the General Treasury at Fort William, after the expiration of Three Months' Notice of Payment, to be given by the Governor General of India in Council, in the *Government Gazette*, and to pay the interest accruing on the said sum of Government Rupees One Hundred only from the
at the rate of three-and-a-half per cent. per annum, by half-yearly payments, at the General Treasury, at Fort William, to the said
, his Executors, or Administrators, or his or their Order, until the expiration of three months after such notice of payment as aforesaid, when the amount of interest due will be payable with the principal, and (such notice being considered as equivalent to a tender of payment at the period appointed for the discharge of this Note) all further interest shall cease.

The Governor General in Council hereby further engages that Notice of Payment as aforesaid shall not be given before the Thirtieth day of September 1920, and that this Note shall not be discharged before the Thirty-first day of December 1920.

FORM OF TENDER (see Clause 4).

I, *A.B.*, hereby tender for Rupees (X) of *The Three-and-a-half Per Cent. Loan* advertised in the Notification published in the *Gazette of India, Extraordinary*, dated the 14th July 1906, and agree to pay for the same, subject to the conditions notified, at the rate of Rupees (Y) Annas (Z) for every hundred rupees allotted to me.

I enclose a *deposit receipt* * for Rupees (XX), and engage, if my offer be accepted, to pay to the account of the Government at the *Bank of* †
or at the †
Branch of the Bank of † *; or*
into the Public Treasury at † *; as the case may be—*

* Or Cheque or Government Promissory Note.
† Here enter the name of Bank, Branch Bank, or Treasury.

The first instalment, as near as convenient to 35 per cent., but not exceeding 35 per cent., on or before the 15th August 1906.

The second instalment, as near as convenient to 35 per cent., but not exceeding 35 per cent., on or before the 5th September 1906.

The balance on or before the 8th October 1906.

Or, if the amount allotted to me be less than Rs. 3,000, then the whole amount on or before the 5th September 1906.

Any allotment made to me may be communicated to *C. D.* at ‡ .

‡ Here insert *C. D.'s* address which must be in India. This paragraph should only be inserted if *A. B.* does not reside in India, or, if residing in India, he wishes the allotment communicated to an agent, or desires to pay the instalments elsewhere than at the place where the tender is submitted, and wishes the allotment-certificates to be given to an agent at that place.

NOTE.—(1) *A separate tender must be made at each rate tendered. The rate tendered should be the whole amount per centum, not the premium or discount: thus " One hundred and two " or " One hundred" or " Ninety-nine," not " Two per cent. premium " or " Par " or " One per cent. discount."*

By order of the Governor General in Council,

O. T. BARROW,
Secretary to the Government of India.

NOTIFICATION BY THE COMPTROLLER GENERAL.

The Comptroller General requests the attention of tenderers to the following arrangements:

Filling up tenders.

(1) They are requested to use only the printed forms of tender, which will be available at his Office and at the Currency Office on application to the Darwan on duty, at all the Provincial Account Offices, and at the Banks of Bengal, Madras, and Bombay, and will also be supplied to the Principal Treasuries.

(2) If the deposit is in the form of Promissory Notes or of Currency Notes, their number should be quoted in detail in the tender.

Presentation of tenders.

(3) For all tenders presented to him in his office upon the last fixed day, or the two days preceding it, he will give the bearer a receipt bearing a number and initialled by himself or an assistant specially deputed for the purpose. The Accountants General at Madras, Bombay, Allahabad, and Lahore will do likewise in respect of tenders presented to them under note (1) to clause 4 of the Government Notification.

Return of Deposit in case of Non-acceptance.

(4) The reverse of this receipt is a form in which, in the event of the tender not being accepted, the tenderer may give to the Comptroller General or Accountant General a receipt for the deposit accompanying it. This form should, on the third day after the opening of the tenders, be filled up, signed with the same signature as the tender, and be presented at the Office of the Comptroller General or Accountant General. The deposit will then be returned to the bearer in exchange for the receipt.

(5) Deposits upon tenders presented personally, as described in No. (3) above, will be returned only in this way, and will not be sent by post or otherwise. Deposits upon other unsuccessful tenders will be returned by post or by the hands of a clerk.

Accepted Tenders.

(6) The Comptroller General and the Accountant General at Madras, Bombay, Allahabad, or Lahore (in the case of tenders received by such Accountant General and payable in Madras, Bombay, Allahabad, or Lahore), will issue allotment-certificates to successful tenderers. These certificates will be for the following amounts:— Rs. 100, Rs. 500, Rs. 500, Rs. 1,000, Rs 2,000, Rs 5,000, Rs 10,000, Rs. 20,000, Rs. 50,000, Rs. 1,00,000, making up the full value accepted; and the deposit on the tender will be divided among them; they will be substantially of the following form:

This is to certify that, in accordance with the terms of Notification No. 3676-A., dated the 14th July 1906 (Gazette of India, Extraordinary, *dated the 14th July 1906*), *the above named tenderer has engaged to take up Rs. 2,000 of the 3½ Per Cent. Loan of 1900-01 at the rate above mentioned on or before ; and that on the said payment being completed, he is entitled on endorsing and delivering up this certificate to receive a promissory note or notes of the Government of India for Rs. 2,000 bearing interest from* .

J. C. E. BRANSON,
Offg. Comptroller and Auditor General.

FINANCE DEPARTMENT.

NOTIFICATIONS.

ACCOUNTS AND FINANCE.

PUBLIC DEBT.

No. 3676-A.

Simla, the 14th July, 1906.

THREE-AND-A-HALF PER CENT. LOAN.

His Excellency the Right Honourable the Governor General in Council has resolved to borrow four hundred and fifty lakhs of rupees for the public service in the following manner :

2. Promissory Notes will be issued for the said amount in the Form annexed to this Notification, being the form of the notes of the *Three-and-a-half Per Cent. Loan of 1900-01,* of which loan the notes to be now issued will form a part. All the conditions which apply to notes of the *Three-and a-half Per Cent. Loan of 1900-01,* will apply to the notes to be now issued. The interest on the notes of that loan is payable half-yearly on the 30th day of June and the 31st day of December ; and the notes are not liable to discharge before the 31st day of December 1920.

Tenders.

3. Tenders for the whole or any part of the said amount of Rs. 4,50,00,000 will be received by the Comptroller General from this date to noon, standard time,* of Tuesday, the 31st July next. Tenders must be for sums of 100 Rupees or multiples of that sum.

4. Each tender must be addressed, in the form annexed to this Notification, to the Comptroller General, Calcutta, and enclosed in a closed cover, superscribed "*Tender for the Three-and-a-half Per Cent. Loan.*" If the tenderer is not resident in India, he must name an agent resident in India to whom an allotment-certificate may be issued, if any part of the loan is allotted to such tenderer.

NOTE (1)—Tenders made in accordance with these instructions will also be received by the Accountants General at Madras, Bombay, Allahabad, and Lahore, on account of the Comptroller General, Calcutta, on the 30th July and up to noon, standard time,* on the 31st July; provided that—

(*a*) they are delivered personally or by clerk or messenger at the Accountant General's Office (where a receipt will be given for them);
(*b*) they are made on printed forms, to be obtained at the same office or at the local Presidency Bank;
(*c*) each tender is for not less than Rs. 10,000;
(*d*) the deposit is either a promissory note or a Treasury Receipt from the local Office of the Presidency Bank, or a cheque on a local Bank in favour of the Accountant General;
(*e*) the amount of the tender is made payable at the place of tender (Madras, Bombay, Allahabad, or Lahore, as the case may be) or in Calcutta;

and the Accountant General will return deposits on non-accepted tenders and will issue allotment-certificates so far as the tenders are payable in Madras, Bombay, Allahabad, or Lahore.

5. The rate at which each tender is made must be specified in rupees or rupees and annas; a tender in which no rate is thus specified, but a subscription is offered in some other terms—as, for example, at the recorded minimum, or at some specified percentage in addition to the recorded minimum, or at the average of the accepted tenders—will be rejected as null and void.

6. The rate at which a tender is made must not contain a fraction of an anna; if a rate containing a fraction of an anna is inserted in any tender, such fraction will be struck out and the tender treated as if the rate did not contain such fraction of an anna.

Deposits.

7. Each tender must be accompanied by a deposit of not less than one-hundredth or, if the tender be for less than Five Lakhs of Rupees, then for not less than one-fiftieth part of the tender. The deposit must be in one of the following forms: (*a*) a receipt for the amount from the Head Office of the Bank of Bengal, or Madras, or Bombay, or one of their Branches, or from an officer in charge of some Public Treasury, or (*b*) a cheque drawn in favour of the Comptroller General on a Bank in Calcutta, Madras, Bombay, Allahabad, or Lahore, or (*c*) Government Promissory Notes[1] standing in the name of, or endorsed to, the tenderer or the person making the deposit.

[1] *It is particularly requested that such Promissory Notes may NOT be endorsed to the Comptroller General.*

8. (*a*) Deposits not being promissory notes, will, in the case of accepted tenders, be credited proportionately in part payment of the allotment-certificates issued in respect of the tender, and will bear interest for the purpose of clause 16 below from the date of the opening of tenders. When a tender is not accepted in full, the deposits, when they are not in the form of promissory notes, will be credited as far as possible proportionately in part payment of the allotment-certificates issued in respect of it. If any allotment-certificate is not fully taken up, the deposit credited in respect of it will be forfeited.

(*b*) Promissory notes deposited in respect of any accepted tender will be held until all the allotment-certificates issued in respect of the tender are paid up, and will, if the allotment-certificates are not fully taken up, be appropriated by the Government and cancelled.

Opening of tenders.

9. The minimum rate at which tenders will be accepted will be recorded under the signature of the Comptroller General, and, before the tenders are opened, placed upon the table in a sealed envelope, but will not be declared unless some tender is rejected only because it is below the recorded minimum.

* Noon, standard time, corresponds to 12-24 P.M., Calcutta time.

10. Tenders will be opened publicly by the Comptroller General at the Treasury Buildings, Calcutta, at noon, standard time,* on Tuesday, the 31st July next, and those received under the terms of note (1) to clause 4 will be similarly opened by the Accountants General at Madras, Bombay, Allahabad, and Lahore at noon, standard time, on the same day; but the contents of the tenders will not be disclosed otherwise than as provided in clause 12.

11. Tenders at rates not below the minimum rate will be accepted in the order of the rates tendered, beginning with the highest rate. The amount allotted at the lowest rate at which tenders are accepted will be divided amongst those who have tendered at this rate in proportion, as nearly as may be found convenient, to the amounts of their tenders; provided that no allotment will be issued if the amount distributable on any tender is less than Rs. 100: preference will however be given to small tenders, not exceeding Rs. 2,000, at the lowest accepted rate, such tenders receiving allotments in full as far as possible.

Allotment-Certificates.

12. To each tenderer (or to his agent) whose tender is accepted in whole or in part, such number of allotment-certificates as may be necessary to make up the aggregate amount allotted to him will be issued by the Comptroller General[2] as soon as possible after the 31st July and an alphabetical list of the names of those to whom such allotment-certificates are issued will be posted for general information at the Head Offices of the Banks of Bengal, Madras, and Bombay, and at the Branch Offices of the Bank of Bengal at Allahabad and Lahore.

[2] For tenders received by the Accountant General at Madras, Bombay, Allahabad, or Lahore, and payable at those places, the Accountant General will issue the allotment-certificates.

13. If the allotment made on any tender is less than Rs. 3,000, then the whole of the allotment-certificates [after credit of the deposit under clause 8 (*a*)] will be made payable upon the 5th September.

Otherwise the whole amount of each allotment will be divided into three instalments as follows:

Instalment I.—As near as convenient to 35 per cent. but not exceeding 35 per cent. payable upon the 15th August:

Instalment II.—As near as convenient to 35 per cent. but not exceeding 35 per cent. payable upon the 5th September:

Instalment III.—The balance payable upon the 8th October:

and allotment-certificates will be issued for each instalment separately.

But the whole or any part of any accepted tender may be paid at any time after receipt of the allotment-certificates.

The words "as near as convenient" refer to the necessity for making each instalment an exact multiple of Rs. 100.

14. Any allotment-certificates will, on application to the Comptroller General, be exchanged for an equivalent amount of allotment-certificates of smaller denominations; provided that if any payment (beyond the deposit) is recorded upon the cancelled certificate, it can be taken against, and recorded upon, only one of the certificates issued in exchange.

15. Payment of any allotment-certificate may be made to the account of the Government in the Head Office of the Bank of Bengal or Madras or Bombay, or in any Branch of these Banks, or into any Public Treasury or Treasuries in India which may be named in the tender in respect of which it was issued. Receipts for such payments will be given by the Banks of Bengal, Madras, and Bombay, or their Branches, or by the officers in charge of the Government Treasuries at which payment is made by enfacement upon the relative certificate.

* Noon, standard time, corresponds to 12-24 P.M., Calcutta time.

Issue of Promissory Notes.

16. (*a*) When any allotment-certificate is fully paid up, the holder will, on presenting it duly receipted at the place where it was paid, obtain from the Public Debt Office, Calcutta, promissory notes of such values as he may desire (each note being in even hundreds and not less than Rs. 100) bearing interest from 31st December 1906, and he will also receive interest at 3½ per cent. per annum from the dates on which he may have made payment till the 30th December 1906.

(*b*) Or he may, at his option, by paying interest at the said rate from 30th June 1906 to the dates on which he may have made payment, obtain promissory notes as above, bearing interest from 30th June 1906.

FORM OF PROMISSORY NOTE (see Clause 2).

Fort William, the .

Promissory Note *Government Rupees* *at 3½ per cent.*

No. *of 1900-01.*

The Governor General of India in Council does hereby acknowledge to have received from

the sum of Government Rupees One Hundred only as a loan to the Secretary of State in Council for India, and does hereby promise, for and on behalf of the said Secretary of State in Council to repay the said loan, by paying the said sum of Government Rupees one hundred only to the said , his Executors, or Administrators, or his or their Order, on demand, at the General Treasury, at Fort William, after the expiration of Three Months' Notice of Payment, to be given by the Governor General of India in Council, in the *Government Gazette*, and to pay the interest accruing on the said sum of Government Rupees One Hundred only from the at the rate of three-and-a-half per cent. per annum, by half-yearly payments, at the General Treasury, at Fort William, to the said , his Executors, or Administrators, or his or their Order, until the expiration of three months after such notice of payment as aforesaid, when the amount of interest due will be payable with the principal, and (such notice being considered as equivalent to a tender of payment at the period appointed for the discharge of this note) all further interest shall cease.

The Governor General in Council hereby further engages that Notice of Payment as aforesaid shall not be given before the Thirtieth day of September 1920, and that this Note shall not be discharged before the Thirty-first day of December 1920.

FORM OF TENDER (see Clause 4).

I, *A. B.*, hereby tender for Rupees (X) of *The Three-and-a-half Per Cent. Loan* advertised in the Notification published in the *Gazette of India, Extraordinary*, dated the 14th July 1906, and agree to pay for the same, subject to the conditions notified, at the rate of Rupees (Y) annas (Z) for every hundred rupees allotted to me.

I enclose a *deposit receipt** for Rupees (XX), and engage, if my offer be accepted, to pay to the account of the Government at the *Bank of*† *or at the*† *Branch of the Bank of*† *; or into the Public Treasury at*† ; *as the case may be—*

* Or cheque or Government Promissory Note.
† Here enter the name of Bank, Branch Bank or Treasury.

The first instalment, as near as convenient to 35 per cent., but not exceeding 35 per cent., on or before the 15th August 1906.

The second instalment, as near as convenient to 35 per cent., but not exceeding 35 per cent., on or before the 5th September 1906.

The balance on or before the 8th October 1906.

Or, if the amount allotted to me be less than Rs. 3,000, then the whole amount on or before the 5th September 1906.

Any allotment made to me may be communicated to *C.D.* at * .

* Here insert *C. D.*'s address which must be in India. This paragraph should only be inserted if *A. B.* does not reside in India, or, if residing in India, he wishes the allotment communicated to an agent or desires to pay the instalments elsewhere than at the place where the tender is submitted, and wishes the allotment-certificates to be given to an agent at that place.

NOTE.—(*1*) *A separate tender must be made at each rate tendered. The rate tendered should be the whole amount per centum, not the premium or discount: thus ' One hundred and two" or " One hundred" or " Ninety-nine," not " Two per cent. premium " or " Par " or " One per cent. discount."*

By order of the Governor General in Council,

O. T. BARROW,

Secretary to the Government of India.

NOTIFICATION BY THE COMPTROLLER GENERAL.

The Comptroller General requests the attention of tenderers to the following arrangements :

Filling up tenders.

(1) They are requested to use only the printed forms of tender, which will be available at his Office and at the Currency Office on application to the Darwan on duty, at all the Provincial Account Offices, and at the Banks of Bengal, Madras, and Bombay, and will also be supplied to the Principal Treasuries.

(2) If the deposit is in the form of Promissory Notes or of Currency Notes, their number should be quoted in detail in the tender.

Presentation of tenders.

(3) For all tenders presented to him in his office upon the last fixed day, or the two days preceding it, he will give the bearer a receipt bearing a number and initialled by himself or an assistant specially deputed for the purpose The Accountants General at Madras, Bombay, Allahabad, and Lahore will do likewise in respect of tenders presented to them under note (1) to clause 4 of the Government Notification.

Return of Deposit in case of Non-acceptance.

(4) The reverse of this receipt is a form in which, in the event of the tender not being accepted, the tenderer may give to the Comptroller General or Accountant General a receipt for the deposit accompanying it. This form should, on the third day after the opening of the tenders, be filled up, signed with the same signature as the tender, and be presented at the Office of the Comptroller General or Accountant General. The deposit will then be returned to the bearer in exchange for the receipt.

(5) Deposits upon tenders presented personally, as described in No. (3) above, will be returned only in this way, and will not be sent by post or otherwise. Deposits upon other unsuccessful tenders will be returned by post or by the hands of a clerk.

Accepted Tenders.

(6) The Comptroller General and the Accountant General at Madras, Bombay, Allahabad, or Lahore (in the case of tenders received by such Accountant General and payable in Madras, Bombay, Allahabad, or Lahore), will issue allotment-certificates to successful tenderers. These certificates will be for the following amounts :—Rs. 100, Rs. 300, Rs. 500, Rs. 1,000, Rs. 2,000 , Rs. 5,000, Rs. 10,000, Rs. 20,000, Rs 50 000, Rs. 1,00,000, making up the full value accepted ; and the deposit on the tender will be divided among them ; they will be substantially of the following form :

This is to certify that, in accordance with the terms of Notification No. 3676-A., dated the 14th July 1906 (Gazette of India, Extraordinary, *dated the 14th July 1906*), *the above-named tenderer has engaged to take up Rs. 2,000 of the 3½ Per Cent. Loan of 1900-01 at the rate above mentioned on or before ; and that on the said payment being completed, he is entitled on endorsing and delivering up this certificate to receive a promissory note or notes of the Government of India for Rs. 2,000 bearing interest from .*

POST OFFICE.

No. 5676-5680—191.

The 19th July, 1906.

RESOLUTION—By the Government of India, Department of Commerce and Industry.

The Governor General in Council is pleased to sanction the following additions to and alterations in the Rules for the guidance of depositors in the Post Office Savings Bank published with the Resolution of the Government of India in this Department No. 509, dated the 11th March 1905 :

(*a*) *For* the note under Rule 22 the following note shall be substituted :

Note.—" In the case of an account opened at a Sub or Branch Post Office the Pass Book will be sent to the Head Office as soon as possible after the 15th June, when the Pass Book is presented for entry of interest under Rule 31. The depositor will obtain a receipt in exchange for his Pass Book, and he must give up this receipt when his Pass Book is returned to him ".

(*b*) To Rule 24, the following paragraph shall be added :

"A depositor whose account stands at a Head Office may deposit money at any of the Sub-Offices under that Head Office which are Savings Banks, and a depositor whose account stands at a Sub-Office may deposit money at the Head Office of the Sub-Office or at any of the Sub-Offices of that Head Office which are Savings Banks. Similarly, a depositor at a Branch Office may deposit money at the office to which it is subordinate and, if such office is a Sub-Office, he may also deposit money at the Head Office of such Sub-Office. With these exceptions a depositor may deposit money only at the Post Office at which his account stands".

(*c*) For the note below Rule 29 the following note shall be substituted :

Note.—"In the case of an application to withdraw from (*a*) a minor's account, (*b*) a security deposit account, (*c*) any of the conjoint accounts specified in Rule 44, payment cannot, in any circumstances, be made until a Warrant of Payment is received from the Head Office".

(*d*) The following note shall be substituted for Note 2 below Rule 30 :

Note 2.—"Interest on the account of a deceased depositor ceases to accrue from the first day of the month in which notice is issued to the person or persons recognized by the Postmaster General as entitled to receive the balance of the account. No interest will be allowed on money deposited after his death in the account of a deceased depositor".

(*e*) The following shall be substituted for the last sentence of Rule 32 :

"The Pass Book will be returned to the depositor who should present it as soon as possible at the Post Office to which his account has been transferred, with a fresh specimen of his signature".

(*f*) The following note shall be inserted as Note 3 below Rule 32 :

Note 3—"The Pass Book of a depositor in a Sub or Branch Post Office will first be sent to the Head Office to have the orders authorising the transfer entered in it".

(*g*) The note below Rule 34 shall be constituted a separate rule numbered 34-A.

(*h*) For the first two lines of Rule 44 the following shall be substituted :

"The following special conditions govern the opening of the conjoint accounts specified below and their transactions :—"

ORDER.—Ordered that a copy of the Resolution be forwarded to the Finance Department; to the Director General of the Post Office of India; to the Comptroller and Auditor General and to the Comptroller, Post Office.

Ordered, also, that the Resolution be published in the *Gazette of India*, for general information.

EXPLOSIVES.

The 20th July, 1906.

No. 5631—17.—In exercise of the powers conferred by section 17 of the Indian Explosives Act, 1884 (IV of 1884), the Governor General in Council is pleased to make the following amendments in the Rules published with the Notification of the Government of India in the Department of Commerce and Industry, No. 5481—4-10 (Explosives), dated the 2nd October 1905, namely :

In section III for the word "exception" the word "exceptions" shall be substituted, and the following clause shall be added, namely :

(*b*) Picric Acid thoroughly mixed with not less than three times its own weight of—

(i) anhydrous sulphate of soda,

(ii) crystallized sulphate of soda, when packed in hermetically closed packages, or

(iii) potash alum,

shall be exempt from being deemed to be an explosive within the meaning of the said Act.

No. 285—Brevet Colonel C. V. F. Townshend, C.B., D.S.O., 2nd Battalion, Shropshire Light Infantry, to officiate in command of the Allahabad Brigade, *vice* Brigadier-General C. L. Woollcombe, on leave. Dated 7th July 1906.

CANTONMENTS.

REGULATIONS.

No. 286.—The following draft of a notification which it is proposed to issue in exercise of the powers conferred by section 26 of the Cantonments Act, 1889 (XIII of 1889), is published, as required by section 27, sub-section (1), of the said Act, for the information of persons likely to be affected thereby, and notice is given that the draft will be taken into consideration by the Governor General in Council on or after the 22nd August 1906.

Any objection or suggestion which may be received from any person with respect to the draft before the date fixed as aforesaid will be considered by the Governor General in Council.

Draft Notification.

In exercise of the powers conferred by section 26 of the Cantonments Act, 1889 (XIII of 1889), and in modification of the Notification of the Government of India in the Military Department No. 664, of the 16th June 1899, as subsequently amended, the Governor General in Council is pleased to alter the Cantonment Code, 1899, to the extent set forth below:

Section 2 (1).

Clause (b).—For the words "General Officer of the Command in Command Orders," *substitute* "Officer Commanding the Division, in Divisional Orders."

Clause (c) is cancelled, and the following *substituted:*

(c) "Brigade" means any body of troops, placed for administrative purposes under a Commander of one or more stations having the status of a Brigadier-General or Colonel on the Staff, and excludes the Aden, Bannu, Derajat and Kohat Independent Brigades.

Insert the following after clause (c):

(c) (c) "Division" means one of the Divisions into which the Army in India is, for the time being, divided, and includes the Aden, Bannu, Derajat and Kohat Independent Brigades.

Clause (g) is cancelled and the following *substituted:*

(g) "Officer Commanding the Division" means the Officer Commanding a Division, and includes the Officers Commanding the Aden, Bannu, Derajat and Kohat Brigades:

Section 3 (1), clause (a), is cancelled and the following *substituted:*

(a) At the head-quarter cantonment of a Division or Brigade, an officer appointed by name in Station Orders by the officer commanding such Division or Brigade; in all other cases the Commanding Officer of the cantonment.

Clause (b).—In the proviso *for* the words "General Officer of the Command," *substitute* "Officer Commanding the Division."

Section 3 (2) is cancelled and the following *substituted:*—At the head-quarter cantonment of the Division or Brigade the officer appointed under section 3, sub-section (1), clause (a), in all other cases the Officer Commanding the cantonment, shall be the President of the committee and the Cantonment Magistrate shall be the Secretary.

Section 4.—For the words "General Officer of the Command" *substitute* "Officer Commanding the Division."

Section 6 (1).—For the words "General Officer of the Command" *substitute* "Officer Commanding the Division."

Section 13 (1).—For the words "Officer Commanding the District" *substitute* "Officer Commanding the Brigade, or Division, as the case may be"

Section 13 (2)—For the words "General Officer of the Command through the Officer Commanding the District," *substitute* "Officer Commanding the Division, through the Officer Commanding the Brigade, if any."

Section 14 (1).—For the word "District" in first line *substitute* "Brigade," and in the marginal note showing contents of the section *substitute* the word "Brigade" *for* "District."

Section 14 (2).—For the word "District" in first line *substitute* "Brigade."

Section 14 (3)—For the word "District" in first line *substitute* "Brigade," and for the words "General Officer of the Command" *substitute* "Officer Commanding the Division."

Section 15.—For the words "General Officer of the Command" in first line, *substitute* "Officer Commanding the Division," and make a corresponding alteration in the marginal note showing contents of the section.

Clause (a).—To be reconstructed as follows:

(*a*) "Exercise any of the powers conferred by section 14, sub-section (*1*), on the Officer Commanding a Brigade."

Clause (c) (i).—For the word "District" *substitute* "Brigade."

Section 16.—For the words "General Officer of the Command" *substitute* "Office Commanding the Division."

Section 17 (2).—For the words "where such Commanding Officer is the Officer Commanding the District, the officer who would succeed to the Command of the cantonment during his temporary absence" *substitute* "at the head-quarter cantonment of the Division or Brigade the officer appointed under section (3), sub-section (*1*), clause (*a*)."

Section 18 (1).—For the words "General Officer of the Command" in first line *substitute* "Officer Commanding the Division."

Section 18.—In the proviso *for* the word "District" *substitute* "Brigade."

The *Explanation* is cancelled.

Section 28 (1).—For the words "The Secretary to the Government of India in the Military Department" *substitute* "The Secretary to the Government of India in the Army Department and" *for* the words "General Officer of the Command," *substitute* "Officer Commanding the Division" and *for* the word "Command" in last line, *substitute* "Division."

Section 28 (2).—For the words "General Officer of the Command," *substitute* "Officer Commanding the Division."

Section 29, clause (b), is cancelled.

Section 30, clause (b).—For the words "General Officer of the Command" *substitute* "Officer Commanding the Division."

Section 31.—For the words "General Officer of the Command," *substitute* "Officer Commanding the Division."

Section 32 (1).—For the words "General Officer of the Command" *substitute* "Officer Commanding the Division," and *for* the word "District" in third line *substitute* "Brigade or the Officer Commanding the Division, as the case may be."

Section 32 (3).—For the word "District" *substitute* "Brigade," and for the words "General Officer of the Command," *substitute* "Officer Commanding the Division."

Section 32 (4).—For the words "General Officer of the Command," *substitute* "Officer Commanding the Division."

Section 32 (6), clause (b).—For the words "General Officer of the Command," *substitute* "Officer Commanding the Division," and *for* the word "District," *substitute* "Brigade."

Section 33 (1) (a).—For the words "General Officer of the Command," *substitute* "Officer Commanding the Division."

Section 33 (1) (b).—For the word "District" *substitute* "Brigade or Officer Commanding the Division, as the case may be."

Section 33.—In the proviso *for* the words "General Officer of the Command," *substitute* "Officer Commanding the Division."

Section 33 (2).—For the words "General Officer of the Command or the Officer Commanding the District," *substitute* "Officer Commanding the Division or Officer Commanding the Brigade, as the case may be."

Section 34 (1) (b).—For the words "General Officer of the Command," *substitute* "Officer Commanding the Division."

GOVERNMENT OF INDIA.

DEPARTMENT OF REVENUE AND AGRICULTURE.

Rainfall Summary for the seven days ending at 8 hrs., on Thursday, the 19th July 1906, based on the India Daily Weather Reports of the period.

The trough of low pressure which was against the Himalayas on the 12th at the close of last week, remained there until the 15th when it began to move away from the hills and by next morning it extended out into the Bay: a shallow depression appeared off the north Circars coast on the 17th, but did not develop and became merged in the trough, which at the end of the week was well south of its usual position. During the first three days the Bombay monsoon extended to Bengal at the expense of the northwestern portion of its field, but the changes of the 15th and 16th allowed the Bay monsoon to extend up the Gangetic plain, and it now penetrates to the east Punjab; the rainfall due to the Bombay current has also increased in the Peninsula.

In Burma light to moderate rain fell daily on the coast, but in the interior the monsoon was very weak and only light isolated falls occurred. Skies have been moderately overcast throughout the week and temperature normal or in slight excess.

In northeast India while the trough of low pressure was close to the Himalayas rainfall was abundant and widespread, but on the 17th when the depression began to form in the Bay precipitation diminished rapidly and throughout the rest of the week was very light. Skies were completely overcast during the first-half of the week and moderately overcast in the latter half, while temperature was generally normal or in slight excess.

In the United Provinces, Central India and Rajputana there has been a break in the rains and only a few scattered falls occurred in these areas throughout the whole period. In the Central Provinces however light rain has fallen almost daily and in the extreme north of India local disturbances have given rain at many of the stations: in the Punjab

light rain fell locally on the last day of the week. Skies have been moderately to heavily overcast in the Central Provinces and Central India, but in the United Provinces, excluding the eastern districts, Rajputana and the Punjab, they were practically clear for half the week. In the last mentioned area temperature has been high throughout the period, sometimes being as much as 11° above normal at a number of stations. In the United Provinces, the Central Provinces, Central India and Rajputana it was generally normal or in excess: in the two latter areas the excess was large at the end of the week.

On the west coast precipitation has been moderately heavy, but in the remainder of the Peninsula only scattered amounts were reported up to the 15th: on the next day the monsoon strengthened materially and during the rest of the week rainfall was heavier than usual. Skies were completely overcast on the west coast and moderately overcast elsewhere. Temperature was generally normal or in slight excess until the 17th, when owing to the increased rainfall weather became much cooler and temperature continued in defect until the end of the week.

The rainfall for the whole period from the 4th May to the 19th July is equal to or in excess of the normal except over the greater part of northwest India, in Malabar, Orissa, Chota Nagpur and the subdivision of Burdwan.

The following list summarises the chief rainfall amounts of the week, as reported at 8 hrs. each day:

July 13th. Toungoo 2·12″, Dhubri 5·25″, Cherra Poonjee 11·99″, Patna 5·07″, Gorakhpur 3·50″, Sialkot 1·48″ and Deesa 0·99″.

„ 14th. Cherra Poonjee 13·09″, Purnea 2·56″, Sambalpur 2·21″ and Kurnool 1·60″.

„ 15th. Cherra Poonjee 19·21″ and Chittagong 3·70″.

„ 16th. Jalpaiguri 3·60″ and Murree 2·23″.

„ 17th. Burdwan 0·91″, Dwarka 1·09″, Nagpur 3·12″, Belgaum 1·16″ and Chitaldroog 1·27″.

„ 18th. Amraoti 1·73″ and Bangalore 0·95″.

„ 19th. Maymyo 1·50″, Bareilly 1·84″, Akola 1·03″, Malegaon 2·90″ and Aurangabad 3·94″.

J. PATTERSON,

for Meteorological Reporter to the Government of India and Director General of Indian Observatories.

J. WILSON,

Secretary to the Government of India.

SIMLA;

The 19th July, 1906.

GOVERNMENT OF INDIA.

DEPARTMENT OF REVENUE AND AGRICULTURE.

Season and Crop Prospects for the week ending Saturday, 14th July 1906.

Burma.—The rainfall of the week was generally deficient; it was light in the dry zone with none in Lower Chindwin, Yamethin and Myingyan. Ploughing for wet-weather paddy has commenced in Meiktila, and sowing has commenced in Pakokku and the Northern Shan States. Agricultural operations are practically general. Reaping of early wet-weather paddy has commenced in Kyaukse. Sowing of sesamum is completed in Manhein and ploughing for millet and maize has commenced in Myingyan. The crops has been slightly damaged by floods in the Banmauk township of Katha. More rain is wanted in Sagaing, Yamethin, Myingyan and the Southern Shan States. Prospects on the whole continue good. The price of paddy has risen very largely in Katha; considerable in Henzada and slightly in four districts; it has fallen considerably in Maubin; and is stationary elsewhere.

Eastern-Bengal and Assam.—The weather is seasonable. There was heavy rain in Jalpaiguri, Rangpur, Dinajpur, Goalpara, the Garo Hills, and the Khasi and Jaintia Hills and moderate to light rain in all other districts. More rain is wanted in Bogra, in parts of Mymensingh and Dacca, and in Manipur. The weather is unfavourable for tea in Cachar: prospects are good in Lakhimpur, Nowgong, and Sylhet, poor in Darrang, and fair in Kamrup and Sibsagar. Harvesting of early rice and jute is in progress. Cultivation of late transplanted rice continues. Prospects of crops are generally good in most of the Eastern-Bengal districts, the Surma Valley and Nowgong, and fair in other districts; but damage by insects to standing rice crops still continues in Dacca, Bakarganj, and Sylhet. Insects are appearing on jute in Faridpur. Prices of common rice:—Manipur 15; Kohima 11; Comilla $9\frac{7}{16}$; Pabna $9\frac{1}{4}$; Dacca, Barisal, Noakhali, Chittagong, Tezpur, Nowgong, and Sibsagar 9; Mymensingh $8\frac{3}{8}$; Dinajpur $8\frac{3}{4}$; Gauhati $8\frac{1}{2}$; Bogra and Dibrugarh $8\frac{1}{4}$; Jalpaiguri, Malda, Rampur Boalia, Rangamati, Sylhet, Silchar, and Dhubri 8; Faridpur 7 to 8; Rangpur $7\frac{3}{4}$; Tura 7; Shillong 6; and Aijal 5 seers per rupee. Prices have slightly risen in four; fallen in seven; and remain stationary in the remaining districts.

Scarcity continues in Noakhali and Bakarganj. 618 men, 925 women, and 1,161 children are receiving gratuitous relief, and 1,209 men, 2 women, and 276 children are attending test work in Bakarganj on an average per day. 31 men and 6 children are employed on test works and 11 persons are on gratuitous relief in Noakhali. The condition of the people is steadily improving in Faridpur. Individual cases of distress are reported from various villages in Dinajpur.

Bengal.—Rain was fairly general in the Province during the week, the fall being heavy in the Patna and Bhagalpur Divisions and in Cooch Behar and Sambalpur but generally light in the rest of the Province. More rain is needed in the Burdwan, Presidency and Orissa Divisions for transplantation of *aman* paddy. Sugarcane and jute are reported to be doing well. Some damage to *aus* paddy by insect-pests is reported from the 24-Parganas and Khulna. Prospects are on the whole fair. Fodder and water are sufficient. The price of common rice has risen in nine and fallen in six districts: it continues high in most districts.

United Provinces.—There was rain in all districts during the week except Tehri. A break is needed in Gonda where low-lying lands have been flooded and maize sowings seriously interfered with. In a few districts more rain is needed for rice sowings. The standing crops are everywhere doing well and prospects are fair. Fodder supplies are generally good and cattle are healthy except in Dehra Dun and Rae Bareli. Prices of food-grains have risen in four districts and fallen in two.

The weekly report on the famine and scarcity is as follows:—There was good rain in the affected districts except in Muttra and Agra which received an average of barely half an inch each. Some anxiety is felt in Agra owing to high westerly winds, but no damage has been done as yet. Prospects in other districts are fair. Sowings continue and the standing crops are doing well. The scarcity of fodder is practically over and cattle are in better condition. The general health of the people is improving. Prices of food-grains are stationary, except in Hamirpur and Agra where they have risen and in Jhansi where they have

fallen slightly. The numbers on relief are:—Allahabad Division—workers 22,000, on gratuitous relief 49,000; Agra Division—workers 1,000, on gratuitous relief 9,000; total 81,000.

Punjab.—The weekly report on the famine and scarcity is as follows:—Rohtak—on works 2,968, on gratuitous relief 5,485; total 8,453. The fall in the number on relief is due to the rainfall and sowing of crops following on distribution of *takkavi*. Distress is decreasing. There is no wandering or emaciation apparent. The physical condition of the labourers is good. Relief measures are sufficient. The public health is good.

North-West Frontier Province.—Good rain averaging 2 cents to 1·40 inches fell all over the Province during the week. More rain is wanted in the Bannu district. Autumn crops are being sown. The condition of the standing crops on irrigated and unirrigated areas is average. Harvest prospects and outturn of crops are fair. Canal water is sufficient. Crops in two villages of the Peshawar tahsil have been damaged by floods which occurred in the Bara river: floods have also occurred in the Indus and Kurram. The Kilapani supply is normal. There is no irrigation from hill torrents in Dera Ismail Khan. The condition of cattle is generally good except in a few villages of Bannu tahsil. Stocks of food-grains are sufficient. Fodder is procurable. Prices are fluctuating. Prices—wheat $14\frac{11}{16}$ to $18\frac{3}{4}$; gram $16\frac{1}{16}$ to 19; *bajra* 13 to $13\frac{3}{4}$; maize 15 to 20 seers per rupee.

Jammu.—There was slight rain during the week. Prices are stationary. Prices—wheat 14 to 25 and maize 16 to 35 seers per rupee. The condition of the standing crops is fair. Fodder is sufficient.

Kashmir.—The weather is generally bright with slight rain and heavy dust-storms. Prices are stationary.

Rajputana.—There was again general rain except in parts of Marwar and Jaisalmer; Sambhar in Marwar reports 466 cents, Udaipur 273, Hill tracts 268, Partabgarh 125, Shahpura 432, Tonk 261, Bundi 156, Kotah 338, Jhalrapatan 342, Jaipur 376, Kishangarh 340, Alwar 272 Karauli 208, Bharatpur 82, Dholpur 53, Bikaner 32, Ajmer 390, Merwara 86. Sowings for autumn crops continue. Pasturage is now available but fodder is insufficient in some of the affected tracts. The condition of cattle is improving. Prices have risen in Kotah and fallen in Hill tracts, Partabgarh, and Kishangarh.

The weekly report on the famine and scarcity is as follows:—Ajmer—on works 2,565, on gratuitous relief 1,024, total 3,590; Merwara—on works 13,235, on gratuitous relief 5,336, total 18,571; grand total 22,161. Native States:—Marwar—on works 1,727, on gratuitous relief 1,377, total 3,104; Mewar—on works 818, on gratuitous relief 99, total 917; Shahpura—on works *nil*, on gratuitous relief 84, total 84; Tonk—on works 1,793, on gratuitous relief 841, total 2,634; Jaipur—on works 8,365, on gratuitous relief 684, total 9,049; Kishangarh—on works 2,130, on gratuitous relief 2,736, total 4,866; Alwar—on works 1,415, on gratuitous relief 1,616, total 3,031; Eastern States—on works 5,749, on gratuitous relief 1,827, total 7,576; total Native States 31,261; grand total 53,422. The decrease is due to people leaving the works to cultivate their fields. Prices vary between $11\frac{3}{4}$ seers in Karauli and 15 seers in Alwar. *Takkavi* is being distributed and private charity is sufficient. Cholera has practically ceased in Ajmer-Merwara and Bharatpur: a few cases are reported from Dholpur.

Central India.—The rainfall was general except in Bundelkhand. Ploughing and sowing for the autumn harvest are in progress. Agricultural stock is in bad condition in parts of Gwalior and Bundelkhand and fair to good in Bhopal, Baghelkhand, and Malwa. Pasturage is bad in parts of Gwalior and scarce in Bundelkhand. Prices are high in Gwalior, Indore, Bhopal, and Baghelkhand and steady elsewhere.

The weekly report on the famine and scarcity is as follows:—The numbers on relief are:—Gwalior—on works 10,000, on gratuitous relief 4,000, total 14,000; in Bundelkhand States and Jagirs—on works 8,000, on gratuitous relief 2,800, total 10,800; grand total 24,800.

Central Provinces.—Good rain has fallen during the week in all districts; the heaviest falls were—Nagpur $6\frac{1}{4}$, Balaghat $5\frac{1}{4}$, Chanda and Drug $4\frac{3}{4}$, and Mandla $3\frac{1}{4}$ inches. Autumn sowings are nearly finished although they have been retarded in Wardha and Chanda by continuous rain. A break would be welcome in Seoni, Nagpur, Chanda and Balaghat. Germination is good in Damoh, Narsinghpur, Nimar, Betul, and Drug. Sowings have almost been completed in Jubbulpore and Balaghat which expect a slight increase in the rice area. Weeding has commenced in Saugor, Nimar, Akola, Amraoti, Buldana and Yeotmal and transplantation of rice in Chanda and Balaghat; thinning of rice continues in

Chhattisgarh; rice embankments have burst in places from heavy rain in Jubbulpore and some damage to seedlings by rain is reported from Balaghat, but in the Baihar tahsil sowings have increased by 10 per cent. The prices of food-grains are still equal to or above the scarcity level in Chanda, Balaghat, Drug, and Bilaspur; the price of wheat has slightly fallen in the northern districts; *juar* is a seer cheaper in Wardha and Akola: elsewhere prices are fairly steady.

Baroda.—For week ending 7th July 1906. The numbers on relief are:—on works 1,938, on gratuitous relief 147, total 2,085.

Bombay.—Rain was plentiful during the week in Ahmedabad, Konkan, Sholapur, Bijapur, Kolhapur, Savantwadi, Kathiawar, Mahi Kantha, and Rewa Kantha; moderate in Panch Mahals, Surat, Nasik, Belgaum, and Palanpur; and slight in Kaira, Broach, Ahmednagar, Poona, Satara, Dharwar, Baroda, and Cutch. More rain is needed in Kaira, Surat, the Deccan, the Karnatak, the Konkan, Kolhapur and Savantwadi. Inundation in Sind is generally satisfactory. Sowing continues except in parts of the Deccan and the Karnatak where it is retarded. Germinated seedlings have been slightly damaged by insects in parts of Upper Sind Frontier and by grasshoppers in parts of the Panch Mahals and Akalkot; are suffering from insufficient moisture in parts of Nasik, Ahmednagar, and Poona; and are generally in good condition elsewhere. Transplantation is in progress, but is retarded in parts of the Panch Mahals, Kaira, Surat, Thana, Poona, and Savantwadi. The drinking water supply is sufficient except in parts of Belgaum and Dharwar. Irrigation channels, tanks, and wells are filling up. Agricultural stock is deficient and advances have been made for purchase of cattle. The supply of fodder is still deficient, grass being in some places available only in very small quantities. The price of local fodder is two to three times the normal. The condition of cattle has not much improved yet. Food stocks with merchants are sufficient and trade is active. The quantity of grain purchasable per rupee is in the Deccan 28 to 57 per cent; in the Karnatak 40 to 45 per cent; in Gujarat and Konkan 20 to 30 per cent; and in Sind 10 to 25 per cent less than the normal. The numbers on test works on the last day of the week ending 7th instant were:—Phaltan 115, Miraj Junior 194, Kathiawar 912, total 1,221. Test and relief works in Kathiawar have been closed. The condition of agricultural labourers and of people on relief generally is good. The demand for labour in fields and on local works is sufficient. The public health is generally good. Cholera is still prevalent in parts of the Deccan and the Karnatak. The slight increase on works in the Karnatak is due to the holding off of the rains. The numbers on relief are:—British districts—Deccan—on works 17,389, on gratuitous relief 33,114, total 50,503; Karnatak—on works 16,602, on gratuitous relief 15,392, total 31,991; Native States—on works 4,626, on gratuitous relief 2,309, total 6,935.

Hyderabad.—Rainfall—1 inch 70 cents. Autumn sowings continue. Crops are in good condition. Sowings have been resumed in four out of seven taluks where they were previously suspended for want of rain. Early rice is being sown in twelve taluks. Fodder scarcity exists in two taluks. The attendance on road works amounted to 1,100 persons and in poor-houses to 328 persons. Prices have fallen from a half to 5½ seers per rupee in nine taluks; and risen from a half to three seers in ten. Prices:—wheat 8¼; coarse rice 7¼; and *juar* 15 seers per rupee.

Mysore.—There was fair rain in Bangalore, Kolar and Tumkur and slight rain elsewhere. Markets are fairly well supplied. More rain is needed throughout the Province. The prospects of the season have been slightly improved by recent rainfall. Cattle are generally healthy except in parts of Tumkur. Water and fodder are available except in parts of Bangalore, Tumkur, Mysore, Hassan, Shimoga, and Chitaldroog.

Coorg.—Rainfall—6 inches 14 cents. Sowing of rice continues. Transplanting has commenced in parts. Prices of food-grains are stationary. Water and fodder are sufficient.

Madras.—The rainfall was very heavy in South Canara; heavy in Malabar; light in Tinnevelly; fair in Coimbatore, Bellary, Tanjore, and Madura; and good elsewhere. Irrigation supplies are insufficient except in Vizagapatam, Godavari, Kistna, Guntur, Cuddapah, Nellore, Malabar, and the Nilgiris. Ploughing, sowing, manuring, weeding, and transplanting are in progress in parts. The standing crops are generally fair, but some in parts of Coimbatore, Tanjore, Madura and Tinnevelly require more rain. There are no harvests in parts of the Circars, the Deccan, Tanjore, Tinnevelly, Malabar, and South Canara; elsewhere they continue in parts with outturn poor to normal and bumper. Pasture is insufficient except in parts of the Circars, Chingleput, North Arcot, Salem, Malabar, South Canara, and the Nilgiris. Fodder is scanty in parts of Godavari, Bellary, Coimbatore aud Tanjore. The condition of cattle is generally good. The price of rice is stationary in fourteen districts; has fallen in one; and has slightly risen in eight. The prices of millets have fluctuated as follows:—*Ragi* is stationary in five districts; has fallen in four; and has slightly risen in twelve. *Cumbu* is stationary in four districts; has fallen in two; and has slightly risen in nine. *Cholam* is stationary in five districts; and has slightly risen in nine.

The number of persons in receipt of relief during the preceding and present weeks in each Province or State is shown in the following table :

Name of Province or State.	Preceding week. (Revised figures.)			Present week.			Increase or decrease.

H. H. RISLEY,
Secretary to the Government of India.

No. 5443—5449—8.

GOVERNMENT OF INDIA.

DEPARTMENT OF COMMERCE AND INDUSTRY.

CUSTOMS.

RESOLUTION.

Simla, the 13th July, 1906.

The Government of India have recently had under consideration the question of the proper classification, for fiscal purposes, of imported cotton goods. These goods may be assessed to customs duty either as "apparel" under Article 17 of Schedule IV of the Indian Tariff Act, 1894 (VIII of 1894), or as "piece-goods" or "all other manufactured cotton goods not otherwise described" under Article 30, or under other less important heads of the Tariff Schedule. The existing orders on the subject are contained in various letters* issued by the Finance and Commerce Department, but the Government of India are now satisfied that these orders do not afford a satisfactory means of determining under which head of the Schedule any particular article should be classed. The orders of 1896 prescribed a basis of distinction between "apparel" and "piece-goods," which appears to be opposed to the usage of the trade; and the instructions conveyed in 1902 formulated a definition of "piece-goods" which was accepted as of general application until the beginning of 1904, when it was explained that the definition should be regarded as applying solely to a particular class of cotton prints. These instructions, which are in some respects indefinite and conflicting, have resulted in considerable diversity of practice in the treatment, for fiscal purposes, of certain classes of cotton fabrics at the various ports; and the Government of India are of opinion that instructions, which will be sufficiently explicit and precise to prevent such divergencies in future, are required both in the interests of the trade and of the Government.

* No. 2580-S.R., dated 15th June 1896.
" 6635-S.R. dated 15th December 1902.
" 881-S.R., dated 18th February 1904.

2. After consultation with the maritime Local Governments, the Chambers of Commerce, and other commercial associations, the Government of India have decided that a new system of classification should be adopted in supersession of that described above. The basis of this system will be a comprehensive and authoritative list of "cotton piece-goods," the commercial acceptation of that term having been taken as the determining factor in its preparation. The list appended includes, so far as the Government of India have been able to ascertain, all articles manufactured from cotton which are recognised as "piece-goods" by the usage of the trade at the various ports, and these will hereafter be excluded from the category of "apparel", irrespectively of the manner in which they are made up or of the purposes for which they are intended to be employed.

3. It is, however, recognised that, owing to frequent changes in manufacture and to the constant introduction of new styles and descriptions of piece-goods, the list in question cannot continue to be complete for any length of time, and the Government of India have therefore directed the Director General of Commercial Intelligence to revise it at the end of each year simultaneously with the revision of the tariff valuations in Schedule IV of the Indian Tariff Act. Doubtful cases arising between revisions will be disposed of by the Customs authorities in accordance with the list actually in force, but such cases

should be submitted to the Director General of Commercial Intelligence for consideration at the following revision. The Chambers of Commerce, the Trades' Associations, and the Bombay Millowners' Association will be consulted on each occasion in order that agreement with commercial usage prevailing at the time may be preserved. The first revision will be undertaken at the end of the present year, and the opportunity will then be taken to remove any discrepancies or anomalies that may have crept into the list as now published.

4. All "piece-goods" enumerated in the appended list will in future be assessed to duty under Article 30 of Schedule IV of the Indian Tariff Act; and a Customs officer dealing with any imported article made of cotton—not being hosiery—which is not specifically included in that list will have to consider whether it should be treated as "apparel" under Article 17, or as "other manufactured cotton goods not otherwise described" under Article 30 of the Schedule. In determining whether an article is in fact an article of apparel, the following definition of that term may usefully be referred to:—

> "Articles of clothing for personal use or wear, which have been so cut, shaped, sewn, or otherwise treated as to be ready for use or wear without further manipulation, or without further manipulation save of an unimportant character."

5. All articles of cotton, which are neither "piece-goods" nor "apparel" as defined in the foregoing paragraphs, and which are not specifically included in any other head of the Tariff Schedules, will in general be assessed to import duty under Article 30 as "other manufactured cotton goods not otherwise described."

6. The list of "cotton piece-goods" referred to above is, it may be added, intended to assist Customs officers in the practical administration of the Tariff Act only; and inclusion in that list does not necessarily import the requirement of stamping of length under section 10 (2) (*f*) of the Indian Merchandise Marks Act, 1889 (IV of 1889), unless the article is also included in the list of piece-goods published with Government of India Notification, No. 1430, dated the 6th April 1891. The orders issued in Finance and Commerce Department letter, No. 3921-S. R., dated the 15th September 1896, in regard to the levy of customs duty on cotton goods embroidered with silk or wool will also remain in force.

ORDER.—Ordered that a copy of the Resolution, and its annexure be forwarded to the Government of Bombay, Revenue Department (1) / Madras, Revenue Department (2) / Bengal, Financial Department (3) / Burma, Revenue Department (4) / Eastern Bengal and Assam, Financial Department, for information and communication to the Customs authorities and commercial association, in continuation of the letter from that Government, No. 2977, dated the 24th March 1906 (1) / 46, dated the 12th January 1906 (2) / 3 T.S.R., dated 21st April 1906 (3) / 470—2 C.-2, dated the 12th March 1906 (4).

Ordered also that a copy be forwarded to the Director General of Commercial Intelligence for information and guidance, in continuation of the endorsement from this Department, No. 5274-Customs, dated the 23rd September 1905.

Ordered also that the Resolution, and its annexure, be published in the Supplement to the *Gazette of India* for general information.

W. L. HARVEY,

Secretary to the Government of India.

List of Cotton Piece-goods.

1. American cloth.
2. Art muslins.
3. Basket cloth.

CALCUTTA, SATURDAY, JULY 21, 1906.

☞ Separate paging is given to this Part in order that it may be filed as a separate compilation.

PART II.

Notifications by High Court, Comptroller General, etc.

GAZETTE OF INDIA.

NOTICE.

The 21st March 1906.

From the 7th April next till further notice, Parts I, IV, V, and VI of the *Gazette of India* and the Weather and Crop Report will be published at Simla After the 31st March all Notifications and other matter intended for publication in those Parts should be addressed to the Officiating Publisher at Simla.

Attention is invited to the following Circular Memorandum of the Government of India, Home Department, of August 1901:—

"It has been brought to the notice of this Department that matter for the *Gazette of India* is sometimes sent to the Press late on Friday evenings for publication in the next day's Gazette, and that this involves considerable inconvenience to the Press and expense to Government. In the Circular Memorandum of this Department, No. 777—79, dated 9th February 1870, the Government of India directed that all notifications or other matter intended for insertion in the *Gazette of India* should be delivered at the Press not later than 2 P.M. on Friday, and that any papers sent thereafter must be certified to be extremely urgent in order to ensure their appearance in the next day's Gazette. The undersigned is directed to request that these orders may be more strictly observed in future, and that Departments will refrain from sending to the Press as extremely urgent any papers which can without harm or inconvenience be held over for the next Gazette."

J. P. HEWETT,
Secretary to the Government of India.

No. 267 of 1906.—Thomas Warsop, engineer, of Launder street, of the city of Nottingham, in the county of Nottingham, England *Improvements in or relating to rock drills or other percussion tools.* (Specification filed 12 July 1906.)

No 2805 P.—THE fees prescribed in the fourth schedule to the Inventions and Designs Act of 1888 have been paid for the continuance of exclusive privilege in respect of the undermentioned inventions for the periods shown against each:—

No. 386 of 1895 —Jules Lemichel. *Improvements in or connected with apparatus for raising liquids.* (From 13 July 1906 to 13 July 1907.)

No. 168 of 1896 —Economical Refrigerating Company. *Improvement in refrigerating apparatus* (From 15 August 1906 to 15 August 1907.)

No. 357 of 1896.—Andrew Campbell and James Urie *Apparatus for filling oil tins* (From 20 July 1906 to 20 July 1907.)

No. 22 of 1899.—Sidney Prescott Wood. *Improvements in or relating to lamp signals suitable for use on railways and tramways* (From 18 September 1906 to 18 September 1907.)

No. 62 of 1900 —Darling's Patent Automatic Coupling, Limited. *Improvements in automatically coupling and uncoupling railway carriages, wagons and other vehicles* (From 31 July 1906 to 31 July 1907.)

No. 108 of 1900 Sidney George Brown *Improvements in electric telegraph apparatus* (From 11 October 1906 to 11 October 1907.)

No. 28 of 1901.—The Linotype Company, Limited. *Mechanism for effecting the distribution of type* (From 26 August 1906 to 26 August 1907.)

No. 22 of 1902.—Adolf Gentzsch. *Improved manufacture of a substitute for gutta-percha* (From 12 August 1906 to 12 August 1907)

No. 44 of 1902.—William Albert McAdams. *Improvement in solder* (From 27 August 1906 to 27 August 1907.)

No. 92 of 1902.—Frank Townsend Mumford *Improvements in the electrolytical treatment of ores and slimes for the recovery of precious metals therefrom and apparatus therefor.* (From 2 October 1906 to 2 October 1907)

No. 187 of 1902.—Arthur Blanchard. *Improvements in or relating to liquid hydrocarbon vapour burners.* (From 29 July 1906 to 29 July 1907.)

No. 226 of 1902.—Sidney George Brown. *Improvements relating to electric telegraphy.* (From 4 October 1906 to 4 October 1907.)

No. 2806 P.—WHEREAS the inventors of the undermentioned inventions have respectively failed to pay, within the time limited in that behalf by the fourth schedule to the Inventions and Designs Act of 1888, the fees hereinafter respectively mentioned, it is hereby notified that under the provisions of section 8, sub-section (2), of the said Act the exclusive privilege of making, selling, and using the said inventions in British India, and of authorising others so to do, has ceased:—

No. 319 of 1901.—The New Century Finance Company, Limited *Improvements in spinning cotton and other fibres and apparatus for that purpose.* (Specification filed 10 April 1902)

No. 425 of 1901.—Herbert Edgar Musgrave and George Alfred Barnes. *Improvements in or relating to the means for cutting cloth, leather, and other analogous materials or substances and apparatus therefor.* (Specification filed 12 April 1902)

No. 486 of 1901.—Dr. Albert Calmette. *A process for oxidising indigo extracted from indigo bearing plants.* (Specification filed 10 April 1902.)

No. 6 of 1902.—Samuel Henry Johnson. *Improvements in or relating to electric arc lamps.* (Specification filed 10 April 1902.)

No. 74 of 1902.—John Wesley Hyatt. *A machine for the production of fabric consisting of parallel threads of material, particularly suitable for use as lamp wick* (Specification filed 7 April 1902.)

Fee in respect of the continuance of an exclusive privilege—

4 (*a*) After the filing of the specification and before the expiration of the fourth year from the date of the filing thereof—

The sum of R50 for each of the above inventions

NOTICES.

All communications relating to applications for leave to file specifications and for registration of designs under the Inventions and Designs Act, 1888 (V of 1888), or in continuation of such applications, should be addressed to the Patents Secretary, 2, Bankshall Street, Calcutta.

The Office of the Secretary under the Inventions and Designs Act, 1888, will in future be open for the transaction of business from 11 A.M. to 3 P.M. on all days, except Sundays and gazetted holidays.

The Government of India are advised that, as trade marks are not "designs" within the meaning of the Act, they cannot be registered under Part II.

The fees payable under the fourth and sixth schedules are now collected in cash and applicants are warned that they must be responsible for any delay in cashing cheques.

Cheques and money orders will only be accepted if made payable *at Calcutta* to the Secretary under the Inventions and Designs Act.

Copies of the weekly notifications, and of the quarterly lists, of applications and specifications filed in the Secretary's Office are now on sale to the public at one anna and eight annas a copy, respectively A consolidated index for the year 1905, entitled "Inventions and Designs in 1905," is also on sale, price one rupee It contains a chronological list, subject-matter and name indexes of exclusive privileges for inventions, which have been obtained or applied for in that year, together with lists of designs applications

---

Attention is requested to the rules made by the Government on the 10th October 1895 in regard to the preparation of applications, specifications and drawings.

All applications made under the Inventions and Designs Act, V of 1888, will from this date (December 19th, 1896) lie in the visitors' room of the Patents Office for ten days from the date of the *Gazette of India* in which their filing may have been notified : or, if the 10th day is a holiday, till the evening of the office day next following.

At the time of delivering or sending an application for leave to file a specification, the applicant shall cause a duplicate copy of the application to be delivered or sent therewith to the Secretary.

The Inventions and Designs Act (V of 1888), with the notifications and rules issued under its provisions and the notices of the office of Inventions and Designs, to which is added an explanatory memorandum for the guidance of persons applying for protection of Inventions and Designs. Royal 8vo. volumes, paper cover, 13 annas or 1*s*. 1*d*. Postage extra. To be had of the Superintendent, Government Printing, 8, Hastings Street, Calcutta, or of the Superintendent, Patents Branch, Department of Commerce and Industry, 2, Bankshall Street, Calcutta.

H. G. GRAVES,

Secretary under the Inventions and Designs Act, V of 1888.

CONTENTS.

PART I.

Government of India Notifications, Appointments, Promotions, &c.

LEGISLATIVE DEPARTMENT.

NOTIFICATION.

Simla, the 25th July, 1906.

No. 8.—In exercise of the power conferred by section 17 of the Indian Councils Act, 1861, the Governor General in Council is pleased to appoint Friday, the 10th August, 1906, at 11 A.M., as the time, and the Council Chamber in the Viceregal Lodge, Simla, as the place, for a meeting of the Council of the Governor General for the purpose of making Laws and Regulations.

J. M. MACPHERSON,

Secretary to the Government of India.

HOME DEPARTMENT.

NOTIFICATIONS.

PUBLIC.

Simla, the 26th July, 1906.

No. 1779.—In supersession of the notification of the Government of India, in the Home Department no. 1057, dated the 27th April 1906, Mr. J. Macfarlane, Librarian of the Imperial Library, is granted privilege leave for one month and twenty-eight days with furlough on medical certificate for six months in continuation, with effect from the 14th May 1906.

ESTABLISHMENTS.

The 23rd July, 1906.

No. 799.—The services of Mr. C. W. E. Cotton, of the Indian Civil Service, are placed at the disposal of the Department of Commerce and Industry.

The 25th July, 1906.

No. 807.—The services of Mr. J. S. Meston, of the Indian Civil Service, are placed at the disposal of the Finance Department.

The 26th July, 1906.

No. 811.—The services of Rai Sahib Dinbandhu Patnaik, Extra Assistant Commissioner, Central Provinces, are placed at the disposal of the Government of Bengal.

The 27th July, 1906.

No. 815.—The Hon'ble Mr. S. Ismay, C.S.I., of the Indian Civil Service, received charge of the office of Chief Commissioner of the Central Provinces from the Hon'ble Mr. J. O. Miller, C.S.I., on the afternoon of the 20th July 1906.

EXAMINATIONS.

The 27th July, 1906.

No. 461.—The following additions and alterations are made in the rules for the encouragement of the study of oriental languages among the junior members of the Indian Civil Service published with the Home Department notification no. 708, dated the 27th October 1905:

In rule IX (A) insert the following note to clause (*a*):

"*Note.*—The three Persian selections are bound in one volume entitled the 'Hadiqa-yi-Fasahat'."

In rule IX (B), clause (*e*), add the words "with an Arab" after the word "Arabic."

In rule X substitute the following for the opening sentence:

"The following are the text-books prescribed for the high proficiency examination. In Persian half the passages for translation will be selected from the listed works and half from works of a similar standard of difficulty."

In clause (*a*) of the same rule omit the second sentence.

In the lists of Persian books in rules X and XI add the words "(official edition)" after "Diwan-i-Sarkhush" and "Qasaid Qa'ani."

In the list of authorised or recommended text-books substitute "Hadiqa-yi-Fasahat" for the three higher standard Persian selections there given: and opposite 9, "Diwan-i-Sarkhush" and 21, "Qasaid Qa'ani" in the Persian group substitute "Board of Examiners, Calcutta, and Messrs. Thacker, Spink & Co." for "Haji Aga Shirazi, Bombay."

SANITARY.

The 25th July, 1906.

No. 1338.—The services of Captain H. M. Mackenzie, M.B., I.M.S., are placed temporarily at the disposal of the Government of the Punjab.

JUDICIAL.

The 26th July, 1906.

No. 1050.—In exercise of the powers conferred by section 138 of the Negotiable Instruments Act, 1881 (XXVI of 1881), the Governor General in Council is pleased to appoint the person for the time being holding the office of sub-registrar of Fyzabad, to be a notary public and to exercise his functions as such within the Fyzabad district.

POLICE.

The 25th July, 1906.

Simla, the 23rd July, 1906.

No. 3041-*I.C.*—The name of Abdul Hakim, Subadar, Peshawar Border Military Police, North-West Frontier Province, upon whom the title of Khan Sahib was conferred on the

29th June, 1906, is as now given, and not as stated in Notification No. 2650-I.C., of that date.

The 25th July, 1906.

No. 1662-*G.*—Captain C. A. Smith, a Political Assistant of the 2nd (officiating 1st) class, is granted privilege leave for three months, with effect from the 20th July, 1906, combined with furlough for eleven months, under Articles 233 and 308 (*b*) (IV) (2) of the Civil Service Regulations.

The 26th July, 1906.

No. 2362-*F.*—The services of Lieutenant O. L. Ruck, Indian Army, are placed at the disposal of the Hon'ble the Chief Commissioner and Agent to the Governor General in the North-West Frontier Province, for employment with Frontier Militia.

The 27th July, 1906.

No. 1680-*G.*—In supersession of the orders contained in the Notification by the Government of India in the Foreign Department, No. 670-G., dated the 20th May, 1898, the Governor General in Council is pleased to publish the following Rules, regulating the admission of junior military officers to the Political Department of the Government of India:

I. All applications by military officers for political employ should be submitted officially through the proper channels with information in the forms published herewith. Such applications will be considered in the Foreign Department, and the candidate will be duly informed, through the military authorities, whether his name has or has not been registered. Officers are not eligible for appointment to the Political Department, nor are they to submit applications for such employment, until they have passed all the prescribed examinations for admission to the Indian Army. The name of an accepted candidate for the Political Department will be removed from the list, if he obtains any other permanent extra-regimental employ, *e.g.*, in the Bombay Political Department or in the Military Accounts Department.

II. Names will ordinarily be removed from the list when the candidate completes seven years' army service or attains the age of twenty-seven years.

Urdu and Hindi.	Arabic.
Persian.	Russian.
Pashtu.	French.

III In making selections much weight will be given to linguistic attainments, especially in the languages marginally cited.

IV. A military officer selected for the Political Department will be attached, for a term which will ordinarily be not less than one year, to one of the provinces, as a supernumerary Assistant Commissioner and will be required to pass the tests prescribed for Assistant Commissioners in Law, Revenue and Treasury, or modified forms of those tests. On passing the required tests, which will include examination in a few selected books on political subjects, the officer will, when the course of preliminary training is completed, be posted to an appointment in the Political Department and will be seconded in his regiment; but his employment in the Department will be regarded as probationary for a further period of two years, during which, in order to become eligible for confirmation, his retention must be recommended by the senior political authority under whom he has been serving, in terms and on grounds which are accepted as sufficient by the Government of India in the Foreign Department.

V. Nothing in these rules is intended to interfere in any way with the absolute discretion of the Governor General in Council to select for political employ, without reference to age or length of service, any officer whom he may consider specially qualified therefor.

A.

Information to be supplied by a candidate for Political employ.

(Officers are not eligible for appointment to the Political Department, nor are they to submit applications for such employment, until they have passed all the prescribed examinations for admission to the Indian Army.)

1. Name and profession of father ...	1.
2. Date of candidate's birth	2.
3. Where educated? Length of stay at school. Highest form reached and distinctions gained there. Place in Sandhurst, entrance and final examinations. Prizes won there.	3.
4. Language qualifications, stating degree of proficiency and examinations (if any) passed in each.*	4.
5. Brief statement of how and where army service has been passed.	5.
6. Particulars as to any active service in the field.	6.
7. Whether married or single, or contemplating marriage at an early date?†	7.
8. Whether free from debt?	8
9. Names of any near relatives who have served or are serving in India.	9.
10. Names of persons other than immediate military superiors who can testify to character and qualifications.	10.

* Particulars of language examinations passed after submission of this application should be reported without delay, through the usual channel, to the Secretary to the Government of India in the Foreign Department.

† No candidate will be accepted, unless he undertakes not to marry within two years of first entering on his term of training in the Punjab.

B.

Information to be supplied by the Officer Commanding ________ Regiment respecting Lieutenant ____________, an applicant for Political employ.

(This form should be forwarded through the proper channel, for transmission with remarks to the Military Secretary to His Excellency the Commander-in-Chief in India, by whom it will be transmitted to the Secretary to the Government of India in the Foreign Department.)

1. How long have you been acquainted with Lieutenant ?	1.
*2. Would you recommend him for the appointment of Adjutant ?	2.
*3. Do you consider him suited for Staff employ ?	3.
*4. Is he popular—	4.
(*a*) with his brother British officers and in society generally ?	(*a*)
(*b*) with the Native ranks ?	(*b*)
*5. Do you consider that he shows tact in dealings with Natives of India ?	5.
6. Give the Medical Officer's opinion respecting his physique and general health.	6.
7. Is he of active habits and proficient in field sports ?	7.
8. Is he a good, bad or indifferent horseman ?	8.
*9. Do you consider him to be in general ability above, up to, or under the average of his rank and service ?	9.
10. Has Lieutenant in any way specially distinguished himself ?	10.
*11 Add any general remarks you may have to offer in respect to his ability, character, etc.	11.

No. 1681-*G.*—Lieutenant-Colonel H. N. V. Harington, Indian Medical Service (Madras), and Agency Surgeon of the 1st class, is appointed to officiate as Residency Surgeon and Chief Medical Officer in Rajputana, with effect from the date of assuming charge.

No. 1682-*G.*—Major P. B. Haig, Indian Medical Service (Bengal), an Agency Surgeon of the 2nd class (seconded) and Medical Adviser to His Highness the Maharaja of Jodhpur, is appointed to hold charge of the current duties of the office of Residency Surgeon in the Western States of Rajputana in addition to his own duties, *vice* Lieutenant-Colonel Harington, and with effect from the date of assuming charge.

No. 1685-*G.B.*—The Governor General in Council is pleased to recognise the appointment of Mr. Lukas Volkart, as Acting Consul for Germany at Karachi, during the absence of Mr. August Thöle.

L. W. DANE,

Secretary to the Government of India.

* It will be convenient if reasons are given for the replies to these questions, which should usually be answered in some detail.

H. H. RISLEY,
Secretary to the Government of India.

GOVERNMENT OF INDIA.

DEPARTMENT OF REVENUE AND AGRICULTURE.

Rainfall Summary for the seven days ending at 8 hrs., on Thursday, the 26th July 1906, based on the India Daily Weather Reports of the period.

The important feature of the weather during the past week has been the formation and movement of two depressions. The first which was of moderate intensity formed off the Orissa coast on the 20th and 21st, and then travelled in a westnorthwesterly direction, reaching the neighbourhood of Seoni on the 23rd: by next day however it had practically disappeared. This storm gave heavy rain in the Central Provinces and abundant rain in Gujarat and part of Rajputana. The second depression formed in the northeast angle of the Bay on the 25th and by the morning of the 26th it had passed inland to the west of Jessore. Under its influence the Bombay current was giving at the close of the week heavy rain in Chota Nagpur and southwest Bengal, and the Bay current light rain in the rest of northeast India.

In Burma moderately heavy rain fell daily on the coast and light local rain in the interior. Skies have been moderately to heavily overcast and temperature did not differ very much from the normal throughout the week.

In northeast India, while the first depression was forming off the Orissa coast, the inflow into northeast India was partially interrupted and practically no rain fell on the 20th and 21st except in Orissa; but as the depression passed inland precipitation became general, though light, in Bengal, Orissa and Chota Nagpur, with local rain in Eastern Bengal. By the 24th weather was again practically dry except in Assam owing to the disturbed conditions at the head of the Bay, but with the development and subsequent movement of this depression the area of rainfall rapidly increased and by the 26th it included the whole of northeast India except parts of Assam and Bihar. Skies were moderately overcast throughout the period except that in Assam they were practically clear on the 25th, while temperature has been generally above normal.

In the United Provinces the weather was dry with a few isolated falls of rain each day until the 26th, on which date the trough of low pressure was close to the hills and rainfall was well distributed except in the east submontane districts. In the Punjab rain has fallen at all the stations except Multan, but it has generally been light, and in the Frontier Provinces, excluding the hill stations, weather has been dry throughout the week. Temperature has been in moderate excess and skies have generally been lightly overcast.

In Central India precipitation has been very light in the east, but in the west it has been abundant. The Central Provinces received heavy rain from the depression that passed through the province, but with its disappearance on the 24th rainfall rapidly diminished and was light and local on the remaining two days of the week. Skies were heavily overcast and temperature approximately normal.

In Rajputana and Gujarat all the reporting stations have had rain; in the latter area it was much heavier than usual, but in the former rainfall was light except in the Udaipur and Mount Abu districts where it was heavy. A single fall was also reported from Hyderabad (Sind). Skies were heavily overcast and temperature below normal in Gujarat, while in Rajputana there was a moderate amount of cloud and weather was considerably warmer than usual.

On the west coast, in the Bombay Deccan and Mysore the monsoon has given considerably more rain than usual at this time, and in Hyderabad and the Madras Deccan

there has been light rain, but on the east coast south of Masulipatam and in the Madura subdivision the weather has been practically dry. Temperature was below normal during the greater part of the week, and skies were moderately to heavily overcast.

The rainfall for the whole period from the 4th May to the 26th July has been practically equal to the normal over the greater part of the country and has been in excess in the west of Central India, the West Satpuras, the east of the Deccan and on the Circars coast. It has been below the normal only in the Madura subdivision of south India, Orissa, Chota Nagpur and the region to the northwest of a line passing through Rajkot, Ajmer and Dehra Dun

The following list summarises the chief rainfall amounts of the week, as reported at 8 hrs. each day:

July 20th. Akola 6·08", Aurangabad 2·78" and Mercara 5·91".

" 21st. Balasore 2·51", Bareilly 3·35", Mercara 6·48" and Gopalpur 3·89".

" 22nd. Bhamo 6·09", Raipur 6·43", Seoni 4·69" and Mercara 4·39".

" 23rd. Nagpur 2·37", Chanda 7·29", Pachmarhi 4·85", Hoshangabad 4·54", Khandwa 6·46", Bhuj 2·17", Belgaum 3·30" and Mercara 5·26".

" 24th. Moulmein 7·59", Udaipur 3·20", Surat 2·00" and Mercara 3·18".

" 25th. Ambala 3·00", Ahmedabad 8·79" and Pendra 6·12".

" 26th. Calcutta 3·18", Burdwan 3·41", Chaibassa 3·61", Ranchi 2·35" and Delhi 2·23".

J. PATTERSON,
for Meteorological Reporter to the Government of India
and Director General of Indian Observatories.

J. WILSON,
Secretary to the Government of India

SIMLA;
The 26th July, 1906.

GOVERNMENT OF INDIA.

DEPARTMENT OF REVENUE AND AGRICULTURE.

Season and Crop Prospects for the week ending Saturday, 21st July 1906.

Burma.—The rainfall was heavy in the Coast districts; light in the dry zone with none in Pakokku, Magwe and Lower Chindwin; and moderate elsewhere. Ploughing for wet-weather paddy has commenced in Upper Chindwin and has been completed in Tavoy and transplanting has commenced in Pegu. Agricultural operations are progressing satisfactorily. Reaping of dry weather paddy has commenced in Pakokku and has been completed in Upper Chindwin. Sowing of sessamum and of maize is completed in Thayetmyo. Sowing of peas has commenced in Pakokku and Sagaing. The crops have been destroyed by floods in the Gangaw township of Pakokku. More rain is required in Sagaing and Yamethin. Prospects in the Southern Shan States are now good owing to recent rain. The standing crops are generally in good condition. The price of paddy has risen very largely in Tharrawaddy and Maubin; variations are slight at four centres: elsewhere it is stationary.

Eastern-Bengal and Assam.—There was slight rain in all districts during the week. The weather is hot. More rain is wanted for transplanting operations in several districts. Prospects of tea are good in Lakhimpur, Nowgong, and Sylhet; poor in Darrang; and fair in other districts. Harvesting of early rice and jute is in progress. Cultivation of late transplanted rice continues. Prospects of the crops are generally good in most of the Eastern-Bengal districts, Cachar, and Nowgong and fair in other districts, but some damage to rice by floods is reported from Malda, Faridpur and Kamrup. Prices of common rice:—Manipur 15; Kohima 11; Comilla $9\frac{11}{16}$; Pabna $9\frac{1}{4}$; Dacca, Barisal, Noakhali, Chittagong, Tezpur, and Sibsagar 9; Gauhati $8\frac{1}{2}$; Mymensingh $8\frac{7}{16}$; Dinajpur $8\frac{3}{8}$; Bogra and Dibrugarh $8\frac{1}{4}$; Malda, Faridpur, Sylhet, Silchar, Dhubri, and Nowgong 8; Rangpur and Rampur Boalia $7\frac{3}{4}$; Jalpaiguri $8\frac{1}{2}$; Tura 7; Shillong 6; and Aijal 5 seers per rupee. Prices have slightly risen in four; fallen in one; and remain stationary in the remaining districts.

Scarcity continues in Noakhali and Bakarganj. 1,761 men, 4,070 women, and 5 071 children are receiving gratuitous relief, and 4,464 men, 70 women, and 1,380 children are attending test works in Bakarganj. 778 men, and 228 children are employed on relief works and 1,896 persons are on gratuitous relief in Noakhali. The condition of the people is steadily improving in Faridpur and distress seems pretty nearly over.

Bengal.—Rain is reported from every district of the Province, the fall being however for the most part very light except in Champaran, Darjeeling, Balasore, Angul, and Puri where it was moderate. More rain is needed especially in the Burdwan, Presidency and Chota Nagpur Divisions for transplantation of winter paddy which is being retarded. Some damage by locusts in Monghyr and by other insect-pests in the 24-Parganas, Nadia, Jessore, and Khulna is reported; some damage by floods due to the heavy rain of the previous week is also reported from Darbhanga. Prospects are on the whole fair. Fodder and water are generally sufficient The price of common rice has risen in ten and fallen in three districts: it continues to be high in most districts.

United Provinces.—There was no rain in Saharanpur and Lucknow and the fall in other districts was generally not so heavy as in preceding weeks. More rain is needed in Allahabad and in several districts of the Agra and Benares Divisions. Sowings for the autumn harvest continue and weeding has commenced. The cane crop is flourishing. Fodder is sufficient and markets are well supplied. Cholera is still lingering in Almora and is reported to be increasing in the Rath and Kulpahar tahsils of the Hamirpur district. Cattle are healthy except in Sitapur, Pilibhit, and Kheri. Prices of food-grains have risen or show a tendency to rise in fourteen districts: they have fallen in Budaon and Jaunpur.

The weekly report on the famine and scarcity is as follows:—There was rain in all districts but more is urgently wanted in Muttra, Etawah, and Agra where the crops on high lying lands are being damaged and agricultural operations are retarded; elsewhere prospects are favourable. Ploughing, sowings, and weeding continue. There is an ample supply of fodder and no cattle disease. The health of the people is generally good but cholera is reported to be increasing in the Rath and Kulpahar tahsils of the Hamirpur district. The numbers on gratuitous relief have risen owing to removal of dependants on works to their homes. Prices of food-grains show a tendency to rise in

Cawnpore, Jalaun, Muttra, and Etawah. The numbers on relief are:—Allahabad Division—workers 15,000, on gratuitous relief 62,000; Agra Division—workers *nil*, on gratuitous relief 9,000; total 86,000.

Punjab.—All districts except Lyallpur and Multan received some rain during the week. The rainfall was however in considerable defect in the greater part of the Province and the falls were unevenly distributed. The prices of food grains are practically unchanged from last week and are generally above the normal rates. Harvesting of tobacco; weeding of cotton and sugarcane; and sowing of autumn crops wherever there is sufficient moisture are in progress. The condition of the standing crops is good but there is a general demand for more rain. Locusts appeared in Rohtak, but did no damage; cotton in parts of some of the interior districts of the Province has been injured to some extent by a grass-hopper which is reported to have also caused damage to indigo, great-millet and bulrush-millet in Multan and to the two latter crops in Shahpur. The condition of cattle is good. Fodder is sufficient in all districts: in Gurgaon dry fodder is scarce. There are no complaints regarding the water-supply.

The weekly report on the famine and scarcity is as follows:—Rohtak—on works 3,700, on gratuitous relief, 5,749; total 9,449. The slight increase in the numbers on relief is due to the holding off of the rains and to the flow of westerly winds which have dried up a good deal of the moisture. Distress is decreasing. People are generally resorting to the works. There is no wandering or emaciation apparent. The physical condition of the labourers is good. Relief measures are sufficient. The public health is good.

North-West Frontier Province.—Rain averaging from 2 to 89 cents fell all over the Province except in Dera Ismail Khan. More rain is needed in all districts. Autumn crops are being sown: the condition of the standing crops on irrigated and unirrigated areas is average. Harvest prospects and outturn of crops are fair. Canal water is sufficient. Floods have occurred in Kurram and Tochi. The Kilapani supply is normal; there is no irrigation from hill torrents in Dera Ismail Khan. The condition of cattle is generally good except in a few villages of the Bannu tahsil. Stocks of food grains are sufficient. Fodder is procurable. Prices are fluctuating. Prices—wheat 14⅝ to 18⅞; gram 15$\frac{9}{16}$ to 19; maize 15 to 20; and *bajra* 13 to 13⅜ seers per rupee.

Jammu.—There was slight rain during the week. Prices—wheat 14 to 24 and maize 16 to 34 seers per rupee. The condition of the standing crops is fair. Fodder is sufficient, except in the Ramban tahsil. Rain is badly wanted generally throughout the Province.

Kashmir.—The weather is generally bright. Prices are stationary.

Rajputana.—Rainfall—between 50 cents and 3 inches are reported from Sirohi, Mewar, Bundi, Kotah, Jhalawar, Western Jaipur and parts of Bikaner and Marwar; lighter falls in Shahpura, Kishangarh, Karauli, Dholpur, and Ajmer-Merwara; slight rain in Alwar and Bharatpur; no rain in Jaisalmer. More rain is needed in Jaisalmer, Bharatpur, and Dholpur where ploughing and sowing are retarded and there is anxiety for the standing crops. Elsewhere agricultural operations are generally satisfactory. Some damage from excessive rain is reported from Mewar and from locusts in Karauli. The condition of cattle is improving as pasturage is now available. Prices have risen in Marwar, Kotah, Alwar, Dholpur, and Ajmer-Merwara and have fallen slightly in Sirohi, Mewar, and Karauli.

The weekly report on the famine and scarcity is as follows:—Ajmer—on works 1,227, on gratuitous relief 1,011, total 2,238; Merwara—on works 10,355, on gratuitous relief 3,991, total 14,346. Native States:—Marwar—on works 984, on gratuitous relief 1,047, total 2,031; Mewar—on works 986, on gratuitous relief 83, total 1,069; Shahpura—on works *nil*, on gratuitous relief 36, total 36; Tonk—on works 1,319, on gratuitous relief 710, total 2,029; Jaipur—on works 9,788, on gratuitous relief *nil*, total 9,788; Kishangarh—on works 773, on gratuitous relief 2,694, total 3,467; Alwar—on works 67, on gratuitous relief 1,426, total 1,493; Eastern States—on works 5,591, on gratuitous relief 2,756, total 8,347; total Native States 28,260. Prices vary between 12 seers per rupee in Karauli and 14½ seers in Alwar. Cholera is reported from Tonk, Karauli, Bharatpur, and Dholpur.

Central India.—The rainfall was general. Ploughing and sowing are in progress. The standing crops are fair to good. Agricultural stock is fair in Gwalior, Malwa, Bhopal, and Baghelkhand. Pasturage is good in Gwalior and sufficient elsewhere. Prices are high in Gwalior, Indore, and Baghelkhand; and are rising in Bundelkhand.

The weekly report on the famine and scarcity is as follows:—Famine conditions have now practically disappeared. The numbers on relief are:—Gwalior—on works 7,000, on gratuitous relief 3,000, total 10,000; in Bundelkhand States and Jagirs—on works 6,500, on gratuitous relief 3,500, total 10,000; grand total 20,000.

Central Provinces.—Good rain again fell during the week throughout the Provinces and the amounts received in some districts were fairly heavy; Chhindwara received 15 inches, Balaghat and Akola each 12 inches, Hoshangabad 11 inches, Seoni, Nimar, Betul.

and Buldana each 10 inches: elsewhere the rainfall ranged from 9½ inches in Chanda to 1¼ inches in Jubbulpore where sufficient rain had already been received in all parts of the district. Germination is good everywhere. Sowings of autumn crops will be shortly completed in almost all districts. Sowing and weeding operations have been impeded by continuous rain in a few districts. In Bhandara several tanks have burst and crops have to some extent been damaged by excessive rain in parts of Seoni, Balaghat, Wardha, and Akola. In Balaghat the system of sowing germinated seed has been more extensively used than usual owing to heavy rain and lack of labourers, but prospects are very good in Baihar tahsil where the rain has been less heavy. Transplantation of rice has commenced in Nagpur, Chanda, Bhandara, and Balaghat and thinning continues in Chhattisgarh and Bilaspur. Prices have fallen owing to favourable prospects and the condition of the labouring classes continues satisfactory. Prices have risen in the Buldana district and fluctuate slightly elsewhere. The prices of food grains are still equal to or about the warning rates in nearly all districts and continue at scarcity level in the Balaghat, Drug, and Bilaspur districts.

Baroda.—For week ending 14th July 1906. The numbers on relief are:—on works 1,923, on gratuitous relief 148, total 2,071.

Bombay.—There was good rain during the week in Broach, Surat, the Konkan, Belgaum, Kolhapur, and Sawantwadi; moderate in Ahmedabad, Kaira, Panch Mahals, the Deccan, Dharwar, Cutch, Rewa Kantha, Mahi Kantha, and Kathiawar; slight in Thar and Parkar, Bijapur, Baroda, and Palanpur. The rain was general and beneficial to the standing crops and retarded sowings have been resumed. Inundation in Sind is generally satisfactory. Germinated seedlings are flourishing and transplantation is progressing, but more rain is needed in parts of Panch Mahals, Surat, and Nasik. The supply of drinking water is generally improved and is sufficient. Irrigation channels, tanks, and wells are filling up. Agricultural stock is deficient and the condition of cattle is improving but slowly owing to deficiency of fodder; green grass is available in very small quantities. The price of local fodder is two to three times the normal. Food stocks with merchants are sufficient and trade is active. The quantity of grain purchasable per rupee is in the Deccan 28 to 55 per cent; in the Karnatak 40 to 45 per cent; in Gujarat and the Konkan 20 to 30 per cent; and in Sind 10 to 25 per cent less than the normal. The numbers on test works on the last day of the week ending 14th instant were:—Phaltan 127, Miraj Junior 215, total 342. The condition of agricultural labourers is generally good and they find sufficient labour in fields and on local works. The public health is generally good. Cholera is still prevalent in parts of the Deccan and the Karnatak. The numbers on relief are:—British districts—Deccan—on works 17,563, on gratuitous relief 3,232, total 20,795; Karnatak—on works 19,245, on gratuitous relief 15,491, total 34,736; Native States—on works 4,712, on gratuitous relief 3,490, total 8,202.

Hyderabad.—Rainfall—3 inches 38 cents. The rainfall was general. Crops are in good condition except in two taluks where they are reported to be withering. Autumn sowings continue. Early rice is being sown in twelve taluks. Fodder scarcity exists in two taluks. The attendance on road works amounted to 452 persons. Road works have been closed as relief works. The attendance at poor-houses amounted to 184 persons. The price of *juar* has risen in ten taluks from ¼ to 1½ seers per rupee and fallen in nineteen from a ¼ to 4 seers. Prices:—wheat 8; coarse rice 7; and *juar* 15 seers per rupee.

Mysore.—The rainfall was good in Kadur and Shimoga and fair elsewhere. Markets are fairly well supplied. The prospects of the season have been improved by recent rainfall but more rain is needed in Tumkur and Hassan. Cattle are generally healthy. Water is sufficient. Fodder is available only in limited quantities in parts of Tumkur, Hassan, Shimoga, and Chitaldroog.

Coorg.—Rainfall—33 inches 77 cents. Transplanting of rice continues. Prices of food-grains are stationary. Water and fodder are sufficient.

Madras.—The rainfall of the week was very heavy in South Canara and Malabar; heavy in the Nilgiris; light in Trichinopoly, Madras, Madura, and Tinnevelly; fair in Coimbatore and Tanjore; and good elsewhere. Irrigation supplies are sufficient except in parts of the Deccan, Chingleput, South Arcot, central Tanjore and Madura. Ploughing, sowing, manuring, weeding, and transplanting are in progress in parts. The standing crops are generally fair, but some in parts of Coimbatore, Tanjore, Madura, and Tinnevelly require more rain. There are no harvests in the Circars, parts of the Deccan, Trichinopoly, Tanjore, Malabar, and South Canara: they continue in parts elsewhere with outturn poor to normal and bumper. Pasture is insufficient except in the Circars, in parts of Cuddapah, Chingleput, North Arcot, Salem, Malabar, South Canara, and the Nilgiris. There is scarcity of fodder in parts of Godavari, Kistna, Bellary, Coimbatore, and Tanjore. The condition of cattle is generally good. The price of rice is stationary in eleven districts; has fallen in three; and has slightly risen in nine. The prices of millets have fluctuated as follows:—*Ragi* is stationary in nine districts; has fallen in five; and has slightly risen in seven. *Cholam* is stationary in five districts; has fallen in five; and has

slightly risen in four. *Cumbu* is stationary in five districts; has fallen in five; and has slightly risen in five.

The number of persons in receipt of relief during the preceding and present weeks in each Province or State is shown in the following table:

Name of Province or State.	Preceding week. (Revised figures.)			Present week.			Increase or decrease.

J. WILSON,

Secretary to the Government of India.

NO. 5719—II.

GOVERNMENT OF INDIA.

DEPARTMENT OF COMMERCE AND INDUSTRY.

COMMERCIAL EXHIBITIONS.

Simla, the 23rd July, 1906.

The Prospectus, Rules and Regulations, and Synopsis of classification of Exhibits of the Indian Industrial and Agricultural Exhibition, to be held at Calcutta, are published for general information.

W. L. HARVEY,
Secretary to the Government of India.

PROSPECTUS.

Indian Industrial and Agricultural Exhibition, 1906.

It is proposed to hold the annual Indian Industrial and Agricultural Exhibition this year at Calcutta early next December at the site of the Old Tramway Depôt and on the extensive grounds adjoining the General Hospital which have been acquired by the Bengal Government and kindly lent for the purpose of the Exhibition.

The Indian Industrial Exhibitions held annually since 1901 have served greatly to popularise and encourage the Indian arts and industries and their usefulness has been recognised by all sections of the press and the public.

The first of these Exhibitions was organized and held in Calcutta in connection with the Indian National Congress in December 1901 and has since then been held at Ahmedabad in 1902, at Madras in 1903, at Bombay in 1904 and at Benares in 1905. The Exhibition of 1906 will be similarly held in connection with the forthcoming Calcutta Session of the Congress.

The management and organization of the Exhibition has been entrusted to a Committee representative of all sections of the community, the members of which need not in any way identify themselves with the politics of the Congress. The accounts of the Exhibition and the Congress have been kept separate since the Madras Exhibition of 1903 and this practice will be observed as regards the keeping of accounts of the forthcoming Exhibition.

The organization of the Exhibition is likely to prove costly but large guarantees have been given by many leading men of Bengal.

The Government of Bengal fully recognizing the industrial and educational value of such Exhibitions has very kindly offered to give special facilities for the exhibition of all such articles from its Agricultural, Art, Forest, Sanitary and other departments as may prove useful or instructive to the public and also to help in other ways the organisation of the Exhibition.

However, an undertaking of this nature can only succeed with the active co-operation of all sections of the community and we hope that all will join hands to make the Exhibition a success and worthy of this great city.

Although the scope of the Exhibition is confined to articles of indigenous growth and manufacture yet arrangements will be made for the exhibit of machinery and appliances of foreign manufacture which are likely to help and develop Indian industries.

An Arcade (chowk bazar) will be a special feature of the Exhibition where Exhibitors will be allowed to keep a stock of their Exhibits for ready sale.

A provisional Executive Committee of the gentlemen named below have been formed with powers to add to their number.

All communications to be addressed to the Hony. Secretary and all remittances to the Hony. Treasurer at the "Exhibition Office," 62, Bowbazar Street, Calcutta.

Patrons :

H. H. Nawab Ihtisham-ul-Mulk Rais-ud-Dowlah Amir-ul-Umra Sir Syed Husannali Khan Bahadur Mahabut Jung, G.C.I.E., Murshidabad.

Col. H. H. Maharaja Sir Nripendra Narain Bhup Bahadur, G.C.I.E., C.B., Cooch-Behar.

President :

Maharaja Sir Rameswar Sing Bahadur, K.C.I.E., Darbhanga.

Vice-Presidents :

The Hon'ble Prince Asif Kader Syed Wasif Ali Mirza Bahadur, Murshidabad.

Maharaja Manindra Chandra Nandi Bahadur. Cossimbazar.

Secretaries :

The Hon'ble Mr. J. Chaudhuri.
Rai Parbatty Sanker Chaudhuri.
Mr. B. L. Chowdhuri.
" Abdul Halim Ghuznavi.

Asst. Secretaries :

Mr. P. K. Roy Chaudhuri.
" K. N. Das Gupta.

Treasurer :

Mr. Provash Chandra Mittra.

Executive Committee :

Mr. R. N. Mookerjee (Chairman, Executive Committee).
Raja Peary Mohan Mukerjee.
Mr. D. Yule.
Hon'ble Mr. C. G. H. Allen, I.C.S. (Chairman, Calcutta Corporation).
Mr. Surendra Nath Banerjea.

" Langat Singh.
" Hemendra Mohan Bose.
" Dwijendra Nath Basu.
" Prasanna Kumar Sen.

THE INDUSTRIAL AND AGRICULTURAL EXHIBITION, CALCUTTA, 1906.

RULES AND REGULATIONS.

1. Articles of indigenous Art or Manufacture, as well as natural, mineral or agricultural products from any part of India, and adjacent British Possessions, will, as a rule, be accepted for the Exhibition. Implements or machines of foreign manufacture, which, in the opinion of the Exhibition Authorities, are likely to promote or develop Indian industries, will also be accepted.

2. No explosives or any substance which, in the opinion of the Exhibition Authorities, is noxious or dangerous, will be admitted.

3. Intending Exhibitors should refer to the printed lists, attached herewith, of the Sections and Divisions into which it is intended to classify the Exhibits. The classified list is meant only to serve for general guidance, and will not prevent Exhibitors from sending articles not specifically enumerated therein. Such articles will, however, be admitted at the discretion of the Exhibition Authorities.

4. Works of Art and articles of special merit, including those of antiquarian interest, will be thankfully received from gentlemen who do not aim at any commercial advantage or benefit. All arrangements for the display of the Exhibits lent will be made by the Exhibition Authorities at their own expense.

Gentlemen, desirous of sending Exhibits on loan, should write to the effect, giving all the necessary particulars about their Exhibits, to the Secretaries, who will inform them of the acceptance of their offer and make with them all the necessary arrangements in connection with the exhibition of the offered articles.

5. Applications for space in the Exhibition *Pandal*, specifying the space that will be required, should be made at once in the form annexed and should be accompanied by a fee of Rs. 5.

(It will be left to the option of the Exhibition Authorities to reduce or remit the above-mentioned fee in such cases as they think fit.)

6. Intending Exhibitors are requested to send in to the Secretaries, as soon as possible, a list of their proposed Exhibits, in the printed form attached herewith. These lists should reach the Secretaries *at the latest by the* 1st of September.

7. Exhibitors are requested to mention in their application whether they intend to illustrate practically the process of their manufacture, and if so to describe the nature of the demonstration. Steam or any other power required may be supplied by the Exhibition Authorities, if there is sufficient demand, on such terms as may be agreed upon.

8. The Exhibition Authorities will inform the applicants whether they are registered as Exhibitors and will state the number allotted to them.

9. Each Registered Exhibitor will be allowed a covered space of 5ft. by 5ft. free of charge, in each section but additional covered space may be obtained, subject to a minimum charge of 8 annas per square foot.

10. Exhibitors may obtain, on such special terms as may be agreed upon, open space for the exhibition or practical demonstration of machinery, etc. They will be allowed to erect the necessary structures at their own expense but according to plans approved of by the Exhibition Authorities.

11. The Exhibition Authorities will have absolute discretion as regards the acceptance or rejection of Exhibits and the allotment of space, covered or uncovered.

12. Exhibits will be received, from the 15th of October, 1905, to the 1st of December, 1906. They may be sent by Railway or Steamer as "Parcel" or "Goods," or through Post, or may be delivered personally, or through agents between the hours of 10 a.m. and 4 p.m. at the above address or at the Exhibition grounds and to authorised persons who will be in attendance there. Receipts will be granted for the articles so delivered. In case of goods forwarded by Railway, Steamer or Post, the freight must be prepaid and the parcels preferably insured. Exhibits forwarded "unpaid" will be refused.

13. All packages received or delivered must bear a label on the upper covering specifying the name and number of the Exhibitor, and addressed to the Honorary Secretary. They must contain inside a list in duplicate with all particulars required under Rule 19 in regard to the Exhibits in the package. This list will be compared with the previous list submitted by the Exhibitor along with his application and a formal receipt will be given to the Exhibitor for the articles found in good condition.

14. Exhibitors failing to send their goods and appropriate the space allotted to them by the 1st of December, 1906, shall forfeit all right to exhibit, and shall not receive any refund of the payments made by them. No refund also will be given for occupying less space than that applied and paid for and allotted; and the unoccupied space will be disposed of as the Exhibition Authorities deem fit.

15. Every facility will be afforded to Exhibitors or their agents in connection with the transport, display, sale and care of their Exhibits.

16. Exhibitors must bear all expenses incidental to the transport and the delivery of their Exhibits, as well as their removal after the Exhibition is closed. If the Exhibitors require for the display of their Exhibits in the *Pandal* and *special* arrangement or construction, stands, cases, tables, shelves, etc., or have to mount their machinery and apparatus, they must carry out all this themselves, and at their own cost, and in accordance with plans approved by the Exhibition Authorities.

17. Such assistants, servants, or other attendants as an Exhibitor may require for service at his stalls may be allowed to enter the Exhibition *Pandal*, on obtaining a pass from the Secretaries All such attendants shall have to obey the orders of the Exhibition Authorities and the supervising staff appointed by them.

18. All reasonable precaution will be taken to guard the premises of the Exhibition and secure the safety of the Exhibits. The Exhibition Authorities, however, do not at all hold themselves responsible for any damage or loss, howsoever occurring. Exhibitors wishing to insure their articles may apply to the Secretaries, who will arrange for the same on payment of the necessary charges. All valuable Exhibits, such as jewelry, gold and silver plate, must be forwarded under the charge of an attendant,

19. Every Exhibit must bear a label showing the name or description of the article, its price, the place and the date of its production or manufacture, the names of the manufacturer and the Exhibitor, and if purchased the place and the date of its purchase.

20. In the Exhibition stalls orders for articles may be registered but no ready sale will be allowed. But to suit the convenience of the visitors and the Exhibitors a portion of the Exhibition enclosure will be laid out in the form of an arcade where the Exhibitors under prescribed regulations will be allowed to stock their articles for purposes of ready sales.

21. Exhibitors who are unable to attend personally or send agents in charge of the Exhibits may make special arrangements with the Secretaries for the exhibition of their goods, subject to the provisions of the foregoing rules, and on payment in advance of all estimated expenses, which may be ascertained on application.

22. The Exhibition Authorities reserve the right to remove the Exhibits of any person from the Exhibition grounds who does not conform to their rules and regulations.

23. No article exhibited may be copied, photographed, drawn, or reproduced in any manner, without the special permission of the Exhibitor and the Exhibition Authorities. General photographs of the stalls may, however, be taken with the permission of the Exhibition Authorities.

24. Arrangements with reference to machinery in motion will form the subject of special regulation.

25. A separate section will be allotted for the display of work done by ladies.

26. The Exhibition will be opened in the 1st week in December, 1906, for the public and will continue for a month. An official catalogue of all Exhibits with the names and addresses of the Exhibitors and their Agent or Agents, if any, will be published by the Exhibition Committee, before the opening of the Exhibition. A Committee of specially qualified gentlemen will be appointed as Jurors, who will examine the Exhibits, determine their relative merits and decide which of them deserve special recognition. The decision of the Jurors will be final. Gold, Silver and Bronze medals will be awarded according to their verdict. Certificates of Merit will also be given. The names of the successful Exhibitors will be published together with a description of the Exhibits and the medals and certificates they have respectively obtained.

27. All persons who become Exhibitors shall, by so doing, be held to signify their assent to, and acceptance of, all the foregoing Rules and Regulations, and also such other Regulations as the Exhibition Authorities may hereafter issue.

N.B.—All communications should be addressed to—

THE HONORARY SECRETARY, EXHIBITION COMMITTEE,

62, Bowbazar Street, Calcutta.

INDUSTRIAL EXHIBITION, 1906.

SYNOPSIS OF CLASSIFICATION.

Gr[illegible] I. Industrial Products.

CLASS A.—TEXTILES.

SECTION (*a*) COTTON—

Divisions.

1. Fibre.
2. Yarn and Thread.
3. Mill Fabrics (plain and figured).
4. Hand-loom Fabrics (plain and figured).
5. Dhoti, Sari and Chadder,
6. Longcloth and Damask.
7. Muslins, Jamdanis, Kotki,
8. Twills and Canvas.
9. Towels, Jharans and Napkins.
10. Other non-specified fabrics.
11. Appliances and processes of cotton spinning.
12. Appliances and processes employed in the manufacture of cotton fabrics.

SECTION (*b*) SILK—

Divisions.

13. Silk fibres, Mulberry, Tasar, Muga, Eri, Matkas, etc.
14. Yarns and Threads.
15. Fabrics, plain.
16. Tasar, Muga and Eri and other wild silk fabrics.
17. Figured and Embroidered.
18. Brocades, Kinkhabs, and Bafta,
19. Silk Muslin.
20. Mill Silk.
21. Appliances and processes employed in the manufacture of Silk fibres and fabrics.

SECTION (*c*) WOOL AND PASHAM—

Divisions.

22. Fibres.
23. Yarns and Threads.
24. Namdas or felts and Blankets.
25. Shawl, Alwans and louies.
26. Jamawars.
27. Woollen Mill Fabrics.
28. Flannel, Broadcloth, Cashmere, etc,

SECTION (*d*) MIXED FABRICS—

Divisions.

29. Cotton and Silk.
30. Woollen and Cotton.
31. Silk and Wool.

SECTION (*e*) AFTER-LOOM TREATMENT—

Divisions.

32. Dyeing and Calico Printing.
33. Tie Dyeing.

34. Printing and Waxing in Calico.

35. Tinsel Printing.

36. Appliances employed in the above processes.

SECTION (*f*) (KNITTING, ETC.)—

Divisions.

37. Banians, Drawers and Jersey, etc.

38. Socks and Stockings.

39. Other varieties.

40. Knitting Machines, etc.

SECTION (*g*) EMBROIDERY, BRAIDING AND LACE—

Divisions.

41. Darn satin, stem and feather stitches and Phulkari work on cotton or woollen fabrics.

42. Tent, cross and knotted embroidery.

43. Chikan work.

44. Net work in satin or chain stitch.

45. Lace—cushion, point, torchon (crochet work).

46. Laid and crewel embroideries in silk or lace.

47. Gold and Silver wire Embroidery (karchob).

48. Braidings and Trimmings.

49. Tapes and Ribbons.

50. Appliances and processes employed in Embroidery, Lace-making, etc.

SECTION (*h*) CLOTHING FOR MEN, WOMEN AND CHILDREN—

Divisions.

51. Tailoring and Dress making.

52. Appliances used in sewing and in making apparel.

53. Pagri, Hat, Caps, &c.

54. Various trades connected with clothing.

SECTION (*i*) JUTE, HEMP AND OTHER FABRICS—

Divisions.

55. Jute, Hemp, Agave and other fibres.

56. Gunny, Hessian, Canvas, etc.

57. Various fabrics.

SECTION (*j*) CARPETS—

Divisions.

58. Pile carpets (galichas).

59. Daris and Satranjis.

60. Rugs and Khilims.

SECTION (*k*) ROPE & MATTRESSES—

Divisions.

61. Cordage, Ropes and Mattresses.

62. Appliances and processes of Rope making.

CLASS B.—WARES AND UTENSILS—

SECTION (*l*) METAL WARES—

Divisions.

63. Iron, Lead and Tin wares.

64. Tinned, Painted and Lac coloured wares.

65. Enamelled and Niello wares.

66. Gold and Silver plate.
67. Damascened and encrusted wares.
68. Copper, Brass, Bronze and German silver wares.
69. Bidri wares.
70. Aluminium wares.
71. Miscellaneous wares and toys.

SECTION (*m*) STONE AND GLASS WARES, INCLUDING INLAID STONE—

Divisions.

72. Stone carving of all kinds.
73. Lapidary work.
74. Glass wares.
75. Inlaid stone work.
76. Other unspecified stone wares.

SECTION (*n*) CERAMIC WARES, INCLUDING POTTERY, CLAY MODELS, PLASTER AND CEMENT WORK, MOSAIC, &C.—

Divisions.

77. Porcelain wares and models.
78. Pottery wares and models.
79. Unglazed or terra-cotta wares.
80. Other Ceramic wares.

SECTION (*o*) WARES MADE OF VEGETABLE AND ANIMAL PRODUCTS—

Divisions.

81. Vegetable pottery.
82. Varnished Gesso Wares.
83. Lac and lacquer wares.
84. Ware not specified as above.

CLASS C.—DECORATION AND FURNITURE.

SECTION (*p*) WOOD WORK—

Divisions.

85. Carving, for Architecture, Furniture and Cabinet work.
86. Inlaying with other woods, with Ivory, &c.
87. Sandal-wood, engraved, inlaid, veneered.
88. Veneering, Appliqué, Marquetry, Lattice work (Pinjra).
89. Painted, Stained, Imitation inlaying.
90. Papier-maché and imitation papier-maché.
91. Ornaments, Toys and models.
92. Minor wood-work, *e.g.*, engraved fruits, pith work, &c.
93. Household and Art Furnitures, boxes and trunks.
94. Other decorative wood works.

SECTION (*q*) BAMBOO, CANE AND MAT WORK—

Divisions.

95. Furniture.
96. Baskets.
97. Mat, Pati chick, &c.
98. Straw braiding.

SECTION (*r*) DECORATIONS MADE OUT OF ANIMAL PRODUCTS—

Divisions.

99. Ivory carvings.
100. Horn, Shell, Feather or Horse-hair works
101. Bone works.
102. Leather or Skin works.

SECTION (*s*) MISCELLANEOUS DECORATIVE AND HOUSEHOLD WORKS—

Divisions.

103. Lamps and Stoves.
104. Metal Furniture, &c.
105. Iron safes, &c.
106. Locks and Keys and hinges, &c.
107. Pipes, Cigar-holders, &c.

Telegraphic Address:

Exhibition, Calcutta.

To

THE HONORARY SECRETARY,
INDUSTRIAL EXHIBITION,
CALCUTTA, 1906,
62, BOWBAZAR STREET,
CALCUTTA.

SIR,

I wish to exhibit the articles as per particulars given in the annexed form, at the Industrial and Agricultural Exhibition of the Indian National Congress, to be held in coming December, at Calcutta.

The preliminary fee of Rs. 5 required under Rule V is sent by postal money order (if otherwise sent delete the preceding words and state how sent).

I consent to abide by the Rules and Regulations of the Exhibition Committee ; and on being informed that my name has been enrolled as an Exhibitor, I shall be glad to furnish any further information required.

I beg to remain,

SIR,

Yours faithfully,

Signature of the intending Exhibitor ....

Address in full { *Town* ....
District ....
Province ....

Date ....

INDUSTRIAL EXHIBITION, CALCUTTA, 1906.

STATEMENT OF EXHIBITS.

Description of the Article.	Section and Division.	Name of Manufacturer.	Place of Manufacture.*	Price of the Article.	May or may not be sold at the Exhibition.	Covered space required.†	Whether any special structure, stands, furniture will be required; if so, what?	Open space required.	Whether any practical illustration of Machinery or processes is intended to be given.	Whether steam or other power would be required.	Any other special facilities desired.	Other Particulars.‡

I guarantee that the particulars given above, are to the best of my knowledge and belief correct and accurate.

Place and date ______________ *Signature of the Exhibitor* ______________

* Mention Town, District and Province.
† This column need be filled only if more space than the ordinarily allowed 5ft. × 5ft. is required.
‡ If the articles be not a *bonâ fide* manufacture of India, Burma, or an adjacent British Possession, state here what indigenous industries it is likely to promote.

No. 5755-5759—41.

GOVERNMENT OF INDIA.

DEPARTMENT OF COMMERCE AND INDUSTRY.

MERCHANT SHIPPING.

Simla, the 25th July, 1906.

RESOLUTION.

The form of agreement for the engagement of lascars in India contains no provision for the particulars in respect of the load line of ships which are required to be inserted in the agreement in accordance with section 35 (*2*) of the Indian Merchant Shipping Act, 1880 (VII of 1880), as amended by the Deck and Load Lines Act, XVII of 1891. The Governor General in Council is therefore pleased to direct under section 27 (*1*) of the Indian Merchant Shipping Act, 1883 (V of 1883), that the following headings shall be inserted in the form of agreement prescribed in Finance and Commerce Department Resolution No. 1096-S.R., dated the 25th February 1903 :

(To be inserted below the columns headed "Name of Ship," "Official Number," etc., etc.)

Distance in feet and inches between the centre of the disc showing the maximum load line in salt water, and the upper edge of the lines indicating the position of the ship's decks above the centre.

First deck above it.	Second deck above it.
Feet inches	Feet inches

Ordered, that a copy of the Resolution be forwarded to the Government of Bombay, Marine / Madras, Marine / Bengal, Marine / Burma, Commerce / Eastern Bengal and Assam, Public Works Department, for information.

Ordered, also, that the Resolution be published in the Supplement to the *Gazette of India.*

W. L. HARVEY,

Secretary to the Government of India.

(*e*) Opened from 10th November 1905.
(*f*) Opened from 29th January 1906.

Simla, the 26th July, 1906.

M. S. O'CONNOR,
for Secretary, Railway Board.

Printed and published for the GOVERNMENT OF INDIA *at the* GOVERNMENT CENTRAL PRINTING OFFICE, *Simla.*

The Gazette of India.

PUBLISHED BY AUTHORITY.

CALCUTTA, SATURDAY, JULY 28, 1906.

☞ Separate paging is given to this Part in order that it may be filed as a separate compilation.

PART II.

Notifications by High Court, Comptroller General, etc.

GAZETTE OF INDIA.

NOTICE.

The 21st March 1906.

From the 7th April next till further notice, Parts I, IV, V, and VI of the *Gazette of India* and the Weather and Crop Report will be published at Simla. After the 31st March all Notifications and other matter intended for publication in those Parts should be addressed to the Officiating Publisher at Simla.

Attention is invited to the following Circular Memorandum of the Government of India, Home Department, of August 1901:—

"It has been brought to the notice of this Department that matter for the *Gazette of India* is sometimes sent to the Press late on Friday evenings for publication in the next day's Gazette, and that this involves considerable inconvenience to the Press and expense to Government. In the Circular Memorandum of this Department, No. 777—79, dated 9th February 1870, the Government of India directed that all notifications or other matter intended for insertion in the *Gazette of India* should be delivered at the Press not later than 2 P.M. on Friday, and that any papers sent thereafter must be certified to be extremely urgent in order to ensure their appearance in the next day's Gazette. The undersigned is directed to request that these orders may be more strictly observed in future, and that Departments will refrain from sending to the Press as extremely urgent any papers which can without harm or inconvenience be held over for the next Gazette."

J. P. HEWETT,
Secretary to the Government of India.

Rates of subscription.	Per annum. R	a.	p.
Subscription for Gazette and Supplement	15	0	0
Postage	5	8	0
Subscription for Parts I, II, and III, or any of them	6	0	0
Postage	2	8	0
Subscription for Parts IV, V, and VI, or any of them	4	0	0
Postage	2	8	0
Subscription for Supplement only	5	0	0
Postage	3	0	0
Subscription for Supplement and Part VI	6	0	0
Postage	3	0	0
For a single copy of the *Gazette* and Supplement	0	8	0
For a single copy of Parts I, II, and III, or IV, V, and VI, or Supplement	0	4	0

A special price will be fixed for specially heavy issues of the Gazette or any particular Part.

The 26th July 1906.

J. C. E. BRANSON,
Offg. Comptroller General.

GOVERNMENT OF INDIA.

DEPARTMENT OF COMMERCE AND INDUSTRY.

INVENTIONS and DESIGNS.

Calcutta, the 26th July 1906.

NOTIFICATIONS.

No. 2905 P.—APPLICATIONS in respect of the undermentioned inventions have been filed, under the provisions of the Inventions and Designs Act of 1888, in the office of the Secretary appointed under that Act during the week ending 21st July 1906:—

No. 368 of 1906.—Societe Anonyme Des Automobiles de la Buire, of 8 Rue Victor Hugo, Lyons, in the Republic of France. *Improvements in transmission gear for motor vehicles and the like.*

No. 369 of 1906.—Thomas Warsop, engineer, of Launder street, in the city of Nottingham, England. *Improvements in or relating to rock drills or other percussion tools.*

No. 370 of 1906.—Montague Moore, mining agent, of No. 314 Collins street, Melbourne, in the state of Victoria, and commonwealth of Australia, and Thomas James Heskett, engineer, of No. 2 Donald street, Brunswick, in the said state. *An improvement in the direct process of manufacturing iron and steel.*

No. 371 of 1906.—Louis Andre Noel, civil engineer, of 52 Boulevard Haussmann, Paris, in the Republic of France. *Improvements in elastic wheels.*

No. 372 of 1906.—James Temple Clark, of 189 St. James street, city of Montreal, province of Quebec, and Dominion of Canada. *Improvements in or relating to lock nuts.*

No. 373 of 1906.—Hubert Joseph Boeken, civil engineer, of Dueren, Rhineland, kingdom of Prussia, empire of Germany. *Ramie decorticator.*

No. 374 of 1906.—Hubert Joseph Boeken, civil engineer, of Dueren, Rhineland, kingdom of Prussia, empire of Germany. *Scutching-machine for divesting parts of plants of their fleshy substance.*

No. 375 of 1906.—Isidor Kitsee, electrician, of 209 Walnut Place, Philadelphia, United States of America. *Improvements in a system for the transmission of electric telegraphy.*

No. 376 of 1906.—Arthur W. Dowe, publisher, 27 Gardner's lane, Calcutta. *Locking railway goods wagons and preventing loss of goods by theft while in transit, to be called "The Parallel Rail Wagon Lock System."*

No. 377 of 1906.—Allan Macgregor Ritchie, architect, of Durban, in the colony of Natal, and Frederick Margrie, electrical engineer, also of Durban aforesaid. *Improvements in or relating to field firing or surprise targets.*

No. 378 of 1906.—Claude Young Payne, retired mechanic, Saugor, Central Provinces, India. *The automatic spring winder and perpetual motion.*

No. 379 of 1906.—Mark D'Cruz, gentleman, residing at No. 89 Dhurrumtolla street, in the town of Calcutta. *Improved compressing or baling machinery.*

No. 380 of 1906.—Khetromohon Doss, mechanical engineer, c/o L. Deveria, Esq., 7 Alipore lane, Alipore. *The "Bengal" self-acting brick and tile making machine, and the "Bengal" season and weather-proof kiln.*

No. 381 of 1906.—Khetromohon Doss, mechanical engineer, c/o L. Deveria, Esq., 7 Alipore lane, Alipore. *The "Bengal" season and weather-proof kiln.*

No. 382 of 1906.—Harold Gill, engineer, of Apollo Chambers, Apollo Bunder, Bombay. *Improvements in plates or seats for latrines and urinals.*

No. 2906 P.—SPECIFICATIONS of the under-mentioned inventions have been filed, under the provisions of the Inventions and Designs Act of 1888, in the office of the Secretary appointed under that Act, and copies have been sent to the Governments of Madras, Bombay, and Burma, and the Director of the Department of Land Records and Agriculture, United Provinces of Agra and Oudh. These and other specifications are open to public inspection from 11 A. M. to 3 P. M. at the Secretary's office, 2 Bankshall Street, Calcutta, on payment of a fee of one rupee, and a certified copy of any one of them will be supplied on payment of the fixed expenses of copying:—

No. 460 of 1905.—Johann Georg Bodemer, manufacturer, of Zschopau, in the kingdom of Saxony and empire of Germany. *Improvements in self-acting mules.* (Specification filed 16 July 1906.)

No. 489 of 1905.—James Watson, coach builder, of Residency road, Bangalore Cantonment. *A new pattern tonga.* (Specification filed 17 July 1906.)

No. 526 of 1905.—Arthur Kitson, engineer, of Hythe road, Willesden junction, in the county of Middlesex, England. *Improvements in vapour burning apparatus.* (Specification filed 19 June 1906.)

No. 536 of 1905.—John William Esser, engineer, of 82 Fentham road, Gravelly Hill, Birmingham, in the county of Warwick, England, George William Barratt, gentleman, of "Ashford," Priory road, Hornsey, in the county of Middlesex, England, and Frank Barratt, gentleman, of Wood Green Villas, Mayes road, Wood Green, in the county of Middlesex, England. *Improvements in and relating to breech loading small arms.* (Specification filed 14 July 1906.)

No. 543 of 1905.—Alfonso George Lavertine, civil engineer, of Club Chambers, Anderson street, Johannesburg, Transvaal, and James Edward McNellan, civil engineer, of 101 Bree street. Johannesburg, Transvaal *Improvements in means for inflating rubber tyres.* (Specification filed 16 July 1906.)

No. 14 of 1906.—William Maple Bradshaw, electrical engineer, of 400 Whitney Avenue, Wilkinsburg, Pennsylvania, United States of America. *Improvements in alternating current electric motors.* (Specification filed 17 July 1906.)

No. 42 of 1906.—John Franklin Brady, mechanical engineer, of No. 43 Fulton street, Chicago, in the county of Cook, state of Illinois, United States of America. *Steam turbines.* (Specification filed 17 July 1906.)

No. 186 of 1906.—James Lyon, a partner of the firm of Messieurs Lyon and Lyon, Calcutta. *Improvements in bullets for fire arms.* (Specification filed 13 July 1906.)

No. 260 of 1906.—William Tice, engineer, in the employ of Messrs. Bird & Company, of No. 101/1 Clive street, in Calcutta, British India. *Improvements in septic tanks.* (Specification filed 17 July 1906.)

No. 263 of 1906.—Walter Villa Gilbert, Secretary, of 11 Seymour street, Port Elizabeth, South Africa. *Improved means for effecting reciprocal movements in parts required to be actuated.* (Specification filed 14 July 1906.)

No. 271 of 1906.—Fred David Stewart Sandeman, spinner and manufacturer, Manhattan Works, Dundee, Scotland. *Improvements in drawing and roving frames for jute, hemp and other fibres.* (Specification filed 13 July 1906.)

No. 280 of 1906.—Robert Walton Egerton, Consulting Engineer to the Government of India for Railways, and John Alexander Colquhoun, engineer, both of East Indian Railway House, Calcutta, in the Bengal Presidency of British India. *Improvements in pantagraphic apparatus for copying sections of prismatic solids.* (Specification filed 14 July 1906.)

No. 2907 P.—THE fees prescribed in the fourth schedule to the Inventions and Designs Act of 1888 have been paid for the continuance of exclusive privilege in respect of the undermentioned inventions for the periods shown against each:—

No. 288 of 1893.—William Alfred Lambert. *An improved hydraulic automatic punkah working apparatus.* (From 26 July 1906 to 26 July 1907.)

No. 271 of 1895.—Theodore Guilleaume. *Improved means for insulating electric conductors.* (From 23 November 1906 to 23 November 1907.)

No. 434 of 1896.—Guglielmo Marconi. *Improvements in transmitting electrical impulses and signals and in apparatus therefor.* (From 9 August 1906 to 9 August 1907.)

No. 6 of 1898.—Christian Wilhelm Luther. *A new way of constructing light fireproof building material.* (From 12 August 1906 to 12 August 1907.)

No. 92 of 1898.—Charles Hodgson. *An improvement in apparatus for interlocking railway points and signals.* (From 25 August 1906 to 25 August 1907.)

No. 110 of 1898.—George Labram. *A method and apparatus for separating diamonds from earthy matters.* (From 25 August 1906 to 25 August 1907.)

No. 111 of 1898.—Charles Hodgson. *An improvement in railway signal interlocking apparatus.* (From 25 August 1906 to 25 August 1907.)

No. 237 of 1898.—Ottmar Kern *Improvements in incandescent gas burners.* (From 31 August 1906 to 31 August 1907.)

No. 277 of 1898.—Ottmar Kern. *An improvement in Bunsen gas burners.* (From 31 August 1906 to 31 August 1907.)

No. 120 of 1899.—Harry Phillips Davis and Frank Conrad. *Improvements in electric motors and meters adapted for use with alternating currents.* (From 19 August 1906 to 19 August 1907.)

No. 122 of 1899.—Joseph Charles Gelly. *Hydraulic ram.* (From 22 August 1906 to 22 August 1907.)

No. 14 of 1901.—Cyrus Robinson. *Improvements in oil pumping apparatus.* (From 14 August 1906 to 14 August 1907.)

No. 257 of 1901.—The Diamond Soda Water Machine Company, Limited. *Improvements in drawing-taps for aerated waters and the like* (From 28 August 1906 to 28 August 1907.)

No. 10 of 1902.—Constant Eliet. *Improvements in the construction of floors, girders, joists, partitions and the like from trussed beton.* (From 16 August 1906 to 16 August 1907.)

No. 27 of 1902—Cyrus Robinson. *Improvements in bearings of engine shafts.* (From 27 August 1906 to 27 August 1907.)

No. 60 of 1902.—Marconi's Wireless Telegraph Company, Limited. *Improvements in apparatus for wireless telegraphy.* (From 27 August 1906 to 27 August 1907.)

No. 108 of 1902.—Sven Carlson *Improvements in petroleum lamps.* (From 22 July 1906 to 22 July 1907.)

No. 109 of 1902.—Sven Carlson. *An improved cleaning-device for illuminating apparatus, operating with vaporized hydro-carbon.* (From 22 July 1906 to 22 July 1907.)

—

No. 2908 P.—WHEREAS the inventors of the undermentioned inventions have respectively failed to pay, within the time limited in that behalf by the fourth schedule to the Inventions and Designs Act of 1888, the fees hereinafter respectively mentioned, it is hereby notified that under the provisions of section 8, sub-section (2), of the said Act the exclusive privilege of making, selling, and using the said inventions in British India, and of authorizing others so to do, has ceased:—

No. 287 of 1901.—The Westinghouse Brake Company, Limited. *Improvements in draught appliances for railway vehicles.* (Specification filed 15 April 1902.)

No. 288 of 1901.—Alice Cantwell. *Improvements in long boots.* (Specification filed 15 April 1902.)

No. 302 of 1901.—John Sinclair. *Improvements in screw-propellers and appurtenances for the propulsion and steering of ships parts of which are applicable to universal joints or shaft couplings.* (Specification filed 17 April 1902.)

No. 351 of 1901.—George Gregory Smith. *Improvements in acetylene gas generators.* (Specification filed 15 April 1902.)

No. 412 of 1901.—Abdool Kyoom Abdool Hoosein. *Improvements in tower bolts.* (Specification filed 18 April 1902.)

No. 480 of 1901.—John Gwynne and Edward Washbourn Sargeant. *Improvements in and means for aerating slimes.* (Specification filed 15 April 1902.)

No. 482 of 1901.—John Gwynne and Edward Washbourn Sargeant. *Improvements in means for aerating liquids.* (Specification filed 15 April 1902.)

Fee in respect of the continuance of an exclusive privilege—

4 (*a*) After the filing of the specification and before the expiration of the fourth year from the date of the filing thereof—

The sum of R50 for each of the above inventions.

No. 389 of 1899.—Daniel Munson Seaton. *Improvements in means for feeding at will threads of different colours to the weft thread carrier in looms.* (Specification filed 20 April 1900.)

No. 405 of 1899.—Adelphe Leon Philarete Chasles *New or improved facing for the pedals of bicycles, the steps of carriages, the steps of staircases and the like.* (Specification filed 20 April 1900.)

No 427 of 1899.—Carl Emil Schnee. *Improvements in bath apparatus for treatment with electricity and medicinal substances.* (Specification filed 20 April 1900.)

Fee in respect of the continuance of an exclusive privilege—

4 (*c*) After the expiration of the fifth year and before the expiration of the sixth year from the date of the filing of the specification—

The sum of R50 for each of the above inventions.

No. 33 of 1892.—George Perfect. *Improvements in sugarcane crushing mill rollers.* (Specification filed 17 April 1893.)

No 66 of 1893.—Alois Riedler. *Improvements in and connected with compressing and pumping apparatus* (Specification filed 14 April 1893.)

Fee in respect of the continuance of an exclusive privilege—

4 (*j*) After the expiration of the twelfth year and before the expiration of the thirteenth year from the date of the filing of the specification—

The sum of R100 for each of the above inventions.

NOTICES.

All communications relating to applications for leave to file specifications and for registration of designs under the Inventions and Designs Act, 1888 (V of 1888), or in continuation of such applications, should be addressed to the Patents Secretary, 2, Bankshall Street, Calcutta.

The Office of the Secretary under the Inventions and Designs Act, 1888, will in future be open for the transaction of business from 11 A.M. to 3 P.M. on all days, except Sundays and gazetted holidays.

The Government of India are advised that, as trade marks are not "designs" within the meaning of the Act, they cannot be registered under Part II.

The fees payable under the fourth and sixth schedules are now collected in cash and applicants are warned that they must be responsible for any delay in cashing cheques.

Cheques and money orders will only be accepted if made payable *at Calcutta* to the Secretary under the Inventions and Designs Act.

Copies of the weekly notifications, and of the quarterly lists, of applications and specifications filed in the Secretary's Office are now on sale to the public at one anna and eight annas a copy, respectively. A consolidated index for the year 1905, entitled "Inventions and Designs in 1905," is also on sale, price one rupee. It contains a chronological list, subject-matter and name indexes of exclusive privileges for inventions, which have been obtained or applied for in that year, together with lists of designs applications.

Attention is requested to the rules made by the Government on the 10th October 1895 in regard to the preparation of applications, specifications and drawings.

All applications made under the Inventions and Designs Act, V of 1888, will from this date (December 19th, 1896) lie in the visitors' room of the Patents Office for ten days from the date of the *Gazette of India* in which their filing may have been notified: or, if the 10th day is a holiday, till the evening of the office day next following.

At the time of delivering or sending an application for leave to file a specification, the applicant shall cause a duplicate copy of the application to be delivered or sent therewith to the Secretary.

The Inventions and Designs Act (V of 1888), with the notifications and rules issued under its provisions and the notices of the office of Inventions and Designs, to which is added an explanatory memorandum for the guidance of persons applying for protection of Inventions and Designs. Royal 8vo. volumes, paper cover, 13 annas or 1*s*. 1*d*. Postage extra. To be had of the Superintendent, Government Printing, 8, Hastings Street, Calcutta, or of the Superintendent, Patents Branch, Department of Commerce and Industry, 2, Bankshall Street, Calcutta.

H. G. GRAVES,
Secretary under the Inventions and Designs Act, V of 1888.

PART III.

Advertisements and Notices by Private Individuals and Corporations.

SUIT NO. 498 OF 1906.

IN THE COURT OF JUDGE, SMALL CAUSES, AT BENARES.

Present:

M. AZIZ-UL-RAHMAN, *Barrister-at-Law, Judge, Small Causes Court, Benares.*

Murlidhar, son of Girdharilal, caste khattri, occupation Banker, dwelling at Mohulla Kunj Gali, Benares City . . . . . *Plaintiff,*

versus

Faqir Charan Patnaik, father's name unknown, dwelling at Mauza Damodarpur, Post Office Kindrapara, Sub-division Pargana Barha, District Cuttack . . . . *Defendant.*

To

Faqir Charan Patnaik, father's name unknown, dwelling at Mauza Damodarpur, Post Office Kindrapara, Sub-division Pargana Barha, District Cuttack :—

Whereas the plaintiff has instituted suit in this Court against you for rupees eighty-four and annas twelve only, you are hereby summoned to appear in this Court in person or by a duly authorised pleader of the Court duly instructed and able to answer all material questions relating to the suit, or who shall be accompanied by some other person able to answer all such questions, on the thirteeth day of July 1906 at 11 o'clock in the forenoon, to answer the abovenamed plaintiff; and as the day fixed for your appearance is appointed for the final disposal of the suit, you must be prepared to produce all your witnesses on that day; and you are hereby required to take notice that, in default of your appearance on that day before mentioned, the suit will be heard and determined in your absence; and you will bring with you or send by your pleader .
which the plaintiff desires to inspect, and any documents on which you intend to rely in support of your defence.

Given under my hand and the seal of the Court, this 14th day of July 1906.

By order of the Court,

CHHANNULAL MEMSARIM,

Small Causes Court, Benares.

Estate E. F. Growse, deceased.

PURSUANT TO SECTION 42, ACT 28 OF 1866.

Notice is hereby given that all persons having claims against the late Edward Frederick Growse of the Indian Civil Service, who died at Sea on 10th November 1905, Letters of Administration to whose Estate have been granted to George Roberts Johnston, Esq., of Messrs. Grindlay & Co., Calcutta, are required to send in the same on or before 28th August next to the said MESSRS. GRINDLAY & CO., CALCUTTA, after which date the said Administrator will proceed to administer the assets having regard only to the claims of which he shall then have received notice, and no claims sent in subsequently will be recognized, and all persons indebted to or holding any securities or property belonging to the said Estate are also hereby requested to pay without delay the amount owing by them, or deliver the said securities or property to the said Administrator whose receipt alone is valid for the same.

G. R. JOHNSTON,

Administrator to Estate E. F. Growse, deceased.

Calcutta 16th July 1906.

SUPPLEMENT TO

The Gazette of India.

No. 30.} CALCUTTA, SATURDAY, JULY 28, 1906

OFFICIAL PAPERS.

A SUPPLEMENT *to the* GAZETTE OF INDIA *will be published from time to time, containing such Official Papers and information as the Government of India may deem to be of interest to the Public, and such as may usefully be made known. The debates of the Legislative Council of His Excellency the Governor General will in future be published in* PART VI *of the* GAZETTE.

No. 326—Jemadar Allah Dad Khan, appointed on probation in Military Department Notification No. 1070 of 1904, is confirmed in that rank, with effect from the 20th May 1904.

JUDICIAL.

No. 327.—With reference to article 1, clause (3), of the Indian Articles of War (Act V of 1869, as amended by Act XII of 1894), the Governor General in Council is pleased to direct that when a native soldier is permitted to attend the Survey Class at the Thomason College, Rurki, the following addition shall, if necessary, be made to his attestation document, *viz.* :

'In supersession of that portion of my attestation paper regarding period of Army service, I hereby agree to serve for the term of fifteen years reckoned from the date of my attestation.

Provided that if I am permanently transferred to the Survey Department at any time during the above term of years I shall, if I wish to do so, be permitted to take my discharge.'

In any case where a native soldier voluntarily assents, in writing, to the above addition to his attestation document, such addition shall have the same force as the original attestation.

H. H. RISLEY,
Secretary to the Government of India.

GOVERNMENT OF INDIA.

DEPARTMENT OF REVENUE AND AGRICULTURE.

Season and Crop Prospects for the week ending Saturday, 28th July 1906.

Burma.—The rainfall was heavy in Sandoway, Thaton, and Amherst; mostly light in the dry zone with none in Pakokku; and generally moderate elsewhere. Sowing of wet-weather paddy has commenced in Toungoo and Thayetmyo and is now practically general, and transplantation has commenced in Pyapon, Maubin, Myitkyina, Katha and the Southern Shan States. Transplanting of early wet-weather paddy has been completed in Tavoy and the Northern Shan States. Reaping of dry-weather paddy is completed in the Myaing township of Pakokku. Sowing of ground-nut is completed in the Magwe township of Magwe. Ploughing for late sessamum has commenced in Sagaing. Sowing of millet has been delayed in Myitkyina for want of rain; in parts of Tadau and the Myotha township of Sagaing and of the Natogyi township of Myingyan early sessamum has suffered owing to insufficient rainfall. The condition of the standing crops is on the whole good and prospects are favourable. The price of paddy has risen considerably in Mergui and fallen largely in Tharrawaddy; it has fallen slightly at two centres, and is unchanged elsewhere.

Eastern-Bengal and Assam.—The weather is seasonable. There was moderate to heavy rain in most districts during the week. More rain is wanted for tea in Kamrup and for transplantation of late rice in several districts Prospects of tea are good in Lakhimpur, Nowgong, and Sylhet, and fair in other districts. Harvesting of early rice and jute are in progress. Cultivation of late transplanted rice continues. Prospects of crops are generally good in most of the Eastern-Bengal districts, Cachar, and Nowgong and fair in other districts, but some damage to rice by floods is reported from Faridpur and Sylhet. Prices of common rice:—Manipur 15; Kohima 11; Comilla 9 1/16; Bogra and Dacca 8; Chittagong and Tezpur 9; Gauhati 8½; Dinajpur 8⅜; Pabna and Barisal 8¼; Mymensingh and Dibrugarh 8⅛; Malda, Faridpur, Sylhet, Silchar, Nowgong and Sibsagar 8; Rampur Boalia 7¾; Jalpaiguri and Tura 7; Shillong 6; and Aijal 5 seers per rupee. Prices have slightly risen in six; fallen in one; and remain stationary in the remaining districts.

Scarcity continues in Bakarganj. 969 men, 2,005 women, and 1,199 children are receiving gratuitous relief, and 2,635 men, 62 women, and 966 children are attending test works in Bakarganj. Scarcity also continues in Noakhali where 810 men, 1 woman, and 212 children are employed on relief works, and 3,592 persons on gratuitous relief. Price of common rice —Noakhali 9 and Rangpur 7 seers per rupee. The condition of the people is improving in certain tracts in Faridpur owing to good harvest of early rice and jute. Individual distress is reported in seven thanas in Dinajpur but there is no general scarcity. Reports not received from Chittagong Hill Tracts, and Goalpara owing to interruption of the telegraph.

Bengal.—Rain was fairly general all over the Province, the fall being heavy in Palamau, Darjeeling, Singhbhum, Manbhum, Midnapore, and in parts of the 24-Parganas; moderate in Bankura, Howrah, Khulna, and Sambalpur; but light in the rest of the Province. More rain is needed in some of the districts of the Burdwan and Presidency Divisions for transplantation of winter paddy which is progressing very slowly there. Some damage by floods is reported from Shahabad, Darbhanga, and Balasore, and some damage to jute and paddy by insect pests from the 24-Parganas, Jessore, and Khulna. Prospects are on the whole fair. Fodder and water are sufficient. The price of common rice has risen in seven districts and fallen in one, it continues to be high in most districts.

United Provinces.—There was good rain throughout the Provinces during the week. Autumn sowings have been completed or are nearing completion in several districts. Weeding continues. Rice is being transplanted in the south-eastern districts. The standing crops are generally doing well but slight damage by locusts is reported from Almora and Garhwal. Cholera is still prevalent in Hamirpur, Almora, and Bahraich. Fodder supplies are ample and prices of food-grains are stationary except in four districts where they are falling and in two where they are rising.

The weekly report on the famine and scarcity is as follows: —There was heavy rain in Banda and Jalaun and good rain in other districts. Sowings which were retarded for want of rain in Agra have been resumed. The standing crops are doing well and prospects are good. Sowing is finished in Jhansi; weeding continues. Cholera is still prevalent in the Kulpahar and Rath Tahsils of the Hamirpur District, the general health elsewhere is good. Fodder supplies are sufficient and cattle are in better condition. Prices of food-grains have fallen in Muttra and Agra but are rising in Hamirpur. The numbers on relief are:—Allahabad Division:—workers 7,000, on gratuitous relief 72,000; Agra Division:—workers *nil*, on gratuitous relief 9,000; total 88,000. Incomplete figures reported from two districts.

Punjab.—General and sufficient rain has fallen in Rohtak, Gurgaon, Delhi, Ambala, Rawalpindi and parts of Hissar; all the other reporting districts except Lyallpur and Multan have also received light to moderate rain, but the rainfall is in considerable defect over most of the Province and in particular in the Central and South-West Punjab. The prices of food-grains are generally unsettled; wheat is rising in the Central Punjab and falling in Rohtak, Gurgaon, and Rawalpindi. Sowings of autumn crops continue but are restricted in parts of Shahpur and Sialkot for want of rain. Autumn sowings have been completed in Delhi and weeding of autumn crops is in progress. Ploughings for the next spring crops have commenced in Delhi and Gurgaon. The standing crops have benefitted greatly by the recent rain and their condition and prospects are good to average, prospects are however poor in Ferozepore. Locusts appeared in parts of Ambala but did no damage; grasshoppers and insects have done slight damage to young crops in several districts. The condition of cattle is good and fodder is sufficient. There are no complaints regarding the water-supply.

The weekly report on the famine and scarcity is as follows:—Rohtak—on works 3,595, on gratuitous relief 5,489; total 9,084. The decrease in the numbers on relief is due to the good rains during the week. Distress is decreasing. People are generally resorting to the works. There is no wandering or emaciation apparent. The physical condition of the labourers is good. Relief measures are sufficient. The public health is good.

North-West Frontier Province.—Rain averaging from 2 to 61 cents fell all over the Province during the week except in Dera Ismail Khan. More rain is needed in all districts. The autumn crops are being sown. The condition of the standing crops on irrigated and unirrigated areas is average. Harvest prospects and outturn of crops are fair. Canal water is sufficient. Floods have occurred in the river Indus; the Kilapani supply is below average; there is no irrigation from hill torrents in Dera Ismail Khan. The condition of cattle is good. Stocks of food-grains are sufficient. Fodder is procurable. Prices are fluctuating. Prices—wheat 14⅛ to 18; gram 15¾ to 19; maize 15 to 19½; and *bajra* 13 to 13¾ seers per rupee.

Jammu.—There was good rain during the week. Prices are stationary. Prices:—wheat 14 to 24 and maize 16 to 24 seers per rupee. The condition of the standing crops is fair. Fodder is sufficient. The recent rain has been beneficial to the standing crops but more is wanted.

Kashmir.—The weather is generally bright and hot. Prices are stationary.

Rajputana.—The rainfall of the week was nearly general; Bikaner received 223 cents in one district and showers in others; Marwar 56 to 414 in eighteen districts, less in others; Jaisalmer 62 to 110 in three districts; Sirohi 325; Udaipur 539; Hill Tracts of Mewar 839; Partabgarh 172; Bundi 202; Tonk 111; Shahpura 120; Kotah 206 and from 115 to 185 in five districts; Jhalawar 260, and very heavy rain in three districts; Jaipur 190 in one district and showers in others; Kishangarh only showers; Alwar 46; Karauli 38; Bharatpur 145; Dholpur 98; Ajmer 32; Merwara 73. Prospects have improved in Bharatpur and Dholpur but more rain is still needed in parts of the latter State, Jaipur, Jaisalmer, and Ajmer-Merwara. Agricultural operations are generally satisfactory, but are retarded from excessive rain in one district of Jhalawar. The standing crops are generally doing well and are being weeded; they have been damaged by field insects in one district of Mewar and slightly by locusts in Kishangarh. The condition of cattle is now improved and pasturage is sufficient. Prices have risen in Bharatpur; and fallen in Jaipur, Kishangarh, and Ajmer.

The weekly report on the famine and scarcity is as follows:—Ajmer—on works, 749, on gratuitous relief 993, total 1,742; Merwara—on works 9,548, on gratuitous relief 5,048, total 14,596, total for district 16,338. Native States:—Marwar—on works *nil*, on gratuitous relief 1,030, total 1,030; Mewar—on works 950, on gratuitous relief 70, total 1,020; Shahpura—on works *nil*, on gratuitous relief 10, total 10; Tonk—on works 1,596, on gratuitous relief 682, total 2,278; Jaipur—on works 4,700, on gratuitous relief 332, total 5,032; Kishangarh—on works 1,421, on gratuitous relief 2,616, total 4,037; Alwar—on works 1,623, on gratuitous relief 1,718, total 3,341; Eastern States—on works 4,218, on gratuitous relief 2,258, total 6,476; total Native States 23,224. Prices vary between 12½ seers per rupee in Karauli and 15 seers in Alwar. Cholera is prevalent in parts of Karauli, Bharatpur, and Dholpur.

Central India.—Rainfall general. Ploughing and sowing are in progress. The condition of the standing crops is good. Pasturage is good in parts of Gwalior, Bhopal, Baghelkhand and Malwa and sufficient in Bundelkhand, Indore and Bhopawar. Prices are high in Gwalior, Indore and Baghelkhand; normal in Bhopal; are rising in Bundelkhand; and are steady elsewhere.

The weekly report on the famine and scarcity is as follows:—in Gwalior good rain has fallen all over the affected area. The numbers on relief are:—Gwalior—on works 5,750, on gratuitous relief 2,750; total 8,500; in Bundelkhand—on works 6,000, on gratuitous relief 3,000, total 9,000; grand total 17,500. Prices in Bundelkhand 11 1/16 seers per rupee.

Central Provinces.—Light to moderate rain has fallen throughout the Provinces during the week except in Nimar; the heaviest falls were in Mandla 6½ inches, Bilaspur 5½ inches, Damoh and Drug each 4½ inches, and Jubbulpore 4 inches; the rainfall in the

remaining districts ranged from 3¾ inches in Raipur to 22 cents in Buldana. Rain is still required in the Narsinghpur tahsil but a break for completion of sowings in parts of Seoni, Chhindwara, Wardha, Nagpur and Buldana is badly wanted. Weeding and transplantation of rice are backward in most districts because of the continued wet-weather. Cotton, *tur* and *til* seedlings have been somewhat damaged by rain in Nagpur, Chanda, Akola, Buldana and Bhandara. Some crops in Chanda along the Wainganga have been washed away by floods. The area under autumn crops in Saugor is larger than last year and rice sowings in Balaghat are estimated at 10 per cent. above last year's area. More of the best kind of rice is being sown in Jubbulpore. Thinning and weeding continue in Chhattisgarh. The condition of the people in Bilaspur is all that could be desired. Prospects on the whole are good. Fodder is sufficient everywhere except in Balaghat. Wheat is dearer in Drug and Bilaspur; rice is dearer in Bilaspur; gram is cheaper in Hoshangabad and dearer in Balaghat; *juar* is 1¼ and 3 seers per rupee cheaper in Chhindwara, Bhandara and Buldana respectively, but is unobtainable in Hoshangabad and Narsinghpur. Prices of food-grains are at scarcity level in Wardha, Chanda, Balaghat and Bilaspur.

Baroda.—For week ending 21st July 1906. The numbers on relief are:—on works 1,880, on gratuitous relief 148, total 2,028.

Bombay.—There was good rain during the week in Gujarat, Konkan, Khandesh, Nasik, Poona, Satara, Belgaum, Kathiawar, Baroda, Palanpur, Cutch, Kolhapur, and Sawantwadi; and slight in Karachi, Hyderabad, Thar and Parkar, Ahmednagar, Sholapur, Bijapur, and Dharwar. Rain was general and beneficial to the standing crops but more is needed in parts of the Karnatak. Inundation in Sind is generally satisfactory. Sowing is nearing completion. Seedlings have been slightly damaged by crabs, rats, or crickets in parts of Kârachi; by caterpillars in parts of Panch Mahals; by heavy rain in parts of Panch Mahals, Broach, and Khandesh; and are generally in good condition elsewhere. Transplantation continues. Supply of drinking water is generally sufficient. Irrigation channels, tanks, and wells are filling up. Agricultural stock is deficient. Cattle are not in good condition yet. Fodder is still scarce but green grass is coming up gradually. Grain stocks in markets are adequate owing to active trade. The quantity of grain purchasable per rupee is in the Deccan 28 to 55 per cent; in the Karnatak 40 to 45 per cent; in Gujarat and Konkan 20 to 30 per cent; and in Sind 10 to 25 per cent less than the normal. The numbers on test works on the last day of the week ending 21st ultimo were:—Phaltan 130, Miraj (Junior) 207, total 337. Agricultural labourers are generally in good condition and find sufficient employment in fields and on local works. The public health is generally good. Cholera is still prevalent in parts of the Deccan and Karnatak. The numbers on relief are falling. The numbers last week were:—British districts—Deccan—on works 16,571, on gratuitous relief 32,055, total 48,636; Karnatak—on works 18,518, on gratuitous relief 15,311, total 33,829; Native States—on works 4,021, on gratuitous relief 2,407, total 6,428.

Hyderabad.—Rainfall—one inch 26 cents. The condition of the crops is good except in two taluks of Raichur district where sowings are suspended and crops are withering. Autumn and early rice sowings continue. Fodder scarcity exists in two taluks. Prices:—wheat 8½; coarse rice 7¼; and *juar* 15¼ seers per rupee.

Mysore.—There was good rain in Hassan, Kadur and Shimoga and slight rain elsewhere. Markets are well supplied. The prospects of the season are encouraging but more rain is needed in Tumkur, Mysore and Hassan. Cattle are healthy except in parts of Tumkur, Mysore, and Shimoga. Water is sufficient except in Tumkur. Fodder is available except in parts of Bangalore, Tumkur and Mysore.

Coorg.—Rainfall—10 inches 85 cents. Transplanting of rice continues. Prices of food-grains are stationary. Water and fodder are sufficient.

Madras.—The rainfall of the week was very heavy in South Canara, Malabar, and the Vizagapatam Agency; good in Nilgiris, Ganjam, Vizagapatam littoral and Godavari; none in Kurnool, Cuddapah, North Arcot, Trichinopoly, Tanjore, and Madura, and light to fair elsewhere. Irrigation supplies are sufficient except in parts of the Deccan, Chingleput, South Arcot, Central Tanjore and Madura. Ploughing, sowing, manuring, weeding, and transplanting are in progress in parts. The standing crops are generally fair, but some in parts of Coimbatore are withering and some in parts of Tanjore, Madura, and Tinnevelly require more rain. There are no harvests in the Circars, Kurnool, Bellary, Trichinopoly, Tinnevelly, Malabar, and South Canara; they continue in parts elsewhere with outturn poor to normal. Pasture is sufficient except in parts of Nellore, South Arcot, and the Central and Southern Districts. Fodder is scanty in parts of the Circars, Bellary, Anantapur, Coimbatore and Tanjore. The condition of cattle is generally good. The price of rice is stationary in thirteen districts; has fallen in one; and has slightly risen in nine. The prices of millets have fluctuated as follows:—*Ragi* is stationary in nine districts; has fallen in four; and has slightly risen in eight. *Cholam* is stationary in three districts; has fallen in eight; and has slightly risen in three. *Cumbu* is stationary in eight districts; has fallen in four; and has very slightly risen in three.

The number of persons in receipt of relief during the preceding and present weeks in each Province or State is shown in the following table :

J. WILSON,
Secretary to the Government of India.

NOS. 6095—6099-68.

GOVERNMENT OF INDIA.

DEPARTMENT OF COMMERCE AND INDUSTRY.

CUSTOMS.

Simla, the 3rd August, 1906.

RESOLUTION.

In supersession of the "Rules for the exemption of passengers' baggage from customs duty", issued with the Resolution of the Government of India in the Department of Commerce and Industry, No. 5528—59-6, dated the 3rd October 1905, the revised rules appended to this Resolution are published in the Supplement to the *Gazette of India* for general information. These rules, which will be printed on all baggage declaration forms, will supersede the previous rules and executive orders on the subject, and will come into force at all Customs Ports on the 1st October 1906.

W. L. HARVEY,
Secretary to the Government of India.

Rules for the exemption of passengers' baggage from Customs duty.

(1) The *boná fide* baggage of a passenger is exempt from duty when it accompanies him; does not form part of the cargo; and is not included in the manifest.

(2) *Boná fide* baggage shall include wearing apparel and personal effects provided that the articles are not for sale and are imported for the personal use of the passenger or for the use of members of his family travelling with him; but it shall not include the following articles on which duty must be paid in all cases:

(*a*) Arms, ammunition and all other articles enumerated in Schedule II of the Tariff Import Schedule.

(*b*) Alcoholic liquor, exceeding two quarts, perfumed spirit exceeding one quart, and all other articles enumerated in Schedule III.

(*c*) Cigars and cigarettes exceeding 100 in number, whether in opened or unopened boxes, and other tobacco exceeding 1 lb. in weight.

(*d*) Pianos, pianolas, carriages, motor cars and motor cycles.

(*e*) Articles for household use such as furniture, pictures, carpets, glass, crockery, cutlery, and silver and plated ware, except such articles (other than furniture or carpets) as shall appear to the Customs authorities to be imported in a moderate quantity and to be required for the personal use of the passenger whilst travelling or immediately upon his arrival at his destination.

(3) Notwithstanding anything to the contrary in Rule 1, *boná fide* baggage landed at any Customs Port within one month before or after the arrival of a passenger in India may, subject to the exceptions specified in Rule 2, be passed free at the discretion of the Collector of Customs.

M. S. O'CONNOR,
for Secretary, Railway Board.

Printed and published for the GOVERNMENT OF INDIA *at the* GOVERNMENT CENTRAL PRINTING OFFICE, *Simla.*

The Gazette of India.

PUBLISHED BY AUTHORITY.

CALCUTTA, SATURDAY, AUGUST 4 1906.

☞ Separate paging is given to this Part in order that it may be filed as a separate compilation.

PART II.

Notifications by High Court, Comptroller General, etc.

GAZETTE OF INDIA.

NOTICE.

The 21st March 1906.

From the 7th April next till further notice, Parts I, IV, V, and VI of the *Gazette of India* and the Weather and Crop Report will be published at Simla. After the 31st March all Notifications and other matter intended for publication in those Parts should be addressed to the Officiating Publisher at Simla.

Attention is invited to the following Circular Memorandum of the Government of India, Home Department, of August 1901:—

"It has been brought to the notice of this Department that matter for the *Gazette of India* is sometimes sent to the Press late on Friday evenings for publication in the next day's Gazette, and that this involves considerable inconvenience to the Press and expense to Government. In the Circular Memorandum of this Department, No 777—79, dated 9th February 1870, the Government of India directed that all notifications or other matter intended for insertion in the *Gazette of India* should be delivered at the Press not later than 2 P.M. on Friday, and that any papers sent thereafter must be certified to be extremely urgent in order to ensure their appearance in the next day's Gazette. The undersigned is directed to request that these orders may be more strictly observed in future, and that Departments will refrain from sending to the Press as extremely urgent any papers which can without harm or inconvenience be held over for the next Gazette."

J. P. HEWETT,
Secretary to the Government of India.

GOVERNMENT OF INDIA.

DEPARTMENT OF COMMERCE AND INDUSTRY.

INVENTIONS and DESIGNS.

Calcutta, the 2nd August 1906.

NOTIFICATIONS.

No. 2970 P.—APPLICATIONS in respect of the undermentioned inventions have been filed, under the provisions of the Inventions and Designs Act of 1888, in the office of the Secretary appointed under that Act during the week ending 28th July 1906:—

No. 383 of 1906.—Fred Lobnitz, engineer and shipbuilder, Clarence House, Renfrew, Scotland. *Improvements in apparatus for breaking up or cutting rocks, stones, or earth under water or on land.*

No. 384 of 1906.—Thomas Eli Haywood, engineer, of The Bungalow, Tunnel Hill, Worcester, in the county of Worcester, England, and Saxby & Farmer, Limited, railway signal engineers and contractors, of 53 Victoria street, Westminster, in the county of Middlesex, and Railway Signal Works, Chippenham, in the county of Wilts, England. *New and improved rollers and frames for carrying point and other rods.*

No. 385 of 1906.—Thomas Mathieson Thom, lithographer, of Woodlands, Cheshunt, in the county of Hertfordshire, England. *Improvements in artificial stone.*

No. 386 of 1906.—Charles Robert Rogers, factory and chemical expert, of 56 Clarke street, South Melbourne, in the state of Victoria, and commonwealth of Australia. *An improved process of and apparatus for retting or degumming and subsequently cleaning and drying fibrous materials preparatory to obtaining the fibre therefrom.*

No. 387 of 1906.—Gottfried Ludwig Max Dorwald, engineer, of 28 Mexfield road, East Putney, London, England. *Improvements in carburetters for internal combustion engines.*

No. 388 of 1906.—William Henry Wolff, executive engineer, Bombay Baroda and Central India Railway, at present residing at Bulsar, Gujarat, British India. *Improvements in keys for railway chairs.*

No. 389 of 1906.—John Francis Appleby, manufacturer, 702 Leland Avenue, Chicago, Illinois, United States of America. *Cotton harvesting machines.*

No. 390 of 1906.—William Tice, engineer, in the employ of Messrs. Bird & Company, 101/1 Clive street, Calcutta, British India. *Improvements in sanitary carts for nightsoil and the like.*

No. 391 of 1906.—Josiah Harris, engineer, of 8 Union Court, Old Broad street, in the city of London. *Improvements relating to the combustion of carbonaceous fuel.*

No. 392 of 1906.—Alfred John Gange, engineer, of 2 McLeod street, Calcutta, and Kumud Nath Majumdar, of 75 Lower Circular road, Calcutta. *A process for making water proof and enamelling ordinary native earthen ware to be known as enamelled-pottery.*

No. 2971 P.—SPECIFICATIONS of the undermentioned inventions have been filed, under the provisions of the Inventions and Designs Act of 1888, in the office of the Secretary appointed under that Act, and copies have been sent to the Governments of Madras, Bombay, and Burma, and the Director of the Department of Land Records and Agriculture, United Provinces of Agra and Oudh. These and other specifications are open to public inspection, from 11 A.M. to 3 P.M., at the Secretary's office, 2 Bankshall street, Calcutta, on payment of a fee of one rupee, and a certified copy of any one of them will be supplied on payment of the fixed expenses of copying:—

No. 561 of 1905.—Actien Gesellschaft Fur Mechanische Holzbearbeitung A. M. Luther, manufacturers, of 27 Grosse Pernausche Strasse, Reval, Ehstland, Russia. *An improved manufacture of glue.* (Specification filed 25 July 1906.)

No. 562 of 1905.—George Frederick French, tape manufacturer, of Dyer Street Mill, Hulme, Manchester, and William Henry Pinch, salesman, of 82 Park road north, Birkenhead. *Improvements in or relating to means for pleating and hanging curtains and the like.* (Specification filed 25 July 1906.)

No. 364 of 1905.—William Chamberlain and Arthur Chamberlain, machinists, of Spa Lane Works, Wigston Magna, in the county of Leicester, England. *Improvements in or relating to brakes and free wheel clutches for cycles and the like.* (Specification filed 20 July 1906.)

No. 451 of 1905.—Luxminarayan Bhawaniram, merchant, and Karimsaheb Manoobhai Nadap, fitter, both residing at Sholapur. *Improvements in hand warping machines.* (Specification filed 20 July 1906.)

No. 8 of 1906.—Thomas Alexander Boyd, engineer, and J. & T. Boyd, Limited, machine makers, both of Shettleston Iron Works, Glasgow. *Improvements in rings and travellers for spinning and analogous machines.* (Specification filed 20 July 1906.)

No. 15 of 1906.—Anson Gardner Betts, chemist, of 16th Street North, Troy, state of New York, United States of America. *Improvements in electrical conductors.* (Specification filed 17 July 1906.)

No. 43 of 1906.—Thomas Arthur White, Controller of stores, East Indian Railway, Calcutta. *An improved apparatus for the mechanical propulsion of trolleys.* (Specification filed 23 July 1906.)

No. 70 of 1906.—Frederick Hosking and Albert Curnow, mining engineers, of Marikuppam, in the state of Mysore. *Improvements in automatic ore feeders as applied to stamp mills.* (Specification filed 20 July 1906.)

No. 2972 P.—THE fees prescribed in the fourth schedule to the Inventions and Designs Act of 1888 have been paid for the continuance of exclusive privilege in respect of the undermentioned inventions for the periods shown against each :—

No. 85 of 1895.—Chhotalal Maganlal Rawal. *An improved warp winding machine.* (From 27 July 1906 to 27 July 1907.)

No. 100 of 1902.—Bhagat Ram Sawhney. *A desiccator for destroying plague germs.* (From 14 August 1906 to 14 August 1907.)

No. 2973 P.—WHEREAS the inventors of the undermentioned inventions have respectively failed to pay, within the time limited in that behalf by the fourth schedule to the Inventions and Designs Act of 1888, the fees hereinafter respectively mentioned, it is hereby notified that under the provisions of section 8, sub-section (2), of the said Act the exclusive privilege of making, selling, and using the said inventions in British India, and of authorising others so to do, has ceased :—

No. 487 of 1901.—Rai Bahadur Gunga Ram. *Improvements in well construction.* (Specification filed 25 April 1902.)

No. 90 of 1902.—Cantwell & Company *A ladies' toilet table and travelling trunk combined.* (Specification filed 25 April 1902.)

Fee in respect of the continuance of an exclusive privilege—

4 (*a*) After the filing of the specification and before the expiration of the fourth year from the date of the filing thereof—

The sum of R50 for each of the above inventions.

No. 32 of 1901.—Frank Clarence Newell. *Improvements in automatic regulators for electric brakes.* (Specification filed 23 April 1901.)

No. 51 of 1901.—Frank Clarence Newell. *Improvements in electric brakes.* (Specification filed 23 April 1901.)

Fee in respect of the continuance of an exclusive privilege—

4 (*b*) After the expiration of the fourth year and before the expiration of the fifth year from the date of filing of the specification—

The sum of R50 for each of the above inventions.

NOTICES.

All communications relating to applications for leave to file specifications and for registration of designs under the Inventions and Designs Act, 1888 (V of 1888), or in continuation of such applications, should be addressed to the Patents Secretary, 2, Bankshall Street, Calcutta.

The Office of the Secretary under the Inventions and Designs Act, 1888, will in future be open for the transaction of business from 11 A.M. to 3 P.M. on all days, except Sundays and gazetted holidays.

The Government of India are advised that, as trade marks are not "designs" within the meaning of the Act, they cannot be registered under Part II.

The fees payable under the fourth and sixth schedules are now collected in cash and applicants are warned that they must be responsible for any delay in cashing cheques.

Cheques and money orders will only be accepted if made payable *at Calcutta* to the Secretary under the Inventions and Designs Act.

Copies of the weekly notifications, and of the quarterly lists, of applications and specifications filed in the Secretary's Office are now on sale to the public at one anna and eight annas a copy, respectively. A consolidated index for the year 1905, entitled "Inventions and Designs in 1905," is also on sale, price one rupee. It contains a chronological list, subject-matter and name indexes of exclusive privileges for inventions, which have been obtained or applied for in that year, together with lists of designs applications.

Attention is requested to the rules made by the Government on the 10th October 1895 in regard to the preparation of applications, specifications and drawings.

All applications made under the Inventions and Designs Act, V of 1888, will from this date (December 19th, 1896) lie in the visitors' room of the Patents Office for ten days from the date of the *Gazette of India* in which their filing may have been notified: or, if the 10th day is a holiday, till the evening of the office day next following.

At the time of delivering or sending an application for leave to file a specification, the applicant shall cause a duplicate copy of the application to be delivered or sent therewith to the Secretary.

The Inventions and Designs Act (V of 1888), with the notifications and rules issued under its provisions and the notices of the office of Inventions and Designs, to which is added an explanatory memorandum for the guidance of persons applying for protection of Inventions and Designs. Royal 8vo. volumes, paper cover, 13 annas or *1s. 1d.* Postage extra. To be had of the Superintendent, Government Printing, 8, Hastings Street, Calcutta, or of the Superintendent, Patents Branch, Department of Commerce and Industry, 2, Bankshall Street, Calcutta.

H. G. GRAVES,
Secretary under the Inventions and Designs Act, V of 1888.

Calcutta University.

NOTICE.

IN modification of the Notice, dated the 10th July 1906, it is hereby announced that the Syndicate of the Calcutta University have been asked to make eight nominations instead of four for the Provincial Civil Service, as it is possible that the Lieutenant-Governor will be able to make four instead of two appointments from the candidates nominated by the Syndicate.

SENATE HOUSE, *The 30th July, 1906.*

C. LITTLE, *Registrar, Calcutta University.*

Calcutta University.

NOTICE.

THE Senate will proceed in the month of August, 1907, to the election of a Tagore Professor of Law for the term of one year, to commence on the 1st of August 1908.

The salary of the Professorship is Rs. 9,000 per annum, and the Professor will be expected to deliver a course of not less than twelve lectures on one of the following subjects:—

(1) Customs and Customary Law in British India.

(2) The Doctrines of Res Judicata and of Lis Pendens applied in British India.

Candidates for the Professorship are requested to forward their applications to the Registrar on or before the 1st May 1907, stating on which of the abovenamed two subjects they are prepared to lecture. Each candidate will forward with his application one hundred copies of a brief synopsis of his proposed lectures; and, if he so pleases, the same number of copies of his Introductory Lecture.

The Professor will be expected to commence his lectures in August, 1908, to complete the delivery thereof in the following January, and to hold an examination of the students who have attended his lectures. He will be further required to send to the Registrar a complete manuscript copy of his lectures before the commencement of the delivery thereof, failing which his appointment shall be liable to be cancelled by the Senate on the recommendation of the Faculty of Law.

SENATE HOUSE, *The 30th July, 1906.*

C. LITTLE, *Registrar, Calcutta University.*

ORDERS BY THE HON'BLE THE VICE-CHANCELLOR AND SYNDICATE OF THE CALCUTTA UNIVERSITY.

1. In the list of text-books in Pali prescribed for the M.A. examination in 1906 and 1907, after "Attha-Sālinī (pages 55—152)" the following words have been added:—

"The readings of the Rangoon edition should be consulted."

2. The first forty paragraphs of Macaulay's Essay on Boswell's "Life of Johnson" are omitted from the English course prescribed for the F.A. Examination in 1907.

3. The revised edition (1906) of Sir William Lee-Warner's "Citizen of India" has been prescribed for the Entrance examination in 1908. Questions to be set in the subject will, however, be such as may be answered from either the old or the new edition of the work.

4. The following genera and orders in Zoology have been prescribed for the ensuing B.A. Examination in 1907:—

(a) *Protozoa*—
Class I.—Rhizopoda.
„ II.—Infusoria.

(b) *Coelenterata*—
Class I.—Actinozoa.

(c) *Annulosa*—
Class I.—Scolecida—
Order 1.—Taenioda.
„ 2.—Trematoda.

(d) *Vertebrata*—
Class I.—Reptilia—
Order 1.—Ophidia.
„ 2.—Crocodilia.

Class II.—Aves—
Order 1.—Ratitae.

Class III.—Mammalia—
Order 1.—Marsupialia.
„ 2.—Prunates.

5. The following eight natural orders in Botany have been prescribed for the Preliminary Scientific M.B. and L.M.S. Examinations in 1907:—

(1) Anonaceæ.	(5) Rubiaceæ.
(2) Rutaceæ.	(6) Solanaceæ.
(3) Myrtaceæ.	(7) Scitamineæ.
(4) Compositæ.	(8) Palmaceæ.

6. The undermentioned candidates have passed the examination held by the Tagore Law Professor for 1906 on the Rules of Interpretation in Hindu Law, with special reference to the Mimansa Aphorisms as applied to Hindu Law:—

(In order of merit.)

1. Mukhopadhyay, Lalitmohan.
2. Ghose, Ajit.
3. { Basu, Kirankumar.
   Gomes, S. A.

On the results of the above Examination the Tagore Gold and Silver Medals have been awarded to Lalitmohan Mukhopadhyay and Ajit Ghose, respectively.

7. It having been proved to the satisfaction of the Hon'ble the Vice-Chancellor and Syndicate that Rabindranath Mitra, who has already been declared to have passed the recent Entrance examination in the Second Division as a student of the Midnapur Collegiate School (Roll Mid. 91), had recourse to unfair means for the purpose of passing the Examination, his name has been removed from the list of successful candidates, and he is hereby declared disqualified to appear at any future examination of this University.

8. In modification of a previous announcement the following dates have been fixed for holding the ensuing Premchand Roychand Studentship, Honours-in-Law, M. A., and B. L., Examinations and the Second L. M. S. Re-examination:—

Premchand Roychand Studentship and Honours-in-Law	19th November, 1906, and following days.
M. A., B. L., and 2nd L. M. S. Re-examination ...	26th November, 1906, and following days.

SENATE HOUSE, }
The 30th July 1906. }

C. LITTLE,
Registrar, Calcutta University.

ORDERS BY THE HON'BLE THE VICE-CHANCELLOR AND SYNDICATE OF THE CALCUTTA UNIVERSITY.

THE undermentioned candidates have passed the B. E. examination:—

FIRST DIVISION.

(*In order of merit.*)

1. Malefski, B. ... ... Civil Engineering College, Sibpur.
2. Datta, Bhupendranath ... Ditto.
3. Barboza, P. H. ... ... Ditto.

SECOND DIVISION.

(*In order of merit.*)

1. Dattagupta, Jogeschandra ... Civil Engineering College, Sibpur.
2. Gangopadhyay, Manmohan ... Ditto.
3. Bandyopadhyay, Girindrachandra Ditto.
4. Ray, Saradindu ... Ditto.
5. Mukhopadhyay, Manmathanath Ditto.
6. Biswas, Nrityagopal ... Ditto.
7. } Ray, Suranath ... Ditto.
8. } Gangopadhyay, Sitakanta ... Ditto.
9. Das, Prabodhchandra ... Ditto.
10. Bhattacharyya, Indusekhar ... Ditto.
11. De, Ramanmani ... Ditto.

SENATE HOUSE,
The 31st July 1906.

C. LITTLE,
Registrar, Calcutta University.

THE HON'BLE THE RESIDENT IN MYSORE.

NOTIFICATIONS.

Bangalore, the 24th July 1906.

No. 829-P.—The following Regulations issued by the Resident in Mysore under the Epidemic Diseases Act, III of 1897, as applied to the Civil and Military Station of Bangalore, are published for general information.

In exercise of the powers conferred under section 2, sub-section (1) of the Epidemic Diseases Act, III of 1897, as applied to the Civil and Military Station of Bangalore, and delegated to him by sub-section (3) of the same section by the Notification of the Government of India No. 567-I.A., dated 12th February 1897, the Resident in Mysore is pleased to prescribe, under the said Epidemic Diseases Act, and in supersession of all Regulations previously issued on the subject, the following Regulations to be observed in the Civil and Military Station of Bangalore.

Regulations under the Epidemic Diseases Act, 1897, for the Civil and Military Station, Bangalore.

PART I.

GENERAL ORGANIZATION.

1. The general control of the arrangements for the prevention and suppression of plague in the Civil and Military Station is in the hands of the Resident in Mysore, who may delegate such of the powers conferred by these Regulations as he may think fit to the President, Municipal Commission, or to any other officer. The Resident may appoint an officer to supervise the accounts, and other clerical work, connected with plague expenditure.

2. The Residency Surgeon is responsible for the supervision of the work of the District Medical Officers, of the Inspecting Medical Officers, and of the Hospital and Isolation Camp staff, and also for the working of the Health Department of the Municipal Commission, subject to the orders of the Resident.

3. The duties of the District Medical Officers are to visit cases of sickness and death, to examine arrivals, to supervise the work of supervisors in their districts, to superintend the disinfection of the houses of sick or suspected persons: also should no Special Plague Officer be appointed for the purpose, to bring to the notice of the Health Officer of the Municipal Commission any defects in the sanitation, or in the registration of vital statistics in their districts, and generally to carry out such duties as may be prescribed for them by the Residency Surgeon. They will also transmit daily to the Health Officer a nominal roll of all deaths reported in their respective districts. These nominal rolls should give the name, address and diseases, if ascertained, of the deceased, with information as to how the cause of death has been ascertained.

4. The District Superintendent of Police will supervise the police arrangements connected with the observation and examination of travellers, the guarding of camps and the watching of cemeteries, and is held responsible that his Police co-operate actively in the carrying out of all measures for the prevention and suppression of plague.

5. A Chief Plague Officer, and Special Plague Officers, may be appointed by the Resident for the carrying out of arrangements for the disinfection and evacuation of infected places, for the organization and management of the labour employed on plague operations, and for such other duties as may be assigned to them by the Resident.

6. Supervisors may be appointed for the purposes of keeping correct registers of the inmates of each house, and of the movements of the population. They shall report all cases of sickness and death to the District Medical Officers. They should explain to the people in their circles the necessity of registering their relatives' deaths and should urge them to produce reliable evidence of the cause of their friends' or relatives' deaths and advise them, in the absence of other skilled opinion, to avail themselves of the District Medical Officer's services.

PART II.

MEASURES AGAINST THE IMPORTATION OF PLAGUE.

(*a*) Arrivals by rail.

7. Medical or other officers, appointed as Inspecting officers by the Resident, shall have power to examine all persons arriving by the rail at the Bangalore City and Cantonment Railway Stations, and all such persons shall prodceed to the spot indicated by the Inspecting Officer for his medical inspection, and shall not depart from there without the sanction of the Inspecting Officer.

8. The examination of females shall be effected by a female medical subordinate and every precaution shall be taken to respect the privacy of females who do not appear in public.

9. In the case of persons arriving at the Bangalore City and Cantonment Railway Stations, who intend to reside within the limits of the Civil and Military Station, the Medical or other officer, appointed by the Resident in this behalf, may demand of the person so arriving, his name, usual abode, and particulars of the places in which he has resided or which he has visited during the previous fifteen days, and also the address to which he is about to proceed, and any other particulars which the Medical or other officer may think fit to ask in view of satisfying himself as to the likelihood of the said persons spreading the infection of plague. A person so interrogated shall be bound to answer truly, to the best of his knowledge and belief, all such questions and enquiries.

10. The Medical or other officer, appointed by the Resident under Regulation 7, may serve such person with a notice requiring him to report himself at the office of the District Medical Officer within whose district he is about to reside, within 24 hours, and to attend as subsequently directed by the District Medical Officer. If any such person cannot, in the opinion of such Medical or other officer appointed under Regulation 7, be relied on to report himself as directed, he may be sent by the Medical or other officer to the office of the Medical Officer within whose district he is about to reside, under escort of a police constable, and may be required to remain under such escort until his intended place of residence shall have been satisfactorily ascertained.

Provided that no person holding a certificate of inoculation, dated within six months previously, shall be required, unless he is unable to clearly indicate his intended place of residence, to report himself at the office of the District Medical Officer, but notice of his arrival shall be sent by the Medical or other officer at the Railway Station to the Medical Officer of the District in which he is about to reside, and he may be required to be present in his residence on such day, and at such time, as the District Medical Officer may appoint.

11. Persons alighting at the Cantonment Station, who intend to reside within the limits of Bangalore City, may be directed by the Medical or other officer appointed under Regulation 7 to report themselves to the ward-officer of the ward in which they intend to

reside, and may, if the Mysore Government so require, be sent to the ward-officer under the escort of the Mysore State Police.

12. Nothing in these Regulations shall require females who do not appear in public to be interrogated by any person other than a female at the Railway Station, or to attend at any office, but they may be examined in their houses by females deputed by the District Medical Officer for the purpose.

13. The President of the Municipal Commission may prohibit the import of used apparel and bedding (except when carried as the personal baggage of travellers), rags, and waste paper, from any infected area into the Civil and Military Station

(*b*) Arrivals by road.

14. The President of the Municipal Commission may require all persons arriving in the Civil and Military Station by road to report themselves to the Medical Officer of the district in which they intend to reside within twenty-four hours of their arrival. The District Medical Officer may, at his discretion, give a written notice to such persons requiring them to attend at his office for such number of days not exceeding ten as he thinks fit. A person holding an inoculation certificate, dated within six months previously, will be obliged to report himself to the Medical Officer within twenty-four hours of his arrival, but will not be liable to again attend at the District Medical Office

15. The District Medical Officer may direct any person whom he suspects of having arrived in the Civil and Military Station, whether by rail or road, without having reported himself, to attend at his office for such number of days not exceeding ten as he thinks fit.

16. The President of the Municipal Commission may require every house-holder or head of a family to report to the supervisor of his block the arrival of any person from outside the Civil and Military Station in his house or family, whose arrival he does not know to have been otherwise reported to the District Medical Officer

(*c*) General measures for the prevention of plague, and the treatment of early cases before plague becomes epidemic

17. For so long as the Resident may declare this Regulation to be in force, the President of the Municipal Commission may require each householder, or head of a family to give immediate information of any sickness occurring within his house or family to the Medical Officer of his district, or to a medical practitioner authorised in this behalf by the Resident.

18. The President of the Municipal Commission may require all medical practitioners, at once, to report to the District Medical Officer of the circle in which the sick person lives, any case of sickness or death in which glandular swellings or other symptoms suggestive of plague are perceived by them.

19. The President of the Municipal Commission may require every householder who becomes cognizant of any case of plague, or of fever with glandular swellings, in his house, or in any other private dwelling within the Civil and Military Station of Bangalore, to give information of the same to the District Medical Officer with the least practicable delay.

20. The owner or occupier of any house shall permit the District Medical Officer or any Medical Officer duly authorised by the Resident, to enter his premises and examine any person whom the Medical Officer has reason to believe to be ill, or to have recently arrived from an infected area If the person be a female, the examination shall, if the owner or occupier of the house desires it, be made by a female

21. If on the examination of any person, the District Medical Officer, or any Medical Officer duly authorised by the Resident, believes or suspects that such person is suffering from pneumonic plague, he may cause such person to be removed to the hospital provided for the purpose, or may take measures for segregating him in his house if he can be properly segregated therein: provided that when he considers the death of such person to be imminent he shall not insist on his removal to hospital

22. When the District Medical Officer or any Medical Officer duly authorized by the Resident, has, under the preceding Regulation, caused a person suffering, or believed to be suffering, from pneumonic plague, to be removed to the hospital, he may also cause the occupants of the house in which such person resides to be removed to a detention camp and detained for ten days provided that any member of the family who desires to attend on the sick person shall be allowed to do so. and provided also that no person holding a certificate of inoculation, dated within six months previously, shall be removed to the detention camp, except for so long as may be necessary for his disinfection.

23. The owner or occupier of a house shall comply with any order that may be issued by the Resident, or by any officer duly authorised by him in this behalf, with regard to the cleaning and disinfection of his house, the destruction of rats therein, the disinfection of the clothing or personal effects of the inmates, the medical inspection of any person who has, or is believed to have, come from an infected area, the disposal of any corpse, the improvement of the sanitary condition of the premises, or with regard to other similar matters;

and the officer in question shall, if he considers it necessary, himself take measures for the disinfection of the house, for the killing of rats or for the carrying out of measures prescribed by this Regulation.

24. When, in the opinion of the District Medical Officer, any building or place is so overcrowded as to render the inmates or occupants thereof specially liable to an attack of plague, or to contribute to the spread of the disease should an outbreak occur, the Resident, or any officer duly authorised by him, may by notice posted on some conspicuous part of the building or place, require the owner or occupier to abate the overcrowding within such period as he shall prescribe, not being less than 48 hours, by reducing the number of lodgers, tenants or inmates of the said building or place: and in default of compliance with the requisition in the said notice may summarily eject all the inmates or occupants, or reduce the number of such inmates and occupants in such manner and to such extent, as may appear necessary: and the owner or the tenants or the inmates of such building or place shall not be entitled to claim any compensation on account of such ejection.

PART III.

Action to be taken on an outbreak of plague.

25. When there is reason to believe that cases of plague are occurring within the Civil and Military Station, the Regulations contained in Part II shall continue in full force and effect until suspended or modified by the Resident.

26. The powers of removal of persons suffering from pneumonic plague, and of the occupants of the houses in which such persons have been residing to the hospital and detention camp respectively, vested in Medical Officers by Regulations 21 and 22, shall continue to be exercised by them, unless or until the Resident issues a Notification cancelling or modifying these powers.

27. Special Plague Officers appointed for the work of disinfection, or for any other duty assigned to them by the Resident, shall have the right to enter the premises of any place or building in the execution of their duties.

28. There shall be provided in such localities as are suitable for the purpose, places for the treatment of persons suffering or suspected to be suffering from plague, or for the housing of persons who have been in contact with plague cases, or for the accommodation of persons who have been obliged to evacuate infected quarters.

29. Any house, building or land, which the Resident considers to be suitable and required for the purpose of a hospital, or for the housing of persons who have been in contact with plague, or for the erection of camps for the accommodation of persons who have left their dwellings, may be entered upon and occupied by the Resident or by any officer authorised by him, if untenanted, without any notice whatever, and if tenanted, after twenty-four hours' notice in writing has been conspicuously posted on such house, building or land and may be used for any of the above purposes. The owner or lessee of such house, building or land shall not be entitled to claim anything beyond a reasonable rent for the period during which such house, building or land may remain in such occupation, provided that the Resident shall be bound at the cost of Plague Funds to clean and disinfect the said house, building or land: and, if a house or building, to limewash it both internally and externally before vacating it.

30. The Resident may grant permission to any person, or to the members of a particular caste, to erect or provide family or caste hospitals and camps.

31. Such hospitals and camps shall be under the management of the person or caste providing them, subject to medical inspection by the Residency Surgeon, and provided that suitable arrangements are made for guarding them. The Resident may at any time for any sufficient reason close any family or caste hospital or camp.

32. The cost of any such hospital or camp shall be met by the persons on whose application they were sanctioned: but the Resident may make a grant-in-aid of the expenses of any such hospital or camp, when he considers this to be advisable.

33. In all hospitals the relatives, friends, *hakims*, *baids* and priests of the patients shall be allowed free access to them, subject to any precaution which the Residency Surgeon may, by notice posted at the entrance, declare to be necessary: and if the relatives of the sick person so desire, he may be medically treated by a *hakim* or *baid*.

34. Any friend, relative or attendant who desires to tend a sick person shall be allowed to do so, but the Residency Surgeon may limit the number of such attendants in any hospital.

35. No patient in any hospital shall be compelled to take any English medicine, should he object to do so.

36. In all hospitals separate and suitable accommodation shall be provided for females, and they shall, so far as may be possible, be treated by female agency.

37. In any house in which a case of plague has occurred, the Resident, or any officer authorised by him, shall take measures for the disinfection and cleansing of the house, bedding, clothing and articles of a similar nature, the improvement, if necessary, of the sanitary condition of the premises, the provision of light or ventilation, and other sanitary precautions. The Resident, or any officer authorised by him, may further order the destruction of any building or of any bedding, clothing, or other articles, if disinfection cannot be satisfactorily effected otherwise.

38. The owner or occupier of any house in which a case of plague has occurred shall permit the Resident or any officer authorised by him to enter his house or premises for the purpose of carrying out the provisions of the preceding Regulation.

39. When, in the opinion of the Resident or of the District Medical Officer of the Division, it appears necessary to disinfect any house, or street, or block of houses, on account of the vicinity of houses that have been infected by plague, or on account of the insanitary nature of the sorroundings, such house or sheet or block of houses may be at once cleaned and disinfected under the supervision of the officer in charge of the disinfection work in the Division. When the disinfecting party is ready to clean any house, the inmates may be at once required to temporarily vacate the premises, while the cleaning and disinfection is being carried out. On the completion of the cleaning and disinfection, the inmates shall immediately be allowed to re-occupy the premises, unless they be declared by the District Medical Officer to be unfit for human habitation, provided that any person who desires to disinfect his own house, a case of plague not having occurred therein, may be allowed to do so to the satisfaction of the officer in charge of the work of disinfection in the Division.

40. Whenever any building or portion of a building is found to be fastened or locked up, and the owner or occupier is not present, any officer authorised by the Resident may affix a written notice on the door, stating that such building or part of a building will be opened, and disinfection will be carried out after such time, not being less than twenty-four hours, as may be prescribed in the notice. At or after the expiration of the time prescribed, the officer authorised by the Resident may break open and enter any such building or portion of a building, and may carry out the measures prescribed in Regulation 37 above.

41. Whenever any building is cleaned and disinfected, the officer in charge of the disinfection shall draw up a statement showing the description and estimated value of the articles in the building destroyed or damaged in the process of disinfection, the number of men employed on the work of disinfection, the time occupied, and the estimated value of the disinfectants used. A copy of the statement shall be given to the owner or occupier of the building, if he so requests. The whole or any part of the expenses of disinfection as shown in the said statement may subsequently be recovered from the owner or occupier and may be credited to Plague Funds.

42. Whenever a building is entered and disinfected, the owner or occupier of a house or any relative of his, or any person authorised by him, shall be permitted to be present.

43. After a building or portion of a building has been disinfected the door may be locked and sealed, and the officer in charge of the work of disinfection may retain the key until re-occupation of the building or portion of a building is permitted.

44. If, in the opinion of the District Medical Officer, the destruction of any hut or shed is necessary to prevent the spread of the plague, any officer authorised by the Resident may summarily take measures for the destruction of such hut or shed, and the materials of which it is constructed. A record of the action taken under this Regulation shall be maintained.

45. Whenever any house is vacated under these Regulations, the owner or occupier may remove any valuable property, subject to its disinfection if necessary, or may place it in a place to be provided in each Division for the safe custody of such property. The Resident will not be responsible for the safety of any property left in a vacated house.

46. No house that has remained unoccupied since the commencement of plague, or that has been vacated or deserted by its inhabitants, shall be re-occupied except with the permission of the District Medical Officer, who may require it, before he permits occupation, to be cleaned, and if he considers it unfit for human habitation, to be structurally altered, so as to allow the admission of air, and to improve the ventilation.

47. The President of the Municipal Commission may prohibit persons living in an infected quarter of the Civil and Military Station from going to reside in, or removing property to another quarter of the Civil and Military Station.

48. The President of the Municipal Commission may issue orders prescribing the route which shall be taken by a funeral procession from the place of death to the graveyard, or burning ground, and the places, if any, at which such procession may halt for funeral prayers, ceremonies, or any other purpose. He may prohibit burials except at certain places, and at a certain depth.

49. The President of the Municipal Commission may also prohibit the burial or burning of the corpses of persons reasonably supposed to have died of plague in or upon ground other than ground specially assigned by him for such purpose.

50. The Resident will provide suitable conveyances for the transport to Hospital of persons suffering or suspected to be suffering from pneumonic plague, and it shall be lawful to drive or carry such conveyances through any public or private thoroughfare.

51. The President of the Municipal Commission may require that any conveyance, public or private, that has been used by any person infected with, or suspected of being infected with, plague, shall be thoroughly disinfected and exposed to air and sunlight for not less than 24 hours before being again used.

52. In any part of the Civil and Military Station in which cases of plague have occurred, all grain godowns or places where grain is stored should, so far as may be possible, be rendered rat proof, and may be entered and examined at all times by the District Medical Officer, or by an officer authorized in this behalf by the Resident.

53. When a grain godown is found to be improperly ventilated, or to be in such an insanitary condition from damp, or otherwise, as to be unwholesome for the storage of grain, the owner of the grain may be required to remove the grain to a properly constructed godown. All godowns in which dead rats have been found shall be declared unwholesome and unfit for use until thoroughly disinfected. The grain found in such places may be turned over and aired, or destroyed as unfit for food, and any bags or sacks in which infected grain is found stored may be disinfected or destroyed.

54. The Resident, or any officer authorised by him, may order the disinfection, or, at his discretion the destruction of any collection of rags in rag pickers' houses, or rag stores or of second-hand gunny bags if believed to have been imported from an infected area. A record shall be kept of action taken under this or the preceding Regulation.

55. The Resident, or any officer authorised by him, may, in his discretion, pay compensation to any person who has sustained loss or damage by reason of anything done under these Regulations, provided, however, that no person shall be entitled to claim any compensation whatsoever. Payment of compensation shall, so far as is possible, be paid immediately the damage or loss is caused.

56. All persons shall be bound to answer truly all such questions as may properly be asked of them, for the purpose of carrying out any of these Regulations, either regarding themselves or regarding the members of the household or family to which they belong.

57. Any person disobeying, or contravening, or refusing to submit himself to any of these Regulations, shall be deemed to have committed an offence punishable under section 188 of the Indian Penal Code, and shall be liable on conviction to be punished with imprisonment of either description for a term which may extend to 6 months, or with fine which may extend to one thousand rupees, or with both.

The 31st July 1906.

No. 64.—Mr. Patrick Hannyington, whose services have been placed at the disposal of the Resident in Mysore by the Government of Madras, is appointed, with the approval of the Government of India, to officiate as District Superintendent of Police in the Civil and Military Station of Bangalore, with effect from or after the 7th August 1906, during the absence on leave of Mr. H. F. Wilkieson or until further orders.

PART III.

Advertisements and Notices by Private Individuals and Corporations.

PROMISSORY NOTE.

Lost.

The Government Promissory Note No. Bom. 2369 of the 3½ per cent. Loan of 1865 for Rupees five hundred only originally standing in the name of Dadajee Bhanaji and last endorsed to Rev. C. A. C. d Sequeira, I. M. Gonsalves and J. M. D'Oliveira, the proprietors, by whom it was never endorsed to any other person, having been lost, notice is hereby given that payment of the above Note and interest thereupon have been stopped at the Public Debt Office, Bank of Bengal, Calcutta, and that application is about to be made for the issue of duplicate in favour of the proprietors. The public are cautioned against purchasing or otherwise dealing with the abovementioned security.

Name of the advertiser—REV. C. A. C. D SEQUEIRA.
Residence—Vicar of St. Michael's Church, Upper Mahim, Bombay.

Estate E. F. Growse, deceased.

PURSUANT TO SECTION 42, ACT 28 OF 1866.

Notice is hereby given that all persons having claims against the late Edward Frederick Growse of the Indian Civil Service, who died at Sea on 10th November 1905, Letters of Administration to whose Estate have been granted to George Roberts Johnston, Esq., of Messrs. Grindlay & Co., Calcutta, are required to send in the same on or before 28th August next to the said MESSRS. GRINDLAY & CO., CALCUTTA, after which date the said Administrator will proceed to administer the assets having regard only to the claims of which he shall then have received notice, and no claims sent in subsequently will be recognized, and all persons indebted to or holding any securities or property belonging to the said Estate are also hereby requested to pay without delay the amount owing by them, or deliver the said securities or property to the said Administrator whose receipt alone is valid for the same.

G. R. JOHNSTON,
Administrator to Estate E. F. Growse, deceased.

Calcutta 16th July 1906.

SUPPLEMENT TO

The Gazette of India.

No. 31.} CALCUTTA, SATURDAY, AUGUST 4, 1906.

OFFICIAL PAPERS.

A SUPPLEMENT *to the* GAZETTE OF INDIA *will be published from time to time, containing such Official Papers and information as the Government of India may deem to be of interest to the Public, and such as may usefully be made known. The debates of the Legislative Council of His Excellency the Governor General will in future be published in* PART VI *of the* GAZETTE.

Non-Subscribers to the GAZETTE *may receive the* SUPPLEMENT *separately on a payment of five Rupees per annum if delivered in Calcutta, or eight Rupees if sent by Post. The* SUPPLEMENT *and* PART VI *of the* GAZETTE *can also be subscribed for separately on a payment of Rupees six per annum if delivered in Calcutta or Rupees nine if sent by Post.*

No Official Orders or Notifications, the Publication of which in the GAZETTE OF INDIA *is required by Law, or which has been customary to publish in the* CALCUTTA GAZETTE, *will be included in the* SUPPLEMENT. *For such Orders and Notifications the body of the* GAZETTE *must be looked to.*

PART I.

Government of India Notifications, Appointments, Promotions, &c.

HOME DEPARTMENT.

NOTIFICATIONS.

ESTABLISHMENTS.

Simla, the 8th August, 1906.

No. 899.—The Hon'ble Sir Bampfylde Fuller, K.C.S.I., C.I.E., has obtained permission from His Excellency the Governor General of India to resign, from the 20th

August 1906, the office of Lieutenant-Governor of Eastern Bengal and Assam. His Excellency is pleased to direct, as a mark of respect due to the character and services of Sir Bampfylde Fuller, that all the honours and distinctions to which he is now entitled as Lieutenant-Governor of Eastern Bengal and Assam shall be continued to him from the 20th August until the date of his embarkation for Europe.

No. 900.—Under the authority vested in him by the 29th Section of the Act 21 and 22 Vict., Cap. 106, His Excellency the Governor General of India is pleased, subject to the approbation of His Majesty the King, Emperor of India, to appoint the Hon'ble Mr. Lancelot Hare, C.S.I., C.I.E., to be Lieutenant-Governor of Eastern Bengal and Assam.

SANITARY.

The 8th August, 1906.

No. 1409.—Captain W. C. H. Forster, M.B., I.M.S., is placed on special duty under the orders of the Sanitary Commissioner with the Government of India.

EDUCATION.

The 10th August, 1906.

No. 590.—In exercise of the powers conferred by section 6, clause (*c*) and section 10 of the Indian Universities Act, 1904 (VIII of 1904), His Excellency the Chancellor of the Calcutta University is pleased to nominate the following gentlemen to be Ordinary Fellows of the University :

Babu Nrisinha Chandra Mukherji, M.A., B.L.
Babu Lal Mohan Das, M.A., B.L.
Colonel R. Macrae, M.B., I.M.S.
Rai Krishna Chandra Banurji Bahadur, B.A.
Revd. J. Lamb, M.A., B.D.
Dr. Prafulla Chunder Roy, D. Sc.
Mr. A. A. Caspersz, B.A.
Mr. Syed Shams-ul-Huda, M.A., B.L.

PUBLIC DEBT.

Simla, the 2nd August, 1906.

No. 4389-*A*.—In pursuance of Rule 22 of the Rules made by the Government of India under section 14 of the Indian Securities Act, XIII of 1886, and published in the *Gazette of India* of the 7th January 1888, page 6, the following list is hereby advertised of Securities lost or destroyed, in respect of which an order has been made for payment of interest pending the issue of a duplicate Security, or for the issue of such duplicate Security. All persons, other than the respective claimants named below, who have any claim upon these Securities, should communicate immediately with the Comptroller General, the Treasury, Calcutta.

The list is divided into two parts,—Part A being the list of Securities now advertised for the first time, and Part B the list of Securities previously advertised.

N.B.—Under section 13 of the said Act, Government will be discharged from all liability in respect of these original Securities after the lapse of six years from (*a*) the several dates stated against them in the last column of the list, or (*b*) the last payment of interest on them, whichever date is the later.

PART V.

Bills introduced in the Council of the Governor General of India for making Laws and Regulations, Reports of Select Committees presented to the Council, and Bills published under Rule 23.

GOVERNMENT OF INDIA.

LEGISLATIVE DEPARTMENT.

The following Bill was introduced in the Council of the Governor General of India for the purpose of making Laws and Regulations on the 10th August, 1906 :

No. 3 OF 1906.

A Bill to amend the Excise Act, 1896.

WHEREAS it is expedient to amend the Excise Act, 1896 ; It is hereby enacted as follows :

Short title.

1. This Act may be called the Excise (Amendment) Act, 1906.

Amendment of section 3 (1) (j), Act XII, 1896.

2. In section 3, sub-section (1), clause (j), of the Excise Act, 1896, to the definition of "intoxicating drugs" the following shall be added, namely :

"and includes every other drug which the Local Government may, by notification in the local official Gazette, declare to be included in this definition, and every preparation and admixture of any such drug."

Amendment of section 18 (2), Act XII, 1896.

3. For section 18, sub-section (2), of the said Act, the following sub-section shall be substituted, namely :

"(2) In the other territories to which this Act extends, no person shall have in his possession—

(a) any drugs which the Local Government has, by notification under section 3, sub-section (1), clause (j), declared to be included in the definition of 'intoxicating drugs', except under, and in accordance with the terms of, a general exemption granted by the Local Government, or a license granted by such officer as the Local Government may, from time to time, appoint in this behalf, or

(b) any quantity of any intoxicating drugs mentioned in section 3, sub-section (1), clause (n), greater than the amount therein specified in respect of such drugs, unless he is permitted to collect, cultivate, manufacture or sell the same, or holds a pass therefor from the Collector or some other officer empowered by the Local Government to grant such passes."

Addition of proviso to section 21, Act XII, 1896.

4. To section 21 of the said Act the following proviso shall be added, namely:

"Provided also that, where the Local Government has declared, by notification under section 3, sub-section (1), clause (j), any drug to be included in the definition of 'intoxicating drugs', such drug may be sold in the territories to which this Act extends under, and in accordance with the terms of, a general exemption granted by the Local Government."

Repeals.

5. The United Provinces Excise Law Amendment Act, 1906, and section 2 of the Burma Excise Law Amendment Act, 1904, are hereby repealed :

Provided that any rules or orders which may have been issued under the Excise Act, 1896, as amended by either of the enactments hereby repealed, shall be deemed to have been issued under the Excise Act, 1896, as amended by this Act.

STATEMENT OF OBJECTS AND REASONS.

THE object of the Bill is to provide for the control of the sale and possession of cocaine in the various Provinces (the United Provinces of Agra and Oudh, the Punjab, the North-West Frontier Province, the Central Provinces, Burma, Coorg and Ajmer) to which the Excise Act, 1896, extends. Cocaine is dealt with as an intoxicating drug under the Excise Acts of Madras, Bombay and Bengal, but the India Act of 1896, which is in force in the other Provinces above specified, limits "intoxicating drugs" to hemp drugs. This defect has, indeed, been removed by separate local legislation in Burma (see the Burma Excise Law Amendment Act, 1904, section 2) and the United Provinces (see the United Provinces Excise Law Amendment Act, 1906); but it now appears from reports recently received by the Government of India that in other Provinces also, and notably in the Punjab, the consumption of cocaine is very much on the increase and that the spread of the habit constitutes a serious danger. The absence of all restrictions on the traffic in the drug in these latter Provinces also operates to nullify to a certain extent the restrictions imposed thereon elsewhere, and especially as regards consignments which pass through Bombay. It is accordingly proposed in the present Bill to repeal the two local enactments above referred to and, by a general amendment of the Excise Act, 1896, to apply to all the Provinces to which that Act extends, the amendments in its provisions which were made for the United Provinces by the United Provinces Act now being repealed. The effect of the Bill will be to enable each Local Government concerned to notify cocaine as an "intoxicating drug" and thus bring its sale and possession under the usual excise restrictions.

E. N. BAKER.

The 30th July, 1906.

J. M. MACPHERSON,

Secretary to the Government of India.

GOVERNMENT OF INDIA.

LEGISLATIVE DEPARTMENT.

The following Bill was introduced in the Council of the Governor General of India for the purpose of making Laws and Regulations on the 10th August, 1906:

NO. 4 OF 1906.

A Bill to amend the Land Improvement Loans Act, 1883, and the Agriculturists' Loans Act, 1884.

1883. 1884. WHEREAS it is expedient to amend the Land Improvement Loans Act, 1883, and the Agriculturists' Loans Act, 1884; It is hereby enacted as follows:

Short title.

1. This Act may be called the Land Improvement and Agriculturists' Loans (Amendment) Act, 1906.

Amendment of sections 1 and 4, Act XIX, 1883.

2. In section 1, sub-section (2), and in section 4, sub-section (2), clause (*f*), of the Land Improvement Loans Act, 1883, the words "with the previous sanction of the Governor General in Council" shall be omitted. XIX of 1883.

Amendment of section 6 of same Act.

3. In section 6, sub-section (3), of the said Act, the words "and Governor General in Council" and the words "and sanctioning" shall be omitted.

Amendment of section 10 of same Act.

4. In section 10 of the said Act, for the words "with the previous sanction" the words "subject to the control" shall be substituted.

Amendment of section 11 of same Act.

5. In the first proviso to section 11 of the said Act, the words "with the approval of the Governor General in Council" shall be omitted.

Amendment of section 4, Act XII, 1884.

6. In section 4, sub-section (1), of the Agriculturists' Loans Act, 1884, for the words "with the previous sanction" the words "subject to the control" shall be substituted. XII of 1884.

STATEMENT OF OBJECTS AND REASONS.

UNDER the law as it at present stands Local Governments are required to submit all rules under the Land Improvement Loans Act, 1883 (XIX of 1883), and the Agriculturists' Loans Act, 1884 (XII of 1884), for the previous sanction of the Governor General in Council. In a recent Resolution the Government of India have clearly laid down the lines upon which the takavi system of State loans to agriculturists should be worked, and it is now considered sufficient to retain only a general control of the Governor General in Council such as is proposed in the amendment to section 10 of the Land Improvement Loans Act, 1883, and to section 4 (1) of the Agriculturists' Loans Act, 1884, without requiring the rules made by Local Governments to be submitted for his previous sanction. The opportunity has also been taken to unfetter the discretion of Local Governments as regards certain matters under the Land Improvement Loans Act by omitting references to the "Governor General in Council" in certain sections of the Act.

DENZIL IBBETSON.

PART VI.

Proceedings of the Council of the Governor General of India, assembled for the purpose of making Laws and Regulations.

GOVERNMENT OF INDIA.

LEGISLATIVE DEPARTMENT.

PROCEEDINGS OF THE COUNCIL OF THE GOVERNOR GENERAL OF INDIA, ASSEMBLED FOR THE PURPOSE OF MAKING LAWS AND REGULATIONS UNDER THE PROVISIONS OF THE INDIAN COUNCILS ACTS, 1861 AND 1892 (24 & 25 VICT., CAP. 67, AND 55 & 56 VICT., CAP. 14).

The Council met at Viceregal Lodge, Simla, on Friday, the 10th August, 1906.

PRESENT:

His Excellency the Earl of Minto, P.C., G.C.M.G., G.M.S.I., G.M.I.E., Viceroy and Governor General of India, *presiding*.
His Honour Sir C. M. Rivaz, K.C.S.I., Lieutenant-Governor of the Punjab.
His Excellency General Viscount Kitchener of Khartoum, G.C.B., O.M., G.C.M.G., Commander-in-Chief in India.
The Hon'ble Sir A. T. Arundel, K.C.S.I.
The Hon'ble Sir Denzil Ibbetson, K.C.S.I.
The Hon'ble Mr. H. Erle Richards, K.C.
The Hon'ble Mr. E. N. Baker, C.S.I.
The Hon'ble Major-General C. H. Scott, C.B., R.A.
The Hon'ble Sir C. L. Tupper, K.C.I.E.
The Hon'ble Mr. T. Gordon Walker, C.S.I.

NEW MEMBER.

The Hon'ble MR. GORDON WALKER took his seat as an Additional Member of Council.

EXCISE (AMENDMENT) BILL.

The Hon'ble MR. BAKER moved for leave to introduce a Bill to amend the Excise Act, 1896. He said:—" My Lord, the object of the Bill is to give power to the Local Governments of the Provinces to which the Act applies to control the trade in cocaine. During the last few years we have received evidence that the consumption of this drug in various parts of India is spreading to an

extent far beyond what can be ascribed to legitimate medicinal purposes. Thus, while the Bombay Government have reported that a large firm of chemists in Bombay only sell about six ounces of cocaine annually for purely medicinal purposes, we have lately had information of single consignments of hundreds of ounces supplied to chemists and others in various places in the Punjab. The Local Government of the latter Province has reported that the spread of the cocaine habit especially in the larger cities 'constitutes a most serious danger to avert which both European and Native opinion agree that prompt action should be taken.' The cocaine thus procured appears to be used largely as a stimulant, as an intoxicant, and occasionally as an aphrodisiac. We know from medical authorities that its use for these purposes is deleterious and may even, in the case of persons of delicate constitution, cause risk of death. Our object is therefore to enable cocaine to be dealt with as an 'intoxicating drug' within the purview of the Excise law and thus to enable the strict control which that law allows in respect of persons licensed to sell it and in regard to the amount which buyers may possess. Now, the wording of the Excise Acts of Madras, Bombay and Bengal has already enabled this action to be taken. Cocaine has been notified as an intoxicating drug within one or other of these Acts since 1900 in Bengal, since 1903 in Bombay, and since 1905 in Madras; and its sale has been confined in those Provinces to approved chemists, druggists, or medical practitioners with the intention that they shall supply it only for medicinal purposes. It is now most desirable that similar action should be taken under the Indian Excise Act (XII of 1896) which applies to the rest of India. Unfortunately, while this Act gives full powers of control in respect to 'intoxicating drugs,' these, as defined in its section 3 (1) (*j*), are hemp drugs only. We now propose to amend the definition so as to include any other drug which the Local Government may by notification declare to be included therein. This will empower the Governments of the Provinces to which the Act applies to deal with cocaine in the same way as is done in the three large Provinces of Bengal, Bombay and Madras.

"The remaining provisions of the Bill are formal and technical and their object is sufficiently explained in the Statement of Objects and Reasons which I shall lay on the table."

The motion was put and agreed to.

The Hon'ble MR. BAKER also introduced the Bill.

The Hon'ble MR. BAKER also moved that the Bill, together with the Statement of Objects and Reasons relating thereto, be published in the Gazette of India in English and in the local official Gazettes of the United Provinces, the Punjab, Burma, the Central Provinces and Coorg in English and in such other languages as the Local Governments think fit.

The motion was put and agreed to.

LAND IMPROVEMENT AND AGRICULTURISTS' LOANS (AMENDMENT) BILL.

The Hon'ble SIR DENZIL IBBETSON moved for leave to introduce a Bill to amend the Land Improvement Loans Act, 1883, and the Agriculturists' Loans Act, 1884. He said :—" My Lord, the purport of the Bill which I think will be welcomed by every body, is set forth in the Statement of Objects and Reasons."

The motion was put and agreed to.

The Hon'ble SIR DENZIL IBBETSON also introduced the Bill.

The Hon'ble SIR DENZIL IBBETSON also moved that the Bill, together with the Statement of Objects and Reasons relating thereto, be published in the Gazette of India in English and in the local official Gazettes in English and in such other languages as the Local Governments think fit.

The motion was put and agreed to.

The Council adjourned to Friday, the 31st August, 1906.

J. M. MACPHERSON,

GOVERNMENT OF INDIA.

HOME DEPARTMENT.

EDUCATION.

No. 600.

Extract from the Proceedings of the Government of India in the Home Department—under date Simla, the 11th August, 1906.

RESOLUTION.

Read—

A letter dated 9th July 1906, from the Committee of the Senate of the Calcutta University, submitting for the sanction of the Government a complete body of draft regulations to provide for all matters relating to the University.

By the provisions of section 26 of the Indian Universities Act, 1904, the Senate of the Calcutta University are required to cause a revised body of regulations, providing for all matters relating to the University, to be prepared and submitted for the sanction of the Government of India within one year after the

commencement of the Act. This period of one year expired on the 1st September 1905. In exercise of the power conferred by section 26 (*1*) of the Act the Government of India, at the request of the Senate, then fixed a further period of six months for the submission of revised regulations. When this period was nearing its close, the Government of India were advised by the Hon'ble the Advocate General that it was not within their power to extend the time further, and that, in the event of a revised body of regulations not being submitted by the Senate before the end of February 1906, such regulations could only be made by the Government under the power vested in them by section 26 (*2*) of the Act.

2. It proved impossible for so large a body as the Senate to complete their revision of the regulations within the time fixed, and the legal authority to frame regulations thus passed out of their hands and devolved upon the Government of India. The Governor General in Council was, however, anxious to avail himself as far as possible of the assistance of the Senate in the matter and to utilise the ample materials furnished by them, as a basis for the completion of the work. They were accordingly informed that the Government of India would be glad to receive from them any draft regulations or suggestions in regard to the regulations, which that body might be prepared to submit by the middle of April 1906, and to give to these full consideration.

3. In order to ensure that the best use should be made of the materials which the labours of the Senate had provided, the Government of India decided to appoint a small Committee, consisting of members of the Senate representing the various interests concerned, and more especially the interests of private colleges, in order to assist them in preparing the regulations. Their object in adopting this course was to give the Senate, by such representation, virtually as large a share in the settlement of the regulations as they would have enjoyed had they been able to comply with the provisions of section 26 (*1*) of the Act. The Committee was constituted as follows :

President—The Hon'ble Mr. Justice Asutosh Mukharji, Vice-Chancellor of the Calcutta University.

Members—Mr. G. W. Küchler, Indian Educational Service.

Revd. A. B. Wann, Principal, General Assembly's Institution.

Mr. N. N. Ghose, Principal, Metropolitan Institution.

Babu Brajendranath Sil, Principal, Victoria College, Cooch Behar.

Dr. E. Denison Ross, Officer in charge of the Records of the Government of India, and late Principal of the Calcutta Madrasah.

The duties of Secretary were performed by Dr. Ross. The Committee were supplied with copies of the drafts submitted by the Senate, and instructions were conveyed to them regarding the principles to be observed in framing the revised regulations. A copy of these instructions is annexed.

4. The distinguished academic attainments of the members of the Committee, the wide range of their experience of Indian education, their personal

connexion with the chief interests involved, and their intimate acquaintance with the working of the Calcutta University and with the previous discussions regarding the revision of the regulations, afford the best guarantee of their ability to represent the Senate for the purpose of preparing the final draft, and give great weight to the unanimous conclusions at which they have arrived. Their deliberations, which were based upon the draft regulations prepared by the Senate of the University, commenced on the 9th May and were concluded on the 9th July. During that time they held fifty meetings and the result of their labours has been laid before the Governor General in Council in the shape of a complete body of regulations, divided into fifty-four chapters and dealing in ample detail with all matters relating to the University of Calcutta. The Government of India, having examined these regulations with the care and attention due to the far-reaching issues which they raise, see no reason for introducing any additions or alterations; and they now accord formal sanction to them in the precise form in which they left the hands of the Committee.

5. In promulgating the regulations for the future government of the University, the Government of India think it advisable to draw attention to the principal chapters and to explain the intention and effect of some of the more important provisions.

6. The first chapter deals with the transaction of business by the Senate, and seeks to guard against any decision being arrived at without adequate notice and full discussion Regulation 4 follows the existing bye-laws in providing that no question shall be brought before the Senate which has not been fully considered by the Syndicate. Regulations 63-65 lay down elaborate rules for elections, and regulation 66 enables a minority to give formal expression to its views Regulation 67 contains a provision, which experience has shown to be desirable, for giving a reasonable degree of finality to the decisions of the Senate.

7. Chapter III introduces several important changes in respect of the Faculties of the University. It creates a new Faculty devoted to Science, and it lays down that a member of the Senate need not necessarily belong to any Faculty, and that members who are competent to advise in more than one department of learning should be placed on two Faculties but not on more than two The Committee have also framed rules for the appointment of Faculties, and care has been taken that the Senate shall have an effective voice in the matter. Regulations 5 and 6 deal with the important question of expanding the Faculties under section 14, sub-section *2*, clause (*b*) of the Indian Universities Act, by the admission of qualified persons, who are not Fellows, to take part in the working of the University.

8. In Chapter IV, which treats of the Syndicate, the most important feature is that that body will be elected partly by the Senate and partly by the Faculties. This departure from the existing practice is justified by two considerations. In the first place, the Syndicate is the executive committee of the Senate, and the Senate, as a body, ought to have some voice in its appointment. In the second place, the proposed system will enable the Senate, after the elections have been made by the Faculties, to secure the representation on the Syndicate of particular academic studies or interests. The powers and duties of the Syndicate are fully defined in this chapter, and include the important power of granting or withdrawing the recognition of schools by the University.

9. Chapter VII provides for a whole-time Registrar who will be appointed for five years and will be eligible for re-appointment upon the expiry of the first term. He must be a graduate of position with experience of University affairs. The salary (Rs. 800—50—1,000) and the leave and pension rules will, it is hoped, enable the University to secure the services of a competent officer for this important post. Chapter VIII creates the new appointment of an Inspector of Colleges. Unless the University has a permanent Inspector of its own, the work of inspecting colleges must be done by members of the Senate who volunteer for the purpose or by officials lent by Government. Under such a system the inspecting authority may vary from year to year, and there can be no continuity in the standard of efficiency applied. The regulations provide that the Inspector shall be a person of high academic standing and possessing some experience of Indian colleges. Chapter X empowers the Senate, on the recommendation of the Syndicate, to appoint University Readers, who will be, in effect, temporary professors appointed to deliver courses of lectures on special subjects. They will be appointed for one year, and the lectures delivered will be mainly for the benefit of graduates engaged in research work. It is hoped that both English and Indian scholars of distinction may be induced to undertake courses of this kind. Chapter XI contemplates the appointment of University Lecturers who will be for the most part Professors in affiliated colleges or experts otherwise employed. The object of the lectures will be to carry on post-graduate teaching. There are many colleges in Bengal which, though unable to undertake a complete course of lectures in an advanced subject, might be able to spare one or two members of their staff to lecture on a portion of such a course, so that the ground would be completely covered by two or more professors belonging to different colleges.

10. Chapter XII treats of the election of Fellows by Faculties under the provisions of Section 9 of the Indian Universities Act. The regulations prescribe the method of election, and empower the Senate to hold a new election in cases of dispute. Chapter XIII relates to the election of Fellows by Registered Graduates under the provisions of Section 7 of the Act, and confers a similar power on the Syndicate. Chapter XIV deals with the register of graduates to be kept under Section 7, sub-section (2), of the Indian Universities Act. Graduates thus registered will have, in addition to the right of electing Fellows, the other substantial privileges enumerated in Regulation 8, including the use of the University Library on special terms, free admission to University lectures, and a copy of the University Calendar.

11. Chapter XV introduces, for the first time in the case of the Calcutta University, a register of University students in which the name of every student must be entered on first joining a college. If he is subsequently transferred from that college to another college, or if his name is removed from the college books for a breach of discipline or any other reason, or if under Chapter XXIII, regulation 36, he is found guilty of gross misconduct, the fact will be noted in the register. Passes and failures at different examinations will be similarly noted. The register will thus furnish a continuous history of every student from the moment he enters the University to the time when he leaves. It will supply the college authorities with a correct account of the antecedents and career of every student with whom they are concerned, and it will place at the disposal of the University a valuable educational record.

12. In regard to non-collegiate or private students Chapter XVI of the regulations provides that, except in very special cases, no person shall be admitted as a non-collegiate student to any examination other than the Matriculation. The point of chief importance is that no person will, except in very special cases, be treated as a non-collegiate student who has been in any college whether affiliated or un-affiliated within a year of the examination. This gives effect to the suggestion contained in paragraph 7 of the letter of instructions to the Committee. Three other regulations of this Chapter involve important principles. Regulation 4 prohibits the admission of a private student to an examination in a scientific subject unless he has received practical training in a laboratory. It thus affirms the sound principle that the study of science has no educational value unless it is accompanied by experimental and practical work. Regulation 5 provides that no non-collegiate student shall be admitted to an examination as a teacher who has not been engaged in teaching for at least three years. The object is to prevent persons who have failed at an examination from taking nominal employment as school teachers and thus gaining admission to an examination without attending lectures in a college. This practice is detrimental both to their own studies and to the quality of the teaching in the schools which employ them.

13. Chapter XVIII dealing with the affiliation of colleges is based on section 21 of the Indian Universities Act to which it adds certain important conditions. The first of these is that the governing body required by the Act should comprise some representatives of the teaching staff. In the second place, the regulations provide that regard should be had to the character of the teachers and to the conditions governing their appointment. Thirdly, they lay down that, except with the special permission of the Syndicate (which can be granted only on specified grounds), no college lecturer is to have a class of more than 150 pupils. Under the existing system no limit is fixed, and great overcrowding is tolerated, with the result that the classes in some colleges contain as many as 250 pupils, a state of affairs injurious both to instruction and discipline. The Syndicate is empowered to make an exception to the rule in the case of special subjects or special professors.

14. It has been universally recognised that if higher education is to attain its full development the existing colleges must not be excluded from the benefits of the reforming movement. The best means of enabling these institutions to adapt themselves to improved conditions is a problem of great difficulty and delicacy; and the Governor General in Council believes that Chapter XIX has been so framed as to secure that continuous progress shall be made in the right direction without setting up an ideal standard which may not be at once attainable. Its provisions are, indeed, the necessary consequence of the change in the character and scope of affiliation which is effected by Chapter XVIII, regulation 1. It has hitherto been the practice to grant affiliation in general terms up to a particular degree, such as the B.A., although many of the colleges thus affiliated are incapable of teaching all of the subjects included in the B.A. course. Following the recommendation made in paragraph 69 of the Report of the Indian Universities Commission that "affiliation should be granted, and from time to time renewed, not in general terms, but with a more exact reference to the subjects and courses of study for which the college can make adequate provision" the new regulations lay down that affiliation shall be given specifically for each separate subject and each separate standard in each of the Faculties. They require, in short, that

colleges shall be affiliated in what they can teach and not in what they cannot teach; a self-evident proposition which involves nothing more than the recognition of actual facts, and the renewal of affiliation in accordance with them. Regulation 7 of Chapter XIX provides for the application of this principle to existing colleges at the end of two years, and thus gives ample time to every college to complete its arrangements for imparting instruction in certain subjects and standards. The renewal of affiliation on these terms will affect all colleges alike, since no college is equipped to teach every subject included in the course for a particular degree. The question of the extent to which affiliation should be renewed will be dealt with in the first instance by the Senate and Syndicate two years hence, and the ultimate decision will rest with the Government of India who will give the fullest consideration to the circumstances of each case and to the causes which may have precluded particular colleges from complying with the requirements of the Syndicate within the period prescribed. Chapter XX, which may be regarded as supplemental to Chapters XVIII and XIX, provides for systematic inspection by a salaried Inspector and one or two other experts who may be appointed from time to time by the Syndicate to assist in the inspection of a particular college, or of a specified group of colleges.

15. Chapter XXI which treats of the recognition of schools, is practically identical with the draft submitted by the Senate which is understood to represent the unanimous opinion of the Fellows belonging to the Education Department in Bengal. It gives effect to the principle, enunciated by the Government of India in the Home Department letter of 24th October 1902 reviewing the report of the Universities Commission, and re-affirmed in the instructions given to the Committee, that no school should be recognised by the University for the purpose of sending up pupils as candidates for the Matriculation Examination unless the Syndicate is satisfied, upon the report of the Director of Public Instruction or of an Inspector of Government Schools, or of some other competent person nominated in this behalf by the Syndicate, that the school conforms with regulations to be made by the Senate for the purpose. Under the regulations now sanctioned the recognition or non-recognition of a school will be the act of the University, and the functions of the Education Department or of the person nominated by the Syndicate to report on the claims of the school to recognition will be limited to placing before the University the information requisite to enable it to exercise its controlling authority. This solution of a question which is not altogether free from difficulty is indicated alike by the cordial relations which have existed between the University and the Education Department in the past, by their active co-operation in the supervision of secondary education, and by the existence in Bengal and the new Province of a large number of private schools which receive no aid from Government, and which therefore are not inspected by the officers of the Education Department. With such schools the University alone is legally competent to deal and the Governor General in Council is assured that its influence will be firmly and discreetly exercised in the direction of checking the spirit of license and self-assertion, the unbecoming manners, the impatience of control, and the disregard of all authority which have been displayed of late by the boys and masters of not a few schools in Bengal and the new Province. For both boys and masters the same excuse may be pleaded—imperfect methods of education which train the memory at the expense of the higher faculties and leave the judgment immature and the character undeveloped and unstable. It now rests with the University to correct these grave defects in the rising generation

of students and to grapple with evils which, if allowed to continue, are bound to react injuriously upon the moral and intellectual progress of the race.

The conditions of recognition comprised in Chapters XXI and XXII require satisfactory proof to be given that a new school is actually wanted, and that its efficiency and stability are reasonably guaranteed. The other points mentioned in the letter of instructions are also amply provided for in the regulations. The only provision to which special attention need be drawn is that embodied in Chapter XXI, regulation 2 and Chapter XXII, regulation 5, which limits the number of students in each class. It is understood that this was adopted by the Senate without a dissentient voice. There can be no reasonable doubt that over-crowding in the lower classes of schools is largely answerable for the unsatisfactory training of Indian boys. If it is essential in all countries that young students in the beginning of their career should have individual attention paid to them as far as possible, it is especially so in India where knowledge has to be acquired through the medium of a difficult foreign tongue. If a boy is one of a class of 60 or 70 when he is first learning English, it is not surprising that his grammar, idiom, spelling and pronunciation should be bad; the wonder is that he learns even as much as he actually does The regulations, following the unanimous recommendation of the Senate, remove the chief cause of these deficiencies by prescribing the maximum number of boys that may be taught in any class.

16. Chapter XXIII comprises regulations for the admission, transfer and withdrawal of students from affiliated colleges, the object of which is to maintain continuity of studies and to prevent capricious changes from college to college. Certain exceptional cases, where a transfer in the middle of a term is rendered necessary by the state of a student's health or by a change of residence on the part of his parent or guardian, are provided for in regulation 14. The Governor General in Council believes that these regulations will be welcome both to principals of colleges and to the parents of students. Regulation 38 lays down that questions arising in connection with these regulations shall be decided by a special Committee of the Senate called the Transfer Committee. The proceedings of this Committee will be operative only if confirmed by the Syndicate, because under the Act the executive government of the University is vested in the Syndicate which is consequently responsible for the due observance and enforcement of the regulations. The provisions contained in this Chapter derive great authority from the fact that the Committee had among their number no less than four experienced Principals of colleges.

17. The problem of the residence of students, which is dealt with in Chapter XIV, is admittedly one of great difficulty. It has given rise, and is likely to give rise for some time to come to the widest divergence of opinion. The regulations framed by the Committee are in strict accordance with the Act. They go somewhat beyond the recommendations of the Senate, who owing to the nature of the subject, and the differences of opinion among their body, were only able to submit an incomplete set of regulations. The Chapter provides for the residence of students under the following heads:—(1) Students residing with their parents and guardians. (2) Students residing in—(*a*) Collegiate Hostels, being boarding houses which form part of a college, admit only the students of that college and are under the control of its Principal. (*b*) Non-Collegiate Hostels, or boarding houses kept by private individuals and

members of which belong to the same college. (*d*) Unattached messes, being similar chummeries the members of which belong to different colleges. (*e*) Private lodgings approved by the authorities of the college in which the student is reading. The necessity for recognising these last arises from the fact that even now many Hindu students are married at the age of 17 or 18 and have their wives and families with them in Calcutta.

For the purpose of administering the regulations relating to non-collegiate hostels, messes and private lodgings provision is made for the appointment of a Committee of the Senate to be called 'The Students' Residence Committee." Not less than three members of the Committee must be Indians. This is important, as the work of the Committee will be one of great difficulty and delicacy, and they will have to decide questions affecting the mode of life and the manners and social customs of Indian students. The whole subject is still in the experimental stage, and the regulations now sanctioned probably cannot be regarded as final. They embody however the experience of four members of the Committee who have conducted large hostels for several years, and the Government of India believe them to be as thorough and as practicable as it is possible to make them at present.

18. In Chapter XXV, which contains general rules for examinations, an attempt is made to discourage that style of teaching whose sole aim and object is the passing of examinations; and elaborate rules are laid down for the setting of papers, methods of examining, appointment of examiners and other analogous matters. In future, every examination paper will be, wherever possible, the joint work of three examiners, and it is hoped that this will result in the questions set being a really fair test of the students' knowledge. In order to gauge the student's grasp of his subject, as distinguished from his acquaintance with the contents of a particular book, the questions will no longer be confined to the books recommended, which are to be taken as indicating merely the standard and extent of knowledge required in the subject defined by the syllabus.

19. Chapter XXVI treats of the general conditions of study in affiliated colleges. Here the regulations prescribe the minimum number of lectures to be delivered in each subject and follow the recommendation of a majority of the Senate in requiring every collegiate student to attend at least three-fourths of the lectures delivered in the college to which he belongs. Chapter XXVII lays down certain special conditions to be fulfilled by colleges which seek affiliation in a scientific subject. In section 21, sub-section (1) clause (*e*), of the Indian Universities Act, it is provided that where affiliation is sought in any branch of experimental science, arrangements must be made, in conformity with the regulations, for imparting instruction in that branch of science in a properly equipped laboratory or museum. The regulations contained in this chapter prescribe a minimum standard for each of the experimental sciences included in the curriculum for Degrees in Arts and Science. They provide, among other things, for the minimum size of the laboratory, and for the maximum number of students who may be taught by a single demonstrator. In Appendix B admirably full specifications are given of the equipment of laboratories, and the approximate cost. The information contained in this Chapter and its Appendix is based upon expert opinion and will be of the utmost value to colleges seeking affiliation in experimental science under the terms of the Act.

20. Chapter XXIX prescribes the mode of transition from the old to the new regulations. While enforcing the earliest possible introduction of the

new regulations it allows ample time for the existing schools and colleges to adapt their staff and equipment to the new condition of things and to train their students in accordance with the principles enunciated in the regulations. It is believed that all possible cases have been provided for, but power has been reserved to the Syndicate to give special directions in contingencies not covered by the regulations.

21. Chapter XXX dealing with the Matriculation Examination, is the first of a series of 24 chapters comprising the regulations for the various examinations in the different Faculties. Its main object is to secure that every candidate who matriculates will be likely to profit by more advanced studies. If greater thoroughness is to be demanded, the course must be simplified. If too many subjects are prescribed, all of them will be indifferently learnt. The regulations therefore proceed on the principle that whatever subject is required of a candidate must be known thoroughly up to an appropriate standard. In English, for example, they dispense with regular text books but provide that a number of books will be recommended in order to indicate the standard up to which candidates will be expected to have read. The examination will be held not in a prescribed portion of English literature, but in the English language, as used in daily life. It will be a test of the ability of candidates to write clear, simple and correct English, and of their intelligent comprehension of modern English applied to familiar subjects. The memory will be less heavily burdened than under the present system and there will be greater scope for the exercise of general intelligence. Similar principles are applied to the courses in mathematics and in the classical languages. In making the candidate's own vernacular compulsory for Matriculation, the Committee have adopted the unanimous recommendation of the Indian Universities Commission. For candidates whose vernacular is not one of those recognised, an alternative paper will be allowed in English composition, French, or German.

English History has been reserved for the Intermediate Examination in Arts; and this reduction of the course has rendered it possible to require in addition to the History of India, some knowledge of the present administration of British India and of the progress of India under British rule. This subject will be treated in a text book to be prepared by the University. Candidates who take up History will be allowed to submit their answers in English or in their own vernacular. This will enable the student to read the History of India in his mother tongue, and will render the study both more attractive and more profitable. At the Matriculation stage students do not know English well enough to be able to read history in that language with advantage and are tempted to have recourse to keys and summaries of leading events, which admit of being committed to memory, but which fail to arouse any intelligent interest in the subject.

The pass standard for the Matriculation Examination is defined in the regulations, which require that in order to pass in English, a candidate must obtain 40 per cent. of the full marks assigned to the two papers in English; or if he can get 40 per cent. in the first paper (translation and essay), then 36 per cent. of the full marks of the two papers. In order to pass in the vernacular, a candidate must obtain 36 per cent. and in order to pass in compulsory Classics and Mathematics, 30 per cent. in each, and of the aggregate marks of all the papers, 36 per cent. This means that if a candidate gets less than 36 per cent. of the full marks in any subject he has to make up for the deficiency by getting more than 36 per cent. in some other subject.

These changes are the outcome of much discussion among the most competent authorities, and they represent a compromise between the extreme views of some who would prematurely raise the standard to an ideal height, and of others who are influenced by an excessive solicitude for the backward student. They may therefore be expected to satisfy those who have at heart the best interests of higher education. Their intention is not to set the scholar a harder task, but to eliminate unsound methods of teaching and to gauge the student's knowledge by a more reasonable test. Now that the age for matriculation has been raised to 16, candidates will be on the average about a year older when they come up for matriculation than has hitherto been the case and will therefore be qualified to stand a more thorough test in English. For the purpose of acquiring a colloquial knowledge of a language every additional year of study is of great value, and the new system recognises this by laying less stress on mere book-work.

22. Chapter XXXI treats of the Intermediate Examination in Arts. After a student has matriculated, he is allowed to proceed either to a degree in Arts or a degree in Science. The Committee have decided that the Intermediate Examination for Arts students cannot be in all respects identical with the Intermediate Examination for Science students. If a proper standard is to be maintained at the examination for Bachelor of Science, it is essential that the student should begin in some measure to specialise in scientific subjects at the intermediate stage. This cannot be secured if Science students are burdened at that stage with a large number of literary subjects. At the same time it will be observed that a certain amount of purely literary training is also prescribed for them. The principle of bifurcation at the intermediate stage is supported by the precedent of the University of London.

23. Chapter XXXII defines the examination for the Degree of Bachelor of Arts. The principal changes which are made by the regulations are: (1) composition in the Vernacular is obligatory on all candidates, as was recommended by the Universities Commission; (2) candidates are given a greater choice of subjects; (3) Political Economy is treated as a separate subject and not as an adjunct to the course in History; (4) every candidate will have to take up English and Vernacular composition and two other subjects at his choice, one of which may be a scientific subject. The different courses have been equalised in point of difficulty as far as practicable.

24. The changes introduced in the examination for the Degree of Master of Arts by Chapter XXXIII are in accordance with the recommendations of the Senate, and they are of fundamental importance. Under the old regulations, any Bachelor of Arts may proceed to the M.A. Degree immediately after graduation. In general, he does so after the lapse of a year. Under the new regulations a minimum interval of two years must elapse between the taking of the Bachelor's Degree and the Master's Degree. The object of this is to secure adequate courses for the M.A. Degree. Again under the old regulations, a candidate for the M.A. Degree who received a training in a college is placed on the same footing as a candidate who appeared as a private student. This is obviously undesirable if candidates are to be encouraged to avail themselves of the benefits of post-graduate teaching. Non-collegiate students, however, are not debarred from appearing at the M.A. examination, but they cannot do so until three years after graduating. Chapter XXXIV institutes a new Degree, that of Doctor of Philosophy, which will be obtainable only by research. It will be open to all Masters of Arts of at least three years' standing.

25. Chapter XXXV deals with the Intermediate Examination in Science, and is the first of four chapters treating of different examinations in the Faculty of Science. The Intermediate Examination in Science is not an examination in scientific subjects alone. It is felt that it would not be to the real advantage of the students to be deprived of all literary training at so early a stage of their University career; the examination, therefore, will be partly literary and partly scientific. Every candidate will be examined in the English language and literature and in Vernacular composition up to the standard prescribed for the Intermediate Examination in Arts.

26. The examination for the degree of Bachelor of Science (Chapter XXXVI) will be in scientific subjects alone, on the model of the course prescribed by the University of London. A candidate is given his choice of three subjects out of eight, but he may not take up Mathematics for the first time at this stage, nor can he offer either Physics or Chemistry unless he has taken up both Mathematics and Physics at the Intermediate Examination. In each subject there is a Pass Course as well as an Honours Course; and in all subjects other than Mathematics, there will be a searching practical examination, candidates being required to pass separately in the theoretical and practical portions. The syllabuses in all the subjects are comprehensive and the test applied will conform to the most approved modern standards. The standard for a Pass and for Honours is similar to that prescribed for the B.A. Examination.

27. Chapter XXXIX treats of the examinations for a Licentiate in Teaching and Chapter XL deals with the degree of Bachelor of Teaching. These Chapters, which are based on the recommendations of the Indian Universities Commission, are a new departure so far as the Calcutta University is concerned. There are to be two examinations. The first of these, namely, the examination for the Licentiate, will be open to all persons who have passed the Intermediate Examination in Arts or Science. These candidates will be examined not only in the theory, practice and methods of teaching, but also in a course of modern English up to the standard of the B.A. degree. The second is the examination for the degree of Bachelor of Teaching, which will be open to all persons who have graduated in Arts or Science. These candidates will be examined in the theory, practice and methods of teaching and in the history of educational ideas and methods. The examinations will be both theoretical and practical, and the regulations require students to have attended a course of lectures on the theory of teaching in a College affiliated for the purpose. Although no such College exists at present, the immediate introduction of these examinations is justified on the ground that any candidate who prepares himself seriously for them will, even without undergoing a regular course of lectures on the subject, make a more efficient teacher than one who has not studied teaching at all. No candidate will, however, be admitted, unless he has either undergone a course of practical training in one of the existing training schools, or has served as a teacher in one of the schools recognised by the University. It may be anticipated that these two examinations in teaching will serve a useful purpose and will become very popular. After a sufficient number of persons have passed them it may be advisable for the University to rule that no school will be permitted to prepare candidates for the Matriculation examination which has not on its staff one or more certificated teachers. Such teachers will doubtless be in great demand, and it may confidently be expected that they will regard

education in the light of a serious profession to which they may properly devote their lives.

28. Chapter XLI which defines the examination for the degree of Bachelor of Law introduces several important reforms. In the first place, the examination for the Bachelor's Degree has been divided into two parts, of which the preliminary part may be taken at the end of the first year of Law study after graduation in Arts or Science; while the final part may be taken one year after the preliminary examination has been passed. This will tend to encourage continuous study of the subject. The minimum number of lectures to be delivered in each subject has been defined, and the example of American Universities has been followed in requiring students to attend a class for the discussion of legal questions, and in laying down that in every paper (other than the papers on Jurisprudence and Roman Law) a certain proportion of the marks shall be allotted to problems.

29. Chapters XLIV to XLVI of the Regulations are occupied with the three examinations leading up to the degree of Bachelor of Medicine. Regarding the duration of this course there has been great difference of opinion and several conflicting considerations had to be borne in mind. On the one side it is urged that before a medical student can be regarded as qualified to practise his profession he must have devoted (1) an entire year to acquiring an adequate knowledge of the preliminary scientific subjects of Inorganic Chemistry, Botany, Physics and Zoology ; (2) two years to the study of Anatomy and Physiology ; (3) at least three years to practical work in medicine and surgery in a recognised hospital. If it is accepted, on the authority of expert opinion, that these periods cannot be reduced without sacrificing professional efficiency, it follows that the medical course must extend over six years from the time when the student's general education has reached the point at which it is possible for him to enter with advantage upon his technical studies. Hitherto he has been held to have reached this point on passing the First Examination in Arts, for this was considered the earliest stage at which he could have a sufficient command of English to enable him to follow lectures delivered in that language. Assuming this condition to be maintained, it is argued on the other side that the introduction of a six years' course for the degree of Bachelor of Medicine would bear hardly upon the student, since it would defer the time at which he could begin to practise his profession, and might look forward to earning a living, until the age of 24 or even later. The argument merits serious consideration, and its weight was recognised by the Senate who recommended the retention of the five years' course. In their anxiety, however, to render this course as efficient as possible they overloaded it with such a multiplicity of subjects and lectures that their scheme of study could not by any possibility be compressed into the time allotted to it. Their proposals were open to the further objection that they did not allow a candidate who had passed the Intermediate Examination in Science that relief from purely scientific studies to which he would be legitimately entitled.

30. The Committee were thus called upon to reconcile the modern demand for a high standard of professional efficiency with the reasonable plea, advanced on behalf of the students, that they should not be unduly delayed in entering upon the work of their lives. This they have done by providing (1) that students who have passed the Matriculation Examination shall be permitted, as is the practice in the University of London, to proceed at once to a Medical degree ; (2) that for such students the period of study

shall be six years; (3) that the period shall be reduced by one year in the case of students who have passed the Intermediate Examination in Science before taking up the Medical course. The practical effect will be, that if a student passes his Matriculation Examination at the age of sixteen, he will be able to engage in the pursuit of his profession when he is twenty-two, or a year earlier than is now ordinarily possible. If, however, he postpones his decision to embrace a medical career until after he has passed the Intermediate Examination in Science, he cannot begin to practise until he is twenty-three.

31. The settlement of this vexed question arrived at by the Committee was indicated by the reforms which they had introduced in the Matriculation Examination. The standard now prescribed at this stage is in no way less advanced than that of the Preliminary Examination which the General Council of Medical Education of the United Kingdom requires candidates to pass before they can be registered as medical students. It demands in effect from the students a sound practical knowledge of the English language and may therefore be expected to enable them to follow the lectures of their Professors with less difficulty than is now the case even with those who have passed the First Examination in Arts. If this hope is realised, there is no reason why a student should not enter upon his medical studies immediately after Matriculation.

32. Such in outline are the principal features of the regulations which were framed in the first instance by the Senate and have subsequently been recast and expanded in various directions by a Committee of experts in close touch with the varied social life of the University and representing a wide range of learning and experience. The promulgation of these regulations marks a notable advance in the movement for the extension and progressive development of the higher forms of education which was initiated by the Universities Commission. Yet the stage thus reached is merely the starting point of a gradual process of reconstruction, which will make large demands upon the energy and wisdom of the University authorities during the present generation of academic life. The regulations now sanctioned fill in the framework supplied by the Universities Act; they provide the machinery for reform; but they leave it to the Senate to put the machinery in motion and to determine the speed at which it shall be worked. With them it will rest to secure by a judicious exercise of their influence and authority, the general adoption of sound principles of education, and to spread abroad a true conception of the value and uses of knowledge. Where the interests affected are so numerous, and the problems still unsolved so complex, no hasty or premature action need be apprehended. The advancement of learning, the promotion of research, the fostering of collegiate life, and the encouragement of individual effort are the objects at which the University will aim, and the Government of India are confident that in working towards these ends the Senate will be supported by the loyal and hearty co-operation of all colleges and schools within their jurisdiction. In conclusion the Governor General in Council desires to tender his cordial thanks to the Vice-Chancellor and the Committee for the ability, industry, and judgment with which they have discharged the arduous and responsible task imposed upon them.

ORDER—Ordered that this Resolution be published in the Supplement to the *Gazette of India.*

[True extract.]

H. H. RISLEY,

Secretary to the Government of India.

No. 384.

FROM

H. H. RISLEY, Esq., C.S.I., C.I.E.,

Secretary to the Government of India,

To

DR. E. DENISON ROSS,

Secretary to the Committee appointed to complete the draft regulations framed by the Senate of the Calcutta University.

Home Department.
Education.

Simla, the 1st June, 1906.

SIR,

With reference to the Resolution of the Home Department no. 200, dated the 10th April 1906, I am directed to address you on the subject of the principles to be observed in framing the revised regulations under the Universities Act.

2. The Act requires the Senate to prepare and submit within a fixed time for the sanction of the Government a revised body of regulations, and empowers the Government, after consulting the Senate, to introduce into the draft such additions and alterations as appear to it to be necessary. It thus leaves the initiative in preparing regulations to the Senate, and even where such regulations may contain inadmissible provisions, or may omit others which are essential, it provides for consultation between the Government and the Senate before the power of the Government to alter or add to the Regulations can be exercised. As it proved impossible for so large a body as the Senate to complete their regulations within the time fixed, the procedure outlined above has become legally inoperative and the obligation to frame the regulations has devolved upon the Government of India, who have appointed a Committee representing the Senate and the chief interests concerned to assist them in the work. In the course of the discussions which resulted in the passing of the Universities Act, the Government of India gave a distinct pledge that the power conferred on them by section 26 should not be used merely to introduce a general uniformity of system or to override the Universities in minor matters which can best be left to the Senates themselves, but only to secure that no subject involving an important principle should be omitted from the regulations or should be dealt with in a manner which is clearly inadequate or unsuitable, and they are anxious to bear this pledge in mind and to avoid any action that may give colour to a charge of disregarding it. They desire, however, to indicate for the guidance of the Committee certain points which in their opinion are of such primary importance as to merit an appeal to the powers conferred by section 26 should the occasion arise, and at the same time to notice certain other points in respect of which uniformity of practice seems to be desirable if it can be attained with the concurrence of the Committee.

3. *Inspection of colleges.*—The Act requires [section 23 (*2*)] that the Syndicate shall cause every college to be inspected from time to time by one or more competent persons authorised by the Syndicate in this behalf. It is necessary therefore that the regulations made under section 25 (*2*) (*1*) should be framed so as—

(1) to specify a time within which every college now affiliated shall be inspected;

(2) to prescribe a period for the recurrence of regular inspection after this initial inspection;

(3) to specify a time within which every college now affiliated to the University shall submit a report to the Syndicate in respect of the matters referred to in section 21, sub-section (*1*); and

(4) to provide that after the expiry of the period specified under section 23, sub-section (*3*), the Syndicate shall report to the Senate and to the Government of India, to what extent the rights conferred upon each college by affiliation should be withdrawn or restricted under section 20 of the Act.

4. *Minimum age for Matriculation.*—The regulations should provide that all candidates for matriculation, whether sent up by recognised schools or not, shall have attained the age of 16 at the time of the examination.

5. *Recognition of Schools.*—No school should be recognised by the University for the purpose of sending up pupils as candidates for the matriculation examination unless the Syndicate is satisfied, upon the report of the Director of Public Instruction, or of a Government Inspector of Schools or of some other competent person nominated in this behalf by the Syndicate that the school conforms with regulations to be made by the Senate for the purpose under section 25 (*2*) (*o*) of the Act. The conditions prescribed by such regulations should comprise the following:

(i) that a secondary school is actually wanted;

(ii) that its financial stability is reasonably assured and its managing body is properly constituted;

(iii) that it teaches the proper subjects up to a proper standard, and that due provision is made for the instruction, health and recreation of the pupils;

(iv) that due provision is made by the managing body to maintain discipline and good conduct both within and without the school premises;

(v) that the teachers are suitable as regards character, number and qualifications; and

(vi) that the fees to be paid will not involve such competition with any existing school as will be unfair and injurious to the interests of education.

6. *Private candidates for Matriculation.*—The regulations should provide that candidates for matriculation [section 25 (*2*) (*o*)] shall either be sent up by a recognised school, or shall be *bonâ fide* private candidates. That is to say, they must be so framed as to exclude candidates who have studied at an unrecognised school. This can probably best be effected by laying down that no candidate who has been at any school within a year of the examination should be permitted to appear as a private candidate. The Government of India would further recommend (without insisting) that *bonâ fide* private candidates should be required to have studied under conditions approved by the Syndicate.

7. *Private candidates at examinations other than the Matriculation.*—The Act (section 19) empowers the University to make regulations affecting the admission to examinations, other than that for matriculation, of candidates who are not certified by an affiliated college to have completed the prescribed course of instruction. Here again the object is to exclude those who have studied at an unaffiliated college. For this purpose the Government of India think that it will be sufficient to lay down that no candidate who has been at any college within a year of the examination should be permitted to appear at the examination as a private candidate except in very special cases.

8. *Appointment of University Professors and Lecturers.*—The regulations to be approved under section 25 (*2*) (*e*) should provide for the Government

exercising full control over the appointment of University professors and lecturers. It is unlikely that any such appointments will be made at present; but the subject is one of such far-reaching importance that the Government is compelled to reserve to itself the right of final decision on any question that may arise in the future either as to the subjects to be taught or the persons who are to teach them.

9. *Courses of study.*—Having already called attention in paragraph 25 of the Home Department letter of 24th October 1902 to the recommendations of the Universities Commission, and commented on their proposals with regard to courses of study, the Government of India do not think it advisable to require uniformity, but they have no doubt that the Committee in framing the regulations will carefully consider the suggestions placed before them.

As regards nomenclature, the Government of India would suggest the substitution of the term "Matriculation examination" for the term "Entrance examination," since the former expression is used in the Indian Universities Act.

10. *Recognition of the examinations of other Universities.*—The Government of India have already intimated to the Universities of Madras, the Punjab and Allahabad that the transfer of certain areas from the jurisdiction of the University of Calcutta to the jurisdiction of these Universities renders it necessary that in the case of students who have already commenced a course under the Calcutta University the passing of the Calcutta examination shall, for a certain period, be accepted by the other Universities as equivalent to the corresponding examination of their own system for the purpose of enabling the candidate to proceed further. Thus much it was necessary to insist on in the interests of the students concerned, but the Government of India have also commended to the notice of all Universities the proposal of the Universities Commission (paragraph 174) that each University should recognise the examinations of the others antecedent to the examination for the degree of M. A. and the corresponding degrees in other faculties. They trust that the Committee will give due consideration to this point.

11. *Affiliation.*—The Act itself [section 21 (*1*)] sets forth the conditions to which a college applying for affiliation must conform. One of these is that provision shall be made in accordance with the regulations for the residence in the college, or in lodgings approved by the college, of students not residing with their parents or guardians. In view of the difficulty which is likely to be experienced in practice in carrying out this provision without the assistance of some central authority, the Government of India suggest for the consideration of the Committee that it may be advisable to provide by regulation for the formation of a University Board or Committee to supervise the working of this provision and to inspect the lodgings approved by the colleges from time to time. The Government of India also deem it essential that the Regulations should be adequate for the purpose of enforcing in practice the provisions relating to residence as embodied in section 21, sub-section (*1*), clauses (*c*) and (*f*).

12. The Government of India are impressed by the advantages which they will derive from the labours of the Committee, and they anticipate that the co-operation of a body which represents so completely the best opinions current in the Senate cannot fail to result in the production of a body of regulations which will command the acceptance of all who take a genuine interest in the advancement and diffusion of higher education within the territories subject to the jurisdiction of the Calcutta University.

I have the honour to be,

SIR,

Your most obedient servant,

H. H. RISLEY,

Secretary to the Government of India.

FROM

THE CALCUTTA UNIVERSITY REGULATIONS COMMITTEE,

To

THE SECRETARY TO THE GOVERNMENT OF INDIA,
HOME DEPARTMENT.

Simla, the 9th July 1906.

SIR,

We the undersigned Members of the Committee appointed by the Government of India, by their Resolution no. 200, Home Department, Education, dated Simla, the 10th April 1906, to assist the Government in framing a revised body of Regulations providing for all matters relating to the University of Calcutta, have the honour to report that we have prepared a complete body of draft Regulations which we submit herewith and recommend for the sanction of the Government of India.

We have made the draft Regulations prepared by the Senate of the University the basis of our deliberations. We have made additions to them on matters which were not provided for, and we have introduced alterations wherever they appeared to be necessary. Such additions and alterations have been both numerous and material. We have given earnest and respectful attention to the opinions of the Government of India which you have been good enough to communicate to us, and we have embodied them in our Regulations. We have duly considered the representation, submitted to His Excellency the Chancellor by twenty-three Fellows of the University recording their dissent from the decision of the Senate in regard to the pass marks in English in the Matriculation Examination. Before receiving it we had already modified the Regulations very much in the manner suggested by the Signatories of the representation.

Apart from the materials supplied to us by the Government we have felt it necessary to obtain expert opinion on some topics, to consult the Regulations of other Indian Universities and of several foreign Universities, and to pay due regard to the opinions of minorities in the Senate of our own University. We have kept in view the recommendations of the Indian Universities Commission. The Indian Universities Act being a recent measure, its provisions, especially such as are in the nature of innovations, are liable to be ignored, and therefore in framing the Regulations on matters directly provided for by the Act we have quoted the very language of the sections or clauses or given the references on the margin.

The Regulations cover large ground and are spread over a multiplicity of topics In regard to details we shall leave them to speak for themselves. We would only observe generally that we have sought to frame the Regulations in the way that we consider best fitted to realise the purposes of the Indian Universities Act, namely, improved methods and higher standard of instruction and examination, increased efficiency of colleges, a control of the University over Colleges, and of both the University and the Colleges over the conditions of student life. The University has always had some relation to schools which teach up to the Matriculation standard. But no systematic regulations have hitherto existed laying down the principles on which schools might obtain recognition or the conditions under which they might lose it. We have sought to supply the want. The need for control is specially great in regard to collegiate schools and unaided schools. That colleges are liable to be fed out of the resources of attached schools, is one evil which was brought out by the Reports of the University Inspectors of Colleges, and it is one that requires

to be checked. Control by the University over recognised schools is at once legitimate and indispensable. The Regulations in this respect are substantially the same as those drafted by Sir Alexander Pedler and passed by the Senate.

The two subjects most warmly discussed by the Senate were the standard for the Matriculation and the length of the period of qualification for the degree of M.B. In regard to the first, we have framed Regulations which ought to satisfy all parties. In regard to the second, we have weighed the arguments adduced on both sides, and as a result have considerably modified the draft Regulations passed by the Senate.

We have, in the preparation of the Regulations, sought to place before ourselves a much higher ideal of academic methods and standards than that hitherto recognised, but we have not permitted ourselves to be swayed by mere abstract considerations. Within the limits laid down by the Act we have consistently aimed at practicability.

We find that though we did not shrink from a patient and elaborate consideration of all questions that had to be dealt with, we have been able to complete our work in the period which Government hoped might be sufficient. The Committee commenced their sittings on the 9th of May and have met 50 times.

We have the honour to be,

SIR,

Your most obedient servants,

ASUTOSH MUKHARJI.

G. W. KÜCHLER.

N. N. GHOSE.

BRAJENDRONATH SEAL.

A. B. WANN.

E. DENISON ROSS.

We desire cordially to acknowledge the services of Dr. Denison Ross who acted as Secretary to the Committee.

ASUTOSH MUKHARJI.

G. W. KÜCHLER.

N. N. GHOSE.

BRAJENDRONATH SEAL.

A. B. WANN.

THE REGULATIONS

OF THE

UNIVERSITY OF CALCUTTA.

CONTENTS.

THE REGULATIONS

OF THE

UNIVERSITY OF CALCUTTA.

CHAPTER I.

THE SENATE.

1. The Senate shall meet ordinarily once a year in the month of January, and may meet at other times if convened by the Vice-Chancellor, or, in his absence from Calcutta, or when the office of Vice-Chancellor is vacant, by the Senior Ordinary Fellow present in Calcutta.

2. The *ex-officio* Fellows of the University are always the Senior Fellows in order of official precedence. The seniority of all Ordinary Fellows is according to the date and order of their first appointment under the Indian Universities Act, 1904.

3. The Vice-Chancellor, or, in his absence, or when the office of Vice-Chancellor is vacant, the Senior Ordinary Fellow present in Calcutta shall convene a meeting of the Senate on the requisition of any six Fellows.

4. No question shall be brought under the consideration of the Senate which has not first been considered by the Syndicate.

5. Except in the case of urgent business, twelve clear days' notice shall be given of every meeting.

6. The Registrar shall, with the notice, issue an agenda paper showing the business to be brought before the meeting, the terms of all resolutions to be proposed of which notice in writing has previously reached him, and the names of the proposers. Notices in writing of additional resolutions and of proposed amendments and the terms thereof should reach the Registrar four clear days before the day of such meeting.

7. The Registrar shall also, two clear days before the day of meeting, forward to each member of the Senate an agenda paper showing all the motions and amendments and any additional business proposed by the Syndicate; and no motion and, unless expressly sanctioned by a majority of the members present, no amendment, of which such notice has not been given, shall be put to the meeting, other than a motion for any change in the order of business, a motion for dissolution, or adjournment, or for passing to the next business on the agenda paper, or for directing the Syndicate to review their decision, or an amendment which may be accepted by the Chairman as merely formal. The adjournment of a debate may, however, be moved for the purpose of giving notice of an amendment which has been disallowed.

8. Fifteen members of the Senate shall constitute a quorum, and all questions shall be decided by a majority of the votes of the members present.

9. The Chancellor, or, in his absence, the Rector, or, in the absence of both, the Vice-Chancellor shall preside at meetings of the Senate, or, if the Vice-Chancellor be not present, a Chairman for the occasion shall be elected by the Members present. If the votes, including that of the Chairman, are equally divided, the Chairman shall have a casting vote.

ORDER OF BUSINESS.

10. At the time appointed for the meeting, the Registrar shall take notice whether a quorum is present. If there is not, and if a quorum is not present within fifteen minutes, no meeting shall be held.

11. If at any time during the progress of business any member shall call attention to the fact that there is not a quorum present, the meeting shall forthwith be dissolved. Such dissolutions shall be recorded by the Registrar under the signature of the Chairman.

12. At every meeting the business shall be taken in the following order:

(i) The election, if necessary, of the Chairman.

(ii) University appointments.

(iii) Any motion for a change in the order of business.

(iv) Matters brought forward by the Syndicate.

(v) Other business.

RULES OF DEBATE.

(i)—Motions.

13. Every motion shall be affirmative in form, and shall begin with the word 'that'.

14. Every motion at a meeting must be seconded; otherwise it shall drop.

15. When a motion has been seconded, it shall be stated from the Chair unless it be ruled out of order.

16. When the motion has been thus stated, it may be discussed as a question

to be resolved either in the affirmative or in the negative, or as proposed to be varied by way of amendment. When no Fellow rises to speak to the motion, the Chairman shall proceed to put the question to the vote in the manner hereinafter mentioned.

17. Not more than one motion and one amendment thereto shall be placed before the meeting at the same time.

18. A motion once disposed of shall not be again brought forward at the same meeting, or at any adjournment thereof. A motion substantially identical in part with one already disposed of may be brought forward with the omission of such part.

(ii)—Amendments.

19. Any proposal before the meeting may be amended (*a*) by leaving out a word or words; (*b*) by leaving out a word or words in order to add or insert some other word or words; (*c*) by adding or inserting a word or words.

When the amendment is of the first kind, the form in which it will be proposed and handed to the Chair will be, "That the words (mentioning them) be left out of the question."

When the amendment is of the second kind, the form will be, "That the words (mentioning them) be left out of the question, in order to add (or insert) the words (mentioning them)."

When the amendment is of the third kind, the form will be, "That the words (mentioning them) be added (or inserted)."

20. No amendment shall be proposed which would in effect constitute a direct negative to the original motion, or which would alter the first word.

21. Every amendment must be relevant to the motion upon which it is moved.

22. No amendment shall be proposed which substantially raises a question already disposed of by the meeting, or which is inconsistent with any resolution already passed by it.

23. An amendment, the substance of which has been disposed of in part, may be modified by its proposer so as to retain only the part not so disposed of.

24. The order in which amendments of which previous notice has been given are to be brought forward shall be determined by the Chairman.

25. An amendment must be seconded in the same way as a motion; otherwise it shall drop. A seconder of an amendment may reserve his speech with the permission of the Chairman.

26. When an amendment has been moved and seconded it shall, unless ruled out of order, be stated from the Chair, and then the debate may proceed on the original motion and the amendment together.

27. When the Chairman has ascertained that no other Fellow entitled to address the meeting desires to speak, the mover of the original resolution may reply upon the whole debate. But the mover of an amendment, or of a motion for dissolution or adjournment, or of a motion to pass to the next business on the agenda paper has no right of reply.

28. No Fellow shall speak to the question after the mover has entered on his reply.

29. When the debate is concluded the Chairman shall, after summing up if he so desires, put the question to the vote thus:

If there is no amendment, the Chairman shall say, "The question is" and state the motion, and shall then take the votes of the meeting.

If there is an amendment, the Chairman shall say, "It has been moved" and shall state the motion; then he shall say "Since which it has been moved by way of amendment"

(*a*) "that the following word or words be omitted" (if the amendment is one of the first kind);

or (*b*) "that the following word or words be omitted, and that the following word or words be added, or inserted," indicating where such words are to be added or inserted (if the amendment is of the second kind);

or (*c*) "that the following word or words be added or inserted," mentioning where such word or words are proposed to be added or inserted (if the amendment is of the third kind).

The votes of the members present in the meeting shall then be taken on the amendment by a show of hands.

30. If an amendment is negatived, the original motion shall be again stated from the Chair, and, subject to the foregoing

Regulations, any other amendment which is in order may then be proposed thereto.

31. If an amendment is carried, the motion as amended shall be stated from the Chair, and may then be debated as a substantive question, to which the further amendments to the original motion which are in order and so far as they shall be applicable may be proposed, subject to the foregoing Regulations, and such further amendments shall be disposed of in the same manner as the original amendment.

(iii)—Adjournments.

32. A motion "That this meeting be now dissolved" or "that this meeting be now adjourned to (some specified date and hour)" may be moved at any time as a distinct question, but not as an amendment, nor so as to interrupt a speech. If a motion for dissolution is carried, the business before the meeting shall drop. If a motion for adjournment is carried, the meeting shall be adjourned, and the business shall be resumed at the adjourned meeting.

33. A motion "that the debate be now adjourned to (some specified date and hour)" may be moved in the like manner, and if it be carried shall have the effect of postponing the debate on the question under consideration till the date and hour specified, and the other items on the agenda paper shall be proceeded with. If the motion be negatived, the debate shall be resumed.

34. No amendment shall be moved to a motion under either of the two last preceding regulations, except one for substituting a different date and hour for that to which it is proposed to adjourn the meeting or debate, or a motion under Regulation 36.

35. A meeting or a debate renewed or continued after an adjournment is to be deemed one with that preceding the adjournment.

36. A motion "That the meeting pass to the next business on the agenda paper" may be made at any time, in like manner and subject to the same rules as one for adjournment. If such a motion be carried, the motion under consideration and the amendment thereon, if any, shall drop.

37. No motion for the dissolution or for the adjournment of the meeting, or for the adjournment of the debate, or to pass to the next business, shall, except by leave of the meeting, be moved or seconded by any Fellow who has spoken to the question then before the meeting, or who, during the discussion of such question, has already made one of the aforesaid motions. Any such motion shall take precedence of any question that may be before the meeting, and, if not withdrawn, must be disposed of before such question.

38. When a motion of the class contemplated in the last preceding Regulation has been brought forward and negatived, no other motion of that class shall be brought forward until after the lapse of what the Chairman shall deem a reasonable time; nor shall a debate be allowed on such second or subsequent motion except with the permission of the Chairman.

(iv)—Miscellaneous.

39. The Fellow who first rises to speak at the conclusion of a speech has the right to be heard. When two or more Fellows rise to speak at the same time, the Chairman shall decide who shall speak first.

40. Except as hereinafter provided, a Fellow who has spoken to a motion or amendment is not at liberty to speak again to such motion or amendment.

41. In so far as the question raised by an amendment is one on which he has not yet spoken, any Fellow may speak to that question, though he has spoken to the original question or a previous amendment.

42. No Fellow, except with the permission of the meeting, shall speak for more than fifteen minutes when proposing a motion or amendment, or for more than ten minutes when seconding or speaking to a motion or amendment, or when replying.

43. It shall be open to the Senate under special circumstances and by a special vote to reduce the time limits specified in Regulation 42.

44. The Chairman may at any stage in the proceedings, at his own discretion or at the request of a Fellow, explain the scope and effect of the motion or amendment which is before the meeting. He may also at the conclusion of a debate sum up the debate if he so desires.

45. Proposals relating to the conferring of Honorary Degrees, Votes of Thanks, Messages of Congratulation or Condolence, Addresses, and other matters of a like nature may be moved from the chair.

46. If the Chairman desires to take an active part in a debate he shall vacate the

chair until the vote on that debate shall have been taken. During such time the chair shall be taken by the senior Fellow present who has not already taken part in the debate and who waives his right to do so. The acting Chairman shall during the debate in question exercise all the ordinary rights of the Chairman.

47. Any Fellow may, with the permission of the Chairman, rise, even while another is speaking, to explain any expression used by himself which may have been misunderstood by the speaker, but he shall confine himself strictly to such explanation.

48. Any Fellow may call the Chairman's attention to a point of order even while another Fellow is addressing the meeting, but no speech shall be made on such point of order.

49. The Chairman shall be the sole judge on any point of order, and may call any Fellow to order, and may, if necessary, dissolve the meeting.

50. No motion or amendment shall be withdrawn from the decision of the meeting without its unanimous consent; but the consent shall be presumed if the mover states his wish to withdraw the motion, or amendment, and the Chairman, after an interval during which no dissent is expressed, announces that it is withdrawn.

51. Any motion or amendment standing in the name of a member who is absent from a meeting, or who declines to move it, may be brought forward by any other member.

(v)—*Voting.*

52. On putting any question to the vote, the Chairman shall call for an indication of the opinion of the Senate by a show of hands in the affirmative and negative, and shall declare the result thereof according to his opinion.

53. Any six Fellows may then demand a division, except on a motion of the kind contemplated in Regulations 32, 33 and 36.

54. The Chairman shall thereupon give such directions for effecting the division as he shall consider expedient. The names of the gentlemen who vote for or against the motion, or decline to vote, shall be recorded.

55. If no division is demanded, any Fellow shall have the right to dissent and to have the fact of his dissent recorded, provided such dissent be announced as soon as the Chairman shall have declared the result of the voting.

COMMITTEES.

56. The Senate may, when it thinks fit, appoint a committee consisting of any number of its members, or it may resolve itself into a committee for the consideration of business duly brought before it.

57. A motion for the appointment of a committee, or for the resolution of the meeting into a committee, may be made by any member at any time, and without the notice required by Regulation 5.

58. A motion for the appointment of a committee must define the purpose for which the committee is to serve and the number of members to compose it. Amendments for enlarging or restricting the operations of a committee or for enlarging or restricting the number, may be made without previous notice. If the motion is carried, the member moving shall name the persons whom he wishes to form the committee. Amendments may be made proposing other names. A ballot shall then be taken, if necessary, and the requisite number appointed from those who obtain the largest number of votes.

59. The quorum for a committee of the whole Senate shall be the same as that provided for the meetings of the Senate; the quorum for a committee appointed by the Senate shall be determined at the time of appointment and shall be not less than a majority of the members appointed.

60. The Chairman of a committee of the whole Senate shall be the same as for a meeting of the Senate; the Chairman of a committee appointed by the Senate shall be appointed by the Senate at the time of the appointment of the committee.

In committee the proceedings shall be governed by the Regulations framed for debate, which, however, may be relaxed at the discretion of the Chairman.

61. The resolutions passed by the Senate in committee shall be embodied in a report prepared by the Registrar and signed by the Chairman, but shall not become final until they have been confirmed by the Senate at a subsequent meeting.

62. The resolutions of a committee appointed by the Senate shall be embodied in a report prepared by the Registrar or by

a member of the committee, which report shall be laid before the committee for adoption or amendment. The report duly signed by the members of the committee, with notes of dissent, if any, shall be presented to the Senate at its next meeting, subject to the provisions of Regulation 5 respecting notice.

ELECTIONS.

63. In all cases of election, other than those specifically provided for, the candidates shall be proposed and seconded. If no more candidates are nominated than there are vacancies to be filled, the Chairman shall declare those candidates to be elected. If the number of candidates exceeds the number of vacancies, a vote shall be taken by ballot.

64. In the case of a single appointment, a ballot shall be taken, in which each Fellow shall only be entitled to give one vote, and the candidate or candidates receiving the smallest number of votes shall be withdrawn. Another ballot between the remaining candidates shall then be taken, and this procedure shall continue until the number of candidates is reduced to two. There shall then be a final ballot, and the candidate receiving the higher number of votes shall be considered to be duly elected. Provided that if at any stage of the ballot a candidate obtains an absolute majority of votes, the ballot shall cease.

If in any ballot, owing to an equality of votes, all the candidates but one would be eliminated by this procedure, a fresh ballot shall be taken, and if a similar equality again occurs the Chairman shall give a casting vote.

If in any ballot there is an equality of votes among all the candidates, a fresh ballot shall be taken. If the equality be not removed, the Chairman shall give a casting vote, and the candidate receiving this vote shall be regarded as duly elected; with this exception, it shall be a necessary and sufficient condition for election that a candidate obtain an absolute majority of votes: and should this occur at any stage, the ballot shall cease.

65. In all cases of contested election for two or more appointments, each Fellow shall be entitled to give as many votes as there are appointments to be filled, but shall not give more than one vote for one person. The candidates who obtain the largest number of votes shall be elected, except when by reason of equality of votes the number of such candidates is in excess of the number of appointments to be filled; in this case a fresh ballot shall be taken among those whose equality of votes has caused such excess. If the result of this ballot leaves the matter still undecided as to one or more of the appointments, the Chairman may decide who among the candidates found equal on the second ballot shall be appointed; or the Chairman may, at his discretion, give such directions for further ballot as the circumstances of the case may justify.

PROTESTS.

66. Any Member of the Senate intending to protest against a Resolution of the Senate shall give notice of his intention to the Registrar within a week from the date of the issue of the Minutes of the meeting at which the Resolution was passed, and, within one week thereafter lodge his protest with the Registrar. The Registrar shall thereupon forward the protest to the Chairman of the Meeting and request him to nominate three Fellows to form a committee to prepare a Memorandum in support of the Resolution, and the committee so nominated shall frame the Memorandum accordingly. The Registrar shall then cause the protest and Memorandum to be printed and circulated to each Member of the Senate; they shall also be laid on the table at the next meeting of the Senate, and recorded in the Minutes thereof.

If the protest relates to a matter the final decision of which rests with the Chancellor or with the Governor-General in Council, the Registrar shall further submit the protest and Memorandum, together with a copy of the Resolution, to the Chancellor or to the Governor-General in Council, as the case may be, for his consideration and orders.

If a protest has been lodged with the Registrar with reference to a Resolution which requires the confirmation of the Chancellor or of the Governor-General in Council, the Resolution shall not be sent up for confirmation except with the protest and the Memorandum.

RECONSIDERATION.

67. No matter which has been decided by the Senate shall, within a period of twelve months, be reconsidered, except—

At a special meeting of the Senate convened for the purpose upon the requisition of six Fellows.

And unless three-fourths of the members present at such meeting vote in favour of a reconsideration.

MINUTES.

68. Within two weeks after a meeting of the Senate, a draft of the Minutes of such meeting shall be submitted to the Chairman and attested by him The Minutes shall then be printed and circulated to all Members of the Senate, and such of them as were present shall, within a fortnight of the issue of the Minutes, communicate to the Registrar any exceptions they may take to the correctness thereof. The Minutes and the exceptions taken, if any, shall be laid before the next meeting of the Senate, and the Minutes in their final form shall then be confirmed. Once every twelve months, or at such other intervals as the Senate shall direct, the Syndicate shall cause the Minutes of the meetings of the Senate to be printed, and a copy thereof to be forwarded to each Fellow.

GENERAL.

69. In any case not provided for by these Regulations, the Chairman shall give a ruling as to procedure on the principles already laid down.

70. Representatives of the Press and visitors may be admitted to meetings of the Senate, provided they have obtained the permission of the Registrar.

CHAPTER II.

VACANCIES ON THE SENATE.

1. In the first week of December 1907, 1908, 1909, 1910, on such dates as may be determined by the Vice-Chancellor, or the Senior Ordinary Fellow, as the case may be, a ballot shall be taken at the Senate House, with a view to determine who among the three classes of Ordinary Fellows mentioned in section 12, clause (l) of the Indian Universities Act, should retire. The ballot shall be taken by the Registrar in the presence of the Vice-Chancellor or the Senior Ordinary Fellow, as the case may be Every Ordinary Fellow shall be duly informed of the date and hour, and may, if he so desires, be present at the ballot The Registrar shall forthwith intimate to the Chancellor the names of the retiring Fellows so determined.

The transaction of University business which is neither formal nor urgent shall, as far as practicable, be avoided, till the vacancies thus caused are filled up, or intimation is received that they will not be filled up.

2. A register shall be kept by the Registrar of the date of appointment of every Ordinary Fellow, and of the date when he will cease to be a Fellow, under section 4, clause (2), or section 12, clause (n) of the Indian Universities Act. Not less than six weeks before the date of every approaching vacancy in a Fellowship, the Registrar shall intimate the fact to the Chancellor.

3 A register shall be kept of the attendance of every Ordinary Fellow at meetings of the Senate; and whenever it is ascertained that an Ordinary Fellow has not attended any meeting of the Senate, other than a Convocation, during the period of one year, the Registrar shall intimate the fact to the Chancellor, with a view to enable him to take action, if he thinks fit, under section 11, sub-section 2 of the Indian Universities Act.

4 Except as otherwise provided, whenever the Registrar receives information that a vacancy has occurred on the Senate by reason of the retirement of a Fellow under section 3, Act II of 1857, or by death or resignation, or from any other cause, he shall forthwith intimate the fact to the Chancellor.

5. Whenever an Ordinary Fellow ceases to be such from any cause whatever, he shall vacate any University office or appointment held by him in his character as an Ordinary Fellow; and if he is re-elected or re-appointed a Fellow, he shall not again hold such office or appointment unless he is duly appointed thereto.

The same principle shall apply to added Members of Faculties.

CHAPTER III.

THE FACULTIES.

1. There shall be five Faculties, namely:

(1) Arts, (2) Science, (3) Law, (4) Medicine, and (5) Engineering.

A member of the Senate may belong to one or to two of the Faculties, but not to more than two, and need not necessarily belong to any.

2 Appointments to the Faculties shall be made by the Senate at the Annual Meeting. The Syndicate shall, in the first instance, draw up a list of Fellows whom they recommend for appointment to the various Faculties. They shall ordinarily recommend a Fellow for appointment to one Faculty only, but may recommend a Fellow for appointment to two Faculties: Provided that in the latter case Fellows so recommended shall at no time exceed twenty. This list shall be circulated among the members of the Senate

by the Registrar not less than twelve clear days before the meeting. Any member of the Senate may then propose additional names for any of the Faculties, which must be sent to the Registrar four clear days before the meeting These names, together with the original list, shall be circulated among the members of the Senate two clear days before the meeting and no additional names shall be received. The entire list shall be voted on, Faculty by Faculty, and every member shall be declared to be appointed who obtains votes from a majority of the members of the Senate voting for the Faculty under appointment. If any Fellow be appointed to more than two, he must, on receiving intimation, declare to which Faculties he accepts appointment.

3. Between the dates of the Annual Meetings of the Senate the Syndicate shall have power to distribute any newly appointed Fellows to their appropriate Faculties

4 Each Faculty shall elect its Dean annually from its own number as soon as its members have been appointed.

If any Faculty omits to elect a Dean within one month of the Annual Meeting of the Senate, or if, in the event of the office of Dean being vacated, it fails to elect a new Dean within one month of the occurrence of the vacancy, the Vice Chancellor may appoint a Dean. The Dean shall always be one of the Fellows belonging to the Faculty.

5. Each Faculty shall have the power to add to its own body a number of Graduates in that Faculty and other persons possessing special knowledge of the subjects of study represented by that Faculty, provided the number of members thus added shall not exceed half the number of Fellows appointed to that Faculty at the Annual Meeting of the Senate and shall in no case exceed ten. A person may belong to more than one Faculty as added member.

6. Such added members shall be elected annually at a special meeting of the Faculty called for the purpose, and the election shall take place in the following manner:

(*a*) The Dean shall as soon as possible after the Annual Meeting of the Senate convene a special meeting for the election of added members.

(*b*) Each Fellow on the Faculty will on receipt of the notice of the meeting be entitled to propose the name of one person for appointment as an added member of the Faculty. Such proposal must be accompanied by a brief written statement of the special qualifications of his nominee, and must reach the Registrar seven clear days before the meeting.

(*c*) The Registrar shall cause a list of the nominees and the statements concerning them to be printed and forwarded to the Fellows concerned, four clear days before the meeting.

(*d*) The voting shall be by ballot, and each Fellow on the Faculty shall be entitled to give one vote and one vote only for a candidate, but no Fellow shall have more votes than there are appointments to be filled. If the number of nominees does not exceed the limit prescribed by Regulation 5, any candidate receiving the votes of a majority of the Fellows on the Faculty shall be held to be duly elected If the number of nominees exceeds the above limit, those candidates shall be held to be duly elected who have obtained the highest number of votes for the number of appointments admissible, provided that, as before, each such candidate shall have secured the votes of a majority of the Fellows on the Faculty.

7. All members shall hold office till the next annual appointment of the Faculty by the Senate.

8. Added members shall have the right to take part in the ordinary business of the Faculty, and in any election of an Ordinary Fellow by the Faculty, but shall not be entitled to take part in the election of the Syndicate.

9. Every meeting of a Faculty shall be convened by the Dean, or in his absence, or when the office of Dean is vacant, by the Senior Ordinary Fellow belonging to the Faculty present in Calcutta.

10. The Dean, or in his absence, or when the office of Dean is vacant, the Senior Ordinary Fellow belonging to the Faculty present in Calcutta, shall convene a meeting of the Faculty on the requisition of any three members.

11. Three clear days' notice shall be given of ordinary meetings of the Faculties In the case of elections of members of the Syndicate, Fellows, added members, and Boards of Studies, fifteen clear days' notice shall be given.

12. The quorum for the Faculty of Arts shall be ten, and for any other Faculty three.

13. Two or more Faculties may be called upon by the Senate or the Syndicate to meet together for the disposal of any questions affecting more than one Faculty. In such cases the joint meeting shall elect its own Chairman.

14. The quorum of a joint Faculty meeting must include a full quorum of each Faculty represented, no member present being counted on more than one separate quorum.

15. It shall be the duty of a Faculty to consider and report on all matters referred to it by the Syndicate or the Senate, and a Faculty shall be at liberty to make recommendations to the Syndicate in all matters relating to the organization of University Examinations, Teaching, and Research in the studies or subjects with which it is concerned, and to propose Regulations relating to those matters for the consideration of the Syndicate.

16. All elections shall be conducted in the same manner as those in the Senate, except as otherwise provided.

17. Within two weeks after a meeting of a Faculty, a draft of the Minutes of such meeting shall be submitted to the Chairman and attested by him. The Minutes shall then be printed and circulated to all members of the Faculty, and such of them as were present shall, within a fortnight of the issue of the Minutes, communicate to the Registrar any exceptions they may take to the correctness thereof. The Minutes and the exceptions taken, if any, shall be laid before the next meeting of the Faculty, and the Minutes in their final form shall then be confirmed. Once every twelve months, or at such other intervals as the Senate shall direct, the Syndicate shall cause the Minutes of the meetings of each Faculty to be printed and a copy thereof to be forwarded to each member of the Faculty concerned.

18. The rules for Debate laid down in the Senate Regulations shall apply to the Faculties as far as is practicable, but the Chairman may relax their operation at his discretion.

19. The Dean shall ordinarily preside at meetings of a Faculty, and in the absence of the Dean the members present shall elect a Chairman.

CHAPTER IV.

THE SYNDICATE.

1. The executive government of the University is vested in the Syndicate, which shall consist of the Vice-Chancellor of the University as Chairman, and the Director of Public Instruction to the Government of Bengal for the time being as *ex-officio* member, and 15 of the *ex-officio* or Ordinary Fellows of the University, who shall be elected for a period of one year, partly by the Senate and partly by the Faculties, as follows:

Four by the Senate,
Four by the Faculty of Arts,
Two by the Faculty of Science,
Two by the Faculty of Law,
Two by the Faculty of Medicine,
One by the Faculty of Engineering.

The Syndics elected by any Faculty must be Fellows belonging to that Faculty.

2. The election by the Faculties shall take place at special meetings not less than three weeks before the Annual Meeting of the Senate. Notice of such meetings shall be issued by the Registrar not less than fifteen clear days before the appointed date. Each Fellow on the Faculty will, on receipt of the notice, be entitled to propose the name of one person for appointment as member of the Syndicate. Such proposal must reach the Registrar seven clear days before the meeting. The Registrar shall cause a list of the nominees to be printed and forwarded to the Fellows concerned four clear days before the meeting. In any contested election the voting shall be by ballot and the procedure shall be the same as that laid down in paragraphs 63-65 of the Senate Regulations. As soon as members have been elected by any Faculty their names shall be notified by the Registrar to all members of the Senate.

3. The election by the Senate shall take place at the Annual Meeting. Not less than seven days before the meeting the names of members who are proposed by any Fellows for election shall be submitted in writing to the Registrar, who shall circulate the names to the members of the Senate at least four clear days before the meeting.

4. Of the fifteen members of the Syndicate so elected at least seven shall be either Heads of or Professors in Colleges affiliated to the University, and of these Syndics at least two shall be elected by the Senate and at least five by the various Faculties;

Three by the Faculty of Arts,
One by the Faculty of Science,
One by the Faculty of Medicine.

In any meeting for election such Syndics to the stated minimum number shall be elected first.

Fellows qualified for election under this Regulation are not debarred from election to the remaining places on the Syndicate.

5. If in the case of any election of a Fellow to the Syndicate the question is raised whether any person so elected is or is not a Professor within section 15, sub-section (2) of the Indian Universities Act, the question shall be decided by the Senate.

6. The Syndicate shall meet ordinarily once a month, and at other times when convened by the Vice-Chancellor, or in his absence from Calcutta, or when the office of Vice-Chancellor should happen to be vacant, by the Senior Member of the Syndicate present in Calcutta. Whenever an emergency arises and there is not time to summon a meeting of the Syndicate, the Vice-Chancellor may take such immediate action as he deems necessary. The nature of the emergency and the action taken to meet it shall be reported by the Registrar at the next meeting of the Syndicate.

7. The Syndicate shall have power to appoint committees from among its own members, and to add to such committees any Ordinary Fellow of the University and any added member of a Faculty. The reports of such committees must be considered by the Syndicate as a whole, before being published or acted upon.

8. All members of the Syndicate must ordinarily be resident in or near Calcutta. If any member is temporarily absent from his residence, the Vice-Chancellor or the Dean of his Faculty, as the case may be, may appoint a member possessing the necessary qualifications to officiate during his absence. Should the period of absence exceed three months, the Vice-Chancellor may declare his place vacant.

9. On every vacancy in the Syndicate caused by death or resignation, or otherwise, the Senate or the Faculty, as the case may be, shall proceed to elect a new member for the remainder of the term for which the original member had been elected.

10. If the Senate or the Faculty omits to elect a member of the Syndicate within one month after a vacancy occurs, the Vice-Chancellor may appoint a person possessing the necessary qualifications.

11. Seven members of the Syndicate shall constitute a quorum, and all questions shall be decided by a majority of the votes of the members present. The Vice-Chancellor, or, in his absence, the Senior Fellow present shall preside at all meetings of the Syndicate, and if the votes, including that of the President, are equally divided, the President shall have a casting vote.

12. It shall be the duty of the Syndicate to consider and report upon matters to be submitted to the Senate; to appoint, and if necessary to remove, the Examiners and all other officers of the University in regard to whom this power is conferred by the Regulations; to make rules for the conduct of examinations in conformity with the Regulations and to fix the times at which they shall be held; to recommend to the Senate the grant of degrees, honours and rewards; to administer the funds and to keep the accounts of the University; to correspond on the business of the University with the Government and all other authorities and persons; and, generally, to conduct the affairs of the University in accordance with the Act of Incorporation and the Indian Universities Act, the Regulations, and the Resolutions of the Senate and the Syndicate.

13. The Syndicate may from time to time recommend to the Senate such Regulations as may seem desirable.

14. Each Faculty shall report on any subject that may be referred to it by the Syndicate. Any Faculty, or any member or number of members of the Senate, may make any recommendation to the Syndicate and may propose any Regulation for the consideration of the Syndicate.

15. The decision of the Syndicate on any such recommendation or proposition, or on any matter whatever, may be brought before the Senate by any member of the Senate at one of its meetings, and the Senate may approve, revise, or modify any such decision or may direct the Syndicate to review it: provided that no matter directly concerning any particular Faculty shall be disposed of by the Syndicate or the Senate without having been referred to that Faculty for opinion.

16. All questions as to affiliation or disaffiliation of Colleges or the continuation of affiliation granted to Colleges, or to the courses of instruction which such Colleges will be allowed to adopt for the purposes of University examinations, or to the inspection of and report on the condition of Colleges, shall be dealt with by the Syndicate in accordance with sections 20, 21, 22, 23, and 24 of the Indian Universities Act.

17. All questions as to the recognition of or the withdrawal of recognition from or the conditions required for the continuance of recognition of schools shall be dealt with by the Syndicate under the Regulations prepared under section 25 (2) (*o*) of the Indian Universities Act.

18. Whenever practicable, the Syndicate may, with the sanction of the Senate and from the funds of the University or any other funds placed at the disposal of the University for the purpose, institute scholarships for post-graduate study or studentships for research in literary or scientific subjects. The conditions governing their award and tenure shall be laid down from time to time by the Senate.

19. With a view to encourage research in vernacular literature and languages, and foster their growth, the Syndicate may, with the sanction of the Senate, provide grants, prizes or scholarships for—

(*a*) critical editions of early vernacular texts,

(*b*) historical investigations of the origins of vernacular literatures and their early development,

(*c*) philogical investigations of Indian vernaculars and their dialects.

20. The minutes of the Syndicate having been duly confirmed shall be printed and circulated at once to the members of the Senate.

CHAPTER V.

BOARDS OF STUDIES.

1. There shall be Boards of Studies in the following branches of knowledge:

1. English.
2. Greek, Latin, French, German and Armenian.
3. Sanskrit.
4. Sanskritic Languages.
5. Hebrew.
6. Arabic, Persian and Urdu.
7. History.
8. Economics and Political Philosophy.
9. Mental and Moral Philosophy.
10. Chemistry.
11. Experimental and Mathematical Physics.
12. Zoology.
13. Geology and Mineralogy.
14. Botany.
15. Physiology.
16. Experimental Psychology.
17. Mathematics.
18. Geography.
19. Teaching.
20. Law.
21. Medicine.
22. Engineering.

The Boards shall be respectively appointed by the Faculties as follows:

Boards 1—9 shall be appointed by the Faculty of Arts.

Boards 10—15 shall be appointed by the Faculty of Science.

Boards 16—19 shall be appointed by the Faculties of Arts and Science.

Board 20 shall be appointed by the Faculty of Law.

Board 21 shall be appointed by the Faculty of Medicine.

Board 22 shall be appointed by the Faculty of Engineering.

2. The members of a Board shall be teachers of or Examiners in, or other persons who have a special knowledge, of the subject or subjects with which the Board is concerned.

3. No Board shall consist of fewer than three or of more than twelve members.

4. The members of the respective Boards shall be appointed by the Faculty or Faculties as provided in Regulation 1, from among their own members (including added members), and shall severally hold office for one year from the date of appointment. They shall be eligible for reappointment. No member shall belong to more than five Boards.

5. The Boards of Studies shall be elected annually at a special meeting of the Faculty called for the purpose, and the election shall take place in the following manner:

(*a*) The Dean of each Faculty shall as soon as possible after the election of the added members convene a special meeting for the appointment of the Boards.

(*b*) Each Member of a Faculty will, on receipt of a notice of the meeting, be entitled to propose not more

than twelve members of the same Faculty for appointment to each of the Boards under that Faculty. The list of members proposed by him must reach the Registrar seven clear days before the meeting.

(c) The Registrar shall cause a list of the nominees to be printed and forwarded to the Fellows concerned, four clear days before the meeting.

(d) In any contested election the voting shall be by ballot, and the procedure laid down in the Senate Regulations 63 – 65 shall be followed.

6. Where two or more Faculties have to appoint a Board, they shall appoint the members thereof in the proportion assigned to them by the Syndicate previous to such appointment.

7. Each Board shall elect its own President. Every meeting of a Board shall be convened by its President or, in his absence, by the Senior Fellow belonging to that Board. Three members shall constitute a quorum. The President of a Board or, in his absence, the Senior Fellow belonging to the Board, shall convene a special meeting of the Board on the requisition of two or more members of the Board.

8. The duties of each Board shall be:

(i) to recommend to the Syndicate courses of study for the various examinations of the University in the subjects with which the Board is concerned;

(ii) to recommend to the Syndicate, for the guidance of teachers and students, books in which the prescribed subjects are suitably treated; and to recommend text books when such are required: provided that no book or text book shall be recommended by a Board unless on the written report of some competent person who has read it, which report shall be forwarded to the Syndicate;

(iii) to consider, at the request of the Syndicate, the reports of the Examiners in the subjects with which the Board is concerned, and to frame such recommendations regarding methods of teaching, study and examination as may seem necessary in the interests of education;

(iv) to furnish the Syndicate with the names of persons competent to act as Examiners in the subjects with which the Board is concerned; and

(v) to consider and report upon all such matters as may be referred to it by the Syndicate, the Faculties by which its members are appointed, or the Senate.

9. Two or more Boards may be called upon by the Syndicate or the Senate to meet together for the disposal of any questions affecting more than one Board. In such cases the joint meeting shall elect its own President. The quorum of a joint Board meeting must include a full quorum of each Board represented, no member present being counted on more than one separate quorum.

10. All meetings of the Boards shall be convened through the Registrar, who will keep a record of the proceedings of the meetings.

11. Meetings of Boards shall be presided over by the President of the Board; in the absence of the President, the members present shall elect a Chairman.

CHAPTER VI.

BOARD OF ACCOUNTS.

1. A Board of Accounts, consisting of three Fellows, not being members of the Syndicate, shall be appointed by the Senate at its Annual Meeting.

2. The Board shall meet ordinarily once in three months, and at other times when convened by the Vice-Chancellor. The three members shall constitute a quorum.

3. The Board shall prepare the University Budget, examine and audit the University accounts and the accounts of the Endowments and Trust Funds, consider ways and means and the financial effects of any important measures in contemplation, and make recommendations, when necessary, to the Syndicate on all matters relating to the finances of the University. It shall also make an annual report to the Senate on the special features of the finances of the last preceding year.

4. Members of the Board shall hold office until the next Annual Meeting of the Senate. They shall be eligible for re-appointment at the expiration of their term of office. All vacancies in the Board occurring in the course of the year shall be filled up by the Syndicate.

CHAPTER VII.

REGISTRAR.

1. The Registrar shall be appointed by the Senate and only at an Annual Meeting. He shall be appointed for five years only, but at the end of every such term he may be re-appointed. The term of office of the Registrar shall commence on the first day of April next following his election: Provided that the first appointment shall be made within six months after these Regulations come into effect. If a vacancy occurs in the office of Registrar between two Annual Meetings of the Senate, the Syndicate shall appoint a person to officiate until the first day of April following the next Annual Meeting.

2. The Registrar shall be a graduate of position with experience of University affairs. He shall be a whole-time officer. He may be a member of the Senate, but shall not be a member of the Syndicate. His salary shall be Rs. 800 per mensem, rising to Rs. 1,000 in five years by four annual increments of Rs. 50.

3. It shall be competent to the Syndicate to grant to the Registrar, on full pay, leave of absence for one month in a year, or for an accumulated period not exceeding four months in five years. It shall also be competent to the Syndicate to grant him, on half pay, leave of absence which may be added to the period of leave on full pay for a period not exceeding eight months in five years.

The Syndicate shall make arrangements for the discharge of his duties during his absence.

4. The duties of the Registrar shall be as follows:

(*a*) To be the custodian of the Records, Library, Common Seal, and such other property of the University as the Syndicate shall commit to his charge.

(*b*) To act as Secretary to the Syndicate and to attend all Meetings of the Senate, Faculties, Syndicate, Boards of Studies, Board of Accounts, Boards of Examiners, and any Committees appointed by the Senate, the Faculties, the Syndicate, or any of the Boards, and to keep Minutes thereof.

(*c*) To conduct the official correspondence of the Syndicate and the Senate.

(*d*) To issue all notices convening Meetings of the Senate, Faculties, Syndicate, Boards of Studies, Board of Accounts, Boards of Examiners, and any Committees appointed by the Senate, the Faculties, the Syndicate, or any of the Boards.

(*e*) To perform such other work as may be, from time to time, prescribed by the Syndicate, and generally to render such assistance as may be desired by the Vice-Chancellor in the performance of his official duties.

5. It shall be competent to the Syndicate to grant to the Registrar a gratuity or pension regulated as follows:

(*a*) After a service of less than ten years, a gratuity not exceeding one month's salary for each completed year of service.

(*b*) After a service of not less than ten years, up to 25 years, a pension not exceeding one-sixtieth of the average salary (*i.e.*, the average calculated upon the last three years of service) multiplied by the number of years of completed service. The pension shall in no case exceed Rs. 5,000 per annum.

6. In case of misconduct or neglect of duty, the Registrar shall be liable to suspension by the Syndicate, and to dismissal by the Senate on the report of the Syndicate.

7. There shall be a permanent Assistant Registrar, who shall be a graduate of the Calcutta University, and a permanent staff of subordinate assistants and servants. The Syndicate shall have power to appoint them, to dismiss them for misconduct or neglect of duty, to dispense with their services for any sufficient reason, and to determine their number and scale of pay. It shall be competent to the Syndicate to grant them gratuities or pensions regulated as in paragraph 5. It shall also be competent to the Syndicate to grant them, on full pay, leave of absence for one month for every eleven completed months of duty, the amount of such leave admissible at one time being limited to three months. It shall further be competent to the Syndicate to grant them, on half pay, leave of absence on medical certificate, for a period not exceeding three months at a time, nor exceeding six months in five years.

CHAPTER VIII.

INSPECTOR OF COLLEGES.

1. For the purpose of inspecting affiliated Colleges a salaried Inspector shall be

appointed. The appointment shall be made by the Senate and only at an Annual Meeting, and shall be subject to the approval of Government. He shall be appointed in the first instance for five years, but at the end of every such term he may be re-appointed. If a vacancy occurs in the office of Inspector, the Syndicate shall appoint a person to officiate until the next Annual Meeting of the Senate.

2. The Inspector of Colleges shall be a person of high academic standing and one possessing some experience of Indian Colleges. He shall be a whole-time officer of the University. His pay, leave and pension shall be on the same terms and conditions as those of the Registrar. He may be a Fellow of the University but must not be a member of the Syndicate. The duties of the Inspector of Colleges shall be:

(*a*) to report on Colleges applying for affiliation;

(*b*) to inspect affiliated Colleges; and

(*c*) to inspect such schools as may from time to time be indicated by the Syndicate.

CHAPTER IX.

UNIVERSITY PROFESSORS.

1. When the funds of the University permit, the Senate with the previous consent of the Governor-General in Council shall found such Professorships as it may think fit, prescribe the conditions on which they shall be tenable, and provide in connection therewith lecture rooms, libraries, museums, laboratories, workshops and other facilities for teaching and research.

2. The Senate shall likewise found and endow Professorships on particular subjects, from funds specially given or bequeathed for the endowment of such Professorships, or, if it thinks fit, accept endowments of such Professorships made by individual or corporate donors.

3. The Senate shall appoint and shall, subject to the conditions annexed to the tenure of any Professorship, have power to remove the Professors of the University. The Senate shall in the same manner appoint Assistant Professors, prescribe their duties and remuneration, and have power to dismiss them, if necessary.

4. Demonstrators and other Assistants shall from time to time be assigned to Professors and Assistant Professors, subject to such conditions with regard to manner of appointment, tenure of office, duties and remuneration as shall be prescribed by the Senate.

5. The Senate shall from time to time make rules fixing the fees, if any, to be paid by the students attending the classes of Professors and Assistant Professors, and the money thus collected in fees shall be the property of the University.

6. Professors and Assistant Professors shall lecture or otherwise teach in such places as shall be from time to time determined by the Senate.

7. The Senate shall make rules for the retirement of, as well as the grant of bonuses and pensions to, Professors, Assistant Professors, Demonstrators and other Assistants.

8. In appointing a Professor or Assistant Professor of the University the Senate shall specify the subject, that is to say, the branch or branches of knowledge for which he is appointed. He shall be authorised to lecture only in the subject or subjects indicated.

9. Endowed Professorships already accepted by the Senate shall, subject to the conditions of the endowment, be governed by these Regulations.

10. No University Professor shall be appointed without the sanction of the Governor-General in Council.

CHAPTER X.

UNIVERSITY READERS.

1. A certain sum, whenever practicable, shall be set apart annually from the University income or from any funds specially provided for the purpose by Government or other donors, for the purpose of providing special courses of lectures on particular subjects. These lectures shall be delivered generally during the cold weather months, and will be intended mainly for the benefit of graduates engaged in research work or of those who wish to prosecute special studies. The lecturers delivering such courses of lectures shall be called University Readers.

2. The appointment of a Reader in any subject shall be made by the Senate on the recommendation of the Syndicate.

3. Readers shall lecture in such places as may be from time to time determined by the Senate.

4. The fee for a course of lectures under Section 1 shall from time to time be fixed by the Syndicate, and the money thus

collected in fees shall be the property of the University.

5. A Reader appointed under Section 1 shall ordinarily receive an honorarium of Rs. 2,000 for a course of lectures, but in special cases this fee may be increased.

6. The Senate on the recommendation of the Syndicate shall from time to time allot funds to meet the remuneration of Demonstrators and Assistants as well as any general expenditure which may be incurred in connection with these lectures.

7. Courses of lectures delivered under Regulation 1 shall be printed and published at the expense of the University.

8. No University Reader shall be appointed without the sanction of the Governor-General in Council.

CHAPTER XI.

UNIVERSITY LECTURERS.

1. The University shall provide for post-graduate teaching, study, and research in the Faculties of Arts and Science.

2. The Heads of Colleges affiliated to the University shall from time to time submit to the Registrar the names of Professors in their respective Colleges who are prepared to deliver lectures on and conduct classes for research or advanced work for post-graduate courses of study in Arts or Science.

Any five members of the Faculty of Arts or of the Faculty of Science shall conjointly have power to submit to the Registrar the name of a candidate not connected with any affiliated college for this purpose.

3. The Syndicate shall consider the names so submitted and shall recommend to the Senate Lecturers for the various post-graduate courses of Study. In recommending Lecturers for the various courses, the Syndicate shall have regard to (*a*) the qualifications of the applicant, (*b*) the desirability of avoiding an unnecessary multiplication of lecturers on the same subject, and (*c*) in the case of Science subjects, the equipment for advanced practical work which can be provided.

In special cases the Syndicate may directly propose the appointment of any competent person as a University Lecturer, and may also recommend that such Lecturer be suitably remunerated from University Funds.

4. The Senate shall have power, upon the recommendation of the Syndicate as aforesaid, to appoint Lecturers, who shall be called University Lecturers.

5. University Lecturers shall in the first instance be appointed for two years, but they shall be eligible for re-appointment.

6. Where an Institution is completely affiliated in any subject for the M.A. or M.Sc. courses, the College Professors lecturing on that subject shall enjoy the title and status of University Lecturers.

7. University Lectures and classes for advanced work or research shall be open to all Graduates of Indian Universities who have taken Honours in that particular subject, and to other persons with the permission of the Lecturer.

8. Such lectures shall be delivered and classes held in the College to which the Lecturer belongs, or in such other place as the Syndicate in consultation with the Lecturer may determine.

The fee for a course of University lectures shall be determined by the Syndicate, and the money thus collected in fees for any particular course shall, where the Lecturer is a Professor of a College, be the property of the College to which the Lecturer belongs and shall be paid to the Lecturer himself in any other case. If however a College is completely affiliated in any subject, the fees for the course shall be determined by that College.

9. Every University Lecturer must deliver at least 30 lectures in the course of the academical year.

10. If a Lectureship becomes vacant before the expiry of the term of appointment, the Syndicate may, on the application of the College in which the Lectureship is held, appoint a temporary Lecturer for the remainder of the original term.

11. If a Lecturer, after delivering his lectures, is desirous of publishing them or their substance, he shall submit his lectures or their substance to the Syndicate, and the Syndicate, if satisfied that the lectures or their substance should be published, shall have power to help him in the publication thereof out of the funds of the University.

12. No University Lecturer shall be appointed without the sanction of the Governer-General in Council.

CHAPTER XII.

ELECTION OF FELLOWS BY FACULTIES.

The following procedure shall be adopted in the election of Ordinary Fellows by Faculties under section 9 of the Indian Universities Act:

1. Once in every year, on such date as the Chancellor may appoint in this behalf, there shall, if necessary, be an election to fill any vacancy among the Ordinary Fellows elected by the Faculties. Such election shall take place at special meetings of the Faculties convened for the purpose.

2. An election under Regulation 1 shall be held, subject to such directions prescribing the qualifications of the persons to be elected as may, from time to time, be given by the Chancellor, with a view to secure the return of duly qualified persons and the fair representation of different branches of study in the Senate.

3. Elections of Ordinary Fellows by the Faculties shall be made in such manner as to secure that not less than two-fifths of the whole number of Fellows elected by the Faculties shall be persons following the profession of education.

4. Names of candidates fulfilling the conditions prescribed under Regulation 2 must be proposed in writing by a Member of the Faculty which is to make the election. The nomination shall be in a form to be prescribed from time to time by the Syndicate, and shall reach the Registrar seven clear days before the date fixed for the election.

Each nomination must be accompanied by a brief written statement of the special qualifications of the nominee.

The Registrar shall cause a list of the nominees and the statements concerning them to be printed and forwarded to the Fellows concerned four clear days before the meeting.

5. The elections shall be held in accordance with Regulations 63, 64 and 65 of the Senate Regulations.

6. The election of any Fellow by a Faculty shall be subject to the approval of the Chancellor

7. If upon the election of an Ordinary Fellow by a Faculty objection is taken that the election has not been held in accordance with the Regulations framed for the purpose or the directions given by the Chancellor, written notice of such objection shall be given to the Registrar within three days after the election; such notice shal specify the ground upon which the validit of the election is questioned. The Regis trar shall place the notice before the Vice Chancellor or the Senior Ordinary Fellov of the Senate, as the case may be, wh shall thereupon convene a meeting of th Senate for the consideration of the matte on as early a date as practicable. Th Senate, if satisfied that the election ha not been held in substantial complianc with the Regulations or the directions give by the Chancellor under section 9, sub-sec tion (2), may direct the Faculty to hold new election or may give such other direc tions as may be necessary in the circum stances.

If notice of objection is given to th Registrar as provided by this Regulation the name of the Fellow elected by th Faculty shall not be submitted to th Chancellor for approval under section 6 sub-section (3) of the Indian Universitie Act till the matter has been considered b the Senate.

CHAPTER XIII.

ELECTION OF FELLOWS BY GRA DUATES.

The following procedure shall be adopt ed in the Election of Ordinary Fellow by Registered Graduates under section of the Indian Universities Act:

1. Once in every year, on such date a the Chancellor may appoint in this behal there shall, if necessary, be an election t fill any vacancy among the Ordinar Fellows to be elected by Registered Gra duates.

2. No person, unless his name ha been entered in the register of Graduate and unless he has paid the fee for th year in which the election takes place, sha be qualified to vote or to be elected at an election held under Regulation 1.

3. Intimation of the date fixed fo election shall be sent to Registered Gradu ates at least thirty-five clear days i advance, and each Registered Graduat will, on receipt of the notice, be entitled t propose the name of one person for ap pointment as a Fellow. Such proposa must be accompanied by a brief writte statement of the special qualifications o his nominee, and must reach the Registra twenty-one clear days before the dat fixed for election. The Regist[illegible] shal cause a list of the nominees and of th statements to be printed and forwarded t the Registered Graduates, seventeen clea days before the date fixed for election.

4. Each voter shall have only one vote for each vacancy which is to be filled up and can give only one vote to any one candidate.

5. The votes shall be recorded and attested in such manner as the Syndicate may from to time determine. The votes shall be recorded before the Registrar or reach him by such time on the day of election as the Syndicate may prescribe.

6. Those who obtain the highest number of votes will be declared elected. In the event of there being any tie between two or more candidates necessitating further selection, their names shall be reported to the Chancellor with whom the final selection shall rest.

7. The election of any Ordinary Fellow by the Registered Graduates shall be subject to the approval of the Chancellor.

8. If upon the election of an Ordinary Fellow by Registered Graduates, objection is taken that the election has not been held in accordance with the Regulations framed for the purpose, written notice of such objection shall be given to the Registrar within three days after the election. Such notice shall specify the ground upon which the validity of the election is questioned. The Registrar shall place the notice before the Vice-Chancellor, or the Senior Member of the Syndicate, as the case may be, who shall thereupon convene a meeting of the Syndicate for the consideration of the matter on as early a date as practicable The Syndicate, if satisfied that the election has not been held in substantial compliance with the Regulations, may direct the Graduates to hold a new election, or may give such other direction as may be necessary in the circumstances.

If notice of objection is given to the Registrar as provided by this Regulation, the name of the Fellow elected by the Graduates shall not be submitted to the Chancellor for approval under section 6 sub-section (3) of the Indian Universities Act till the matter has been considered by the Syndicate.

CHAPTER XIV.

REGISTER OF GRADUATES.

1. The Register of Graduates to be kept under section 7 (2) of the Indian Universities Act shall be in such form as the Syndicate may from time to time prescribe.

2. The initial fee payable by a Graduate for having his name entered on the Register shall be Rs. 10.

3. The fee payable by a Graduate for having his name retained on the Register shall be Rs. 10 a year. The annual fee shall cover the period from the 1st of April in the year in which it is paid till the 31st of March in the year following. Till such fee has been paid no Graduate shall be entitled to take part in any election or to enjoy any of the privileges conferred by these Regulations.

4. When a Graduate applies to have his name entered on the Register after the expiry of the limited time prescribed under section 7, sub-section (2) of the Indian Universities Act he shall be liable to pay in addition to the initial fee, a further sum of Rs. 10.

5. A Graduate whose name has been already entered on the Register may at any time compound for all subsequent payments of the annual fee by paying the sum of Rs. 150.

6. The name of any Graduate entered on the Register shall, if the amount of the annual fee is not paid by the 30th of June, be removed therefrom, but shall at any time be re-entered on payment of all arrears.

7. The day of the Convocation on which a person is entitled to be admitted to his degree, shall be deemed the day on which he has graduated or taken his degree.

8. Registered Graduates shall have, besides the right of electing ordinary Fellows, the following privileges :

(a) They shall be entitled to the use of the University Library on such special terms as may from time to time be prescribed by the Syndicate.

(b) They shall be supplied with a copy of the University Calendar or such portions of it as the Syndicate may from time to time decide.

(c) They shall be admitted free to all lectures delivered by University Professors and Readers.

(d) They shall have priority of admission to the Convocation over unregistered Graduates.

CHAPTER XV.

REGISTER OF UNIVERSITY STUDENTS.

1. The Registrar shall maintain a register of all students of the University, including graduates reading for a higher examination.

In this Register shall be entered the names of such persons only as have passed either the Entrance or the Matriculation Examination subject to the exception mentioned in Regulation 9 of this Chapter. There shall be recorded under the name of each registered student, the dates of admission to, and of leaving, any affiliated College, every pass or failure in a University examination with his roll number, every University scholarship, medal or prize won by the student, and every degree taken.

2. No person shall be deemed a "University student" unless and until his name has been duly entered in the Register, and none but "University students" shall be eligible for admission to any University Examination other than the Entrance or Matriculation.

3. The Principal of every affiliated College shall forward to the Registrar the name of every student of the College within fourteen days of his admission. The Principal shall at the same time, if necessary, forward the registration fee required by section 6.

When a student's name has been removed from the books of a College for any reason other than his having been sent up to a University Examination, the fact of its removal shall be immediately reported to the Registrar.

4. In the case of a student seeking matriculation the Principal of the College to which he has been admitted shall inform the Registrar of the date on which such student passed the Matriculation Examination and quote his roll number.

In the case of a registered student joining a College, the Principal shall quote such student's registered number.

5. On registration as a matriculated student every student shall be informed through his Principal of the registered number under which his name has been entered in the register, and that number shall be quoted in all subsequent reports concerning that student, and in all applications by that student to be admitted to a University Examination.

6. On matriculation every student shall be required to pay to the University a registration fee of two rupees, when his name is sent in by the Principal.

No further fee for registration shall be charged, unless a student's name is, on non-payment of fees, absence without notice or expulsion, struck off the books of a College, in which case he shall pay one rupee to have his name re-entered in the University Register.

7. All applications for admission to University Examinations shall be liable to be scrutinised by comparison with the University Register, and the Registrar may refuse any application of any candidate about whom complete particulars have not been reported, until he has forwarded through his Principal a complete statement of the particulars which have not been properly reported.

8. Any registered student may at any time receive a certified copy of all entries under his name on payment of three rupees.

9. Any person who applies for special permission to appear in an examination under the Regulations relating to non-Collegiate students if he has been at any time matriculated in the University, shall quote his registered number, or if he has not been so matriculated, shall register his name as a matriculated student, paying the usual registration fee before he appears in the examination to which he seeks admission.

CHAPTER XVI.

NON-COLLEGIATE STUDENTS.

1. No person who cannot produce a certificate from a College affiliated to the University, to the effect that he has completed the course of instruction prescribed by the Regulations, shall ordinarily be admitted as a candidate at any University Examination, other than an examination for Matriculation.

2. Exception may be made in certain cases on the recommendation of the Syndicate, by special order of the Senate. In each case the recommendation must state special reasons why the privilege should be granted. A certificate shall be produced in such form as may be prescribed by the Syndicate.

3. Except in very special cases no person shall be admitted under the preceding Regulation who has been enrolled as a regular student of a College during the twelve months previous to the date of the Examination at which he applies for permission to appear.

4. Before a candidate is permitted to present himself in any science subject for which a practical course is necessary under the Regulations, he shall produce a certificate from the Principal of an affiliated College or some other authority approved by the Syndicate to the effect that he has taken such a course in his laboratory.

5. Employment as a teacher shall not be regarded as a ground of recommendation unless the applicant has been employed for at least three years preceding the Examination in the exercise of his profession in (1) a College affiliated to the University, or (2) a School recognized by the University as competent to send up candidates for the Matriculation Examination, or (3) any other School approved for the present purpose by the Syndicate.

6. Laboratory Assistants and Demonstrators and Librarians of Affiliated Colleges shall be treated as teachers.

7. The Syndicate shall have power in any case to admit to any University Examination in any Faculty any person who shall present a certificate from any Institution authorised to grant certificates by the Governor-General of India in Council, or by a Local Government, or from such other Institutions as may be from time to time recognised for the purpose by the Syndicate, showing that he has attended courses of study, passed examinations, or taken degrees equivalent to those which are required in the case of students of the Calcutta University.

8. All non-Collegiate students before they are admitted to a University Examination shall satisfy the Syndicate by the production of a certificate as to (*a*) their good conduct and (*b*) their diligent and regular study.

CHAPTER XVII.

FEMALE CANDIDATES.

General.

1. Female candidates, if they so desire, shall be examined in a separate place under the superintendence of ladies.

2. No female candidate shall be admitted to any examination without presenting a certificate in such form as may be prescribed by the Syndicate.

3. All the Regulations for the examination of candidates shall apply to female candidates except in so far as they are modified in the following Regulations :

Matriculation Examination.

Female candidates shall be allowed to take up any language accepted by the Syndicate as a second language.

Intermediate Examination in Arts or Science.

(i) Female candidates may be admitted to this Examination without studying in an affiliated College and Regulations 4 and 8 of Chapter XVI shall apply to them. No candidate, however, shall be allowed to present herself for this Examination until two years have elapsed from the time of her passing the Matriculation Examination.

(ii) Female candidates shall be allowed to take up any language accepted by the Syndicate as a second language.

B.A. Examination.

Female candidates may be admitted to this Examination without studying in any affiliated College and Regulations 4 and 8 of Chapter XVI shall apply to them. But no candidate shall be allowed to present herself for this Examination until two years have elapsed from the time of her passing the Intermediate Examination in Arts.

CHAPTER XVIII.

AFFILIATION AND DISAFFILIATION OF COLLEGES.

1. Colleges or departments of Colleges may be affiliated in Arts, or a department of Arts, and similarly in Science, Law, Medicine and Engineering. The affiliation shall be given specifically for each separate subject and each separate standard in each of the Faculties.

2. The privilege of affiliation can only be conferred by the Government on the report of the Syndicate and the Senate. All applications for affiliation must be addressed through the Registrar to the Syndicate.

3. Only Colleges working within the territorial limits defined by the Governor-General in Council under section 27 of the Indian Universities Act, 1904, which are assigned to this University, will be affiliated.

4. In the case of a Government College, application must be made by the Director of Public Instruction of the province in which the Institution is situated.

In the case of any other Institution application must be made by the Governing Body and submitted through the chief controlling authority, if any.

5. Every application must be countersigned by two Members of the Senate.

6. A College applying for affiliation to the University shall send a letter of application to the Registrar, and shall satisfy the Syndicate—

(*a*) that the College is to be under the management of a regularly constituted Governing Body on which the teaching staff is represented;

(b) that the character and qualifications of the teaching staff and the conditions governing their appointment and tenure of office are such as to make due provision for the courses of Instruction to be undertaken by the College ;

(c) that the buildings in which the College is to be located are suitable, and that provision will be made, in conformity with the Regulations, for the residence, in the College or in lodgings approved by the College, of students not residing with their parents or guardians, and for the supervision and physical welfare of students ;

(d) that due provision has been or will be made for a library ;

(e) where affiliation is sought in any branch of experimental science, that arrangements have been or will be made, in conformity with the Regulations, for imparting instruction in that branch of science in a properly equipped laboratory or museum.

(f) that due provision will, so far as circumstances may permit, be made for the residence of the Head of the College and some members of the teaching staff in or near the College or the place provided for the residence of students ;

(g) that the financial resources of the College are such as to make due provision for its continued maintenance ;

(h) that the affiliation of the College, having regard to the provision made for students by other Colleges in the same neighbourhood, will not be injurious to the interests of education or discipline ; and

(i) that the College rules fixing the fees (if any) to be paid by the students have not been so framed as to involve such competition with any existing College in the same neighbourhood as would be injurious to the interests of education.

The application shall further contain an assurance that after the College is affiliated any transference of management and all changes in the teaching staff shall be forthwith reported to the Syndicate.

The application shall also contain an assurance that, except with the special permission of the Syndicate, no College professor or lecturer will be allowed to lecture to a class or section of a class which has on its rolls more than 150 students and if two classes are combined, the joint number on the rolls shall likewise not exceed 150.

If any application for special permission is made, the Syndicate in dealing with it shall have regard to—

(a) the nature of the subject ;

(b) the structure of the lecture-room and its accommodation ;

(c) the qualifications of the lecturer.

In the case of every application for affiliation of a College in any subject for the Examination of the degree of Master in the Faculty of Arts or of Science, a guarantee must be given that the course in which affiliation is sought will be adequately maintained for a period of at least four years.

7. On receipt of a letter of application the Syndicate shall—

(a) direct a local inquiry to be made by a competent person authorized by the Syndicate in this behalf ;

(b) satisfy themselves that there is in the College building adequate accommodation both as regards the number of class rooms, and the floor space and cubic space in each classroom ;

(c) make such further inquiry as may appear to them to be necessary; and

(d) report to the Senate on the question whether the application should be granted or refused, either in whole or in part, embodying in such report the result of any inquiry under clauses (a), (b) and (c).

And the Senate shall after such further inquiry (if any) as may appear to them to be necessary, record their opinion on the matter.

The Registrar shall submit the application and all proceedings of the Syndicate and Senate relating thereto to the Government, who, after such further inquiry as may appear to them to be necessary, shall grant or refuse the application or any part thereof.

When the application or any part thereof is granted, the order of Government shall specify the courses of instruction in respect of which the College is affiliated ; and when the application or any part thereof is refused, the grounds of such refusal shall be stated.

8. An application for affiliation may be withdrawn at any time before an order has been passed on the application by the Government.

9. Where a College desires to add to the courses of instruction in respect of

which it is affiliated, the procedure prescribed by Regulations 6 and 7 shall, so far as may be, be followed.

10. As a condition of the continuance of affiliation, each affiliated College will be inspected from time to time by one or more competent persons authorized by the Syndicate in that behalf.

11. The Syndicate may call upon any College so inspected to take, within a specified period, such action as may appear to them to be necessary in respect of any matters referred to in Regulation 6.

12. The Senate may, on the recommendation of the Syndicate, submit for the orders of the Government at any time, a proposal for the withdrawal of the privileges of affiliation from any College.

The procedure shall be as follows:

(*a*) A Member of the Syndicate who intends to move that the rights conferred on any College by affiliation be withdrawn, in whole or in part, shall give notice of his motion, and shall state in writing the grounds on which the motion is made.

(*b*) Before taking the said motion into consideration, the Syndicate shall send a copy of the notice and written statement mentioned in (*a*) to the Head of the College concerned, together with an intimation that any representation in writing submitted within a period specified in such intimation on behalf of the College will be considered by the Syndicate:

Provided that the period so specified may, if necessary, be extended, from time to time, by the Syndicate.

(*c*) On receipt of the representation or on expiration of the period referred to in (*b*), the Syndicate, after considering the notice of motion, statement and representation, and after such inspection by any competent person authorized by the Syndicate in this behalf, and such further inquiry as may appear to them to be necessary, shall make a report to the Senate.

(*d*) On receipt of the report under (*c*), the Senate shall, after such further inquiry (if any) as may appear to them to be necessary, record their opinion on the matter.

(*e*) The Registrar shall submit the proposal and all proceedings of the Syndicate and Senate relating thereto to the Government, who, after such further inquiry (if any) as may appear to them to be necessary, shall make such order as the circumstances may, in their opinion, require.

(*f*) Where by an order made under (*e*) the rights conferred by affiliation are withdrawn, in whole or in part, the grounds for such withdrawal shall be stated in the order.

13. If a College affiliated in any subject for the M.A. or M.Sc. standard fails to maintain adequately for a period of four years the course in that subject, proceedings shall be taken, under the preceding section, to withdraw from the College the privileges of affiliation in that subject.

14. Each affiliated College shall furnish such returns, reports, and other information as the Syndicate may require to enable them to judge of the efficiency of the College.

CHAPTER XIX.

CONDITIONS TO BE FULFILLED BY COLLEGES AFFILIATED UNDER ACT II OF 1857.

1. Every College affiliated to the University before the passing of the Indian Universities Act shall be entitled to exercise the rights conferred upon it by affiliation, till such rights are withdrawn or restricted in the exercise of any power conferred by that Act or by the Act of Incorporation.

For this purpose all Colleges affiliated up to the standard of the First Examination in Arts will be deemed qualified to impart instruction up to the standard of the Intermediate Examination in Arts, but not up to that of the Intermediate Examination in Science.

2. As soon as practicable, after the date on which these Regulations come into force, the Syndicate shall cause steps to be taken for the withdrawal of the rights conferred by affiliation from all Colleges situated beyond the territorial limits of the University as defined by the Governor General in Council under section 27 of the Indian Universities Act.

For this purpose, the Syndicate shall ascertain whether any such College is preparing students for any examination of this University; and the date on which the withdrawal of the rights conferred by affiliation will take effect as regards any particular College shall be so regulated as not to prejudice the right of any student to appear at the examination for which he is actually reading in that College.

3. As soon as practicable after the date on which these Regulations come into force, the Registrar shall forward a copy thereof to the authorities of each affiliated College situated within the territorial limits of the University as defined by the Governor General in Council under section 27 of the Indian Universities Act, and invite them to furnish within three months (or such further time as may be prescribed in any case by the Syndicate) information upon the following points:

(a) Whether the College is under the management of a regularly constituted governing body; if so, the names of its members, and its constitution.

(b) The names and qualifications of the teaching staff together with copies of their testimonials, and the conditions governing their appointment and tenure of office.

(c) The size and situation of the College buildings, including the floor space and cubic space in each class-room.

(d) Provision, if any, made for the residence of such of the students as do not reside with their parents or guardians.

(e) Provision made for the residence of the Head of the College and of any member of the teaching staff, in or near the College or the place provided for the residence of the students.

(f) Provision made for the supervision and physical welfare of the students.

(g) Provision for a library, and the facilities given to students to make use of the library.

(h) The courses of study, the subjects taught, the routine of work, and the arrangements for exercises and for tutorial assistance.

(i) The courses of study which the College proposes to undertake in accordance with these Regulations, and the provision which will be made for such courses.

(j) Where the College proposes to undertake instruction in any branch of experimental Science, what arrangements will be made for imparting instruction in that branch of Science in a laboratory or museum, (i) by the delivery of lectures illustrated by experiments, and (ii) by enabling students to carry on practical work.

(k) The financial resources of the College.

(l) The College rules fixing the fees, if any.

4. If it appears in the case of any College that it has no regularly constituted governing body, or that it has a governing body upon which the teaching staff is not represented, the Syndicate shall call upon the chief controlling authority to place the College forthwith under the management of a regularly constituted governing body on which the teaching staff is represented.

5. The Syndicate shall obtain from each College an assurance—

(a) That any transference of management and all changes in the teaching staff will be forthwith reported to the Syndicate, and

(b) That from the beginning of the session following that in which these Regulations come into force, except with the special permission of the Syndicate, no Professor or Lecturer will be allowed to lecture to a class or section of a class which has on its rolls more than 150 students, and if two classes are combined the joint number on the rolls shall likewise not exceed 150.

6. The Syndicate shall cause each College referred to in Regulation 3 to be inspected in accordance with the Regulations framed in that behalf, and call upon the College inspected to take, within a specified period (which may be extended from time to time at the discretion of the Syndicate) such action as may appear to them to be necessary with a view to secure its efficiency.

7. At the end of two years from the time when these Regulations come into force, the Syndicate shall submit to the Senate a report upon the condition of each affiliated college with a recommendation as to the subjects and standard in which such College shall be deemed to be affiliated. The matter shall be dealt with in accordance with the provisions of Section 24 of the Indian Universities Act, and a report submitted to the Government, who may make such order as the circumstances of each case may require.

8. Each affiliated College shall furnish such returns, reports and other information as the Syndicate may require to enable them to judge of the efficiency of the College.

9. The preceding Regulations shall not apply to the School departments of affiliated Colleges.

CHAPTER XX.

INSPECTION OF AFFILIATED COLLEGES.

1. The inspection of Colleges shall be conducted jointly by the Inspector of Colleges and one or two other persons who shall from time to time be appointed by the Syndicate to assist in the inspection of a College or a group of Colleges.

In the case of inspection of Colleges affiliated in Arts or Science, the additional Inspector or Inspectors shall be so chosen that both branches of study are represented if necessary. In the case of Colleges affiliated in any branch of professional learning, the additional Inspector or Inspectors shall be specially qualified in that subject.

2. All Colleges shall be inspected once within eighteen months after the date when these Regulations come into operation. Thereafter, every College shall be inspected at least once a year.

3. The report of the Inspectors shall deal with the following among other matters:

(a) The constitution of the Governing Body and the names of its members.

(b) The suitability of the buildings and their neighbourhood, the accommodation for the students in attendance, the furniture, the lighting, the ventilation of the rooms, the drainage of the surrounding premises, and the efficiency of the sanitary arrangements.

(c) The names and qualifications of the teaching staff, the conditions governing their appointment and tenure of office, and the changes in the staff during the preceding year.

(d) The provision made for the residence of the Head of the College and of the members of the teaching staff in or near the College, or the place provided for the residence of students.

(e) The adequacy of the Library, scientific apparatus, and other teaching appliances.

(f) The courses of study, the subjects taught, the number of lectures delivered in each subject, the routine of work and the arrangements for exercises and for tutorial assistance, and the facilities given to students to make use of the Library.

(g) The adequacy of the teaching staff.

(h) The strictness with which the College registers are kept and the transfer rules observed.

(i) The average monthly roll-number and the daily attendance of students during the last twelve months, as compared with the previous year's.

(j) The results of University examinations.

(k) The state of discipline.

(l) The provision made for physical exercise.

(m) College clubs and other institutions for fostering Collegiate life.

(n) The extent and character of hostel accommodation, the degree of efficiency attained in the supervision of hostels and other lodgings for students; and the distance of such hostels and lodgings from the College premises.

4. The following books shall be kept by every College:

(a) An admission register, in such form as the Syndicate may from time to time prescribe.

(b) An attendance register.

(c) A student's conduct register showing fines exacted and other punishments.

(d) A register of the results of periodical examinations and class exercises.

(e) A register of Transfer Certificates issued and received.

(f) A cash-book.

(g) A book containing the proceedings of the Governing Body.

5. All the accounts, books, and other records of a College shall at all times be open to inspection and examination by any person or persons who may be deputed by the Syndicate for the purpose, provided that any information obtained from the inspection of the accounts shall be deemed confidential.

6. No inspection or examination under these Regulations shall have reference to religious instruction.

7. Every college shall furnish annually a return in such form as the Syndicate may from time to time prescribe.

CHAPTER XXI.

RECOGNITION OF SCHOOLS AND WITHDRAWAL THEREOF.

1. A school situated within the local limits assigned to the University of Calcutta by the Governor General in Council, under Section 27 of the Indian Universities Act 1904, which is desirous of being recognised as a school competent to present candidates for the Matriculation Examination, shall send a letter of application to the Registrar.

2. The school shall furnish a preliminary statement showing:

(*a*) That the school is under the management of a regularly constituted Committee on which the teaching Staff is represented, that proper provision is made for the continuance of the existence of such Committee, and that the rules are such that the Committee can exercise a necessary amount of control over the working of the school.

(*b*) That the qualifications, character and experience of the Head Master and the rest of the teaching staff are satisfactory, that due provision is made in respect of the number of teachers, and otherwise for carrying on all the courses of instruction in which the school desires to be recognised by the University as competent to present candidates for the Matriculation Examination, and that the conditions governing the tenure of the office of the Head Master and his staff are such as to render proper continuity of work possible.

(*c*) That the buildings in which the school is carried on are adapted for the purposes of a school, and are in proper sanitary condition, that the surroundings are suitable, and that the arrangements made in the buildings and in the furnishing of them are not likely to injure in any way the eyesight and general health of the pupils.

(*d*) That the accommodation is sufficient for the classes under instruction in the school.

(*e*) That the sanitary conveniences attached to the school are adequate and are kept in good order.

(*f*) That arrangements are made for the supply of good drinking-water to the pupils, and that facilities are provided to allow them to partake of refreshments.

(*g*) That due provision is made for the maintenance of a library and for lending out appropriate books (not school text-books) for the use of pupils.

(*h*) That when recognition is sought in any branch of work, such as experimental science (1) which involves lectures which should be experimentally illustrated or (2) which involves the students themselves doing practical experimental work, the apparatus and the facilities provided for the purpose are sufficient to carry out these objects properly and fully.

(*i*) That when any subject proposed to be taught requires for its proper understanding to be illustrated by special appliances, *e.g.*, the subject of Geography by maps and models, and the science subjects by a collection of objects or collections in the form of a museum, such provision has been made.

(*j*) That the school authorities have made provision to ensure discipline and good conduct among the pupils both within and without the school premises, and that there are suitable arrangements for their recreation.

(*k*) That when pupils are not resident with either parents or guardians, the school authorities will insist on such students living either in a hostel or a mess which is duly inspected and placed under the control of some person responsible to the Head Master of the school for the discipline and well-being of such pupils.

(*l*) That no teacher is allowed to teach:—

(*i*) in the Entrance class or Second class or any section thereof, more than 50 pupils at the same time;

(*ii*) in any of the classes from the Third to the Sixth, or any section thereof, more than 40 pupils at the same time;

(*iii*) in either the Seventh or the Eighth class, or any section thereof, more than 30 pupils at the same time.

3. The Syndicate shall also require full information as to the financial position of the school and must be satisfied that its financial stability is assured. Information obtained on this head shall not be published.

4. The Syndicate shall also require full information as to the reasons for the establishment of the school, and as to the number of schools of the same standard which exist in the neighbourhood of the proposed school, and it must be shown that the establishment and recognition of the school will not be injurious to the interests of education and discipline.

5. The Syndicate shall also require full information as to the fees, if any, which it is proposed to levy in the school.

6. The Syndicate shall require a school, as a condition of its recognition, to send in to the University once in each year, at such time as the Syndicate may prescribe, a short general report of the working of the school, together with a list of the staff of the school, and of any changes which may have taken place in the staff in the course of the preceding year.

The Syndicate shall also require that at the same time an abstract of the actual annual income and expenditure of the school shall be submitted, and shall insist that the remuneration of the teachers shall be on a reasonable scale and that the other expenditure shall be sufficient to maintain the school in efficiency.

The Syndicate shall also obtain an assurance that any transference of management and all changes in the teaching staff will be forthwith reported to the Syndicate.

7. On receipt of the letter of application for recognition, and of all such information as the Syndicate may consider to be necessary to establish a presumptive claim for the recognition of the school, the Syndicate shall call for a report on the points dealt with in Regulations 2-5 inclusive from a competent Inspector, and for this purpose the personal report of the Government Inspector of Schools of the Division in which the school is situated shall usually be considered to be sufficient.

This shall not, however, prevent the Syndicate from calling for special reports by any properly qualified person or persons on any or all of the foregoing points.

Should the person deputed be an Inspector of Schools, his report shall ordinarily be submitted through the Director of Public Instruction of the Province in which the school is situated with such remarks as the Director thinks it necessary to make.

8. On receipt of all the required information, the Syndicate shall decide whether the school shall be recognised or not, and, if recognised, the exact courses in which such school may submit candidates for the Matriculation Examination shall be stated in the letter of recognition. If a recognized school desires to add to the courses of instruction in respect of which it is recognized, the procedure described in Regulations 2—7 shall, so far as may be necessary, be followed.

9. One of the conditions of recognition, or of the continuance of recognition of a school already recognised, shall be that it shall submit to periodic inspection by a person or persons deputed by the Syndicate from time to time. It is desirable that such inspection take place at least once in each school year, and that copies of the inspection reports should be duly communicated to the University by the person or persons so deputed after each such inspection.

10. It shall be competent to the Syndicate at any time to withdraw the privilege of recognition granted under these Regulations or granted under any rules previously in existence, for any one of the following reasons :

(*a*) If a school on an average of three years fails to pass 33 per cent. of the candidates sent up for the Matriculation Examination.

(*b*) If the reports of inspections received show that the school is no longer worthy of recognition.

(*c*) If it is found that the conditions which were considered essential to the recognition of the school in the first instance and which obtained when the school was placed on the University list are no longer fulfilled

(*d*) For any other reason considered to be sufficient by the Syndicate, the reason to be specified and recorded.

No action shall be taken on (*b*), (*c*) or (*d*) of Regulation 10, without giving the School Committee an opportunity of stating its own case.

In reference to (*a*) the following procedure shall be adopted :

(i) In each year, immediately after the results of the Matriculation Examination have been published, the Registrar shall prepare a list of the schools which on the average of the three preceding examinations (including that just ended) have failed to pass 33 per cent. of the candidates sent up for examination.

(ii) Such schools shall be warned, before the end of July, that if they continue in future years to show unsatisfactory results, their names will be struck off the list of Recognised Schools.

(iii) In the year following such warning, if it is found, after the results of the Matriculation Examination have been declared, that any of the warned schools has again passed less than 33 per cent. of the candidates sent up, the privilege of sending up candidates to the Matriculation Examination shall be liable

to be withdrawn from it. In this case notice of withdrawal of the privilege shall be issued by the Registrar not later than the 15th of July in each year, and shall take effect after the Matriculation Examination next following.

(iv) If, on the results of the fourth year so considered, the percentage of passes in any such warned school amounts to 33 per cent., no action shall be taken.

CHAPTER XXII.

CONDITIONS TO BE FULFILLED BY SCHOOLS NOW RECOGNISED.

1. Every school recognized by the University, at the time when these Regulations come into force, shall be entitled to exercise the rights conferred by recognition, till the privileges of recognition are withdrawn in the manner provided in Regulation 10 of Chapter XXI.

For this purpose, every school recognized as qualified to present candidates for the Entrance Examination shall be deemed qualified to present candidates for the Matriculation Examination in all subjects other than Geography and Elementary Mechanics, but no such School shall, without the special permission of the Syndicate, send up candidates for examination in either of these subjects.

If an application for special permission to take up either of these subjects is made, the Syndicate, before granting it, shall satisfy themselves that the school is provided with the necessary appliances and can make proper arrangements for teaching that subject.

2. As soon as practicable after the date on which these Regulations come into force, the Syndicate shall withdraw the privileges of recognition from all recognized schools situated beyond the territorial limits of the University as defined by the Governor-General in Council under section 27 of the Indian Universities Act. Such withdrawal shall take effect from a specified date not later than the 30th of April 1907.

3. As soon as practicable after the date on which these Regulations come into force, the Registrar shall forward a copy thereof to the authorities of each recognized school situated within the territorial limits of the University as defined by the Governor-General in Council under Section 27 of the Indian Universities Act, and invite them to furnish within three months, (or such further time as may be prescribed in any case by the Syndicate), information upon the following points:

(*a*) Whether the school is under the management of a regularly-constituted Committee, on which the teaching staff is represented; whether proper provision is made for the continuance of the existence of such Committee, and whether the rules are such that the Committee can exercise a necessary amount of control over the working of the school.

(*b*) Whether the qualifications, character and experience of the Head Master and the rest of the teaching staff are satisfactory, whether due provision is made in respect of the number of teachers and otherwise, for carrying on all the courses of instruction in which the school is recognized, and whether the conditions governing the appointment and tenure of office of the Head Master and the rest of the staff are such as to render proper continuity of work possible.

(*c*) Whether the buildings in which the school is situated and in which the instruction is carried on are adapted for the purposes of a school, and are in proper sanitary condition; whether the surroundings are suitable and the arrangements made in the buildings and in the furnishing of them are likely to injure in any way the eyesight and general health of the pupils.

(*d*) Whether the accommodation is sufficient for the classes under instruction in the school.

(*e*) Whether the sanitary conveniences attached to the school are adequate and kept in good order.

(*f*) Whether arrangements are made for the supply of good drinking-water to the pupils, and facilities are provided to allow them to partake of refreshments.

(*g*) Whether provision is made for the maintenance of a library and for lending out appropriate books (not school text books) for the use of students.

(*h*) Whether the school intends to undertake instruction in Geography or Elementary Mechanics; if so, whether the appliances and facilities provided are adequate.

(i) Whether provision is made to ensure discipline and good conduct among the pupils, both within and without the school premises, and whether arrangements are made for their recreation.

(j) Whether in the case of pupils who do not reside with parents or guardians, provision is made for their residence in lodgings inspected by and under the control of some person responsible to the Head Master for the discipline and well being of such pupils.

(k) Whether the remuneration of the teachers is on a reasonable scale,

(l) The financial resources of the School, and actual annual income and expenditure for the last three years.

(m) The fees, if any, levied in the different classes of the School.

(n) The courses of study, the subjects taught, the routine of work, and the arrangements for exercises and for tutorial assistance.

4. If it appears in the case of any school that it has no regularly-constituted Committee, or that it has a Committee upon which the teaching staff is not represented, the Syndicate shall call upon the chief controlling authority to place the school forthwith under the management of a regularly-constituted Committee on which the teaching staff is represented.

5. The Syndicate shall obtain from each school an assurance,

(a) that any transference of management and all changes in the teaching staff will be forthwith reported to the Syndicate,

(b) that after the expiry of twelve months from the date on which a copy of these Regulations is forwarded to the chief controlling authority of the school, no teacher will be allowed to teach,

(i) in the Entrance class or Second class or any section thereof, more than 50 pupils at the same time;

(ii) in any of the classes from the Third to the Sixth, or any section thereof, more than 40 pupils at the same time;

(iii) in either the Seventh or the Eighth class, or any section thereof, more than 30 pupils at the same time.

(c) that as a condition of the continuance of recognition, the school will submit to regular and periodic inspection by a person or persons deputed by the Syndicate from time to time, and

(d) that a short general report of the working of the school together with an abstract of its actual annual income and expenditure will be submitted once a year at such time as the Syndicate may prescribe.

6. The Syndicate shall call upon each school referred to in Regulation 3 to take within a specified period (which may be extended from time to time at the discretion of the Syndicate) such action in respect of any of the matters mentioned in Regulations 3, 4 and 5, as may appear to them to be essential for its efficiency. Upon failure of the school to take the necessary action, after it has been given reasonable opportunity to do so, it shall be liable to have the privileges of recognition restricted or withdrawn, as the circumstances of the case may require. No order, however, shall be made by the Syndicate in this behalf, except upon a personal report on the condition of the school at the time, by a competent person deputed for the purpose, and after giving the School Committee an opportunity of stating its own case.

7. The preceding Regulations shall apply to the School Departments of Affiliated Colleges.

CHAPTER XXIII.

ADMISSION, TRANSFER AND WITHDRAWAL OF STUDENTS.

1. These Regulations shall apply only to Colleges affiliated in Arts, Science and Law.

2. At their Annual Meeting the Senate shall appoint a Committee of five Fellows, to be called the Transfer Committee, who shall deal with all questions referred to them in accordance wth the following Regulations.

Two members, of the Committee and two only shall be persons not connected with any affiliated College.

The proceedings of the Committee shall be submitted every month to the Syndicate for confirmation, and the Syndicate may approve, revise or modify the decision of the Committee on any matter, or direct the Committee to review it. Three Members shall form the quorum. In the event of a vacancy occurring between two Annual Meetings of the Senate it shall be at once filled up by the Syndicate.

Admissions.

3. Admission of students to Affiliated Colleges shall ordinarily be allowed only at the commencement of an academical year. If a student applies to a College for admission more than three weeks after the opening of that College in any academical year, his case, unless he brings a Transfer Certificate, shall be referred to the Transfer Committee for decision as to whether he may be permitted to join such College.

4. If a student who has passed the Matriculation, or the Intermediate in Arts or Science, or the B.A. or B.Sc. Examination, applies for admission to a College, without having previously joined any other College, he may be admitted upon production of his University certificate. A student whose name appears in the gazetted list of candidates who have passed one of the aforesaid University Examinations may be provisionally admitted without a certificate, on condition of his producing the certificate within a reasonable time.

5. If a student has been sent up to a University examination, and has either not appeared, or has failed at such examination, he may, on production of the Registrar's receipt, be admitted to any College. The fact of his admission, with the date, shall be written across the face of the receipt.

6. If a student has failed, he shall produce a certificate showing the subject or subjects in which he has failed, which certificate the Registrar shall be bound to furnish within two days after payment of a fee of four annas.

7. A student will be recognised as admitted to a College as soon as he has been accepted by the Principal, and has, where fees are required by the College, paid his admission and first month's fee.

8. When a student has been admitted to an affiliated College, he shall be considered to belong to that College until—

(*a*) the end of the academical year in which he has been sent up to a University Examination, or

(*b*) the date borne on his Transfer or Withdrawal Certificate, or

(*c*) he has given notice of withdrawal, or

(*d*) his name has been struck off the College books for absence without notice or for non-payment of College fees, or

(*e*) he has been expelled.

Transfers.

9. If a student has once been admitted to an Affiliated College under Regulation 4 or Regulation 5, he shall not, except as otherwise provided, be subsequently admitted to any other Affiliated College, without the production of a Transfer Certificate from the Principal of the College in which he has last been reading.

10. When a student has been admitted into a College, he shall not ordinarily be allowed to take a transfer to any other College except at the end of an academical year.

11. Application for a Transfer Certificate must be made by letter to the Principal of the College. It must be signed by the applicant and countersigned by the applicant's parent or guardian.

12. If application is made at the close of an academical year, the only ground on which it can be refused is, the failure to pay the sums due to the College, including tuition fees, and fines and transfer fee, if any. If it is so refused the ground of refusal shall be notified in writing to the applicant, who shall have the right of appeal to the Transfer Committee.

13. If a student applies for transfer, against whose name "gross misconduct" has been entered in the University Register of Students, this fact shall be noted in his Transfer Certificate.

14. If a student applies for transfer at any time other than at the end of an academical year on the ground of (1) transfer of his parent or guardian from the station at which the first College is situated, or (2) desirability of a change of climate and station on the ground of health, duly certified by proper medical evidence, or (3) any other good and sufficient reason, the Principal may grant him a transfer. If the Principal is of opinion that the application for transfer ought not to be granted, he shall, if the student so desires, at once refer the case to the Transfer Committee, stating his grounds of objection.

15. Transfer Certificates under the previous Regulation shall only be issued once a month, except in cases of urgency. The ordinary date of issue shall be the last day of the month, or if this day falls within a vacation or on a holiday, the next preceding working day.

16. A student desiring a Transfer Certificate under Regulation 14 shall submit his application not less than ten days before the authorised date of issue. Not less than three days before the latter

date he shall be informed whether his application has been granted, and in that case he shall be furnished with a statement of all the sums due by him to the College. If these dues are paid by him on or before the authorised date of issue, he shall receive his Transfer Certificate on that date.

17. If owing to the intervention of holidays or some unforeseen contingency, it is found impossible, in accordance with the conditions laid down, to issue the certificate on the last day of the month or the next preceding working day, the certificate shall be issued as soon after as possible, the same notice as specified above being given to the applicant with regard to the sums due by him. The date borne on the Transfer Certificate shall be that of the last day of the month for which the transfer is desired, except in cases of urgency, where the date of the certificate shall be the date of issue.

18. If the student does not pay the sums due by him within the time specified above, he shall not be entitled to his Transfer Certificate until the last day of the month in which he pays his dues, or the corresponding day preceding a vacation or holiday.

19. If application is made for a Transfer Certificate after the commencement of a vacation exceeding fifteen days and extending beyond the last day of the month in which it commences, the certificate, if granted, shall bear the date of the last day of such vacation if this coincides with the last day of a month; otherwise, it shall bear the date of the last day of the preceding month. The student applying for transfer shall submit his application at least six days before and shall receive his certificate, if granted, not later than five days after the end of the vacation. He shall before the issue of the certificate receive at least three days' intimation of the sums due by him to the College from which he desires transfer, and if these dues are not paid within this time the issue of the certificate shall be deferred in accordance with Regulation 18.

20. All fees for the month corresponding to the date borne on the Transfer Certificate shall be paid to the College from which the transfer is taken, and fees shall likewise be paid to the same College for an additional month if the application for transfer is made before a vacation which commences not more than one month after, and which extends more than one month beyond the date on the certificate. The fact of the payment of such additional fees shall be duly entered on the certificate, and unless a student takes admission to another College within a month of the date of his Transfer Certificate he shall not be liable to pay these fees at the second College.

21. In all cases, a student shall remain on the books of the College from which he seeks a transfer until the date borne on the Transfer Certificate, and his attendance at lectures shall be reckoned up to and including that date.

22. The Transfer Certificate shall be in such form as the Syndicate may from time to time prescribe.

23. A student shall be liable to pay a transfer fee before obtaining his certificate. The transfer fee shall not (except under special orders of the Transfer Committee in the case of Colleges in which no fees are charged) exceed the ordinary monthly fee of the class.

24. If a student applies for transfer who has failed to submit the exercises required of him, or to give satisfaction at the periodical examinations, the fact shall be noted on the Transfer Certificate.

25. If a student applies for transfer who has been refused permission to appear at a University Examination, the fact of such refusal, with the reasons, shall be noted on the Transfer Certificate.

26. If a student applies for transfer who has not been permitted to continue his studies in the College owing to his non-appearance or failure at the College examinations, or who has not been allowed promotion, the fact shall be noted on the Transfer Certificate, and he shall not be admitted into a higher class in another College within twelve months.

Leaving Certificates.

27. A student temporarily or permanently ceasing his studies may claim a Leaving Certificate, which shall be in the same form as a Transfer Certificate, and for which the same fee, if any, shall be paid.

28. The Principal of a College may accept a Leaving Certificate in lieu of a Transfer Certificate in a session subsequent to that in which it was issued, but not in the same session. Such Certificate shall be presented at the beginning of the session, and the student shall ordinarily read from the beginning for the full academical year. But by special leave of the Syndicate the lectures in the College then entered may be reckoned from the day and month corresponding to the date on which the student's connection with his former College ceased.

29. The only grounds on which a Leaving Certificate can be refused are (1) gross misconduct, (2) failure to pay the sums due to the College.

30. If a student gives notice of withdrawal from a College without applying for a Leaving Certificate, he shall only be charged fees up to the end of the month in which he gives such notice.

Absence without Notice.

31. If a student is absent without notice for more than one month, his name may be struck off the books, in which case he shall be liable to pay fees for one month subsequent to that in which he last attended the lectures.

32. If a student who has been absent without notice for more than one month applies for a Leaving Certificate, the Principal may, at his discretion, grant such certificate, and may date the student's withdrawal from the day on which he last attended the lectures.

Expulsion and Rustication.

33. A Principal may for breach of College discipline:

(1) suspend a student for one month or less;

(2) rusticate a student for any period exceeding one month and not exceeding the remainder of the academical year; or

(3) expel a student.

In the second and third cases the matter shall be reported by the Principal to the Syndicate, in the form of a brief statement, including the date of rustication or expulsion.

34. If a student who has been so rusticated or expelled desires to continue his studies in some other College, he may apply to the Syndicate, who shall, after consideration of the circumstances issue such orders as they may think proper: Provided that no order shall issue permitting such student to continue his studies in another College without a reference to the Principal of the College from which the student has been rusticated or expelled.

Miscellaneous.

35. A student before being sent up to a University examination shall be required to pay all sums due to the College in which he has been reading, including fees up to the end of the academical year.

36. Any instance of alleged "gross misconduct" on the part of a student, when not followed by expulsion or rustication, must be at once notified by the Principal of the College to the Transfer Committee, together with a statement by the student. The Transfer Committee shall determine whether the case shall be recorded in the University Register of Students as one of "gross misconduct." Unless it is so recorded no future action taken on it by the Principal shall be recognised by the University.

37. Wilful transgression or colourable evasion of any of the foregoing rules shall be reported to the Syndicate.

38. All questions arising between one Principal and another respecting the interpretation of these rules shall be referred as soon as possible to the Transfer Committee.

39. The academical year for the purpose of these Regulations shall be taken to commence on the 1st of June in one year and to end on the 31st of May in the next.

The Syndicate may alter these limits if necessary.

CHAPTER XXIV.

RESIDENCE OF STUDENTS.

1. Every student reading in an Affiliated College with the object of appearing at a University examination, who does not reside with his parents or other legal guardian, or guardian approved by the Principal of his College, shall reside either in his College or in lodgings approved by his College.

Any student making a false declaration in respect of the guardianship under which he is living shall be punished by the Principal of his College, who will deal with the offence as occasion requires.

2. A student shall be held to be residing in a College, if he resides in a Collegiate Hostel as defined under Regulation 7.

3. The following classes of lodgings may be approved by a College:

(*a*) Non-Collegiate Hostels, that is, Hostels under external management.

(*b*) Messes attached or unattached.

(*c*) Private lodgings.

4. At the Annual Meeting of the Senate a Committee of six Fellows, not less than three of whom must be Indians, shall be appointed to deal in accordance with these Regulations with questions relating to the residence of students in non-collegiate hostels, messes, and private lodgings.

5. This Committee shall be called the Students' Residence Committee. The proceedings of the Committee shall be submitted every month to the Syndicate for confirmation, and the Syndicate may approve, revise or modify the decision of the Committee on any matter, or direct the Committee to review it.

Four members shall form a quorum.

In the event of a vacancy occurring in the course of the year it shall be at once filled up by the Syndicate.

6. Nothing in these Regulations shall be taken to authorise the Students' Residence Committee or any member thereof to interfere with the internal management of a Hostel or mess, or with the control of a Principal over his students. But if the Committee is satisfied, upon the report of one or more of its members, or of an Inspector, that a Hostel or mess is maintained or conducted in a manner contravening these Regulations, the Committee shall report the matter to the Syndicate.

Collegiate Hostels.

7. A Collegiate Hostel is a Boarding House for students which is under the direct and exclusive control of one College, which is regarded as an integral part of that College, and which admits only those students who are reading in that particular College.

8. The management of a Collegiate Hostel shall be entirely in the hands of the Governing Body of the College to which it belongs. There shall be in every such Hostel a Resident Superintendent, and, if necessary, one or more Assistant Superintendents.

9. The Principal of the College concerned shall frame rules for his Collegiate Hostel, but in the case of every such Hostel the following practices shall be observed:

(*a*) Only male servants shall be employed.

(*b*) A roll shall be called both morning and evening.

(*c*) Without the special permission of the Superintendent, no student shall absent himself from the Hostel between 9 P.M. and 6 A.M.

(*d*) The Superintendent shall keep a Gate Book in which he shall enter the name of any student who returns to the Hostel between the above hours; he shall also enter his remarks against each case.

10. Every Collegiate Hostel shall be inspected once a year by the Inspector of Colleges.

11. Students shall have no right of appeal to the Syndicate against the orders of the Governing Body upon questions of internal discipline.

A student cannot be expelled from a Collegiate Hostel without being also expelled from the College to which it belongs, but he may be transferred to other lodgings under the control of the Principal.

Non-Collegiate Hostels.

12. A Non-Collegiate Hostel is a Boarding House for students, under external management. A Non-Collegiate Hostel shall not be recognised unless the individual or individuals responsible for the finances of such Hostel can give reasonable guarantee for its continued maintenance. Such Hostels may admit only the following classes of Boarders:

(1) Students of any Affiliated College.

(2) Tutors of such students;

(3) School-boys reading in recognised schools who are nearly related to students residing in such Hostels, and whose parents or guardians desire them to live with or under the direct supervision of such students.

Boarders belonging to classes (2) and (3) shall not be admitted without the sanction of the Students' Residence Committee.

13. Every Non-Collegiate Hostel shall be (*a*) under the supervision of a Manager, and (*b*) under the general control of a Visiting Committee, both approved by the Students' Residence Committee. The Visiting Committee shall be composed of three persons, of whom at least two shall be representatives of the College or Colleges concerned.

14. All Non-Collegiate Hostels shall be open to inspection by the Students' Residence Committee and by any duly appointed University Inspector. Every such Hostel shall keep an Inspection Book in which the inspecting authorities may enter remarks.

15. There shall be in every such Hostel a properly qualified Resident Superintendent, and, if necessary, one or more Assistant Superintendents.

16. The conditions laid down under Regulation 9, clauses (*a*), (*b*), (*c*) and (*d*) shall also be enforced as regards all Boarders in the case of Non-Collegiate Hostels: and in addition thereto the Superintendent shall keep a Register of the Boarders containing the names and home addresses of the Boarders and of their parents or

other guardians. This Register shall contain a column for remarks.

17. Every Non-Collegiate Hostel shall have written or printed rules, and such rules shall not contravene any of the foregoing conditions.

Messes.

18. A mess is a temporary Boarding House formed by a combination of students who desire to share expenses.

A mess has not necessarily any fixity of location for a period longer than one academical year, nor does the responsibility for its finances rest with the College or Colleges to which its members belong. Students not otherwise provided for by these Regulations shall live in messes provided or approved by the College authorities.

19. In the case of messes for which the University, or any other public body provides the funds in part or in whole, each mess shall be attached to one College, and the students living in that mess shall be all students of one and the same College, and the Principal of that College shall have full control over that mess. Such messes shall be called attached messes.

The public body which provides the funds for an attached mess shall appoint a Visiting Committee consisting of three persons for that mess.

20. Regulations 14 to 17 shall apply equally to attached messes.

21. Messes which receive no subvention from public bodies shall be known as unattached messes, and to them shall apply Regulations 12, 14, 15, 16 and 17.

There shall also be a Visiting Committee for unattached messes, consisting of three persons approved by the Students' Residence Committee, two of whom at least shall be representatives of the College or Colleges concerned.

Recognition and License.

22. Every Collegiate Hostel must obtain a certificate of recognition from the University.

All other Hostels and all messes must obtain annually, within such time as the Syndicate may determine, a License from the University.

All applications for recognition of Collegiate Hostels shall be submitted by the Governing Body of the College concerned, and shall be dealt with by the Syndicate. Applications for License shall be dealt with by the Students Residence Committee, and submitted in the case of (*a*) Non-Collegiate Hostels, by the Proprietor, (*b*) Attached messes, by the Principal of the College concerned, and (*c*) Unattached messes, by the College or Colleges concerned.

23. In dealing with applications for Recognition or License, the Syndicate or the Students' Residence Committee, as the case may be, shall have regard to the following points :

(*a*) Suitability of the buildings.

(*b*) Adequacy of the accommodation.

(*c*) Suitability of the neighbourhood.

(*d*) Sanitary conditions.

24. The Senate may from time to time make rules not inconsistent with these Regulations relating to messes and Non-Collegiate Hostels.

Private Lodgings.

25. Upon the recommendation of the Principal of his College, a student may be permitted to live in his own residence or hired lodgings, provided that (1) if he is under 18 years of age he shall be accompanied by a tutor approved by his parents or other guardian, and (2) in any case the Students' Residence Committee is satisfied that he can be permitted so to live without detriment to his health, studies or character.

CHAPTER XXV.

EXAMINATIONS.

Setting of papers.

1. No question shall be asked at any University examination which would require an expression of religious belief on the part of the candidates ; and any answer or translation given by any candidate shall not be objected to on the ground of its expressing peculiarities of religious belief.

2. Candidates shall give their answers in their own words as far as practicable in all subjects. This rule shall be inserted as a head note in every question paper.

3. Examiners setting papers shall be guided, as to the scope of the subject of examination, by the syllabus prescribed in the Regulations, and as to the standard and extent of knowledge required, by the books, if any, recommended from time to time for such purpose.

4. No copy of any examination paper is to be retained by the person setting it.

5. The papers set should be such as candidates can reasonably be expected to answer within the time allotted. The questions in each subject should be fairly distributed over the whole course in that subject, and should conform to the Regulations laid down for the particular examination; there should not be any marked change of standard from year to year, but it is not required that the same type of questions should be set every year. Examiners shall always allow some choice of questions.

6. Questions should be so framed as to encourage good methods of work and teaching, and to discourage unintelligent memorizing.

Awarding of marks.

7. In the case of examinations in all Faculties up to and including the examination for the Bachelor's Degree, the Registrar shall, as soon as the results have been tabulated, prepare a list of the candidates who have failed in one subject only; in order to guard against any possible inaccuracy, their papers in the subject in which they have failed shall be re-examined *on the method of marking already adopted, and without any alteration of the standard.*

8. Examiners, in giving marks, shall take the correctness of the language of the answer into account.

9. Examiners, in giving marks, shall consider whether the answers indicate an intelligent appreciation of the subject or are merely the result of unintelligent memory work.

Meetings of Examiners.

10. As soon as possible after an examination has been held, the persons who have set any question paper in the examination, and those who are to examine the answers to that paper or any portion of it, and the Head Examiner, if there is one, shall meet to determine the kind or standard of answers to be expected from candidates, and to decide upon a system of marking. Their conclusions shall be embodied in a memorandum to be jointly signed by them and forwarded to the Registrar. If, owing to unavoidable circumstances, any Examiner who has set a paper is unable to attend the meeting, the remaining Examiners contemplated by this Regulation shall meet and transact the aforesaid business.

11. In the case of any examination for the degree of Bachelor, Master, or Doctor in the Faculties of Arts and Science, and in the case of every examination in the other Faculties, the entire body of examiners for that examination shall meet, as soon as possible after the tabulation of the results, and draw up a report of the examination as a whole for the consideration of the Syndicate.

As soon as possible after the publication of the results of every examination in every Faculty referred to in the preceding paragraph, the persons who have examined the answer papers in each subject shall meet together and draw up a report upon the examination in that subject for the consideration of the Syndicate.

12. The reports submitted to the Syndicate shall ordinarily embody such remarks and recommendations suggested by the work done of the candidates which it is thought desirable in the interests of education to communicate to the Heads of Colleges and Schools.

Miscellaneous.

13. English shall be the medium of examination in all subjects except where otherwise specifically indicated.

14. Members of the Syndicate or of the Boards of Studies shall not be debarred from acting as Examiners.

15. Canvassing for examinerships will not be countenanced by the University; and if it is proved to the satisfaction of the Syndicate that canvassing has been carried on by any person applying for an examinership, the candidate shall be disqualified.

16. Examiners are required to keep the results of the examinations and the marks assigned to candidates strictly secret.

17. If it is proved to the satisfaction of the Syndicate that the questions in any subject are not such as candidates could reasonably be expected to answer within the time allotted, or have not been fairly distributed over the whole course in that subject, or do not conform to the Regulations laid down for the examination in that subject, or show a marked change of standard, or that from any other cause injustice has been or is likely to be done, the Syndicate shall issue such directions as may be necessary to rectify matters.

18. No candidate shall ordinarily be declared to have passed or to have obtained Honours unless he has attained the standard laid down in the Regulations for a Pass or for Honours. If, however, the Syndicate are satisfied that consideration ought to be allowed, in the case of any candidate, by reason of his high

marks in a particular subject or in the aggregate, the Syndicate may pass such candidate or award him Honours as the case may be:

Provided that no action shall be taken by the Syndicate in this behalf, except —

(a) upon the Report of the Moderators in the case of the Matriculation or the Intermediate Examination in Arts or Science, or

(b) upon the Report of the Examiners in the case of any other Examination.

ARTS AND SCIENCE EXAMINATIONS.

Appointment of Examiners.

1. The Registrar shall, at such times as the Syndicate may determine, send to all Fellows on the Faculties of Arts and Science and to all Heads of Colleges affiliated in Arts and Science who are not Fellows, a circular, requesting them to forward within one month the names of persons whom they consider suitable for appointment as Examiners for the University examinations specified by the Syndicate.

Every such recommendation shall be accompanied by a brief statement of the special qualifications of their nominees.

2. Such recommendations and any applications from candidates for examinerships received by the Registrar shall, in the first instance, be referred to the Boards of Studies concerned, who shall be asked to nominate for appointment as Examiners a number of persons not less than that required for each examination as indicated by the Syndicate, and not more than half in excess of that number. In appointing examiners the Syndicate shall consider the recommendations and applications, together with the reports of the Boards thereon, but its selection shall not be limited by them.

3. A Board of Examiners consisting of two or more persons shall be appointed by the Syndicate, whenever practicable, to set papers in each subject in each examination of the University. Each paper shall, whenever practicable, be set by two Members of the Board in consultation. In the case of a difference of opinion arising between two Examiners, the point shall be referred to the other Member or Members of the Board, if any, otherwise it shall be referred to the Syndicate.

4. One Member of the Board shall, unless the Syndicate consider it undesirable, be appointed Head Examiner in the case of examinations for which a Head Examiner is required. In other cases, as far as practicable, the Members of the Board who set the papers shall be among those who look over the answer-papers.

5. For the Matriculation, the Intermediate in Arts and Science, and the B.A. and B. Sc. Examinations, no one shall be appointed Member of a Board of Examiners to set a paper in a subject of which he teaches the whole or a part for the corresponding examination.

6. The Board of Examiners in each subject for the degree of Master in the Faculties of Arts and Science shall be composed of:

(a) the University lecturers in that subject, and

(b) one or more other Examiners appointed by the Syndicate. Such Examiners shall not be persons lecturing to or preparing candidates for the examination in the subject for which the Board is constituted.

7. Each Board appointed under the preceding Regulation shall meet as soon as possible after appointment for the purpose of apportionment the examination papers in the subject for which it has been constituted. The apportionment as far as the University Lecturers are concerned, shall ordinarily be proportionate to the course covered by their respective lectures. The distribution of papers shall be kept strictly secret.

Moderators.

8. Before the commencement of the Matriculation Examination or the Intermediate Examinations in Arts and Science, the Syndicate shall appoint five Syndics as Moderators, of whom three shall be Members of the Faculty of Arts, and two Members of the Faculty of Science.

The duties of the Moderators shall be—

(a) to receive from the Head Examiners or the Examiners, as the case may be, for the Matriculation Examination and the Intermediate Examinations in Arts and Science, a Report on the Examination in the subject with which they are concerned, to consider the Reports, and to submit a Report to the Syndicate embodying such points as ought, in their opinion, to be brought to its notice; and

(b) to report to the Syndicate the names of candidates, if any, who have not attained the standard laid

down in the Regulations, but who, in the opinion of the Moderators, deserve consideration by reason of the high marks obtained by them in a particular subject or in the aggregate.

LAW EXAMINATIONS.

Appointment of Examiners.

1. The Registrar shall, at such times as the Syndicate may determine, send to all Fellows on the Faculty of Law and to all Heads of Colleges affiliated in Law who are not Fellows, a circular, requesting them to forward within one month the names of persons whom they consider suitable for appointment as Examiners for the Preliminary and Final B. L. Examinations.

Every such recommendation shall be accompanied by a brief statement of the special qualifications of their nominees.

2. Such recommendations and any applications from candidates for examinerships received by the Registrar shall, in the first instance, be referred to the Board of Studies in Law, who shall be asked to nominate for appointment as Examiners a number of persons not less than that required for each examination as indicated by the Syndicate, and not more than half in excess of that number. In appointing Examiners the Syndicate shall consider the recommendations and applications, together with the reports of the Board of Studies thereon, but its selection shall not be limited by them. The Dean of the Faculty of Law for the time being shall be *ex-officio* President of the Examiners thus appointed.

3. A Board of Examiners consisting of three or more persons shall be appointed by the Syndicate, whenever practicable, to set papers in each examination. The Dean of the Faculty of Law for the time being shall be *ex-officio* President of each Board. Each paper shall, whenever practicable, be set by two Members of the Board in consultation. In the case of a difference of opinion arising between two Examiners, the point shall be referred to the President. The papers set shall be moderated by him in consultation with the other Members of the Board.

4. As far as practicable, the Members of the Board who set the papers shall be among those who look over the answer-papers.

5. For the Preliminary and Final B.L. examinations, no one shall be appointed Member of a Board of Examiners to set a paper in a subject of which he teaches the whole or a part for the corresponding examination.

MEDICAL EXAMINATIONS.

Appointment of Examiners.

1. The Registrar shall, at such time as the Syndicate may determine, send to all Fellows on the Faculty of Medicine and to all Heads of Colleges affiliated in Medicine who are not Fellows, a circular, requesting them to forward within one month the names of persons whom they consider suitable for appointment as Examiners for the University Examinations specified by the Syndicate.

Every such recommendation shall be accompanied by a brief statement of the special qualifications of their nominees.

2. Such recommendations and any applications from candidates for Examinerships received by the Registrar shall, in the first instance, be referred to the Board of Studies in Medicine, who shall be asked to nominate a number of persons not less than that required for each examination as indicated by the Syndicate, and not more than half in excess of that number. In appointing Examiners the Syndicate shall consider the recommendations and applications, together with the reports of the Board of Studies thereon, but its selection shall not be limited by them. The Dean of the Faculty of Medicine for the time being shall be *ex-officio* President of the Examiners thus appointed.

3. A Board of Examiners consisting of two or more persons shall be appointed by the Syndicate, whenever practicable, to set papers in each subject in each examination. The Dean of the Faculty of Medicine for the time being shall be *ex-officio* President of each Board. Each paper shall, whenever practicable, be set by two Members of the Board in consultation. In the case of a difference of opinion arising between two Examiners, the point shall be referred to the President. The papers set shall be moderated by him in consultation with the other Members of the Board.

4. As far as practicable, the Members of the Board who set the papers shall be among those who look over the answer-papers.

5. Of the persons appointed to set papers in any subject for any examination, one at least must be a Teacher or Professor in that subject, and one at least, whenever available, shall be a person not teaching that subject for that examination.

6. Every oral, practical and clinical examination shall be conducted by two Examiners jointly.

ENGINEERING EXAMINATIONS.

Appointment of Examiners.

1. The Registrar shall, at such times as the Syndicate may determine, send to all Fellows on the Faculty of Engineering, and to all Heads of Colleges affiliated in Engineering who are not Fellows, a circular requesting them to forward within one month the names of persons whom they consider suitable for appointment as Examiners for the University Examinations specified by the Syndicate.

Every such recommendation shall be accompanied by a brief statement of the special qualifications of their nominees.

2. Such recommendations, and any applications received by the Registrar shall, in the first instance, be referred to the Board of Studies in Engineering, who shall be asked to nominate a number of persons not less than that required for each examination as indicated by the Syndicate, and not more than half in excess of that number. In appointing Examiners, the Syndicate shall consider the recommendations and applications, together with the reports of the Board thereon, but their selection shall not be limited by them. The Dean of the Faculty of Engineering for the time being shall be *ex-officio* President of the Examiners so appointed.

3. A Board of Examiners consisting of two or more persons shall be appointed by the Syndicate, whenever practicable, to set papers in each subject in each examination. The Dean of the Faculty of Engineering for the time being shall be *ex-officio* President of each Board. Each paper shall, whenever practicable, be set by two Members of the Board in consultation. In the case of a difference of opinion arising between two Examiners, the point shall be referred to the President. The papers set shall be moderated by him in consultation with the other Members of the Board.

4. As far as practicable, the Members of the Board who set the papers shall be among those who look over the answer-papers.

5. Of the persons appointed to set papers in any subject for any examination, one at least must be a Lecturer on that subject, and one at least shall be a person not teaching that subject for that examination.

CHAPTER XXVI.

CONDITIONS OF STUDY IN AFFILIATED COLLEGES.

1. A college affiliated in any subject for any of the examinations mentioned in this section shall provide for the delivery of the minimum number of lectures specified hereinafter to students who take up that subject.

(*i*) Intermediate Examination in Arts or Science—

(*a*) 140 lectures in each subject, of which not less than 60 shall be delivered in the second year.

(*b*) No lectures need be delivered in Vernacular Composition.

(*ii*) B.A. or B.Sc. Examination—

(*a*) In the Pass Course in each subject—160 lectures, of which not less than 60 shall be delivered in the second year.

(*b*) In the Honours Course in each subject—80 lectures in addition to the lectures in the corresponding Pass Course, of which not less than 30 shall be delivered in the second year.

(*c*) No lectures need be delivered in Vernacular Composition.

(*iii*) M.A. or M.Sc. Examination—180 lectures in each subject.

(*iv*) Licentiate in Teaching—

Theory and Practice of Teaching ...	... 80 lectures.
Methods of Teaching	... 80 lectures.
Selected Educational Classics	20 lectures.
Course in English	... 60 lectures.

(*v*) Bachelor of Teaching—

Theory and Practice of Teaching ...	... 60 lectures.
Methods of Teaching	... 60 lectures.
History of Educational Ideas	40 lectures.
Educational Classics	... 20 lectures.

(*vi*) Preliminary or Final Examination in Law—in each subject or group of subjects 32 lectures and 12 sittings of a Moot-Court.

(*vii*) Preliminary Scientific M.B. Examination—

Inorganic Chemistry	... 40 lectures.
Physics ...	... 20 lectures.
Zoology ...	... 20 lectures.
Botany ...	... 20 lectures.

(*viii*) First M.B. Examination—

Anatomy ...	... 100 lectures.
Physiology ...	... 80 lectures.
Pharmacology	... 80 lectures.
Organic Chemistry	... 15 lectures.

(*ix*) Final M.B. Examination—

Medicine ...	... 100 lectures.
Mental Diseases	... 8 lectures.
Surgery ...	... 100 lectures.
Ophthalmology	... 15 lectures.
Midwifery ...	... 80 lectures.
Medical Jurisprudence	... 40 lectures.
Hygiene ...	... 20 lectures.

In the Medical Course there shall be in addition to the lectures specified above practical Courses as prescribed by the Syllabus.

2. If a College fails for three consecutive years to deliver the minimum number of lectures prescribed above in any subject, proceedings shall be taken under section 24 of the Indian Universities Act to withdraw from it the privileges of affiliation in that subject.

3. Every lecture shall cover a period of not less than 45 minutes inclusive of the time allowed by the College Rules for the assembling of the students.

4. For the purpose of these regulations a period of practical work or class exercises or class Examinations of not less than 45 minutes shall be considered to be equivalent to a lecture.

5. Every candidate who desires to appear as a collegiate student at any one of the examinations mentioned in section 1 shall be required to prosecute a regular course of study for the time specified in the Regulations in the subjects which he takes up for the examination in question.

6. No student shall be considered to have prosecuted a regular course of study in any subject for any examination unless he has attended at least 75 per cent. of the lectures delivered in that subject in one or more affiliated Colleges.

7. No lecture shall be deemed to be a lecture within the meaning of these Regulations, unless it is delivered to a whole class or permanent section of a class, and unless it is reckoned in calculating the percentage of attendance of all students of the class or section who have taken up the subject in which the lecture is delivered.

8. If the College to which the student belongs is not affiliated in a particular subject which he desires to take up for examination, he may be permitted, by mutual arrangement between the Principals of the Colleges concerned, to attend lectures on that subject in another duly affiliated College.

9. The percentage of attendance of every student under section 5 shall be calculated on the total number of lectures delivered in each subject from the commencement of the academical year. If a student is transferred from one College to another, the percentage of attendance in the first College shall be calculated on the total number of lectures delivered in each subject up to the date borne on the transfer certificate, and in the second College, on the lectures delivered after that date.

10. In cases where a student, after study for the period prescribed by the Regulations, shall have failed to attend 75 per cent. of the lectures in any subject or subjects during this course, he shall not be admitted to the examination as a collegiate student, unless (*a*) he attends lectures in such subject or subjects for another academical year, and (*b*) his attendance in the subject or subjects in question for the period prescribed by the Regulations amounts to at least 75 per cent. of the lectures delivered in the College or Colleges in which he studied for the prescribed period.

11. If a candidate for any of the examinations mentioned in Regulation 1 does not present himself at the examination immediately succeeding the completion of his regular course of study, he may appear at any of the two following examinations of the same standard, provided that he produces, in addition to the ordinary certificate or certificates required by the Regulations, a certificate from the Principal of the College at which he last studied or from a member of the Senate, testifying to his good character during the intervening period.

If such candidate desires to present himself at any subsequent examination he shall be required to prosecute a fresh course of study for the full period in accordance with the Regulations.

12. No student shall be considered to have prosecuted a regular course of study in any subject for the M.A. or M.Sc. Examination under University Professors or Lecturers unless the total number of lectures delivered by such Professors or Lecturers is at least 180, and unless he has attended at least 75 per cent. of the lectures in each course.

If, however, the total number of University lectures delivered in any subject does not amount to 180, attendance on 75 per cent. of the lectures in each available course will suffice.

CHAPTER XXVII.

CONDITIONS TO BE FULFILLED BY COLLEGES AFFILIATED IN SCIENCE.

GENERAL.

Colleges affiliated in any Science subject except Geography and Experimental Psychology must be provided with gas and a plentiful supply of water, and there must be adequate connexions for these with the portion of the building allotted to science teaching. There must be a suitably fitted lecture-theatre of the ordinary type, and the lecture table, which should not be less than 12 feet long, must be provided with gas and water fittings, and must also be adapted in other respects for lecture demonstrations in the various sciences for which it is intended to use the theatre. There should be an aperture in one of the walls by which a beam of solar light can be admitted for optical and projection work. One lecture-theatre will ordinarily suffice, but if the number of subjects in which the College is affiliated is considerable, additional accommodation in this respect will be necessary. There shall be separate rooms for practical work in each of the subjects for which the College is affiliated, and in each such room there shall be a good black board and a small demonstration table. A sufficient quantity of apparatus, etc., must be provided both for practical and lecture work, and there must be ample cupboard room for the apparatus when not in use. Lists are given in Appendix B shewing what may be considered the minimum requirements in each case. For all Colleges affiliated up to the M.A. or M.Sc. standard in Physics or Chemistry an electric installation is desirable and should certainly be provided wherever there is a town supply of electricity.

SPECIAL.

I.—PHYSICS.

(*a*) *Intermediate Standard.*—Not more than 20 students shall be placed under one teacher in the practical class at one time. If the number exceeds 20, an additional teacher or demonstrator will be required. The size of a room which it is intended shall accommodate the above number of students, shall not be less than 20 feet by 25 feet. If the number of students exceeds 20, the size of the room must be proportionately increased. The working tables should be small, about 6 feet by 3 feet., and should be very strongly made of teakwood. One or two large sinks with water taps must be provided.

(*b*) *B.A. or B.Sc. Standard.*—There shall be one teacher to every 15 students in the practical class. The room used for the Intermediate course, having the dimensions given above, will suffice for the B.A. or B.Sc. students and for a class of fifteen, but it is necessary for the work in the present course that each working place on the tables should be supplied with gas. A small room for optical work is desirable, but if it is not possible to provide this a portion of the laboratory, which in this case should be larger, may be screened off for the purpose. A small workshop should be attached to the laboratory.

(*c*) *M.A. or M.Sc. Standard.*—There shall be one teacher to every 10 students in the practical class. In addition to the general laboratory two other rooms will be necessary, one for optical and the other for electrical work. A larger workshop will be necessary than in the previous case, and it should be furnished with a good lathe. A permanent *mistri* should be employed.

II.—CHEMISTRY.

(*a*) *Intermediate Standard.*—Not more than 20 students shall be placed under one teacher in the practical class at one time. If the number exceeds 20, an additional teacher or demonstrator will be required. The size of a room which it is intended shall accommodate the above number of students, shall not be less than 20 feet by 30 feet, and if the number of students exceeds 20, it must be proportionately increased. The working benches must be provided with gas, one jet for each student. Those benches which occupy the centre of the room should, for the sake of economy of space, be of double width, so as to admit of students working on both sides, and the shelf for reagents may in this case run along the centre of the table. Water taps with the corresponding sinks, should be provided in the ratio of about one to four students, but the sinks in the case of the tables of double width, may be replaced by a properly treated wooden trough running along the centre. Two or three fume closets are necessary; one will suffice, if the working tables are supplied with small draught hoods.

(*b*) *B.A. or B.Sc. Standard.*—There shall be one teacher to every 15 students in the practical class. The laboratory for the Intermediate course can be adapted for the use of the B.A. and B.Sc. students as well. A small and well lighted balance room and a combustion room must be provided in addition.

(c) *M.A. or M.Sc. Standard.*—An additional laboratory with rooms for special work shall be provided for the use of M.A. and M.Sc. students, not more than ten of whom shall be under the supervision of one teacher.

III.—PHYSIOLOGY.

(a) *Intermediate Standard.*—Not more than 24 students shall be placed under one teacher. The working benches shall be furnished with racks for chemical and microscopical reagents, and gas, water and sinks shall be supplied in the same way as in the Chemical laboratory. The size of a room for 24 students shall be not less than 20 feet by 30 feet.

(b) *B.A. or B.Sc. Standard.*—Not more than 12 students shall be placed under one teacher. The room for the practical work of the Intermediate standard can with some slight adaptation be also used for the present standard.

(c) *M.A. or M.Sc. Standard.*—For M.A. or M.Sc. classes at least two additional laboratories are necessary for special work.

IV.—BOTANY.

The number of students that may be placed under one teacher, in the practical classes is the same as for Physiology, and the conditions to be fulfilled with regard to the laboratories are substantially the same as in that subject.

V.—ZOOLOGY.

Not more than 20 students shall be placed under one teacher in the practical classes. Otherwise the requirements are the same as in the case of Physiology and Botany except that the accommodation required for M.A. and M.Sc. students will not be so great as in those subjects.

VI.—GEOLOGY.

The chief requirements in this subject are a small geological museum, and a laboratory suitable for optical as well as for a certain amount of chemical work.

VII.—GEOGRAPHY.

There must be a small museum for practical teaching and demonstration, and a well lighted room suitable for drawing and modelling, and fully furnished with the appliances necessary for the course of practical work prescribed by the Regulations.

VIII.—EXPERIMENTAL PSYCHOLOGY.

The laboratory must be furnished with plastic and other models and charts for anatomical and physiological demonstrations, in addition to the appliances necessary for psycho-physical work, and must also be suitable for optical and electrical work.

CHAPTER XXVIII.

UNIVERSITY LIBRARY.

1. At the Annual Meeting, the Senate shall appoint two Committees, one to be called the Library General Committee, and the other the Library Executive Committee.

2. The General Committee shall consist of the Vice-Chancellor, the Registrar, and twelve members of the Senate.

The Executive Committee shall consist of the Vice-Chancellor, the Registrar, and three members of the General Committee.

Members of the Committees shall hold office till the next Annual Meeting.

In the event of a vacancy occurring in the course of the year, it shall be at once filled up by the Syndicate.

3. The General Committee shall meet ordinarily once every six months, and, at other times, when convened by the Vice-Chancellor. Seven members shall form the quorum.

The Executive Committee shall meet ordinarily once a month, and at other times when convened by the Vice-Chancellor. Three members shall form the quorum.

4. The Proceedings of the meetings of the Committees shall be recorded, and regularly submitted to the Syndicate for confirmation. The Syndicate may approve, revise, or modify the decision of either Committee on any matter, or direct the Committee to review it.

5. The duties of the General Committee shall be—

(I) to recommend to the Syndicate rules regulating—

- (a) the use of the Library by Fellows, by Registered Graduates, and by other persons,
- (b) the payment of fees for the use of the Library by persons other than Fellows,
- (c) the conditions of borrowing and returning books,
- (d) the suspension of privileges for the loss, mutilation, or disfigurement of books, or for any breach of the Library Rules,
- (e) the annual inspection of the Library, and
- (f) all other matters relating to the management of the Library.

(II) to recommend to the Executive Committee the purchase of books and manuscripts.

6. The duties of the Executive Committee shall be to give orders for the purchase, arrangement and cataloguing of the books and manuscripts, for the provision of book-cases and other fittings, or the cleaning of the Library, and for all ordinary repairs, and generally to supervise the management of the Library, and to do all that is in their opinion desirable for the maintenance of the Library in an efficient condition, so far as it is practicable to do so within the limits of the annual grant.

7. Upon the recommendation of the Syndicate, the Senate shall annually make a grant for the Library, and may, if necessary, add to the grant in the course of the year.

8. The Syndicate shall make an annual report to the Senate concerning the state of the Library and all matters concerning the Library which in their opinion should be brought to the notice of the Senate. The Report shall be accompanied by a statement of the expenditure of all moneys devoted to the purposes of the Library.

CHAPTER XXIX.

TRANSITORY REGULATIONS.

1. In this chapter, the phrase "new Regulations" shall be taken to mean the present body of Regulations.

The phrases "existing Byelaws," "existing Regulations" and "existing Rules" shall be taken to refer respectively to the Byelaws, Regulations and Rules in operation on the date previous to that on which the new Regulations come into force.

2. All questions relating to the alteration or cancellation of existing Byelaws, Regulations and Rules shall be decided with reference to the provisions of this Chapter.

3. The new Regulations shall come into force on the date of their publication in the *Gazette of India;* such date shall be called the date of commencement of the new Regulations.

4. Except as hereinafter provided, on and from the date on which the new Regulations come into force, all existing

(*i*) Byelaws,

(*ii*) Regulations, and

(*iii*) Rules which are in any way inconsistent with the new Regulations,

shall cease to have operation.

5. As soon as practicable after the date of commencement of the new Regulations the Vice-Chancellor shall cause steps to be taken for the appointment of the Faculties, the Syndicate, the Boards of Studies, the Board of Accounts, the Library General Committee, the Library Executive Committee, the Transfer Committee, the Students' Residence Committee, the Registrar and the Inspector of Colleges, in accordance with the new Regulations:

Provided that any act which is required by the new Regulations to be done, at, before or after an Annual Meeting, may for this purpose be validly done, at, before or after a Special Meeting.

6. As soon as each of the Faculties, the Syndicate, each of the Boards of Studies, and the Board of Accounts is duly constituted under Regulation 5, the corresponding body provisionally constituted under section 12 (*q*) of the Indian Universities Act, shall cease to exist:

Provided that each of these provisional Bodies so long as it continues to exist, shall discharge its functions in accordance with the existing Byelaws, which shall be deemed to be in force for this purpose.

7. The Faculties, the Syndicate, the Boards of Studies, the Board of Accounts, the Library General Committee, the Transfer Committee, the Students' Residence Committee and the Library Executive Committee appointed under Regulation 5 shall continue to hold office till they are reconstituted in 1908 in accordance with the new Regulations.

8. The Registrar holding office at the commencement of the new Regulations shall continue to hold office till the Registrar appointed under Regulation 5 assumes charge. If, in the interval, there is a vacancy in the office of Registrar, the Syndicate may appoint an Acting Registrar on such terms as may be found necessary. The Registrar appointed under Regulation 5 shall continue to hold office not later than the 31st of March 1912.

9. The Inspector of Colleges appointed under Regulation 5 shall continue to hold office not later than the Annual Meeting of the Senate in 1912.

10. The Matriculation Examination shall be held for the first time in accordance with the new Regulations in 1910.

11. The Entrance Examination in 1907, 1908 and 1909 shall be held in accordance with the existing Regulations and Rules, which, for this purpose, shall be deemed to be in force.

12. Any person who passes or has passed the Entrance Examination shall

be deemed qualified for admission to any University Examination other than that mentioned in section 42 in the same manner as if he had passed the Matriculation Examination in accordance with the new Regulations.

13. The Intermediate Examination in Arts shall be held for the first time in accordance with the new Regulations in 1909.

14. The First Examination in Arts in 1907 and 1908 shall be held in accordance with the existing Regulations and Rules, which, for this purpose, shall be deemed to be in force.

15. Any person who passes or has passed the First Examination in Arts shall be deemed qualified for admission to any University Examination other than that mentioned in Regulation 42 in the same manner as if he had passed the Intermediate Examination in Arts or the Intermediate Examination in Science in accordance with the new Regulations. For the purpose of the Examination mentioned in Regulation 42 of this chapter a student who has passed the F.A., or the Intermediate in Arts, shall be deemed qualified in the same manner as a student who has matriculated in accordance with the new Regulations.

16. Any candidate who fails at the First Examination in Arts in 1908 or has failed in any previous year, or who was qualified to appear at any such examination but did not appear, or who was not sent up to any such examination by reason of deficiency in attendance at lectures or who was not permitted by the Principal of his College to appear, may be admitted to the Intermediate Examination in Arts or the Intermediate Examination in Science in 1909, provided he has prosecuted in accordance with the new Regulations a regular course of study for one academical year in the subjects he offers. Any candidate appearing at a subsequent Examination shall strictly comply with the new Regulations.

17. The B.A. Examination shall be held for the first time in accordance with the new Regulations in 1909.

18. The B.A. Examination in 1907 and 1908 shall be held in accordance with the existing Regulations and Rules, which, for this purpose, shall be deemed to be in force.

19. The M.A. Examination shall be held for the first time in accordance with the new Regulations in 1909.

20. The M.A. Examination in 1906, 1907 and 1908 shall be held in accordance with the existing Regulations and Rules which for this purpose shall be deemed to be in force.

21. Any Bachelor of Science who, in or before 1908, passes or has passed the M.A. Examination in Mathematics or in any branch of Natural or Physical Science, shall be entitled to the same privileges for the purpose of admission to University Examinations as if he had passed the M.Sc. Examination in accordance with the new Regulations.

22. The Examinations for the Degree of Doctor of Philosophy shall be held for the first time in accordance with the new Regulations in 1907.

23. The Intermediate Examination in Science shall be held for the first time in accordance with the new Regulations in 1909.

24. The B.Sc. Examination shall be held for the first time in accordance with the new Regulations in 1909.

25. The B.Sc. Examination in 1907 and 1908 shall be held in accordance with the existing Regulations and Rules, which, for this purpose, shall be deemed to be in force.

26. The M.Sc. Examination shall be held for the first time in accordance with new Regulations in 1909.

27. The Examination for the Degree of Doctor of Science shall be held for the first time in accordance with the new Regulations in 1908.

28. The Examination for the Degree of Doctor of Science in 1906 and 1907 shall be held in accordance with the existing Regulations and Rules which, for this purpose, shall be deemed to be in force.

29. The Preliminary Examination in Law shall be held for the first time in accordance with the new Regulations in 1908.

30. The Final Examination in Law shall be held for the first time in accordance with the new Regulations in 1909.

31. The B. L. Examination in 1906, 1907 and 1908 shall be held in accordance with the existing Regulations and Rules, which, for this propose, shall be deemed to be in force.

32. (i) Any candidate who fails at the B. L. Examination in 1908, or has failed in any previous year, or who was qualified to appear at any such examination but did not appear, may, in any year not later than 1912, appear at the Preliminary Examination in Law, and if he passes, may appear at the Final Examination in Law in the same year or in any subsequent year not later than 1912.

(ii) Any candidate who is not or has not been sent up to the B. L. Examination of 1908 or of any previous year by reason of deficiency in attendance at lectures, shall be entitled to the same privileges as the candidates referred to in the preceding paragraph, provided he makes up his deficiency in accordance with the existing Regulations.

(iii) In any year subsequent to 1912 no person shall be admitted to either the Preliminary or the Final Examination in Law, except in strict conformity with the new Regulations.

33. The M. L. Examination shall be held for the first time in accordance with the new Regulations in 1907.

34. The Examination for Honours in Law in 1906 shall be held in accordance with the existing Regulations and Rules, which, for this purpose, shall be deemed to be in force. Any candidate who may pass at such Examination shall be entitled to the same privileges as if he had passed the M. L. Examination in the first class under the new Regulations.

35. Up to 1907 the Degree of Doctor in Law shall be conferred in accordance with the existing Regulations, and in and after 1908 in accordance with the new Regulations.

36. The Preliminary Scientific L. M. S. Examination in accordance with the existing Regulations and Rules shall be held for the last time in 1907, and for this purpose those Regulations and Rules shall be deemed to be in force.

37. The First L. M. S. Examination in 1907, 1908 and 1909 (and in no subsequent year) shall be held in accordance with the existing Regulations and Rules, which, for this purpose, shall be deemed to be in force.

38. The Second L. M. S. Examination in 1907, 1908, 1909, 1910 and 1911 (and in no subsequent year) shall be held in accordance with the existing Regulations and Rules, which, for this purpose, shall be deemed to be in force.

39. Any candidate who fails in the Preliminary Scientific L. M. S. Examination in 1907 may appear at the Preliminary Scientific M. B. Examination in 1908 or 1909, provided he attends in an Affiliated College a regular course of lectures for one academical year, in the subjects in which he has failed as also in the additional subjects in which he has not previously attended any lectures. If any such candidate attains the standard laid down in the new Regulations, for the Preliminary Scientific M. B. Examination, he shall be declared to have passed that examination.

40. Any candidate who fails in the First L. M. S Examination in 1909 may appear at the First M. B. Examination in 1910 or 1911, provided he attends in an Affiliated College a regular course of lectures for one academical year, (i) in the subjects in which he has failed, (ii) in any additional subjects in which he has not previously attended any lectures, and (iii) in the subject of Zoology as prescribed for the Preliminary Scientific M. B. Examination under the new Regulations. If such candidate attains the standard laid down in the new Regulations for the First M B. Examination and, also passes an examination in Zoology in the standard of the Preliminary Scientific M. B. Examination, he shall be declared to have passed the First M. B. Examination.

41. Any candidate who fails in the Second L. M. S. Examination in 1911 may appear at the second M. B. Examination in 1912 or 1913, provided he attends in an Affiliated College a regular course of lectures for one academical year in the subjects in which he has failed. If such candidate attains the standard laid down in the new Regulations for the Second M B. Examination (Parts I and II or Part II only, as the case may be), he shall be granted a certificate of having passed the Second L. M. S. Examination.

42. The Preliminary Scientific M. B. Examination shall be held for the first time in accordance with the new Regulations in 1908. Provided that at the Examinations held in 1909 and 1910 no one shall be admitted who has not passed the F. A. Examination or the Intermediate in Arts or the Intermediate in Science.

43. The Preliminary Scientific M. B. Examination in 1907 and 1908 shall be held in accordance with the existing Regulations and Rules, which, for this purpose, shall be deemed to be in force.

In 1908 there shall be two Examinations, one in accordance with the existing Regulations and the other in accordance with the new Regulations. For the latter no one shall be eligible who has not passed the F. A. Examination.

44. The First M. B. Examination shall be held for the first time in accordance with the new Regulations in 1910.

45. The First M. B. Examination in 1907, 1908 and 1909 shall be held in accordance with the existing Regulations and Rules which for this purpose shall be deemed to be in force.

46. The Final M. B. Examination shall be held for the first time in accordance with the new Regulations in 1913.

47. The Second M. B. Examination in 1907—1912 shall be held in accordance with the existing Regulations and Rules, which for this purpose shall be deemed to be in force.

48. The Examinations for Honours in Medicine, for the Degrees of Doctor of Medicine, Master of Surgery and Master of Obstetrics, and for the Diploma in Public Health, shall be held for the first time in accordance with the new Regulations in 1907.

49. The Examination for the Degree of Doctor of Medicine in 1906 shall be held in accordance with the existing Regulations, which, for this purpose, shall be deemed to be in force.

50. The Intermediate Examination in Engineering shall be held for the first time in accordance with the new Regulations in 1909.

51. In 1907, 1908 and 1909 the First Examination in Engineering shall be held in accordance with the existing Regulations and Rules, which for this purpose shall be deemed to be in force.

52. In 1910 and 1911, the First Examination in Engineering shall be held in accordance with the existing Regulations and Rules which, for this purpose, shall be deemed to be in force :

Provided, however, that at the examination in either of these years, only the following classes of candidates shall be allowed to appear :

(*a*) Candidates who have failed at any previous F. E. Examination.

(*b*) Candidates who have not passed any examination higher than the Entrance or Matriculation Examination.

53. Any candidate who fails at the F. E. Examination in 1911 may be admitted to the Intermediate Examination in Engineering in 1912 or 1913.

54. Any person who passes or has passed the F. E. Examination shall be deemed qualified for admission to University Examinations in the same manner as if he had passed the Intermediate Examination in Engineering in accordance with the new Regulations.

55. The B. E. Examination shall be held for the first time in accordance with the new Regulations in 1911.

56. The B. E. Examination in 1907, 1908, 1909, and 1910 and the L.E. Examination in 1907-1912, shall be held in accordance with the existing Regulations and Rules, which, for this purpose, shall be deemed to be in force.

57. The Examination for Honours in Engineering shall be held for the last time in 1907 in accordance with the existing Regulations, which, for this purpose, shall be deemed to be in force.

58. Up to 1909 the Degree of Master in Engineering shall be conferred in accordance with the existing Regulations, which, for this purpose, shall be deemed to be in force.

59. The Degree of Doctor of Science (Engineering) may be conferred in 1907 in accordance with the new Regulations.

60. The Examination for Licentiate in Teaching and Bachelor of Teaching shall be held for the first time in 1908.

61. As soon as practicable after the commencement of the new Regulations, the Syndicate shall frame, subject to the approval of the Senate :

(*a*) A revised body of Rules for the conduct of the Examinations which, according to the preceding Regulations, have to be held in accordance with the existing Regulations, and

(*b*) A body of Rules for the conduct of the examinations to be held in accordance with the new Regulations :

Provided that nothing in the Rules made under (*a*) shall contravene the existing Regulations, and nothing in the Rules made under (*b*) shall contravene the new Regulations.

62. Nothing in the Regulations contained in this Chapter shall be deemed to prohibit any alteration in the existing Regulations and Rules, provided such alteration is made by the Body competent in that behalf, and in the manner prescribed by the new Regulations.

63. Within eight weeks from the date when these Regulations come into force the Principal of every affiliated College shall forward to the Registrar the name of every student on the rolls of the College, together with the registration fee of Rs. 2 required for matriculation by Regulation 6 of Chapter XV. The Registrar shall, upon receipt of the fee, enter the name of every such student on the Register of University Students.

64. In any case not covered by the preceding Regulations of this Chapter, the Syndicate shall give such directions as may be justified by the special circumstances of the case.

CHAPTER XXX.

MATRICULATION EXAMINATION.

1. The Matriculation Examination shall be held annually in Calcutta and in such other places as shall, from time to time, be appointed by the Syndicate, the approximate date to be notified in the Calendar.

2. Ordinarily, only students who have been educated for at least one school year previous to the date of the Matriculation Examination at a School recognised by the Calcutta University for such purpose, shall be admitted to the Matriculation Examination. Private candidates, who have not attended any school for at least one year previous to the Examination, shall also be admitted to the Examination provided that, (*a*) before appearing at such Examination they have passed a preliminary test held for such purpose by a Government Inspector of Schools, or under his orders, and (*b*) satisfactory evidence is adduced before the Inspector that the candidate has prosecuted a regular course of study, and has been subject to proper discipline.

3. No one shall be admitted to the Matriculation Examination, unless he shall have completed the age of sixteen years on the first day of the month in which he appears at the Examination.

4. Every candidate sent up for the Matriculation Examination by a recognised school shall be required to produce a certificate (*a*) of good conduct, (*b*) of diligent and regular study, (*c*) of having satisfactorily passed periodical school examinations and other tests, (*d*) of probability of passing the Examination.

5. Every candidate for admission to the Matriculation Examination shall send in his application, with a certificate in the Form prescribed by the Syndicate either to the Registrar or to a local officer recognised by the Syndicate. Every such application must reach the office of the Registrar at least six weeks before the date fixed for the commencement of the examination.

6. A fee of twelve rupees shall be forwarded by each candidate with his application. A candidate who fails to pass, or to present himself for examination, shall not be entitled to claim a refund of the fee. He may be admitted to one or more subsequent Matriculation Examinations, subject to the conditions laid down in these Regulations.

7. The Matriculation Examination shall be conducted by means of printed papers, the same papers being used at every place at which the Examination is held.

8. The Matriculation Examination shall be a general test of fitness for a course of University Studies.

9. Candidates for the Matriculation Examination shall be examined in the following subjects:

1. English.

[*Two Papers.*]

2. Mathematics.

[*One Paper.*]

3. One of the following languages: Sanskrit, Pali, Arabic, Persian (including an elementary knowledge of Arabic), Hebrew, Classical Armenian, Greek, Latin.

[*One Paper.*]

4. Composition in one of the following vernacular languages:

Bengali, Hindi, Uriya, Assamese, Urdu, Burmese, Modern Armenian.

[*One Paper.*]

If the vernacular of a candidate is a language not included in the above list, he shall have an alternative paper in:

(*a*) English composition, or

(*b*) French, or

(*c*) German.

5 and 6. Two out of the following:

(*i*) Additional Mathematics.

[*One Paper.*]

(*ii*) An additional paper in the classical language taken up as subject No. 3.

[*One Paper.*]

(*iii*) History of India, including a short account of the Administration of British India and of the Progress of India under British Rule.

[*One Paper.*]

(*iv*) Outlines of General Geography, including the elements of Mathematical and Physical Geography: with the Geography of India in fuller detail.

[*One Paper.*]

(*v*) Elementary Mechanics.

[*One Paper.*]

Candidates who take up (*iii*) will be permitted to submit their answers in that subject in one of the following languages: English, Bengali, Hindi, Uriya, Assamese, Urdu, Burmese, or Modern Armenian.

Each paper shall be of three hours and shall carry 100 marks.

10. The Matriculation Examination in English shall be a test (*a*) of ability to write clear, simple, and correct English, (*b*) of intelligent comprehension of plain modern English on familiar subjects.

A small selection of books shall be recommended, as showing the standard up to which students will be expected to have read. The Examiners may or may not, at their option, set passages from such books.

The first paper in English at the Matriculation Examination shall include passages in one of the following vernaculars for translation into English :

Bengali, Hindi, Uriya, Urdu, Burmese, Modern Armenian, Parbatia, Assamese, and Khasi.

The Syndicate shall have power to add to this list.

11. As soon as possible after the Examination the Syndicate shall publish a list of the candidates who have passed arranged in three divisions, each in alphabetical order. Every candidate shall on passing receive a certificate in the form entered in Appendix A.

12. The limits of the subjects are defined below, and books shall be recommended, when necessary, to indicate the standard and extent of knowledge required in the different subjects.

ENGLISH.

1. Questions shall be set under the following heads, namely :

(*a*) Simple unseen passages (*i.e.*, from other sources than the books recommended).

(*b*) Grammar and composition.

(*c*) Translation from one of the recognised vernaculars into English.

(*d*) Simple Essays.

Questions may also be set on—

(*e*) Passages from the books recommended.

2. Candidates may be asked to explain, summarise, or paraphrase the passages set, or to answer any question thereon which will test their understanding of the meaning or the construction. Historical, geographical, and literary allusions shall be excluded.

3. The head "Grammar and Composition" shall include (*a*) questions involving the practical application of the elementary rules of Grammar, (*b*) questions on the right use of words and phrases, and (*c*) exercises in composition.

4. Passages for translation may be narrative or descriptive, or may consist of simple conversations on ordinary subjects. They must be such as may be easily rendered from the one language into the other. They shall, where possible, be taken from recognised vernacular authors; and they shall not consist of any translation made for the purpose of the examination, from English into the vernacular.

5. Two Essays shall be set, giving in the one case not merely the subject, but also headings under the subject, for the candidates to expand in their own words, and in the other merely the subject without headings.

6. The distribution of the heads and of marks in the two papers shall be as follows :

Paper I.—Translation from a vernacular into English : three passages shall be set, of which two only must be attempted...[*70 marks.*]

Two Essays, each carrying 15 marks ... ... [*30 marks.*]

Paper II.—(*a*) Passages, if any, from recommended books, and (*b*) unseen passages : not more than half the marks shall be allotted to (*a*) ... ... [*70 marks.*]

Grammar and Composition [*30 marks.*]

MATHEMATICS.

Compulsory paper.

(A) *Arithmetic.*—The four Simple Rules, Vulgar and Decimal Fractions, Reduction, Practice, Proportion, Simple Interest. Problems more easily solvable by Algebra should not be required to be solved arithmetically.

(B) *Algebra.*—The four Simple Rules, Proportion, Simple Equations, Greatest Common Measure, Least Common Multiple, Graphs of Simple Equations.

(C) *Geometry.*

PRACTICAL.

Bisection of angles and of straight lines.

Construction of perpendiculars to straight lines.

Construction of an angle equal to a given angle.

Construction of parallels to a given straight line.

Construction of triangles with given parts.

Division of a straight line into a given number of equal parts.

Construction of a parallelogram equal to a given triangle, and having one of its angles equal to a given angle.

Construction of a triangle equal in area to a given rectilineal figure.

Construction of a tangent to a circle.

Easy extensions of these constructions may be given as problems.

Candidates may be required to give the reasons for any particular construction involved in any question.

Every candidate is required to provide himself with the following :—a hard pencil, dividers, pencil compasses, and a straight ruler showing centimetres and inches.

THEORETICAL.

Angles at a point.

If a straight line stands on another straight line, the sum of the two angles so formed is equal to two right angles, and the converse.

If two straight lines intersect, the vertically opposite angles are equal.

Parallel straight lines.

If a straight line, cutting two other straight lines, makes—

(i) the alternate angles equal,

(ii) two corresponding angles equal,

(iii) the interior angles on the same side of the line supplementary,

then the two straight lines are parallel; and the converse.

Straight lines which are parallel to the same straight line are parallel to one another.

Triangles and rectilineal figures.

The sum of the angles of a triangle is equal to two right angles.

If the sides of a convex polygon are produced in order, the sum of the angles so formed is equal to four right angles.

Two triangles are equal in every respect—

(i) If two sides and the included angle of one triangle are respectively equal to two sides and the included angle of the other.

(ii) If two angles and a side of the one triangle are respectively equal to two angles and the corresponding side of the other.

If two sides of a triangle are equal, the angles opposite to these sides are equal; and the converse.

Two triangles are equal in every respect if the three sides of one triangle are respectively equal to the three sides of the other.

Two right-angled triangles are equal in every respect if they have their hypotenuses equal, and one side of the one equal to one side of the other.

If two sides of a triangle are unequal, the greater side has the greater angle opposite to it; and the converse.

Any two sides of a triangle are together greater than the third.

Of all the straight lines that can be drawn to a given straight line from a given point outside it, the perpendicular is the shortest.

The opposite sides and angles of a parallelogram are equal; each diagonal bisects the parallelogram, and the diagonals bisect one another.

If there are three or more parallel straight lines, and the intercepts made by them on any straight line that cuts them are equal, then the corresponding intercepts on any other straight line that cuts them are equal.

Areas.

Parallelograms on the same or equal bases and of the same altitude are equal in area.

Triangles on the same or equal bases and of the same altitude are equal in area.

Equal triangles on the same or equal bases are of the same altitude.

Illustrations and explanations of the geometrical theorems corresponding to the following algebraical identities :

$k(a+b+c+\ldots)=ka+kb+kc+\ldots$

$(a+b)^2=a(a+b)+b(a+b)$.

$a(a+b)=a^2+ab$.

$(a+b)^2=a^2+2ab+b^2$.

$(a-b)^2=a^2-2ab+b^2$.

$a^2-b^2=(a+b)(a-b)$.

The square on a side of a triangle is greater than, equal to, or less than the sum of the squares on the other two sides, according as the angle contained by those sides is obtuse, right, or acute. The difference in the cases of inequality is twice the rectangle contained by one of the two sides and the projection on it of the other.

Loci.

The locus of a point which is equidistant from two fixed points is the perpendicular bisector of the straight line joining the two fixed points.

The locus of a point which is equidistant from two intersecting straight lines consists of the pair of straight lines which bisect the angles between the two given lines.

The Circle.

A straight line drawn from the centre of a circle to bisect a chord which is not a diameter, is at right angles to the chord; conversely, the perpendicular to a chord from the centre bisects the chord.

There is one circle, and one only, which passes through three given points not in a straight line.

In equal circles (or in the same circle) (i) if two arcs subtend equal angles at the centre, they are equal, (ii) conversely, if two arcs are equal, they subtend equal angles at the centre.

In equal circles (or in the same circle) (i) if two chords are equal, they cut off equal arcs, (ii) conversely, if two arcs are equal, the chords of the arcs are equal.

Equal chords of a circle are equidistant from the centre; and the converse.

The tangent at any point of a circle is perpendicular to the radius through the point.

If two tangents are drawn to a circle from an external point (i) they are equal, (ii) they subtend equal angles at the centre of the circle.

If two circles touch, the point of contact lies on the straight line through the centres.

The angle which an arc of a circle subtends at the centre is double that which it subtends at any point on the remaining part of the circumference.

Angles in the same segment of a circle are equal; and if the line joining two points subtends equal angles at two other points on the same side of it, the four points lie on a circle.

The angle in a semi-circle is a right angle; the angle in a segment greater than a semi-circle is less than a right angle; and the angle in a segment less than a semi-circle is greater than a right angle.

The opposite angles of any quadrilateral inscribed in a circle are supplementary; and the converse.

If a straight line touch a circle, and from the point of contact a chord be drawn, the angles which this chord makes with the tangent are equal to the angles in the alternate segments.

If two chords of a circle intersect either inside or outside the circle, the rectangle contained by the parts of the one is equal to the rectangle contained by the parts of the other.

Each question on Theoretical Geometry shall consist of a theorem contained in the above schedule together with an easy deduction.

Any proof of a proposition shall be accepted, which appears to the Examiners to form part of a systematic treatment of the subject, but proofs of theorems should, as far as possible, be based on first principles; the order in which the theorems are stated in the above schedule is not to be regarded as essential.

In the proof of theorems and deductions from them, it shall be permissible to use hypothetical constructions.

The ordinary symbolical abbreviations may be used.

SANSKRIT.

Compulsory paper.

1. The course shall include simple pieces in prose and verse selected from the following works:—Hitopadesa, Panchatantra, Rámáyana, Mahábhárata and Vishnu Purána. To the above list other works may, from time to time, be added by the Syndicate on the recommendation of the Board of Studies in Sanskrit. The selections shall be prescribed and prepared by, and be the property of the University, and they shall be notified two years before the examination for which they are prescribed.

2. A book of Elementary Sanskrit Grammar shall also be prepared and prescribed by the University and be its property.

3. The marks in the compulsory paper in Sanskrit shall be distributed as follows:

(i) Passages from the prescribed texts for translation into English, together with (*a*) grammatical questions and (*b*) questions on the subject matter of the texts.

[*50 marks.*]

Under this head simple translation from the text shall in no case carry more than 25 marks.

(ii) Questions involving the practical use of the elementary rules of Grammar, including passages containing grammatical errors for correction.

[*25 marks.*]

(iii) Translation of simple sentences from English into Sanskrit; such sentences shall in no case be translations of portions of the prescribed texts.

[*25 marks.*]

PALI.

Compulsory paper.

1. The course in Pali shall include simple pieces in Prose and Poetry selected from the undermentioned works of the Khuddaka Nikáya of the Sutta Pitaka and from the Dipavamsa:

Prose—Játaka.

Poetry—Khuddakapátha, the Dipavamsa.

To the above list other works may, from time to time, be added by the Syndicate on the recommendation of the Board of Studies in Sanskritic Languages.

The selections shall be notified two years before the Examination for which they are prescribed.

2. Grammars will be recommended from time to time and a general knowledge of the following shall be demanded from the candidate:—(*a*) *Sandhi-kappa*, (*b*) *Náma-kappa*, including *Sabda-rupa*, *Karaka*, *Samása* and *Taddhita*, (*c*) *Akhyáto*, and (*d*) *Kita-kappa* excluding *Unádi*.

3. The marks in the compulsory paper in Pali shall be distributed as follows:

(1) Passages from the prescribed texts for translation into English, together with (*a*) grammatical questions and (*b*) questions on the subject-matter of the texts. [*50 marks.*]

Under this head simple translation from the text shall in no case carry more than 25 marks.

(2) Questions involving the practical use of the elementary rules of Grammar, including passages containing grammatical errors for correction. [*25 marks.*]

(3) Translation of simple sentences from English into Pali. Such sentences shall in no case be translations of portions of the prescribed texts. [*25 marks.*]

ARABIC.

Compulsory paper.

1. The course in Arabic shall include prose selections from the following works:

The Qor'án; Alif Layla and Tabari's History.

The selections, which will be chosen with a view to avoiding difficult and obscure passages, shall be prepared by and be the property of the University.

2. The course shall include the general principles of Arabic Grammar according to modern methods; and the University shall prepare and prescribe an Arabic Grammar, which shall be its property.

3. The marks in the compulsory paper in Arabic shall be distributed as follows:

(1) Passages from the prescribed texts for translation into English, together with (*a*) grammatical questions and (*b*) questions on the subject-matter of the texts. [*50 marks.*]

Under this head, simple translation from the text shall in no case carry more than 25 marks.

(2) Questions involving the practical use of the elementary rules of Grammar, including passages containing grammatical errors for correction. [*25 marks.*]

(3) Translation of simple sentences from English into Arabic: such sentences shall in no case be translations of portions of the prescribed texts. [*25 marks.*]

PERSIAN.

Compulsory paper.

1. The course in Persian shall include selections from the following works:

Prose.—Gulistán, Siyásat Námah, Bahâristán, and the Safar Námah of Násir-i-Khusrau.

Poetry—Khamsa of Nizámi, Pand Námah of 'Attár, Masnaviyat of Hazín, Díván of Khusrau of Delhi.'

It shall also include a few easy passages in Arabic prose.

The selections shall be prescribed and prepared by the University and be its property.

2. The course shall further include the principles of Persian Grammar and composition, and the elements of Arabic Grammar, with special reference to the formation of words.

Grammars shall be recommended by the Board of Studies concerned.

The marks in the compulsory paper shall be distributed as follows:

(1) Passages from the prescribed texts for translation into English, together with (*a*) grammatical questions

and (*b*) questions on the subject-matter of the texts.

[*50 marks.*]

From 15 to 20 marks shall be assigned to questions on the Arabic portion of the selections.

Simple translation from the text shall in no case carry more than 25 marks.

(2) Questions involving the practical use of the elementary rules of Grammar, including passages containing grammatical errors for correction.

[*25 marks.*]

From 10 to 15 marks shall be assigned to purely Arabic Grammar.

(3) Translation of simple sentences from English into Persian; such sentences shall in no case be translations of portions of the prescribed texts.

[*25 marks.*]

ARMENIAN.

Compulsory paper.

1. The course shall consist of the following:

Elishe's History of the War of the Vardanians. Parts I and II.

Elishe Vardapiet Doorian's "Course of Classical Armenian." Part I [Prose and Verse].

2. Grammars will be recommended by the Board of Studies.

3. The marks in the compulsory papers in Armenian shall be distributed as follows:

(1) Passages from the prescribed texts for translation into English, together with (*a*) grammatical questions and (*b*) questions on the subject-matter of the texts.

[*50 marks.*]

Under this head, simple translation from the text shall in no case carry more than 25 marks.

(2) Questions involving the practical use of the elementary rules of Grammar, including passages containing grammatical errors for correction.

[*25 marks.*]

(3) Translation of simple sentences from English into Armenian: such sentences shall in no case be translations of portions of the prescribed texts.

[*25 marks.*]

HEBREW.

Compulsory paper.

1. The course shall include selections from Genesis, Isaiah and the Psalms.

To the above list other portions of the Old Testament may, from time to time be added by the Syndicate on the recommendation of the Board of Studies in Hebrew, who shall also recommend Grammars. The course shall be notified two years before the Examination for which it is prescribed.

2. The marks in the compulsory paper in Hebrew shall be distributed as follows:

(1) Passages from the prescribed texts for translation into English, together with (*a*) grammatical questions and (*b*) questions on the subject-matter of the texts.

[*50 marks.*]

Under this head, simple translation from the texts shall in no case carry more than 25 marks.

(2) Questions involving the practical use of the elementary rules of Grammar, including passages containing grammatical errors for correction.

[*25 marks.*]

(3) Translation of simple sentences from English into Hebrew; such sentences shall in no case be translations of portions of the prescribed texts.

[*25 marks.*]

GREEK.

Compulsory paper.

1. The course in prose shall consist of suitable portions of Xenophon, Lucian, and the New Testament.

The course in verse shall consist of suitable portions of Euripides. The course shall be notified two years before the Examination for which it is prescribed.

2. The marks in the compulsory paper in Greek shall be distributed as follows:

(1) Passages from the prescribed texts for translation into English, together with (*a*) grammatical questions and (*b*) questions on the subject-matter of the texts.

[*50 marks.*]

Under this head, simple translation from the text shall in no case carry more than 25 marks.

(2) Translation of unseen passages from Greek into English.

[*35 marks.*]

(3) Translation from English into Greek.
[*15 marks.*]

LATIN.

Compulsory paper.

1. The course in prose shall consist of suitable portions of Cæsar or Sallust.

The course in verse shall consist of suitable portions of Ovid or Virgil's Æneid. The course shall be notified two years before the Examination for which it is prescribed.

2. The marks in the compulsory paper in Latin shall be distributed as follows:

(1) Passages from the prescribed texts for translation into English, together with (*a*) grammatical questions and (*b*) questions on the subject-matter of the texts.
[*50 marks.*]

Under this head, simple translation from the text shall in no case carry more than 25 marks.

(2) Translation of unseen passages from Latin into English.
[*25 marks.*]

(3) Translation from English into Latin.
[*25 marks.*]

VERNACULARS.

1. In the case of each of the Vernaculars the Syndicate shall prescribe, on the recommendation of the Board of Studies, a small number of standard works (not exceeding six) to be read as models of style.

2. The examination shall include:

(*a*) Translation from English into the Vernacular.
[*40 marks.*]

(*b*) Questions on composition.
[*20 marks.*]

(*c*) An essay—headings being given.
[*40 marks.*]

3. Candidates shall not be asked to answer any questions on the subject-matter of the books recommended or on the history of vernacular literature.

4. The alternative paper in English shall be an advanced paper in composition, including the elements of Rhetoric and Prosody.

5. The papers in French and German shall consist of prose passages for translation into English, and one or more easy pieces for translation from English.

No text-books shall be prescribed, but a number of works shall from time to time be recommended as indicating the standard up to which candidates will be expected to have read.

MATHEMATICS.

Additional paper.

In addition to the Syllabus for the Compulsory paper, the following:

(A) *Arithmetic:* Extraction of Square Root; Exercises in the Metric System; Approximation to a specified degree of accuracy.

(B) *Algebra:* Quadratic Equations with one unknown quantity; Extraction of Square Root; Graphs of Pure Quadratic Equations (excluding constructions with different scales along two axes); Arithmetical and Geometrical Progressions; The Elementary Laws of Indices.

(C) *Geometry:*

PRACTICAL.

Simple cases of the construction of circles satisfying given conditions.

Construction of regular figures of 3, 4, 5, or 6 sides in or about a given circle.

Construction of a square equal in area to a given rectangle.

THEORETICAL.

Proportion: Similar Triangles.

If a straight line is drawn parallel to one side of a triangle, the other two sides are divided proportionally; and the converse.

If two triangles are equiangular, their corresponding sides are proportional; and the converse.

If two triangles have one angle of the one equal to one angle of the other, and the sides about these equal angles proportional, the triangles are similar.

If a polygon is divided into triangles by a line joining a given point to its vertices, any similar polygon can be divided into corresponding similar triangles.

The ratio of the areas of two similar triangles or of two similar polygons, is equal to the ratio of the squares on the corresponding sides.

The internal bisector of an angle of a triangle divides the opposite side internally in the ratio of the sides containing the angle; and likewise the external bisector externally.

SANSKRIT.

Additional paper.

In the additional paper in Sanskrit the marks shall be distributed in the following manner:

(1) Further questions on the text, in which simple translation from the text shall not carry more than 10 marks.

[*20 marks.*]

(2) Simple unseen passages for translation from Sanskrit into English.

[*30 marks.*]

(3) Questions on Grammar.

[*25 marks.*]

(4) Translation from English into Sanskrit.

[*25 marks.*]

PALI.

Additional paper.

In the additional paper in Pali the marks shall be distributed in the following manner:

(1) Further questions on the text, in which simple translation from the text shall not carry more than 10 marks.

[*20 marks.*]

(2) Simple unseen passages for translation from Pali into English.

[*30 marks.*]

(3) Questions on Grammar.

[*25 marks.*]

(4) Translation from English into Pali.

[*25 marks.*]

ARABIC.

Additional paper.

In the additional paper in Arabic the marks shall be distributed in the following manner:

(1) Further questions on the text, in which simple translation from the text shall not carry more than 10 marks.

[*20 marks.*]

(2) Simple unseen passages for translation from Arabic into English.

[*30 marks.*]

(3) Questions on Grammar.

[*25 marks.*]

(4) Translation from English into Arabic.

[*25 marks.*]

PERSIAN.

Additional paper.

In the additional paper in Persian the marks shall be distributed in the following manner:

(1) Further questions on the text, in which simple translation from the text shall not carry more than 10 marks.

[*20 marks.*]

(2) Simple unseen passages for translation from Persian into English.

[*30 marks.*]

(3) Questions on Persian Grammar.

[*10 marks.*]

(4) Question on Arabic Grammar.

[*15 marks.*]

(5) Translation from English into Persian.

[*25 marks.*]

ARMENIAN.

Additional paper.

In the additional paper in Armenian the marks shall be distributed in the following manner:

(1) Further questions on the text, in which simple translation from the text shall not carry more than 10 marks.

[*20 marks.*]

(2) Simple unseen passages for translation from Armenian into English.

[*30 marks.*]

(3) Questions on Grammar.

[*25 marks.*]

(4) Translation from English into Armenian.

[*25 marks.*]

HEBREW.

Additional paper.

In the additional paper in Hebrew the marks shall be distributed in the following manner:

(1) Further questions on the text, in which simple translation from the text shall not carry more than 10 marks.

[*20 marks.*]

(2) Simple unseen passages for translation from Hebrew into English. [*30 marks.*]

(3) Questions on Grammar. [*25 marks.*]

(4) Translation from English into Hebrew. [*25 marks.*]

LATIN AND GREEK.

Additional papers.

In the additional papers in Latin and Greek the marks shall be distributed in the following manner :

(1) Further questions on the text, in which simple translation from the text shall not carry more than 10 marks. [*20 marks.*]

(2) Unseen passages from Greek or Latin into English. [*30 marks.*]

(3) Unseen passages from English into Greek or Latin. [*30 marks.*]

(4) Questions on Grammar. [*20 marks.*]

HISTORY.

HISTORY OF INDIA.

The physical features of the country.

The aborigines of India. Immigrations from the north-east and north-west.

The Aryans. The Indo-Aryans.

The Vedas. Relation of the Rig-Veda to other Vedas.

The Brahmanas. The Smritis. Manu.

The caste system.

Buddha and Buddhism.

Mahavira and the Jains.

The kingdoms of Kosala and Magadha: the empire of the Nandas.

Invasion of Alexander the Great.

Accounts of India given by Greek writers.

The Maurya empire. Chandra Gupta. Asoka.

The Kusana empire; Kanishka. The Saka era. The Gupta empire; Buddhist architecture and the Fine Arts. Chinese pilgrims. Kalidas. Vikramaditya; the Vikrama era.

Rise of the Rajputs.

Mahomedan conquest of Sind and the Punjab; Mahmud of Gazni.

Hindu civilisation on the eve of the Mahomedan rule in India.

The Pathan dynasties. Muhammad Ghori. Qutb-ud-Dín. Altamish. Razia. Mogul invasion.

Conquest of Gujarat, Malwa, and the Deccan; incursions into Southern India. 'Ala-ud-Dín.

The Tughlak dynasty. Muhammad Tughlak; Firuz Tughlak. Timur's invasion. Break-up of the Pathan empire; the Mahomedan kingdoms of Delhi, Bengal, Jaunpur, Gujarat, the Deccan; and the Hindu kingdoms of Vijayanagar, Meywar and Orissa.

Rise of religious sects under Pathan rule: Ramananda, Kabir, Nanak, Chaitanya. Spread of Mahomedanism. Pathan architecture; the Urdu language; Indian literature in Pathan times.

The Mogul dynasty: Baber; Humayun; Sher Shah; Restoration of Humayun.

Akbar: Todar Mal; Abul-Fazl.

Jehangir; Nur Jehan; Sir Thomas Roe; Shah Jehan; Bernier; Mogul architecture.

Aurangzeb: Rajput revolt; his treatment of the Hindus; Sivaji and the Mahrattas; Break-up of the Mogul empire.

The successors of Aurangzeb: revolt of the provinces; invasions of the Mahrattas; invasions of Nadir Shah and Ahmed Shah Abdali. Struggle for supreme power between Mahomedans and Mahrattas; the Mahratta confederacy; extent of Mahratta dominion. Contact of the Mahrattas with the English.

The Europeans in India; discovery of the Cape route to India by the Portuguese. The Dutch, the French and the English Merchant Companies, and early Settlements. First charter of the East India Company.

The French in India, Dupleix. The English in India; Clive; English wars and territorial acquisitions in Madras, Bengal and Bombay. Plassey; the Dewani. Early History of Calcutta. Clive's system of administration. Warren Hastings: his financial, revenue and judicial reforms; his relations with native powers.

The Regulating Act; Warren Hastings, first Governor-General; extent of British dominion in his time.

Pitt's India Act; Lord Cornwallis; his administrative reforms; the permanent settlement. Sir John Shore; his non-intervention policy.

Lord Wellesley; his wars with Mysore and with the Mahrattas; the system of Subsidiary Treaties.

Lord Minto; state of Central India; extension of relations of British Indian Government with foreign powers outside India; renewal of the Company's Charter.

Lord Hastings; his wars with Nepal and with the Mahrattas. Lord Amherst; the first Burmese war.

Lord William Bentinck; his social and administrative reforms; renewal of the Company's Charter. Sir Charles Metcalfe. Lord Auckland; his policy; the First Afghan War. Lord Ellenborough; the Sind War. Lord Hardinge; the first Sikh War.

Lord Dalhousie; the second Sikh War; the doctrine of Lapse and the Annexation policy; the second Burmese War. Material progress of the country under Dalhousie.

Lord Canning; the Indian Mutiny, probable causes; the assumption of direct Government by the Crown; the Queen's Proclamation.

India under the Viceroys: Financial reforms; the Orissa Famine and other great famines; the Second and Third Afghan Wars; the Third Burmese War; delimitation of Frontier boundaries.

The Mahrattas: their rise; Sivaji and his successors; Mahratta system of war, administration, and revenue; rise of the Peshwas; Baji Rao; his successors; origin of the chief existing Mahratta states.

Mysore: an ancient Hindu kingdom; Hyder Ali; his wars with the Mahrattas, the Nizam and the English; Tippu Sultan; Restoration of the Hindu dynasty.

The Sikhs: their origin and religion; Guru Govinda; their struggle with Ahmed Shah Abdali; Ranjit Singh; his conquests; the Khalsa; Ranjit Singh's successors.

PROGRESS OF INDIA UNDER BRITISH RULE.

1. *Earliest declarations of principles of English rule.*—Variety of races and religions, and of conflicting interests: these interests subordinated to one great common interest that all have as subjects and citizens of one State. No ruling caste in India. The Queen's Proclamation.

2. *Respect for indigenous ideas and institutions.*—Freedom of faith and worship for all classes. No interference with seats of Oriental learning. Their encouragement in latter times. Hindu Law applicable to Hindus and Mahomedan Law to Mahomedans in certain classes of cases. Methods of land settlement. Early Village Police. Punchayets. Early methods of judicial administration.

3. *Advanced Western ideas and Institutions adapted and introduced as an agency of progress.*—

I. *Political.*—Codes embodying the most modern English juridical ideas. Open administration of justice. Equality of all men in the eye of the law. Litigious system of criminal procedure. The right of prisoners to be defended by counsel. No conviction or sentence without a trial. Trial by jury. Varieties of Local Self-Government. Progress of the elective system.

II. *Social.*—Social practices of a criminal character not tolerated. Abolition of *suttee*, of infanticide, of hook swinging. Legalisation of the re-marriage of Hindu widows. Removal of disabilities of Hindus from conversion to Christianity. Female Education. Laws in regard to decency and morals.

III. *Educational.*—Primary, secondary and higher education. Higher Education through the medium of the English language. Religious neutrality in education. Education open to all castes, races and sects. Scientific, technical and artistic education. Research. Education in foreign countries. Universities. Libraries. Museums. Learned Societies. Preservation of ancient records. Encouragement of authors.

IV. *Economic.*—Encouragement of industries. Free trade. Protective works against famine. Famine relief. Remission of revenue. Measures for the benefit of ryots. Agricultural Banks. Savings Banks. Protection of inventions. Industrial Exhibitions. Free scope for commercial and industrial enterprise.

V. *Material.*—Reclamation of waste lands. Railways. Telegraphs.

Irrigation Works. Mills. Factories. Dockyards. Tanks. Wells. Bridges. Landing places. Roads. Harbours. Fortifications. Sanitation. Measures for dealing with epidemics. Geological and other surveys. Forest laws. Mining operations. Preservation of ancient monuments.

VI. *Civic.*—Freedom of the Press. Right of public meeting. Right of petitioning. Eligibility to appointments in the public service and to honorary offices. Openness of the professions.

VII. *General.*—A high standard of general efficiency in the administration. Repression of thuggi and dacoity. Increased security of life and property. Widened spheres of popular activity. Awakening of a new national life.

THE PRESENT ADMINISTRATION OF INDIA.

Defence:—the Indian Army, and the British Naval Squadron in Indian waters.

Agencies for the maintenance of order:—the Magistracy and the Police.

The Viceroy and Governor-General of India: his responsibility to the Secretary of State: his Executive and Legislative Councils.

Constitution of various Provincial Governments.

Administration of Justice, Judicial Committee of the Privy Council the Highest Court of Appeal.

The High Courts established by Charter granted by the King in Parliament. Chief Courts established by the Government of India. District Courts; Civil and Criminal.

Chief sources of Revenue:—The Land Revenue: the Permanent, Raiyatwari and Talukdari Settlements: Salt and Opium Monopolies: Excise Duties: Import Duties: Income Tax: Direct and Indirect taxes.

Chief heads of Expenditure.

Local Self-Government; Municipalities; District Boards; Local Boards; Unions; Panchayats.

The Native States and the general nature of their connection with the British Government by subsidiary treaties: Hyderabad, Mysore, Kashmir, Gwalior, Baroda. Smaller States under an Agent to the Governor-General: names of these Agencies. Some small States under the control of the Provincial Governors.

A text-book on the present Administration of India and on the Progress of India under British Rule shall be prepared and prescribed by the University and be its property.

No text-books shall be prescribed on the historical portion of the Syllabus, but the Board of Studies shall, from time to time, recommend suitable books to indicate the standard of knowledge required.

GEOGRAPHY.

(i) GENERAL.

(*a*) The Earth's shape; day, night, and the seasons.

Divisions of the Earth's surface; Latitude, and Longitude.

The compass; simple map-making;

Land-forms, and the action of climatic forces on them.

The general relief of the Globe, *i.e.*, the great slopes of the world as forming the continental water-partings, and deciding the general distribution of rainfall.

The great oceans of the world, and their relation to the great water-partings; winds, tides, and currents.

(*b*) Outlines of the Political Geography of the World.

(ii) SPECIAL.

Political and General Geography of India and Burma, including the following points:

1. *Natural regions and surface features.*

2. *Distribution of rocks and economic minerals.*

Action of weather on rocks. Formation of soil. The work of rain and rivers. Alluvium.

3. *Climate.*

4. *Vegetation.*

Forest, pasture land, agricultural land, desert. Areas rendered cultivable by systems of irrigation. The distribution of teak, sal, and cocoanut trees; of rice, millet, wheat; of cotton, tea and jute.

5. *Animal Life.*

The principal animals and their distribution.

6. *Industries.*

The leading industries and their location. Circumstances favouring their growth.

7. *Population.*

Approximate number and density. Distribution of races, languages, and religions. Agricultural and non-agricultural elements of the population.

8. *Means of communication.*

The chief roads, waterways, and railways, and mountain passes.

9. *Commerce.*

The principal commodities exchanged and the countries of exchange. The chief ports, and their leading imports and exports.

ELEMENTARY MECHANICS.

I.—Motion.

Varieties of motion.

Elementary notions of velocity and acceleration.

Motion of a body with constant acceleration.

Composition and resolution of motions.

Bodies falling freely under gravity.

Special cases of bodies falling under gravity (inclined plane, projection in any direction, etc.).

II.—Force.

Elementary notions of mass, inertial momentum.

Force measured by rate of change of momentum.

Units of force; poundal, dyne.

Relation between mass and weight.

Atwood's machine.

Impulsive forces—impulse.

Newton's laws of motion.

Balancing of forces.

Conditions for the equilibrium of three forces not parallel.

Triangle and parallelogram of forces.

Moments.

Conditions for the equilibrium of three parallel forces.

Composition and resolution of parallel forces in one plane. Centre of parallel forces.

Centre of gravity. Mass-centre. Position of centre of gravity in stable and unstable equilibrium.

Methods of finding the centre of gravity of systems of particles in elementary cases.

Mass-centre of a triangle—of the perimeter of a triangle—of two bodies, whose individual mass-centres are given.

Illustrations of conditions of equilibrium in simple machines; levers; balance; pulleys; inclined plane.

The subject is to be treated mainly experimentally. No knowledge of mathematics except such as may be necessary for elucidating experiments and as may fall within the limits of the Matriculation Mathematics, compulsory and additional, shall be required.

GENERAL.

1. In order to pass the Matriculation Examination a candidate must obtain—

(i) In English, either:

In the first paper [*40 marks.*]

and in the aggregate of the two papers [*72 marks.*]

or,

in the aggregate of the two papers [*80 marks.*]

(ii) In the vernacular paper, or in the paper alternative to it [*36 marks.*]

(iii) In the compulsory Classical language paper [*30 marks.*]

(iv) In the compulsory Mathematical paper [*30 marks.*]

and

in the aggregate of all the papers [*250 marks.*]

provided that if less than *30 marks* are obtained in any of the additional papers or subjects, such marks shall not be included in the aggregate.

2. Candidates who obtain 350 marks in the aggregate shall be placed in the First Division, and those who obtain 280 in the Second Division.

3. Any candidate who has failed in one subject only, and by not more than 5 per cent. of the full marks in that subject, and has shown merit by gaining 350 marks shall be allowed to pass. In order to determine the Division in which such a candidate will be placed and his place in the Division, the number of marks by which he has failed in one subject shall be deducted from his aggregate.

4. If the Moderators are of opinion that, in the case of any candidate not covered by the preceding Regulations, consideration ought to be allowed by reason of his high proficiency in a particular subject or in the aggregate, they shall report the case to the Syndicate, and the Syndicate may pass such candidate.

CHAPTER XXXI.

INTERMEDIATE EXAMINATION IN ARTS.

1. The Intermediate Examination in Arts shall be held annually in Calcutta and in such other places as shall, from time to time, be appointed by the Syndicate, the approximate date to be notified in the Calendar.

2. Any undergraduate of the University may be admitted to this Examination, provided he has prosecuted a regular course of study in one or more Colleges affiliated for this purpose, for not less than two academical years after passing the Matriculation Examination.

Any student who has passed the Intermediate Examination in Science may take up the course for the Intermediate Examination in Arts at the second year's stage, and after one year's regular course of study in one or more Colleges affiliated for the purpose appear at the Examination. He will be excused attendance and examination in the subject or subjects in which he has already passed at the Intermediate Examination in Science.

3. Every candidate sent up for the Intermediate Examination in Arts by an affiliated College shall produce a certificate (*a*) of good conduct, (*b*) of diligent study, (*c*) of having satisfactorily passed the College periodical examinations and other tests, and (*d*) of probability of passing the examination. Every candidate for admission shall send in his application with a certificate in the form prescribed by the Syndicate either to the Registrar or to a local officer recognised by the Syndicate. Every such application must reach the office of the Registrar at least six weeks before the date fixed for the commencement of the Examination.

4. A fee of twenty-five rupees shall be forwarded by each candidate with his application. A candidate who fails to pass or to present himself for examination shall not be entitled to claim a refund of the fee. A candidate who fails to pass may be admitted to any one or more subsequent Intermediate Examinations in Arts on payment of a like fee of twenty-five rupees on each occasion, provided he produces a certificate from the Head of an affiliated College showing that he has prosecuted a regular course of study for one academical year since the date of the last Examination, in each of the subjects in which he is to be examined.

5. The Intermediate Examination in Arts shall be conducted by means of printed papers, the same papers being used at every place at which the Examination is held.

6. As soon as possible after the Examination, the Syndicate shall publish a list of the candidates who have passed, arranged in three divisions, the first in order of merit, and the second and third in alphabetical order. Every candidate shall, on passing, receive a certificate in the form entered in Appendix A.

7. The subjects for the Intermediate Examination in Arts shall be—

1. English— [*Three papers.*]

2. Composition in one of the following vernacular languages :—Bengali, Hindi, Uriya, Assamese, Urdu, Burmese, Modern Armenian.

[*One paper.*]

If the vernacular of a candidate is a language not included in the above list, he shall have an alternative paper of a somewhat advanced character in English.

3, 4 and 5. Three of the following subjects, of which two at least must be from group A.

Group A.

One of the following languages :

(i) Sanskrit, Pali, Arabic, Persian (with an elementary knowledge of Arabic), Hebrew, Classical Armenian, Greek, Latin, French, German.

(ii) History.

(iii) Logic.

(iv) Mathematics.

Group B.

(i) Physics.

(ii) Chemistry.

(iii) Geography.

(iv) Physiology.

(v) Botany.

(vi) Zoology.

(vii) Geology.

There shall be two papers in each of the subjects enumerated under Groups A and B.

Every paper in every subject shall be of three hours, and shall carry 100 marks.

9. The Syllabus in Mathematics and in all the subjects in Group B shall be the same as that prescribed for the Intermediate Examination in Science.

10. No practical examination will be held by the University in connection with subjects in group B in the Intermediate Examination in Arts, but every student who desires to be examined in any such subject must produce a certificate from the Principal of his College to the effect that he has completed in an affiliated College the corresponding practical course prescribed by the Regulations.

11 The following are definitions of the limits of the above subjects:

ENGLISH.

Paper I—Poetry texts.

Paper II—Prose texts.

Paper III (*a*) Essay, (*b*) Prosody and Rhetoric, (*c*) Questions on unseen passages from books of the same standard of difficulty as those recommended for the Matriculation Examination.

(*a*) shall carry 40 marks.

(*b*) „ „ 20 „

(*c*) „ „ 40 „

VERNACULARS.

1. In the case of each of the Vernaculars the Syndicate shall prescribe, on the recommendation of the Board of Studies concerned, a small number of standard works (not exceeding six) to be read as models of style.

2. The examination shall include:

(*a*) Translation from English into the Vernacular.

[*40 marks.*]

(*b*) Questions on composition.

[*20 marks.*]

(*c*) An essay—headings being given.

[*40 marks.*]

3. Candidates shall not be asked to answer any questions on the subject-matter of the books recommended, or on the history of the Vernacular Literature.

4. If the vernacular of a candidate is a language not included in the prescribed list of vernaculars, he shall have an alternative paper in English.

5. The alternative paper in English shall be an advanced paper in composition including Rhetoric and Prosody.

SANSKRIT.

1. The course in Sanskrit shall consist of selected passages in prose and verse. The texts in poetry shall include a portion of the Bhattikavya, and a portion either of the Raghuvansa or of the Kumar Sambhava. The texts in prose shall be taken from the Dasakumarcharita and the Mahabhárata.

2. The course shall also include the elements of Sanskrit Grammar, of which a fuller knowledge shall be required than at the Matriculation Examination. A text-book in Grammar shall be prepared and prescribed by the University and be its property.

3. The marks shall be distributed as follows:

Paper I.

(*a*) Questions on the Poetry texts. Not more than 25 marks shall be assigned to mere translation from the set texts.

[*50 marks.*]

(*b*) Questions on Grammar, including passages for correction.

[*25 marks.*]

(*c*) Passages for translation from English into Sanskrit.

[*25 marks.*]

Paper II.

(*a*) Questions on the prose texts. Not more than 15 marks shall be assigned to mere translation from the set texts.

[*30 marks.*]

(*b*) Unseen Sanskrit passages for translation into English.

[*30 marks.*]

(*c*) Questions on Grammar.

[*15 marks.*]

(*d*) Passages for translation from English into Sanskrit.

[*25 marks.*]

Questions on the texts shall comprise—

(*a*) Passages from the set texts for translation into English.

(b) Questions on the subject-matter of the text.

(c) Questions on the language of the text and grammatical questions relating thereto.

(d) Passages for translation into English from such standard Sanskrit commentaries on the set texts as may be prescribed from time to time.

4. Unseen passages shall consist of simple prose not exceeding in difficulty the prose texts set for the Matriculation Examination.

No questions shall be set on Prosody or Rhetoric.

PALI.

1. The course in Pali shall consist of the whole of Anderson's Reader, and such other selections as may from time to time be prescribed by the Board of Studies in Sanskritic Languages.

2. The course shall also include a knowledge of Pali Grammar, of a higher standard than that required at the Matriculation Examination.

Grammars shall be recommended from time to time by the Board of Studies concerned.

3. The marks shall be distributed as follows :

Paper I.

(a) Questions on the Poetry texts. Not more than 25 marks shall be assigned to mere translation from the set texts.

[*50 marks.*]

(b) Grammatical questions.

[*25 marks.*]

(c) Passages for translation from English into Pali.

[*25 marks.*]

Paper II.

(a) Questions on the prose texts. Not more than 25 marks shall be assigned to mere translation from the set texts.

[*50 marks.*]

(b) Unseen Pali passages for translation into English.

[*30 marks.*]

(c) Grammatical questions.

[*20 marks.*]

Questions on the texts shall comprise—

(a) Passages from the set texts for translation into English.

(b) Questions on the subject-matter, and

(c) Questions on the language of the text.

Unseen passages shall consist of simple prose not exceeding in difficulty the texts set for the Matriculation Examination.

ARABIC.

1. The course in Arabic shall consist of such portions as may be prescribed by the Syndicate on the recommendation of the Board of Studies concerned, of the following works :

The Qor'án,

Qalyúbí,

Kalíla and Dimna,

Ibn-al-Athír's History.

The selections shall be prepared by and be the property of the University.

2. The course shall also include Arabic Grammar, of which a fuller knowledge shall be required than at the Matriculation.

A text-book in Grammar shall be prepared and prescribed by the University and be its property.

3. The marks shall be distributed as follows:

Paper I.

(a) Questions on the texts. Not more than 25 marks shall be assigned to mere translation.

[*50 marks.*]

(b) Grammar, including passages for correction and unvocalised passages for vocalisation.

[*30 marks.*]

(c) Simple English passages for translation into Arabic.

[*20 marks.*]

Paper II.

(a) Questions on the texts.

[*30 marks.*]

Not more than 15 marks shall be assigned to mere translation.

(b) Unseen passages of Arabic for translation into English.

[*30 marks.*]

(*c*) Questions on Grammar

[*15 marks.*]

(*d*) Simple English passages for translation into Arabic.

[*25 marks.*]

The passages for translation from English into Arabic shall in no case be translated portions of the prescribed text.

Questions on the texts shall comprise—

(*a*) Passages from the set texts into English.

(*b*) Questions on the subject-matter, and

(*c*) Questions on the language of the text.

The unseen passages shall consist of simple prose not exceeding in difficulty the texts set for the Matriculation Examination.

No questions shall be set on Prosody or Rhetoric.

PERSIAN.

1. The course in Persian shall consist of selected passages in prose and verse from the following works:

Poetry—

The Sikandar-Nama of Nizámí,

The Kullíyát of Salmán Sávejí,

Bostán of Sa'dí.

Prose—

The Anwár-i-Sohaylí.

The Zafar-Náma of Sharaf-ud-Dín 'Alí Yazdí.

Akhláq-i-Muhsini.

The above list may from time to time be added to on the recommendation of the Board of Studies.

The selections shall be prescribed and prepared by the University and be its property.

In addition to the above a portion of the Arabic selections for the Matriculation Examination shall form part of the Persian Course.

2. The course shall include Persian Grammar, and also Arabic Grammar to the extent and standard required for candidates who offer Arabic in the Matriculation Examination.

3. The marks shall be distributed as follows:

Paper I.

(*a*) Questions on Persian Poetry texts.

[*40 marks.*]

Not more than 20 marks shall be assigned to mere translation.

(*b*) Persian Grammar.

[*10 marks.*]

(*c*) Arabic Grammar.

[*20 marks.*]

(*d*) Translation of prescribed Arabic passages into English.

[*30 marks.*]

In (*b*) and (*c*) passages shall be set for testing the practical application of grammatical rules.

Paper II.

(*a*) Questions on Persian Prose texts.

[*20 marks.*]

Not more than 10 marks shall be assigned to mere translation.

(*b*) Unseen passages for translation from Persian into English.

[*30 marks.*]

(*c*) Passages of simple English prose for translation into Persian.

[*50 marks.*]

The passages for translation from English into Persian shall in no case be translated portions of the prescribed texts.

Question on the Persian text shall comprise—

(*a*) Passages from the set texts for translation into English.

(*b*) Questions on the subject-matter, and

(*c*) Questions on the language of the text.

The unseen Persian passages shall consist of easy prose and verse not exceeding in difficulty the text prescribed for the Matriculation Examination.

No questions shall be set on Prosody or Rhetoric.

ARMENIAN.

1. The Course in Classical Armenian shall consist of:

Prose.

Moses of Khoren's History of Armenia, Part II.

Poetry.

Elishé Vardapiet Doorian's Course of Classical Armenian, Part II.

The course shall also include Armenian Grammar, of which a fuller knowledge

will be required than at the Matriculation Examination.

2. The marks shall be distributed as follows:

Paper I.

(*a*) Questions on the Prose Text.

[*40 marks.*]

Not more than 20 marks shall be assigned to mere translation.

(*b*) Questions on Grammar, including passages containing errors for correction.

[*20 marks.*]

(*c*) Passages for translation from English into Armenian.

[*40 marks.*]

Paper II.

(*a*) Questions on the Poetry Texts.

[*40 marks.*]

Not more than 20 marks shall be assigned to mere translation.

(*b*) Unseen passages in Armenian for translation into English.

[*30 marks.*]

(*c*) Passages for translation from English into Armenian.

[*30 marks.*]

Questions on the texts shall comprise—

(*a*) Passages from the set texts for translation into English.

(*b*) Questions on the subject-matter, and

(*c*) Questions on the language of the text.

The unseen passages shall consist of simple prose not exceeding in difficulty the text prescribed for the Matriculation Examination.

HEBREW.

The course in Hebrew shall consist of prescribed selections from Genesis, Isaiah, Ruth and the Psalms.

The marks in the two papers shall be distributed in the same proportions as in the case of Armenian.

GREEK.

1. The course in Greek shall consist of suitable selections from the following prose writers and poets, to be prescribed from time to time by the Board of Studies concerned:

Xenophon, Herodotus, Plato, Putarch, Homer, Euripides and Sophocles.

The course shall also include Attic Greek Grammar.

2. The marks shall be distributed as follows:

Paper I.

(*a*) Questions on the Prose selections.

[*40 marks.*]

Not more than 20 marks shall be assigned to mere translation.

(*b*) Questions on the Poetry Selections.

[*40 marks.*]

Not more than 20 marks shall be assigned to mere translation.

(*c*) Questions on Grammar.

[*20 marks.*]

Paper II.

(*a*) Translation of simple passages from English into Greek.

[*30 marks.*]

(*b*) Unseen passages in Greek for translation into English.

[*70 marks.*]

Questions on the texts shall comprise—

(*a*) Passages from the set texts for translation into English.

(*b*) Questions on the subject-matter, and

(*c*) Questions on the language of the text.

The unseen passages shall not exceed in difficulty the selections set for the Matriculation Examination.

LATIN.

1. The course in Latin shall consist of suitable selections from the following prose writers and poets, to be prescribed from time to time by the Board of Studies concerned:

Sallust, Cicero, Livy, Virgil, Horace.

The course shall also include Latin Grammar.

2. The marks shall be distributed as follows:

Paper I.

(*a*) Questions on the Prose selections

[*40 marks.*]

(*b*) Questions on the Poetry selections.

[*40 marks.*]

In neither case shall mere translation of the set texts carry more than 20 marks.

(*c*) Questions on Grammar.

[*20 marks.*]

Paper II.

(*a*) Translation of simple passages from English into Latin.

[*40 marks.*]

(*b*) Unseen passages in Latin for translation into English.

[*60 marks.*]

Questions on the texts shall comprise—

(*a*) Passages from the set texts for translation into English.

(*b*) Questions on the subject-matter, and

(*c*) Questions on the language of the text.

The unseen passages shall not exceed in difficulty the selections set for the Matriculation Examination.

FRENCH.

1. The course in French shall consist of one work in prose and selections in verse from one or more writers, which shall be prescribed from time to time by the Board of Studies concerned. The course shall include French Grammar.

2. The marks shall be distributed as follows:

Paper I.

(*a*) Questions on the prescribed text prose and verse.

[*50 marks.*]

Not more than 25 marks shall be assigned to mere translation.

(*b*) Questions on Grammar.

[*20 marks.*]

(*c*) Passages for translation from English into French.

[*30 marks.*]

Paper II.

(*a*) Unseen passages of French prose and verse for translation into English.

[*70 marks.*]

(*b*) Passages for translation from English into French.

[*30 marks.*]

Questions on the text shall comprise—

(*a*) Passages from the set texts for translation into English.

(*b*) Questions on the subject-matter, and

(*c*) Questions on the language of the text.

GERMAN.

1. The course in German shall consist of one work in prose and selections in verse from one or more writers, which shall be prescribed from time to time by the Board of Studies concerned. The course shall include German Grammar.

2. The marks in the two papers shall be distributed in the same proportion as in the case of French.

HISTORY.

The subject shall be—

(*i*) The History of England from the earliest times to the end of the reign of Victoria.

(*ii*) The History of Ancient Greece, from the earliest times to the Roman Conquest, 146 B.C.

(*iii*) The History of Rome from the earliest times to the extinction of the Western Empire, 476 A.D.

Paper I.—History of England.

Paper II.—History of Greece and of Rome.

LOGIC.

Definition, Scope and Use of Logic. Its relation to Metaphysics and Psychology. Immediate and Mediate knowledge. Reasoning in general. Division of Logic into Formal and Material. Formal Logic. Principles of Formal Reasoning : Identity, Contradiction, Sufficient Reason. Axioms and Postulates. Language and Thought. Realism. Conceptualism and Nominalism, and their bearing on the nature of the logical processes.

Concept and Term. Abstraction. Use of Names. Denotation and Connotation, Extension and Intension. Distribution.

Definition, with its limits and formal conditions. Logical Division and its conditions. Various Divisions of Terms, and their significance.

Judgment and the Proposition. Theory of Predication and Import of Propositions, Essence. Genus. Species. Differential Property. Accident. Quantity and Quality. Modality. Simplification of Propositions. Various Divisions of Propositions, and their significance. Opposition of Propositions, and its practical applications.

Inference in general. Immediate and Mediate Inference, Deductive and Inductive Inference.

Immediate inference, and its different forms. Conversion, Obversion, Contraposition, Inversion, Opposition, with their practical applications.

Deductive Inference. Premises and Middle Terms. Syllogism: its structure and conditions. The Canons. Figures and Moods, and their rules. Reduction. Hypothetical and Disjunctive Syllogisms with their rules. Dilemma. Compound Syllogisms and Trains of Reasoning. Practical application of the Syllogism to express and test reasonings.

Fallacies in Deductive Reasoning.

Material Logic. Nature of Truth. Knowledge and Reality. Sources of knowledge. Perception. Inference. Authority. Necessary Truth.

Generalization and the General Idea.

Science. Laws of Nature. Uniformity of Nature.

The grounds and conditions of Inductive Inference. Causality. Origin of belief in universal causation. Energy and conservation. Causes and Conditions. Plurality of Causes. Composition of Causes, and Intermixture of Effects.

Discovery and Proof. Hypotheses, their uses and conditions. Theory. Verification. Observation and Experiment and their uses. The Experimental methods and their uses, with examples of their application. Fallacies of Observation.

Nature, place and use of the Inductive Method. Perfect and Imperfect, Complete and Incomplete Induction. Inference from Analogy. Inference from Simple Enumeration. Inductive Probability; Chance and its Elimination. Scientific Induction. Processes simulating Induction. Fallacies in Inductive Reasoning.

Classification, Natural and Artificial, and its conditions. Relation of Classification to Division. Definition, and its material conditions. Description. Type. Errors in Classification and Definition. Terminology and Nomenclature.

Nature, place and use of the Deductive Method. Relation of Induction and Deduction; Nature, function and value of the Syllogism. Inductive and Deductive Sciences. The actual Method of Scientific Progress. Demonstration. The World as a system of law. Explanation, and its limits.

GENERAL.

1. In order to pass the Intermediate Examination in Arts, a candidate must obtain—

In English [168 *marks.*]

In the Vernacular or the alternative paper [36 *marks.*]

In each of the remaining subjects taken up [60 *marks.*]

And in the aggregate [340 *marks.*]

2. In order to be placed in the first division a candidate must obtain [500 *marks.*]

In order to be placed in the second division. [400 *marks.*]

The names of candidates placed in the first division shall be published in order of merit.

3. Any candidate who has failed in one subject only, and by not more than 5 per cent. of the full marks in that subject, and has shown merit by gaining 500 in the aggregate, shall be allowed to pass. In order to determine the division in which such a candidate will be placed and his place in the division, the number of marks by which he has failed in one subject shall be deducted from his aggregate.

4. If the Moderators are of opinion that, in the case of any candidate not covered by the preceding Regulations, consideration ought to be allowed by reason of his high proficiency in a particular subject, or in the aggregate, they shall report the case to the Syndicate, and the Syndicate may pass such candidate.

5. Candidates who, after passing the Intermediate Examination in Science, appear for the Intermediate in Arts, shall be required, in order to pass, to obtain 36 per cent. in each subject for which they present themselves in the latter examination.

CHAPTER XXXII.

BACHELOR OF ARTS.

1. An examination for the Degree of Bachelor of Arts shall be held annually in Calcutta, and at such other places as shall from time to time be appointed by the Syndicate, and shall commence at such time as the Syndicate shall determine, the approximate date to be notified in the Calendar.

2. Any undergraduate of the University may be admitted to the Examination provided he has prosecuted a regular course of study for not less than two academical years after passing the Intermediate Examination in Arts in a College or Colleges affiliated to the University in the subjects which the candidate takes up.

3. Every candidate sent up for the B.A. Examination by an affiliated College shall produce a certificate (*a*) of good conduct, (*b*) of diligent study, (*c*) of having satisfactorily passed the College periodical examinations and other tests, and (*d*) of probability of passing the Examination. Every candidate shall send to the Registrar his application, with a certificate in the form prescribed by the Syndicate at least six weeks before the date fixed for the commencement of the Examination. If he desires to be examined for Honours in any subject, he shall name the subject in his application. If a candidate offers himself for Examination in Hebrew, Armenian, French, or German, he shall be required to give the Registrar notice of the fact twelve months before the date of the Examination.

4. A fee of Rs. 35 shall be forwarded by each candidate with his application.

A candidate who fails to pass, or to present himself for examination shall not be entitled to claim a refund of the fee. A candidate who fails to pass may be admitted to one or more subsequent Examinations for the Degree of Bachelor of Arts on payment of a like fee of Rs. 35 on each occasion, provided he produces a certificate from the Head of an affiliated College shewing that he has prosecuted a regular course of study for one academical year since the date of the last Examination, in each of the subjects in which he is to be examined.

5. The Examination for the Degree of Bachelor of Arts shall be conducted by means of printed papers, the same papers being used at every place at which the Examination is held.

6. Every candidate shall be examined in the following subjects:

(1) English.

(2) Composition in one of the following Vernaculars :—Bengali, Hindi, Uriya, Assamese, Burmese, Urdu, Modern Armenian.

For candidates whose vernacular is English or an Indian vernacular not included in this list, there shall be an advanced paper in English which shall be treated as separate from the Examination in English.

(3) and (4) Two of the following subjects, one of which at least must belong to Group A:

A.

(I) One of the following languages :—Sanskrit, Pali (including a knowledge of Sanskrit up to the Matriculation Standard), Arabic, Persian (including a knowledge of Arabic up to the Intermediate Standard), Hebrew, Classical Armenian, Greek, Latin, French, German.

(II) History.

(III) Political Economy and Political Philosophy.

(IV) Mental and Moral Philosophy.

(V) Mathematics.

B.

(I) Physics.

(II) Chemistry.

(III) Physiology.

(IV) Botany.

(V) Zoology.

No candidate shall be allowed to take up Mental and Moral Philosophy unless he has taken up Logic in the Intermediate Examination in Arts. No candidate shall be allowed to take up any subject in Group B, or Mathematics, who has not taken up the corresponding subject in the Intermediate Examination.

7. A candidate may take the Pass Course in four subjects or he may take the Pass Course in three subjects and the Honours Course in one subject only; but there shall be no Honours Course in the Vernacular.

8. There shall be three papers in the Pass Course and six papers in the Honours Course, in every subject except the Vernacular. In that subject only one Pass paper shall be set. Each paper shall be of three hours and shall carry 100 marks.

9. In the syllabuses hereinafter defined Papers I, II and III shall be on the Pass Course, but questions set for Honours Candidates need not be identical with those set for Pass Candidates. Papers IV, V and VI shall be for Honours Candidates only.

10. As soon as possible after the Examination, the Syndicate shall publish a list of the candidates who have passed in the Pass Course, arranged in alphabetical order, together with a list of those who have obtained Honours in each branch, arranged in two classes, both in order of merit. Each successful candidate shall receive with his Degree of B.A. a certificate in the form entered in Appendix A.

11. The syllabuses in Mathematics and in the subjects under Group B shall be identical in the B. A. and B. Sc. Examinations and will be found under the B. Sc. Regulations.

There shall be a practical Examination in all subjects included in Group B.

12. The following syllabuses define the subjects prescribed for the B. A. Examination. Books shall be recommended where necessary by the Board of Studies concerned.

ENGLISH.

1. In Papers I, II, IV and V not more than half the marks shall be given for explanation of passages set from the prescribed texts.

2. In these papers, questions may be asked to test the candidate's appreciation of the books he has studied in the course, but questions encouraging the mere reproduction of literary criticisms shall not be set.

3. The subjects and marks shall be respectively divided as follows :

Paper I.—

Poetry and Drama texts.

[*100 marks.*]

Paper II.—

Prose texts.

[*100 marks.*]

In regard to the subject of these two papers students shall be expected to possess a general knowledge of the life and literary career of the authors whose works are prescribed.

Paper III.—

(*a*) Essay.

[*50 marks.*]

(*b*) Unseen passages from authors or works of the same standard of difficulty as those prescribed for the Intermediate Examination.

[*50 marks.*]

4. Additional Honours papers.

Paper IV.—

(*a*) Additional Poetry and Drama texts.

[*75 marks.*]

(*b*) Additional unseen passages in Poetry and Drama.

[*25 marks.*]

Paper V.—

(*a*) Additional Prose texts.

[*75 marks.*]

(*b*) Additional unseen passages in Prose.

[*25 marks.*]

In Papers IV and V the unseen passages shall not be of a higher standard of difficulty than the prescribed texts.

Paper VI.—

(*a*) Philology of the English language.

[*50 marks.*]

(*b*) General History of English Literature.

[*50 marks.*]

5. No texts or unseen passages shall be taken from Spenser or from authors earlier than the Elizabethan period.

VERNACULARS.

1. The course for the B. A. Examination in each of the Vernaculars shall consist of a small number of standard works (not exceeding three) to be read as presenting ideals of character and models of style. The names of the works in each language shall be notified from time to time by the Syndicate on the recommendation of the Board of Studies in that language.

2. The paper shall be a test of composition and of a general knowledge of the subject-matter of the books recommended.

Questions shall not be set on the history of the Vernacular and its literature.

ALTERNATIVE PAPER IN ENGLISH.

The special paper shall be a test in English Composition and on a general knowledge of the subject-matter of a small number of standard works in English (not exceeding three) to be prescribed by the Syndicate from time to time on the recommendation of the Board of Studies in English.

SANSKRIT.

The Pass Course in Sanskrit shall comprise the following:

Paper I.—

(*a*) Poetry texts, namely, selected portions of Manu and selected portions of one of the following:

Kiratarjuniya.

Sisupalabadha.

[*75 marks.*]

(*b*) Translation from English into Sanskrit [*25 marks.*]

Paper II.—

(*a*) Drama texts, namely, two of the following:

Sakuntala

Uttararamacharita.

Mudrarakshasha.

Ratnavali.

[*75 marks.*]

(*b*) Translation from English into Sanskrit [*25 marks.*]

Paper III.—

(*a*) Prose Passages from unprepared Sanskrit books for translation into English. [*30 marks.*]

(*b*) Questions on Sanskrit Grammar, including passages for correction.

[*40 marks.*]

(*c*) Outlines of the History of Sanskrit Literature.

[*30 marks.*]

The Honours Course in Sanskrit shall comprise, in addition to the Pass Course, the following:

Paper IV.—

(*a*) Selected portions of Bhattikavya and Kadambari.

[*75 marks.*]

(*b*) Translation from English into Sanskrit.

[*25 marks.*]

Paper V.—

Selected Hymns from the Rigveda, with Sayana's Commentary thereon.

[*100 marks.*]

Paper VI.—

Grammar and Rhetoric, namely—

(*a*) Siddhanta Kaumadi—Karaka and Samasa

[*60 marks.*]

(*b*) Dandi—Kavyadarsa. Sahitya darpan, Chapter VI.

[*40 marks.*]

In the first, second, fourth, and fifth papers, the questions on the text shall include—

(i) Passages from the prescribed texts for translation into English (to carry not more than 25 marks in any paper).

(ii) Questions on the subject-matter and on the language of the prescribed texts

(iii) Questions on Grammar and Prosody (but not Rhetoric) arising out of the prescribed texts.

(iv) Passages for translation or discussion in English, taken from standard Sanskrit commentaries on the prescribed texts, to be named by the Syndicate from time to time.

In the third paper, the unseen passages shall not exceed in difficulty the prose texts set for the Intermediate Examination in Arts.

The Syndicate shall from time to time cause to be prepared and prescribed a text-book in Sanskrit Grammar.

In the sixth paper, questions will be set to test the ability of candidates to apply, (*a*) the rules of Panini on Karaka and Samasa and (*b*) the rules of Rhetoric to passages taken from the prescribed texts.

The Syndicate shall, upon the recommendation of the Board of Studies, select the texts in accordance with the syllabus and may also recommend books or specify editions to indicate more fully the extent and standard of knowledge required in any paper.

ARABIC.

1. The Pass Course in Arabic shall comprise the whole or selected portions of the following works:

Poetry.—The Hamása.

The Díván of Mutanabbí.

The Díván of Abú 'Atáhíya.

Prose.—The Qor'án.

The Maqámát Harírí.

The Tabarí's History.

Qazwíní's Geography.

The Course shall include Arabic Grammar, according to the modern method.

2. The Honours Course shall include in addition to the above, the whole or selected portions of the following works:

Poetry.—

The Seven Mu'allaqát.

Bánat Su'ád.

The Díván of Ibn Fáridh.

Prose.—

The Qor'án, with the Commentaries of Baydháwí, and of Zamakhsharí.

Ibn Hishám's Life of the Prophet.

The Muqaddima of Ibn Khaldún.

The Mukhtasar-ul-Ma'ání.

The Honours Course shall also include the elements of Arabic Prosody and Rhetoric; the outlines of Muhammadan History down to the fall of the Abbasid Caliphate; and a general knowledge of the History of Arabic Literature.

3. The subjects and the marks shall be distributed as follows:—

Paper I.—

Questions on the Poetry texts.

[*100 marks.*]

Paper II.—

Questions on the Prose texts.

[*100 marks.*]

Paper III.—

(*a*) Unseen passages for translation into English.

[*70 marks.*]

(*b*) Short English sentences for translation into Arabic.

[*30 marks.*]

The unseen passages in this paper shall be of no greater difficulty than the texts prescribed for the Intermediate Examination.

Paper IV.—

(*a*) Questions on the additional Poetry texts.

[*80 marks.*]

(*b*) Translation from English into Arabic.

[*20 marks.*]

Paper V.—

(*a*) Questions on the additional Prose texts.

[*80 marks.*]

(*b*) Translation from English into Arabic.

[*20 marks.*]

Paper VI.—

(*a*) Questions on Muhammadan History.

[*30 marks.*]

(*b*) Questions on the History of Arabic Literature.

[*40 marks.*]

(*c*) Questions on Rhetoric and Prosody.

[*30 marks.*]

In Papers I, II, IV and V, questions on the texts shall comprise—

(*a*) passages of the set texts for translation into English;

(*b*) questions on the subject-matter and

(*c*) questions on the Grammar of the set passages.

In no paper shall more than one-fourth of the marks of these questions be assigned to mere translation of the set passages.

PERSIAN.

1. The Pass Course in Persian shall comprise the whole or selected portions of the following works:

Poetry.—

The Sháh Náma of Firdausí.

The Díván of Háfiz.

The Masnavi of Jalál-ud-Dín-Rúmí.

The Kulliyát of Qá'ání.

Prose.—

The Akbar-Náma.

The Wakáya' of Ni'mat Khán 'Ali.

The Siyásat Náma of Nizám-ul-Mulk.

The Aruz of Saifi.

Arabic Prose.—

The Qor'án.

The Alf Layla.

The Pass Course shall include the elements of Persian Prosody and Rhetoric and a knowledge of Arabic Grammar up to the Intermediate Standard.

2. The Honours Course shall include, in addition to the above, the whole or selected portions of the following works :

Poetry.—

Gulshan-i-Ráz.

The Qasá'id of Kháqání.

Prose.—

Chahár Maqála of Nizám-i-Arúzí.

The Táríkh-i-Wassáf.

The Inshá of Abul Fazl.

Akhláq-i-Jalálí.

Arabic Prose.—

The Qor'án.

Ikhwán-us-safá.

The Honours Course shall also include the outlines of Muhammadan History in so far as it relates to Persia, Central Asia and India, and the History of Persian Literature.

3. The subjects and the marks shall be distributed as follows :

Paper I.—

Questions on the Persian Poetry texts.

[*100 marks.*]

Paper II.—

(*a*) Questions on the Persian Prose texts.

[*50 marks.*]

(*b*) Questions on the Arabic Prose texts.

[*50 marks.*]

Paper III.—

(*a*) Unseen passages for translation from Persian into English.

[*50 marks.*]

(*b*) Simple English passages for translation into Persian.

[*50 marks.*]

The unseen passages in this paper shall be of no greater difficulty than the texts prescribed for the Intermediate Examination.

Paper IV.—

(*a*) Questions on the additional Persian Poetry texts.

[*80 marks.*]

(*b*) Translation from English into Persian.

[*20 marks.*]

Paper V.—

(*a*) Questions on the additional Persian Prose texts.

[*40 marks.*]

(*b*) Questions on the additional Arabic Prose texts

[*30 marks.*]

(*c*) Translation of simple English sentences into Arabic.

[*30 marks.*]

Paper VI.—

(*a*) Questions on Muhammadan History.

[*30 marks.*]

(*b*) Questions on the History of Persian Literature.

[*40 marks.*]

(*c*) Questions on Rhetoric and Prosody.

[*30 marks.*]

In Papers I, II, IV and V, questions on the texts shall comprise—

(*a*) passages of the set texts for translation into English,

(*b*) questions on the subject-matter, and

(*c*) questions on the Grammar of the set passages.

In no paper shall more than one-fourth of the marks of these questions be assigned to the mere translation of set passages.

PALI.

1. The Pass Course in Pali shall comprise the following works :

Poetry.—

Dhammapada.

Khuddaka Patha.

Prose.— Milindapañha.

The course shall include a knowledge of Sanskrit Grammar up to the Matriculation standard, besides a knowledge of Pali Grammar and the elements of Comparative Philology.

2. The Honours Course shall comprise in addition to the above :

Mahavansa and Díghanikáya.

The Honours Course shall include a knowledge of Sanskrit Grammar up to the

Itermediate standard, and of the History of Buddhism with special reference to India.

3. The subjects and the marks shall be distributed as follows :

Paper I.—

(*a*) Questions on the Poetry texts. [*70 marks.*]

(*b*) Unseen passages of Pali poetry for translation into English [*30 marks.*]

Paper II.—

(*a*) Questions on the Prose texts. [*70 marks.*]

(*b*) Unseen passages of Pali prose for translation into English. [*30 marks.*]

Paper III.—

(*a*) Questions on Sanskrit Grammar. [*15 marks.*]

(*b*) Questions on Pali Grammar. [*15 marks*]

(*c*) Questions on Comparative Philology. [*40 marks.*]

(*d*) Simple English passages for translation into Pali. [*30 marks.*]

Paper IV.—

(*a*) Questions on the additional Poetry texts. [*40 marks.*]

(*b*) Unseen passages of Pali Poetry for translation into English. [*30 marks.*]

(*c*) Questions on Sanskrit Grammar. [*30 marks.*]

Paper V.—

(*a*) Questions on the additional Prose texts. [*40 marks.*]

(*b*) Unseen passages of Pali prose for translation into English. [*30 marks.*]

(*c*) Questions on Sanskrit Grammar. [*30 marks.*]

Paper VI.—

(*a*) Questions on the History of Buddhism. [*50 marks.*]

(*b*) Questions on Comparative Philology. [*50 marks.*]

In Papers I, II, IV and V, questions on the text shall comprise—

(*a*) passages of the set texts for translation into English,

(*b*) questions on the subject-matter, and

(*c*) questions on the Grammar of the set passages.

In no paper shall more than one-fourth of the marks of these questions be assigned to the mere translation of set passages.

HEBREW.

1. The Pass Course in Hebrew shall comprise specified portions of the Historical books, the Psalms and Proverbs. The Course shall include Jewish History.

2. The Honours Course shall include in addition to the above, two prophetical books, and the History of the Hebrew Language and Literature.

3. The marks shall be distributed as follows :

Paper I.—

(*a*) Questions on the specified Historical texts. [*70 marks.*]

(*b*) Unseen passages from Historical books for translation into English. [*30 marks.*]

Paper II.—

(*a*) Questions on the Psalms and Proverbs. [*70 marks.*]

(*b*) Unseen passages from poetical books for translation into English. [*30 marks.*]

Paper III.—

(*a*) English passages for translation into Hebrew. [*50 marks.*]

(*b*) Questions on the History of the Jews, and on the literary history of the Bible. [*50 marks.*]

Paper IV.—

(*a*) Questions on the specified Prophetical books. [*70 marks.*]

(*b*) English passages for translation into Hebrew. [*30 marks.*]

Paper V.—

(*a*) Unseen passages from the Historical books for translation into English. [*40 marks.*]

(*b*) Unseen passages from the Prophetical books for translation into English. [*30 marks.*]

(*b*) English passages for translation into Hebrew. [*30 marks.*]

Paper VI.—

(*a*) Questions on the Hebrew language and Literature. [*50 marks.*]

(*b*) Questions on Jewish History. [*50 marks.*]

In Papers I, II, and IV questions on the texts shall comprise—

(*a*) passages of the set texts for translation into English,

(*b*) questions on the subject-matter, and

(*c*) questions on the Grammar of the set passages.

In no paper shall more than one-fourth of the marks of these questions be assigned to the mere translation of set passages.

ARMENIAN.

1. The Pass Course in Armenian shall consist of the following texts :

Poetry—

Bagratoonie's translation of "Paradise Lost," Books IX, X, XI, and XII.

Prose.—

Agathangalos History, Parts I and III.
Moses of Khoren's History.

The course shall include the History of Armenia.

2. The Honours Course shall include in addition to the above—

Poetry.—

Bagratoonie's Haik Dientsazn, Books I, II, III, IV, and V.

Prose.—

John Catholicus.

Elishe.

The Course shall include the History of Armenian Literature and the elements of Armenian Philology.

3. The marks shall be distributed as follows :

Paper I.—

(*a*) Questions on the Poetry text. [*70 marks.*]

(*b*) Unseen passages of Armenian Poetry for translation into English. [*30 marks.*]

Paper II.—

(*a*) Questions on the Prose texts. [*70 marks.*]

(*b*) Unseen passages of Armenian Prose for translation into English. [*50 marks.*]

Paper III.—

(*a*) English passages for translation into Classical Armenian. [*50 marks.*]

(*b*) Questions on Armenian Grammar. [*20 marks.*]

(*c*) Questions on the History of Armenia. [*30 marks.*]

Paper IV.—

(*a*) Questions on the additional Poetry text. [*70 marks.*]

(*b*) English passages for translation into Armenian. [*30 marks.*]

Paper V.—

(*a*) Questions on the additional prose texts [*70 marks.*]

(*b*) English passages for translation into Armenian. [*30 marks.*]

Paper VI.—

(*a*) Unseen passages in Armenian for translation into English. [*40 marks.*]

(*b*) Questions on the History of Armenian Literature. [*30 marks.*]

(*c*) Questions on Armenian Philology. [*30 marks.*]

In Papers I, II, IV, and V questions on the texts shall comprise—

(*a*) passages of the set texts for translation into English,

(*b*) questions on the subject-matter, and

(*c*) questions on the Grammar of the set passages.

In no paper shall more than one-fourth of the marks of these questions be assigned to the mere translation of set passages.

GREEK.

1. The Pass Course in Greek shall consist of suitable selections from the following authors to be prescribed from time to time by the Board of Studies concerned:

Plato, Herodotus, Homer, Euripides, Aristophanes, Sophocles, Demosthenes.

The course shall include Greek Syntax and Grammar, and Greek History as prescribed for the Intermediate in Arts.

2. The Honours Course shall include in addition to the Pass Course selections from the following authors, to be prescribed from time to time by the Board of Studies concerned:

Thucydides, Æschylus,

and may also include further selections from the authors mentioned in Regulation 1.

The Course shall include the Philology of the Greek Language as well as the History of Classical Greek Literature.

3. The subjects and marks shall be distributed in the same way as in the case of Armenian.

LATIN.

1. The Pass Course in Latin shall consist of suitable selections from the following authors to be prescribed from time to time by the Board of Studies concerned:

Cicero, Livy, Lucan, Virgil, Horace.

The Course shall include Latin Syntax and Grammar and Roman History as prescribed for the Intermediate in Arts.

2. The Honours Course shall include in addition to the Pass Course selections from the following authors to be prescribed from time to time by the Board of Studies:

Pliny, Tacitus, Terence, Lucretius, Catullus,

and may also include further selections from the authors mentioned in Regulation 1.

The Course shall include the Philology of the Latin language as well as the History of Latin Literature to the end of the Augustin Period.

3. The subjects and marks shall be distributed in the different papers in the same way as in the case of Armenian.

FRENCH AND GERMAN.

1. The course in French or German for the Pass as well as for the Honours shall consist of such works in prose and verse as may be prescribed from time to time by the Board of Studies concerned.

2. The Pass Course shall include in addition to the prescribed texts Grammar and the outlines of French or German History.

3. The Honours Course shall include in addition to the subjects mentioned in Regulations 1 and 2 above, the elements of French or German Philology and the history of a selected period of French or German Literature.

4. The subjects and marks shall be distributed in the same way as in the case of Armenian.

HISTORY.

The Pass Course in History shall be as follows:

Paper I.—History of Europe from the fall of Constantinople to the Treaty of Berlin.

Paper II.—History of England—a special period.

Paper III.—History of India from the earliest times to the close of the 19th century: and the elements of Ancient Hindu and of Muhammadan civilization in India.

2. The Honours Course shall comprise in addition to the above:

Paper IV.—A special period of Greek History.

Paper V.—A special period of Roman History.

Paper VI.—The History of the Middle Ages in Europe from the rise of the Mediæval European powers down to the end of the 15th century.

In each of the special Honours papers at least one question shall be set, to be answered in the form of an essay which shall carry not less than 25 marks.

Candidates shall be expected to possess a knowledge of the geography of the countries whose history they study and to understand the use of physical and historical maps.

Books on History shall be recommended from time to time by the Board of Studies concerned who shall also select the special periods.

POLITICAL ECONOMY AND POLITICAL PHILOSOPHY.

1. The Pass Course in Political Economy and Political Philosophy shall be as follows :

Paper I.—Political Economy.

Paper II.—Political Philosophy.

Paper III.—Application of the principles of Political Economy to Indian topics.

2. The Honours Course, in addition to the above, shall be as follows :

Paper IV.—Political Economy (a higher course).

Paper V.—Political Philosophy (a higher course) including a specially selected text or texts.

Paper VI.—Essay.

3. The following are the Syllabuses for the different subjects :

POLITICAL ECONOMY.

Definition. Scope. Relation to Sociology, Politics, Statistics. Methods. Standpoints and Schools. Postulates. Wealth. Utility. Income.

A knowledge in outline of the fundamental propositions under each head of division named below. A fuller knowledge of the special points mentioned below under these heads.

Emotions: Joy and sorrow, hope and fear; anger, love and hate. Egoistic emotions: Social Emotions, Sympathy. Intellectual emotions. Æsthetic emotions,—the beautiful, the sublime, the ridiculous. The Moral sentiment. The Religious sentiment.

Conation.—Primitive elements. Spontaneous and Reflex action. Emotional expression and gesture. Ideo-motor action, Imitation and Play, Instinct, Heredity, Habit and their relation to the organism. Attention.

Voluntary action.—Its nature, origin and development. Impulse, Appetite, End, Desire and Motive. Conflict of Desires, Deliberation. Volition—Purpose and Intention, Self-control, and formation of character.

Consciousness of volition.—Consciousness of freedom. The individual self in relation to the physical and the social environment.

II.—General Philosophy.—Pass and Honour.

Philosophy.—Definition and province. Relation of Philosophy to Epistemology, and Ontology. Relation of Philosophy to Science.

Methods —Dogmatism, Scepticism, Criticism, and Dialectic.

Knowledge.—Philosophical knowledge as the analysis, criticism, and rationalisation of experience. Idealism, Realism and Ideal-Realism.

Origin of Knowledge.—A priori and a posteriori theories. Dogmatism and Criticism, Evolution and Dialectics.

Categories of Knowledge.—Space, Time, substance, Causalty: the contents and origin of these ideas.

Dialectics as applied to Knowledge. —Subject, object and the absolute. Phenomenon and noumenon. The Finite and the Infinite. The Conditioned and the Unconditioned. The Relative and the Absolute.

The ideas of the World, the Soul, and God.

The World —Reality. The World as a system of reals. Temporal and Spatial order, Matter and Motion, Energy, Conservation and Correlation. The Causal series. Substance and Attribute. The Individual and the Universal. Realism and Nominalism. Mechanism and Life. Organisation. The species idea. Evolution in Nature. Mechanical and Teleological Evolution.

The Soul.—Consciousness and life. The physiological and the psychical series. Parallelism, and other theories of their relation. Mental evolution in the animal kingdom. Mental evolution in the race. Nature and origin of reason. The soul and the self. The empirical self, the individual self and the social self. Society and the individual. Custom and social morality. Organisation of Rights. The Ethos Ethicality. Personality and personal rights. The Moral Law. The Moral Reason. The Noumenal self as distinguished from the empirical self.

God.—Contents of the idea. God as conditioning the world and the soul. God as the Absolute. The idea of the Absolute, and its implications. Relation of God to the world-series, and the soul-series. Types of Monism, Dualism and Pluralism. Transcendence and Immanence. Ultimate causality and end. Relation of God to man. Moral Government and Providence. Liberty and Necessity. Future Life and Eternity. The Cosmos considered *sub specie æternitatis*. The Universal Reason.

III. Ethics —Pass and Honour.

Definition, province and end of Ethics.

Relation of Ethics to Psychology, Sociology, Politics, Metaphysics and Theology.

Methods of Ethics : Leading Opinions on. Character of Ethical Science.

Actions : Moral and non-moral : Analysis of. Desire, Intention, Motive, End, Volition. Natural and Moral evil. Sin and Error.

Elements of the Moral Consciousness : Intellectual, Emotional, Volitional. Good

and Evil. Right and Wrong. The Highest Good. Moral Sentiment.

Nature, Method, and Object of the Moral Judgment. Springs of action.

Postulates of Moral Judgment: Reason; Personality; Self-determination.

Conscience and Prudence. The Moral Faculty.

Moral Obligation: Nature, Grounds and Source of. The seat of Authority in Morals. Moral Law. Sense of Duty. Merit and Guilt. Sanctions. Theory of Reward and Punishment.

The leading Ethical Standards and a critical estimate of them. Law—Divine; Political. Pleasure and Happiness. Egoism. Altruism. The Æsthetic Sense. Immutable Law and Eternal Fitness. Perfection and Self-realisation. Evolution, individual and social.

Relation of the Individual and Society. The Social Organism. Moral Institutions.

Duties and Virtues: Nature of; and Principles of their classification. Conflict of Duties.

Growth of the character. Moral progress in the Race. The Moral Ideal.

HONOURS.

The additional Honour subjects shall include—

(a) Natural Theology.

(b) History of Philosophy.

(c) Special Texts to be selected from year to year, and Essay.

Natural Theology.

Religion.—Nature of. Relation to Science, Art, Philosophy, Morality.

Religion, Natural and Revealed.

Theology—Relation to (a) Science of Religion and Comparative Religion, (b) Ethics, (c) Philosophy.

The Religious Consciousness.—Its originality, its contents. (a) The cognitive element—the idea of God as First Cause, as Ultimate ground, as the Infinite and the Absolute, as the Self. (b) The emotional element,—the religious sentiment,—awe, reverence, worship. (c) The volitional element, the sense of duty.

Grounds of Belief in God.—(a) The idea of the Perfect Being, of the Infinite, of the Absolute, of necessary Being, and the contingency of the Cosmos, (b) the nature of Causality, and the Cosmological argument, (c) final cause, (d) conscience and Moral Law. Other grounds: consensus, intuition, criticism of experience and dialectic.

Evidence of final cause.—Adaptation external and internal. Explanations:—mechanism, design, immanent finality. Arguments against these; and substitutes offered. Criticism of the substitutes. Reconciliation of Mechanism and Teleologism in Immanent Finality. Resulting conception of evolution.

The Nature and Attributes of the Divine Being, with special reference to Divine Personality.

The World, its creation, and conservation. Providence and Divine Government, natural and moral.

The problem of Pain and Moral Evil.

Types of Religion, philosophically considered.

Theistic theories.

Quasi-theistic theories.—Deism, Pantheism.

Anti-theistic theories.—Materialism, Naturalism, Phenomenalism, Agnosticism, Positivism, Pessimism; their import, origin and grounds.

History of Philosophy.

A general knowledge of the systems of Bacon, Descartes, Spinoza, Locke, Berkeley, Hume, Reid and Kant.

Selected Texts.

Specially Selected Texts and Essay on Subjects drawn from Pass or Honour Syllabuses or Texts.

The arrangement of papers for Pass and Honours shall be as follows:

Pass.

First Paper	...	... Psychology.
Second „	...	... Ethics.
Third „	...	... General Philosophy.

Honours.

First Paper	...	... Psychology.
Second „	...	... Ethics.
Third „	...	... General Philosophy.
Fourth „	...	... Natural Theology.
Fifth „	...	... History of Philosophy.
Sixth „	...	... Essay and Selected Texts.

GENERAL.

1. A candidate must obtain in order to pass in the Pass Course in English [100 marks.]

Vernacular or paper alternative to it [33 marks.]

Any subject in Group A [100 marks.]

Any subject in Group B in the Theoretical papers [60 marks.]
and
in the Practical papers [40 marks.]

2. A candidate must obtain in order to pass in the Honours Course in English. [180 marks.]

Any subject in Group A [*180 marks.*]

Any subject in Group B
in the Theoretical papers [*108 marks.*]
and
in the Practical papers. [*72 marks.*]

3. A candidate must obtain, in order to qualify for Honours in
English [*240 marks.*]

Any subject in Group A. [*240 marks.*]

Any subject in Group B.

in the Theoretical papers [*160 marks.*]
and
in the Practical papers. [*80 marks.*]

4 If a candidate takes up the Pass Course in four subjects he must, in order to pass the B. A. Examination, pass in each subject, and obtain 360 marks in the aggregate. If he passes and obtains 500 marks in the aggregate, he shall be declared to have passed with distinction.

5. If a candidate takes up the Pass Course in three subjects, and the Honours Course in one subject, he must, in order to pass the B. A. Examination, pass in each subject, and obtain 468 marks in the aggregate. If he passes and also qualifies for Honours in his Honours subject, he shall be declared to have obtained Second Class Honours in that subject. If he passes, qualifies for Honours in his Honours subject, and obtains 360 marks in that subject, he shall be declared to have obtained First Class Honours in such subject.

6. Any candidate who has failed in one subject only, and by not more than 5 per cent. of the full marks in that subject, and has shown merit by gaining 50 per cent. or more in the aggregate of the marks of the Examination, shall be allowed to pass. If any such candidate has taken up the Pass Course in three subjects, he shall not be declared to have passed with distinction. But if the candidate has taken up the Pass Course in three subjects and the Honours Course in one subject, and has qualified for Honours in such subject, he shall be allowed to retain his Honours and his place in the Honours list.

7. If the Examiners are of opinion that in the case of any candidate not covered by the preceding Regulation, consideration ought to be allowed by reason of his high proficiency in a particular subject or in the aggregate, they shall report the case to the Syndicate, and the Syndicate may pass such candidate, or give him Honours, as the case may be.

CHAPTER XXXIII.

MASTER OF ARTS.

1. An examination for the degree of Master of Arts shall be held annually in Calcutta, at such time as the Syndicate shall determine, the approximate date to be notified in the Calendar.

Any candidate who has passed the B. A. Examination not less than two academical years previously may be examined for the degree of M. A. in any subject mentioned in paragraph 5 provided he has prosecuted a regular course of study in that subject for two academical years in a College or Colleges affiliated to the University in respect of that subject and standard or under one or more University Professors or Lecturers in that subject.

Any candidate who has passed the B. A. Examination not less than three academical years previously may be admitted as a private student to the M. A. Examination in any of the subjects included in I—XIII, subject to the provisions of Section 19 of the Indian Universities Act.

In the case of any of the subjects included in I—XIII in which there is for the time being no provision for a regular course of study under one or more University Professors or Lecturers, a candidate who has passed the B. A. Examination not less than two academical years previously may be admitted to the M. A. Examination in that subject as a private student, subject to the provisions of Section 19 of the Indian Universities Act.

2. Every candidate shall send in his application with a certificate in the form prescribed by the Syndicate, and a fee of Rs. 50 to the Registrar not less than three months before the Examination. If a student desires to appear in the M. A. Examination in subjects III, VI, IX, or XX he shall give the Registrar one year's notice of the fact.

3. Any Master of Arts may, on payment of a fee of Rs. 50, be admitted to the M. A. Examination in any branch other than that in which he was previously examined provided that if he takes any of the subjects XIV to XX, he has prosecuted a regular course of study in that subject for two academical years in a College or Colleges affiliated to the University in respect of that subject and standard, or under one or more University Professors or Lecturers in that subject. He shall, if his attainments come up to the standard prescribed for the degree of M. A., be

granted a certificate to that effect, stating the subject and class in which he has passed.

4. A candidate who fails to pass, or to present himself for examination, shall not be entitled to claim a refund of the fee, but he may be admitted to any one or more subsequent M. A. Examinations on payment of a like fee of fifty rupees on each occasion.

5. A candidate may be examined in any of the following subjects:

(I) English.
(II) Sanskrit.
(III) Pali.
(IV) Arabic.
(V) Persian.
(VI) Hebrew.
(VII) Greek.
(VIII) Latin.
(IX) Comparative Philology.
(X) Mental and Moral Philosophy.
(XI) History.
(XII) Political Economy and Political Philosophy.
(XIII) Mathematics.
(XIV) Physics.
(XV) Chemistry.
(XVI) Physiology.
(XVII) Botany.
(XVIII) Geology.
(XIX) Zoology, and Comparative Anatomy.
(XX) Experimental Psychology.

6. There shall be a Practical Examination in subjects XIV to XX, and candidates shall be required to pass in the practical portion of these subjects as well as in the Theoretical portion defined in the Syllabuses.

In each of the subjects I to XIII there shall be eight papers of three hours each, each carrying 100 marks.

In each of the subjects XIV to XX there shall be four Theoretical papers, and the practical examination shall extend over at least four days. The total marks shall be equally divided between the Theoretical and Practical portions of the Examination.

7. Candidates who have taken the degree of B.A. with Honours in any of the subjects XIII—XX may be allowed to substitute a piece of research work for part of the M. A. Examination in that subject under the conditions laid down in the Regulations for the M. Sc. Degree.

In all these subjects the syllabuses shall be the same as those prescribed for the M. Sc. Examination.

8. The limits of the subjects shall be as follows.

ENGLISH.

1. The M. A. course in English shall be divided into two groups.

2. The first four papers of each group shall be identical, and shall cover the following subjects:

Paper I.—General History of English Literature.

Paper II.—The Drama.

Paper III.—Poetry.

Paper IV.—Prose.

3. The course for the above papers shall include standard works in Prose, Poetry and the Drama, which shall be specified from time to time, and shall range from Chaucer down to the end of the 19th century, due regard being had to the relative importance of the different periods.

4. The remaining papers shall be taken from one of the following groups, but not from both:

GROUP A.

Paper V.—Chaucer, and the outlines of Historical English Grammar.

Paper VI.—Shakespeare and the Elizabethan Drama, or a selected period of Poetry.

Paper VII.—A selected period of Prose.

Paper VIII.—An Essay or Essays on subjects connected with the course.

The special periods in Papers VI and VII shall be specified from time to time; no period shall be selected before Chaucer and not more than one shall be pre-Elizabethan.

GROUP B.

Paper V.—English language and literature prior to 1100.

Paper VI.—English language and literature from 1100 to 1500 including Chaucer.

Paper VII.—Historical English Grammar: including the elements of Teutonic Philology.

Paper VIII—An Essay or Essays on subjects connected with the course.

5. In every paper where texts are prescribed, unseen passages shall be set from contemporary works, carrying 40 marks.

6. Questions on the texts shall include—

(*a*) Questions on the subject-matter and

(*b*) Questions on the language of the text.

SANSKRIT.

The course shall include the following:

Paper I.—(*a*) One selected Ashtaka of the Rigveda, with Sayana's Commentary thereon.

(*b*) Sayana's Introduction to his Commentary on the Rigveda.

[*100 marks.*]

Paper II.—Siddhanta-Kaumudi (whole).

[*100 marks.*]

Paper III.—(*a*) The general principles and methods of Comparative Philology, including the elements of Phonetics.

(*b*) The history of the Indo-European family of languages, with special reference to Sanskrit (Vedic and Classical), and Prakrit.

(*c*) Sabda-saktiprakasika, and its bearing on the science of language.

[*100 marks.*]

Paper IV.—Two Essays, (*a*) dealing with some subject connected with the history of Sanskrit literature generally;

(*b*) dealing with some subject connected with the history of the special Department covered by the group taken up.

[*100 marks.*]

Papers V, VI, VII and VIII.—One of the following groups to be selected by the candidate.

A. (*Literature*).

Paper V.—(*a*) Poetry texts. Selected portions of Naishadha Charita, Kamandaki Nitisara, Sukranitisara, Mahabharata (Santiparva, Rajadharma), and of either Kiratarjuniya or Sisupalbadha.

[*75 marks.*]

(*b*) Translation from English into Sanskrit.

[*25 marks.*]

Paper VI.—(*a*) Drama texts: Five of the following dramas, together with as much of Vararuchi's Prakrit Prakasa as is necessary for the appreciation of the Prakrit passages:

Vikramorvasi, Malavikagnimitra, Malati Madhava, Mahaviracharita, Mrichhakatika, Karpuramanjari, Venisanhara, Prabodh Chandrodaya, Balaramayana.

[*75 marks.*]

(*b*) Translation from English into Sanskrit.

[*25 marks.*]

Paper VII.—(*a*) Prose texts: Selected portions of two of the following, namely, Kadambari, Harshacharita, Vasabdatta and Dasakumaracharita.

[*75 marks.*]

(*b*) Unseen passages in Sanskrit Prose for translation into English.

[*25 marks.*]

Paper VIII.—(*a*) Rhetoric and Prosody, namely, Kavyaprakash, Ekavali, Sarasvati Kanthabharana, Sahitya-darpana and either Pingala's Chhanda Sutras with Halayudha's Vritti or Chhandomanjari.

(*b*) Unseen passages in Sanskrit Poetry for translation into English.

[*25 marks.*]

B. (*Vedas*).

Paper V.—(*a*) Yaska's Nirukta and Pingala's Chhandasutras, with Halayudha's Vritti.

[*75 marks.*]

Pratisakhya of the Rig-Veda, with the Commentary of Uvatta.

[*25 marks.*]

Paper VI.—(*a*) Aitareya Brahmana with Sayana's Commentary.

[*75 marks.*]

(b) Simple unseen passages in Vedic Sanskrit for translation into Classical Sanskrit. [The interpretations of any recognised Indian School will be accepted.

[25 *marks*.]

Paper VII.—(*a*) Selected portions of the Chhandogya and Brihadaranyaka Upanishads, with Sankar's Commentary.

[75 *marks*.]

(b) Simple unseen Sanskrit passages from any Upanishad for translation into English.

[25 *marks*]

Paper VIII.—(*a*) Grihya Sutra—either Asvalayana or Gobhila—with commentary.

[75 *marks*.]

(b) Translation from English into Sanskrit.

[25 *marks*.]

C. (*Mimansa and Smriti*.)

Paper V.—(*a*) Selected portions of Mimansa Sutras with Sabara Bhasya.

[75 *marks*.]

(b) Simple unseen Sanskrit passages from any treatise or commentary on the Mimansa philosophy, such as the Sloka-Vartika and the Tantra-Vartika, for translation into English.

[25 *marks*.]

Paper VI.—(*a*) Jaiminiya Nyaya Mala Vistara and Mimansa-Nyaya-prakasa.

[75 *marks*.]

(b) Simple unseen Sanskrit passages from any treatise or commentary on the Mimansa Philosophy, such as the Mimansa-Balaprakasa, and the Tupteeka, for translation into English.

[25 *marks*.]

Paper VII.—(*a*) Manu Samhita with Kulluka's Commentary.

Dharma Sutras of Apastamba and Gautama with Haradatta's commentaries.

[75 *marks*.]

(b) Grihya-Sutra,—either Asvalayana or Gobhila.

[25 *marks*.]

Paper VIII.—(*a*) Yajnavalkya Sanhita—with Vijnanesvara's Mitakshara.

Parasara's Institutes with Madhava's Commentary.

[75 *marks*.]

(b) Translation from English into Sanskrit.

[25 *marks*.]

D. (*Vedanta*).

Paper V.—(*a*) Vedantasara (Jacob's Edition) Panchadasi, Vedanta Paribhasha, Hastamalaka (with Commentary), and Siddhantalesa.

[75 *marks*.]

(b) Simple unseen Sanskrit passages from any work on Vedanta Philosophy such as the Vivaranaprameya-Sangraha for translation into English.

[25 *marks*.]

Paper VI.—(*a*) Vedantasutras with Sankar Bhasya.

[75 *marks*.]

(b) Translation from English into Sanskrit.

[25 *marks*.]

Paper VII.—(*a*) Selected portions of Sribhasya.

[75 *marks*.]

(b) Advaita-Brahma-Siddhi.

[25 *marks*.]

Paper VIII.—(*a*) Bhagavadgita and selected portions of the Upanishads, with Sankar Bhasya.

[75 *marks*.]

(b) Passages for translation into English from the Anubhasya and the Saivabhasya.

[25 *marks*.]

E. (*Sankhya and Yoga*).

Paper V.—(*a*) Sankhyasutras of Kapila, with Vritti of Aniruddha.

Sankhya-Karika of Iswarakrishna, with Bhasya of Gaurapada.

[75 *marks*.]

(b) Simple unseen Sanskrit passages from any treatise or commentary on the Sankhya Philosophy, for translation into English.

[25 *marks*.]

Paper VI.—(*a*) Sankhya Pravachana Bhasya.

Sankhya-Sara and Sankhya-Tattva-Kaumudi.

[*75 marks.*]

(*b*) Translation from English into Sanskrit.

[*25 marks.*]

Paper VII.—(*a*) Yoga Sutras of Patanjali, with Bhasya of Vyasa and Vritti of Bhoja. Yoga-Vartika of Vijnana-Vikshu.

[*75 marks.*]

(*b*) Simple unseen Sanskrit passages from any treatise or commentary on the Yoga Philosophy, for translation into English.

[*25 marks.*]

Paper VIII.—(*a*) Selected portions of the Yoga-Vasistha. Sarbadarsan Sangraha.

[*75 marks.*]

(*b*) Translation from English into Sanskrit.

[*25 marks.*]

F. (*Nyaya and Vaiseshika*).

Paper V.—(*a*) Nyayasutras of Gautama, with the Bhasya of Vatsayana, Vartika of Udyotkara, and Vritti of Visvanatha.

[*75 marks.*]

(*b*) Simple unseen Sanskrit passages from any treatise or commentary on the Nyaya Philosophy, for translation into English.

[*25 marks.*]

Paper VI.—(*a*) Nyayamanjari of Jayanta Bhatta.

Selected portions of Khandana Khanda Khadya of Sriharsa.

[*75 marks.*]

(*b*) Translation from English into Sanskrit.

[*25 marks.*]

Paper VII.—(*a*) Bhasha Parichheda Siddhanta-muktavali Kusumanjali of Udayanacharyya with Commentary of Ruchidatta and gloss of Vardhamana.

[*75 marks.*]

(*b*) Translation from English into Sanskrit.

[*25 marks.*]

Paper VIII.—(*a*) Vaiseshika Sutras of Kanada, with Bhasya of Prasastapada, Nyayakandali of Sridhara, and Vivritti of Jaynarain.

Saptapadarthi of Sivaditya with Commentary of Yatindramadhava.

[*75 marks.*]

(*b*) Simple unseen Sanskrit passages from any treatise or commentary on the Vaiseshika Philosophy, for translation into English.

[*25 marks.*]

G. (*General Philosophy*).

Paper V.—(*a*) Sankhyasutras of Kapila with Vritti of Aniruddha.

Either Sankhya Tattva-Kaumudi or Sankhya Karika.

Yogasutras of Patanjali, with the Bhasya of Vyasa and Vritti of Bhoja.

[*75 marks.*]

(*b*) Simple unseen Sanskrit passages from any work on Philosophy for translation into English.

[*25 marks.*]

Paper VI.—(*a*) Nyayasutras of Gautama with Bhasya of Vatsayana and Vritti of Visvanatha. Vaiseshikasutras of Kanada, with Bhasya of Prasastapada, and Nyayakandali of Sridhara.

[*75 marks.*]

(*b*) Translation from English into Sanskrit.

[*25 marks.*]

Paper VII.—(*a*) Vedantasara, (Jacob's Edition), Bhagavadgita and selected portions of Vedantasutras, with Sankar Bhasya.

[*75 marks.*]

(*b*) Translation from English into Sanskrit.

[*25 marks.*]

Paper VIII.—(*a*) Nyayaratnamala of Parthasarathi Misra; Mimansa Nyaya Prakasa of Apodeva. Selected portions of the Upanishads, with Sankar Bhasya.

[*75 marks.*]

(*b*) Simple unseen Sanskrit passages from any work on Philosophy for translation into English.

[*25 marks.*]

H. (*Prakrit*).

Paper V.—(*a*) Two selected Jain canonical texts.

[*75 marks.*]

(*b*) Translation from English into Sanskrit (or Prakrit, at the option of the candidate).

[*25 marks.*]

Paper VII.—(*a*) Prakrit portions of the following dramas:

Sakuntala, Vikramorvasi, Malavikagnimitra, Uttaracharita, Malatimadhava, Mahavira Charita, Mrichhakatika, Mudrarakhsasa, Ratnavali, Karpuramanjari, Venisanhara.

[*75 marks.*]

(*b*) Translation from Sanskrit into Prakrit.

[*25 marks.*]

Paper VII.—(*a*) Setubandha; Gaudavaho; Kumarapalacharita together with a general knowledge of Prakrita Paingalam.

[*75 marks.*]

(*b*) Simple unseen passages in Prakrit for translation into English.

[*25 marks.*]

Paper VIII.—(*a*) Prakrit Grammar, as in Vararuchi's Prakrita Prakas (Cowell), Chhandah's Prakrita Lakshanam (Hoernle), Hemchandra (Pischel).

Candidates are also expected to be familiar with the substance of Hoernle's Grammar of the Gaudian languages.

[*75 marks.*]

(*b*) Simple unseen passages in Prakrit for translation into Sanskrit.

[*25 marks.*]

I. (*Epigraphy and History*).

Paper V.—(*a*) Rajatarangini and its continuations with Stein's Introduction and Commentary.

[*70 marks.*]

(*b*) Unseen passages in Sanskrit for translation into English.

[*30 marks.*]

Paper VI.—(*a*) Inscriptions of Asoka.

[*80 marks.*]

(*b*) Early Indian Alphabets.

[*20 marks.*]

Paper VII.—Selected Inscriptions from Epigraphia Indica, Fleet's Corpus Inscriptionum, and Prachina Lekha Mala.

[*100 marks.*]

Paper VIII.—(*a*) Ancient Geography of India.

[*50 marks.*]

(*b*) Translation from English into Sanskrit.

[*50 marks.*]

Questions on prescribed texts (except on Grammar) in the compulsory papers as also in every group shall include:

(*i*) Passages for translation into English [this shall not carry more than 25 marks in any one paper].

(*ii*) Questions on the subject-matter and on the language of the set books.

(*iii*) Questions on grammar arising from the texts.

(*iv*) Passages for translation into English or discussion in simple Sanskrit, taken from standard Sanskrit commentaries on the texts.

In groups C, D, E, F, and G, the questions on the prescribed texts shall also include alternative questions on philosophical topics for discussion in English (or in simple Sanskrit at the option of the candidate); in answering such questions, candidates will be expected to be able to state the views of the School taken up and controvert the views of the other Schools.

The first paper shall include questions on the History of Vedic Literature, and the History of Philosophy and Religion during the Vedic Period; such questions shall carry 25 marks.

The second paper, and in group H the eighth paper shall include questions on the practical application of the rules of grammar.

The eighth paper in group A shall include questions framed with a view to test the ability of candidates to apply the rules of rhetoric to passages from the prescribed texts.

Passages set for translation from English into Sanskrit shall be translated into Classical (and not Vedic) Sanskrit.

The Syndicate shall, upon the recommendation of the Board of Studies concerned, select the texts in accordance with

the syllabus and may also recommend books or specify editions to indicate more fully the extent and standard of knowledge required in any paper.

PALI.

Candidates may select one of the following groups :

GROUP A. (LITERARY).

The literary course shall include (1) portions of the Southern Buddhist canonical scriptures with commentaries, expositions and hortatory writings, (2) Pali Grammar, (3) Sanskrit Grammar up to the B. A. pass standard, (4) portions of the Buddhist literature in Sanskrit, (5) the Sanskrit text, prescribed for the Intermediate Examination in Arts, (6) the Comparative Philology of Pali, Prakrit, Sanskrit and their dialects, (7) the decipherment of the Asoka Inscriptions, and (8) the history of Buddhism and Buddhist Literature (both Southern and Northern).

Sections (1) and (2) shall comprise selected portions of the Jatakas and the Dhammapada and the following works in particular :

Anguttara Nikáyaí.

Thera-theri gáttaí.

The Sutta Pitaka.

Netti Pakarana.

The Sumangala Vitásiní.

The Paramattha Dìpaní.

Kaccáyana's Pali Grammar.

Attaha-Sáliní.

Section (4) shall include the Avadana-kalpa-lata of Kshemendra and the Lalita-vistara.

The papers shall be distributed as follows :

Papers I and *II*	...	Section (1).
Paper III ...	...	Sections (2) and (3).
Paper IV ...	...	Sections (4) and (5).
Paper V ...	...	Section (6).
Paper VI ...	...	Section (7).
Paper VII ...	...	Section (8).
Paper VIII	...	An Essay on a subject connected with the course.

GROUP B. (PHILOSOPHICAL).

The philosophical course shall comprise sections (1), (2), (3), (4) and (5) of the literary course, and the following additional subjects :

Standard works of Buddhist Philosophy in Pali or Sanskrit, with Commentaries, Hindu accounts and criticisms of Buddhist Philosophy, and the history of Buddhism with special reference to the various Buddhist schools and sects.

Selected portion of the Abhidhamma. with commentary.

The Madhyamika Sutras with Commentary.

The Nyáya-vindu with the Tíká.

Dignága's Pramana-samuchchaya.

Hindu accounts and criticism of Buddhist Philosophy.

Chapter on Buddhism in the Sarva-darsana-Sangraha.

Sankara's Sariraka Bháshya. Tars-kapada—section relating to Buddhism.

Criticisms of Udyotkara in the Nyaya-vartika.

The papers shall be distributed as follows :—

Papers I, II, III, and IV, as in the literary course.

Paper V.—

Selected portions of the Abhidhamma Pitaka with commentary.

Buddhist ethics, with special references to the Páramitas.

The Nyáya-vindu with the Tíká.

Paper VI.

Nagarjuna's Madhyamika-Káríká with commentary.

Dignaga's Pramana-Samuchchaya.

Paper VII.—Hindu accounts and criticisms of Buddhist Philosophy.

Tenets of the following Buddhist schools :—The Madhyamikas, the Santrān-tikas, the Vai-bhāshikas, and the Yogāch-āres.

Paper VIII —An essay on some subject connected with the course.

C. (EPIGRAPHICAL.)

The first four papers shall be identical with those in the literary course.

The remaining four papers shall be as follows:

Paper V.—(*a*) The Mahavansa (ed. Hardy).

(*b*) Unseen passages in Pali for translation into English.

Paper VI.—(*a*) Inscriptions of Asoka.

(*b*) Early Indian Alphabets.

Paper VII.—Selected Inscriptions from Epigraphia Indica, Fleet's Corpus Inscriptionum and Inscriptions of the Kshatrapa Princes.

Paper VIII.—(*a*) Ancient Geography of India.

(*b*) Translation from English into Pali.

HEBREW.

1. The course shall include the following:

Paper I.—Passages for translation from English into Hebrew.

Paper II.—Passages for translation into English from certain specified books of the Old Testament, together with such questions on the Grammar, Prosody and literary History of the language as arise directly out of these books.

Paper III.—Simple passages from unspecified books in Hebrew for translation into English. Candidates may be required to point the passages as well translate them.

Paper IV.—Passages for translation into English from prescribed Post-Biblical Books, with questions arising out of the subject-matter of the texts.

Paper V.—Passages for translation into English from specified books in Syriac, including always a portion of the Peshitta version of the New Testament, together with questions on the language and subject-matter of the passages set.

Paper VI.—History and antiquities of the Jews with special reference to the results of modern research.

Paper VII.—Comparative Philology of the Semitic languages, or prescribed texts in Rabbinical Hebrew.

Paper VIII.—Essay on some subject connected with the course.

ARABIC.

The course in Arabic shall include the following works or portions thereof:

Literature.

Kitáb-ul-Aghání.

Yatímat-ut-Dahr.

Tafsír.

Qor'àn with the Commentary of Zamakhsari.

Hadis.

Mishkát-ul-Masábíh.

Philosophy.

Ishárát of Avicenna.

History.

Majma'-ul-Buldán of Bilázurí.

Grammar.

Zamakhsharí's Mufassal.

Rhetoric.

Fará'id of Mahmúd Jawnpúrí.

2. The course shall also include Arabic Prosody, the outlines of Muhammadan History and a general knowledge of the History of Arabic Literature.

3. The subjects and the marks shall be distributed as follows:

Paper I (*a*).—Questions on the Kitáb-ul-Aghání.

[*75 marks.*]

(*b*) English passages for translation into Arabic.

[*25 marks.*]

Paper II (*a*).—Questions on Yatímat-ut-Dahr.

[*75 marks.*]

(*b*) English passages for translation into Arabic.

[*25 marks.*]

Paper III (*a*).—Unseen passages of Arabic prose for translation into English.

[*60 marks.*]

(*b*) Questions on the History of Arabic literature.

[*40 marks.*]

Paper IV (*a*).—Questions on the Mufassal.

[*50 marks.*]

(*b*) Questions on the Fará'id.

[*50 marks.*]

Paper V.

(*a*) Questions on the prescribed portion of the Qor'án, with the commentary.

[*50 marks.*]

(*b*) Questions on the Mishkát-ul-Masábíh.

[*50 marks.*]

Paper VI.

(*a*) Questions on the Isharát.

[*50 marks.*]

(*b*) Questions on the Majma-ul-Buldan.

[*50 marks.*]

Paper VII.

Questions on Muhammadan History.

(*a*) General.

[*70 marks.*]

(*b*) India.

[*30 marks.*]

Paper VIII.

Essay on some subject connected with the course.

[*100 marks.*]

Questions on the prescribed texts shall include—

(i) Passages for translation into English, not carrying more than 25 marks in any one paper.

(ii) Questions on the subject-matter and the language of the passages set.

PERSIAN.

1. The course in Persian shall include the following works or portions thereof:

Poetry.—The Hadíqa of Saná'í.

The Mantiq-ut-Tair of 'Attár.

The Díwán of Násir-i-Khusraw.

The Qasá'id of Zahír Fáryábí.

Prose.—Tazkira of Dawlat Shah.

The Tazkira of 'Awfí.

The Kímíyá-i-Sa'ádat of Ghazzálí.

The Durra-i-Nádira.

The Hadá'iq-ul-Balághat.

Arabic Prose.—The prose selections prescribed for the B.A. Pass Course.

2 The course shall also include the outlines of Muhammadan history and the history of the Persian language and literature.

3. The subjects and the marks shall be distributed as follows:—

Paper I.—Questions on the Hadíqa of Saná'í and the Mantiq-ut-Tair of 'Attár.

[*100 marks.*]

Paper II.—Questions on the remaining prescribed poetry texts.

[*100 marks.*]

Paper III.—(*a*) Questions on the Tazkiras of Dawlat Shah and of 'Awfí.

[*50 marks.*]

(*b*) Questions on the remaining Persian Prose texts.

[*50 marks.*]

Paper IV.—Question on Arabic Prose texts.

[*100 marks.*]

Paper V.—(*a*) Unseen Persian passages for translation into English.

[*50 marks.*]

(*b*) Questions on the Philology of the Persian language.

[*50 marks.*]

Paper VI.—(*a*) Translation from English into Persian.

[*70 marks.*]

(*b*) Questions on Rhetoric and Prosody.

[*30 marks.*]

Paper VII—(*a*) Questions on the History of Persian literature.

[*50 marks.*]

(*b*) Questions on Muhammadan History.

[*50 marks.*]

Paper VIII.—Essay on a subject connected with the course.

Questions on the prescribed texts shall include—

(*i*) Passages for translation into English, not carrying more than 25 marks in any one paper.

(*ii*) Questions on the subject-matter and language of the passages set.

GREEK.

The course shall include:

Paper I.—(*a*) Passages from prescribed prose texts.

[*70 marks.*]

(*b*) Unseen passages of Greek prose for translation into English.

[*30 marks.*]

Paper II—(*a*) Passages from prescribed poetry texts.

[*70 marks.*]

(*b*) Unseen passages of Greek poetry for translation into English.

[*30 marks.*]

Paper III.—(*a*) Passages from prescribed Greek plays.

[*70 marks.*]

(*b*) Unseen passages from the Greek Dramatists for translation into English.

[*30 marks.*]

Paper IV.—Passages in English for translation into Greek prose.

[*100 marks.*]

Paper V.—The Philology of the Greek tongue and the elements of Comparative Philology.

[*100 marks.*]

Paper VI.—The General History and Antiquities of Greece.

[*100 marks.*]

Paper VII.—History of Greek Literature.

[*100 marks.*]

Paper VIII.—Essay on some subject connected with the course.

[*100 marks.*]

In papers I, II and III the questions on prescribed texts shall include—

(*i*) Passages for translation into English, which shall not carry more than 25 marks in any one paper.

(*ii*) Questions on the subject-matter and language of the text.

LATIN.

The course shall include—

Paper I.—Passages from prescribed poetry texts.

Paper II.—Passages from prescribed prose texts.

Paper III.—Unseen passages from Latin authors for translation into English.

Paper IV.—Passages in English for translation into Latin prose.

Paper V.—The Philology of the Latin tongue and the elements of Comparative Philology.

Paper VI.—The general History and Antiquities of Rome.

Paper VII.—History of classical Latin Literature.

Paper VIII.—Essay on some subjects connected with the course.

In Papers I and II the questions on the prescribed texts shall include:

(*i*) Passages for translation into English which shall not carry more than 25 marks in any one paper.

(*ii*) Questions on the subject-matter and language of the texts.

COMPARATIVE PHILOLOGY.

The subject shall include—

(*a*) the general principles of the Science of Language,

(*b*) the Comparative grammar of a particular branch of the Indo-European or the Semitic family of languages,

(*c*) the historical grammar either of the candidate's vernacular, or of one of the following classical languages: Sanskrit, Greek, Latin, Arabic, Hebrew, and

(*d*) an Essay on a subject connected with Philology.

Section (*a*) shall include (1) Phonetics, (2) Sematology, (3) Morphology of Language, (4) Families of speech with their subdivisions, their geographical distribution, and their inter-relations, (5) Laws of change in Language, (6) Evolution of Language in the Race and in the Individual, (7) the contributions of Anthropology, Comparative Mythology,

and Folklore to the Science of Language, and (8) History of Philological speculation, with the chief speculative problems of present-day Philology: the origin of language, the priority of language or dialect, the course of morphological development, the origin of inflections, and the relations of race and language.

Section (*b*) shall include (1) Comparative Phonology and Comparative Sematology and (2) Comparative Morphology (including Comparative Syntax), of the branch of languages selected by the candidate.

Section (*c*) shall include the history (1) of the sounds, words and significations and (2) of the forms and constructions, of the vernaculars of the candidate, or the classical language selected by him.

The papers shall be distributed as follows:

First Paper	... Section (*a*)—(1) and (2).
Second „	... Section (*a*)—(3), (4) and (5).
Third „	... Section (*a*)—(6), (7) and (8).
Fourth „	... Section (*b*)—(1).
Fifth „	... Section (*b*)—(2).
Sixth „	... Section (*c*)—(1).
Seventh „	... Section (*c*)—(2).
Eighth „	... The Essay.

MENTAL AND MORAL PHILOSOPHY.

1. The course in Mental and Moral Philosophy shall be as follows:

Paper I.—History of Ancient European Philosophy.

Paper II—History of Mediæval and Modern European Philosophy.

Paper III.—Outlines of Indian Philosophy.

Papers IV, V, VI and *VII.*—Any two of the following subjects to be selected by the candidate, two papers being set in each:

(*i*) Psychology.

(*ii*) Logic.

(*iii*) Ethics and Social Philosophy.

(*iv*) Philosophy of Religion.

(*v*) Some special branch of Indian Philosophy.

Paper VIII—Essay.

2. Questions bearing on General Philosophy and Metaphysics may be included in any paper.

3. The limits of the subjects shall be defined and books shall be recommended from time to time by the Board of Studies concerned.

HISTORY.

1. The course in History shall be as follows:

Paper I.—A selected period of English History.

Paper II.—A selected period of Indian History.

Paper III.—General History of the Ancient East.

Paper IV—Constitutional History of England.

Paper V.—International Law.

Papers VI and VII.—Two papers in one of the following subjects selected by the candidate:

(*i*) The History of Islam.

(*ii*) A special period of Indian History.

(*iii*) Economic History of England and India.

(*iv*) Comparative Politics.

(*v*) A special period of European History,

or such other special subjects as may from time to time be prescribed by the Syndicate.

Paper VIII.—Essay.

2. Books shall be recommended and periods selected by the Board of Studies concerned, to indicate the extent and standard of knowledge required.

POLITICAL ECONOMY AND POLITICAL PHILOSOPHY.

1. There shall be two groups in this subject, the first four papers being common to both, namely:

For Groups A and B.

Papers I and *II*—General Economics.

Paper III.—General Principles of Political Philosophy.

Paper IV.—Public Administration.

For Group A. (Political Economy).

Paper V.—General History of Economics.

Papers VI and *VII.*—Two papers on one of the following subjects:

(i) The History, Theory and Present systems of Banking and Currency.

(ii) The History, Theory and Present organisation of International Trade.

(iii) The Theory and Practice of Statistics, including Demography.

(iv) The Mathematical principles of Political Economy or such other special subjects as may from time to time be prescribed by the Board of Studies concerned.

Paper VIII.—Essay.

For Group B. (Political Philosophy.)

Paper V.—General History of Political Philosophy.

Papers VI and *VII.*—Two papers on one of the following subjects:

(i) Comparative Study of Political Institutions.

(ii) Comparative Study of Social Institutions.

(iii) International Law with reference to existing Political and Economic Institutions.

Paper VIII.—Essay.

4. The limits of the subjects shall be defined and books shall be recommended from time to time by the Board of Studies concerned.

GENERAL.

6. (a) In order to pass in subjects I to XII a candidate must obtain 288 marks in the aggregate. No minimum pass marks shall be required in each paper, but if in any paper a candidate obtains less than 25 marks, those marks shall not be included in his aggregate. Candidates obtaining 360 marks shall be placed in the second class and those obtaining 480 marks in the first class.

(b) In order to pass in subject XIII (Mathematics) a candidate must obtain 264 marks. No minimum pass marks shall be required in each paper, but if in any paper a candidate obtains less than 20 marks, those marks shall not be included in his aggregate. Candidates obtaining 320 marks shall be placed in the second class, and those obtaining 400 marks in the first class.

(c) In order to pass in subjects XIV to XX a candidate must obtain 132 marks in the aggregate of the four theoretical papers, and 160 marks in the Practical Examination. If in any theoretical paper a candidate obtains less than 25 marks, those marks shall not be included in his aggregate. Candidates obtaining 360 marks shall be placed in the second class and those obtaining 480 marks in the first class.

10. As soon as possible after the Examination the Syndicate shall publish a list of candidates who have passed in each subject, arranged in three classes and in order of merit. Candidates shall be bracketed together unless the Examiners are of opinion that there is clearly a difference in their merits.

Each successful candidate shall receive with his degree of M. A. a certificate setting forth the subject in which he was examined, and the class in which he was placed.

11. The candidate who is placed first in the first class in each branch shall receive a Gold Medal and a prize of books to the value of Rs. 200, and the candidate who is placed second in the first class in each branch shall receive a Silver Medal and a prize of books to the value of Rs. 100.

CHAPTER XXXIV.

DOCTOR OF PHILOSOPHY.

1. Any Master of Arts of the University of Calcutta who has been placed in either the first or the second class at the examination for the Degree of Master, may offer himself as a candidate for the Degree of Doctor of Philosophy, provided three years have elapsed from the time when he passed the examination.

2. Every candidate shall state in his application the special subject within the purview of the Regulations for the Degree of Master of Arts, upon a knowledge of which he rests his qualification for the Doctorate, and shall, with the application, transmit three copies, printed or typewritten, of a thesis that he has composed upon some special portion of the subject so stated, embodying the result of research,

or showing evidence of his own work, whether based on the discovery of new facts observed by himself, or of new relations of facts observed by others, whether constituting an exhaustive study and criticism of the published work of others, or otherwise forming a valuable contribution to the literature of the subject dealt with, or tending generally to the advancement of knowledge. The candidate shall indicate generally in a preface to his thesis and specially in notes, the sources from which his information is taken, the extent to which he has availed himself of the work of others, and the portions of the thesis which he claims as original; he shall further state whether his research has been conducted independently, under advice, or in co-operation with others, and in what respects his investigations appear to him to tend to the advancement of knowledge.

3. Every candidate may also forward with his application three printed copies of any original contribution or contributions to the advancement of the special subject professed by him, or of any cognate subject, which may have been published by him independently or conjointly, and upon which he relies in support of his candidature.

4. No application shall be entertained unless two Members of the Faculty of Arts, or two Doctors of Philosophy shall have testified, to the satisfaction of the Syndicate, that in habits and character the candidate is a fit and proper person for the Degree of Doctor.

5. Every candidate shall forward with his application a fee of Rs. 100. No candidate who fails to pass or present himself for examination shall be entitled to claim a refund of the fee.

6. The thesis mentioned in Regulation 2 and the original contributions, if any, mentioned in paragraph 3, shall be referred by the Syndicate to a Board of three examiners.

7. If the thesis is approved by the Board, and if the candidate has obtained a first class at the examination for the Degree of Master of Arts, he shall not be required to submit to any further written examination; but he may be required by the Board, at their discretion, to appear before them to be tested orally, or practically, or by both these methods, with reference to the thesis, and the special subject selected by him. The Board shall report to the Syndicate the result of the examination of the thesis, and of the oral and practical examinations if any; and if the Syndicate, upon the report, consider the candidate worthy of the Degree of Doctor of Philosophy, they shall cause his name to be published, with the subject of his thesis, and the titles of his published contributions (if any) to the advancement of knowledge.

8. If the candidate is a person who has obtained a second class at the examination for the Degree of Master of Arts, and, if his thesis is approved by the Board, he shall be required to submit to a written examination.

Two papers of three hours each shall be set, one upon the special subject mentioned in the application of the candidate, and the other upon the subject of the thesis. The candidate may also be required by the Board, at their discretion, to appear before them to be tested orally or practically or by both these methods with reference to the thesis and the special subject professed by him. The Board shall report to the Syndicate the result of the examination of the thesis, and of the written examination, and also of the oral and practical examinations, if any; and if the Syndicate, upon the report, consider the candidate worthy of the Degree of Doctor of Philosophy, they shall cause his name to be published, with the subject of his thesis, and the titles of his published contributions (if any) to the advancement of knowledge.

9. In the case of a candidate falling under the preceding Regulation, if the Board, upon an examination of his thesis and of his original contribution or contributions to the advancement of knowledge, hold the same to be generally or specifically of such special excellence as to justify the exemption of the candidate from the written examination, he may be so exempted by the Syndicate, provided that the report of the Board shall set forth the fact and the grounds of such exemption.

10. A diploma under the seal of the University, and signed by the Vice-Chancellor shall be delivered at the next convocation for conferring degrees to each candidate who has qualified for the degree.

11. Every candidate shall be at liberty to publish his thesis, and the thesis of every successful candidate shall be published by the University with the inscription: "Thesis approved for the Degree of Doctor of Philosophy in the University of Calcutta."

CHAPTER XXXV.

INTERMEDIATE EXAMINATION IN SCIENCE.

1. The Intermediate Examination in Science shall be held annually in Calcutta and such other places as shall, from time to time, be appointed by the Syndicate, the approximate date to be notified in the Calendar.

2. Any undergraduate of the University may be admitted to this Examination, provided he has prosecuted a regular course of study in one or more Colleges affiliated for this purpose, for not less than two academical years after passing the Matriculation Examination.

Any student who has passed the Intermediate Examination in Arts may take up the course for the Intermediate Examination in Science at the second year's stage, and after one year's regular course of study appear at the Examination. He will be excused attendance and examination in the subject or subjects in which he has already passed at the Intermediate Examination in Arts.

3. Every candidate sent up for the Intermediate Examination in Science by an affiliated College shall produce a certificate (*a*) of good conduct, (*b*) of diligent study, (*c*) of having satisfactorily passed the College Examinations and other tests and (*d*) of probability of passing the Examination. Every candidate for admission shall send in his application with a certificate in the form prescribed by the Syndicate either to the Registrar or to a local officer recognised by the Syndicate. Every such application must reach the office of the Registrar at least six weeks before the date fixed for the commencement of the Examination.

4. A fee of rupees twenty-five shall be forwarded by each candidate with his application. A candidate who fails to pass or to present himself for examination shall not be entitled to claim a refund of the fee. A candidate who fails to pass may be admitted to any one or more subsequent Intermediate Examinations in Science on payment of a like fee of rupees twenty-five on each occasion, provided he produces a certificate from the Head of an affiliated College showing that he has prosecuted a regular course of study for one academical year since the date of the last Examination, in each of the subjects in which he is to be examined.

5. The Intermediate Examination in Science shall be conducted by means of printed papers, the same papers being used at every place at which the Examination is held.

6. As soon as possible after the Examination, the Syndicate shall publish a list of the candidates who have passed, arranged in three divisions, the first in order of merit, and the second and third in alphabetical order. Every candidate shall, on passing, receive a certificate in the form entered in Appendix A.

7. The subjects for the Intermediate Examination in Science shall be :

1. English. [*Three Papers.*]

2. Composition in one of the following vernacular languages :—Bengali, Hindi, Uriya, Assamese, Urdu, Burmese, Modern Armenian. [*One Paper.*]

If the vernacular of a candidate is a language not included in the above list, he shall have an alternative paper of a somewhat advanced character in English.

3. Chemistry. [*Two Papers.*]

4. Mathematics or Physics. [*Two papers in either subject.*]

5. Any one of the following subjects : [*Two Papers.*]

(*i*) Mathematics, if not taken up as the 4th subject.

(*ii*) Physics, if not taken up as the 4th subject.

(*iii*) Botany.

(*iv*) Zoology.

(*v*) Geology.

(*vi*) Geography.

(*vii*) Physiology.

8. Candidates may also be examined, if they so desire, in an additional subject included under 5, provided they have not already taken the subject, or in French or German. In this optional subject there shall be two papers of three hours each.

9. No student shall be permitted to take up Mathematics for the B. Sc. Examination unless he has taken it up for the Intermediate Examination.

No student shall be permitted to take up Physics or Chemistry for the B. Sc. unless he has taken up both Mathematics and Physics for the Intermediate Examination.

10. Each paper shall be of three hours, and shall carry 100 marks.

11. No practical examination will be held by the University in connection with the science subjects in the Intermediate examination in Science, but every student who desires to be examined in any such subject must produce a certificate from the Principal of his College to the effect that he has completed in an affiliated College the corresponding practical course prescribed by the Regulations.

12. The limits of the above subjects for both theoretical and practical work are defined below.

ENGLISH. VERNACULARS. FRENCH. GERMAN.

As in the Intermediate Examination in Arts.

MATHEMATICS.

1. *Algebra.*

Theory of Quadratic equations and expressions.

Simultaneous Quadratic equations, one of which is linear.

Permutations and Combinations.

Variation : proportion.

Binomial theorem.

Theory of Indices.

Surds and imaginary quantities.

Logarithms.

Exponential and Logarithmic Series.

Graphs of simple algebraic functions and of the exponential and logarithmic functions.

2. *Plane Trigonometry.*

Measurement of Angles.

Trigonometrical ratios.

Application of algebraic signs ; angles of any magnitude.

Graphs of trigonometrical ratios.

Elementary trigonometrical formulæ and their applications.

Logarithmic Sines, Cosines, etc.

Relations between the sides and angles of a triangle.

Practical solutions of triangles with applications.

3. *Geometry.*

(*a*) Parabola.

Tracing the curves from the definition.

Latus rectum is four times the focal distance of the vertex.

$PN^2=4$ AS. AN.

The middle points of parallel chords lie on a straight line parallel to the axis. The parameter of any diameter of a parabola is four times the line joining the focus with the vertex of the diameter.

$QV^2=4$ SB. BV.

If any chord QQ′ intersects the directrix in D, SD bisects the exterior angle between SQ and SQ′.

The tangent to the curve at its points of intersection with a diameter is parallel to the system of chords bisected by the diameter.

The portion of the tangent at any point intercepted between that point and the directrix subtends a right angle at the focus.

The tangent bisects the angle between the focal distance and the perpendicular on the directrix.

The subtangent is bisected at the vertex.

The normal at any point makes equal angles with the focal distance and the axis.

The subnormal is equal to half the latus rectum.

(*b*) Ellipse.

Tracing the curve from the definition.

The curve is symmetrical with regard to the minor axis and has a second focus and directrix.

CS. $CX=CA^2$.

$SP+S'P=AA'$.

$CB^2=SA.\ SA'$.

If any chord QQ′ of an eclipse intersects the directrix in D, SD bisects the exterior angle between SQ and SQ′.

PN^2: AN. $A'N=CB^2$: CA^2.

The middle points of parallel chords lie on a straight line passing through the centre.

The tangent to the curves at either end of a diameter is parallel to the system of chords bisected by the diameter.

The portion of the tangent at any point intercepted between that point and the directrix subtends a right angle at the focus and conversely.

The tangents at the ends of a focal chord intersect on the directrix.

The tangent at any point of an ellipse makes equal angles with the focal distances of the point.

(c) Solid Geometry.

One and only one plane may be made to pass through any two intersecting straight lines.

Two intersecting planes cut one another in a straight line and in no point outside it.

If a straight line is perpendicular to each of two intersecting straight lines at their point of intersection, it is also perpendicular to the plane in which they lie.

All straight lines drawn perpendicular to a given straight line at a given point are co-planar.

If two straight lines are parallel and if one of them is perpendicular to a plane, the other is also perpendicular to the same plane.

Of all straight lines drawn from an external point to a plane, the perpendicular is the shortest; of obliques drawn from the given point those which cut the plane at equal distances from the foot of the perpendicular are equal.

Straight lines in space which are parallel to a given straight line are parallel to one another.

The projection of a straight line on a plane is itself a straight line.

If a straight line outside a given plane is parallel to any straight line drawn on the plane, it is also parallel to the plane itself.

If a straight line is perpendicular to a plane, any plane passing through the perpendicular is also perpendicular to the given plane.

If two intersecting planes are each perpendicular to a third plane, their line of section is also perpendicular to that plane.

In a tri-hedral angle, the sum of any two of the face angles is greater than the third.

In a convex solid angle, the sum of the face angles is less than four right angles.

4. *Elementary Statics and Dynamics.*

(a) Uniform and uniformly accelerated motion, composition and resolution of velocities, accelerations, etc.

Definition of mass, momentum, force.

Newton's laws of motion.

Units of force and measurement.

Composition and resolution of forces acting at a point.

Simple illustrations of Newton's laws; projectiles, motion of a particle on an inclined plane, motion of two particles connected by a string, uniform circular motion.

(b) Equilibrium of forces.

Resolution and composition of parallel forces in one plane.

Centre of parallel forces.

Centre of gravity. Mass centre.

Reduction of any system of co-planar forces acting on a rigid body to a single resultant force or couple.

Conditions of equilibrium for co-planar forces.

Friction.

Machines.

(c) Impulse of a force.

Conservation of linear momentum for a system of particles.

Simple cases of impact of two spherical bodies moving in the same plane.

Work and energy.

Application of the principle of energy to the solution of simple problems.

Two papers shall be set of three hours each, the first being allotted to Algebra, Plane Trigonometry and Geometry, and the second to Elementary Statics and Dynamics.

In all the subjects only such examples and questions may be introduced by way of illustration or explanation as arise directly out of the propositions themselves.

PHYSICS.

Elementary Physics.

(a) General ideas—

Units of measurement and definitions of mass, force and motion.

Laws of motion.

Work and energy.

General properties of solids, liquids and gases.

Motions of translation and rotation.

Laws of pressure of liquids and gases, measurement of pressure.

Equilibrium of floating bodies.

Specific gravity.

Motion of pendulum.

(*b*) Heat—

Laws of expansion of solids, liquids and gases under heat.

Measurement of temperature.

Quantity of heat. Specific heat. Changes of molecular state, and latent heat of molecular changes of state.

Vapour-pressure; boiling point, dew point; formation of cloud, fog and dew.

Radiation, conduction and convection of heat.

The connection between heat and work.*

Steam-engines.

(*c*) Light—

Laws of transmission of light, its intensity and velocity.

Shadows.

Photometry.

Reflexion of light at plane and spherical surfaces and the formation of images.

Refraction of light at plane and spherical surfaces and by prisms. Chromatic dispersion. Spectra.

Formation of images by single lenses.

The combination of two lenses to form (1) a simple telescope, (2) a compound microscope.

(*d*) Magnetism—

Properties of magnets.

Simple phenomena of magnetism and of magnetic induction.

The magnetic field; lines of force. The law of magnetic force.

The earth as a magnet.

(*e*) Frictional Electricity—

Electrical attractions and repulsions.

Properties of conductors and non-conductors.

Electrical induction.

The law of electric force.

* { Electrical field; strength of field.
Potential; capacity. }

* Only elementary notions on these points will be required.

Distribution of electrification on conductors.

Simple condensers. Leyden jars.

Electrophorus.

Frictional machines and Voss's machine.

Electric discharge.

(*f*) Dynamic electricity—

Voltaic cell; electric current.

Magnetic effect of a current; simple galvanometers.

Primary batteries.

Electromotive force; difference of potential; resistance.

Ohm's law; volt; ohm; ampere.

Heating effects of currents.

Elementary phenomena of electrolysis.

Electro-magnets.

Action of magnsts on currents, and of currents on currents.

Elementary phenomena of electro-magnetic induction.

(*g*) Sound—

The production and propagation of sound.

Reflection and refraction of sound.

Nature of wave motion.

Experimental determination of velocity of sound in air.

Musical sound and noise.

Relation between frequency and pitch; Siren.

Vibration of strings, sonometer.

Vibration of air-columns; organ pipes.

The Course in Physics shall be mainly experimental. Candidates will be expected to show a general acquaintance with the apparatus by which the elementary principles of Physics are illustrated and applied.

Practical Course.

Length measurements by millimetre rule. Eye-estimation of tenths of a division.

Use of the vernier, linear and angular measurement of areas by plotting on squared paper.

Measurement of angles by protractors.

Verification of the laws of the inclined plane.

Verification of the laws of friction.

Determination of the centre of gravity of a plate.

Time of swinging of a simple pendulum. Verification of the formula *t* varies as *l*.

Use of the balance weighing to one centigramme.

Determination of specific gravities of solids and liquids by the hydrostatic balance.

Verification of Boyle's law.

Determination of fixed points of thermometers.

Simple methods of determining specific heat and latent heat of fusion.

Reading the barometric height.

Verification of the laws of reflection and refraction.

Use of simple photometers.

Refractive index of glass plates.

Focal length of a concave mirror.

Focal length of convex lenses.

Production of a pure spectrum by means of a slit, lens and prism.

Verification of the simple laws of magnetism.

Determination of the poles of a bar magnet.

Tracing the lines of force in the neighbourhood of a magnet.

Verification of the simple laws of electrostatics.

Use of gold-leaf electroscopes.

Setting up common voltaic cells.

Use of simple galvanometers.

Measurement of resistance by a simple form of Wheatstone's bridge.

CHEMISTRY.

Gaseous, liquid and solid states of matter; effect of pressure and temperature on volumes of gases; chemical and physical changes; elements and compounds; common laboratory processes—mixture, solution, crystallization, distillation, evaporation, precipitation, filtration, decantation, desiccation, combination by weight and volume, decomposition, combustion. oxidation, reduction, neutralization; terminology and nomenclature; symbols, formulæ, equations, calculation of formulæ from percentage composition, and calculations relating to weight and volume; laws of chemical combination and Dalton's atomic theory.

Study of the following substances:—hydrogen, oxygen, water, nitrogen, air, ammonia, nitric oxide, nitric peroxide, nitric acid, sulphur, sulphuretted hydrogen, sulphur dioxide, sulphuric acid, carbon. carbon monoxide, carbon dioxide, carbonic acid, marsh gas, chlorine, bromine, iodine, hydrochloric acid, hydrobromic acid, hydriodic acid, sodium, calcium, magnesium, zinc, iron, copper, mercury, and their oxides, hydroxides, chlorides, nitrates and sulphates.

Practical Course.

Fitting up of simple apparatus, *e.g.*, a wash-bottle.

Performance of experiments involving Solution, Filtration, Distillation and Crystallisation.

Determination of the Water of Crystallisation of hydrated salts.

Preparation and study of the principal properties of Hydrogen and Oxygen.

Performance of experiments illustrating the Chemistry of Fire, Air and Water.

Performance of experiments involving Oxidation and Reduction. Simple Blowpipe analysis.

Determination of the equivalent of Zinc and Hydrogen.

Preparation and study of the principal properties of Sulphur Dioxide, Nitric Acid, Oxide, Nitrous Oxide, Ammonia, Carbon Dioxide, Hydrochloric Acid, Chlorine and Sulphuretted Hydrogen.

Simple qualititave detection of Mercury, Copper, Iron, Zinc, Calcium, Magnesium and Sodium from a solution containing not more than one of these metals.

Standardisation of a given Acid solution.

BOTANY.

(*a*) Elementary General Morphology, including a study of the outline of the life-history of selected plants to illustrate the gradual ascent in complexity of structure and reproductive cycle from the lowest fungi and algæ to the phanerogams.

(*b*) The principles of classification as illustrated by common plants; outlines of any one of the modern systems of classification. Referring plants to their natural orders.

(*c*) Elementary Histology—Structure and formation of cells. Union of cells into tissues; principal types of tissue; tissue systems. Structure and development of

roots, leaves, and floral organs. Glands and glandular organs. Microchemical reactions of cellulose and its modifications, of starch, and of protoplasm.

(*d*) Elementary Plant Physiology, illustrated by simple experiments—Absorption of water; movement of water and gases within the plant; chemistry of the plant-body; food materials of plants, their sources and form; photo-synthesis; digestion, assimilation, transpiration; nutrition, metabolism; reserve-materials. Growth; influence of external conditions on growth. Irritability. Reproduction, sexual and asexual.

Practical Course.

Use of simple and compound microscopes. Dissection of flowers, involving the use of a pocket lens, and needle and a pen-knife. Referring plants to the Natural Orders mentioned in the theoretical syllabus. Microscopic examination of chief plant tissues under simple conditions. Water-culture experiments; experiments on the functions of chlorophyll, its formation and decomposition; experiments on the relation between starch formation and external conditions. Experiments on root-pressure, on the flow of sap from injured parts, on the influence of external conditions on transpiration, on the mobility of water in wood, and on the absorption of mineral substances by the root. Simple experiments on respiration. Movements of growth. Germination experiments.

The course shall include the drawing of parts of plants and of sections.

PHYSIOLOGY.

General view of the Anatomy of the animal body:

The human skeleton. The skull. The spine. The thorax. Shoulder girdle. The arm. The pelvic girdle. The leg. Joints. Ligaments and tendons.

The relations of the internal organs contained in the cranial, thoracic and abdominal cavities, and a detailed knowledge of the structure of one limb considered as a mechanical appliance.

Histology of the following structures:

Red and white blood-corpuscles; epithelium (squamous, ciliated and columnar) connective tissues including cartilage (hyaline, white-fibro and yellow elastic), bone, fibrous tissue; muscle; medullated nerve fibre and liver.

Chemical composition of the body. Proteid. Fat. Carbohydrate. Mineral salts. Elementary Chemistry of blood, lymph and urine.

Chemical composition of food; the quantities and kinds of food required to balance the losses of the system.

The phenomena of muscular contraction.

Circulation of the blood. The structure of the heart. The auricles and ventricles. The valves. The arteries and veins.

The beat of the heart. The heart-sounds. The flow of blood. The pulse. The proof of circulation.

Respiration:—The structure of the lungs. The exchange of gases between blood and air, and blood and tissues. The cavity of the chest. The diaphragm. The mechanism of respiration.

The processes of digestion and absorption:—The teeth. The salivary glands. Saliva. The stomach. Gastric juice. Chyme. Pancreatic juice and bile. Villus. The mesenteric vessels and portal vein. The lacteals and chyle.

Excretion:—The structure of the kidneys. The secretion of urine. The skin and the sweat glands.

Production and regulation of animal heat.

General view of the Physiology of the brain and the spinal cord:—The structure of the brain. The cranial nerves. The spinal cord. Anterior and posterior roots. Excitability of a nerve. Reflex action.

Physiology of the organs of sense, and also of the organs of voice and speech:—Taste. Smell. Touch. The muscular sense. The structure of the Eye. The sense of sight. The ear and the sense of hearing. The mechanism of the larynx. The voice and speech.

Practical Course.

I.—A general acquaintance with the following Physiological instruments:

Simple Myograph. Hæmoglobinometer. Hæmocytometer. Ice-freezing Microtome.

II.—Preparation and examination under the microscope of the following structures:

Blood-corpuscles (mammalian and non-mammalian).

Epithelium (squamous, columnar and ciliated).

Striped muscle fibres, medullated nerve fibres.

Hyaline cartilage and bone.

The liver.

III.—Practical acquaintance with the chemical physiology of Egg-albumen, Egg-globulin, Starch, Maltose and Milk.

ZOOLOGY.

The General Morphology and Physiology of the cell and of the simple tissues; cell division.

The general characters of the Protozoa. The shells of Foraminifera and of Radiolaria. The structure and life-history of the infusoria.

The general characters of the Cœlenterata. The structure and life-history of a Hydra.

The general characters of the Echinodermata. The structure and life-history of a Starfish.

The structure and life-history of a Leech.

The general characters of the Annelida. The structure and mode of life of an Earthworm.

The general characters of the Arthropoda, and of their leading sub-divisions. The structure and life-history of a Crayfish and a Cockroach.

The general characters of the Mollusca and of their leading sub-divisions. The structure and life-history of a fresh water Mussel and a Snail.

The structure and mode of life of Amphioxus.

The structure of an Elasmobranch Fish, more specially the skeleton and the circulatory system.

The structure of the Bekti.

The structure and life-history of a Frog.

The structure and life-history of a Pigeon, more specially the skeleton.

The general characters of the Mammalia.

The structure of a Rabbit, more specially the skeleton, and the digestive and circulatory systems.

Practical Course.

I. The use of the compound microscope. A general acquaintance with the histology of the cell and the elementary tissues of the animal body.

II. Dissection of the circulatory, respiratory and alimentary systems of the Earthworm, the Crayfish, the Frog, the Pigeon and the Rabbit; and also a practical study of the general anatomy of the nervous system of these types.

GEOLOGY.

The objects of Geology and the distinctions between Dynamical, Structural and Stratigraphical Geology, Petrology, Mineralogy and Palæontology.

The general relations of the lithosphere, hydrosphere and atmosphere. The distinction between crust and nucleus. Evidences of internal heat.

General physical characters of the continental plateaux and oceanic depressions. Physical characters of the continents, the chief mountain ranges and river systems.

Composition of the Earth's crust. Definition of a mineral. Methods of examining minerals for physical and chemical characters; specific gravity; hardness; fracture; colour; translucency. Characters of crystals; lustre; geometrical relations of the systems of crystals and their grades of symmetry; chemical and crystallographic isomorphism; pseudomorphism; twinning. The principal physical properties and chemical compositions of the following minerals:—Native gold, silver, copper, mercury, platinum, arsenic, antimony bismuth and sulphur; diamond, graphite, halite, fluor-spar, galena, blende, cinnabar, pyrite, chalcopyrite, orpiment; corundum, hematite, cassiterite, rutile, quartz, chalcedony, opal spinel, magnetite, chromite; borax, calcite, dolomite, magnesite, siderite, malachite, olivine, the pyroxene and amphibole groups, talc, topaz, tourmaline, kaolin, the felspars, micas, garnets, zircon, nitre, apatite, barytes, anhydrite, gypsum, alungen, alum, melanterite.

Definition of a rock. Distinction between igneous, aqueous and metamorphic rocks. Classification of igneous rocks (*a*) according to origin, (*b*) according to chemical composition. General differences between the structural characters or plutonic and volcanic rocks. Characters of dyke-rocks. Nature of the chief structures of rocks: granitic, granulitic, prophyritic, poikilitic, diabasic, miarolitic, felsitic, vitreous. Description of granites, syenites, diorites, gabbros, peridotites, felsites, rhyolites, trachytes, andesites, dolerites, basalts, obsidian, pumice, tachylyte, volcanic tuffs and ashes. Classification of aqueous rocks and description of the characters and modes of occurrence of the following:—shale, sandstone conglomerate, ooze chalk and limestone peat, lignite, coal, tufas or travertine, oolite, flint and chert, sinter, laterite.

Metamorphic rocks:—gneisses, schists, slates, marbles, quartzites.

Composition of the atmosphere. Chemical and mechanical action of atmospheric agents on rocks. The formation of soils and laterite. The geological action of

underground water; the formation of caverns, and stalactites; origin of springs. The nature and work of glaciers. The destructive and reproductive work of rivers; canons, deltas; river terraces. Origin of landslips. The formation and destruction of freshwater lakes. The origin and nature of salt-lakes.

Composition of the ocean. Nature of the principal marine deposits and the conditions under which they are formed. The formation of coral-reefs. Raised beaches.

Volcanic phenomena and products; distribution of volcanoes; geysers. Earthquakes: definition of seismic focus, epicentre, isoseismal lines. Secular upheaval and depression

Origin of stratification; the consolidation of strata. The preservation of surface markings on strata. False bedding. Disturbance of horizontality by earth-movements; dip, strike and outcrop; various forms of folds; aniticlinal and synclinal folds. Normal and reversed faults; hade, throw; thrust-planes. Unconformity. Cleavage of rocks. Joints. Modes of occurrence of igneous rocks: bosses, dykes, contemporaneous lava-flow, intrusive sheets, volcanic ash-beds, volcanic necks.

Conditions under which organic remains are preserved. Definition of a fossil. The value of fossils in forming a chronological classification of strata. The equivalence of isolated systems of strata. The subdivisions of geological time. The chief features of the Archæan group. The leading paleontological differences between the Paleozoic, Mesozoic and Cainozoic groups. The order of stratigraphical systems in the European standard; stratigraphical scale. The division of post-Archæan strata in India into Purana, Dravidian and Aryan groups. Description of the following systems and series: Dharwar, Bijawar, Cuddapah, Kurnool, Vindhyan; the Cambrian, Productus Limestone, and Triassic formations of the Salt Range; the chief occurrences of marine Jurassic strata; the Gondwanas; the Cretaceous formation of South India; the Lower Tertiary formations; the Siwalik series. The Indo-Gangetic alluvial deposits.

Practical Course.

Determination of the hardness and specific gravity of a mineral specimen. The recognition of hand specimens of the minerals and rocks mentioned in the syllabus. The use of the contact goniometer. The determination of dip and strike. The drawing of sections from geological maps. The recognition of specimen illustrating the following classes and orders of fossils:—Foraminiferals, Radiolaria, Sponges, Corals, Graptolites, Echinoderms, Bryozoa, Brachiopodas, Pelecypoda, Gastropoda, Cephalopoda, Trilobites.

GEOGRAPHY.

The regional geography of the World, with a more detailed treatment of India, Southern and South-eastern Asia and Japan, Britain and the countries of Western Europe, and the United States of America.

In addition to the Matriculation Course the following:

The movements of the Earth and their consequences The commoner methods of map projection. Methods of representing relief. Contour lines and sections.

The general circulation of the atmosphere; disturbing factors, form and elevation of the land surface, and the unequal heating of sea and land. Distribution of rainfall and aridity, of permanent, seasonal and variable winds, of land and sea climate. Cyclonic and anticyclonic movements of the air and their relation to humidity and rainfall.

The general relief of the ocean floor, and the deposits upon it Ocean currents in relation to climate and commerce. The causes of the tides, and their effect upon the situation and commercial importance of ports.

Land forms: their classification and origin. Crustal movement. Volcanic action. Weathering and erosion. Results of glacial action The work of rivers.

The general distribution of Flora and Fauna, with special reference to environment and uses: climatic zones.

The general distribution of minerals, and their accompanying or dependent industries.

Man and his markets, with special reference to the British Empire.

The distribution of the human race; formation and expansion of Nationalities.

The treatment of the regions named for special attention shall have reference to the characteristic, physical and climatic features, natural resources, industries, trade, distribution of population, the principal towns and internal lines of communication, the people in regard to race, language and national development.

A more advanced knowledge of general principles shall be required than in the Matriculation Examination.

Practical Course.

Elementary Cartography. Drawing Plans and Maps, including examples from the student's immediate surroundings. Drawing statistical diagrams on squared paper. Modelling in sand and clay. Mercator's Projection. Orientation and elementary determination of latitude. Simple meteorological observations; temperature, pressure humidity (wet and dry bulb thermometers). Wind direction, clouds and rainfall. Study of Meteorological Charts.

GENERAL.

1. In order to pass the Intermediate Examination in Science a candidate must obtain—

In English [*108 marks.*]

In the Vernacular or the alternative paper [*36 marks.*]

In each of the remaining compulsory subjects taken up [*60 marks.*]

And in the aggregate of the compulsory subjects [*340 marks.*]

2. In order to be placed in the first division a candidate must obtain [*500 marks.*]

In order to be placed in the second division. [*400 marks.*]

If a candidate has passed in the compulsory subjects and in the aggregate, the marks in excess of 60 obtained by him in the optional subject, if any, shall be added to his aggregate, and the aggregate so obtained shall determine his division and his place in the list.

3. Any candidate who has failed in one subject only, and by not more than 5 per cent. of the full marks in that subject, and has shown merit by gaining 50 per cent. or more in the aggregate of the marks of the Examination, shall be allowed to pass.

4. If the Moderators are of opinion that in the case of any candidate not covered by the preceding Regulations, consideration ought to be allowed by reason of his high proficiency in a particular subject, or in the aggregate, they shall report the case to the Syndicate, and the Syndicate may pass such candidate.

5. Candidates who, after passing the Intermediate Examination in Arts, appear for the Intermediate in Science, shall be required, in order to pass, to obtain 36 per cent. in each subject for which they present themselves in the latter examination.

CHAPTER XXXVI.

BACHELOR OF SCIENCE.

1. An examination for the Degree of Bachelor of Science shall be held annually in Calcutta, and such other places as shall from time to time be appointed by the Syndicate, and shall commence at such time as the Syndicate shall determine, the approximate date to be notified in the Calendar.

2. Any undergraduate of the University may be admitted to the Examination, provided he has prosecuted a regular course of study, for not less than two academical years after passing the Intermediate Examination in Science, in one or more Colleges affiliated to the University in the subjects which the candidate takes up.

3. Every candidate sent up for the B. Sc. Examination by an affiliated college shall produce a certificate (*a*) of good conduct, (*b*) of diligent study, (*c*) of having satisfactorily passed the college periodical Examinations and other tests, and (*d*) of probability of passing the Examination. Every candidate shall send in his application, with a certificate in the form prescribed by the Syndicate to the Registrar at least six weeks before the date fixed for the commencement of the Examination. If he desires to be examined for Honours in any subject he shall name the subject in his application. If a candidate offers Experimental Psychology he shall be required to give the Registrar notice of the fact twelve months before the date of the Examination.

4. A fee of Rs. 40 shall be forwarded by each candidate with his application.

A candidate who fails to pass or to present himself for examination, shall not be entitled to claim a refund of the fee. A candidate who fails to pass may be admitted to one or more subsequent examinations for the Degree of Bachelor of Science on payment of a like fee of Rs. 40 on each occasion, provided he produces a certificate from the Head of an affiliated College, shewing that he has prosecuted a regular course of study for one academical year since the date of the last Examination, in each of the subjects in which he is to be examined.

5. The Examination for the Degree of Bachelor of Science shall be conducted by means of printed papers, the same papers being used at every place at which the Examination is held.

6. Every candidate shall be examined in three of the following subjects selected by himself:

(I) Mathematics,
(II) Physics,
(III) Chemistry,
(IV) Botany,
(V) Geology,
(IV) Zoology,
(VII) Physiology,
(VIII) Experimental Psychology.

7. No student shall be permitted to take Mathematics for the B. Sc. Examination unless he has taken it up for his Intermediate Examination.

No student shall be permitted to take up Physics or Chemistry for the B. Sc. Examination unless he has taken up both Mathematics and Physics for the Intermediate Examination.

8. A candidate may take up the Pass Course in three subjects, or the Pass Course in two subjects and the Honours Course in one subject. In the Pass Course, in any subject except Mathematics, there shall be two theoretical papers and one paper in practical work. In the Honours Examination in any subject except Mathematics there shall be four theoretical and two practical papers. In Pass Mathematics, there shall be three theoretical papers. In Honours Mathematics, there shall be six theoretical papers.

9. As soon as possible after the Examination, the Syndicate shall publish a list of the candidates who have passed in the Pass Course, arranged in alphabetical order, together with a list of those who have obtained Honours in each branch, arranged in two classes, both in order of merit. Each successful candidate shall receive with his Degree of B. Sc. a certificate in the form entered in Appendix A.

10. The limits of the above subjects for both theoretical and practical work are defined below.

MATHEMATICS.

The papers in Mathematics shall be distributed as follows:

Pass Course.

Paper I.—

1. Higher plane Trigonometry.

Properties of triangles.

General values of angles which have the same sine, cosine, etc.

Submultiple angles.

Inverse circular functions.

Summation of series.

De Moivre's theorem.

Exponential values of sine and cosine.

Expansion of sin θ and cos θ in powers of θ.

2. Plane Analytical Geometry.

Co-ordinates, cartesian and polar.

Transformation of co-ordinates; change of axes.

The straight line; equations representing a pair of straight lines.

The circle.

The parabola.

The ellipse.

The hyperbola.

Paper II.—

3. Differential Calculus.

Variables and constants.

Functions; the graph of a function.

Limits; differentiation. Infinitesimals, differentials, successive differentiation, Taylor's and Maclaurin's theorems. Maxima and minima.

Differentiation of a function of several variables; partial differentiation.

Simple geometrical and physical applications.

4. Integral Calculus and Differential Equations.

Integration, summation.

Elementary integrals.

Integration by parts.

Partial fractions.

Integration of irrational and trigonometrical functions.

Differential equations of the first order involving two variables.

Linear equations with constant coefficients.

Simple geometrical and physical applications.

Paper III.—

5. Hydrostatics.

Nature and properties of fluid pressure.

Density and specific gravity of a homogenous mixture.

Determination of the pressure of a heavy liquid in simple cases.

Centre of pressure.

Conditions of equilibrium and stability of equilibrium for a floating body.

Properties of elastic fluids and determination of pressure.

Measurement of heights by the barometer.

Determination of specific gravities.

Mixture of gases.

Description of the barometer, air-pump, common and force pumps, the diving bell, the balloon, siphon, and Brahmah's press as applications of hydrostatical principles.

6. Astronomy.

The subject is to be treated mathematically but without the use of spherical trigonometry.

The Earth

Transit instrument, meridian circle, equatorial and micrometer

Atmospheric refraction.

The sun and the solar system.

Parallax.

Determination of the first point of Aries.

Precession, nutation, aberration.

The moon

Lunar and solar eclipses.

Measurement of time.

Determination of latitude and longitude by simple methods.

The fixed stars.

HONOURS COURSE.

Paper I.—

1. Higher Algebra.

Binomial theorem.

Convergence and divergence of series.

Inequalities.

Simple continued fractions.

Summation of series.

Determinants.

2. Elementary Theory of Equations.

General properties of equations.

Relation between roots and coefficients of equations.

Transformation of equations.

Algebraic solution of cubic and biquadratic equations.

Limits of the roots of equations.

Solution of numerical equations.

Paper II—

3. Higher Plane Trigonometry.

In addition to a fuller treatment of the Pass Course the following :

Expansion of $\sin^n\theta$, $\cos^n\theta$, $\sin n\theta$, $\cos n\theta$. Hyperbolic functions.

Expansion in series.

Resolution of circular and hyperbolic functions into factors.

4. Plane Analytical Geometry.

In addition to a fuller treatment of the Pass Course, the general equation of the second degree in Cartesian co-ordinates.

Paper III—

5. Elementary Solid Geometry.

Cartesian and polar co-ordinates.

The straight line and plane.

The sphere.

The cone and cylinder.

The ellipsoid.

The hyperboloids.

The paraboloids.

Generating lines and sections of quadrics conjugate diameters.

Diametral planes and principal planes.

Curvature of surfaces. Meunier's theorem.

6. Elementary Principles of Vectors.

Fundamental notions.

Addition, subtraction, multiplication and division of vectors.

Simple physical applications.

Paper IV—

7. Differential Calculus.

In addition to a fuller treatment of the Pass Course, an increased number of geometrical, physical and analytical applications.

8. Integral Calculus and Differential Equations.

In addition to a fuller treatment of the Pass Course :

Formulæ of reduction.

Simple cases of definite integrals.

Graphical methods.

Fourier's series.

Differential equations of the first and second orders involving two variables only.

Paper V.—

9. Statics.

Composition and resolution of forces.

General conditions of equilibrium of a particle under the action of co-planar forces.

Equilibrium of a particle on plane curves.

Composition and resolution of co-planar forces acting on a rigid body.

Principle of virtual work.

Simple machines.

Friction.

Centroids and centres of mass.

Simple cases of equilibrium of flexible inextensible strings.

10. Dynamics of a particle.

Velocity, acceleration.

Laws of motion.

Rectilinear, parabolic, circular, and harmonic motion.

Impact.

Work and energy.

Central orbits.

Paper VI.—

11. Hydrostatics.

The subjects of the Pass Course treated more fully.

12. Astronomy.

The subjects of the Pass Course treated more fully.

PHYSICS.

The papers in Physics shall be distributed as follows:

PASS COURSE (THEORETICAL).

Paper I.—

(*a*) *General ideas—*

1. Wave motion:

Simple harmonic motions.

Combination of wave motions.

Resolution of complex wave motion into simple harmonic wave motions.

2. Potential:

Definition of potential.

Calculation of potential in simple cases.

Determination of force from potential.

Fundamental propositions respecting lines of force, equipotential surfaces and tubes of force.

3. General properties of matter:

Elasticity. Young's modulus; simple elasticity treated experimentally.

Friction.

Viscosity of liquids and gases.

Surface tension.

Capillarity.

(*b*) *Heat.*—More thorough acquaintance with the parts of the subject prescribed for the Intermediate Examination in Science and a greater power of working problems on Heat will be expected from the candidates.

(*c*) *Light.*—Besides a more thorough acquaintance with the parts of the subject prescribed for the Intermediate Examination in Science, a knowledge of the following will be expected from the candidates:

Optical description of the eye.

Optical instruments; sextants, lenses, microscopes; telescopes, spectrometers.

Achromatic combinations.

Elements of the wave theory of Light.

Simple cases of interference, double refraction and polarisation.

Paper II.—

(*d*) *Sound.*—Besides a fuller treatment of the parts of the subject prescribed for the Intermediate Examination in Science, the following:

Measurement of frequency and wave lengths of sound vibrations.

Doppler's principle.

Resonance.

Interference of sound waves. Beats.

Harmonic tones, their generation and function.

Longitudinal vibration of rods.

Vibration of plates.

Vibration of tuning forks and bells.

Nature of musical sounds.

Vocal organs of man.

(*e*) *Frictional electricity*—

This subject treated more immediately in connection with potential, with the addition of the following parts :

Theory of electric condenser of simple geometrical form. Specific inductive capacity and its measurement. Electrometer.

Electrostatic units.

(*f*) *Dynamic electricity*—

Besides a fuller treatment of the parts of the subject prescribed for the Intermediate Examination in Science, the following :

Galvanometers.

Measurement of electric force, conductivity, resistance and current.

Electro-magnetic units and their relation to electrostatic units.

Effect of temperature on electric resistance.

Electrolysis Theory of voltaic and electrolytic cells.

Thermo-electricity including Peltier and Thomson effects.

(*g*) *Magnetism*—

Besides a fuller treatment of the parts of the subject prescribed for the Intermediate Examination in Science, the following:

Magnetic moments and methods of comparing them.

Determination of declination, dip and intensity of the magnetic force of the earth.

Methods of magnetisation.

Magnetic potential.

Magnetic properties of iron and steel. Permeability.

Hysteresis Diamagnetism.

The subjects are to be treated mathematically as well as experimentally, as far as the Mathematics of the Intermediate Course are applicable.

PASS COURSE (PRACTICAL).

Use of { Callipers. Screw-gauge. Spherometer.

Use of the balance.

Reading and correcting the barometer.

Determination of specific gravities.

Determination of the modulus of elasticity of a given wire by stretching.

Determination of the intensity of gravity by the pendulum.

Measurement of the linear coefficient of linear expansion of metals.

Measurement of the coefficient of increase of pressure of a gas.

Measurement of the coefficient of expansion of air at constant pressure.

Determination of the laws of cooling.

Determination of the specific heat of solids and liquids.

Determination of the latent heat of water and steam.

Determination of the dew-point.

Determination of the velocity of sound by resonance columns.

Use of the sonometer.

Determination of the focal length of lenses and concave mirrors.

Photometric measurements.

Determination of the magnifying power of combinations of lenses.

Adjustment and use of the spectroscope and the spectrometer.

Comparison of magnetic moments.

Distribution of magnetism along a magnet.

Determination of the axis of a magnetised body.

Measurement of magnetic dip with corrections.

Determination of the constant of a tangent galvanometer.

Measurement of the resistance of wires.

Comparison of electromotive forces.

HONOURS COURSE (THEORETICAL).

Candidates will be expected to know the notation and elementary principles of the differential and integral calculus.

In addition to the subjects of the Pass Course, the following :

(*a*) *Heat*—

The elementary principles of thermodynamics.

(*b*) *Geometrical optics*—

Spherical aberration.

Dispersion.

Prismatic analysis of light.

Explanation of lines in the solar and other spectra.

(c) *Physical optics*—

Interference of light.

Defraction of light.

Measurement of wave-length. Colour of thin plates. Double refraction.

Polarisation of light by reflection, refraction and double refraction.

Interference of polarised light as shown by double refracting crystals.

Polariscopes and Polarimeters.

Elliptic and circular polarisation.

Rotation of the plane of polarisation.

HONOURS COURSE (PRACTICAL).

In addition to the Pass Course, the following:

Use of the balance with corrections for displacement of air.

Calibration of tubes.

Determination of Young's modulus of a given rod by bending.

Experimental determination of moments of inertia.

Measurement of surface tension by means of capillary tubes.

Determination of the coefficient of expansion of liquids.

Determination of the specific heat of liquids by the method of cooling.

Determination of vapour pressure.

Determination of vapour density.

Determination of frequency by a siren.

Determination of the velocity of sound in rods by Kundt's tube.

Determination of the refractive indices of solids and liquids.

Mapping of spectra.

Measurement of wave lengths by gratings.

Measurement of magnetic moment and Earth's horizontal force.

Verification of galvanometer by electrolytic experiments.

Measurement of heat developed by current.

The laboratory note-books of candidates in Physics shall be inspected by the Examiner, and if they are found to be unsatisfactory, the candidates shall be disqualified. Note-books which have not been signed at frequent intervals by the Professor under whom the candidates worked shall not be accepted.

The papers in the Honours Course shall be distributed as follows:

Paper I.—General Ideas and Sound.

Paper II.—Heat.

Paper III.—Light.

Paper IV.—Electricity and Magnetism.

Paper V., *Paper VI.* } Practical examination.

CHEMISTRY.

PASS COURSE.

Theoretical:—Essential features of chemical and physical change; chemical notation and nomenclature; interpretation of chemical formulæ; classification and mutual relations of the elements; laws of chemical combination by weight and volume; atomic theory; Avogadro's hypothesis and its application; valency: compound radicles; conditions of chemical change and the thermal changes accompanying it; laws of electrolysis; methods of determination of equivalent, atomic, and molecular weights; diffusion of gases; dialysis; acids, basis, and salts, basicity of acids and acidity of basis; allotropy, dissociation, isomerism, polymerism, homology.

Preparation and properties of the following elements and their chief compounds:—Oxygen, hydrogen, nitrogen, argon, fluorine, chlorine, bromine, iodine, sulphur, boron, carbon, silicon, phosphorus, arsenic, sodium, potassium, ammonium, calcium, strontium, barium, magnesium, zinc, cadmium, mercury, copper, silver, gold, aluminium, manganese, iron, tin, lead, antimony, bismuth; and the following compounds of carbon:—methane and ethane with their simple derivatives, namely, haloid derivatives, aldehydes, alcohols, monobasic acids, ethers, esters, ketones, acetyl chloride, acetic anhydride, and acetamide; oxalic, tartaric and citric acids; cane sugar, invert sugar and starch; ethylamine, cyanogen, hydrocyanic acid, potassium, ferro- and ferri-cyanides, urea; benzene, mono-chlorbenzene, mono-nitrobenzene, aniline, phenol, toluene, benzyl, alcohol, benzaldehyde and benzoic acid.

Practical :—Preparation, and performance of experiments illustrating the properties of—oxygen, hydrogen, chlorine, sulphur dioxide, sulphuretted hydrogen; hydrochloric, nitric, carbonic and oxalic acids; ammonia and caustic soda; oxides, hydroxides, chlorides, sulphides, sulphates and nitrates of calcium, magnesium, iron, copper, mercury and lead.

A thorough practical acquaintance with methods of blow-pipe analysis and dry tests.

Easy qualitative analysis of inorganic substances or mixtures containing not more than two salt radicles, positive or negative, that occur in the theoretical course.

Experimental examination of the following organic substances given single:—methyl alcohol, ethyl alcohol, glyceriny formic, acetic oxalic, tartaric and citric acids; urea; benzene and benzoic acid.

Volumetric estimation of alkalies, alkaline carbonates and acids. Gravimetric estimation of crystallized copper sulphate or any similar substance. Simple determinations of Chemical Equivalent.

About one-third of the questions should be from Organic and two-thirds from Inorganic Chemistry.

HONOURS COURSE.

In addition to a fuller treatment of the subjects for the Pass Course, the following;

Inorganic Chemistry (Theoretical).

Influence of solutes on freezing and boiling points of solvents, ionic and hydrate theories of solutions; osmosis and laws of osmotic pressure; dialysis.

Study of the following elements and their principal compounds:—Selenium, Tellurium, Lithium, Cæsium, Rubidium, Chromium, Nickel, Cobalt, Platinum, Helium and Radium.

Organic Chemistry (Theoretical).

Azo and diazo-compounds; phenyl hydrazine; dioxybenzene and quinone; salicylic, toluic and phthalic acids; naphthalene and anthracene.

Inorganic Chemistry (Practical).

The mixtures for qualitative analysis may include not more than four salt radicles, positive or negative, from the following list:—Silver, lead, mercury, copper, bismuth, cadmium, tin, arsenic, antimony, iron, manganese, aluminium, chromium, zinc, cobalt, calckel, calcium, strontium, barium, magnesium, potassium, sodium, ammonium, oxides, hydroxides, chlorides, bromides, iodides, sulphides, sulphites, sulphates, chromates, carbonates, phosphates, nitrates, and nitrites.

A more complete knowledge of volumetric and gravimetric analysis.

Organic Chemistry (Practical).

The mixtures for qualitative analysis may include not more than two of the substances from the following list:—Hydrocyanic acid, formic acid, benzoic acid, oxalic acid, acetic acid, tartaric acid, citric acid, salicylic acid, cane sugar, glucose, starch, methyl and ethyl alcohols, glycerine, benzene, aniline, phenol and urea.

Questions may also be set on quantitative estimation of nitrogen, carbon and hydrogen in organic bodies; estimation of molecular weight of organic acids; determination of vapour density by Victor Meyer's method.

The laboratory note-books of candidates in Chemistry shall be inspected by the Examiner, and if they are found to be unsatisfactory, the candidates will be disqualified. Note-books which have not been signed at frequent intervals by the Professor under whom the candidates worked will not be accepted.

BOTANY.

PASS COURSE.

I. General Morphology of

(*a*) Phanerogams—including a study of the following subjects in detail:—Branch systems; phyllotaxis; origin of members. General Morphology should be studied with reference to œcological principles.

(*b*) Cryptogams.

II. Histology:—cell-contents and their microchemical reactions. Structure and development of cells and tissues.

III. Physiology, including the following subjects—treated experimentally:—Absorption of water; movement of water and gases within the plant; chemistry of the plant-body; food materials of plants, their sources and form; photosynthesis; digestion, assimilation,

transpiration; nutrition, metabolism; reserve-materials. Growth. Movement of protoplasm. Action of gravity, heat, light, and electricity. Some facts connected with symbiosis and carnivorous plants. Mechanical movements (hygroscopic movements; dehiscence of fruit; mechanical ejection of seeds). Autonomous movements (nutation sleep). Movements due to irritability (mechanical, chemical, and physical irritants; twinning). Geotropism, Heliotropism. Transport of food-stuffs and of the products of photosynthesis. Asexual and sexual propagation of plants.

IV. The study of the life-history of the following:—Yeast, Chroococcus, a Desmid, Mucor, Chara, Spirogyea, Ulothrix, Vaucheria, Peronospora, a Moss, Marchantia, a Fern, Lycopodium and Sellaginella, Equisetum, Cycas, a Conifer, a Monocotyledon and a Dicotyledon.

V. The principles of classification as illustrated by common plants; outlines of the chief modern systems of classification. Identification of plants by analytical tables. Referring plants to their natural orders.

VI. A knowledge of the systematic position, morphological characters, use and cultivation of some of the more important economical plants (rice and other cereals, pulses, vegetables, fruit-trees, sugar-producing plants, tea, the fan-palm, the bamboo, a few important timber trees, indigo, jute, cotton).

PRACTICAL COURSE.

1. The making, staining and descriptions of microscopical sections of plants.

2. Referring commonly occurring plants to their Natural Orders.

3. Identification of plants by analytical tables.

4. Drawings of dissections of flowers and of microscopical sections.

5. Physiological experiments:

Water-culture experiments; experiments on the functions of chlorophyll, its formation and decomposition; experiments on the relation between starch formation and external conditions. Experiments on root-pressure, on the flow of sap from injured parts, on the influence of external conditions on transpiration, on the mobility of water in wood, and on the absorption of mineral substances by the root. Simple experiments on respiration. Movements of growth. Germination experiments.

HONOURS COURSE.

The same as the Pass Course with the following additions:

(a) A more extensive knowledge of the characterization and classification of tissue-systems from the anatomical-physiological point of view.

(b) Experiments on the food of plants—organic food-stuffs; the microrhiza in relation to Humus experiments with penicilium, sacharomyces, parasitic fungi, and nitrogen bacteria. Experiments on osmosis and plasmolysis. Vriess's Law considered in the light of the modern theory of solutions. Experiments on the metabolic processes in plants. A more detailed account of the sexual propagation of Thallophyta, Archegoniatæ, and Siphonogamæ with additional examples to those already mentioned in the Intermediate Course. The decay of plants; humus; putrefaction bacteria. Ferments.

(c) Historical Botany. A short sketch of the occurrence of plants in former geological periods. A few of the more important type fossils of the Bengal coal-fields. A concise account of the theory of evolution.

(d) Botanical Œcology treated with special reference to Indian conditions:—Water: characteristic features of hygrophytes, tropophytes, xerophytes, and hydrophytes; hygrometric influences on sexual reproduction; dispersal of seeds by water. Heat: Zero-points of plant-life; Cardinal Points of plant-functions; acclimatization. Light: influence of intensity and quality. Air: atmospheric and dissolved oxygen; effects of barometric pressure and of wind. Soil: physical and chemical properties; effects produced by sodium chloride, reh, and calcium carbonate.

Animals: cross fertilisations, ornithophilous and entomophilous plants. Relation of ants to plants. Formations: climatic andedaphic; their characteristics

(e) Geographical Botany, with special reference to the tropical zones and Geographical regions of India.

(f) Practical course:

A. Collection and preservation of specimens. Exercises in the dissection and mentification of dried plants. Identification of species belonging to the more difficult orders (e.g.,Umbelliferæ, Amaranthaceæ,Piperaceæ,Orchidaceæ, Aroidaceæ, Graminaceæ).

B. Microscopical Examination and a more detailed practical study of any one of the following groups, their special morphology and mode of propagation—

I. Algæ: Conjugatæ.

II. Fungi: one of the following—Saprolegineæ, Peronosporineæ, Mucorineæ, Pezizineæ, Uridinales, Hymenomycetineæ.

III. Pteridophyta: Polypodiaceæ.

IV. Selaginella, Salviniaceæ and Marsiliaceæ.

GEOLOGY.

Pass Course.

Besides a more precise and thorough acquaintance with the subjects prescribed for the Intermediate Examination in Science, a knowledge of the following additional questions shall be required:

The methods for determining the form, size and weight of the Earth.

Precise descriptions of the physical features of India and Burma.

The rate of downward increment of the internal heat of the Earth.

Methods of investigating the optical properties of crystals by light transmitted through thin sections. The construction and use of the Nicol's prism and the dichroiscope; pleochroism; interference; effects in polarised light. The relation of internal physical properties to the geometrical forms of crystals. The use of the reflecting goniometer. The 32 grades of crystal symmetry. Crystal axes; systems of indices; law of rationality of indices; crystal habit; the twinning of crystals. Paramorphism. Description of the following additional minerals; sylvite copperglance, argentite, millerite, marcasite, mispickel, realgar, stibnite, bismuthite, molybdenite, pyrrhotite, erubescite, tetrahedrite, pyrargyrite, bournonite, cuprite, periclase, brucite, gœthite, diaspore, limonite, bauxite, gibbsite, anatase, brookite, pyrolusite, tridymite, braunite, psilomelane, franklinite, chrysoberyl, natron, hodochrosite, aragonite, witherite, stronianite, cerussite, chondrodite, ilmenites phene, serpentine, apophyllite, andalusite, kyanite, sillimanite, leucite, nepheline, sodalite, lapislazuli, scapolite, stilbite, chabasite, analcite, natrolite, epidote, axinite, staurolite, chlorite, beryl, cordierite, vivianite, pyromorphite, vanadinite, monazite, turquois, torbernite, columbite, thenardite, celestite, anglesite, kieserite, epsomite, goslarite, blœdite, crocoite, wulfenite, wolfram, pitchblende.

The microscopic characters of the leading varieties of igneous rocks. Description of the family of nepheline syenite, and their plutonic and volcanic relatives. The origin and nature of meteorites. Nature of the following structures:—granophyric, aphanitic, hyalopilitic, glomeroporphyritic, taxitic, perlatic, mylonitic. The stages in the development of crystalline structure: devitrification. Petrographical provinces. Magmatic differentiation and segregation. Phosphatic deposits. Anthracite. Amber. Petroleum. Asphalt. Bauxite and clay iron-stone. Rock salt. Alkaline deposits.

Artesian wells. Mineral springs. Denudation as a measure of geological time. The geological action of animals and plants.

Causes and phenomena of the different varieties of metamorphism.

Description of the leading lithological characters and distinctive fossils of the groups and systems in the European standard statigraphical scale compared with the recognised succession in India. A knowledge of the special characters and distribution of the chief series in India. The principles of correlation.

Practical Course.

The recognition of specimens of the minerals and rocks enumerated in the foregoing syllabus. Drawing and description of crystals. The use of heavy liquids for the separation of minerals according to their specific gravities. The determination of the pleochroism, angle of extinction and character of double refraction in microscopic sections of minerals. The preparation

and description of microscopic sections of rocks. The recognition of the following genera of fossils:

Globigerina, Orbitolites, Textularia, Nummulites, Orbitoides, Zaphrentis Cyathophyllum, Calceola, Omphyma, Isastræa, Favosites, Syringopora, Halysites; Stromatopora, Dictyonema: Monograptus, Didymograptus; Pentacrinus, Cyathocrinus, Marsupites, Encrinus, Echinosphærites, Cidaris, Micraster; Fenestella; Lingula, Crania, Productus, Orthi-Rhynchonella, Str'ngocephalus, Terebratula, Spirifer; Nucula, Leda, Arcas Glycimeris, Gervillia, Inoceramus, Halobia, Monotis, Ostrea, Gryphæa, Exogyra, Unio, Trigonia, Pecten, Lima, Mytilus, Pholadomya, Astarte, Hippurites, Lucina, Cardium, Tellina, Pholus; Dentalium; Patella, Pleurotomaria, Bellerophon, Euromphalus, Turbo, Natica, Turritlela Melania, Cerithium, Cypræ, Pyrula Murex, Fusus, Voluta, Conus, Tentaculites, Physa, Limnæus, Planorbis, Helix; Orthoceras, Nautilus, Tropites, Ceratites, Arcestes, Phylloceras, Baculites. Scaphites, Belemnites; Agnostus, Trinucleus, Phillipsia, Calymmene, Phacops, Estheria, Cypris.

Glossopteris, Meuropteris, Lepidodendron, Voltzia.

HONOURS COURSE.

In addition to a more complete and detailed knowledge of the subjects prescribed for the Pass Course, candidates will be expected to show an acquaintance with the philosophical bearings of geological data, and with the economic aspects of mineral deposits, including the means usually adopted to estimate their quantities and variation in value according to local conditions. They will be expected to recognise leading species of the fossil genera enumerated for the Pass Course, and to assign to them their geological ages.

The laboratory note-books of candidates shall inspected by the Examiner and if they are found to be unsatisfactory, the candidates shall be disqualified. Note-books which have not been signed at frequent intervals by the Professor under whom the candidates worked shall not be accepted.

ZOOLOGY.

PASS COURSE.

I. General Principles of Biology. The cell development and inheritance. The evidences bearing on the Hypothesis of Evolution. General Theories of Variation, Heredity, Adaptation and Origin of Species.

II. (a) Distinctive characters of the Invertebrate groups and the structure and habits, &c., of Protozoa, Porifera, Cælenterata, Platyhelminthes; Nemathelminthes, Echinodermata, Arthropoda and Mollusca.

(b) The distinctive characters, &c., of the Chordata groups and the structure and habits, &c., of Adelochorda, Urochorda, Cyclostomata, Pisces, Amphibia, Reptilia, Aves and Mammalia.

III. General knowledge of the Indian orders of mammals.

IV. The outlines of the development of the Frog and the Chick.

V. Principles of Geographical distribution of animals.

VI. General facts of Geological distribution of animals.

The Practical Examination shall include the dissection, microscopical examination and description of the following types:—Amœba, Paramœcium. Hydra, Leech, Gray-fish, Bekti, Frog, Pigeon and Rabbit.

HONOURS COURSE.

The Pass subjects treated much more fully, and in addition—

1. The Embryonic development of the Mosquito.

2. The dissection, microscopical examination, and description of the Cockroach, Malaria mosquito and House-lizard.

The laboratory note-books of candidates shall be inspected by the Examiner and if they are found to be unsatisfactory, the candidates shall be disqualified. Note-books which have not been signed at frequent intervals by the Professor under whom the candidates worked shall not be accepted.

PHYSIOLOGY.

PASS COURSE.

I. Chemical Physiology.

The ultimate and proximate principles of the animal body.

The Chemistry of albumen and its allies, carbohydrates, fats and mineral solids found in the body and the food.

II. **Histology.**

Microscopical appearance of blood lymph and milk.

Histology and development of the cell.

Segmentation of Ovum and formation of germinal membranes.

Minute structure of the various organs and tissues of the animal body.

III. General Physiology.

Properties and General Physiology of Contractile Tissues.

Functions and General Physiology of Nerve-cells and Nerve fibres.

Nutrition.

The Circulation of the Blood.

Respiration: internal and external.

Processes involved in Digestion and Absorption of food.

Principles of Metabolism—anabolic and katabolic. Internal Secretion.

Excretion by kidneys, skin, lungs, and liver.

Production and regulation of animal Heat.

Mechanism of Locomotion, Voice and Speech.

Physiology of the Brain and the Spinal cord and of the Sympathetic nervous system.

Physiology of the Organs of Sense.

PRACTICAL COURSE.

(a) The Chemistry of Starch, Glycogen, Sugars, Albumen, Globuline Milk, Blood, Urine and the Digestive Juices and their actions.

(b) The more common Histological Methods and the Minute Anatomy of the Elementary Tissues, Salivary Glands, Œsophagus, Stomach, Small and Large. Intestines, Pancreas, Liver, Spleen, Lymphatic Gland, Thymus, Thyroid, Kidney, Lung, Skin, Tongue, and Spinal cord.

(c) The most important Physiological Instruments, and the Methods of, Physical Investigation of the functions of various organs as embodied in a number of experiments to be specified from time to time.

HONOURS COURSE.

The Honours Course shall include the same subjects as the Pass Course treated more fully, and the standard of the Examination shall be higher than that of the Pass.

PRACTICAL COURSE.

The same as the Pass Course, with the addition of the following :

(a) Chemistry of Muscle, Nerve, Hæmoglobin and its derivatives and Pigments of Bile and Urine.

(b) More advanced Histological technique and a detailed knowledge of the minute structure of Cerebrum, Cerebellum, Medulla Oblongata, Pons Varolii, Eye, Ear, Taste buds, Olfactory Mucous Membrane, Olfactory Bulb, Ovary and Testis.

(c) A number of additional experiments to be specified from time to time.

The laboratory note-books of candidates shall be inspected by the Examiner and if they are found to be unsatisfactory, the candidates shall be disqualified. Note-books which have not been signed at frequent intervals by the Professor under whom the candidates worked shall not be accepted.

EXPERIMENTAL PSYCHOLOGY.

PASS COURSE.

The examination shall consist of the following parts:

(1) General Psychology— [*One Paper.*]

The Syllabus shall be identical with the Syllabus in Psychology (Pass Course) for the B.A. Examination.

(2) Experimental Psychology— [*One Paper.*]

Analysis of Sensation.

Qualities of Sensation. Theory of specific nervous energy. Touch: heat spots, cold spots, pressure spots, pain spots. Taste: distribution of sensitiveness over the tongue, taste mixtures and contrasts. Smell: compensations and contrasts. Hearing: simple tones, simple clang and its analysis, timbre, noises and their analysis, partial tones, beats, combination tones. Sight: colour tones, the white-black

series, saturation.; colour zones in the Retina, colour mixtures, colour contrasts, after-images.

Intensity of sensation: methods of measurement. Stimulus-threshold. Difference-threshold. Weber's Law. Fechner's Law. Individual differences of sense-endowment.

Analysis of Perception: localisation and projection. Spatial perception. Local signs. Tactile space. Localisation of points on the skin. Combined Touch and Movement. Spatial Perception of the Blind. Visual space: the Retinal image, the mechanism of accommodation, Eye-movement. Binocular vision. Perception of form, distance, and size. Visual perception of movement. Optical illusions. Auditory perception. Binaural audition. Localisation of sound. Consonance, harmony and rhythm. Illusions and preperceptions.

Attention: intensity, duration and fluctuations of attention, maximal range of attention.

Ideation: ideational types, memory-types, Galton's questionary.

Association of ideas, and its conditions. Experimental tests.

Time relations of mental phenomena. Reaction time and its elements. Psycho-physical time and its elements. Simple Reaction, Complex Reaction, Apperception-time, Will-time. Circuit of consciousness. Effects of Attention, Practice and Fatigue, on Reaction time. Subjective estimation of time-length and time-order.

(3) Practical Examination. [*One day.*]

The practical examination shall be conducted with special reference to the use of apparatus and psycho-physical methods (including statistics), and the mode of carrying out an experimental investigation submitted to the candidate. The candidate shall be required to examine an individual on acuity of senses (including liminal sensations and the difference-threshold), colour vision, tone discrimination, localisation, estimation of spatial and temporal magnitudes, ideational type, intensity and range of attention, association of ideas, and reaction-times.

HONOURS COURSE.

The examination shall consist of the following parts:

(1) General Psychology. [*One Paper.*]

The Syllabus shall be identical with the Syllabus in Psychology (Honours Course) for the B.A. Examination.

(2) Physiological and Comparative Psychology. [*One Paper.*]

The Nervous System:

Nerve-tissues: chemical constitution, structural forms and physiological functions.

The Nervous System of Man:

The sympathetic system, the cerebro-spinal system, the spinal cord, and the encephalic centres; structure and functions. Spinal and cranial nerves.

The Muscular System:

Structure and functions of muscles, muscles and muscular groups, the locomotive apparatus, the human hand, the vocal organs, the so-called nerve-muscle machine.

Nature of nerve current: various theories. The laws of nervous conduction, the paths of conduction in the spinal cord and the brain, automatic and reflex functions of central organs, localisation of cerebral functions.

End-organs of smell, taste, touch, hearing and sight: Structure and functions.

Development of the nervous system in Mollusca, Arthrozoa and Vertebrata. Embryonic development of the nervous system of man. The physiological basis of spatial perception, localisation, retention, association and revival of ideas, imagination, verbal memory and language, feeling, pleasure and pain, emotional expression, automatic and reflex action, instinct, heredity, attention, and acts of the will.

Normal and abnormal states. Subliminal consciousness, double consciousness, hypnotism, reverie, dream, hallucinations, sleep.

Mental Evolution in the animal kingdom: instinct and animal intelligence.

Mental evolution in the race: Mental characteristics of primitive races, race-consciousness.

Mental evolution in the Individual. Mental characteristics of different ages and sexes.

(3) Experimental Psychology: [*Two Papers.*]

In addition to the Pass Course, the following subjects:

Analysis of sensation:

Theory of specific energy:—Evidence from the end organs of Hearing, Sight and Touch.

Touch—Temperature.—Determination of the Zero-point, adaptation and contrast in temperature sensations.

Temperature and Pressure spots:—Construction of maps of the skin.

Smell:—The field of smell.

Hearing:—senstitiveness of the ear to differences of pitch and purity of interval.

Sight:—the colour triangle, the colour pyramid. Laws of colour mixture and colour contrast. Visual after-images, negative and positive. Theories of Helmholtz, Hering and Wundt.

Intensity of sensation:—stimulus-threshold and difference-threshold for tactile, auditory, visual and muscular sensations. Fechner's formulæ; interpretations of Weber's Law.

Analysis of Perception.

Touch:—Discrimination (1) of a single point, (2) of two points, on the skin. Discriminative sensibility of the skin for motion.

Localising of muscular sensations.

Visual space:—the Reduced Eye of Listing, corresponding Retinal points and double images. Stereoscopic and Perspective vision.

Ideation:—Galton's questionary, and other methods.

Association of Ideas:—experimental tests of frequeney, recency and other conditions.

Trains of ideas. Speed of mental trains: individual differences.

Time relations of mental phenomena:

Smallest interval of separate sensations. Rise and fall of intensity of sensation. Simple Reaction—the natural, the sensorial and the muscular reaction Discernment-time for sensations. Discernment-time for localisation. The reading and the multiplication of numbers. Discernment with choice and speed of decision. Association-time. Individual differences.

(4) Practical Examination in Experimental Psychology.

[*Two Papers.*]

The practical examination shall cover the entire course as laid down in the above syllabus on Experimental Psychology. The examination shall be conducted with special reference to the use of apparatus and psycho-physical methods (including statistics), and the mode of carrying out experimental investigations submitted to the candidate, and shall include the examination of an individual or individuals with regard to any matter within the scope of the syllabus.

The distribution of subjects as regards the examination in Experimental Psychology shall be as follows:

First theoretical paper, and first day's practical Examination:—Sensation and Perception.

Second theoretical paper, and second day's Practical Examination:—Attention, Ideation, Association of Ideas, and Time-relations of mental phenomena.

The laboratory note-book of a candidate in Experimental psychology shall be inspected by the Examiner, and if it is found to be unsatisfactory, the candidate shall be disqualified. A note-book which has not been signed at frequent intervals by the Professor under whom the candidate worked shall not be accepted.

GENERAL.

1. A candidate must obtain in order to pass in the Pass course in

Mathematics	... *100 marks.*
Any other subject	... *60 marks* in the theoretical papers.
	40 marks in the practical papers.

2. A candidate must obtain in order to pass in the Honours Course in

Mathematics	... *180 marks.*
Any other subject	... *108 marks* in the theoretical papers.
	72 marks in the practical papers.

3. A candidate must obtain, in order to attain the Honours Standard in

Mathematics	... *240 marks.*
Any other subject	... *160 marks* in the theoretical papers.
	80 marks in the practical papers.

4. If a candidate takes up the Pass Course in three subjects, he must, in order to pass the B.Sc. Examination, pass in each subject, and obtain 324 marks in the aggregate. If he passes and obtains 450 marks in the aggregate, he shall be declared to have passed with distinction.

5. If a candidate takes up the Pass Course in two subjects, and the Honours Course in one subject, he must in order to pass the B.Sc. Examination, pass in each subject, and obtain 432 marks in the aggregate. If he passes and also attains the Honours standard in his Honours subject, he shall be declared to have obtained second class Honours in that subject. If he passes, attains the Honours standard in his Honours subject, and obtains 360 marks in that subject, he shall be declared to have obtained first class Honours in such subject.

6. Any candidate who has failed in one subject only, and by not more than 5 per cent. of the full marks in that subject, and has shown merit by gaining 50 per cent. or more in the aggregate of the marks of the examination, shall be allowed to pass. If any such candidate has taken up the Pass Course in three subjects, he shall not be declared to have passed with distinction. But if the candidate has taken up the Pass Course in two subjects and the Honours Course in one subject, and has attained the Honours standard in such subject, he shall be allowed to retain his Honours and his place in the Honours list.

7. If the Examiners are of opinion that in the case of any candidate not covered by preceding Regulation, consideration ought to be allowed by reason of his high proficiency in a particular subject or in the aggregate, they shall report the case to the Syndicate, and the Syndicate may pass such candidate, or give him Honours, as the case may be.

CHAPTER XXXVII.

MASTER OF SCIENCE.

1. An examination for the degree of Master of Science shall be held annually in Calcutta, commencing at such time as the Syndicate shall determine, the approximate date to be notified in the Calendar.

Any candidate who has passed the B.Sc. Examination not less than two academical years previously may be examined for the degree of M.Sc. in any subject mentioned in Regulation 5 provided he has prosecuted a regular course of study for two academical years in a College or Colleges affiliated to the University in respect of that subject and standard or under one or more University Professors or Lecturers in that subject.

Any candidate who has passed the B.Sc. Examination not less than three academical years previously may be admitted as a private student to the M.Sc. Examination in Mathematics subject to the provisions of section 19 of the Indian Universities Act.

2. Every candidate shall send in his application with a certificate in the form prescribed by the Syndicate and a fee of Rs. 50 to the Registrar not less than three months before the Examination. If a student desires to appear in the M.Sc. Examination in Experimental Psychology he shall give the Registrar one year's notice of the fact.

3. Any Master of Science may, on payment of a fee of fifty rupees, be admitted to the M.Sc. Examination in any branch other than that in which he was previously examined, provided that if he takes up a subject other than Mathematics, he has prosecuted a regular course of study in that subject for a period of two academical years in a College affiliated to the University in respect of that subject and standard or under one or more University Professors or Lecturers. He shall if his attainments come up to the standard prescribed for the degree of M.Sc. be granted a certificate to that effect, stating the subject and class in which he has passed.

4. A candidate who fails to pass, or to present himself for examination, shall not be entitled to claim a refund of the fee. A candidate who fails to pass or present himself may be admitted to any one or more subsequent M.Sc. Examinations on payment of a like fee of fifty rupees on each occasion.

5. A candidate may be examined in any of the following subjects:

I. Mathematics.

II. Chemistry.

III. Physics.

IV. Botany.

V. Physiology.

VI. Zoology and Comparative Anatomy.

VII. Geology.

VIII. Experimental Psychology.

6. There shall be a Practical Exmination in all subjects other than Mathematics, and candidates shall be required to pass in the practical portion of these subjects as well as in the theoretical portion defined in the Syllabuses.

In Mathematics there shall be eight papers of three hours each, each carrying 100 marks.

In all other subjects there shall be four theoretical papers, and the practical examination shall extend over at least four days. The total marks shall be equally divided between the theoretical and practical portions of the Examination.

7. The limits of the subjects shall be as follows.

MATHEMATICS.

Candidates in Mathematics shall be examined in either Pure Mathematics or Mixed Mathematics.

The subjects in Pure Mathematics shall be as follows:

1. Higher Algebra.
2. Higher Plane Trigonometry.
3. Spherical Trigonometry.
4. Theory of Equations and Algebra of Quantics.
5. Plane Analytical Geometry, including Higher Plane Curves.
6. Geometry of Surfaces.
7. Differential Calculus.
8. Integral Calculus.
9. Differential Equations.
10. Calculus of Variations.
11. One subject to be selected by the candidate from the following group:

A. Theory of Functions.
B. Theory of Groups.
C. Finite Differences and Calculus of Functions.
D. Vector Analysis and Quaternions.
E. Projective Geometry.
F. Theory of Numbers.

Eight three-hour papers shall be set to be distributed as follows:

I.—1, 2. 3. V.—7, 8.
II.—4. VI.—9, 10.
III.—5. } VII and VIII.—11.
IV.—6. }

The subjects in Mixed Mathematics shall be as follows:

1. Advanced Statics, including Theory of Potential.
2. Dynamics of a Particle.
3. Rigid Dynamics.
4. Hydrostatics, including Capillarity.
5. Hydrodynamics.
6. Spherical Astronomy.
7. One subject to be selected by the candidate from the following group:

A. Theory of Elasticity.
B. Advanced Dynamics.
C. Higher Parts of Spherical Astronomy.
D. Lunar and Planetary Theories.
E. Figure of the Planets.
F. Theory of the Tides.

One three-hour paper shall be set upon each of the Compulsory subjects, and two papers on the additional subject.

A candidate who has taken his B.Sc. Degree with Honours in Mathematics may offer a piece of research work in any portion of the subject he has been studying in lieu of examination in two papers in the remaining portion of the examination. The maximum number of marks assigned to the research work shall be equal to the number assigned to the two papers he would otherwise have taken up.

CHEMISTRY.

Candidates in Chemistry shall be examined in the following:

(A) Physical Chemistry,
(B) Inorganic Chemistry,
(C) Organic Chemistry.

They will be expected to show a detailed knowledge of any one of these branches and a general knowledge of the other two.

There shall be a Practical Examination comprising qualitative and quantitative analysis; and the preparation of chemical specimens.

Candidates must produce note-books of their laboratory work, which must be duly

certified by the Professor, and shall be taken into account in estimating their qualifications.

Candidates who have taken their B.Sc. Degree with Honours in Chemistry may offer a piece of research work in the special branch selected by them in lieu of examination in the other two. The maximum number of marks assigned to the research work shall be half the marks assigned to the whole examination.

PHYSICS.

Candidates in Physical Science shall be examined in :

(A) Electricity and Magnetism,

and in one of the following:

(B) General Physics and Sound.

(C) Light.

(D) Heat.

Candidates must produce note-books of their Laboratory work which must be duly certified by the Professor, and shall be taken into account in estimating their qualifications.

Candidates who have taken their B.Sc. Degree with Honours in Physics may offer a piece of research work in Electricity and Magnetism in lieu of examination in another subject. The maximum number of marks assigned to the research work shall be half the marks assigned to the whole examination.

BOTANY.

Candidates in Botany shall be examined in :—(1) General Morphology, (2) Special Morphology including Classification, (3) Histology, (4) Physiology including Phytodynamics, (5) Distribution of plants in space, (6) Distribution of plants in time and its bearing on the theory of descent.

2. Candidates will be expected to show a detailed knowledge of either (1) and (2) or (3) and (4).

3. The Practical Examination shall include (*a*) the making of Microscopic sections of plants or parts of plants including staining and application of microchemical reagents; (*b*) examination, description and identification of microscopic preparations provided by the Examiners or made by the candidates; (*c*) examination, description, systematic determination and identification of plants or parts of plants; (*d*) the performance of physical or chemical experiments, or the setting up and description of apparatus, relating to the physiology of plants.

Candidates must produce note-books of their Laboratory work, which must be duly certified by the Professor, and shall be taken into account in estimating their qualifications.

Candidates who have taken their B.Sc. Degree with Honours in Botany may offer a piece of research work in the branch which they have selected for special study in lieu of examination in (5) and (6) and the practical work under (*c*). The maximum marks for the research work shall be 200.

PHYSIOLOGY.

The candidate must be prepared to submit himself to a very thorough examination in Physiology. He shall name a particular branch of Physiology which he has made a special study of, and in which the examination will be more searching than in the rest.

The Practical examination shall include—

I. Chemical Physiology.

II. Histology.

III. Experimental Physiology.

The candidate shall name for part of his Practical Examination one of the above subjects in which the test shall be more searching than in the others.

Candidates must produce note-books of their Laboratory work, which must be duly certified by the Professor, and shall be taken into account in estimating their qualifications.

Candidates who have taken their B.Sc. with Honours in this subject shall be allowed to offer a piece of research work in the branch in which they have specialized in lieu of a portion of the examination in the other part not carrying more than 200 marks.

ZOOLOGY AND COMPARATIVE ANATOMY.

The candidate must be prepared to submit himself to a thorough examination in Zoology. He shall name a group of animals of which he has made a special study and in respect of which the examination will be more searching than in the rest.

The Practical Examination shall include dissection, microscopical examination and description of types selected out of the group of animals referred to above. The candidate must be prepared to show his practical acquaintance with histological and embryological technique.

Candidates must produce note-books of their Laboratory work, which must be duly certified by the Professor, and shall be taken into account in estimating their qualifications.

Candidates who have taken their B.Sc. with Honours in this subject shall be allowed to offer a piece of research work in the branch in which they have specialized in lieu of a portion of the examination in the other part not carrying more than 200 marks.

GEOLOGY.

Candidates who offer themselves for Examination in Geology for the M. Sc. Degree, may elect to specialize in either—

(*a*) The Mineralogical and Petrological branch or (*b*) the Stratigraphical and Palæontological branch.

All candidates will be expected to show a knowledge of the History of Geological Science, and to possess an intimate acquaintance with the economic aspects of the branch in which they elect to be examined, with special reference to the mineral deposits of India, their exploitation by indigenous methods in the past and a knowledge of recent developments.

Candidates must produce note-books of their Practical work including field work in which they participated. These must be duly certified by the Teacher, and shall be taken into account in estimating their qualifications.

Candidates who have taken their B.Sc. with Honours in this subject shall be allowed to offer a piece of research work in the branch in which they have specialized in lieu of a portion of the examination in the other part not carrying more than 200 marks.

EXPERIMENTAL PSYCHOLOGY.

1. The examination shall consist of the following parts :

Theoretical :

(*a*) Physiological Psychology. [*One Paper.*]

(*b*) Mental Pathology. [*One Paper.*]

(*c*) Animal Psychology, with Mental Evolution in the Animal Kingdom. [*One Paper*]

(*d*) Child Psychology, with Mental Evolution in the Individual. [*One Paper.*]

Practical :

Experimental Psychology [*Four Days.*]

(*i*) Sensation.

(*ii*) Perception, Ideation, Association of Ideas, and Attention.

(*iii*) and (*iv*) Time-relations of Mental phenomena, affective states and their influence on motion.

2. Candidates who have passed the B.Sc. Examination with Honours in Experimental Psychology may offer a piece of research work in (*a*) or (*b*) in lieu of examination in (*c*) and (*d*) or a piece of research work in (*c*) or (*d*) in lieu of examination in (*a*) and (*b*).

No candidate shall be excused any portion of the practical examination.

The maximum number of marks assigned to the research work shall be 200.

3. Candidates must produce note books of their laboratory-work, which shall be duly certified by the Professor, and shall be taken into account in estimating the candidates' qualifications.

GENERAL.

8. (*a*) In order to pass in Mathematics a candidate must obtain 264 marks. No minimum pass marks shall be required in each paper, but if in any paper a candidate obtains less than 20 marks, those marks shall not be included in his aggregate. Candidates obtaining 320 marks shall be placed in the second class and those obtaining 400 marks in the first class.

(*b*) In order to pass in any subject other than Mathematics a candidate must obtain 132 marks in the aggregate of the four theoretical papers and 160 marks in the Practical Examination. If in any theoretical paper a candidate obtains less than 25 marks, these marks shall not be included in his aggregate. Candidates obtaining 360 marks shall be placed in the second class and those obtaining 480 marks in the first class.

9. As soon as possible after the examination the Syndicate shall publish a list of candidates who have passed in each subject, arranged in three classes and in order of merit. Candidates shall be

bracketed together unless the Examiners are of opinion that, there is clearly a difference in their merits.

Each successful candidate shall receive with his degree of M.A. a certificate setting forth the subject in which he was examined, and the class in which he was placed.

10. The candidate who is placed first in the first class in each branch shall receive a Gold Medal and a prize of books to the value of Rs. 200, and the candidate who is placed second in the first class in each branch shall receive a Silver Medal and a prize of books to the value of Rs. 100.

11. In all cases where a candidate is allowed to substitute a piece of research work for part of the examination the following conditions shall be observed :

(*a*) He must have completed one year's study including a full course in the subject in which he intends to offer a piece of research work.

(*b*) He must at the end of the year in question submit to the Syndicate an application for permission to offer a piece of research work in lieu of part of the examination.

(*c*) The application shall indicate the particular piece of research which he wishes to take up and must be recommended by the Professor or Professors under whom he has been working.

(*d*) If the application be granted by the Syndicate the research must be carried on under the direction of the Professor or Professors with whom the candidate is prosecuting his studies.

(*e*) The candidate shall draw up a complete report of the particular research work done by him and shall deliver this report to the Registrar at least a month before the first day of the M.Sc. Examination at which he intends to present himself.

(*f*) The Examiner appointed to consider the research work and to apportion marks for the same, shall, if he thinks necessary, subject the candidate to a *vivâ voce* examination with a view to testing his acquaintance with any previous work that has been done in the particular line of research taken up.

CHAPTER XXXVIII.

DOCTOR OF SCIENCE.

1. Any Master of Science of the University of Calcutta who has been placed in either the first or the second class at the examination for the Degree of Master, may offer himself as a candidate for the Degree of Doctor of Science, provided three years have elapsed from the time when he passed the examination.

2. Every candidate shall state in his application the special subject within the purview of the Regulations for the Degree of Master of Science, upon a knowledge of which he rests his qualification for the Doctorate, and shall, with the application, transmit three copies, printed or typewritten, of a thesis that he has composed treating scientifically some special portion of the subject so stated, embodying the result of research, or showing evidence of his own work, whether based on the discovery of new facts observed by himself or of new relations of facts observed by others, or tending generally to the advancement of Science. The candidate shall indicate generally in a preface to his thesis and specially in notes, the sources from which his information is taken, the extent to which he has availed himself of the work of others, and the portions of the thesis which he claims as original; he shall further state whether his research has been conducted independently, under advice, or in co-operation with others, and, in what respects his investigations appear to him to tend to the advancement of Science.

3. Every candidate may also forward with his application three printed copies of any original contribution or contributions to the advancement of the science professed by him, or any cognate branch of science, which may have been published by him independently or conjointly, and upon which he relies in support of his candidature.

4. No application shall be entertained unless two Members of the Faculty of Science or two Doctors of Science shall have testified, to the satisfaction of the Syndicate, that in habits and character, the candidate is a fit and proper person for the Degree of Doctor.

5. Every candidate shall forward with his application a fee of Rs. 100. No candidate who fails to pass or present himself for examination shall be entitled to claim a refund of the fee.

6. The thesis mentioned in Regulation 2 and the original contributions, if any, mentioned in Regulation 3, shall be

referred by the Syndicate to a Board of three examiners.

7. If the thesis is approved by the Board, and, if the candidate has obtained a first class at the examination for the Degree of Master of Science, he shall not be required to submit to any further written examination; but he may be required by the Board, at their discretion to appear before them to be tested orally, or practically, or by both these methods; with reference to the thesis, and the special subject selected by him. The Board shall report to the Syndicate the result of the examination of the thesis, and, of the oral and practical examinations, if any; and if the Syndicate, upon the report, consider the candidate worthy of the Degree of Doctor of Science, they shall cause his name to be published, with the subject of his thesis, and the titles of his published contributions (if any) to the advancement of Science.

8. If the candidate is a person who has obtained a second class at the examination for the Degree of Master of Science, and if his thesis is approved by the Board, he shall be required to submit to a written examination.

Two papers of three hours each shall be set, one upon the special subject mentioned in the application of the candidate, and the other upon the subject of the thesis. The candidate may also be required by the Board, at their discretion, to appear before them to be tested orally or practically or by both these methods, with reference to the thesis and the special subject professed by him. The Board shall report to the Syndicate the result of the examination of the thesis, and of the written examination, and also of the oral and practical examinations, if any; and if the Syndicate, upon the report, consider the candidate worthy of the Degree of Doctor of Science they shall cause his name to be published, with the subject of his thesis, and the titles of his published contributions (if any) to the advancement of Science.

9. In the case of a candidate falling under the preceding Regulation, if the Board, upon an examination of his thesis and of his original contribution or contributions to the advancement of Science hold the same to be generally or specifically of such special excellence as to justify the exemption of the candidate from the written examination, he may be exempted by the Syndicate, provided that the report of the Board shall set forth the fact and the grounds of such exemption.

10. A diploma under the seal of the University, and signed by the Vice-Chancellor shall be delivered at the next convocation for conferring degrees to each candidate who has qualified for the degree.

11. Every candidate shall be at liberty to publish in his thesis, and, the thesis of every successful candidate shall be published by the University with the inscription: "Thesis approved for the Degree of Doctor of Science in the University of Calcutta."

CHAPTER XXXIX.

LICENTIATE IN TEACHING.

1. An Examination for a Licentiate in Teaching shall be held annually in Calcutta at such time as the Syndicate shall determine, the approximate date to be notified in the Calendar.

2. Any candidate may be admitted to the Examination not less than two years after passing the Intermediate Examination in Arts or Science, provided he has attended a regular course of lectures* on the Art and Theory of Teaching in a college or colleges affiliated in Teaching, and has, in addition, (*a*) undergone a course of practical training for a period of six consecutive months at a Training School approved by the Syndicate for the purpose, or (*b*) served as a Teacher at some recognised school for one academical year previously to the Examination. The theoretical portion of the course shall consist of the following subjects:—(1) The Theory and Practice of Teaching in relation to Mental and Moral Science, (2) Methods of teaching specific subjects, and School management, (3) a selected educational classic or classics and (4) a selected course in modern English, Prose and Poetry.

3. There shall be a written Examination in each of the subjects (1), (2), (3) and (4) and a practical examination for testing skill in teaching by means of lessons to be given by the candidate to a class or classes at some recognised school in Calcutta on any three of the following groups of subjects selected by him:

(i) English.
(ii) A Classical Language.
(iii) History.
(iv) Mathematics.
(v) Geography.
(vi) Elementary Physics and Chemistry.
(vii) Elementary Mechanics.
(viii) Kindergarten and Object Lessons.

* This condition will not be enforced so long as there is no College affiliated for this purpose.

4. There shall be one paper in each of the subjects (1), (2), (3) and (4). The Paper on (2) shall include an Essay on an Educational subject carrying 50 marks. Each paper shall be of three hours, and shall carry 100 marks. 300 marks shall be allotted to the practical examination. In order to pass, a candidate must obtain 36 marks in each of the subjects (1), (2), (3) and (4), and 120 marks in the practical examination. Candidates obtaining 420 marks shall be declared to have passed with distinction.

A fee of Rs. 30 shall be payable by every candidate. If the candidate fails to pass or present himself at the Examination, he shall not be entitled to claim a refund of the fee.

5. No candidate shall be allowed to appear for the practical examination till he has passed in the theoretical portion. A candidate may present himself for examination in the theoretical portion one year after passing the Intermediate Examination in Arts or Science: and if he passes he may appear in the practical portion of the examination in a subsequent year.

6. The limits of the different subjects shall be as follows:

(I) Theory and Art of Teaching in relation to Mental and Moral Science.

(*a*) General Analysis of Mind; fundamental processes and activities with their laws and conditions.

(*b*) The physical basis of mental life; sensation, perception, attention, memory, association of ideas, assimilation of knowledge, feeling and volition; their associated physical conditions.

(*c*) Mental evolution in the individual—characteristics of different ages:—infancy and childhood—the school age, and the succeeding period.

(*d*) The training of the Senses;—co-ordination of sense and movement.

(*e*) The cultivation of attention and interest—the cultivation of the imagination and the emotions—the æsthetic basis of intellectual education.

(*f*) The Logical basis of education—Logical Method—theory of the five formal steps—abstraction, generalisation and conception—order of the acquisition of knowledge.

(*g*) Language, Imitation and Play as factors in education. Growth of the linguistic faculty.

(*h*) The training and discipline of the emotions—cultivation of Sympathy and the Social Emotions—of the moral sentiment.

(*i*) The training of the will—formation of habits—Rewards and punishments—authority and discipline—the moral standard—the moral ideal and moral progress.

(*j*) Characters of individual children—marks of brightness and cleverness—marks of deficiency and abnormality—atavism physical and moral.

(*k*) Tests of visualising power, memory, verbal memory, command of language, sense of number, and the computing capacity, with the conditions of their growth and decline.

(*l*) Educational values and educational ends. Education: classical and scientific, liberal and technical, general and special. Civic education. Co-ordination and sequence of studies. National systems of education: the primary, the secondary, and the University stage.

(II) Methods of teaching specific subjects, and School management.

Methods:

Special:

Training:—Drawing, drill and active songs, Gymnastics and games.

Humanistic studies:— General treatment. Mother tongue, Foreign language, Grammar and Composition, Literature, History.

Naturalistic studies:—General treatment. Object lessons. Elementary Scientific lessons. Every day Science. Geography. Arithmetic, Geometry and Algebra. Elementary Mechanics. Elementary Physics and Elementary Chemistry.

General:—Co-ordination of particular studies. Preparation of teaching notes and lessons. Use of the black board. Questioning and conversation. Oral lessons and book-work. Excursions.

School Management: Organisation of schools. Co-ordination and sequence of studies. Classification of scholars, various methods of grading pupils. Management of a class. Apportionment of time. The

time-table and recreation. Methods of examination. Registers and returns. Progress reports. Promotions and rewards. Corporal punishment in schools. Discipline and the formation of habits. Relations of teachers to pupils out of school hours. Physical exercise. Hygienic conditions. Experimental study of children, and record of results. Attention to individual children. School buildings—their structure, fitting and furniture. Books and apparatus.

(III) English.

Books shall be prescribed from time to time by the Syndicate on the recommendation of the Board of Studies in English. The works shall be of the same standard of difficulty as the B.A. Pass English texts.

CHAPTER XL.

BACHELOR OF TEACHING.

1. An Examination for the Degree of Bachelor of Teaching shall be held annually in Calcutta at such time as the Syndicate shall determine, the approximate date to be notified in the Calendar.

2. Any candidate may be admitted to the Examination, not less than one year after passing the B.A. or B Sc. Examination provided he has attended a regular course of lectures* on the Art, Theory and History of Teaching in a College or Colleges affiliated in Teaching, and has, in addition, either (*a*) undergone a course of practical training consisting of not less than 50 lessons for a period of six consecutive months at a Training School approved by the Syndicate for the purpose, or (*b*) served as a Teacher at some recognised school for one academic year previously to the Examination. The theoretical portion of the course shall extend over one academical year, and consist of the following subjects:—(1) The Theory and Practice of Teaching in relation to Mental and Moral Science, (2) Methods of teaching specific subjects, and school management, (3) the History of Educational Ideas and Methods, and (4) a selected educational classic or classics.

Any candidate who has passed the examination for the Licentiate in Teaching and have also graduated in Arts or in Science may be admitted to this examination without compliance with the conditions laid down in the above paragraph.

3. There shall be a written examination in each of the subjects (1), (2), (3) and (4) and a practical examination for testing skill in teaching by means of lessons to be given by the candidate to a class or classes at some recognised school at Calcutta on three of the following subjects selected by him:

(i) English.
(ii) A Classical Language.
(iii) History.
(iv) Mathematics.
(v) Geography.
(vi) Elementary Physics and Chemistry.
(vii) Elementary Mechanics.
(viii) Kindergarten and Object Lessons.

4. There shall be one paper in each of the subjects (1), (2), (3) and (4). The Paper on (4) shall include an Essay on an Educational subject, carrying 50 marks. Each paper shall be of three hours, and carry 100 marks. 300 marks shall be allotted to the practical portion of the examination. In order to pass, a candidate must obtain 36 marks in each of the subjects (1), (2), (3) and (4), and 120 marks in the practical examinations. Candidates obtaining 420 marks shall be placed in the first Division.

5. A candidate may present himself for examination in the theoretical portion in one year, and in the practical portion in a subsequent year, but no candidate shall be admitted to the practical examination, who has not passed the written examination. A fee of Rs. 40 shall be payable by every candidate. If the candidate fails to pass or present himself at the examination, he shall not be entitled to claim a refund of the fee.

6. The limits of the different subjects shall be as follows:

(I) The Theory and Art of teaching. The subjects prescribed for the Licentiate in Teaching treated more fully.

(II) Methods of teaching specific subjects and School Management. The subjects prescribed for the Licentiate in Teaching treated more fully.

(III) History of Educational Ideas and Methods.

Oriental:—Ancient and Mediæval Hindu education. Mediæval Mahomedan education.

Western:—Greek, Roman and Mediæval education. The Renaissance, The Jesuits and the Jansenists. Revolt from classicism and

* This condition will not be enforced so long as there is no College affiliated for this purpose.

return to Nature. Scientific psychology and the Science of education. Child psychology and Pedagogics.

Outlines of the Organisation and History of National systems of education with special reference to England, Germany, America and Japan.

CHAPTER XLI.

BACHELOR OF LAW.

1. Every candidate for the Degree of Bachelor of Law shall satisfy the following conditions:

(i) He must have passed the Examination for the Degree of Bachelor of Arts or Bachelor of Science.

(ii) He must, after passing that examination, have prosecuted a regular course of study, as explained in Regulation 2, for not less than two academical years in a college affiliated in Law.

(iii) He must pass two examinations in Law, the Preliminary Examination in Law after one year's course of Law study, and the Final Examination in Law after a two years' course of Law study. Both the Examinations shall be held six-monthly, but subject to the exception mentioned in Regulation 9, no candidate shall be admitted to the Final Examination until a year after he passes the Preliminary Examination.

2. No candidate shall be considered to have prosecuted a regular course of study unless he has attended—

(i) at least three-fourths of the full number of lectures in each subject or group of subjects mentioned in Regulation 4 as forming the subject of a separate paper (such full number not being less than 32; no candidate being allowed to count attendance at more than one lecture on the same subject or group of subjects on the same day);

(ii) at least three-fourths of the full number of sittings of a Moot Court in each of the said subjects or groups of subjects (such full number not being less than 12).

3. The Preliminary and Final Examinations shall be written and may also be partly oral.

4. The following shall be the subjects for the Preliminary and Final Examinations respectively:

FOR THE PRELIMINARY EXAMINATION.

(i) Jurisprudence.

[*One Paper.*]

(ii) Elements of Roman Law and the Principles of Legislation.

[*One Paper.*]

(iii) Hindu Law.

[*One Paper.*]

FOR THE FINAL EXAMINATION.

(i) Mahomedan Law

and

(ii) The Law relating to Persons.

[*One Paper.*]

(iii) The Law relating to Property, including

(*a*) the Law of Land Tenures, Land Revenue and Prescription.

[*One Paper.*]

(*b*) the Law of Transfer *inter vivos.*

[*One Paper*]

and

(*c*) Principles of the English Law of Real Property and the Law of Intestate and Testamentary Succession (exclusive of the Hindu and the Mahomedan Law of Intestate Succession).

[*One Paper.*]

(iv) The Principles of Equity, including the Law of Trusts.

[*One Paper.*]

(v) The Law of Contracts and Torts.

[*One Paper.*]

(vi) The Law of Evidence and the general principles of Civil Procedure.

[*One Paper.*]

(vii) The Law of Crimes and the general principles of Criminal Procedure.

[*One Paper.*]

5. The limits of each subject mentioned in the preceding Regulation shall be indicated by the Syndicate from time to time by reference to text-books, and legislative Acts and Statutes where necessary. The Syndicate shall also prescribe, in connection with each subject [other than subjects (i) and (ii) for the Preliminary Examination] a list of leading cases to be studied in the original judgments as expositions of important legal principles. Every College affiliated in Law shall make suitable provision for a law library so as to enable its

students to have access to the Reports or other books in which the selected cases may be found.

6. A Preliminary Examination and a Final Examination in Law shall be held six-monthly in Calcutta, and in such other places as the Syndicate may from time to time determine, and shall commence at such times as the Syndicate may fix, the approximate dates to be notified in the Calendar.

7. Any Bachelor of Arts or Science who has, after passing this Degree examination, prosecuted a regular course of study as explained in paragraph 2, so far as the subjects for the Preliminary Examination in Law are concerned, may be admitted to that examination if he sends to the Registrar his application with a fee of Rs. 15 and with a certificate in the Form prescribed by the Syndicate at least thirty days before the date fixed for the commencement of the Examination.

A candidate who fails to pass or present himself for Examination, shall not be entitled to obtain a refund of the fee; but he may be admitted to one or more subsequent Examinations on payment of a like fee of fifteen rupees

8. As soon as possible after the Preliminary Examination the Syndicate shall publish a list of the names of the successful candidates arranged in two divisions, each in alphabetical order.

9. A student may during the first year of his Law study, prosecute a regular course of study as explained in paragraph 2, in the subjects for the Final Examination, notwithstanding that he has not already passed the Preliminary Examination. And no student shall be debarred from prosecuting such regular course of study in the subjects for the Final Examination in the second year of his Law study, by reason of his failing to pass or present himself for the Preliminary Examination at the end of the first year. But no one who is not a Master of Arts or Science shall be admitted to the Final Examination until a year after his passing the Preliminary Examination.

10. Any Bachelor of Arts or Science who has after passing prosecuted a regular course of study as explained in Regulation 2, for two years, and has passed the Preliminary Examination, may be admitted to the Final Examination in Law, if he sends his application with a fee of Thirty Rupees and with certificates in the Form prescribed by the Syndicate to the Registrar at least thirty days before the date fixed for the commencement of the Examination.

And any one who has prosecuted a regular course of study as above mentioned, and who as a Master of Arts or Science is entitled under the exception in paragraph 9 to present himself for the Preliminary and Final Examinations in the same year, may be admitted at the same time to the two Examinations if he sends his applications with the prescribed fees and with certificates in the prescribed Forms to the Registrar at least thirty days before the date fixed for the commencement of the earlier of the two Examinations.

A candidate under either of the preceding paragraphs who fails to pass or present himself for Examination shall not be entitled to obtain a refund of the fee; but he may be admitted to one or more subsequent Examinations on payment of the prescribed fee.

11. As soon as possible after the Final Examination the Syndicate shall publish a list of the names of the successful candidates arranged in two divisions, each in order of merit. The first student of the first division shall be entitled to a Gold Medal and a prize of books to the value of Rs. 200.

12. If a candidate who is admitted to the Preliminary and Final Examinations at the same time, succeeds in the former and fails in the latter, he shall be declared to have passed the Preliminary Examination, and he may be admitted to any subsequent Final Examination on payment of the prescribed fee. But if he succeeds in the Final Examination and fails in the Preliminary Examination, he shall be deemed to have failed in both, and he may be subsequently admitted to the two Examinations at the same time on payment of the prescribed fees.

13. For the Preliminary Examination, three papers shall be set, each of three hours and carrying 100 marks.

For the Final Examination, eight papers shall be set, each of three hours and carrying 100 marks.

14. In the third paper for the Preliminary Examination, and in every paper for the Final Examination, 40 marks shall be allotted to questions framed with a view to test the ability of candidates to apply the more important legal principles to concrete cases. Full credit shall be given for well reasoned answers to such questions, even if the conclusions happen to differ from the views taken in decided cases. No credit shall be given for bare answers unsupported by arguments.

15. In order to pass the Preliminary Examination, a candidate must obtain—

In each paper [30 *marks*.]

and in the aggregate [150 *marks*.]

In order to be placed in the first division a candidate must obtain [200 *marks*.]

16. In order to pass the Final Examination, a candidate must obtain—

In each paper [30 *marks*.]

and in the aggregate [400 *marks*.]

In order to be placed in the first division, a candidate must obtain [534 *marks*.]

17. Any candidate who has failed in one paper only at either examination, and by not more than 5 marks, and has shown merit by gaining 60 per cent. or more in the aggregate of the marks of the examination, shall be allowed to pass. In order to determine the division in which such a candidate shall be placed, and his place in the division, the number of marks by which he has failed in one paper shall be deducted from his aggregate.

If the Examiners are of opinion that in the case of any candidate at either examination not covered by the preceding Regulation, consideration ought to be allowed by reason of his high proficiency in a particular subject or in the aggregate, they shall report the case to the Syndicate, and the Syndicate may pass such candidate.

18. Each successful candidate at the Preliminary Examination shall receive a certificate in the form entered in Appendix A.

Each successful candidate at the Final Examination shall receive with his degree of B.L. a diploma in the form entered in Appendix A, setting forth the division in which he was placed.

CHAPTER XLII.

MASTER OF LAW.

1. An Examination for the Degree of Master of Law shall be held annually in Calcutta, commencing at such time as the Syndicate shall determine, the approximate date to be notified in the Calendar.

2. Any candidate who has obtained the Degree of Bachelor of Law may be examined for the Degree of Master of Law.

3. Every candidate shall send his application with a fee of one hundred rupees to the Registrar at least three months before the date fixed for the commencement of the Examination. A candidate who fails to pass or present himself for Examination shall not be entitled to claim a refund of the fee.

4. Every candidate shall be examined in the following subjects:

(1) Hindu Law or Mahomedan Law.

(2) Jurisprudence and Principles of Legislation.

(3) Principles and History of Roman Law.

(4) Private International Law.

(5) and (6) Any two of the following subjects, namely:

(i) Principles of Equity.

(ii) The Law relating to the Transfer of Immovable Property and the Law of Prescription.

(iii) The Law relating to Wills.

(iv) The Law of Contracts and Torts.

(v) Principles and History of the Law of Real and Personal Property.

(vi) Principles and History of the Law of Evidence.

(vii) History of English Law.

5. Six papers shall be set to each candidate, one on each of the six subjects. Each paper shall be of three hours and shall carry 100 marks.

There shall be a *vivâ voce* examination of each candidate, if the Examiners think fit.

6. As soon as possible after the examination, the Syndicate shall publish a list of the candidates who have passed, arranged in two classes, each in order of merit. Candidates shall be bracketed together, unless the Examiners are of opinion that there is clearly a difference in their merits.

7. Each successful candidate shall receive with his Degree of M.L a diploma in the form entered in Appendix A, setting forth the class in which he was placed. The candidate who is placed first in the first class shall receive a Gold Medal and a prize of books to the value of Rs. 200.

8. In order to pass the examination for the Degree of Master of Law, a candidate must obtain—

In each paper [50 *marks*.]

In order to be placed in the first class, a candidate must further obtain—

In the aggregate [*400 marks*]

9. The Examiners shall have regard to the style and method of the answers submitted by the candidates, and shall give credit for excellence in these respects.

CHAPTER XLIII.

DOCTOR OF LAW.

1. Any Master of Law of the University of Calcutta may offer himself as a candidate for the Degree of Doctor of Law, provided one year has elapsed from the time when he passed the examination for the Degree of Master.

2. Every candidate shall state in his application the special subject within the purview of the Regulations for the Degree of Master of Law, upon a knowledge of which he rests his qualification for the Doctorate, and shall, with the application, transmit three copies, printed or typewritten, of a thesis that he has composed upon some branch of law, or of the history or philosophy of law The candidate shall indicate generally in a preface to his thesis and specially in notes, the sources from which his information is taken, the extent to which he has availed himself of the work of others, and the portions of the thesis which he claims as original; he shall further state whether his research has been conducted independently, under advice, or in co-operation with others, and, in what respects his investigations appear to him to advance the study of law.

3 Every candidate may also forward with his application three printed copies of any original contribution or contributions to the advancement of the science or study of Law whether published conjointly or independently and upon which he relies in support of his candidature.

4. No application shall be entertained unless two Members of the Faculty of Law or two Doctors of Law shall have testified, to the satisfaction of the Syndicate, that since graduating as Bachelor of Law, the candidate has practised his profession with repute for five years, and that in habits and character, he is a fit and proper person for the Degree of Doctor.

5. Every candidate shall forward with his application a fee of Rs. 100. No candidate who fails to pass or present himself for examination shall be entitled to claim a refund of the fee.

6. The thesis mentioned in Regulation 2 and the original contributions, if any, mentioned in paragraph 3, shall be referred by the Syndicate to a Board consisting of the Dean of the Faculty of Law and two other persons.

7. If the thesis is approved by the Board, and, if the candidate has obtained a first class at the examination for the Degree of Master of Law, he shall not be required to submit to any further written examination; but he may be required by the Board, at their discretion to appear before them to be tested orally with reference to the thesis, and the special subject selected by him. The Board shall report to the Syndicate the result of the examination of the thesis, and, of the oral examination, if any; and if the Syndicate, upon the report, consider the candidate worthy of the Degree of Doctor of Law, they shall cause his name to be published, with the subject of his thesis, and the titles of his published contributions (if any) to the advancement of the science or study of Law.

8 If the candidate is a person who has obtained a second class at the examination for the Degree of Master of Law, and, if his thesis is approved by the Board, he shall be required to submit to a written examination.

Two papers of three hours each shall be set, one upon the special subject mentioned in the application of the candidate, and the other upon the subject of the thesis The candidate may also be required by the Board, at their discretion, to appear before them to be tested orally with reference to the thesis and the special subject professed by him. The Board shall report to the Syndicate the result of the examination of the thesis, and of the written examination, and also of the oral examination, if any; and if the Syndicate, upon the report, consider the candidate worthy of the Degree of Doctor of Law, they shall cause his name to be published, with the subject of his thesis, and the titles of his published contributions (if any) to the advancement of the science or study of Law.

9 In the case of a candidate falling under the preceding Regulation if the Board, upon an examination of his thesis and of his original contribution or contributions to the advancement of the science or study of Law, hold the same to be generally or specifically of such special excellence as to justify the exemption of the candidate from the written examination, he may be so exempted by the Syndicate, provided that the report of the Board shall set forth the fact and the grounds of such exemption.

10. A diploma under the seal of the University, and signed by the Vice-Chancellor shall be delivered at the next convocation for conferring degrees to each candidate who has qualified for the degree

11. Every candidate shall be at liberty to publish his thesis, and, the thesis of every successful candidate shall be published by the University with the inscription: "Thesis approved for the Degree of Doctor of Law in the University of Calcutta."

CHAPTER XLIV.

PRELIMINARY SCIENTIFIC M.B. EXAMINATION.

1. Any undergraduate of the University may be admitted to this examination provided he has fulfilled the following conditions:

(a) That he has passed the Matriculation Examination, and

(b) That he has completed, since passing the Matriculation Examination, a regular course of study, theoretical and practical in the subjects for the examination, for one academical year in a college affiliated to the University for this purpose.

2. The Preliminary Scientific M.B. Examination shall take place once in each year. Every candidate for admission to this examination shall send to the Registrar his application with a certificate in the form prescribed by the Syndicate, and a fee of Rs. 10 at least fourteen days before the date fixed for the commencement of the examination. A candidate who fails to pass or present himself for examination shall not be entitled to claim a refund of the fee. A candidate may be admitted to one or more subsequent examinations on payment of a like fee of ten rupees on each occasion provided that after three failures he shall not be admitted to the examination except on the special recommendation of the Principal of the College.

3. Every candidate shall be examined in the following subjects:—Inorganic Chemistry, Physics, Botany, and Zoology (one paper in each). The examination shall be written, oral and practical, three hours being allowed for each paper in each subject.

4. As soon as possible after the examination, the Syndicate shall publish a list of successful candidates arranged in alphabetical order. Every candidate shall on passing receive a certificate in the form entered in Appendix A.

5. The course of study for the Preliminary Scientific. M.B. Examination shall be—

Inorganic Chemistry.

Theoretical.

Chemical and Physical changes; Laws of Chemical action. Indestructibility of matter; the balance; weights and measures. Elements and compounds; Classification of the elements; Periodic Law. Atoms and molecules; symbols and formulæ; valency; equations, atomic weights; molecular weights.

Laws of Chemical Combination and Dalton's atomic theory, Avogadro's law.

Calculation of formulæ from percentage composition, and calculations relating to weight and volume.

Study of the following:

Oxygen; oxides; acids, bases and salts; chemical terminology and Nomenclature; ozone; allotropy; isomerism, metamerism and polymerism.

Hydrogen; water; its composition by synthesis and analysis; impurities of water; hard and soft water; elements of water analysis; mineral water. Peroxide of hydrogen.

Nitrogen; argon; atmospheric air; nitric acid; oxides of nitrogen; nitrites and nitrates; ammonia and ammonium salts.

Carbon; its oxides; Relation of CO_2 to animal and plant life; coal and coal gas; combustion; structure of flame; cyanogen; hydrocyanic acid; and metallic cyanides.

Chlorine; bromine; iodine; fluorine; their compounds with hydrogen and oxygen; hypochlorites; hypobromites; chlorates and iodates.

Sulphur; its oxides; sulphurous acid, sulphuric acid, hyposulphurous acid, and their salts; carbon di-sulphide.

Phosphorus; oxides and oxy-acids of phosphorus; phosphates; phosphuretted hydrogen.

Boron and silicon: their oxides; boric Acid and borax; Silicic acid; dialysis; glass and porcelain.

Occurrence in nature, sources and preparation of the following metals and metalloids and their principal compounds, omitting metallurgical processes:

Arsenic; antimony; bismuth; tin; platinum; gold; silver: mercury; cop-

per; lead; manganese; chromium; iron; aluminium; zinc; magnesium; calcium; strontium; barium; lithium; sodium; potassium. Special attention will be paid to the general properties and reactions of compounds of medicinal and medico-legal importance and their methods of detection.

During the above course, the common laboratory processes such as *mixture*, *solution*, *crystallisation*, *dissociation*, *distillation*, *electrolysis*, *evaporation*, *precipitation*, *filtration*, *decantation* (syphon), *desiccation*, *decomposition*, *separation*, *oxidation*, *reduction*, and *neutralisation*, will be demonstrated.

Practical.

Fitting up of simple apparatus.

Use of burettes, pipettes, &c.

Use of the chemical balance.

Performance of experiments involving solution, filtration, distillation, crysallisation, oxidation and reduction.

Determination of the water of crystallisation of hydrated salts.

Preparation and study of the principal properties of hydrogen, oxygen, nitric acid, ammonia, carbon dioxide, hydrochloric Acid, chlorine, sulphur dioxide, sulphuretted hydrogen.

Experiments showing the composition of water by electrolysis and of air by burning phosphorus.

Qualitative analysis of a simple salt containing one basic and one inorganic acid radicle.

Detection of common impurities in chemicals, such as chlorine in hydrochloric acid; oxides of nitrogen in nitric acid; lead in sulphuric acid; arsenic in medicinal salt; iodine in potassium iodide; mercuric chloride in mercurous chloride, etc.

Alkalimetry and acidimetry (standardised solutions will be provided).

Candidates must produce note-books of their laboratory work, which must be duly certified by the Professor, and shall be taken into account in estimating their qualifications.

PHYSICS.

Theoretical.

States of matter.

General properties of solids, liquids and gases.

Units of measurement and definition of mass, force, motion.

Velocity; acceleration; composition of velocities.

Laws of motion.

Measurement of force. Parallelogram of forces; composition and resolution of uniplanar forces acting at a point.

Moment of a force; Levers and simple pulleys.

Centrifugal and centripetal forces.

Gravitation; weight; centre of gravity.

Laws of falling bodies.

The Pendulum.

Work and Energy; Conservation of Energy.

Elementary ideas of wave-motion.

Laws of pressure of liquids and gases.

Measurement of pressure.

Principle of Archimedes; equilibrium of floating bodies.

Specific gravity and its determination; hydrometer, urinometer, lactometer.

Physical properties of gases—Relation of volume to temperature and pressure—Dalton's or Charles' Law—Boyle's Law; Calculations of volumes from weights; Reduction to normal temperature and pressure (N. T. P.)

Gay-Lussac's law.

Diffusion, liquefaction and solidification of gases.

Atmospheric pressure—Barometers; air-pump; syphons.

Sound.—

The production and propagation of sound; velocity of sound in air.

Reflection and refraction of sound.

Relation between frequency and pitch.

Vibration of strings; sonometer.

Vibration of the air column; organ-pipes.

Human voice; the ear.

The stethoscope; the air-trumpet.

Heat.—

Laws of expansions of solids, liquids and gases.

Temperature.

Measurement of temperatures; thermometers; the clinical thermometer; the maximum and minimum thermometers.

Radiation, conduction and convection.

Reflection and absorption.

Vapour pressure; boiling point; dew-point; hygrometers; formation of clouds, rain, fog, dew, etc.

Changes of state; specific heat and latent heat; calorimetry; sources of heat.

Light.—

Sources of light.

Propagation of light.

Shadows; photometer.

Reflection and refraction of light.

Mirrors; prisms; lenses; chromatic dispersion.

Spectrum; spectroscope; colours.

Optical instruments; the microscope; the telescope; the photographic camera; the eye; mechanism of vision; short and long sight.

Magnetism and Electricity.—

Properties of magnets; magnetic induction.

Methods of magnetisation.

Magnetic field.

The earth as a magnet; mariner's compass.

Electricity by friction.

Positive and negative electricity.

Laws of electrical attraction and repulsion.

Conductors and non-conductors; insulation; electrical induction; electroscopes.

Electrostatic machines; electrophorus.

Potential; capacity; quantity.

Condensers; the Leyden jar.

Effects of electricity.

Atmospheric electricity; lightning conductors.

Voltaic cell; electric current.

Batteries.

Effects of dynamical electricity; galvanometers.

Electromotive force; potential; resistance.

Ohm's law; volt, ohm; ampere.

Electro-magnets.

Induced currents; Ruhmkorff's coil.

Mutual forces between currents and magnets and between currents and currents.

Röntgen Rays.

Medical batteries.

Practical Course.

Length measurements; use of vernier.

Determination of the specific gravity of solids and liquids including the use of the hydrostatic balance, hydrometers and specific gravity bottles.

Determination of the focal length of a convex lens.

Construction of a common battery.

Use of the following apparatus:

Syphon; thermometers; Dry and wet bulb thermometer; Daniel's hygrometer; barometers; microscope; simple mirrors and lenses; spectroscope; gold-leaf electroscope; electrophorus; simple induction coil; magnet; magneto-electric machine.

Candidates must produce note-books of their Laboratory work which must be duly certified by the Professor, and shall be taken into account in estimating their qualifications.

The whole subject will be treated in an elementary manner.

BOTANY.

Theoretical.

The elementary differences and resemblances between plants and animals—Life-histories of selected types of uni-cellular and multi-cellular plants—Yeast—Chroococcus—Cosmarium—Mucor—Spirogyra—Ulothrix—Vaucheria—Peronospora—Moss—Fern—Selaginella—Gymnosperm—Angiosperm.

General morphology of flowering plants: — *The root:* — Characters— Forms—Consistance—Branch roots—Adventitious roots—Metamorphosis of roots—Roots of epiphytes—Parasites—Saprophytes—Mycorhiza—Uses of roots to man.

The stem:—Characters—Forms—Duration—Buds—Modes of Branching—Regions of stem—Microscopic structure in mosses, ferns, monocotyledons, conifers, dicotyledons—Metamorphosis of stems—Uses of stems to man.

The leaf:—Characters—Phyllotaxys—Prefoliation—Leaf-sheath—Leaf-stalk—Leaf-blade—Compound leaves—Heterophylly—Modifications of leaves—Uses of Leaves to man—Stipules and their modifications—Hairs and their modifications—Prickles—Stings.

The flower :—Essential and accessory organs—Bracts and their special forms—Inflorescence: Indefinite, definite, mixed—The typical flower—Modes of deviation from the perfect type.

The perianth :—Number of part—Prefloration—Calyx—Corolla and modifications—Andrœcium—Gynœcium—Nectaries—Pollination and fertilisation of ovules.

The fruit :—Its morphology—Classification of fruits. *Seed :* its morphology and modes of distribution.

Classification of flowering plants.—General printing principles of classification—Species—Hybrids—Genera—Orders—Classes—Nomenclature—Modes of describing plants—Eight natural orders (to be notified by the Syndicate from time to time).

Microscopic anatomy of flowering plants ; The cell.—Protoplasm—Test for protoplasm—Nucleus—Cell-wall—Cell contents—Plasts—Reserve Proteids—Starch—Mineral deposits—Substances in cell-sap—Fats, oils, etc.—Nutrition of cell—Formation of new cells—Modification of cells—Tissues—Origin of tissues—Laticiferous vessels—Glands—Resin-passages—Air-passages—Tissues in Thallogens, Vascular Cryptogams and Phanerogams—Development of embryo of vascular plants and of its tissue-systems.

The root.—Development and microstructure from tip backwards—Development of lateral roots—Secondary changes in roots—Fleshy roots—Uses of each of the tissues of roots to plants—Process of movement of roots.

The stem.—Development and microstructure—Primary structures of stems—Secondary structures of stems—Modification in subterranean and in metamorphosed stems—Microscopic peculiarities of stems of Conifers, Ferns, Lycopods, and Selaginella—Mechanical uses of tissues.

The leaf.—Origin—Structure of leaf-blade, leaf-sheath, and leaf-stalk,—the pulvinus, its structure and function—Phyllode—Structure of anomalous and metamorphosed leaves—Fall of leaf—Glands and nectaries on leaves—Bud-scales and stipules.

Reproductive organs of Phanerogams—Microstructure and development of members of flower-bud—Perianth—Stamens—Carpels—Ovules—Fruits—Seeds.

Nutrition and growth in ordinary green plants and their peculiarities in other plants—Chemical elements in plants—How to ascertain the composition of plants—Physiological classification of tissues, protective, nutritive, reproductive. Food of green land plants—Ascent and movements of sap—Elaboration of the sap—Assimilation and Metastasis—Phenomena of growth—Temperature and light in relation to plant life—Movements in plants.

Reproduction.—Asexual or vegetative—Sexual—Alternation of generations—Deviations from the normal cycle of reproduction.

Elementary facts of Plant-Geography.

Practical.

Candidates must be prepared to examine microscopically, to dissect and to describe specimens or parts of the selected types of plants in the foregoing syllabus.

Candidates must produce note-books of their Laboratory work, which must be duly certified by the Professor, and shall be taken into account in estimating their qualifications.

The whole subject will be treated in an elementary manner.

ZOOLOGY.

Theoretical.

The bearing of Zoology on Human Anatomy, Physiology and Pathology, and on certain aspects of sanitation.

The nature of living matter. The contrast between the Animal and the Plant.

The history of the cell-theory. The architecture of the cell and of the resting nucleus. The phenomena and meaning of Karyokinesis. The "reducing division" of the nucleus and its meaning in heredity.

The morphology and life-history of *Amœba*, *Euglena*, *Paramœcium*, and *Monocystis*. Conjugation and its meaning. Sexual reproduction in Protozoa.

Sporozoan parasites: their life-cycle and their pathological importance.

General consideration of the Metazoa: the germ plasm and the Soma. The origin, development, and structure of the ovum and sperm-cell. Amphimixis and its meaning. Segmentation of the ovum. The germinal layers and their derivatives. Embryological and physiological classification of the tissues.

The parazoa or sponges: their structure, mode of life, and bionomic importance.

Structure and development of *Hydra:* the Ectoderm and Endoderm. Non-sexual reproduction: hydraform corms or colonies. "Physiological Division of Labour"; differentiation. Medusæ and metagenesis.

Structure of the Anthozoa (*e.g., Sphenopus*). The stomodæum and its potentialities. Importance of the Cœlenterates as builders of the earth's crust.

The Cœlomata in general. Origin and function of the cœlom. Orientation of the body.

Structure and mode of life of *Bipalium.* Structure and life-history of the common liver-fluke and tapeworm. The Platyhelminths in their pathological and insanitary aspects.

Structure and mode of life of the common intestinal roundworm. The Nemathelminths in their pathological and insanitary aspects.

Structure of a Sea-worm (*e.g., Eunice*). The trochosphere larva. Structure of the Earthworm. Worms as soil-makers. Peculiarities of structure of the Leech.

General characters of the Molluscan phylum as exhibited in a land-snail or pond-snail, and in a pond-bivalve. The Veliger larva and its meaning.

Structure and mode of life of a starfish. Modifications of the water-vascular system in the Echinoderm phylum. The *Pluteus* larva.

Structure of either the marine prawn *Peneus*, or the fresh water prawn *Palæmon*. Post-embryonic metamorphoses of *Crustacea*. Examination of the external characters of Scorpion, Spider, Centipede and Locust. Details of structure of Cockroach. Post-embryonic metamorphoses of Insects. Parthenogenesis and its meaning. Instincts of Insects. Social Insects. Protective devices of Insects. Insects as fertilizers of flowers and as carriers of infection. Insects of therapeutic importance. Arthropods as Scavengers.

Characters of the *Chordata*. Origin, relations and history of the notochord. Primitive Chordates and the Ancestry of the phylum. Comparison of *Ascidia* and *Amphioxus*.

General consideration of the vertebrate skeleton. Structure and composition of the vertebrate skull followed in Shark, Sea-perch (or other convenient Teleostean) Frog, Crocodile, Python, Bird and Tiger.

General consideration of the integument, brain and sense organs, organs of nutrition, circulation, excretion and reproduction in the vetebrata, followed in the sea-perch (or other convenient Teleostean) Frog, Lizard, Fowl and Mammal.

General consideration of the orders of fishes, with special reference to the modifications exhibited in the skeleton, intestine, breathing-organs, heart, genital ducts, and methods of reproduction.

Study of the Tadpole and Frog with special reference to the post embryonic changes in the breathing-organs and blood-vascular system. Comparison of Frog with certain types of Fishes.

General consideration of the orders of Reptiles, with special regard to the integument, skeleton, dentition, heart and great blood-vessels. Peculiarities of structure of the snake (*Tropidonotus*). The poison-apparatus of the Cobra and Viper: their mechanism and homologies. Nature and mode of action of snake-venom: chemical antidotes to snake-venom: theory of antivenines.

General consideration of the skeleton, special muscular mechanisms, integument, digestive system, tracheal and pneumonic system, heart and great blood-vessels of the bird. Secondary sexual characters in birds. Structure of the birds' egg. Incubation and parental instincts. Development of chick: the amnion and allantois. Comparison of bird and reptile: some extinct birds and reptiles.

Evolution and descent of Mammalia. Peculiar characters of Monotremes and Marsupials as exhibited in the skeleton and reproductive organs.

Dentition of *Eutheria*. Homologies of epidermal derivatives of Mammals. Structure of the placenta, and modes of placentation: peculiarities of the embryonic circulation.

The orders of Mammalia, considered with regard to external and internal adaptations to environment and modifications of the appendicular skeleton.

The genera of *Primates* and their geographical distribution. Fossil and subfossil remains of Man.

The genus *Homo* and its place in Nature. The Races of Man.

Station and Habitat of animals. Geographical Distribution of animals and its meaning. The Geological succession of animals.

Rate of increase of animals. Natural checks and limitations, and the struggle for existence. Variation of individuals. The theory of Evolution.

Practical Course.

Each candidate must be prepared to examine microscopically, to dissect and to describe specimens or parts of the selected types of animals in the foregoing syllabus.

Candidates must produce note-books of their Laboratory work, which must be duly certified by the Professor, and shall be taken into account in estimating their qualifications.

The whole subject will be treated in an elementary manner.

6. Exemptions may be granted in respect of the Preliminary Scientific M.B. Examination, as follows:

(i) Any candidate who, in the Intermediate Examination in Arts or Science, has passed in one or more of the following subjects, namely, Chemistry, Physics, Botany, Zoology, shall be excused attendence at lectures and the practical work, and also the theoretical portion of the examination in the corresponding subject. No such candidate shall, however, be excused the oral and practical portion of the examination in any subject.

(ii) Bachelors of Science who have passed in Physics, Chemistry, Botany or Zoology at the B.Sc. Examination shall be excused attendance at lectures and the practical work, and also the theoretical, oral and practical examination in the subject in which they have already passed.

7. The full marks for each subject and the minimum marks required for passing shall be as follows:

	Written.	Oral.	Practical.	Total marks.	Passing marks.	Passing marks in Practical.
Chemistry ...	400	50	150	600	200	50
Physics ...	200	50	50	300	100	17
Botany ...	200	100	100	400	134	34
Zoology ...	200	100	100	400	134	34

CHAPTER XLV.

FIRST M.B. EXAMINATION.

1. Any undergraduate of the University who has fulfilled the following conditions may be admitted to the examination:

(a) that he has passed the Preliminary Scientific Examination at least two years previously,

(b) that he has attended a regular course of study theoretical and practical in the subjects of the Examination for not less than two years at a College of Medicine affiliated to the University up to the standard of the First M.B. Examination.

Any candidate who has passed the Intermediate Examination in Science shall be permitted to present himself at the Preliminary Scientific M.B. Examination at the same time as he presents himself at the First M.B. Examination, or at any previous examination for the Preliminary Scientific M.B. The provisions of Regulation 6 of Chapter XLIV shall apply to such candidates.

2. The First M.B. Examination shall be held once in each year and shall commence at such time as the Syndicate shall determine. Every candidate for admission to the Examination shall send to the Registrar his application, with a certificate in the form prescribed by the Syndicate and a fee of Rs. 15, at least fourteen days before the date fixed for the commencement of the examination, mentioning at the same time the subject or subjects, if any, in which he desires to take up Honours. If a candidate takes up Honours he shall pay an additional fee of Rs. 30. A candidate who fails to pass or present himself for examination shall not be entitled to claim a refund of the fee, but may be admitted to one or more subsequent examinations on payment of the prescribed fee on each occasion, on producing a certificate that he has, since the date of the last examination attended a regular course of study in the subject or subjects in which he last failed at that examination, provided that after three failures he shall not be admitted to the examination except on the special recommendation of the Principal.

3. Every candidate shall be examined in the following subjects:—Anatomy, Physiology, Pharmacology including Pharmacy, Materia Medica and Therapeutics and Organic Chemistry (with special reference to organic compounds in the British Pharmacopœia).

The examination shall be written, oral and practical. Three hours shall be allowed for each paper in each subject.

The examination in Anatomy shall consist of:

(a) One theoretical paper.

(b) Dissection.

(c) An oral exmination.

The examination in Physiology shall consist of:

(a) One theoretical paper.

(b) A practical examination.

(c) An oral examination.

The examination in Pharmacology, including Pharmacy and Materia Medica, shall consist of:

(a) One theoretical paper.

(b) An examination in Practical Pharmacy.

(c) An oral examination, which may include the recognition of the more important substances in the British Pharmacopœia.

The examination in Organic Chemistry shall consist of:

(a) One theoretical paper.

(b) A practical examination within the scope of the Syllabus.

(c) An oral examination.

4. In all subjects other than Organic Chemistry the candidate may be examined for Honours as well as Pass.

5. The scope of the examination for Honours in each subject shall be wider than that required for the Pass Examination, an extra paper being given for each subject and the candidate shall have to undergo a further and more searching oral and practical examination. The examination will not necessarily be confined to the Syllabus, if any, prescribed in that subject.

No student shall be considered eligible for Honours who has not acquitted himself satisfactorily in the Pass Examination.

6. As soon as possible after the Examination, the Syndicate shall publish a list of candidates who have passed together with a list of those who have obtained Honours in any subject, arranged in order of merit.

On the recommendation of the Examiners a Gold Medal may be awarded to the candidate who has most distinguished himself in Honours in any branch of the Examination.

7. The Course of study for the First M.B. Examination shall be as follows:

ANATOMY.

The curriculum in Anatomy shall consist of (1) a complete course on Human Anatomy, (2) a course of dissections extending over two winter sessions.

PHYSIOLOGY.

The curriculum in Physiology shall consist of (1) a theoretical course of lectures on Physiology, (2) a practical course of experimental Physiology extending over not less than three months, (3) a practical course of normal Histology extending over not less than three months, (4) a course of elementary Physiolgical Chemistry (including practical exercises) extending over not less than three months.

The General Histology of the animal Cell, Epithelia and connective Tissues, Histology and Physiology of the contractile Tissues, Blood and Lymph: the circulation of the Blood and Lymph embracing the mechanism of the circulation of the blood and of the movements of the Lymph.

The Innervation and Nutrition of the Heart and the Innervation of the Blood vessels.

The Histology of the organs of Respiration and the Physiology of Respiration including the Chemistry thereof.

The general chemical composition of the Body; the Chemistry of Digestion and Nutrition; the Physiology of Absorption; Excretion and Metabolism; Animal Heat; Ductless Glands; Internal Section. The Structure, Development and Functions of the central Nervous System and Organs of the special Senses. Reproduction and Development.

Experimental physiology.

A practical knowledge of the working of the more important physiological instruments including a knowledge of the chief experiments illustrating the functions of the organs and tissues of the body and the methods made use of in recording the results obtained in a graphic manner.

The course shall include—

i. Muscle nerve preparation—results of stimulation by different forms of stimuli—action of interrupted and constant current

—Tetanus—muscle sound—Fatigue—work done—Influence of Temperature, Load, Drugs. Elasticity and extensibility of muscle—Electrotonus—Reaction of Degeneration, etc.

ii. Frog's Heart—

Graphic record of beat—Stannius' experiment—Gaskell's clamp—Latent Period of Heart—Action of heat, cold and constant current—Innervation. Endocardial Pressure—Action of Drugs on Frog's Heart.

iii. Mammalian Heart.

Its Nutrition, Pertusion experiments. Cardiac Impulse—Sounds—Cardiograph—Action of Drugs, etc.

iv. Blood Vessels.

Pulse—Sphygmographic tracings. Sphygmoscope. Blood-pressure and methods of measuring it.

Stromuhr—Kymograph—Manometers, etc., clinical methods as by Hill's sphygmometer, Plethysmographs, etc.

v. Lungs—Vital capacity—Elasticity of Lungs, Pneumograph. Laryngscope, etc.

vi. Reflex action—knee-jerk, action of Poisons on nervous system.

vii. Eye—Accommodation—Phakoscope—Astigmatism and Defects. Phosphenes, Retinal shadows—Perimetry. Colour vision—Colour Blindness—Contrast Stereoscope, Ophthalmoscope, etc.

viii. Cutaneous Sensations—Cold, Hot, Pressure and Pain Spots—Muscular Sense—Resistance, etc.

ix. Taste, Smell, Hearing—Stereognostic Sense, etc.

Normal Histology.

Methods of preparation of the different tissues of the Body for Histological purposes :

(1) Hardening, Embedding, Section-cutting, Staining and Mounting.

(2) Histology of the Blood.

Enumeration of red and white blood corpuscles. Differential Count of the white blood corpuscles, crystals of Hæmoglobin.

(3) Recognition of sections of the different tissues of the Body. Chemical Physiology.

(1) General chemical Reactions and composition of Carbohydrates, Fats, Proteids and allied substances.

(2) Chemical Composition of Animal and Vegetable Food stuffs.

(3) Chemistry of Digestion.

Action of Saliva, Gastric juice, Succus Entericus and Bacterial Digestion.

(4) The Liver and Products of its activity.

(5) The blood.

Estimation of alkalinity and gases of blood. Coagulation time. Estimation of Hæmoglobin. Spectroscopic Examination of blood pigments. Detection of blood stains.

(6) Chemistry of Urine.

Normal and Pathological Urine-Testing and Sediments. Estimation of quantity of Blood, Uric acid, Urea, Sugar, Chlorids, Phosphates; Total Nitrogen. Pigments of Urine—Polarimeter—Amount of Albumen, Albumoses, etc.

(7) Chemistry of Gastric Juice. Estimation of acidity. Tests for Hydrochloric acid, Lactic acid, Butyric acid.

(8) Cryoscopy, Osmosis and Osmotic Pressure. Analysis of gases of expired air.

At the Practical Examination, students will be expected to show knowledge of the following subjects :

(*i*) In normal Histology, including a knowledge of preparation of tissues for microscopic examination. Fixing, hardening, embedding, section cutting, staining, clearing, mounting and recognition of specimens.

Enumeration of red and white blood-corpuscles.

Differential enumeration of white blood-corpuscles.

(*ii*) In Physiological Chemistry, including a practical knowledge of the Coagulation and alkalinity of the blood.

Estimation of Hæmoglobin of the blood.

Chemical composition and tests for—

Carbohydrates and fats.

Proteids.

Principal food-staffs.

Saliva.

Peptic and pancreatic digestion, and analysis of digestive juices HCl, inferior *viz.*, lactic acid, etc.

Bile, blood, milk, urine. Quantitative examination of albumen, sugar, urea and chlorides in urine.

Pigments.

The use of simple spectroscope and saccharimeter.

(*iii*) In experimental Physiology including a knowledge of and the uses of the more important physiological apparatus.

Physiological experiments illustrating the function of—

(1) Nerve and muscle.

Single contraction, Tetanus, Excitability, Fatigue, etc. Modifications of contractions under different conditions. The graphic method to be made use of.

(2) Experiments on frog's heart.

Stannius' experiment, action of heat and cold.

Cardiograph, action of drugs on heart's beat.

(3) Method of using the different form of Sphygmographs.

Marey's Dudgeon Jacquet.

Tracings to be made.

(4) Estimation of the blood pressure in different parts of body.

Use of Hill and Barnard Sphygmometers and Oliver's Hamo Dynamometer.

(5) The nervous regulation of Respiration.

The Stethometer and Pneumograph.

(6) Reflex action.

(7) Experimental Physiology of Eye. Accommodation, Colour Sense, Perimetry.

Candidates must produce note-books of their Laboratory work which must be duly certified by the Professor, and shall be taken into account in estimating their qualifications.

PHARMACOLOGY INCLUDING PHARMACY AND MATERIA MEDICA.

The curriculum shall consist of a theoretical course of lectures and a course of instruction in practical pharmacy extending over not less than two months including practical knowledge of the preparation of medicines and of the constituents of the more important compounds of the British Pharmacopœia as also prescription writing.

The systematic course of lectures will deal briefly with the natural history, and the sensible and chemical properties of all drugs and medicinal agents mentioned in the British Pharmacopœia, and will also include full account of their pharmacological action upon the chief functions of the body, *viz.*, Circulation, Respiration, Digestion, Absorption, Secretion, and Excretion, Metabolism, Heat regulation, Motor, Sensory and Reflex Mechanism, and the chemical transformations undergone in the body by the principal medicinal substances. The Therapeutic uses and modes of administration of the official drugs and medicinal agents will be also included in the lectures; and as far as time and opportunity allow, reference will also be made to the most important of the more recently introduced drugs and their probable mode of action explained as far as is known.

ORGANIC CHEMISTRY.

Theoretical.

Analysis of organic compounds, Estimation of C, H, N, S, P and the halogens.

Empirical and molecular formulæ.

Determination of molecular weights.

Determination of melting and boiling points.

Fractional distillation.

Students will be expected to know the general properties of the following groups of compounds, illustrated in each case by reference to a few of their more important members:

Aliphatic series :

Paraffins (methane and ethane),

Unsaturated hydrocarbons (ethylene and acetylene).

Alcohols and their derivatives (methyl alcohol, ethyl, alcohol and glycerol).

Aldehydes (formaldehyde and chloral hydrate).

Ketones (acetone).

Acids (formic, acetic, lactic, oxalic, tartaric and citric).

Ethyl Ether.

Esters (saponification).

Carbohydrates. Sugars (glucose, lactose, maltose, and cane sugar); starches; glucosides.

Cyanides; urea; uric acid.

Aromatic Series.—

Benzene and its simple derivatives.

Phenols (Phenol and resorcinol).

Acids, Benzoic and Salicylic.

Vegetable alkaloids.

Practical.

Test for the following elements in organic compounds :

Carbon, hydrogen, nitrogen, sulphur, phosphorus and chlorine.

Tests for and reactions of ethyl alcohol. Preparation of chloroform and iodoform ethyl alcohol.

Preparation of fatty acids from a fat.

Preparation of a salt from an organic base or of a base from one of its salts, *e.g.*, quinine sulphate and *vice versâ*).

Recognition of important alkaloids by ordinary tests.

Test for urea. Test for glucose and cane sugar.

Tests for phenol and salicylic acid.

The more important tests for acetic, oxalic, tartaric and citric acids.

Analysis of urine and urinory calculi.

Candidates must produce note-books of their laboratory work, which must be only certified by the Professor, and shall be taken into account in estimating their qualification.

The whole subject will be treated in an elementary manner.

8. The full marks for each subject and the minimum marks required for passing shall be as follows :

	Written.	Oral.	Practical.	Total marks.	Passing marks.	Passing marks in Practical.
Anatomy	600	200	200	1,000	500	100
Physiology	600	200	200	1,000	500	100
Pharmacology, etc.	600	200	200	1000	500	100
Organic Chemistry.	200	50	50	300	100	17

In order to obtain Honours in any branch, candidates must obtain one-half of the marks allotted to each portion of the examination, written, oral and practical, and two-thirds in the aggregate.

CHAPTER XLVI.

FINAL M.B. EXAMINATION.

1. Any candidate who fulfils the following conditions may be admitted to this examination :

(*a*) That he has passed the First M.B. Examination at least three academic years previously.

(*b*) That he has subsequently to passing the First M.B. Examination, completed a regular course of study, theoretical and practical, in the subjects of the examination in a College of Medicine affiliated to the University, up to the standard of the Final M.B. Examination.

2. The Final M.B. Examination shall be divided into two parts :—Part I, and Part II, embracing the Major and Minor subjects, respectively, as defined below. The examination in the Major subjects, that is Part I, shall take place once a year, while that in the Minor subjects, that is Part II, shall take place twice each year. A candidate may either take up both parts together, or one part only, either Part I or Part II, at that time, leaving the other for a subsequent examination.

3. Every candidate for admission to the examination shall send to the Registrar his application, with a certificate in the form prescribed by the Syndicate at least fourteen days before the date fixed for the commencement of the examination mentioning at the same time the subject or subjects (if any) in which he desires to take up Honours.

4. A fee of thirty rupees shall be payable by each candidate taking up the two parts of the examination together, but if Part I and Part II be taken separately, the fee for each Part shall be Rs. 20. A candidate who takes up Honours in any subject shall pay an additional fee of Rs. 30. A candidate who fails to pass or present himself for examination, shall not be entitled to claim a refund of the fee. A candidate may be admitted to one or more subsequent examinations on payment of the prescribed fee on each occasion, provided he produces a certificate of regular study in the subject or subjects in which he is to be re-examined and this study must have been pursued not only since the date of his failure but within the twelve months preceding his re-examination.

5. A candidate, who fails in not more than two subjects of Part II of the Final M.B. Examination, may be re-examined in the subject or subjects in which he failed within six months from the date of failure.

6. Part I of the Final M.B. Examination must be passed as a whole.

7. Every candidate shall be examined in the following subjects:

Major Subjects, Part I.	1. Medicine (including Therapeutics, special Pathology and Mental Diseases.)
	2. Surgery including Ophthalmology.
	3. Midwifery and Gynæcology
Minor Subjects, Part II.	4. General Pathology (including Bacteriology and Parasitology).
	5. Medical Jurisprudence.
	6. Hygiene.

The examination in Medicine shall consist of—

(a) Two theoretical papers.

(b) A clinical examination of a patient and written report thereon.

(c) An oral examination.

The examination in Surgery shall consist of—

(a) Two theoretical papers.

(b) A clinical examination on cases.

(c) An oral examination in which questions on the use of surgical instruments and appliances, on the application of splints and bandages and on museum specimens illustrating Surgical Pathology shall form a special part.

(d) Operations on the dead body.

The examination in Midwifery and Gynæcology shall consist of—

(a) One theoretical paper.

(b) An oral examination including questions on specimens, instruments and appliances.

(c) Obstetric operations on the manikin.

The examination in General Pathology shall consist of—

(a) One theoretical paper.

(b) A practical examination within the scope of the Syllabus.

(c) An oral examination including questions on museum specimens.

The examination in Medical Jurisprudence shall consist of—

(a) One theoretical paper.

(b) An oral examination.

(c) A practical examination to include examination on the dead body on points of medico-legal importance as arising out of, or as illustrated by, the conditions observable on the dead body, the actual methods of post-mortem examination for medico-legal purposes, the putting up of materials for medico-legal-chemical analysis and the writing of medico-legal post-mortem reports.

The examination in Hygiene shall consist of—

(a) One theoretical paper.

(b) An oral examination.

8. In every subject other than Hygiene a candidate may be examined for Honours as well as for Pass.

The scope of the examination for Honours in each subject shall be wider than that required for the Pass Examination, an extra paper being given in each subject; and the candidate shall have to undergo a further and more searching oral and practical examination. The examination will not necessarily be confined to the Syllabus, if any, prescribed in that subject.

No student shall be considered eligible for Honours who has not acquitted himself satisfactorily in the Pass Examination.

9. As soon as possible after the examination, the Syndicate shall publish a list of the candidates who have passed, arranged in alphabetical order, and of those who have taken Honours in any branch, arranged in order of Merit.

Every candidate on passing shall receive a diploma in the form given in Appendix A. On the recommendation of the examiners a Gold Medal may be awarded to the candidate who has most distinguished himself in Honours in any branch of the examination.

10. The course of study shall be as follows:

MEDICINE.

(1) A course of lectures on the principles and practice of Medicine.

(2) A course of not less than twenty demonstrations on Clinical methods, Physical Diagnosis and the use of instruments of observation used in Medicine.

(3) Attendance upon the medical practice of a recognised hospital for three years, with clinical instruction and lectures in clinical medicine and experience as clinical clerk for twelve months during this period (with a careful record of at least six medical cases which the candidate may be required to produce before the examiners).

(4) A course of lectures on Mental Diseases with clinical demonstrations at a recognised Asylum for a period of one month.

Mental constitution. Mental character, Mental health.

Sleep—Insomnia and its treatment.

The examination of Mental cases.

Diagnostic characters of insanity.

Causation—Prognosis—General Principles of treatment.

Melancholia, Katatonia, Catalepsy, Partial Insanity, Chronic.

Progressive delusional Insanity, Mania.

Dementia, Moral Insanity, General Paralysis of the Insane.

Epileptic Insanity, Inebriety, Concomitant Insanities, Alcoholic Insanity, Puerperal and allied insanities.

Idiocy and imbecility. The backward and feeble-minded.

The legal and civil aspects of Mental Disease.

(5) Three months of attendance at the Medical Outdoor Dispensary of a recognised hospital.

SURGERY.

(1) A course of lectures on the principles and practice of Surgery.

(2) Courses of instruction in—

(*a*) Operative Surgery, and Surgical Anatomy of not less than 30 demonstrations,

(*b*) Surgical case-taking, and Practical Surgery (including minor Surgery and bandaging) of not less than 30 demonstrations, and

(*c*) The administration of Anæsthetics.

(3) Attendance upon the Surgical practice of a recognised Hospital during three years with clinical instruction and lectures on clinical Surgery and twelve months' practice as dresser during that period with a careful record of at least six surgical cases which the candidate may be required to produce before the examiners.

(4) A course of lectures in Ophthalmology.

Examination of the Eye: (*a*) objective, (*b*) functional.

Diseases of the Conjunctiva, Cornea, Sclerotic, Iris, Ciliary body, Choroid Lens, Vitreous, Retina, Optic nerve, Lids, Lachrymal organs and Orbit. Congenital Defects. Amblyopia and functional disorders of Sight, Glaucoma.

Disturbances of mobility of the Eye.

Optical properties of the normal eye, and the theory of spectacles.

Anomalies of Refraction and Accommodation.

Operations and their technique.

Practical instruction in Ophthalmoscopy and Refraction.

(5) Three months of attendance at a recognised hospital for diseases of the Eye.

(6) Three months of attendance at the Surgical Out-door Dispensary of a recognised hospital.

MIDWIFERY AND GYNÆCOLOGY.

(1) A course of lectures on Midwifery and Gynæcology.

(2) A course of not less than 20 demonstrations on Practical Midwifery and Gynæcological instruments and appliances.

(3) The conduct of at least six labours, three of which must be in the presence of one of the obstetric assistants or any legally qualified practitioner in Medicine (certificate from whom in this subject will be accepted). Candidates must draw up an accurate record of the labour cases attended by them. They may be required to produce their case-books before the examiners in evidence of diligent work.

(4) Attendance for not less than two months as a clinical clerk in a Gynæcological ward or out-patient room.

PATHOLOGY.

(1) A course of lectures on General Patholgy including Bacteriology and Parasitology treated in an elementary manner.

(2) A course of practical instructions and demonstrations extending over not less than four months.

(3) Attendance in the post-mortem room for not less than three months and the careful performance of six post-mortems in the presence of the Teacher or his Assistant.

General Pathology—Definition. Health and disease. Ætiology. Heredity and environments. Defects of development. Processes of Infection and Immunity. Disorders of Nutrition and Autointoxication, Dropsy. Disorders of the blood and circulation. Degenerations and retrogressive changes. Processes of inflammation and repair. The process of fever. The more important structural changes produced in the organs and tissues by disease as recognized by the naked eye and microscopical investigations. Tumours and specific granulomata.

Bacteriology—The Morphology and Biology of the following micro-organisms:—Pyogenic Cocci, Pneumococcus and Gonococcus; B. Coli Communis; B. Anthracis; B. Diphtheriæ; B. Lapræ; B. Tetani; B. Tuberculosis; B. Typhosus; Vibrio Choloræ Asiaticæ; B. Pestis; Streptothrix Actinomycosis group; B. Dysentericus; M. Melitensis; Diplococcus Intercellularis Meningitidis; B. Influenzæ; Spirillum Obermeieri; Spirochæte of Syphilis; Pathogenic moulds.

Parasitology—The Morphology and Biology of the following:—Hæmatozoon Malariæ; Piroplasma; Amœba coli; Amœba dysenterica; Trypasonomes; Distomu Hepaticum; Distomum crassum; Ascaris Lumbricoides; Oxyurics Vermicularis; Trichina Spiralis; Anchylostomum duodenale; Filaria Sanguinis Hominis; Dracunculus Medinensis; Tricocephalus Dispar; Tænia Solium; Tænia Mediocanellata; Tænia Echinococcus; Bothriocephalus latus; Bilharzia hæmatobia; Parasite of Kalazar; Amphistomum Hominis; Acarus Scabei; pediculi.

PRACTICAL.

Technique of collection and pathological examination of morbid materials such as Blood, Gastric and Intestinal contents, Urine, Pus, Sputum and Exudates.

A practical knowledge of the apparatus used for bacteriological work, *viz.*,—Hot air Steriliser, Steam Steriliser, and Incubator. Preparation of culture media. Culture and inoculation methods.

Preparation, section-cutting, staining and mounting of pathological tissues and their microscopical examination with a view to their recognition.

MEDICAL JURISPRUDENCE.

(1) A course of lectures on Medical Jurisprudence

(2) Attendance at not less than twelve medico-legal post-mortem examinations.

Medical evidence, with special reference to Indian Evidence Act. Medico-legal Reports, Dying Declarations.

Signs of Death. Post-mortem stains. Rigor Mortis. Cadaveric Spasm. Putrefaction in Air and Water.

Mummification. Adipocere. Examination of the dead body. Post-mortem Examination in medico-legal cases.

Age in its medico-legal relations. Development of the fœtus. Changes after birth. The teeth. Ossification and Union of Epiphyses.

Identity of the living. Identity of the dead. Sexual characteristics of the skeleton.

Modes of dying. Causes of Sudden death.

Death from asphyxia. Hanging. Strangulation. Suffocation. Throttling. Drowning. Resuscitation from Drowning.

Mechanical injuries and wounds. Chemical, microscopical and spectroscopical examination of Blood stains and other stains.

Death by burns and scalds. Death from lightning, electric current, heatstroke and cold. Starvation—its causation, symptoms and post-mortem appearances. Medico-legal questions relating to pregnancy, delivery and abortion, infanticide, criminal offences, legitimacy.

Medico-legal aspects of insanity. Forms of insanity. Delusions, Illusions, Hallucinations. Criminal responsibilty. Modes of placing lunatics under restraint. Medical certificates. Lunacy certificates. Examination of lunatics. Testamentary capacity. Feigned insanity. Placing habitual drunkards under restraint.

Toxicology. Diagnosis and general treatment of poisoning. Evidence of poisoning in the dead. Local effects produced by poisons, disease, and post-mortem changes. Preservation of viscera for analysis. The detection of poisons, chemical and physiological tests.

Toxicology of the following poisons: Mineral Acids. Corrosive alkalies, carbolic acid, corrosive sublimate, oxalic acid. Salts of Copper, Lead and Antimony. Arsenic, Phosphorus. Opium, Cyanogen compounds, *alcohol*, Chloroform, Chloral Hydrate, Kerosine oil, Carbon Dioxide, Carbon Monoxide, Sulphurretted Hydrogen, Strychnine, Aconite Datura, Belladona, Canabis Sativa—Nerium Odorum Cocaine; Calotropis gigantea, Plumbago Zeylanica, snake venom. Poisonous Animal Food.

HYGIENE.

(1) A course of lectures in Hygiene including demonstrations.

(2) Six practical Demonstrations.

(3) Practical instruction in Vaccination by any authorised Vaccinator.

Definition. General Hygiene. Special Hygiene. Public Health.

Impurities in Air. Effects of vitiated air generaly. Ventillation. Natural and artificial. Cubic space.

Impurities in water. Their source and effects. Diseases caused by impure water. Water-supply. Methods of purification and filtration.

Physical examination of waters as regards their potability.

Food. Functions of the four classes of; elementary principles of dieting. Average diets. Dietaries.

Different varieties of food.

Meat. Inspection of animals and of meat. Effects of unsound meat. Poultry and game. Fish. Cooking. Milk. Vegetable Foods. Wheat. Flour. Bread Barley. Oat. Maize. Rice. Millet, &c. Leguminosæ, &c., (Dal). Roots and Tubers (potatoes, carrot, &c). Herbaceous Vegetable (cabbage, cauliflower, &c.) Fruits Prepared starches. Sugar. Concentrated foods.

Beverages and condiments. The Removal and Disposal of Sewage. Clothing.

The construction of the dwelling house. Sanitary inspection of a house.

Personal Hygiene in India. The causation and prevention of Endemic and Epidemic diseases.

The general principles of disinfection and the methods of carrying them into effect.

Disposal of the dead.

The powers and legal obligation of the medical practitioner under the Municipal Act; the correct registration of the cause of dead.

11. The full marks for each subject and the minimum marks required for passing shall be as follows:

	Written.	Oral.	Practical.	Total marks.	Passing marks.	Passing marks in Practical.
Medicine	600	200	200	1,000	500	66
Surgery	600	200	200	1,000	500	66
Midwifery	500	100	200	800	400	66
Pathology	400	100	100	600	200	34
Medical Jurisprudence	400	100	100	600	200	34
Hygiene	200	100	100	400	200	34

12. In order to obtain Honours in any branch a candidate must obtain half the marks allotted to each portion of the examination, written, oral and practical, and two-thirds in the aggregate.

CHAPTER XLVII.

DOCTOR OF MEDICINE.

1. An examination for the degree of Doctor of Medicine shall be held annually in Calcutta and shall commence at such time as the Syndicate shall determine, the approximate date to be notified in the Calendar.

2. Any Bachelor of Medicine may be admitted to this Examination on the production of certificates:

Of having subsequently to passing the M.B. Examination, completed, either, three years' continuous practice of the Medical Profession or, two years of Hospital practice.

Each of these periods shall be reduced by one year if the candidate be a Graduate with Honours in Medicine.

No application shall however be entertained unless two Members of the Faculty of Medicine or two Doctors of Medicine shall have testified, to the satisfaction of the Syndicate, that since graduating as Bachelor of Medicine, the candidate has practised his profession with repute for the period specified, and that in habits and character, he is a fit and proper person for the Degree of Doctor.

3. Every candidate for admission to the examination shall send his application to the Registrar, with a certificate in the form prescribed by the Syndicate and a

fee of Rs. 100, at least two months before the date fixed for the commencement of the examination.

4. A candidate who fails to pass or present himself for examination shall not be entitled to claim a refund of the fee. A candidate may be admitted to one or more subsequent examinations on payment of a like fee of one hundred rupees on each occasion.

5. Every candidate shall be examined in the following subjects:

Medicine (Two papers, of which one may be a case for commentary).

Pathology (one paper).

Mental Diseases (one paper).

The examination shall be written, oral and practical, and shall also include a thesis.

6. A candidate for the Degree of Doctor of Medicine shall transmit to the Registrar not less than two months before the commencement of the examination, a Thesis or published work embodying the result of independent research and having definite relation to the subjects of Medicine, Pathology or Mental Diseases. The candidate must indicate in what respects his thesis or Research appears to him to advance Medical knowledge or practice. The candidate may also submit, any printed contribution or contributions to the advancement of Medical Science published independently or conjointly.

If the Thesis or published work is approved by the Examiners, they will report on the same as "commended" or "highly commended." Unless the thesis is commended, the candidate shall not be admitted to the examination.

7. As soon as possible after the examination, the Syndicate shall publish a list of successful candidates arranged in alphabetical order with the titles of their theses and the opinions of the Examiners thereon placed against the name of each candidate. If in the opinion of the examiners sufficient merit be evinced, a University gold medal shall be awarded to the candidate passing with the greatest distinction.

8. Any candidate who is not a Bachelor of Medicine may be admitted to the examination for the degree of Doctor of Medicine in accordance with the conditions laid down in Regulations 5 and 6 and on producing certificates:

(*a*) of having passed the Licentiate Examination in Medicine and Surgery of the University;

(*b*) of having passed the examination in Zoology required for the Preliminary Scientific M.B. Examination;

(*c*) Of having practised the Medical profession with repute for the period specified;

(*d*) Of being in habits and character a fit and proper person for the Degree of Doctor.

CHAPTER XLVIII.

MASTER OF SURGERY.

1. An Examination for the degree of Master of Surgery shall be held annually in Calcutta and shall commence at such time as the Syndicate shall determine, the approximate date to be notified in the Calendar.

2. Any Bachelor of Medicine may be admitted to this Examination on the production of certificates:

(*a*) of having subsequently to passing the M.B. Examination, completed—

Three years' continuous practice of the Medical profession.

Two years of hospital practice.

Each of these periods shall be reduced by one year if the candidate be a graduate in Medicine with Honours in Surgery.

No application shall however be entertained unless two members of the Faculty of Medicine or two Masters of Surgery shall have testified, to the satisfaction of the Syndicate, that since graduating as Bachelor of Medicine, the candidate has practised his profession with repute for the period specified, and that in habit and character, he is a fit and proper person for the Degree of Master.

3. Every candidate for admission to the examination shall send his application to the Registrar with a certificate in the form prescribed by the Syndicate at least two months before the date fixed for the commencement of the examination.

4. A candidate who fails to pass or present himself for examination shall not be entitled to claim a refund of the fee. A candidate may be admitted to one or more subsequent examinations on payment of a like fee of one hundred rupees on each occasion.

5. Every candidate shall be examined in the following subjects:

(1) Surgery [Two papers, one of which may be a case for commentary].

(2) Surgical Pathology and Surgical Anatomy (one paper).

(3) Ophthalmology or any other branch of Special Surgery that may be recognised by the University from time to time (one paper).

(4) Operative Surgery and the use of instruments.

The examination shall be written, oral and practical.

A candidate for the Degree of Master of Surgery shall transmit to the Registrar not less than two months before the commencement of the examination, a thesis or published work embodying the result of independent research and having definite relation to Surgery. The candidate must indicate in what respects his Thesis or Research appears to him to advance Surgical knowledge or practice. The candidate may also submit any printed contribution or contributions tending to the advancement of Medical Science published independently or conjointly.

If the thesis or published work be approved by the examiners, they will report on the same as "commended," or "highly commended." Unless the thesis is commended, the candidate shall not be admitted to the examination.

7. As soon as possible after the examination, the Syndicate shall publish a list of successful candidates arranged in alphabetical order, with the titles of their thesis and the opinions of the examiners thereon placed against the name of each candidate. If in the opinion of the examiners sufficient merit be evinced, a University gold medal shall be awarded to the candidate passing with the greatest distinction.

8. Any candidate who is not a Bachelor of Medicine may be admitted to the Examination for the degree of Master of Surgery, in accordance with the conditions laid down in Regulations 5 and 6, on producing certificates to the following effect:

(*a*) of having passed the Licentiate Examination in Medicine and Surgery of the University,

(*b*) of having passed the examination in Zoology required for the Preliminary Scientific M.B. Examination,

(*c*) of having practised the Medical profession with repute for the period specified,

(*d*) of being in habits and character a fit and proper person for the degree of Master of Surgery.

CHAPTER XLIX.

MASTER OF OBSTETRICS.

1. An Examination for the Degree of Master of Obstetrics shall be held annually in Calcutta and shall commence at such time as the Syndicate shall determine, the approximate date to be notified in the Calendar.

2. Any Bachelor of Medicine may be admitted to this examination provided he shall produce certificates to the following effect:

(*a*) Of having, subsequent to passing the M.B. Examination, attended during a period of six months a course of clinical instruction in a recognised hospital or ward specially devoted to the treatment of Obstetric and Gynæcological cases.

(*b*) Of having subsequent to passing the M.B. Examination, had personal charge of at least twenty cases of labour, a record of which must be submitted.

(*c*) Of having, subsequently to passing the M.B. Examination completed—

Either three years' continuous practice of the Medical profession,

Or two years of hospital practice.

If the candidate be a graduate in Medicine with Honours in Midwifery, each of these periods shall be reduced by one year.

No application shall however be entertained unless two Members of the Faculty of Medicine or two Masters of Obstetrics shall have testified, to the satisfaction of the Syndicate, that since graduating as Bachelor of Medicine the candidate has practised his profession with repute for the period specified and that in habits and character he is a fit and proper person for the Degree of Master.

3. Every candidate for admission to the examination shall send his application to the Registrar with a certificate in the form prescribed by the Syndicate and a fee of Rs. 100 at least two months before the date fixed for the commencement of the examination.

4. A candidate who fails to pass or present himself for examination shall not be entitled to claim a refund of the fee. A candidate may be admitted to one or more subsequent examinations on payment of a like fee of one hundered rupees on each occasion.

5. Every candidate shall be examined in the following subjects :

(1) Obstetrics (Two papers, one of which may be a case for commentary).

(2) Anatomy, Physiology, Embryology and Pathology in relation to Obstetrics and Gynæcology (one paper).

(3) Gynæcology (one paper).

(4) Operative Gynæcology and the use of instruments.

The examination shall be written, oral and practical.

A candidate for the degree of Master of Obstetrics shall transmit to the Registrar, not less than two months before the commencement of the examination, a thesis or published work embodying the result of independent research and having definite relation to Obstetrics or Gynæcology. The candidate must indicate in what respects his thesis or research appears to him to advance Obstetric or Gynæcological knowledge or practice. The candidate may also submit any printed contribution or contributions tending to the advancement of Medical Science published independently or conjointly.

If the thesis or published work be approved by the Examiners, they will report on the same as "commended," or "highly commended."

Unless the thesis is commended, the candidate shall not be admitted to the examination.

7. As soon as possible after the examination, the Syndicate shall publish a list of successful candidates arranged in alphabetical order, with the titles of their theses and the opinions of the Examiners thereon placed against the name of each candidate. If in the opinion of the Examiners sufficient merit be evinced, a University gold medal shall be awarded to the candidate who shall have passed with the greatest distinction.

8. Any candidate who is not a Bachelor of Medicine may be admitted to the Examination for the Degree of Master of Obstetrics in accordance with the conditions laid down in Regulations 5 and 6, on producing certificates to the following effect:

(a) Of having passed the Licentiate Examination in Medicine and Surgery of the University.

(b) Of having passed the Examination in Zoology required for the Preliminary Scientific M.B. Examination.

(c) Of having practised the Medical profession with repute for the period specified.

(d) Of having, subsequent to passing the Licentiate Examination in Medicine and Surgery, attended during a period of six months a course of clinical instruction in a recognised hospital or ward specially devoted to the treatments of Obstetric and Gynæcological cases.

(e) Of having, subsequent to passing the Licentiate Examination in Medicine and Surgery, had personal charge of at least twenty cases of labour, a record of which must be submitted.

(f) Of being in habits and character a fit and proper person for the Degree of Master of Obstetrics.

CHAPTER L.

DIPLOMA IN PUBLIC HEALTH.

1. An examination for a Diploma in Public Health shall be held annually in Calcutta and shall commence at such time as the Syndicate shall determine, the approximate date to be notified in the Calendar.

2. Any Bachelor of Medicine or Licentiate in Medicine and Surgery may be admitted to this examination on the production of certificates

(a) Of having, subsequent to passing the M. B. or L. M. S. Examination—

(i) attended during three months the practice of a hospital for infectious diseases or in a special ward in a General Hospital where such cases are treated,

(ii) attended during a period of six months an approved course of Practical Laboratory instruction in Chemistry, Bacteriology and Pathology of those diseases of animals that are transmitted to man,

(iii) been diligently engaged for at least six months in acquiring a practical knowledge of the duties, routine and special, of Public Health administration, either independently as a Sanitary Officer of a town or a district, or under the supervision of a recognised Medical Officer of Health or a Teacher in the Department of Public Health of a recognised Medical College.

No application shall however be entertained unless two Members of the Faculty of Medicine or two Doctors of Medicine shall have testified to the satisfaction of the Syndicate that since passing the M.B. or L. M. S. examination the candidate has practised his profession with repute for the period specified, and that in habits and character, he is a fit and proper person to receive the Diploma in Public Health.

3. Every candidate for admission to the Examination shall send his application to the Registrar with a certificate in the form prescribed by the Syndicate, and a fee of Rs. 100 at least two months before the date fixed for the commencement of the examination.

4. A candidate who fails to pass or present himself for examination shall not be entitled to claim a refund of the fee. A candidate may be admitted to one or more subsequent examinations on payment of a like fee of fifty rupees on each occasion.

5. Every candidate shall be examined, in the following subjects :

(*a*) Chemistry and Physics (as applied to Public Health)—one paper and a practical examination.

(*b*) Etiology of Disease (including Pathology, Bacteriology and Parasitology)—one paper and a practical examination.

(*c*) Hygiene—one paper.

(*d*) Sanitation, Sanitary Engineering, Sanitary Law and Vital Statistics—one paper.

(*e*) Sanitary reporting.

The examination shall be written, oral and practical.

6. The limits of the subjects referred to in paragraph 5 shall be as follows :

(*a*) Chemistry—Constitution of the atmosphere Pure and impure waters. Food and its adulteration. Poisonous substance used in manufactures.

Methods of examination of water and air for hygienic purposes, including a knowledge of analytical methods and the interpretation of results.

Chemical examination of foods and the detection of common forms of contamination.

Chemistry of antiseptics and disinfectents.

Physics—General laws of Heat, Mechanics, Pneumatics, Hydrostatics and Hydraulics in their application to warming. Ventilation, water-supply and drainage. Sources, storage and purification of water-supply.

Geology—Soils, clays, rocks, sedimentary rocks. Springs. Natural gases. Brackish waters and influence of contact of sea water with ordinary fresh water. Ordinary constituent of fresh water and sea water ; solid matter and soluble constituent not separable by filtration.

The Geological conditions determining the healthiness of sites for dwellings. Causes.

Climatology—A general knowledge of meteorological conditions ; Meteorology in relation to health ; meteorological instruments, their construction and use. Reading and correction of instruments and tabulating the results of meteorological observation.

(*b*) Microscopy—The recognition of (1) the constituents of food such as starches, muscular fibre, &c., (2) of the chief fibres of clothing such as wool, cotton, silk, &c., and (3) of constituents of ordinary dust and deposits from water. Detection of the common forms of adulteration of food by the microscope. Etiology of Diseases including Pathology. Microscopic impurities of air and water.

Bacteriology and Parasitology—

Pathology of Epidemic and Endemic diseases. Influence of unwholesome food, air, water, occupation, dwelling, climate, season, soil. The morphology of microbes ; artificial cultivation of microbes, staining of microbes in fluids and in tissues. Modes of inoculation and special characters of pathogenic microbes ; Special characteristics with practical work on pathogenic micro-organism. Aerobic and Anærobic Bacteria. The general pathology of infection.

Nature of immunity from infective disease and modes producing it with evidence of having received practical instruction in those diseases of animals that are

transmissible to man. Antiseptics and disinfectants.

Parasites and other organisms infecting food stuffs or the human body.

The methods of bacteriological investigation and analysis and the bacteriology of water, air, food and soil.

(c) Hygiene—Conditions of healthy nourishment, lodgment and activity. The hygiene of public and private buildings and of particular occupations. The origin, causation, symptoms propagation, geographical distribution and prevention, of the epidemic, endemic and other infective diseases, both of temperate and of tropical climates. Nature and origin of parasitic diseases. Effects on health of over-crowding, vitiated air, impure water, polluted soil and bad or insufficient food. Unwholesome trades and the diseases to which they give rise and the prevention of nuisances arising therefrom. Nuisances injurious or dangerous to health. The prevention and control of epidemic diseases by isolation, disinfection, vaccination and other methods. Quarantine. Hospital for infectious diseases. Conveyance of the sick. Prostitution. Diseases of animals and vegetables in their relation to the health of man. Famine diseases, Poisons in manufactures in commercial and domestic use. Causes and conditions which produce climate; general effects of climate; acclimatization.

(d) Sanitary Law and Sanitation—

(i) Laws and Statutes relating to Public Health enacted in Great Britain and in India, including the model By-laws of the local Government Board. The Famine and Jail Codes; the Military Regulations and the duties of Health Officers and Port Surgeons and their subordinates.

(ii) Domestic and general sanitation of houses, schools, factories and workshops, and of villages and towns.

(iii) Regulation of offensive, dangerous or unhealthy trades and occupations.

(iv) Inspection of slaughter houses, cow-shed, etc.

(v) Inspection of meat and other articles of food.

(vi) The methods applicable to the medical investigation of epidemics.

Sanitary Engineering—(a) Water-supply (b) Drainage, sewerage and disposal of refuse. (c) The construction of dwellings, barracks, hospitals, schools, factories, &c., in accordance with the principles of warming, ventilation, drainage, water-supply, &c., (d) Geological data referring to the above. (e) Reading and interpretation of plans, sections, scales of drawing, &c.

Vital Statistics—Calculation of population birth-rate, marriage-rate and death-rate; mortality from zymotic diseases; sickness-rate; relation between occupation and mortality; life tables, their construction and interpretation of the value of statistical facts, average and methods, specially in reference to India.

(e) Sanitary Reporting—The candidate will be required to visit and report upon the sanitary condition of some locality assigned to him by the Examiners.

7. As soon as possible after the examination, the Syndicate shall publish a list of successful candidates arranged in alphabetical order. If in the opinion of the Examiners sufficient merit be evinced a University gold medal will be awarded to the candidate who shall have passed with the greatest distinction.

CHAPTER LI.

INTERMEDIATE EXAMINATION IN ENGINEERING.

1. The Intermediate Examination in Engineering shall be held annually at such time and place as the Syndicate shall determine, the approximate date to be notified in the Calendar.

2. Any undergraduate of the University may be admitted to this examination, provided he has prosecuted a regular course of study in a college of Engineering affiliated to the University, for two academical years after passing the Intermediate Examination in Arts or in Science.

3. Every candidate for admission to the examination shall send to the Registrar

his application with a certificate, in the form prescribed by the Syndicate, and a fee of Rs. 30, at least fourteen days before the date fixed for the commencement of the examination. A candidate who fails to pass or to present himself for examination thall not be entitled to claim a refund of the fee. A candidate may be admitted to one or more subsequent examinations on payment of a like fee of thirty rupees on each occasion.

4. Every candidate shall be examined in the following subjects :

I. Mathematics. III. Descriptive Engineering.

II. Science. IV. Surveying.
V. Drawing & Estimating.

5. The limits of the subjects shall be as follows:

MATHEMATICS.

Computations and Mensuration.

(*a*) Approximate and abbreviated methods of performing numerical calculations.

The Theory of Logarithms. Use of Logarithmic tables. Application of Logarithms to arithmetical and trigonometrical calculations, including the solution of triangles and the determination of heights and distances. Proof of the formulæ used.

(*b*) Mensuration of plane and solid figures, including the areas of plane polygons in Cartesian and polar co-ordinates, and the applications of Simpson's rules, the prismoidal formula and Guldin's theorems. Proof of the formulæ used.

Elements of Plane Anlytical Geometry and of the Differential and Integral Calculus.

(*a*) Rectangular Cartesian co-ordinates and polar co-ordinates. Graphs of simple functions. Analytical Geometry of the straight line and circle. Standard equations of the parabola, ellipse and hyperbola.

(*b*) Differentiation in general including Leibnitz's Theorem; partial differentiation and differentiation of implicit functions. Orders of smallness; infinitesimals and differentials. Elementary proof of Taylor's and Maclaurin's Theorems. Expansions of functions of a single variable. Maximum and minimum values of function of a single variable.

(*c*) Tangents, normals, asymptotes and multiple points. Tracing of simple plane curves.

(*d*) Integration regarded as a process of summation and as the inverse of differentiation. The integrals of such simple functions as axn, $aebx$, $a \sin (bx+c)$, $a \cos (bx+c)$.

Applications to the evaluation of plane areas, volumes and surfaces of revolution, and centres of gravity.

Statics and Dynamics.

(*a*) Uniform and uniformly accelerated motion. Composition of velocities and accelerations. Relative velocities and accelerations. Projectiles.

The laws of motion with simple illustrations, such as the motion of a particle on an inclined plane, motion of two particles connected by a string, uniform circular motion of a particle.

(*b*) Composition of concurrent and parallel forces acting on a rigid body. Centre of parallel forces ; centres of mass : Reduction of any system of coplanar forces acting on a rigid body to a single resultant force and couple, and to a single resultant force or couple. Conditions of equilibrium ; statically equivalent systems of forces ; problems on equilibrium. Friction. Machines.

(*c*) Impulse of a force: principle of linear momentum for a single particle and for a system of particles; simple cases of impact, including the impact of two spheres whose centres move in the same plane.

Work of a force; principle of energy for a single particle and for a system of particles; application of the principle to the solution of problems.

Elementary Applied Mechanics.

(*a*) *Definition of Terms.* Structure Stress. Strain. Working Load. Factor of Safety. Fatigue. Elasticity.

(*b*) *External Influences tending to produce Rupture in Simple Beams.* Moments of Flexure and Resistance. Cantilevers. Beams supported at two ends. Moment of Inertia. Shearing Stress, Deflection.

(*c*) Application in simple cases of the principles of Strength and Deflection to simple Timber and Iron Beams and Roofs.

(*d*) *Foundations and Walls.* Stability of Walls. Failure by Overturning, Crushing, and Sliding. Empirical Rules for Retaining Walls.

SCIENCE.

CHEMISTRY.

Theoretical.

(*a*) Chemical changes.

Conservation of mass.

Elements and compounds.

Stœchiometric Laws—Equivalent weights.

Boyle's and Charles' Laws.

Atoms and Molecules.

Avogadro's Law.

Experimental determination of density of gases and vapours.

Atomic weights—methods and means for the determination of atomic weights.

Symbols, formulæ, and Chemical equations.

(*b*) The Chemistry of those Elements and compounds of importance to Engineers.

Bases, acids and salts. General properties and relations to one another.

General methods for preparation of halides, oxides, hydroxides, sulphides, sulphates, nitrates, phosphates, carbonates, carbides, hydrides. Water of crystallisation, double salts.

(*c*) Laws of mass action; dissociation phenomena.

Determination of molecular weights of substances in solution.

Faraday's Laws of Electrolysis.

The Ionic Theory.

Elements of Thermo-Chemistry; combustion, explosions.

(*d*) Chemical Technology.

Natural waters. Hardness. Softening on the large scale.

Quick-lime, hydraulic lime. Portland cement; Plaster of Paris; setting and hardening of mortars and cements.

Glass, pottery, bricks.

Red lead, white lead, zinc white, oxide of iron paints.

Sulphuric acid, hydrochloric acid, sodium carbonate, chlorine, bleaching powder.

Practical.

Gravimetric estimation in simple salts of:—Ca, Mg, Fe, Al, Cu, Ag, Ba, Si,O_2, CO_2, SO_3, P_2O , HCL.

Volumetric estimations of acids, alkalies, iron, and chlorides.

Quantitative analysis of limestone dolomite, brown hæmatite, and silver coin.

The most characteristic reactions of salts of:

Ag, Pb, Hg, Bi, Cu, As, Sb, Sn, Fe, Al, Cr, Zn, Mn, Ba, Sr, Ca, Mg, Na, K, NH_4, H_2SO_4, HCL. HNO_3, H_2CO, HF, H_2SO_4, H_2S, H_2SiO_3, H_3PO_4.

PHYSICS.

(*a*) *Heat.*

Expansion of solids, liquids, and gases; Regnault's experiments on the absolute expansion of mercury and the expansion of gases. Charles' law. Principles of thermometry. Thermometers for various purposes. Absolute temperature. Density of solids, liquids, and gases. Calorimetry; correction for radiation. Specific heats of solids and liquids. Determination of the specific heat of gases at constant pressure and constant volume. Dulong and Petit's law. Change of state of aggregation. Critical temperature; continuity of state. Measurement of heat of fusion and vaporisation. Influence of pressure on melting and boiling points. Methods of liquefying gases. Pressure of saturated steam. Hygrometry. Conduction; simple cases of steady flow across a plate and along a bar. The fundamental laws of thermodynamics. Joule's experiments. Adiabatic transformations. Cooling of gases by expansion. The diagram.

Outline of the action of Steam Engine, Gas Engine, Petroleum Engine.

(*b*) *Statical Electricity.*

Electrification by friction. Electroscopes. Ice-pail experiments. Induction. Electrophorus. Influence machine. Electric work and energy; potential, lines and tubes of force, equipotential surfaces. Quadrant: electrometer. Electrostatic units. Condensers; capacity, two concentric spheres, the leyden jar. Specific inductive capacity. Statical comparison of capacities.

(*c*) *Current Electricity.*

Chemical and Thermal methods of producing currents. Electrolytic conduction. Electrolysis of fused compounds and of saline solutions. Faraday's laws. Coulometers.

Ohm's law. Kirchhoff's laws. Units of resistance. Resistance coils. Wheatstone's bridge. Resistance of battery.

Resistance of galvanometer. Electromotive force. Standard cells. Determination of Electromotive force; the Potentiometer. Joule's law.

(d) Magnetism.

Fundamental experiments. Magnetic fields. Magnetic curves. Declination theodolite; dip circle. Methods of magnetisation.

Relation of magnetism to electricity. Oersted's experiment. Galvanometers. Electrodynamic experiments; Electromagnets, types. Permeability and methods of measuring it; the ballistic galvanometer Magnetic hysteresis. Magnetic flux, magnetomotive force, reluctance. Law of traction. Induction of currents; Lenz's law; Ruhmkorff's coil. Self-induction. Electromagnetic units.

(e) Radiant Energy.

Reflection and refraction. Velocity of propagation; Foucault's and Fizeau's experiments. Plane and spherical mirrors. Refraction. Prisms, minimum deviation. Determination of refractive indices of solids and liquids. Lenses. The Sextant, Telescopes and field glasses. Simple experiments on radiant heat and electrical radiation. Dispersion. Spectroscopes and spectra. Colour.

Practical Exercises.

Measurement of thickness of plates by wire gauge, micrometer screw gauge, micrometer callipers, cover-glass tester, spherometer.

Determination of radius of curvature of lenses by the spherometer.

The cathetometer; adjustments; verification of Boyle's law; coeficients of tensional elasticity.

Dividing machines and their uses.

The balance; adjustments; weighing by the method of vibration; specific gravity of solids.

Moments of inertia.

The barometer; reading and correction.

Thermometer; comparison, verification of fixed points.

Coefficients of expansion.

Hygrometry; dew-point hygrometers; psychrometers; comparison of results.

Calorimetry; correction for loss of heat; specific heat of solids; heat of evaporation.

Melting and boiling points; distillation.

Pressure of aqueous vapour.

Study of magnetic field by iron-filings.

Faraday's ice-pail experiments.

Setting up and reading of galvanometers. Ohm's law; Wheatstone's bridge; the meter bridge; insulation resistance The Potentiometer; current, and voltage, measurements. Kelvin's balance: current, voltage, wattage.

Heating effects of currents.

Electrolytic current measurements.

Exercises with the spectroscope. Measurement of indices of refraction. Photometric experiments. Focal distances of mirrors and lenses.

DESCRIPTIVE ENGINEERING.

Materials of Construction.—Structure, classification, and characteristic qualities of building stones, quarrying and blasting, preparation of bricks and tiles, cementing materials, plasters, paints, and varnishes, timber, iron and steel, lead, copper, zinc, and the common alloys.

Details of Construction.—Brick and stone masonry, earthwork, carpentry, foundations, walls, floors and roofs of buildings. Arches, construction of masonry, wooden and iron bridges, construction and maintenance of roads.

SURVEYING.

Prismatic Compass, Level, Theodolite, and Plane Table. Topographical surveying of limited areas. Practice of levelling. Route surveying and laying out curves. (Attested Surveys, executed by the candidate, will be submitted to the Examiner, to which marks will be assigned.)

DRAWING & ESTIMATING.

(i) Freehand Drawing.

(ii) Projection. (*a*) Orthographic, (*b*) Isometric, Topographical and Engineering Drawings.

(iii) The Estimating and preparation of indents for materials of simple buildings, culverts; earthwork.

6. As soon as possible after the Examination, the Syndicate shall publish a list of the successful candidates in order of merit.

Every candidate shall on passing, receive a certificate in the form entered in Appendix A.

7. There shall be ten papers and the maximum marks of the whole examination shall be—

[*4,200 marks.*]

The subjects and marks shall be distributed as follows :

I.—*Mathematics.*

[*1,200 marks.*]

Paper I.—Trigonometry and Mensuration.

[*400 marks.*]

Paper II.—Statics, Dynamics and Applied Mechanics.

[*500 marks.*]

Paper III.—Differential and Integral Calculus and theory of curves.

[*300 marks.*]

II.—*Science.*

[*1,000 marks.*]

Paper IV.—Chemistry.

[*250 marks.*]

Practical Examination in Chemistry.

[*250 marks.*]

Paper V.—Physics.

[*250 marks.*]

Practical Examination in Physics.

[*250 marks*].

III.—*Engineering.*

[*1,000 marks.*]

Paper VI.—Materials of construction.

[*400 marks.*]

Paper VII.—Details of construction.

[*400 marks.*]

Paper VIII.—Estimating.

[*200 marks.*]

IV.—*Surveying.*

[*500 marks.*]

Paper IX.—Theoretical.

[*200 marks.*]

Practical examination.

[*300 marks.*]

V.—*Drawing.*

[*500 marks.*]

Paper X.—Theoretical.

[*200 marks.*]

Practical examination.

[*300 marks.*]

8. The pass marks for the Intermediate Examination in Engineering shall be one-third in each group of subjects and half of the aggregate.

9. Any candidate who has failed in one subject only, and by not more than 5 per cent. of the full marks in that subject, and has shown merit by gaining 60 per cent. or more in the aggregate of the marks of the examination, shall be allowed to pass.

10. If the Examiners are of opinion that in the case of any candidate not covered by the preceding Regulations, consideration ought to be allowed by reason of his high proficiency in a particular subject, or in the aggregate, they shall report the case to the Syndicate, and the Syndicate may pass such candidate.

CHAPTER LII.

BACHELOR OF ENGINEERING.

1. An examination for the Degree of Bachelor of Engineering shall be held annually at such time and place as the Syndicate shall determine, the approximate date to be notified in the Calendar.

2. The examination shall be held in the following branches :

I. Civil Engineering ;

II. Mechanical and Electrical Engineering ;

III. Mining Engineering ;

and the Diploma shall distinctly state in which branch the candidate has qualified.

3. Any undergraduate of the University may be admitted to this examination provided he has prosecuted a regular course of study in a College affiliated up to the standard of the B.E. Examination for two academical years after passing the Intermediate Examination in Engineering, in class, laboratory and workshop, in the particular branch in which he presents himself for examination.

4. A candidate shall not present himself for examination in any one year in more than one branch, but a Bachelor of Engineering who has graduated in one branch may present himself for examination in another branch, provided he has prosecuted a regular course of study in a College affiliated up to the standard of the B.E. examination for one academical year after passing the B.E. Examination, in class, laboratory and workshop, in the special subject of the branch in which he presents himself for examination. He shall be excused attendance and examination in subjects in which he has previously passed.

5. Every candidate for admission to the examination shall send to the Registrar, his application with a certificate in the form prescribed by the Syndicate, and a fee of a Rs. 40, at least fourteen days before the date fixed for the commencement of the examination. A candidate who fails to pass or to present himself for examination shall not be entitled to a refund of this fee. A candidate may be

admitted to one or more subsequent examinations on payment of a like fee of rupees forty on each occasion.

6. As soon as possible after the examination the Syndicate shall publish a list of the successful candidates in each branch arranged in two classes in order of merit.

Successful candidates shall, on passing, receive a diploma in the form entered in Appendix A.

7. Every candidate shall be examined in—

(i) Mathematics,

(ii) Science,

(iii) Engineering,

(iv) Drawing and Design.

The limits of the different subjects shall be as follows :

MATHEMATICS.

For candidates in all Branches.

Pure Mathematics—

(*a*) Elementary Analytical Geometry and Differential Calculus with special reference to the properties of the parabola, ellipse, hyperbola and other commonly occurring curves whose equations are simple in form.

(*b*) Integral Calculus including the standard integrals, integration by substitution and by parts.

Application of the integral calculus to the determination of lengths of curves, plane areas, volumes, centres of mass and moments of inertia in simple cases.

(*c*) Simple ordinary differential equations of the first and second orders.

Mixed Mathematics—

(*a*) Principle of Virtual Work. Analytical conditions of equilibrium. Solution of plane problems in Statics by resolving and taking moments, by the principle of virtual work and by graphical methods. Bending moments. The funicular polygon. The Catenary. Equilibrium of Simple jointed frame-works.

(*b*) Units and dimensions.

Statical equivalence of the externally impressed forces with the effective forces in any system of bodies. The principles of linear and angular momentum. The principle of energy.

Gravitational potential energy; potential energy of a stretched elastic string and of a compressed spring.

Motion under gravity of a particle on a smooth vertical circle and on other simple curves.

Motion of a rigid body about a fixed axis.

Simple harmonic motion; the simple, conical and compound pendulum.

(*c*) Nature and general properties of fluid pressure.

Density and specific gravity of a homogeneous mixture.

Relations between pressure, density and force.

Thrust on a plane area centre of pressure.

Resultant thrust on any immersed solid and any immersed surface, particularly in the case of a homogeneous liquid at rest under gravity.

Conditions for the equilibrium and for the stability of the equilibrium of a floating body.

Hydrostatic instruments. Determination of a specific gravity. Properties of gases.

SCIENCE.

GEOLOGY.

For candidates in { *Civil Engineering and Mining Engineering.* }

(*a*) *Astronomical Geology*—Information obtained from meteorites and by the spectroscope. Probable history of the earth in its earliest stage of existence.

(*b*) *Geognosy*—Probable internal condition; evidences of pressure and internal heat.

(*c*) *Petrography*—Essential and accessory constituents. Classification of rocks. Characters and essential constituents of the more important Indian rocks.

(*d*) *Dynamical Geology*—Volcanic phenomena. Theories of volcanicity. Hot springs. Earthquakes. Secular upheaval and depression. Geological functions of air. Geological functions of water and ice. Chemical and Mechanical actions, denudation and deposition; landslips. Peculiarities of Indian rivers. Lakes. Geological functions of plants and coral animals; islands.

(*e*) *Petrogenetic Geology*—Origin of coal beds. Origin of laterite. Origin of rock-cleavage. Ore deposits; origin and classification.

(*f*) *Architectonic Geology*—Forms of bedding. Surface markings. Concretions. Overlap. Groups of Strata. Joints. Strike and dip; out-crop; monocline; syncline; anticline. Faults, origin and kinds. Intrusive phase of eruptivity: bosses, sheet, dykes, necks; interbedded phase of eruptivity: lavas, tuffs. Unconformability.

(*g*) *Palæontological Geology*—Object. Conditions for the entombment of organic remains. Preservation of organic remains in mineral masses; fossilisation. A general account of the uses of fossils in Geology.

(*h*) *Historical Geology*—Leading principles in stratigraphy.

Indian Geology.

I. *Pre-Cambrian History.*

1. The Archæan Group. The ancient gneisses and schists. Domegneiss; anorthosites; the charnokite series; norites and pegmatites. The Dharwarian system.

2. The Purana Group. Lower and Upper subdivisions. Outlines of the Kaddapah, Karnul, and Vindhyan systems. The Unfossiliferous Rocks of the Outer Himalayas.

II. *Cambrian and Post-Cambrian History.*

3. The Dravidian Group. The Cambrians of the Salt-Range. Outlines of the distribution of the Dravidian formations in the Himalayas and in Burma; the Vaikritas and Haimantas.

4. The Aryan Group. Outline of the Aryan history of the Salt Range and of the Himalayas; the Sirmurs and Siwaliks: subdivisions and petrology. Outlines of the history of Sind, Baluchistan, and Burma during tertiary times. The Aryan history of the Peninsula. Gondwana Land; evidences of the existence of an old Indo-African continent; Lower and Upper Gondwanas; stages; a more detailed account of the Raniganj, Jeria and Giridih coal-fields. The cretaceous rocks of Madras and Assam. The Great Deccan Outburst. Laterite. Regur. The Indo-Gangetic Plain.

(*i*) *Field Geology*—Geological surveying instruments. Tracing of boundaries and faults. Sections; how to find direction and amount of dip; Dalton's construction. Levelling; surface profile; datum level; bench marks; methods of geological levelling Lithology; practical exercises in the identification of Indian rocks.

MINERALOGY.

For candidates in { *Civil Engineering and Mining Engineering.* }

(*a*) Properties of crystals independent of direction.

Density and specific gravity; methods of determining specific gravities; hydrostatic balance; Jolly's balance; pycnometers floatation methods.

(*b*) Physical Crystallography—Cleavage; fracture; hardness.

Optical properties of minerals. Kind and degree of lustre. Double refraction and polarisation. Nicol's prism. Classifications of crystals according to their optical properties.

Examination of crystals in parallel and convergent polarized light. Pleochroism.

(*c*) Geometrical Crystallography—Relation of physical properties to geometrical form. Crystalline form; faces. Planes and axes of reference; parameters; indices; symbols. Law of rationality of indices. Miller's notation. Parametral form; its selection. Symmetry: planes and axes. Systems. Simple forms and combinations. Habit. Isomorphism and heteromophism. Crystalline aggregates. Measurement of angles; contact and reflecting goniometers.

(*d*) Chemical Mineralogy—Outlines of Classification of minerals. Group tests.

(*e*) Descriptive Mineralogy—A general description of the following minerals:

Elements—Graphite, diamond, gold.

Sulphides—Pyrite, galena, sphalerite chalcopyrite.

Oxides—Corundum, hematite, magnetite, quartz, cassiterite, limonite, manganese ores, bauxite.

Oxysalts:

(i) Carbonates—Calcite, dolomite, siderite, aragonite.

(ii) Sulphates—Anhydrite, gypsum.

(iii) Phosphates—Apatite.

(iv) Silicates—Tourmaline, olivine, garnet, muscovite, biotite, talc, serpentine, pyroxene, amphibol, the felspars.

Haloid salts—Halite, fluorite.

METALLURGY AND TESTING OF MATERIALS.

For Candidates in all branches.

Physical properties of metals and alloys. Influence of impurities on the properties of iron and copper. Effect of temperature changes on metals and alloys, with special reference to steel; annealing, hardening, tempering. Metallography.

Fuel.—Classification; manufacture of coke; gas producers; calorimetry; assay of coal.

Materials—Ores, fluxes, slag; oxidising and reducing agents.

Furnaces.—Hearths for roasting and refining; shaft furnaces; the iron blast furnace; cupola; reverbatory furnaces; cupellation; cement steel furnaces; the converter. Chimneys, blowing engines. Cowper's and Whitwell's stoves.

Metallurgical processes.—Classification. Outlines of typical processes: the Blast-furnace process; puddling; Bessemer's process, acid and basic. Processes for the manufacture of aluminium and ferromanganese. Chief processes of copper smelting; manufacture of byproducts of the smelting of sulphide ores. Methods of recovery of gold from alluvial deposits and auriferous reefs. Methods of producing sound castings.

The candidates will be supposed to have gone through a course of practical exercises in the following subjects:

Preparation of common alloys and determination of their mechanical properties. Fire testing of the qualities of clay and brick-earths. Determination of ash, coke and sulphur in solid fuels. Determination of the calorific power of fuels. Determination of furnace temperatures by some form of pyrometer.

Testing of Materials.—Mechanical testing of cement, lime, brick, stone, timber and metals.

APPLIED PHYSICS.

For candidates in Civil Engineering and Mining Engineering.

The theory of the experiments on Practical Engineering Physics and—

Pumps. Production of low temperatures; refrigerating machinery. Optical instruments. The principles and applications of photography. Roöntgen and Becquerel rays. The principles of telegraphy and telephony; wireless telegraphy. Electric bells and indicators. Lightning conductors. Dynamo electric machinery, direct and alternate, monophase and polyphase. Types of armatures and field-magnets. Reaction of armature and field motors. Efficiency of generators and motors; causes of loss of electric energy. Transmission of electric energy; comparison with other systems of transmission of energy. Transformers. Accumulators. Electric lighting systems. Electric welding. Electric deposition of metals.

PRACTICAL ENGINEERING PHYSICS.

For candidates in all branches.

Comparison of lengths. Determination of cross-sections and volumes. Specific gravity of solids and liquids. Testing of spirit levels. Young's modulus: by extensometer and by bending. Young's modulus of wires. Modulus of rigidity: static and kinetic methods. Coefficient of torsional elasticity. Moments of Inertia. Atwood's Machine. The ballistic balance and the ballistic pendulum. Experiments with the physical pendulum. Composition of moments. Coefficients of friction. Efficiency of wheel and axle, of the crab winch, of the differential pulley, and of a system of pulleys. Efficiency of the screw-jack and the hydraulic jack. Determination of small intervals of time. Harmonic motion. Coefficients of expansion of solids. Pyrometric measurements. Influence of temperature upon Young's modulus, on thermal conductivity on the colour of pigments, and on the magnetic properties of iron. Heats of combustion. Mechanical equivalent of heat.

Photometric measurements; intensity of emission and illumination.

Magnetic elements. Tracing of B. H. curves. Exploration of magnetic fields. Characteristic and magnetisation curves of dynamos. Efficiency of dynamos and motors. Measurement of co-efficients of self-induction. Fault testing in electric circuits. Testing of lightning conductors.

ENGINEERING.

Applied Mechanics.

For all candidates.

Definitions.

Elasticity.—Plasticity and rigidity. Stress, its nature and intensity. Tensile, compressive, and shearing stresses. Positive and negative senses of a stress. Stresses of uniform and variable intensities. Ultimate strength. Factor of safety.

Tension.

Simple tension.—Work done in stretching a rod. Thin pipes under internal fluid pressure. Strength of prismatic solids under tensile stress when the resultant of applied forces does not coincide with the axis of the solid. Safe tensile co-efficients of various materials.

Compression.

Classification of bars or pillars under compression :

Very short pillars, short pillars, long pillars, very long pillars. Methods of failure of these classes of pillars. Rondolet's, Hodgkinson's and Gordon's formulæ. Euler's formula. Fairbairn's formula for collapsing of tubes under fluid pressure. General remarks on the applicability of the above formulæ. Safe compressive co-efficients of materials usually subjected to a compressive stress : impact, pile driving.

Transverse Strain.

Proof that the stress at each point varies as its distance from the neutral axis.

Determination of the position of the neutral axis.

Determination of the moment of resistance.

Calculation of moments of inertia of ordinary sections used in engineering construction.

Flanged girders :—Approximate and accurate methods.

Proportion of I beams for equal strength.

Beams of uniform strength.

Bending moments and shearing forces.—(Treated graphically and analytically.)

Cantilever under single load at free end.

Cantilever under uniformly distributed load.

Cantilever under uniformly distributed load, and one or more detached loads.

Beams supported at the ends and loaded with detached loads at any point.

Beams supported at the ends and loaded uniformly.

Beams supported at the ends and loaded uniformly, and also with one or more detached loads.

Beams supported at the ends and loaded with a single detached moving load.

Beams supported at the ends supporting an uniformly distributed moving load of length less than the span.

Beams supported at the ends, supporting an uniformly distributed moving load of length greater than the span.

Beams supported at the ends and loaded at intermediate points.—Conversion of the detached loads into equivalent uniformly distributed load.

Statics of Structures.

Framework loaded at the joints.

Triangular frames.—Diagram of forces for a single triangular frame. Triangular trusses. Cranes and derricks. Sheer-legs and tripods. Effect of the tension of the chain in cranes.

Incomplete frames.—Preliminary ideas. Simple trapezoidal or queen post truss. General case of a funicular polygon under a vertical load. Suspension chains.

Compound frames.—Compound triangular frames for bridge trusses. Roof trusses in timber. Queen truss for large iron roofs. Diagram of forces in general.

Framework girders.—Warren girders under various loads. N trusses. Bowstring girders.

Girders with redundant bars.—Lattice girders, flanged beams.

Deflection of Beams.

Deflection due to the maximum bending moment. General equation of deflection curve. Elementary cases of deflection and slope. Beams propped in the middle. Stiffness of beams. Stiffest beam that can be cut from a circular log.

Shearing.

Distinction between tangential stress and normal stress. Equality of tangential stress on planes at right angles. Tangential

stress equivalent to a pair of equal and opposite normal stresses. Web of a beam of I section. Method of computing the intensity of the shearing stress at any point in a bent solid.

Resistance of Prismatic Solids to simple Torsion.

Explanation of the phenomena of simple torsion.

A circular section, solid or hollow, most favourable form of prismatic solid for resistance to torsion.

Twisting moment. The limiting intensity of the resistance to torsion is that of the shearing stress.

Investigation of the resistance of a circular prism to torsion round its mean fibre.

The strength of axles subject to simple torsion. Values of the limiting intensity of working resistance to simple torsion for different materials.

Diameter of a shaft to transmit a given power.

Blockwork Structures

Stability at a plane joint. Stability of a series of blocks. Centres of pressure or resistance. Line, polygon and curve of pressures. Line of resistance, or polygon of centres of pressures. Moment of stability.

Retaining walls.—Theory of earth pressure. Angle of repose of different soils Walls supporting a bank of earth with horizontal surface. Surcharged walls. Graphic methods of solution. Determination of the centre of pressure on any joint of a wall supporting a load of earth at its back. Maximum intensity of stress at any joint in a retaining wall. Minimum intensity of presure. Tensile stress at a joint. Effect of cohesion of mortar. Connection between maximum intensity of pressure on foundation course and power of resistance of earth foundation. Methods of equalising intensity of stress on foundation courses.

Masonry arches.—Definitions. Curve of pressures and line of resistance. Conditions of stability. Treatment of the weight of loads of different densities. Graphic process of determining the stability and resistance of any proposed arch by drawing the line of resistance. Depth of keystone.

Stability and resistance of abutments and piers.—Graphic process of determining the position of resultant pressure on any joint of an abutment. Design of piers.

Stability of foundations of structures in masonry and brickwork.

HYDRAULICS.

For all Candidates.

General Principles.

Velocity and volume of flow. Principle of continuity. Flow in a stream. Steady and varying motion of streams. Fluid acting on piston. Theorem of Bernoulli. Hydraulic head.

The Flow of Liquids through Orifices.

Application of the Theorem of Bernoulli. Velocity of flow due to given head. Co-efficient of velocity. Co-efficient of contraction. Co-efficient of discharge. Co-efficient of resistance. Connection between co-efficients of velocity and resistance. Discharge from large rectangular orifices. Borda's mouth-piece. Co-efficient of contraction for Borda's mouth-piece obtained theoretically. Incomplete contraction. Cylindrical and conical mouth pieces. Flow over notches. Triangular notches. Velocity of approach Application of results to measurement of flow in streams. Francis' formula. Discharge of measured quantities of water for irrigation purposes. Italian and Spanish modules. Other forms of apparatus answering the same purpose. Discharge under varying head. Jet pump. Separating weirs.

The Flow of Liquids in Pipes.

Laws of friction between liquids and surfaces. Froude's and Unwin's experiments. Loss of head due to friction in pipes. Hydraulic mean depth. Variation of co-efficient with velocity and diameter. Darcy's formula. Hydraulic gradient. Ordinary computations of size of pipes and volume of discharge. Loss of head due to bends, elbows, enlargements, etc.

Movements of Water in Canals and Rivers.

Mean velocity corresponding to given gradient. Variation of the co-efficient. Velocity at different parts of the section of the stream. Mean velocity in terms of surface and bottom velocity. Ratio of mean to maximum velocity. Forms of section of channel, circular, trapezoidal, egg-profile. Most economical section of channel with given side-slopes

Form of section for a constant velocity with varying discharge.

Impulse and Reaction of Water.

Pressure of a jet on a plane surface, fixed or moving. Energy communicated to the moving surface and efficiency of jet. Velocity of surface for maximum efficiency. Resultant pressure on curved surface, direct impulse and reaction. Condition to avoid loss by shock when jet is received. Condition for least loss of kinetic energy when jet is discharged.

IRRIGATION AND SANITARY ENGINEERING.

For candidates in Civil Engineering.

Well irrigation, Canal irrigation, Inundation canals, Permanent canals, Reservoirs, Distribution of water, Tank irrigation, River inundation and river improvement. Municipal water-supply. Sources of water.—Quality and quantity of water, selecting samples for analysis and bacteriological examination. Collection of water—from springs, from wells, from tanks, from rivers. Purification of water —Raising and Distribution of water.—Intermittent and constant supply.

Drainage and sewerage, surfaces, sewers, flushing, house drainage, urinals and latrines, disposal of sewage.

ROADS AND RAILWAYS.

For candidates in Civil Engineering.

Different classes of roads. Survey, construction, and maintenance of metalled and unmetalled roads. Hill Road. Bridges and culverts.

Survey, Location, and Preparation of Railway Project. Construction of Formation and Permanent-way. Tunnels and Bridges. Simple Railway appliances. Rolling Stock.

ENGINES AND MACHINERY.

Part I (*for all candidates*) covers the course generally.

Part II (*for candidates in Mechanical and Electrical Engineering*) will comprise a more detailed and special knowledge of the following subjects:

ENGINES.

Boilers.—Heating value of fuels and mechanical equivalent. Conditions for economical combustion.

Various types of Boiler: their construction and strength. Evaporative power. Management. Fittings. Piping. Feed pumps. * Economisers. Superheaters. Boiler trials.

Steam Engines.—Expansion of steam Steam consumption. Condensation in cylinder. Steam jackets. the Indicator and its uses. Valves and valve gearing. Reciprocating and Turbine Engines. Compounding. Governing. Condensers. Engine Tests.

Internal Combustion Engines.—Fuels used. Principles of action and construction of typical Engines. Ignition. Governing. Starting. Working. Testing.

Hydraulic and Pneumatic Engines.

DETAILS OF MACHINERY.

Bolts. Nuts. Keys and Cotters. Journals. Crankpins. Pivot and collar Bearings. Axles. Shafting and couplings. Gearing.

THEORY OF MACHINES.

For candidates in Mechanical, and Electrical Engineering.

Types of Mechanism. Virtual centres. Velocity and acceleration diagrams. Gearing. Valve Gearing. Friction. Crank effort. Inertia of moving parts. Balancing. Governors. Fly-wheels. Dynamometers.

ELECTRICAL ENGINEERING.

Part I (*for candidates in Mechanical, Electrical and Mining Engineering*) covers the course generally.

Part II (*for candidates in Mechanical and Electrical Engineering* will comprise a more detailed and special knowledge of the following subjects :

The principles and practice of electric lighting, power, distribution and traction including wiring, cables, generators, motors, converters, transformers, accumulators, switchboards, lamps, and other apparatus in modern use.

Methods of testing used by Engineers.

Electrical machine design.

The Principles of Telegraphy and Telephony.

MINING.

For candidates in Mining Engineering only.

PART I.

Geology applied to Mining.

Boring by hand and power machines.

Sinking and lining shafts; various methods employed in special cases.

Systems of haulage, underground and aboveground; aerial ropeways.

Hoisting; headgear; ropes; safety appliances.

Mining legislation.

Methods of working coal; shaft-pillars, preliminary work and various methods of working the seams. Special reference to Thick Coal working, as practised in England and different parts of the world.

Shot-firing; coal-cutting by machinery.

Surface subsidence and undersea working.

Timbering and other supports.

Coal mine plans and sections; connecting surface and underground surveys.

Prospecting for, and methods of working, mineral veins.

Alluvial mining and open workings.

Hydraulic mining; dredging for gold; ore-beds and deep-leads; overhand and underhand stopping. Hand and powder; drilling; blasting; timbering.

Metal mine plans.

PART II.

Descriptive Mineralogy; physical properties of minerals; description of various ores and fuels; methods of determination.

Prospecting operations.

Drainage of mines; adit levels; pumping machinery; dams; boring against old workings.

Ventilation of mines; natural and artificial ventilation; splitting and regulating; air currents; types of fans; water-gauge and anemometer.

Power application in a mine; discussion of relative merits of steam, water, compressed air, electricity, and oil as sources of applied power.

Description of gases found in coal mines; colliery explosions; safety lamps; instruments for detecting firedamp; treatment of men overcome by foul air.

Arrangements of surface works at a colliery; sorting and screening coals, coal-washing; briquette making; coking and bye-products.

Surface works of metal mines. Sorting, crushing, sizing, and concentration of various ores. Modern ore-dressing machinery, and slime tables.

Special reference to treatment of gold, silver, copper, lead, and zinc.

Cyanide and chlorine treatment of slimes.

DRAWING AND DESIGN.

The written test (for candidates in Civil Engineering) will be confined to the preparation of detailed drawings from notes and sketches, as applied to Civil Engineering and Architecture: *(for candidates in Mechanical, Electrical and Mining Engineering)* it will be confined to the preparation of detailed Drawings and Designs from notes and sketches as applied to Machinery and Structures relating to these branches.

Practical Test.—(For all candidates.) Attested Drawings and Designs for Engineering Works and Buildings will be submitted for examination. Marks will be allotted for fieldwork and calculations.

8. The subjects and marks shall be distributed as follows:

CIVIL ENGINEERING.

I. *Mathematics—*

1. Pure Mathematics ...	200	
2. Mixed Mathematics ...	300	
	——	500

II. *Science—*

3. Geology and Mineralogy	200	
4. Metallurgy and testing of Materials ...	200	
5. Applied Physics ...	200	
6. Practical Engineering Physics ...	400	
	——	1,000

III. *Engineering*—

7. Roads and Railway ...	400	
8. Irrigation and Sanitary, Engineering ...	400	
9. Applied Mechanics ...	400	
10. Hydraulics ...	400	
11. Engines and Machinery, Part I ...	400	
		2,000

IV. *Drawing and Design*—

12. Attested Drawing and Designs for Engineering Works and Buildings ...	700	
13. Theoretical paper ...	200	900
Total		4,100

MECHANICAL AND ELECTRICAL ENGINEERING.

I. *Mathematics*—

Pure Mathematics ...	200	
Mixed Mathematics ...	300	
		500

II. *Science*—

Metallurgy and Testing of the Materials	200	
Practical Engineering Physics	400	
		600

III. *Engineering*—

Applied Mechanics and Hydraulics	400	
Engines and Machinery (Part I)	400	
" " (Part II)	400	
Theory of Machines ..	400	
Electrical Engineering (Part I)	400	
" " (Part II)	400	
		2,400

IV. *Drawing and Design*—

Theoretical Paper ...	200	
Attested Drawings and Designs for Engineering Works and Buildings	700	900
		4,400

MINING ENGINEERING.

I. *Mathematics*—

Pure Mathematics ...	200	
Mixed Mathematics ...	300	
		500

II. *Science*—

Geology and Mineralogy...	200	
Metallurgy, etc. ...	200	
Applied Physics ...	200	
Practical Engineering ... Physics.	400	
		1,000

III. *Engineering*—

Applied Mechanics and ... Hydraulics.	400	
Engines and Machinery, ... Part I.	400	
Electrical Engineering, ... Part I.	400	
Mining, Part I ...	400	
Mining, Part II ...	400	
		2,000

IV. *Drawing and Design*—

Theoretical Paper ...	200	
Attested Drawings and Designs for Engineering Works and Buildings	700	900
		4,400

9. The pass marks for the B.E. Examination shall be one-third in each group of subjects and half of the aggregate for a Second Class. Two-thirds shall be required for a First Class. The candidate who is placed first in the first class in each branch shall receive a Gold Medal and a prize of books to the value of Rs. 200.

10. Any candidate who has failed in one subject only, and by not more than 5 per cent. of the full marks in that subject, and has shown merit by gaining 60 per cent. or more in the aggregate of the marks of the examination, shall be allowed to pass.

11. If the Examiners are of opinion that in the case of any candidate not covered by the preceding Regulation, consideration ought to be allowed by reason of his high proficiency in a particular subject or in the aggregate, they shall report the case to the Syndicate, and the Syndicate may pass such candidate.

CHAPTER LIII.

DOCTOR OF SCIENCE (ENGINEERING).

1. Any Bachelor of Engineering of the University of Calcutta may offer himself as a candidate for the Degree of Doctor of Science (Engineering).

2. Every candidate shall state in his application the special subject within the purview of the Regulations for the Degree of Bachelor of Engineering, upon a knowledge of which he rests his qualfication for the Doctorate, and shall, with the application, transmit three copies, printed or typewritten, of a thesis that he has composed, treating scientifically some special portion of the subject so stated, embodying the result of research or showing evidence of his own work, whether based on the discovery of new facts observed by himself, or of new relations of facts observed by others, or tending generally to advance engineering knowledge or practice. A thesis on a new application of scientific principles or an investigation of methods or materials of practical importance in some branch of engineering, will be taken to comply with the requirements. The candidate shall indicate generally in a preface to his thesis and specially in notes, the sources from which his information is taken, the extent to which he has availed himself of the work of others, and the portions of the thesis which he claims as original; he shall further state whether his research has been conducted independently, under advice, or in co-operation with others, and, in what respects his investigations appear to him to advance engineering knowledge or practice.

3. Every candidate may also forward with his application three printed copies of any original contribution or contributions to the advancement of engineering knowledge or practice, or of any cognate branch of science, which may have been published by him independently or conjointly, and upon which he relies in support of his candidature.

4. No application shall be entertained unless two Members of the Faculty of Engineering or two Doctors of Science (Engineering) shall have testified, to the satisfaction of the Syndicate, that since graduating as Bachelor of Engineering, the candidate has practised his profession with repute for five years, and that in habits and character, he is a fit and proper person for the Degree of Doctor.

5. Every candidate shall forward with his application a fee of Rs. 100. No candidate who fails to pass or present himself for examination shall be entitled to claim a refund of the fee.

6. The thesis mentioned in paragraph 2 and the original contributions, if any, mentioned in paragraph 3, shall be referred by the Syndicate to a Board consisting of the Dean of the Faculty of Engineering and two other persons.

7. If the thesis is approved by the Board, and, if the candidate has obtained a first class at the examination for the Degree of Bachelor of Engineering, he shall not be required to submit to any further written examination; but he may be required by the Board, at their discretion, to appear before them to be tested orally or practically, or by both these methods with reference to the thesis, and the special subject selected by him. The Board shall report to the Syndicate the result of the examination of the thesis, and of the oral and practical examinations, if any; and if the Syndicate, upon the report, consider the candidate worthy of the Degree of Doctor of Science (Engineering), they shall cause his name to be published, with the subject of his thesis, and the titles of his published contributions (if any) to the advancement of Engineering knowledge and practice and of Science generally.

8. If the candidate is a person who has obtained a second class at the examination for the Degree of Bachelor of Engineering, and, if his thesis is approved by the Board, he shall be required to submit to a written examination.

Two papers of three hours each shall be set, one upon the special subject mentioned in the application of the candidate, and the other upon the subject of the thesis. The candidate may also be required by the Board, at their discretion, to appear before them to be tested orally or practically or by both these methods, with reference to the thesis and the special subject professed by him. The Board shall report to the Syndicate the result of the examination of the thesis, and of the written examination, and also of the oral and practical examinations, if any; and if the Syndicate, upon the report, consider the candidate worthy of the Degree of Doctor of Science (Engineering), they shall cause his name to be published, with the subject of his thesis, and the titles of his published contributions (if any) to the advancement of Engineering knowledge and practice and of Science generally.

9. In the case of a candidate falling under the preceding section, if the Board, upon an examination of his thesis and of his original contribution or contributions to the advancement of Engineering knowledge and practice and of Science generally, hold the same to be generally or specifically of such special excellence as to justify the exemption of the candidate from the written examination, he may be so exempted by the Syndicate, provided that the report of the Board

shall set forth the fact and the grounds of such exemption.

10. A diploma under the seal of the University, and signed by the Vice-Chancellor shall be delivered at the next convocation for conferring degrees to each candidate who has qualified for the degree.

11. Every candidate shall be at liberty to publish his thesis, and the thesis of every successful candidate shall be published by the University with the inscription: "Thesis approved for the Degree of Doctor of Science (Engineering) in the University of Calcutta."

CHAPTER LIV.

ACADEMICAL COSTUME.

Graduates shall wear a European dress with a College Cap, or a Chapkan and Trousers with a Shawl Pagree and Black Taz.

They also shall wear Gowns and Hoods for the several degrees, as described below:

For the Degree of B.A.

A black silk or stuff Gown. The Hood shall be of black silk or stuff, edged on the inside with a border of dark-blue silk.

For the Degree of B.Sc.

A black silk or stuff Gown. The Hood shall be of black silk or stuff, edged on the inside with a border of light blue silk.

For the Degree of B.L.

A black silk or stuff Gown. The Hood shall be of black silk or stuff, edged on the inside with a border of green silk.

For the Degree of M.B.

A black silk or stuff Gown. The Hood shall be of black silk or stuff, edged on the inside with a border of scarlet silk.

For the Degree of B.E.

A black silk or stuff Gown. The Hood shall be of black silk or stuff, edged on the inside with a border of orange-coloured silk.

For the Degree of B.T.

A black silk or stuff Gown. The Hood shall be of black silk or stuff, edged on the inside with a border of purple coloured silk.

For the Degree of Master in the Faculties of Arts, Science and Law.

A black silk or stuff Gown. The Hood shall be of black silk or stuff, with lining of silk corresponding in colour with the inside border of the Hood for Bachelors of the Faculty.

For the Degree of Doctor in any Faculty and for the Degrees of Master in Surgery and Master in Obstetrics.

A deep purple silk Gown with full sleeves. The Hood shall be of scarlet silk, with a lining of satin corresponding in colour with the inside border of the Hood for the Bachelors of the Faculties.

APPENDIX A.

Matriculation Examination.

I certify that aged on duly passed the Matriculation Examination held in the month of 19 , and was placed in the Division.

University of Calcutta;
The 19 . *Registrar.*

Intermediate Examination in Arts (or Science).

I certify that duly passed the Intermediate Examination in Arts (or Science) held in the month of 19 , and was placed in the Division.

University of Calcutta;
The 19 . *Registrar.*

Bachelor of Arts (or Science).

Pass Diploma.

This is to certify that obtained the degree of Bachelor of Arts in this University at the Annual Examination in the year 19 .

University of Calcutta;
The 19 .

Vice-Chancellor.

Bachelor of Arts (or Science).

Diploma for those who have passed "with distinction."

This is to certify that obtained the degree of Bachelor of Arts (or Science) in this University with distinction at the Annual Examination in the year 19 .

University of Calcutta;
The 19 .

Vice-Chancellor.

Bachelor of Arts (or Science).

Honours Diploma.

This is to certify that obtained the degree of Bachelor of Arts (or Science) with Honours in this University at the Annual Examination in the year 19 , and that he was placed in the Class in

University of Calcutta;
The 19 .

Vice-Chancellor.

Master of Arts (or Science).

This is to certify that obtained the degree of Master of Arts (or Science) in this University at the Annual Examination in the year 19 , the special branch in which he was examined having been and that he was placed in the Class.

University of Calcutta;
The 19 .

Vice-Chancellor.

Doctor of Philosophy.

This is to certify that obtained the degree of Doctor of Philosophy in in this University at the Annual Examination in the year 19 .

University of Calcutta;
The 19 .

Vice-Chancellor.

Doctor of Science.

This is to certify that obtained the degree of Doctor of Science in in this University at the Annual Examination in the year 19 .

University of Calcutta;
The 19 .

Vice-Chancellor.

Licentiate in Teaching.

This is to certify that passed the Examination for a Licentiate in Teaching at the Annual Examination in the year 19 , and that he was placed in the Division.

University of Calcutta;
The 19 . *Registrar.*

Bachelor of Teaching.

Diploma.

This is to certify that obtained the degree of Bachelor of Teaching in this University at the Annual Examination in the year 19 .

University of Calcutta;
The 19 .

Vice-Chancellor.

Bachelor of Law.

Diploma.

This is to cerrify that obtained the degree of Bachelor of Law in this University at the Annual Examination in the year 19 , and that he was placed in the Division.

University of Calcutta;
The 19 .

Vice-Chancellor.

Master of Law.

This is to cerrtifiy that obtained the degree of Master of Law in this University at the Annual Examination in the year 19 , and that he was placed in the Class.

University of Calcutta;
The 19 .

Vice-Chancellor.

Doctor of Law.

This is to certify that obtained the degree of Doctor of Law in this University at the Annual Examination in the year 19 .

University of Calcutta;
The 19 .

Vice-Chancellor.

Preliminary Scientific Examination for the degree of M.B.

This is to certify that duly passed the Preliminary Scientific Examination for the degree of M.B. at the Annual Examinations in the year .

University of Calcutta;
The 19 . *Registrar.*

First M.B. Examination.

This is to certify that duly passed the First Examination for the degree of M.B. at the Annual Examination in the year 19 .

University of Calcutta;
The 19 . *Registrar.*

First M.B. Examination.

Certificate for those who have passed with Honours.

This is to certify that duly passed the First Examination for the degree of M.B. with Honours at the Annual Examination in the year 19 .

University of Calcutta;
The 19 . *Registrar.*

Final M.B. Examination.

Diploma.

We, the Vice-Chancellor, the President of the Faculty of Medicine and the Registrar of the University of Calcutta do hereby make known that in the year 19 has been admitted to the Degree of Bachelor of Medicine, he having been first certified by duly appointed Examiners to be qualified to receive the same. We do hereby declare that he is competent and authoris-

ed to practise Medicine, Surgery and Midwifery.

Vice-Chancellor.

President of the Faculty of Medicine.

Registrar.

First M.B. Examination.

Diploma for those who have passed with Honours.

We, the Vice-Chancellor, the President of the Faculty of Medicine and the Registrar of the University of Calcutta do hereby make known that in the year 19 . ...has been admitted to the Degree of Bachelor of Medicine, he having been first certified by duly appointed Examiners to be qualified to receive the same. He obtained Honours in. .... We do hereby declare that he is competent and authorised to practise Medicine, Surgery and Midwifery.

Vice-Chancellor.

President of the Faculty of Medicine.

Registrar.

Doctor or Master in the Faculty of Medicine.

We, the Vice-Chancellor, the President of the Faculty of Medicine and the Registrar of the University of Calcutta do hereby make known that in the year 19

has been admitted to the Degree of Doctor of Medicine / Master of Surgery / Master of Obstetrics } he having been first certified by duly appointed Examiners to be qualified to receive the same.

Vice-Chancellor.

President of the Faculty of Medicine.

Registrar.

Diploma in Public Health.

We, the Vice-Chancellor, the President of the Faculty of Medicine and the Registrar of the University of Calcutta do hereby make known that in the year 19 .... has been granted the Diploma of Public Health, he having been first certified by duly appointed Examiners to be qualified to receive the same

Vice-Chancellor.

President of the Faculty of Medicine.

Registrar.

Intermediate Examination in Engineering.

I certify that duly passed the Intermediate Examination in Engineering held in the month of 19 .

University of Calcutta;
The 19 . } *Registrar.*

Bachelor of Engineering.

Diploma.

This is to certify that obtained the degree of Bachelor of Engineering in this University at the Annual Examination in the year 19 , the special branch in which he was examined having been

and that he was placed in the Class.

University of Calcutta;
The 19 . }

Vice-Chancellor.

Doctor of Science (Engineering).

This is to certify that obtained the degree of Doctor of Science (Engineering) in this University at the Annual Examination in the year 19 .

University of Calcutta;
The 19 . }

Vice-Chancellor.

APPENDIX B.

PHYSICS.

A.—INTERMEDIATE STANDARD.

(*a*) List of apparatus for practical class of 20 students.

The figures in brackets indicate the number of sets required in each case.

Mechanics:

Vernier (3).
Glass scales and plates (3).
Protractor (3).
Inclined plane (2).
Friction apparatus (2).
Pendulum and stand (3).
Balance weighing to 1 cm. and weights (3).
Hydrometer with jar and weights (3).
Apparatus for Boyle's law (2).
Barometer (1).

Approximate cost Rs. 325.

Heat:

Apparatus for determining fixed points of thermometers (3).
Apparatus for specific heat (3).
Apparatus for latent heat (3).

Approximate cost Rs. 65.

Light:

Drawing board and instruments (3).
Plane and concave mirrors (3).
Prism (3).
Lens (3).
Glass cube (3).
Sighting rod (3).
Slit (3).
Screen (3).
Simple photometer (3).

Approximate cost Rs. 110.

Magnetism:

Magnet (3).
Magnetoscope (3).
Small compass (3).
Steel and iron wire.

Approximate cost Rs. 25

Electrostatics:

Electroscope (3).
Electrophorus (3)
Glass rod (3).
Ebonite rod (3).
Rubbers.
Insulated sphere (3).

Approximate cost Rs. 45.

Current Electricity.

Leclanché cell (3).
Daniell cell (3).
Compass needle and stand (3).
Astatic galvanometer (2).
Tangent galvanometer (2).
Wheatstone's bridge (2).
Resistance coils.

Approximate cost Rs. 150.

(*b*) List of apparatus for lecture purposes.

Miscellaneous; (partly for practical class).
Strong adjustable table.
Adjustable stands.
Bunsen's universal holder.
Ordinary wooden holders.
Set of wooden cubes.
Set of wooden cylinders.
Set of wooden discs.
2 Bunsen burners.
3 spirit lamps.
Glass flasks.
Glass burettes.
Glass funnels.
Glass beakers.
Cylindrical glass measures.
Glass tubing.
Indian rubber tubing.
Wire gauze, etc., etc.

Approximate cost Rs. 100.

General ideas:

Apparatus for illustrating the parallelogram of forces.
Inclined plane.
Pulleys.
Apparatus for demonstrating the laws of levers.
Model of screw and nut.
Atwood's machine.
Centrifugal machine.
Spring balance.
Pendulum for Foncault's experiment.
Model of hydrostatic press.
Apparatus to show the upward pressure of liquids.
Communicating tubes.
Apparatus for demonstrating the principle of Archimedes.
Hydrostatic balance.
Hydrometers.
Barker's mill.
Hydraulic ram of glass.
Magdeburg hemispheres.
Double globe for showing expansion of air.
Cylinder for showing the fall of bodies in a vacuum.
Baroscope.
Glass receivers.
Siphons.
Barometer tube.
Vacuum gauge.

Hero's fountain.
Model of a lifting pump.
Model of a force pump.
Model of a fire engine.

Approximate cost Rs. 500.

Heat:

Gravesande's ball and ring.
Pyrometer.
Apparatus for showing expansion of liquid bodies with heat.
Thermometers.
Air-bulb thermometer.
Boyle's law apparatus with air-bulb attachment.
Hope's apparatus.
Weight thermometer.
Apparatus for showing the elastic force of different vapours.
Apparatus for determining the boiling point of water.
Daniell's hygrometer.
Dine's hygrometer.
Simple apparatus for showing absorption and radiation of heat (Ritchie).
Leslie's cube.
Ingenhousz's apparatus.
Apparatus for showing the conductivity of liquids.
Apparatus for showing the convection of heat.
Leslie's differential thermometer.
Whirling table for boiling water by friction.
Model of a steam-engine.

Approximate cost Rs. 250.

Light:

Heliostat.
Attachment for same with adjustable slit and diaphragm.
Demonstration photometer.
Convex and concave lenses, mounted and unmounted.
Convex and concave mirrors.
Apparatus for showing laws of reflexion.
Angular mirror on graduated base.
Apparatus for showing refraction of rays in liquids.
Camera obscura.
Glass prisms.
Disc with spectral colours.
Carbon bisulphide prism.
Projection screens.
Model telescope and microscope.

Approximate cost Rs. 250.

Magnetism:

Two large bar magnets.
One large horse shoe magnet with armature.
Magnetic needle (large size) with agate centre and brass stand.
Dip needle.
Compass (larger size).
Steel knitting needles.

Approximate cost Rs. 25.

Frictional electricity:

Rods of sealing wax, sulphur, and guttapercha.
Catskin and fox-tail rubbers.
One rod, half glass and half brass.
Pith ball double pendulum.
Simple illustrative apparatus such as electric wire, electric chimes, etc.
Gold leaf electroscope (larger size) with condenser.
Insulating stool.
Discharger.
Faraday's ice pails.
Faraday's butterfly net.
Leyden jar with movable coatings.
Two ordinary Leyden jars.
Wire cage.
Hollow brass sphere on insulating stand.
Proof plane.
Distribution apparatus.
Electrophorus.
Frictional machine.
Voss's machine.

Approximate cost Rs. 250.

Dynamic Electricity:

Various forms of cells.
Oersted's apparatus.
Lecture galvanometer.
Mirror galvanometer.
Bichromate of potash or other battery for lecture experiments.
Binding screws and clamps.
Morse Key.
Commutator.
Apparatus for producing heat by an electric current.
Water voltameter.
Copper voltameter.
Ampere's apparatus for showing the action of magnets on currents and of currents on currents.
Electromagnets.
Apparatus for illustrating induced currents.
Small induction coil.

Approximate cost Rs. 250.

Sound:

Bellows with four valves.
Organ pipe with centre stop.
Organ pipe with movable piston.
Tuning forks with resonance box. Monochord.
Wave apparatus.
Sarvart's toothed wheel.
Siren.

Approximate cost Rs. 190.

B.—B.A. or B.Sc. Standard.

(*a*) List of apparatus for practical class of not more than 15 students (in addition to that for Intermediate course).

Workshop tools.
2 Callipers.
2 Screw-gauges.
2 Spherometers.
3 Sensitive balances in cases with sets of weights.
U-tube for relative densities.
Specific gravity bottles.
Hare's apparatus.
Apparatus for determining modulus of elasticity.
Pendulum for determining intensity of gravity.
Reversible pendulum.
Apparatus for measuring co-efficient of linear expansion.
Apparatus for determining co-efficient of expansion of a gas.
Apparatus for determining co-efficient of increase of pressure.
Additional Bunsen burners.
Specific heat apparatus.
Bunsen's ice calorimeter.
Latent heat apparatus.
Regnault's hygrometer.
Wet and dry bulb thermometer.
Apparatus for determining the velocity of sound by resonance.
Optical and photometric bench with accessories.
Spectrometer.
Spectroscope.
Deflection magnetometer.
Vibration magnetometer.
Spring magnetometer.
Dip needle for accurate measurement.
Tangent galvanometer.
Cheap post office resistance box.
Set of resistance coils.
Simple potentiometer.
Air pump.
Copper wire.

Approximate cost Rs. 1,200.

Additional apparatus for Honours Course—

Apparatus for determining Young's modulus for bending.
Apparatus for measuring surface tension.
Apparatus for determining moments of inertia.
Apparatus for determining the co-efficient of expansion of liquids.
Dumas' apparatus for vapour density.
Victor Meyer's ditto.
Kundt's tube.
Small microscope.
Diffraction gratings.
Joule's calorimeter.
Silver voltameter.
D'Arsonval galvanometer and scale.
Additional resistance box.
Platinum wires and stand for spectroscopic work. Also reagents for same.

Approximate cost Rs. 400.

(*b*) Lecture apparatus :

Miscellaneous :

Large projection lantern.
Apparatus for projection of horizontal objects.
Large projection screen.
Bunsen's universal holder.
Water bath.

Approximate cost Rs. 250.

General ideas ;

Apparatus for the production of stationary waves.
Apparatus showing the interference of waves.
Soap film frames.
Capillary tubes with stand.
Capillary plates.
Cohesion plates for suspension from a balance.

Approximate cost Rs. 60.

Heat :

Breguet's metal thermometer.
Joule's apparatus for showing contraction of a stretched india-rubber tube by heat.
Senarmont's apparatus for showing conductivity of crystals.
Right angled bent glass tube for showing the circulation of water.
Davy's safety lamp.
Apparatus for showing the difference in the expansibility of various liquids.
Gay-Lussac's apparatus for proving Dalton's law.
Papin's digester.
Apparatus to show boiling at low pressure.
Wollaston's cryophorus.
Pulse glass.
Arrangement for melting an ice block by means of a loaded wire.
Melloni's apparatus for illustrating radiation, absorption and reflection of heat.

Approximate cost Rs. 400.

Light :

Apprratus for showing total reflexion.
Right-angled crown glass prism.
Pair of achromatic prisms on stand.
Prism with adjustable angle for liquids on stand.
3 small direct vision spectroscopes.
Phosphorescent substances.
Model of the eye.
Stereoscope with pictures.
Absorption trough.
2 Prismatic troughs.
Chart of various spectra.
Fluorescent liquids.
Cubes of uranium and fluorspar.

Lantern slides illustrating various optical effects.
Model of sextant.
Small telescope.
Fresnel's mirror.
Fresnel's biprism.
Diaphragm with various apertures for showing diffraction.
Norrenberg's polariscope.
Set of preparations for use with the same.
Tourmaline tongs.
Rhomb of Iceland spar.
Newton's colour rings.
Nicol's prism.

Approximate cost Rs. 550.

Sound:

Burner for sensitive flames.
Glass bell on stand for showing nodes.
Chladni's plate.
Trevelyan rocker.
Chemical harmonicon.
Manometric jet.
Revolving mirror on stand.
Additional organ pipes.
Pipe with free reed.
Pipe with striking reed.
Set of resonators.
Interference tube.
Airy's double pendulum.
Chronographic tuning fork.
Small phonograph.
Telephone receiver.
Microphone.

Approximate cost Rs. 350.

Electricity and Magnetism:

Condenser.
Additional illustrative apparatus in frictional electricity.
Voltaic pile.
Dry cells.
Storage cells.
Lecture-room ammeter.
Lecture-room voltmeter.
Simple galvanoplastic apparatus.
Large electro-magnet.
Morse telegraph.
Barlow's wheel.
Lecture apparatus for showing rotation of magnets and currents under electro-magnetic forces.
Arago's apparatus for showing induced currents.
Model of a Gramme ring.
Small dynamo with hand wheel.
Small model motor.
Induction coil giving 3 to 4 inch spark.
Vacuum tubes.
Crookes' tubes.
Seebeck's thermo-electrical apparatus.
Thermo-electric pile.

Approximate cost Rs. 675.

C.—M.A. OR M.Sc. STANDARD.

For this standard there must be a complete collection of apparatus for advanced practical work.

(a) Optics.—The equipment of the optical room shall include instruments for accurate measurement such as spectroscopes, spectrometers, polarimeters, optical bench, refractometers, reading microscopes, etc. Probable minimum cost Rs. 3,000.

(b) Electricity and magnetism.—The electrical room shall be fitted with sensitive mirror galvanometers and there shall be an adequate supply of instruments for electrical and magnetic measurement, *i.e.*, resistance boxes, galvanometers, electrometers, magnetometers, standard resistances, standard capacities, standard cells, etc., besides auxiliary apparatus such as an induction coil with 8-10 inch spark, a powerful electromagnet, electric motors, etc.

Probable minimum cost Rs. 3,500.

An accumulator battery shall form part of the electric installation, if any.

(c) Heat.—Additional apparatus for accurate work in calorimetry, thermometry, conduction, radiation, expansion, etc.

Probable minimum cost Rs. 2,000.

(d) General Physics and Sound.—Additional apparatus for accurate work in elasticity, vapour, density, capillarity, fluid friction, etc., and sound.

Probable minimum cost Rs. 1,500.

(e) Workshop equipment including lathe.

Probable minimum cost Rs. 350.

PHYSIOLOGY.

A.—INTERMEDIATE STANDARD.

(a) *List of apparatus, etc.*, for practical class of 24 students:

Microscopes one doz.
Dissecting instruments and razors, etc.
Gas burners (Bunsen) 1½ doz.
Test tube stands, 1½ doz.
Retort stands with rings, etc., 1 doz.
Glass bottles, etc.
Thermometers 1 doz.
Test tubes and glass beakers.
Glass flasks and measures.
Glass tubing and rods and funnels.
Porcelain crucibles, etc.
One balance.
One Microtome (Ice-freezing).
One Hæmocytometer (zeiss).
One Hœmoglobinometer (Gower's).

Approximate cost Rs. 1,650.

(*b*) *List of apparatus and appliances for Lecture-purpose.*

One Human Skeleton.

Set of 50 diagrams (3′ × 2′).

Ordinary apparatus and appliances for illustrating lectures on chemical Physiology.

One simple recording drum (with clock work).

One time-marker.

One muscle-lever myograph.

Two simple stands for do.

One induction coil.

Two electric keys.

One commutator.

Four bichromate cells.

Insulated wire 1 lb. (22 B. W. G.)

Muscle-weights 1 set.

One Sphygmograph.

One Marey's tambour.

One Marey's cardiograph.

One Model of eye (dissectible).

One Phakoscope.

One Model of ear (dissectible).

One Spectroscope (straight vision).

Approximate cost Rs. 850.

B.—B.A. or B.Sc. Standard.

(*a*) *List of apparatus, etc., for practical class of 12 students.*

Additional requirements :

1 Rocking Microtome.

Micrometers (eye piece and stage).

3 Doremus Ureometers.

1 Chemical Balance.

1 Embedding bath (Hearson's).

3 Tetanus springs (graduated).

1 Hypodermic syringe.

1 Mercury Pump for gas analysis.

2 Desiccators.

3 Soxhlet apparatus with Liebig condenser.

1 Centrifugal machine.

1 Water bath (copper).

1 Air pump.

The following set of apparatus required for every couple of students :

1 Recording drum.

1 Simple muscle-lever.

1 Crank myograph.

1 Simple stand.

1 Du Bois Raymond's induction coil.

2 Electric keys.

1 Pohl's commutator.

1 Simple rheocord.

2 Pairs of platinum electrodes.

1 Bichromate cell.

1 Muscle weights.

1 Time-marker.

1 Spectroscope (straight vision).

1 Esbach's albuminometer.

1 Urinometer.

Approximate cost Rs. 2,750.

(*b*) *List of apparatus, etc., for lecture purpose.*

Additional requirements :

1 Kronecker's perfusion canula.

1 Rabbit holder.

1 Adjustable simple stand.

1 Tuning fork (on stand) making 10 D. V. per second.

1 Tetanus spring (graduated).

1 Metronome.

1 Deprez chronograph.

2 Pairs of nonpolarisable electrodes.

1 Pair of muscle forceps.

1 Ophthalmoscope.

2 Electrodes (shielded) for deep nerves.

1 Hill and Bernard's sphygmometer.

1 Stromuhr (Ludwig's).

1 Hurthle's membrane manometer.

1 Ludwig's mercury manometer.

1 Laryngoscope (with throat mirrors).

1 Fleischl's hæmometer.

1 Oliver's hæmocytometer.

1 „ hæmoglobinometer.

1 Moist chamber.

1 Onkometer for kidney.

1 Reflecting galvanometer.

1 Shunt.

1 Spring myograph.

1 Spectroscope.

1 Saccharimeter (polariscope).

Approximate cost Rs. 2,000.

C.—M.A. or M.Sc. Standard.

Practical Laboratory.

(*a*) *Histology :*

	Rs.
Approximate cost of equipment for 6 students	2,400.

(*b*) *Chemical Physiology:*

	Rs.
Appproximate cost of equipment for 6 students	1,800

(*c*) *Experimental Physiology:*

Approximate cost of equipment for 6 students	3,000

(*d*) *Galvanometer and Optical work:*

Approximate cost of equipment ...	1,200

BOTANY.

A.—INTERMEDIATE STANDARD.

(*a*) *Collections and Wall Diagrams:*

Collection of microscopic slides.
Botanical Wall pictures (complete set).
Botanical models.
Physical Wall maps, Mercator's projection.
Physical Geography Wall Map of India.
Collections of diapositives.

Approximate cost Rs. 750.

Lecture-room apparatus.
Projection apparatus.
Screen.

Approximate cost Rs. 400.

List of apparatus for class of 24 students.

(*c*) *Practical Class:*

Microscopes 1 doz.
Dissecting instruments.
Cork-borers.
Crucible tongs, 4 in number.
Hempel's desiccator, 2 in number.
Two doz. drop-bottles.
Canada Balsam bottle, 1 doz.
Glass tubing.
Glass rod.
Standard measures, of different capacities.
Graduated measures.
2 Rules, 1 meter long.
Mortars and pestles.
Pipettes.
Air-pump plate.
Pressure tubing.
Flasks of different capacities.
Funnels of different sizes.
Burners.
Rubber tubing.
Test tube.
Test-tube stands, holders, cleaners.
Thermometers.
Woulff's bottles.
Burettes.
Burette stands.
Three double belljars.
Stoppered belljars.
Beakers in nests.
Aspirators, 5 litres cap., three in number.
Corks.
Maps, 1 doz.
Draining rack.
Pieces of cork sheet, weighted.
Glass capsules.
Camel hair brushes.
Bell jars for microscopes.
One Balance and weights.
Staining troughs.
Glass bones.
Filter paper.
Arc-indicator.
Stains and chemicals.
Flower-pot (Rs. 20).

Approximate cost Rs. 2,400.

B.—B.A. OR B.Sc. STANDARD.

(*a*). *List of apparatus, etc., for practical class of 12 students:*

Additional requirements:

1 Rocking microtome.
1 Embedding bath.
1 Water bath (copper).
1 Incubator.
2 Spectroscopes (direct vision).
6 Belljars with double walls.
1 doz. Potash bulbs.
½ doz. Poroscope (Christiani's).
1 Centrifugal machine.
½ doz. Bichromate cells.
2 doz. Porcelain trays.
½ doz. Thermometers.
½ doz. Pfeffer's apparatus (to show movement of gases in plants).

Approximate cost Rs. 600.

4. *Apparatus and Appliances for lecture purpose:*

Additional requirements:

Models and museum specimens.

1 Nitrometer.
1 Induction coil.
1 Moll's apparatus (for experimenting on assimilation).
1 Auxanometer.
1 Clinostat.
1 Potometer.

Approximate cost Rs. 750.

C.—M.A. OR M.Sc. STANDARD.

PRACTICAL LABORATORY.

(a) *Histological work :*

	Rs.
Approximate cost of equipment of 6 students	2,400

(b) *Experimental Plant Physiology :*

Approximate cost of equipment for 6 students	3,000

(c) *Bacteriological work :*

Approximate cost of equipment for 6 students	600

ZOOLOGY.

A.—INTERMEDIATE STANDARD.

(a) *List of apparatus for practical class of 20 students.*

5 Microscopes.

Dissecting instruments.

20 Troughs, fitted with cork, for dissecting small animals under water.

20 Dissecting trays.

Approximate cost Rs. 750.

(b) *List of apparatus for lecture purpose :*

Set of one hundred diagrams.

Skeleton of vertebrates (types).

Museum specimens of invertebrates.

Approximate cost Rs. 1,300.

B.—B.A. OR B.Sc. STANDARD.

(a) *List of apparatus for practical class :*

Microscopes 1 doz.

Slides, etc.

Dissecting troughs.

Dissecting trays.

Dissecting instruments.

1 Rocking microtome.

1 Embedding bath.

1 Hearson's incubator.

Approximate cost Rs. 1,700.

(b) *List of appliances for lecture purpose :*

Additional :

One hundred diagrams.

Skeletons and dissected specimens and models of vertebrates.

Museum specimens of invertebrates.

Microscopical specimens.

Approximate cost Rs. 3,000.

C.—M.A. OR M.Sc. STANDARD.

PRACTICAL LABORATORY.

(a) *Embryological and Histological work :*

	Rs.
Approximate cost of equipment for 6 students	3,000

(b) *Dissecting work :*

Approximate cost of equipment for 6 students	600

GEOLOGY.

A.—INTERMEDIATE STANDARD.

(a) *Maps :*

Geological Wall Maps of India.

Physical Wall Maps of Asia and Europe.

Physical Wall Maps of the World.

Approximate cost Rs. 150.

(b) *Collections :*

Collection of Minerals—Foote Mineral Company, Philadelphia, High School Collection, of specimens No. 13A. (or similar collection).

Collection of 102 glass crystal models, according to Professor Baumhoner. Dr. Krantz, Bonn (or similar collection).

Collection of 100 Rock specimens, according to Prof. Credner, 8·5 cm. × 11 cm. with paste-board boxes in wooden case. Dr. Krantz, Bonn (or similar collection).

Collection of corresponding Rock sections,—Dr. Krantz, Bonn (or similar collection).

Collection of minerals illustrating physical properties, 100 minerals, 5 × 6 cm. in paste-board boxes in wooden case. Dr. Krantz, Bonn, collection No. 70 (or similar collection).

Collection of Geotectonic models, of wood, according to Prof. Kalkowsky. Dr. Krantz, Bonn (or similar collection).

Collection of type fossils, 100 species.

Collection of Diapositives, to illustrate general Geology, according to Prof. van Calker. Dr. Krantz, Bonn (or similar collection).

Approximate cost Rs 1,300.

(c) *Lecture Room Apparatus :*

Projection lantern.

Demonstration Microscope.

Approximate cost Rs. 550.

(d) *Practical class Apparatus:*

Chemical balance with set of weights.

6 Students' balances, with weights

Jolly's spring balance.

6 Pyknometers.

Blowpipe set with reagents.

2 Zeiss' achromatic pocket lenses.

3 Scales of hardness.

Contact Goniometer.

Clinometer, Klockmann's model, manufactured by Fuess.

6 boxes of drawing instruments.

Swift's petrological microscope.

Approximate cost Rs. 1,200.

A.—B. A. or B. Sc. Standard.

(a) *Collections:*

The collections specified for the Intermediate Course should be amplified and supplemented by the following:

Blowpipe collection of 100 minerals

Collection of sections of minerals for the study of their special properties.

Collection of wooden crystal models.

Collection of diapositives illustrative of dynamic and structural geology.

Collection of specimens illustrative of dynamical, petrogenetic, and architectonic geology.

Approximate cost Rs. 2,500.

(b) *Lecture room Apparatus:*

Apparatus for use with the projection lantern for demonstration of interference phenomena, polarisation, double refraction, etc., with accessories.

Optical models illustrative of double refraction in crystals.

Approximate cost Rs. 800.

(c) *Practical Class Apparatus* (in addition to that for the Intermediate Course).

Four students' balances in cases (100 grammes size).

Four sets of gilt weights, fractional gramme weights of aluminium.

Open beam balance carrying 1,000 gr.

Set of weights, up to 1,000 gramme, nickelled.

Specific gravity bottles, 50 grammes with perforated stoppers.

Becker's specific gravity balance for liquids and solids.

Scales of hardness.

Zeiss' achromatic pocket lenses, metal mounting, ×6 and × 10 (3 of each).

One additional contact goniometer.

One additional Swift's petrological microscope.

*Reflexion goniometer.

Polarising microscope.

Dichroscope.

Chemicals.

Chemical apparatus, for chemical mineralogy and geology.

Geological hammers, chisels, small rock-grinding apparatus.

Six blowpipe sets with reagents.

Approximate cost Rs. 2,000.

C.—M.A. or M.Sc Standard.

No additional apparatus will be necessary for the standard.

EXPERIMENTAL PSYCHOLOGY.

A.—B.Sc. Standard.

Models and charts for anatomical and physiological demonstrations:

Plastic Model showing the cerebral masses on one hemisphere, and the nerve fibres on the other.

Plastic model of cerebellum and spinal cord.

Set of wax models (or collection of charts) showing the development of the fœtal brain.

Charts showing brain-sections and stereoscopic views of the central nervous system.

Charts showing development of brain from gymnotus to mammal.

Plastic model of the eye, showing muscles, nerves, vessels, etc.

Plastic model of the ear, showing the internal, middle and external ear.

Charts showing the anatomy of nerves and sense-organs.

Artificial eye.

Phacoscope for demonstrating accommodation of lens.

Opthalmotrope demonstrating movements of the eye.

Apparatus for experimental study of sensations:

Olfactometer, with accessories.

Harmonical.

Fonometer.

Tuning forks. Resonators.

Quincke's tubes.

Organ pipes.

Sonometer.

Apparatus for testing the appreciation of difference in musical pitch.

Piston whistle.

Savart's toothed wheel.

Colour Mixer with rotating discs.

Campimeter. Colour discs.

Simultaneous contrast apparatus, with two prisms for binocular or monocular investigation.

Helmholz's contrast discs.

Apparatus for colour after-images.

Perimeter (with charts).

Spectroscope.

Glass prism.

Sets of spectacles.

Bi-convex lens.

Magnifying mirror.

Prismatic spectrum charts.

Temperature cylinder.

Pressure point.

Pain point.

Apparatus for testing appreciation of weight.

Dynamometer.

Apparatus for studying Perception, and estimation of spatial and temporal magnitudes :

Harmonica.

Metronome with bell.

Instrument for investigating the power of the eye to compare lengths.

Instrument for estimating the divisions of a line.

Stereoscope screens for Donders' and Listing's laws.

Stereoscope with slides.

Pseudoscope.

Set of charts with optical illusions.

Instrument for studying the muscle sensations and tactile space.

Apparatus with electric contacts for studying the time sense.

Sound hammer for experiments on time sense.

Time Measurement of Mental Phenomena :

Kymograph with accessories.

Tambour with writing point.

Time marker.

Writing tuning forks.

Vernier chronoscope (with accessories).

Stop watch giving fifths of a second.

Reaction time pendulum.

Flash light instrument with electric contact.

Touch reaction instrument.

Electric key.

Chain reaction instrument.

Discs for chain-reaction instrument.

Apparatus for Studying Association, Attention, Discrimination, Memory, Will, etc.

Material for studies in association (photographs, etc.).

Instrument for studies in association and memory.

Instantaneous shutter for association experiments.

Puzzle pictures.

Masson's disc.

Tachistoscope.

Psychodometer.

Ergograph.

Automatograph.

Technical outfit :

(*a*) Optical and measuring instruments :

Photometer.

Microscope.

Photographic camera.

Reading glasses.

Cardboard and gelatin paper of various colours.

Thermometer (finely graded).

Aerometer, measuring tubes for liquids, pipettes, etc.

Mathematical drawing instruments.

Apothecary scale with weights.

(*b*) Electric apparatus :

Leclanché cells.

Grove cells.

Induction coil.

Electro-magnet.

Galvanometer with mirror.

Electrodes, electrical connection and wires.

(*c*) Miscellaneous :

Surgical outfit (scissors, forceps, etc.).

Set of carpenter's tools.

Glass apparatus (tubes, rods, jars, funnels, etc.).

Metal stands and rods.

Rubber tubes, rubber bands, rubber atomisers, etc.

Brass and copper sheets, nails, screws, hooks, etc.

Drawing materials, paper, coloured papers, etc.

Smell and taste solutions.

B.—M.A. and M.Sc. Standard.

In addition to the apparatus required for the B.Sc. standard, the following :

Models and charts for anatomical and physiological demonstrations :

Clastic model showing the course of the nerve-fibres throughout the encephaeic mass.

Model showing the convolutions, the median section and the horizontal section.

Model of various heads showing the brain.

Model showing mechanism of the ear.

Apparatus for experimental study of sensation:

Differential Sonometer.

Siren.

Electric bells.

Electric phonometer.

Instruments for successive contrast and irradiation.

Apparatus for diagnosing colour blindness.

Apparatus for appreciation of colour.

Micrometer Shutter for studying minute fields of colour.

Perception, and estimation of spatial and temporal magnitudes:

Instrument for estimating angular divisions.

Mirror pseudoscopes.

Set of instruments for studying space in co-ordinated movements of both arms.

Time Measurement of Mental Phenomena:

Chronoscope measuring the hundredth part of a second.

Machine for measuring reaction-time by a falling rod.

Drop window for the sudden exposure, of colours, numbers, etc.

Telegraph keys with sounder.

Reaction key with buttons.

Association, Attention, Discrimination, Memory, Emotion, Will, etc.:

Instrument for studying the complication of perceptions.

Instrument for studying the movements during the emotions (by Elbs, Freiburg).

Myograph, Sphygnograph, Pneumograph.

GEOGRAPHY.

INTERMEDIATE STANDARD.

I.—*Teaching and Demonstration.*

A.—General:

Terrestrial Globe. Wall-maps (continents and principal Political Divisions) Magic Lantern with slides. Large atlas.

Stereoscope with slides illustrative of Descriptive Geography (principal countries of the world, with interesting scenes and monuments.)

B.—Special:

(*a*) Mathematical (or Astronomical) Geography:

An orrery. Diagrams and magic lantern, slides illustrative of the solar system and its configuration, changes of the seasons, varying lengths of day and night, solar and lunar eclipses, phases of the moon tides.

Diagrams showing relative local time for principal cities.

Tables of latitude and longitude.

Stellar chart for identifying the pole star and chief circumpolar constellations.

(*b*) Orographical and Hydrographical wall maps for studying distribution of land and water:

Maps showing contour of the land, and principal mountain systems, lines of drainage, water basins, river systems and deltas.

Relief map of India.

Ocean charts showing ocean depths and contour of the ocean-floor, ocean currents with surface temperature, coral and other reefs, ocean-deposits.

Maps of Arctic and Antarctic Regions.

(*c*) Stratigraphical charts and Diagrams:

Diagrams explaining varieties of stratification. Section of a coalfield in Bengal.

Geological Survey map of India.

(*d*) Botanical and Zoological charts:

Charts showing the distribution (1) of plants; (2) of Animals.

(*e*) Ethnographical and demographical wall maps showing the distribution of Man and his industries:

Anthropological charts showing the distribution of the Races of Man. Stereoscopic and lantern slides showing chief racial types. Maps showing the distribution of (1) mineral products, (2) vegetable products, including food-stuffs (India).

Map showing Railway Lines (India).

Maps showing ports and harbours—ocean highways.

(*f*) Statistical charts and diagrams more especially with regard to India.

II.—A small collection of the chief minerals and economic products of India.

III.—*Practical Course.*

A.—Cartography, drawing plans and maps, projections. Orientation and determination of latitude, and modelling in sand and clay.

Two sets of the following appliances for a class of 20 students:

Drawing Materials and Instruments with special reference to Cartography.

Measuring Tape and Chain.

Mariner's Compass.

Magnetic Needle.

Spirit-level and Plumb line.

Clinometer.

Clay-modelling tool—palette knife.

Magnifying Lens.

B.—Meteorological observations:

One set of the following instruments for a class of 20 students.

Two ordinary thermometers.

Maximum and Minimum thermometer.

Thermometer screen.

Barometer (with vernier and thermometer).

Dry-and-wet bulb thermometer.

Hygrometric Tables.

Rain gauge.

Wind-direction. Compass-card and wind vane.

C.—Meteorological charts (with Meteorological tables, where necessary) for studies in atmospheric distribution.

(*a*) Curves showing annual and diurnal ranges of temperature, and of pressure (for typical localities, including Calcutta and London).

(*b*) Isothermal lines showing the mean temperature of the globe (1) for the year, (2) in January and (3) in July.

(*c*) Lines showing the mean barometrical pressure and the prevailing winds of the globe, (1) for January, (2) for July.

(*d*) Lines showing periodical winds (including the monsoon).

(*e*) Simple diagrams showing the direction of gyratory movements of the wind in the Northern and the Southern Hemisphere.

(*f*) Weather charts, isobars, gradients, areas of depression and their shiftings. Tracks of cyclones north and south of the Lines.

(*g*) Rainfall chart for the globe.

Rainfall chart for India.

Chart showing monthly rainfall for Calcutta and London.

(*h*) Daily weather chart for Calcutta.

CHEMISTRY.

A.—Intermediate Standard.

Practical List of apparatus for 20 students, working in pairs.

	Quantity.
Aspirator, 10 litre capacity ...	2
Balance, with agate knife edges and planes, graduated beam, beam support, thick glass vessel, double hook and polished mahogany stool for specific gravity experiments, to carry 250 gms., sensitive to 1 mg.	4
Analytical weights, ·001 to 100 gms.	4 sets
Dispensing scales with weights ...	1
Basin, evaporating, Royal Berlin	1 doz.
Porcelain, with spout, capacity 80 cc.	
Ditto ditto 100 cc.	2 doz.
Ditto ditto 300 cc.	1 doz.
Sand bath deep spun, etc., diam. 10 cm.	1 doz.
Steam bath (to be made locally).	
Beakers, Bohemian glass, without lip, capacity 90 cc.	1 doz.
" 140 cc.	2 doz.
Beaker, Jena glass, no. 2, capacity 150 cc.	1 doz.
" " " 6 " 500 cc.	1 doz.
Foot blower, size no. 3	2
Extra rubber discs for no. 3 ...	4
Extra nets	2
Blowpipe, kerosine (Dr. Richardson's)	1
Blowpipe, Universal, with ball socket movement.	2
Mouth Blowpipe, nickel-plated ...	1 doz.
Bottles, best Bohemian glass—	
N. M., without stopper, 150 cc. ...	6 doz.
N. M., flat stoppered, for reagents with carefully ground stoppers, capacity 60 cc.	6 doz.
" " " " capacity 150 cc.	1 gross.
" " " " capacity 250 cc.	2 gross.
Bottles, W. M., flat stoppered, capacity 60 cc.	6 doz.
" " " capacity 225 cc.	6 doz.
Woulff's bottles with two necks, one in centre and one on shoulder, capacity 250 cc.	2 doz.
Burettes with stopcocks (c. form) lateral, normal, calibrated 50 cc. × $\frac{1}{10}$.	1 doz.
Bunsen burner with air regulator, diam, 1 cm.	2 doz.
Star support for the above ...	1 doz.
Chimney, conical for the above ...	1 doz.
Blowpipe jet for the above ...	1 doz.
Bench light burners for bending glass tubes.	6
Fletcher's safety, Bunsen, no. 10 ...	3
Cylindrical cans for boiling water, condensers, Liebig's, inner tube fitted with I. R. cork, 40 cm.	½ doz.
Connectors, double (for batteries) ...	2 doz.
Corks, finest quality, 23-25 mm. long, 2 mm. taper, diam. of top 16 mm.	6 doz.
Ditto ditto 20 "	1 gross.
Ditto 32 mm. long, bead measure 30 mm.	1 gross.
Ditto ditto ... 40 mm.	4 doz.
Ditto ditto ... 50 mm.	2 doz.
Corks, India Rubber, best quality, red—	
Size 1, diam. of bottom 13 mm., top 16 mm.	2 doz.
" 3-A ditto 25 " " 29.	2 doz.
" 5 ditto 29 " " 35.	2 doz.
Cork borers, of brass tube with rod, nickel plated, in sets of 3.	1 doz. sets.

	Quantity.
Cork borers, of brass tube with rod, nickel plated, in sets of 12 ...	2 sets.
Cork pressers, cast iron, heavy 25 cm. long.	2
Covers for beakers, concave (clock glass), diam. 7½ cm.	2 doz.
Crucibles, Berlin Porcelain, with cover, no. O, 14 cc.	2 doz.
Crystallizing dishes, flat bottom, with spout, 5 cm. deep, 10 cm. diam.	2 doz.
Desiccators, Scheibler's, with ground glass cover, 15 cm. diam. of top.	4
Desiccator discs, perforated circle of Berlin Porcelain to fit above, 11 cm.	4
Files, round, 13 cm. long, without handles.	1 doz.
Files, triangular, 13 cm. long, without handles.	1 doz.
Filter discs, perforated, Berlin Porcelain for use in funnels, true circular 64 mm. diam.	4
Filter papers, Schleicher and Schüll, cut circular, no. 595, for qualitative work, diam 9 cm.	1,000
Ditto ditto diam 11 cm.	1,000
Flasks, Bohemian, flat bottom, capacity 200 cc.	1 doz.
" " " capacity 500 cc.	2 doz.
" " round bottom, capacity 200 cc.	1 doz.
" " " Jena glass, short neck 500 cc.	1 doz.
Flasks with side tube from neck, straight, 200 cc.	1 doz.
Flasks, Jena glass, conical, Erlenmeyer's, capacity 200 cc.	1 doz.
Measuring Flasks, standard, gauged at one mark, stoppered neck, 250 cc.	1 doz.
" " 1,000 cc.	1 doz.
Funnels, Bohemian glass, with ground edges, sides inclined at 60° plain, diam. 6 cm.	1 doz.
" " " 8 cm.	1 doz.
" " " 19 cm.	4
" " " ribbed 8 cm.	6
Safety funnels with long tube for fitting up gas flasks, etc., thistle head, 32 cm. long.	1 doz.
Safety funnels, with long tube, etc., with bend and one bulb, thistle head, 30 cm.	½ doz.
Gas jars, cylindrical with ground flange, Bohemian glass, 21 × 4 cm.	1 doz.
" " 32 × 5 "	1 doz.
Ground glass discs, diam. 5 cm. ...	1 doz.
" " 6 " ...	1 doz.

	Quantity.
Graduated gas jar with spout on glass foot, scale descending capacity 100 cc.	4
" " " 500 cc.	4
Kipp's Apparatus, bulb 100 cm. diam.	3
Magnets	12
Mortars and Pestle	12
" " iron	1
Pinch Cocks	12
Pipettes, 5 cc.	12
" 10 "	12
" 25 "	12
Platinum foil, ·01 mm. thick ...	5 gms.
" wire, ·25 mm.... ...	5 gms.
Pliers, steel	2
Apparatus for showing diffusion ...	1 set.
Retorts, 70 cc.	1 doz.
Retorts, 150 cc.	1 doz.
Retort stand	12
Clamps for flasks	12
Glass rods	½ kgm.
Boxwood rulers	2
Deflagrating spoons	6
Iron spoon for burning phosphorus ...	6
Test tube, thin glass	4 gross
Boiling tubes	4 doz.
Test tube brushes	12
Test tube stands	12
Thermometers up to 200° c. ...	6
" " 360° c. ...	6
Crucible tongs	1 doz.
Graduated glass tubes	4
Pneumatic troughs ...	1 doz.
Glass tubing	3 kgm.
Combustion quills	1 kgm.
Jena glass combustion tubes ...	2 kgm
I. R. tubing, best, int. diam. 4 mm.	12 yds.
" " " 10 " ...	24 yds.
Watch glass	2 doz.

To be purchased locally.

Wire gauze, iron, 40 holes to an inch	...
" copper, 40 holes to an inch	...
Wire, iron	...
" copper	...
Tripods	1 doz.
$CaCl_2$ tubes	1 doz.

Reagents for practical class of 20 students.

	Approximate quantity required.
List of chemical apparatus for Lecture work. Intermediate examination.	
Evaporating Basin of aluminium, fig. 3, strong, polished, pure 10 cm. diam. with spout.	1
Ditto of "R" Resistance glass, with spout, 70 mm. diam.	6
Ditto Royal Berlin Porcelain with spout, glazed inside and out—	
No. 00 capacity 50 cc. ...	6
" 1 " 100 " ...	6
" 2 " 140 " ...	6
" 4 " 200 " ...	6
Ditto glazed inside and partially outside—	
No. 5 capacity 300 cc. ...	3
" 6a " 535 " ...	2
" 7 " 765 " ...	2
Beakers, Bohemian glass without spout—	
No. 0 capacity 50 ccm...	6
" 1 " 90 " ...	6
" 2 " 140 " ...	6
" 3 " 200 " ...	6
" 4 " 325 " ...	6
No. 9, 2 litres capacity ...	2
Beakers of Resistance "R" glass wide shape, with spout—	
No. 1 capacity 150 cc. ...	6
" 2 " 200 " ...	6
" 3 " 300 " ...	6
" 4 " 500 " ...	6
" 5 " 750 " ...	6
" 6 " 1000 " ...	3
Covers for Beakers, gas jars, etc., ground one side glass circle—	
diam. 5 cm. ...	3 doz.
" 7½ " ...	3 doz.
" 10 " ...	3 doz.
Ditto with hole in centre—	
diam. 7½ cm. ...	1 doz.
" 10 " ...	6
Ditto concave (clock glasses)—	
Diam. 6½ cm. ...	2 doz.
" 9 " ...	1 doz.
Tripods, with circular top and iron legs—	
Height 15 cm. ...	6
" 18 " ...	6
Sand bath dishes, shallow, stout, sheet iron, flat bottom, 10 cm diam.	3
Asbestos mill board, thickness of sheet $\frac{1}{16}$ in., weight per sheet 40 × 40 in 4 lbs.	4 lbs.

	Approximate quantity required.
Asbestos yarn, ½ in diam. ...	1 lb.
Bench light, Batswing burner, height 30 cm.	2
Flat flame, Bunsen burners for bending glass and heating tubes, length of opening at the mouth 15 cm.	1
Bunsen gas burner with air regulation	6
Rosetop for ditto ...	8
Star support for chimneys ...	4
Iron chimneys, conical ...	4
Blowpipe jets ...	4
Teclu gas burner, large size ...	2
Head Fig. A to fit ditto ...	2
" " B " ...	2
" " C " ...	2
Chimney with clamping screw ...	2
Fletcher's safety, Bunsen, No. 5 ...	2
Spirit lamps with extra neck, capacity 120 cc.	6
Flasks, Bohemian, flat bottom—	
Capacity 75 cm. ...	1 doz.
" 175 " ...	1 doz.
" 250 " ...	1 doz.
" 400 " ...	1 doz.
" 500 " ...	1 doz.
" 750 " ...	1 doz.
" 3 litres ...	4
Flasks, 500 cc. ...	6
Flasks of Resistance "R" glass—	
Shape D, capacity 78 cc. ...	1 doz.
" " 250 " ...	1 doz.
" " 500 " ...	1 doz.
" " 750 " ...	6
" " 1000 " ...	4
" " 1500 " ...	3
Shape D, of extra hard glass for preparing Oxygen round bottom—	
Capacity 150 cc. ...	1 doz.
" 250 " ...	6
Capacity of "R" Resistance glass, Erlenmeyer's, capacity 200 cc.	6
Bolt head flask, 3,000 cc. capacity ...	2
Retorts, stoppered, &c.—	
Capacity 150 cc. ...	1 doz.
" 250 " ...	1 doz.
Receivers, with three necks, capacity 3 litres.	2
Retorts, without tubulure and stopper, capacity 250 cc.	6
" " " " " capacity 500 cc.	6

Decomposition of water app. complete.	1
Ozone apparatus	1
Grove's battery, etc., set of six ...	1 set.
Connectors, double, large S. W. G. ...	1 doz.
Copper wire, silk covered, double ...	1 lb.
Induction coils, Ruhmkorff's with Ruhmkorff's commutator, length of spark 75 mm., No. 9.	1
Apparatus to determine the proportion by vol. of elementary gases contained in one vol. of HCl with metal stand.	1
Apparatus for vol. analysis of ammonia by chlorine and hypobromide of sodium.	1
Apparatus to show that 3 vols. of H. combine with one of N. to form 2 vols. of NH_3 with stand.	1

	Approximate quantity required.
Apparatus to demonstrate that H and Cl combine to form HCl without alteration of vol.	1
Apparatus to show that HCl is produced by the combination of one vol. of H with one of Cl.	1
Apparatus to prove that water contains two vols. of H. and one of O (both limbs graduated).	1
Apparatus for the decomposition of HCl, carbon electrodes.	1
Ironstand for the above ...	1
Apparatus to illustrate the effect of Ptt. complete.	1
Apparatus for the determination of volumetric composition of NH_3.	1
Apparatus to illustrate that when H and O combine to form water, the vol. measured at 100° is reduced by $\frac{1}{3}$.	1
Iron tripod support for condenser ...	1
Stand	1
Apparatus for the decomposition of steam by sparking.	1
Apparatus to show that O has the same vol. as the CO_2 and SO_2 produced from it.	2
Stands for the above	2
Apparatus for producing Nitric peroxide from air.	2
Apparatus to show the phenomena of diffusion complete with stand.	1
Apparatus for obtaining equal vols. of Cl and H by electrolysis.	1
Atomic weight chart	1
Woulff's bottles with two necks, 250 cap.	6
" " " " " 500 cap.	6
Apparatus for illustrating Boyle's Law	1
Cast iron bottles with screwed stopper for basting when frozen.	
Charles Schleicher and Schüll's No. 595 Filter paper in sheets of 47 × 54 cm.	100

Steam bath ...
Air bath ...
Sieves ...
Iron wire gauze...
} Approximate cost Rs. 1,800

Reagents, etc., for Lecture room—

Approximate cost ... Rs. 200 (one year's supply).

B.—B.A. or B.Sc.

(a) *Practical (in addition to the intermediate standard apparatus).*

	Approximate quantity required.
Basins of lead with round bottom with spout 7½ cm. diam.	4
Air bath.	
Steam bath.	
Crucibles, fire clay triangular ...	12
Covers for above	12
Crucibles and cover of platinum ...	1
Flask, Bohemian, flat bottomed capy., 200 cc.	6
Kjeldahl Flask, round bottom, long neck, cap. 300 cc.	2
Conical flasks, 400 cc. ...	1
Hot water funnels of copper with glass funnel.	2
Separatory funnels	2
Schiff's nitrometer	1
Filter pumps	2
Specific gravity flasks with perforated stopper.	3
Pipe clay triangle	12
$CaCl_2$ tube	12
Barometer tubing	1 K
V. Meyer's vapour density apparatus.	2
Outer bulb tube for above ...	2
V. Dy. flasks, small	6
Will and Varrentrap's bulbs ...	2
Combustion furnace	1
Platinum crucible	5

Approximate cost Rs. ... 300.

Reagents for practical class of 15 students.

Approximate minimum cost Rs. 350. (one year's supply).

(b) *List of apparatus for Lecture work (in addition to that for the Intermediate standard).*

Nickel basin, 10 cm. diam. (weight 9 oz. troy).	1
Platinum basin with spout, 70 cc. cap.	1
Water bath, enamelled iron with tripod stand, diam. 16 cm.	1
Flasks, conical, Jena glass, Erlenmeyer's— Cap, 200 cc. ...	6
" 300 " ...	6
Distillation flasks, 100 cc. ...	2
250 " ...	3
500 " ...	2
Fractional distillation tube with two bulbs.	1
Fractional distillation tube, 30 cm. long	1
" " " cap. ½ litre	3

	Approximate quantity required.
Receivers with three necks, 1½ litre ...	3
Crucible and cover roses with gas leading tube.	3
Crucible and cover of platinum, cap. 35 ccm.	1
„ of copper with cover diam. 8 cm.	2
„ „ „ „ „ diam. 12 cm.	2
Pipe clay triangles ...	1 doz.
Crucible, No. D., 10 cm. high ...	2
Covers for the above ...	2
Tongs, nickel-plated, 20 cm. long ...	4
„ for picking up mercury ...	1
Potash bulb, Geissler's ...	2
„ „ „	2
„ Will and Varrentrap's ...	2
Kjeldahl flasks, 300 ccm. capy ...	3
The pear-shaped glass heads with safety trap.	2
Nitrometer, Schiff's	1
„ graduated tube, 50 ccm. in. 1/5	1
Cairns' Furnace ...	1
Cupels of boneash, No. 3·25 mm. diam.	1 doz.
Apparatus for superheated steam, length of body 80 cm.	1
Liebig's condensers, total length 105 cm.	2
Anschutz, Thermometers Nos. 1-5 ...	1 set.
Beckmann's Thermometer, Range of Scale 6° in $\frac{1}{100}$° C.	1
Manometer	1
Standard Barometer	1
Dialysers, Bellshaped glass diam. 10 cm	2
Dialysis paper 21½ ...	1 dz. sq.
Pfeffer's apparatus capy. 150 cc. ...	1
Melting point apparatus ...	1
Apparatus for the preparation of acetylene from H and C.	1
Acetylene gas apparatus ...	1
Vapour density bulbs 400 cm. capy. ...	3
Dumas' Bath with holder ...	1
Vapour density apparatus, V. Meyer's with modified fall arrangement.	2

	Approximate quantity required.
Small stoppered bottles ...	6
Outer bulb ...	2
Beckmann's depression of freezing point apparatus, complete set.	1 set.
Beckmann's Boiling point apparatus Boiling flask.	1
Steam jacket porcelain.	
Thermometer 0—200° for giving the temperature of the steam bath.	1
Two spiral condensers ...	set.
Glass beads, etc. ...	set.
Stand with clamp and boss ...	set.
Two Beckmann burners ...	set.
Ring burner head for these ...	set.
Landsberger's Molecular weight determination apparatus.	set.
Richard's Thermo regulator ...	1
Pocket Spectroscope, with comparison prism, illuminating mirror and adjustable slit.	1
Spectrum tubes filled with Helium ...	1
„ „ „ „ Argon ...	1
Eiloart's solid formulæ models, etc. ...	set.
Stand for the above	2
Models, etc., complete set of 12 rubber-fittings, 48 coloured balls, etc.	set.
Copper gauze, 90 holes to an inch ...	2 sq. ft.
Filter paper, washed with H Cl. and H F for quantitative work No. 589 (2) white ribbon—	
9 cm.	560
11 cm.	100
(3) Blue ribbon 9 cm.	100
11 „	100
(4) Yellow ribbon 9 cm.	200

Approximate cost Rs. 600.

Reagents, etc., for lecture work.

Approximate cost (one year's supply) Rs. 300.

C.—M.A. OR M.SC. STANDARD.

An additional supply of organic and rare inorganic substances will be necessary.

Approximate minimum cost Rs. 1,000.

GOVERNMENT OF INDIA.

HOME DEPARTMENT.

ESTABLISHMENTS.
